CANADA MAY BUILD AIRSHIP UNDER PROPOSED SCHEME

Definite Plans Made For Airship Service Between Canada and Britain Involving Building Ship in Canada

Scheme Laid Before Premier Who Gives Encouragement and Will Now Be Taken Up With British Government—R-100 Leaving Tomorrow Night

OTTAWA, Aug. 12.—Definite plans for the early establishment of a British Canadian airship service across the Atlantic, embracing as a distinct possibility the construction in Canada in the near future of an Atlantic type of airship, were laid today before Premier Bennett by Sir Denistoun Burney, constructor of the R-100.

Sir Denistoun described the interview with the Premier as "most satisfactory" and indicated he was now in a position to further discuss the matter with the British government.

ST. HUBERT, Aug. 12.—The R-100 will cast off for her return voyage to England at 10 o'clock tomorrow night.

LITTLE LAD DROWNS AT VANCOUVER

Eight-Year-Old Tried to Save Little Girl and Lost Own Life at Spanish Banks Beach

VANCOUVER, Aug. 12.—Eight-year-old Robert Ames of Vancouver was drowned yesterday when he attempted to rescue a little girl companion, Phyllis Foster, also aged eight, who got into deep water at Spanish Banks beach.

Robert got beyond his own depth and meanwhile others rescued the girl but could not save the boy.

Fish Packer Is Salvaged By Chelac II

The Pacific Salvage Company's tug Chelac II arrived in port last evening having in tow the fish packer C. N. This boat was sunk near Kitkatla about the first of May and the Pacific Salvage Company recently got orders to salvage it. They have been working at it for some time and it was brought to the local dry dock last night where the damage is being surveyed and necessary repairs made.

SALMON RUN STILL HEAVY

Pinks Running at Queen Charlottes Sockeye Falling Off

The salmon fishing run is still very heavy though the sockeye run is falling off. On the Skeena the average is 25 sockeye and 200 pinks. The high gill netter was 1,100 pinks in a day. The run of pinks continues heavy.

A close season for sockeye has been declared at Smith's and Rivers Inlet for nets with a less than 6 1/2 inch mesh. There are 20 boats fishing for coho there.

It is reported that no canneries will be operated at Rivers Inlet in the fall but that all fish will be sent to Namu.

At the Queen Charlotte Islands the run of pinks is fair so far.

ADDITION TO SCHOOL

Catholic Building Receiving An Important New Wing On Fifth Avenue

To provide extra accommodation for an increasing school population and also rooms for parochial purposes, additions are being made to the Catholic School Hall at the corner of 5th Avenue and Fulton Street.

The addition, 25 feet by 60 feet, is being built on the west side of the present building and it will be two storeys high. This will give two extra rooms on each floor. Of these some will be used as classrooms and some will be available for church purposes. The work will be completed before the school reopens in the fall.

FISH SALES

Five American boats sold 121,000 pounds halibut on the local fish exchange this morning with prices rather better, varying from 9.30 and 4c to as high as 12.20 and 5c which the Galcier obtained for 8-000.

Canadian There were no Canadian sales.

American Eagle, 40,000, at 10.20 and 4c, to Atlin Fish Company. El Dorado, 26,000 pounds, at 9.30 and 4c, to Pacific Fish Co. Atlantic, 28,000 pounds, at 10.20 and 4c, to Booth Fisheries. Democrat, 9,000 pounds, at 10.60 and 4c, to Cold Storage. Glacier, 8,000 pounds, at 12.20 and 5c, to Booth Fish Co.

Massett Man Goes to Hospital

E. H. Simpson of the Langara Fishing and Packing Company was brought in to the hospital this morning on the Cancolin from Massett. Mr. Simpson has been ill with bronchitis but his condition became serious to necessitate oxygen treatment and it was to secure this that he was brought to town.

DAVID IS FIRST BOAT IN SERVICE

Left This Afternoon With Captain Neddin in Command on Seattle-Victoria-Vancouver Run

VANCOUVER, Aug. 12.—Despite the fact that the new Canadian National steamship pier here was totally destroyed by fire on Sunday afternoon, the tri-city daily service which will connect the ports of Seattle, Victoria and Vancouver resumed as scheduled at two o'clock this afternoon, as Prince David, with Captain H. M. Neddin in command.

The new pier which when completed would have been constructed at a cost of approximately a million dollars, was burned in a comparatively few minutes on Sunday afternoon. The flames spread with amazing rapidity and fortunately no ships were tied up.

The tri-city service which will be operated daily with the palatial new coastal liner Prince David, is being resumed after an absence of seven years. All was in readiness to handle the service from the new pier at the foot of Main Street, but because of the fire a berth at the Ballantyne pier at the foot of Healey Avenue will be used.

This pier will be used by both the tri-city service boats and the Prince Rupert and Alaskan boats until further notice.

Robert Creelman, passenger traffic manager for the western region arrived in Vancouver this morning for the inauguration of the tri-city service.

HULL FOLK MEET AMY

Presentation and Banquet Is Given Miss Johnson in Own Home Town

HULL, England, Aug. 12.—Miss Amy Johnson was acclaimed by her townspeople yesterday, a huge crowd gathered to greet her as she landed at the airdrome in her own plane, Jason, in a perfect landing.

At the City Hall Miss Johnson received an illuminated address and silver globe upon which the route of her flight was engraved. Last night she was given a reception and banquet at the Guild Hall.

THE WEATHER

Port Simpson—Overcast, calm, 64. Haysport—Clear, calm, 64. Terrace—Cloudy, calm, 64. Rosswood—Cloudy, calm, 60. Aiyansh—Cloudy, calm, 60. Alice Arm—Cloudy, calm, 60. Anyox—Cloudy, calm, 58. Stewart—Raining, calm, mild. Hazelton—Part cloudy, windy, 66. Smithers—Clear, calm, 60. Burns Lake—Clear, calm.

Set New Altitude Record

Major Carl Spatz (left) congratulates Capt. H. M. Elmendorf, squadron commander, following altitude record set by United States army pursuit squadron flying to 25,500 feet in formation at San Diego, Calif.

TARIFF BD. ABOLISHED

New Body Will Be Appointed Under Act of Parliament Yet to Be Passed

OTTAWA, Aug. 12.—The tariff advisory board, a creation of the late Mackenzie King Government, has been abolished and will be replaced by a new body to be constituted under authority of an act of Parliament, Premier Bennett announced last night.

Calgary Stock Brokers Fail

CALGARY, Aug. 12.—All trading accounts of the firm of G. F. Tull & Arden Ltd., were being closed out at market prices on various exchanges today following assignment of the company to Western Trust Co.

SAVED ARMY DIED TODAY

Gen. Sir Horace Smith Dorrien Passed Away Aged 72

CHIPPENHAM, Eng., Aug. 12.—General Sir Horace Smith Dorrien, aged 72, one of Britain's most famous soldiers, died this morning without regaining consciousness after an automobile accident yesterday in which he received head injuries.

He commanded the second army of the British Expeditionary Force in 1914-15 and generally is credited with saving the British forces from disaster at Mons when he stood and fought instead of retreating as ordered. He retired from the army in 1923.

Price of Wheat

VANCOUVER, Aug. 12.—The price of wheat at the Vancouver today was 95c a bushel.

Remarkable Run of Salmon Today Up McNicholl Creek Just Across Prince Rupert Harbor May Be Seen

One of the most remarkable sights that can be seen anywhere is of the salmon this year at McNicholl Creek. The like of it has not been seen in twenty years. It is computed that there are at least 100,000 salmon in a struggling mauling mass and that there must be at least as high as 100 in the air at one time, leaping out of the water.

The water is thick with the fish and the countless dorsal fins showing above are like weeds floating on the surface. A few fish can make their way up the creek but as soon as there is rain and the creek rises there will be a veritable stampede, and later it is all too probable that very few people will find it desirable to boat in that vicinity. It will be even more odoriferous than the reduction plant.

Engineer Gwyer Back From North

District Engineer Gwyer, returned yesterday from a tour of Atlin, Taku and other northern points. He was able to use an airplane with advantage on part of the route thus saving a great many days. Mr. Gwyer says Atlin is quite prosperous as the gold diggings are still producing and there is always a ready market for gold.

An unskilable mail pouch, designed for use on ocean liners, has been invented.

V.A.C. Baseball Team To Play Game Series During Fair Week

League Leaders of Vancouver to Come North and Play Three Games in Prince Rupert Against Best Nine in City

Arrangements were completed last evening for the Vancouver Athletic Club baseball team, now the league leaders of Vancouver City, to visit Prince Rupert and play a series of games during fair week.

The team, which is generally looked upon as the classiest in the province, is expected to arrive on Wednesday, September 3 and while here will play a series of three games in connection with the fall fair activities.

The visit is arranged by the Prince Rupert Baseball Association and will be solely under their management, the Fair Board agreeing that they shall have the use of the grounds for the purpose and the co-operation of the board in publicity and other matters.

Naturally Prince Rupert baseball players are elated at being enabled to try their skill against such a team. It was generally felt here that no team in the north could be secured that would make the local boys extend themselves but this team, ranked as the best in all B. C., will be another story. The best possible team will be picked and doubtless the members will practice faithfully so that the north may make a good showing against the south.

ARRANGEMENTS FOR FINANCING NEW WHEAT CROP

OTTAWA, Aug. 12.—Arrangements for financing Canada's 1930 wheat crop have been effected following a conference here between Premier Bennett and the premiers of the three prairie provinces.

HEAT WAVE CONTINUES

United States Suffering Terribly From Drought and Cities Almost Without Water

WASHINGTON, D.C., Aug. 12.—Despatches received here from various parts of the country indicate that drought conditions are continuing with little sign of relief.

At Indianapolis the city is on the verge of a water famine and a number of other cities are in desperate straits.

West of the Rocky Mountains many forest fires are reported destroying much valuable timber.

Victim of Auto Accident Makes Progress Hospital

No further developments have taken place in the case of Joe Schnord who was struck by an automobile early on Sunday morning. In addition to head wounds an x-ray shows that a small bone in one leg was broken and one shoulder badly bruised. He is progressing favorably.

Strong suspicion is felt that the guilty person is known but at present the evidence is not strong enough to warrant a prosecution.

Mayor Orme was a passenger on the Prince George last evening on his way to Vancouver.

CHICAGO IS LEADER IN NATIONAL

NEW YORK, Aug. 12.—In the National League, St. Louis staged a ninth inning rally, scored three runs to overcome the Brooklyn lead and win 7-6. This also displaced Brooklyn as league leaders, Chicago now going into the lead by a one point margin. Chicago won over Boston 4-2. Pittsburgh hit three New York pitchers at opportune moments to take the final game of the series after losing the first three.

In the American League St. Louis stopped the winning streak of six games of the Yankees by winning the final games of the series. Chicago beat the Athletics in the final game of the series too.

National League New York 5, Pittsburg 8. Philadelphia 2, Cincinnati 4. Boston 2, Chicago 4. Brooklyn 6, St. Louis 7.

American League Chicago 8, Philadelphia 3. Detroit 1, Boston 5. Cleveland 2, Washington 9. St. Louis 10, New York 5.

AFRIDI TRIBESMEN FORCED TO RETIRE BY ROYAL AIR FORCE

SIMLA, India, Aug. 12.—Afriidi tribesmen withdrew in considerable numbers from the Peshawar district and from Kahajuri plain toward tribal territory today under fire of the Royal Air Force bombers. PESHAWAR, India, Aug. 12.—British airmen rescued a few remaining women of Parachinar today when Afridi tribesmen joined by the Orakzais shifted their attack from Peshawar westward to that city.

BASEBALL FOR FAIR

The bringing of the V. A. C. baseball team from Vancouver for the fair is a move that will undoubtedly prove very popular here. Local ball players have had an idea of touring the south on several occasions but have found it impossible to get away. Now they will have the opportunity to try their skill against what is looked upon as the best team in the province. If they make a good showing, as is confidently expected of them, they will know better what to do.

Most people like watching baseball. It is undoubtedly the favorite attraction in Prince Rupert and in most other centres. People from the district will here have an opportunity of seeing some good games without going south. It should be a great attraction and should bring hundreds to the fair who otherwise might not come.

NATIVE CONGRESS

Under the auspices of the Salvation Army a native religious congress will be held in Prince Rupert for the first time this year. On former occasions the event has been held at Port Essington of some other up-river centre. The decision to hold it in Prince Rupert is a compliment to the city and doubtless the citizens will reciprocate by lending all possible aid to make it a success.

Prince Rupert appreciates the visits of the natives from the surrounding villages. The people of the city point with pride to the wonderful changes which have taken place and to the fact that the native people are taking their places as important factors in the development of the northern and central part of the province. The choice of the city for this important occasion will mean another step forward toward bringing the peoples together and securing for them a standing which they otherwise would not have. We are glad to have the opportunity of extending to them a welcome.

CYCLES AND POLITICS

Mr. King and the Liberals came into power at a time of business depression, says the Financial Post. They rode upward with the country on the cycle of prosperity and took a great deal of credit to themselves for having created that prosperity. But when the cycle moved on remorselessly again to something like depression the Conservatives blamed the Liberals for hard times.

Mr. Bennett and the Conservatives are going into power at a time of business depression. But, in the words of the popular song now current: "good times are coming" and Mr. Bennett and his colleagues will no doubt not fail to point the moral. But hard times will come again (recent events having demonstrated that business cycles are still with us) and then no doubt Mr. Bennett and the Conservatives will blame world conditions and the Liberals will blame the Conservatives.

Canada has its ups and downs (though mostly ups) whether Conservatives or Liberals are in power. No government at Ottawa has ever shown any ability to control the business cycle and the degree to which any of them has modified the effect of the business cycle on Canada has not varied much between governments of different political affiliations.

Nevertheless, the party in power will always continue to take credit for good times and the opposition will retaliate by waiting for bad times and then blaming them on the government. It is a little game of political make believe, most people know that it is, but it goes on just the same and will continue until human nature and politicians change.

DEATH RATE IS HIGHER

Also More Marriages, But Fewer Births In Year 1929

The Preliminary Report of Vital Statistics of Canada for 1929, issued by the Dominion Bureau of Statistics, shows a decrease of 1,842 in the number of births, an increase of 4,393 in deaths and an increase of 2,954 in marriages as compared with the preceding year.

Living births in 1929 numbered 234,915 giving a rate of 24 per 1,000 population. This rate compared with 24.5 in 1928, 24.6 in 1927 and 24.8 in 1926. There were 113,450 deaths in 1929 and the death rate was 11.6 per 1,000 population, as against 11.3 in 1928, 11.1 in 1927 and 11.5 in 1926. The pronounced increase in 1929 in the number of deaths and the death rate was largely due to the influenza epidemic which had its peak in January of that year. Deaths assigned to this cause numbered 7,165 during the years as compared with 4,703 in 1928, 3,451 in 1927 and 5,174 in 1926. The influenza death rate in 1929 was 73 per 100,000 as against 49 in 1928, 36 in 1927 and 55 in 1926. Diphtheria accounted for 981 deaths in 1929, giving a rate of 19 per 100,000; whooping cough for 755 deaths and a rate of 8; measles, 619 deaths and a rate of 6; typhoid fever for 497 deaths and a rate of 5; scarlet fever for 440 deaths and a rate of 4.5. The deaths from measles showed an increase of 282 over the preceding year, but were almost identical with the number in 1927.

The 1929 death rate from diseases of the heart was 135 per 100,000 which compared with 131 in 1928, 124 in 1927 and 122 in 1926. The cancer rate was 90 in 1929, against 88 in the preceding year, 83 in 1927 and 81 in 1926. Amongst other important causes in 1929 were pneumonia with a rate of 86, tuberculosis with 79.5, diseases of the arteries with 61, nephritis with 58 and diarrhoea and enteritis (mainly amongst infants) with 50 per 100,000 population.

Violent deaths numbered 7,136 during 1929, and the rate of 73 per 100,000. Traffic accidents contributed 2,198 deaths to the total, and in 1,294 of these cases automobiles were involved. Accidental drownings numbered 947. There were 834 suicides in 1929, this figure comparing with 751 in 1928, 759 in 1927 and 680 in 1926. The number of homicides in 1929 was 181.

Deaths of infants under one year of age totalled 21,657 during the year under review, giving a rate of 92 per 1,000 births. The corresponding rates of earlier years were 89.1 in 1928, 94 in 1927 and 102 in 1926. All provinces except Quebec showed higher rates of infant mortality in 1929 than in 1928. In the province named the rate fell from 134 in 1928 to 120.5 in 1929.

Marriages numbered 77,265 during the year under review, as compared with 74,311 in 1928, 69,515 in 1927 and 66,658 in 1926. The rate for 1929 was 7.9 per 1,000 population against 7.7 in the preceding year, 7.3 in 1927 and 7.1 in 1926. In the eight provinces comprising the Registration Area as of 1921, the number of marriages and the marriage rate were higher in 1929 than in any other year during the period 1921 to 1929.

Secured Damages of a Farthing

SHANKLIN, Isle of Wight, Aug. 12—Before the Lord Chief Justice and a special jury in the King's Bench Division the hearing was resumed of the libel action brought by Miss Mollie Frances Hunt, of Elm Grove, Guernsey, suing through her aunt, Mrs. H. A. Hobson, as her next friend, against Miss Kathleen May Damon, the head mistress of girls' school at Upper Chine, Shanklin.

Miss Hunt complained that she was wrongfully expelled from the school by Miss Damon, who afterwards wrote to her mother and aunt alleging that she had been guilty of disobedience and disloyalty. Miss Damon denied the allegations and pleaded that the words complained of were true and written without malice or a privileged occasion. A farthing's damages for the plaintiff was the decision of the judge and jury.

Magnesium, discovered 122 years ago now is used for fireworks, airplane accessories, optical and motion picture industries, machine shops, building, medicine and perfumery.

ODD ISLAND SOUTH SEAS

Inhabitants Tall and Handsome But Island Flat and Sometimes Inundated

SAN FRANCISCO, Aug. 12—A story about an unrequited island in the South Seas where the temperature averages 95 degrees the year around and "which is popu-

lated by extremely tall women and men as handsome as any I ever have seen" was brought here by the captain of a tramp steamer.

C. N. Olsen, master of the freighter Golden Eagle, told how he steamed 100 miles off his course to take five white adventurers from Sydney, Australia, to the island, 22 miles long and quite narrow. It is only four feet above sea level and at high tide is partly submerged.

Despite the small area, Olsen said, there were at least 4,000 inhabitants. Because of the absence of soil there are no fruits or vegetables

grown, the people subsisting on fish and coconuts.

"What impressed us most," said the captain, "was the rugged health and seeming vitality of the natives. They appeared a mixture of Malay, Polynesian and Polynesian. The men were giants in stature and the women tall and slender.

"At dinner time each family gathered around a huge sea-shell containing about 10 gallons of coconut and fish mush. With hand-carved ladles they dip freely into the family bowl. After dinner we were entertained by the village orchestra. It was a pagan spectacle

characteristic of the South Seas—sinuous gyrations to the rhythmic beat of tom-tom music. The palest noon I ever saw hung low over the palm trees.

"Finally, we counted noses to make sure none of the crew had been kidnapped by the native huns, rowed back to the ship, and proceeded to San Francisco."

A device has been perfected to double the crop of lobsters. It is a specially perforated tube which drives a stream of water between the young crustaceans and keeps them separate from one another.

Prince Rupert!

Mecca of all Northern B.C. during Fair Week September 2nd to 5th

Now that Prince Rupert is about to have a forward movement, two local institutions are well worthy of consideration and support as being important factors in that movement. They are:

The Annual Fall Fair The Prince Rupert Daily News

Out of town people are recommended to make their plans now to attend the Fall Fair which promises to be the biggest and best ever held in the city, and to enter their exhibits with Secretary Vance at once.

They are also recommended to see that their subscriptions to the Daily News are paid up so that they may keep in touch with all the forward movements. It is a daily record of the doings of the district and a support of all that is best for Northern and Central B. C.

High Lights in Program

Greenville Celebrated Native Band.

Prince Rupert Boys' Band.

Quby's eight famous fluffy white poodles which give a wonderful vaudeville act with two people.

A juggling and acrobatic dance act known as Adolphe and Cynthia.

Ken Ross the acrobat and equilibrist in clever exhibitions of his skill.

Bill Badely and his shows will be here. They are now touring the fairs in Alberta with Merry-go-round, boxers and wrestlers and eight other side shows and all will be here and the boxers and wrestlers will be willing to take on all comers.

BASEBALL GAMES WITH OUTSIDE TEAM.

Mrs. S. D. Macdonald and daughter were passengers on the Prince Charles yesterday afternoon for the Queen Charlotte Islands where they will holiday at Tiell.

Sisters Madeline and Canjus were passengers on the ss. Prince Charles yesterday making the round trip to Anyox, Stewart and Queen Charlotte Islands.

The executive of the Prince Rupert branch of the Canadian Legion of the British Empire Service League held their regular meeting in the club rooms last evening. President Jas. Smith presiding. The regular general monthly meeting of the Legion will be held tomorrow.

CONSTRUCTIVE SUGGESTIONS WELCOMED

Open Session of State Health Insurance and Maternity Benefits Commission to Be Held in Prince Rupert

The Provincial Royal Commission on State Health Insurance and Maternity Benefits proposals is to hold an open meeting at the Prince Rupert Court House Saturday evening, August 16, to hear any representations that may be made by residents of the northern areas touching matters within the scope of the Commission's investigation. The Commissioners invite the attendance of all interested in the subjects of the inquiry and will be glad to hear as witnesses individual citizens or representatives of public or semi-public bodies, industrial organizations, fraternal orders, trades unions, social or hospital workers, medical men, etc., who may be able to offer constructive suggestions as to the possible economical operation of public health insurance or maternity benefits in British Columbia, or give any new reasons for or against state health insurance proposals as they now are fairly well understood in this province. Copies of the Commission's Progress Report presented at the last session of the legislature are available upon request from the secretary at Victoria. Au. 9, 12, 13, 15.

Correct Diet Builds Body, Gives Energy

BY EDWINA NOLAN

Director of Home Service, General Electric Refrigeration Department

HOUSEWIVES are hearing a great deal these days about vitamins, proteins and carbohydrates; about mineral elements in food, about food preservation and about what goes on the family table.

The body requires fuel to carry on its various functions; it burns up the food and takes out what it needs. It uses certain foods as a source of energy, others as building material and others to regulate body processes.

Energy is derived, we are told by biochemists, from fats—butter, cream, salad oils, sausage meat, bacon and other fatty meats; from carbohydrates, such as flour cereals, rice, macaroni, potatoes and sugary foods; and from proteins, such as milk, meat, legumes, fish, eggs, nuts, cheese.

Building material comes from mineral elements, abundant in milk, eggs, fruits, green or leafy vegeta-

bles; from water in milk, and all common foods except fats, sugars and starches; and from proteins.

Foods to regulate body processes are found in mineral elements, water and vitamins, the latter being abundant in milk, eggs, leafy vegetables, raw fruits and vegetables.

Now, how may the housewife select from this list the proper combination of foods so that her menu will furnish everything the body needs? Dr. E. V. McCollum, noted biochemist and discoverer of important vitamins, says that if certain foods are first provided, then the rest of the menu may be planned to suit individual taste. First allow, he says, a quart of milk each day for each person; serve one cooked leafy vegetable each day; serve an uncooked fruit or raw vegetable twice a day. Protective foods, of course, also are perishable and they must be kept properly refrigerated to be wholesome and to retain their best flavor and full amount of food value.

Investigating Fish Hatching

ST. ANDREWS, N.B., Aug. 12—An experimental fish hatchery, one-storey high, 40 feet long and 20 feet wide, has been erected on the grounds of the Atlantic Biological Station here. It is being supplied with both fresh and salt water. In it the principles and methods for the successful hatching of eggs of many kinds of fish are to be developed. Prior to the building of the hatchery, various sources of water supply for hatching purposes in the neighboring districts were examined, chiefly regarding temperature. Hatching experiments with trout and salmon eggs were carried on during the winter in the open in four springs and two streams.

Further Remand of Eight Days in Election Cases

Magistrate McClymont yesterday granted a further remand of eight days in the election cases of Capt. McLean, Chief Engineer Davis and Frank Morris in which charges have been made in connection with alleged wrongful voting. The cases will be called again next Monday and as that is the day on which the official counting of ballots commences, it is possible that the prosecution may then ask for a further adjournment.

A new chemical process for separating the complete fibrous contents of flax from the straw has recently been invented in Germany. The flax produced is soft and lustrous and while retaining all its strength (twice that of cotton) can be produced at 30% less than the cost of cotton fibre.

These wives of ours!

We took them from the shelter of their families, gave them two or three rooms and a share of our salary—then left them sitting there among the wedding presents, a bit bewildered.

But they knew how—these wives of ours. They knew how to make rooms into homes, and how to get more merchandise out of a dollar bill than we ever could. We're lucky to have wives. How do they do it?

Look through this paper, day after day. You will find advertisements covering almost every human need. They are filled with hints for the household, hints for health, hints for clothing, hints for keeping young. They are virtually little essays on life. No wonder these wives of ours follow them so carefully. As one wise wife said: "It isn't so much that I know housekeeping so well. I know where to learn it!"

Most advertising is prepared especially for women. Read it. It forms an authoritative textbook on good housekeeping.

WORLD SPORT WITH PEN AND CAMERA

ENTRIES IN MARATHON FOR WOMEN

Event at Toronto This Year Will See Many of Noted Canadian Swimmers Taking Part

TORONTO, Aug. 12.—There will be a number of well known swimmers taking part in the big women's marathon here August 22.

Among the fair swimmers, the current titleholder, Martha Norelius is, by her marriage to the Canadian oarsman, Joe Wright Jr., a Canadian, and will, if she swims, which is indefinite, be entered as a Canadian.

Olive Gatterdam, Seattle school girl, who came within a few yards of taking the title from Ethel Hertie in 1928 has now adopted the Dominion as her home. Last year, she did not rank in the money and is, therefore, redoubling her training efforts for this race.

In 1928, the red headed Ruth Tower of Denver, an unknown among marine stars, landed in third place after a great performance. In 1929, she moved up one place and stuck right to the heels of the great Norelius all the way to finish second. In the meantime, she, too, has turned Canadian. She is now Mrs. G. H. Corsan Jr., of Toronto. Never having failed to place among the prize winners, she hopes to progress to the pinnacle this trip and left for the Muskoka Lakes weeks ago to devote herself entirely to training.

Then, the Dominion has a somewhat spectacular unknown who is apt to come through and stage a surprise. She is the 18 year old Joan Foord of Toronto. In November, 1928, she came, alone and intent on making her own career, from London, England. In August of last year two weeks before the race, she was holidaying at Georgian Bay. She made the discovery that she was a natural distance swimmer and, after urging, entered the race. With only a few days training and no coach, she did 8 1/2 miles and was in ninth place when she stopped.

Though it passed unnoticed, she gave what was, all things being considered, probably the most brilliant performance of the lot. This year, she has been training since June. Her speed has increased to a noticeable degree and so have her powers of endurance since she has perfected her style and it is now less tiring but just as powerful. Her chances of getting into the money are excellent. If she does she intends to use the dividends to start her own business in this country.

On the other hand, England has sent over her most recent Channel conqueror, Lady Sharp, to try and take the crown to Britain. Her arrival was followed by that of a second strong English entry, Violette Scott. Then Ethel Hertie, blonde Bronx flash who won the title in 1928 but was wrapped in romance last year, sprang a surprise. The day after the 1928 swim, she married Prem Gary and it was understood that she was out of competition.

Only a few days ago, the news leaked out that this was anything but true. She has been in a secluded section of the Adirondacks for several weeks, training under the mentor who coached her for her original win, Clarabelle Barrett, and getting ready for a determined attempt to regain the honors.

That gives the 10-mile parade of the mermaids a vigorous outlook. Possibilities for the 15-mile open race are equally bright and the con-

Interesting view of annual Italian waiters' race around the ancient Coliseum in Rome, Italy.

FIELD AND TRACK MEET AT CHICAGO

British Contestants at Empire Games Will Proceed to Try Tests With U. S.

On August 27, after the conclusion of the Empire Games at Hamilton, a meet will take place at Chicago between the United States and the British Empire. One unique feature of this dual meet is that all the events are on a relay basis. There will be regular relay foot races in which teams of four runners will compete in the 400 yards, one mile, two mile and four mile as well as steeplechases and hurdle races. The team idea continues in the high jump, broad jump, pole vault, shot put, hammer and javelin throwing events where each side enters a team of three contestants and the team with the highest aggregate of performances in each event wins that event.

This, it is said, is one way of meeting the argument against developing one superman. Many games such as polo, baseball, cricket, football and doubles in tennis all call for team work and co-operation while the ordinary running event depends on the individual who is running for his own glory and this tends to develop a selfish attitude.

tenders almost excessively numerous. As usual, there is a large contingent of Europeans. Ernst Vierkoetter, however, is now a naturalized Canadian and very proud of it. He has brought his family from Germany and has spent the larger portion of his prize money on a home for them. In practice swims, he is in fine form.

Mendell Burditt, of Toronto, but formerly of Winnipeg, Isador Sponder of Port Colbourne, Ont., Meyer Mendelsohn of Montreal, and a westerner with quite an aquatic past, Bob Connelly of North Battleford, Sask.; must all be considered in making calculations. Connelly, a C. N. R. switchman, got his experience in Florida and placed well up in a Key West marathon.

Motion pictures made inside a living human lung were exhibited recently in Germany.

ELKS MEET CENTRALS

Good Game Expected Tonight Between Tied Teams

To-night in the City Baseball League Centrals and Elks meet. At present these two teams are equal with one win each to their credit in the second half of the season's schedule and each has lost two games. The result of the game therefore means much and a keen contest is anticipated. In addition the players will from now on be trying to make good in the hope of being chosen to play against the Vancouver Athletic Baseball team which will be here during Fair week.

Centrals will be strengthened by the return of Joe Gavin who will hold down third base. Batteries will be Chenoski and McEwan for Centrals and Loblick and Alex Mitchell for the Elks.

Football Game At Anyox Proved Very Attractive

ANYOX, Aug. 12.—A large crowd of fans witnessed a clean game of football recently in which the Mine eleven showed their superiority. The Mine fielded their usual all-star team, whilst the Smelter made several changes. Amongst the most noticeable of these improvements was S. Peel at centre forward who played fast and tricky football, ably supported by Donaldson at inside left. H. Spencer played his initial game this season at left back and fully warranted his inclusion in the team. Peters at centre half worked very hard and for his efforts should have been rewarded with a goal in the closing stages of the game but luck was against him. For the Mine, Morrison gave a splendid display of real soccer, and gave the fans their ten cents worth. Max Legg at full back was as safe as usual and J. Dixon his partner was just as good. Pynn was called upon several times and made spectacular saves, whilst Hunter had more work to do than Pynn.

League positions to date are:
Celts 1 Mine 2 Smelter 3

Shuchona II Is In For Repairs

The fish packer Shuchona II was placed on the pontoons at the local dry dock this morning for repairs. She has been under charter to the Inverness Cannery and in the neighborhood of Butedale Cannery apparently struck a submerged log. She was able to come to the local dock under her own power where the damage is being surveyed preparatory to having the necessary repairs completed.

Miniature Golf Possible Here

There is a possibility of miniature golf being played in Prince Rupert and several local people are looking into its possibilities. The Edmonton Bulletin, discussing the game there, says:

"Played with a putter on a good surface of cotton seed hulls, miniature golf has become such a craze in some of the bigger eastern cities that the courses are kept open day and night to accommodate the players who want to 'shoot.' That

it will be popular here also seems certain. The layout on Jasper is a tricky one, with a variety of holes calling for considerable skill. There will be a lot of 'putting' and not a little 'taking' before long just off the city's main thoroughfare."

BASEBALL SCHEDULE

Aug. 12—Elks vs. Centrals.
Aug. 14—Centrals vs. S. O. C.
Aug. 19—S. O. C. vs. Elks.
Aug. 21—Centrals vs. Elks.

Believed to be the world's smallest tractor, this little machine took two years to build and cost \$2,500. It is one-fifteenth the regular size.

Sport Chat

It is now planned to play the football game between the Oldtimers and the Present-timers on Friday, August 23. The committee are taking in hand the arrangements for the game and it is understood that the proceeds will be earmarked for the Y. M. C. A. gymnasium and swimming tank fund.

Habitues of the waterfront were interested on Saturday in watching a game of deck tennis that was being played on the Prince Henry. The game is played with small rope rings, large enough to be caught readily by the hand. There is a net stretched with the top about six feet above the ground. The game is played similarly to tennis but the rings are caught and thrown backwards and forwards across the net. It is a fast enough game and calls for a considerable amount of dexterity, agility and court craft.

Percy Williams has come into his own again and with his beating of the native Canadian record for the 100 metres has proved that he still is in the very forefront of the world's sprinters. His win is not a world's record as first reported but he may accomplish even that if hard pushed at Hamilton.

Scotland got off again to her football season when the Scottish League resumed operations on Saturday last. In the first division the defeat of Hearts at home by Hamilton Academicals by 4 clear goals was notable. The two newcomers who have been promoted from the second division are Leith Athletic who at home drew with Falkirk 2-2 and East Fife who were beaten on their opponents' ground at Motherwell by 4-1.

In the second division of the Scottish League St. Johnstone who were demoted from the first division at the end of last season, playing at home beat Arbroath easily 6-1 and Dundee United also demoted, playing away from home accounted for Armadale 4-1.

The English football season does not commence till August 30.

Wally Hammond the test match cricketer though more famous with the bat than with the ball bowled finely last week to take 12 of Glamorgan's wickets for 74 runs.

Jack Hobbs scored a fine 106 against Sussex and this augurs well for the next test match against the Australians. Hobbs is 47 and is easily the veteran of the team yet no one would suggest dropping him.

Dunc. McNaughton, the high jumper from Vancouver was placed second in the Canadian champion-

ships at Toronto. Saturday's winning jump was 6 feet, two inches short of what Duncan is credited with doing last week. There seems to be a considerable amount of criticism as to his style and this may have affected his efforts. He is to jump at the Hamilton Games and westerners are hoping that there his style will be improved and that he will bring glory to the sunset province.

Interesting comments are made on certain phases of Australian cricket and incidents in the Australian tour of the Empire in 1929-1930. This was not a test but a team picked by the Marist Cricket Club of London.

In a game against Victoria at the end of the day's play Victoria scored seven runs to win and Wood the present Australian team captain, wanted eight runs to complete his century. The next morning was raining heavily when the game should have continued. Then Wood hit a ball towards the boundary a shot worth four runs if it had crossed the boundary. Players left the field in the pouring rain while Wood and his partners ran and down the pitch watched by the two umpires. As a matter of fact the ball stopped short of the boundary so that Wood had only 99. However, no one was to raise any objection and by the time Wood made a century in a game.

By the way I. A. R. Phillips has played for Oxford, Middlesex and the Gentlemen and who played in the last test match for England is a Scotsman. He is six feet, six inches high.

Another athlete, this time in the tennis world, who looms large in the public eye, literally, is the Scotman, Lyttleton Rogers, who recently won the Canadian championship in singles by defeating the 19-year-old Dunns. Rogers is six feet, seven inches in height and has defeated every European player of note in his time or another including even French ace Henri Cochet.

HAVE YOU TRIED A CLASSIFIED

More and more people are turning to the classified columns of the Daily News to find what they want. Cars, furniture for sale, lost and found, houses to rent, for sale, positions wanted. All sorts of things are advertised there. If you do not read the classified page, get the habit now. Try it today.

Holiday Resorts

RAINBOW TROUT
Are plentiful this season in the Stuart Lake district. They take either fly or spoon. In this wide virgin country there are hundreds of miles of waterways in lake and stream with many pleasant bays and wooded lakes, unexplored by white men. Now that really good accommodation is provided and modern camping equipment is obtainable, many are taking fishing trips.
Another important attraction there is a ride or hike to the top of Mount Pope, from which a wonderful picture is seen—100 miles of lake and woods in every direction.

Spite of Low Price Silver Prosperity Mine Paying Well

Stewart subsidiary to Premier Makes Very Good Showing and Will do Better

The production and financial statement of the Prosperity Mine, Premier's latest subsidiary, for June shows production for the month of 1,760 tons, having a gross smelter value of \$54,972, which, after deducting production costs of \$29,605, and adding adjustments of \$280, leaves a net profit of \$25,647 for the month.

While these figures for May are not at hand, a comparison with the April report shows that the production in tons was greater in June by 362, but a decrease in average values of the ore from \$38.50 to \$32.37 caused a decrease of \$3,465 in the net profit.

The net profit for June is, however, considerably greater than the average monthly profit of \$18,777 for the eight months, during which 10,612 tons of ore were mined, having a gross smelter value of \$32,377, and from which a net profit of \$14,16 was gained. Except for an almost negligible amount of gold recovered, the production values from this property are almost entirely in silver, and since the company is able to operate at a profit in spite of the low price of silver, it is expected the company will be a very satisfactory money-maker when the hoped-for return of higher silver prices becomes a reality.

CONSTIPATION IS A HEALTH THIEF

Drive It from Your System with Kellogg's ALL-BRAN

Constipation steals the best out of your life. Robs you of strength, vitality, health itself! And many people do not realize that perpetual fatigue, coated tongues, bad breath, are often signs that constipation is in their system.

You must move poisonous wastes out of your system and keep them moving. But there's a right way and a wrong way. Pills, drugs and ordinary cathartics give but temporary relief—and their dose must be constantly increased to be effective.

The great natural cleanser is Kellogg's ALL-BRAN. A tasty cereal, which brings you iron for blood building—and, above all, corrects constipation. The abundant roughage in ALL-BRAN gently and naturally sweeps out poisonous wastes and impurities.

Physicians recommend ALL-BRAN. It's guaranteed. Two tablespoonfuls daily. Recurring cases—with every meal. Remember that Kellogg's is the original ALL-BRAN—the product that millions have proved effective.

You'll like the nut-like flavor of ALL-BRAN. Eat it in many ways. Delicious with milk or cream—fruits or honey added. Make muffins with it. At all grocers. Served in hotels, restaurants, dining-cars. Made by Kellogg in London, Ontario.

"Improved in Texture and Taste."

Significance of Dirigible Flight

Step Forward Taken After Late Commencement in Flight of R-100 to Canada

Many Canadians have been disappointed in the R-100, says the Financial Post of Toronto. The ship took longer to get started from Britain than they counted on. It took longer to cross the Atlantic than they expected. A windstorm, that to the average man seemed an ordinary occurrence, upset the airship's schedules for Canadian visits. The Atlantic crossing seemed to have demonstrated very little on the constructive side considering the enormous sums that have been spent to date on experimenting with and constructing the R-100 and the R-101.

Yet this is a very superficial view. Every setback that the R-100 has had has added something to aeronautical knowledge. A great German expert says that these British ships are the safest conveyances on land or sea or in the air that human ingenuity has yet devised. This is in itself a great accomplishment. Britain came late to the lighter-than-air game. As Lord Thomson, secretary of state for air, told the British Imperial Press Conference on June 27 last, the Germans were airship experts 30 years before Britain entered the field.

The Graf Zeppelin is the product of a generation of experimenting. The R-100 and the R-101 are the result of experiments begun in 1924. In six years the British have constructed a new type of ship, heavier, quieter, safer than any others. But Britain has had to train its engineers and industrialists. It has had to find and train pilots and even now has few dirigible experts in any of these branches. They will come in the future.

The recent flight of the R-100 was a significant experiment. Those most interested claim no more than that. What was planned has been completed—one short step forward has been taken, that's all.

The next step will be larger and faster dirigibles. Before the R-100 was half finished it was admitted that she should be twice as big to be of any practical value. Doubtless an immediate start on larger ships will be made.

To Canada, the tremendous fact is that a transatlantic service by dirigible is proved practical within the next 10 years, given the ships.

Canada cannot be separated from the development of transatlantic air transport. Air transport follows the shortest routes and the shortest routes between Europe, Asia and the United States and Canada all lie across Canadian territory. Canada is destined to hold the principal crossroads of air transport in the western hemisphere.

Because development and trade are stimulated by transportation it is to the best interests of Canada to foster intercontinental air transport. We cannot lose by it because no one can change the shape of the earth.

Twenty Years Ago

In Prince Rupert

The telephone bylaw having been adopted by the city council last night the system is being taken over by the city today.

A petition is being largely signed to be presented to Premier McBride asking that the government wharf at the foot of McBride Street be completed without delay.

The "Limit," one of the entrants in the Ketchikan-Vancouver long distance motorboat race, called in yesterday on her way north. The race will start next Monday and there are 15 entrants.

The value of building permits issued during the past two weeks amounts to \$57,775.

Captain Alexander arrived at Atlin yesterday with a gold brick produced on the property of the Engineer mine from 800 pounds of rock. The weight of the brick is 20 pounds eight ounces.

The Russian Academy of Science is now regarded as the highest scientific organization of the Soviet Union.

Presentation to Mrs. Fuller On Leaving City

Surprise Party From Presbyterian Church Held Party

Last evening about 8:15 a number of their friends of the Presbyterian Church caught the Fuller family unawares and took possession of their home for a few hours. The members of the party did not come empty-handed, however, and after a lively game of whist the entire group was gathered about a feast table on which there was an abundance of those delicious things that tickle the palate. Those present can testify that the ladies of the party are very proficient in the culinary art.

The repeat being over, Mrs. J. W. McKinley, president of the missionary branch of the church, as acting chairman, called on a number for remarks, each of whom responded in words fitting for the occasion.

On behalf of the group of friends, J. W. McKinley presented Mrs. Fuller with a beautiful silver sugar and cream set with tray and souvenir spoons as a token of the esteem in which she is held by all Presbyterians.

Mrs. Fuller responded feelingly stressing the fact that it was no easy matter leaving so many friends here.

Community singing was followed by violin and piano solos by Mr. and Mrs. J. B. Mackay. The party broke up about 1 a.m. after singing "For she is a jolly good fellow," and "Auld Lang Syne."

Will Attend Mine Session In Manitoba

The Pas to Be Scene of Gathering of Many Mining Men

WINNIPEG, MAN., Aug. 12—Old acquaintanceship among the mining fraternity of Canada will be renewed on September 2 when members of the Canadian Institute of Mining and Metallurgy join at the Pas on the occasion of the annual western meeting which is being held this summer in Northern Manitoba.

Dr. R. C. Wallace, first commissioner of mines for the province, and 1920 vice-president of the institute new president of the University of Alberta, will meet his successor in the commissionership. Dr. J. S. DeLury, 1930 president of the institute. Others who have intimated their intentions of attending are L. L. Boulton, M.A., B. S. Cashland, deputy minister of mines for Canada, C. H. Attwood, deputy minister of mines and natural resources for Manitoba, John McLeish, B.A., F.S.S., director of mines branch, A. W. G. Wilson, chief division of mineral resources, and mines branch; A. Busison, engineer, mines branch, Prof. T. L. Alker, University of Toronto; R. C. Rowe, editor, Canadian Mining Journal; J. McEachern, Winnipeg, superintendent Bank of Montreal; J. D. Fleck, New York; F. V. Siebert, superintendent Manitoba and Saskatchewan department of Natural Resources, Canadian National Railways; R. E. Phelan, Winnipeg; T. W. Edgar, Winnipeg; C. G. Young, Toronto; J. W. Holmes, Montreal; F. H. Edmunds, Saskatoon.

Canadian Legion New Memorial Hall Vanderhoof

VANDERHOOF, Aug. 12—The Omnicca Branch of the Canadian Legion have let the contract for building of their new Memorial Hall on Burrard Avenue to Thomas P. Smithers and Henry Stangeby. When completed this new hall will be a great credit to the village of Vanderhoof and the entire community.

The edifice will measure 40x100 feet, with an auditorium and dancing floor space of 40x65 feet, or approximately three times the size of the Community Hall. A large stage will be built measuring 16x24 feet, with dressing rooms on each side. Allowance has been made for cloak rooms, kitchen and lavatory. A most attractive entrance and lobby will make a most artistic frontispiece. Above there will be the private rooms of the members of the Canadian Legion.

Girl Married on Her Birthday

FORT FRASER, Aug. 12—Miss Thelma Tittermore, of Fort Fraser, celebrated her birthday on Thursday morning, by being married to Thomas Hawker, by the Rev. Cecil Lancaster, of the United Church of Canada, at Fort Fraser. Both contrasting parties are well known in the Fort Fraser and Fraser Lake Districts. Mrs. Hawker, in her teens, spent some time in Vanderhoof attending the Vanderhoof Public School. During the past few years she has been teaching school at Fort Fraser and in the Prince George District.

Experiments are under way at Michigan State College to see how long seeds can lie dormant underground and still sprout when planted.

KLIM MAKES IT SO EASY TO HAVE FRESH MILK

When you are away from home—enjoying the pleasures of the outdoors—is when you most need and appreciate an abundance of nature's greatest food, MILK. And KLIM makes it so easy for you to have it. No matter where you go, you can take KLIM along. It requires no ice. The changes of weather and the jolting of travel have no effect on it. For KLIM is in powder form. When you replace the water, you have rich, full-cream milk, with all the delightful flavor, all the healthful goodness of milk fresh from the dairy. KLIM takes up very little room and adds very little weight to your outfit. Once you have tried it, you'd never go away without it. Send us 10c for a trial tin.
