### BISHOP RIX HIT BY CAR

#### Is In Hospital Suffering From Broken Rib and Shock; On Way to Church

Rt. Rev. G. A. Rix, Bishop of Caledonia, is a patient in the Prince Rupert General Hospital suffering from a broken rib and shock as a result of being struck down by an automobile at 7:25 last evening as he was proceeding to evening service at St. Andrew's Anglican Cathedral. William White was the driver of the car—a taxi—which struck the bishop. The car had just turned off McBride Street and was proceeding east along Sixth Avenue. The bishop was walking in the opposite direction.

White will be charged in city police court with driving to the common danger. Bishop Rix was resting as comfortably as could be expected, it was reported today.

### Important Episode In Development of City Is Being Carried Out

#### Mayor C. H. Orme Officially Switches On New Electrical Energy Which Is Expected to Mean a Great Deal to Prince Rupert

An event of outstanding importance in the history and development of Prince Rupert is being enacted today at Falls River where Mayor C. H. Orme is this afternoon officially turning on the new power development of the Power Corporation of Canada. It is anticipated that it will be the first step in an era of industrial expansion which

the city has long hoped for but which has been delayed through lack of adequate power development. The ceremony is being witnessed by a large party of leading citizens of Prince Rupert including Mayor C. H. Orme, members of the city council and Chamber of Commerce and leaders in the business and professional life of the city. The party left here at 9 o'clock this morning on a special train for Haysport whence they proceeded by gasboats across the Skeena River and up the Ecstall River to Falls River. Following the tendering of a luncheon to the visitors the official switching on of the new power took place. The party is due to return to the city at 7:30 this evening and the switching on of the new ornamental street lighting system will then take place with Mrs. C. H. Orme, wife of the mayor, officiating.

H. E. Pawson, assistant commercial manager of the Power Corporation of Canada, is representing the parent company at the official opening proceedings. This afternoon, Mrs. J. J. Little, wife of the general manager of the Northern British Columbia Power Co., is entertaining at an afternoon tea to mark socially the official opening of the new power development. This evening, a dance is being given by the Moose Lodge to celebrate the occasion.

Full reports of the power opening proceedings will be given tomorrow in a special 18-page issue of the Daily News which will also include many special articles with profuse illustrations as well as the ordinary news features of the day.

### TO HELP FARMERS

#### Seed Cleaning and Dairy Demonstration Car to Tour Saskatchewan

WINNIPEG, Dec. 1.—The Saskatchewan field crops branch and dairy branch of the Department of Agriculture, co-operating with the Canadian National Railways, will operate a seed cleaning and dairy demonstration movement over Canadian National lines in Saskatchewan commencing today and closing January 30. The train consists of two demonstration cars, one lecture coach and a staff car and will operate for the entire two months with the exception of 10 days during the Christmas season. It is the intention of the field crops branch to demonstrate, at some 45 points of call, seed cleaning machinery of various types, showing results which are to be obtained from these efficient aids in the preparation of grain for seed and commercial purposes. Special emphasis will be given to the preparation of exhibit material for the seed grain shows, this feature being of vital importance at this time in view of the approaching World's Grain Show at Regina in 1932.

The Dominion seed branch is co-operating and a representative of that body will accompany the train to discuss seed grades. The dairy branch, under the direction of Percy Reed, dairy commissioner for Saskatchewan, will have a special section devoted to the interests of the industry dealing with the production and marketing of dairy products.

**MADE IN CANADA GIFTS**

The minister of trade and commerce is today making an appeal to Canadians to buy such Christmas gifts as will give employment to Canadian people. He quotes a number of figures to show what a great thing it would be for the country if people would buy Canadian made goods. He estimates conservatively that Canadians spend \$75,000,000 a year on gifts. If this were spent in Canada for goods made in Canada it would be a great help in the present unemployment period.

We think that when Mr. Stevens says Canadians give \$50,000,000 worth of goods to friends and relatives at Christmas he is underestimating rather than over. We can all endorse the idea of the minister of trade and think when we are spending our money. This is a time when all could take a little thought for the good of our country.

**FRANCE AS CUSTOMER**

If it is true that France is to buy considerable Canadian wheat it will help out the present situation. What is needed is such demand that the price will go up, not perhaps to the level where it was last year but to a point where the Canadian growers will be able to make a living from marketing the product.

**FISH PRICES AND WHEAT**

In Prince Rupert we have complained often at the low price of fish, both halibut and salmon. Yet we have no cause to complain considering the price of wheat. The staple food of the world has dropped to less than half its former price but fish has not gone down that far. Today farmers can scarcely raise wheat at a profit yet during the past year a good many fishermen made good profits, especially in the salmon fisheries. We have cause to congratulate ourselves that fish has kept its price so well.

**Feel Young Again  
Enjoy Hard Work**

Millions of men and women all over the world take Kruschen Salts daily—not because they are really sick, mind you—but because they know the little daily dose of Kruschen keeps them always lit, energetic and free from fat, and also keeps the system free from over-acidity.  
People who take Kruschen Salts in a glass of hot water every morning won't have headaches, and are always free from constipation, depression, dizziness, coated tongue and unpleasant breath.  
They have no poisons in their system because the action of Kruschen Salts on the liver, kidneys and bowels causes perfect and regular elimination.  
If you want joyous health and glorious vigor—if you want to work hard and enjoy your work—try taking Kruschen Salts every day—millions of people are enjoying their daily labours, thanks to the "little daily dose" of Kruschen.

**MAYORALTY TERM**

Editor, Daily News:  
In reply to your request for an expression of opinion relative to a two-year term for mayor, we record our opposition.  
A few years ago ex-president Coolidge was urged to be a candidate in the 1928 campaign. He absolutely refused. He claimed that even the best of supermen had after all only a limited amount of good ideas and that they should be able to give effect to their very best in four years. During long terms of office men were able to forget the good promises and virtuous past and fall victims to the snares of evil. This theory is supported by much of the evidence produced at many of the investigations in civic corruption in several U. S. and Canadian cities. The New York Times just now is printing a series of articles on "Corruption in Civic Administration." Long term in office for mayor and aldermen, while not proven as a cause for corrupt government, is emphatically shown to be conducive to it.

Some, few, years ago one of the largest labor unions in B.C. altered their constitution so as to prevent members from holding office more than one year. Other have since adopted the same precaution. Our provincial government, both past and present change police officers from place to place quite frequently.

The two-year term would tend to lengthen the mayor's term of office. The two-year term for aldermen which was foisted on us by the B. C. Union of Municipalities as an experiment has not improved civic government. Many claim it has made some aldermen careless for the first year and a-half of office. As Mr. Wesch pointed out Saturday, we must have an election every year in any event. How quiet it would be without a mayor to elect! An acclamation for mayor gave us an example of this in Rupert a few years ago.

We fall to see any reform in the suggestion—merely change. We let us have change and demand from our mayoralty candidate that they give the city some definite ideal to fight for. Almost any one can preside at a meeting. But it evidently would take a real-estate man to give us an active elevator or a busy drydock. If either suggestion is not big enough let us have a map that will camp on Henry Ford's door-step. Two weeks ago Mr. Ford announced that his company will immediately spend \$60,000,000 in new plants—five in United States and three of them on the Pacific Coast—one in Seattle (capacity 300 cars per day and to employ 2,000 men) one at Long Beach to employ 2,600 and one at Richmond, Cal., 2,400. Get a "live wire" after Ford. The C.N.R. have here thousands of feet of idle trackage. The power company must have at least 2000 h.p. they would like to sell. Both would join forces in boosting for a Ford plant. No other city in British Columbia has more advantage nor could any other offer the Ford Company better terms than Prince Rupert. British Columbia does not need as large a plant as Seattle but we do need to escape carrying the burden of paying freight from Ontario.

Just recently we had a mayor with a vision of a big power plant. Tonight we see the bright lights. To the man who grasps the Ford idea or its equivalent and converts it into an operating plant, we will give our votes as long as he continues to dream dreams and see visions. When he can give us no more he should make room for another who can.

Large Congregation Turned Out Last Night For Special Addresses and Songs

There was a large congregation at St. Paul's Lutheran Church last night to enjoy a special musical program. The Varden Choir gave four splendid selections and Peter Lien rendered two fine organ solos. Paul Olsen of Bella Coola sang an acceptable solo and played the guitar.

Speeches were given by Paul Olsen and Thor Hofstad after which the choir sang another special song. The pastor, Rev. John Hanson, presided.

"Is it the stopping that does it?"  
"No ma'am."  
"Then what is it?"  
"Answering questions, ma'am."

The professor's wife was speaking. "I must say, James," she said, "that you do not look so well dressed as you used to."

"That's strange," said the professor thoughtfully, "for they are the same clothes."

**Small Fire Loss  
Here In November**

Outbreak at Home of G. W. Nickerson Saturday Was Only One Where Damage Was Done

On Saturday at noon the fire department had a call to the residence of G. W. Nickerson, Fifth Avenue West, where a slight fire had broken out in the kitchen through roofing material being heated on an electric range. The blaze was soon put out although damage, possibly to the extent of \$25 or so, was done. This was the only fire during the month of November in which any damage was done although the department responded to five calls during the month.

So far this year, the city fire department has responded to 71 alarms and the total loss is estimated at \$31,514.70. Last year up to November 30, there were 46 alarms turned in with loss estimated at \$2,558.

November 29th, 1930.

To Christmas Shoppers,  
Everywhere in Canada.

**Choose Gifts that Give Canadians Jobs!**

What do you suppose is the size of Canada's annual gift bill? Would it surprise you to learn that it is vastly greater than the sum voted by Parliament in September last for the relief of unemployment? Note the following, and you will realize that it must be so.

To begin with, everyone of her 10,000,000 people has a birthday each year. If only one in five receives a birthday gift, and it is worth only a dollar, there is \$2,000,000 to begin with.

About 70,000 weddings take place in Canada each year. At the low average of \$100 for the presents sent each bride, there is another \$7,000,000. And at least 500,000 of the wedding anniversaries celebrated each year are marked by a gift to the wife costing at the very least \$5. So there is another \$2,500,000.

There are over 1,800,000 mothers in Canada and about the same number of fathers—say 3,500,000 in all. With Mother's Day and Father's Day observed as widely as they are, another \$1,000,000 for gifts for them is easily accounted for.

Other huge sums are spent for gifts to sweethearts, for bridge prizes, and for trophies for every conceivable kind of contest.

And commencing now, and continuing for the next three weeks, comes the great annual round of gift buying that marks the Christmas season. Computing the per capita Christmas shopping bill at only \$5.00, the aggregate for that alone would be \$50,000,000!

All told, Canadians probably spend well over \$75,000,000 a year on things to be given away, sometimes as rewards but mostly as tokens of esteem or affection! And if we assume that in the production of every \$7,500 worth of such goods, as sold at retail, steady employment has been given to one person, it follows that Canada's annual gift bill is sufficient to keep 10,000 producers busy the year round!

With unemployment so prevalent in all parts of the country, with so many of our fellow Canadians dependant upon charity even for the bare necessities of life, don't you agree with me that the moral obligation rests heavily on all of us to govern our Christmas gift buying by the "Produced-in-Canada" policy, to the end that it will help to give some fellow citizen a job?

Another point! For our personal consumption we buy what we specifically require, but for gift purposes we buy anything that we think will prove acceptable to the recipient. That being the case, shouldn't it always be easy to find, among the many splendid things that are produced in Canada, something that is suitable alike to the person and to the occasion?

Remembering that this is the season of peace on earth and good will to man, and that the relieving of unemployment is one of the most ideal ways of spreading Christmas cheer, may I not plead with all of you to restrict your Christmas buying as far as possible to things that have been produced in Canada, so that in addition to bringing joy to the recipients of your favour, you will be conferring great happiness on some fellow Canadian who is now out of work!

Very sincerely yours,

*H. F. Stevens*  
Minister of Trade and Commerce.

## PLANE IS SALVAGED

Fleetster Machine of Pacific International Airways Extricated From Ice In North

The Fleetster plane of the Pacific International Airways, which went through shell ice while taxiing on Sawmill Lake near Telegraph Creek last Wednesday afternoon when preparing to take off for Atlin and became partially submerged, was extricated from the ice last evening, the Government Telegraphs report. The plane is reported to be in fairly good condition despite its immersion but will have to be given a thorough overhaul before it will be in shape to fly again.

It is understood that there is no hope of salvaging a Fairchild plane of the company which crashed into a wooded hillside the same afternoon while also preparing to take off for Atlin.

The Fleetster was successfully raised by using pontoons made of logs and air-filled barrels under the forward part of the ship, leaving only the wheels frozen in. After there had been sufficient frost, the wheels were chopped out of the ice and changed to skis.

When Pilot E. L. Wasson returns from his search for Capt. E. J. A. Burke, the Pacific International Airways plan on getting him to fly from Whitehorse to Telegraph Creek and bring in some equipment and parts to replace those damaged on the Fleetster.

Pilot Harry Blunt, who was injured in the Fairchild crash, is now much better and is said to be out of danger.

The weather is getting colder and, with 40 below temperature now in the Yukon, a severe cold snap is expected here.

Pilot Wasson has not yet returned to Whitehorse from his inspection of the Burke plane and search for its occupants.
