## Project is Taken Up By Railway Chief In Course of City Visit

"Would Be Great Thing Both For Prince Rupert and Railway If Such Plant Could Be Obtained," Says A. E. Warren

"It would be a great thing both for Prince Rupert and this line of the railway if a pulp mill should come in here," stated A. E. Warren, vice-president in charge of the western region of the Canadian National Railways, who was here over the holiday. "Naturally, the railway is keenly interested in the project," Mr. Warren added. While in Prince Rupert, Mr. Warren took opportunity to confer with local representatives of the Middle States interests who have the project for establishment of a pulp mill at

Prince Rupert under plans. He offered every possible co-operation on the part of the railway company.

Building Here is Conditional on Estimate Being Passed. Warren Says

"Providing the federal government passes the estimate for the new hotel at Prince Rupert, work on the new building will be commenced this coming fall and it is expected to have the building ready for business during the tourist season next year," declared A. E. Warren, vice-president and general manager of the western region of the Canadian National Railway at a little dinner given for him Thursday evening by the executive of the Chamber of

Commerce. Mr. Warren spoke quite optimistically of the prospects of Prince Rupert and said the operation of the new steamer Prince William, which is to make this city her base, would have a good effect here.

The western manager told the members of the board that the time had arrived when Prince Rupert's claims were being looked upon as good business for the company, and the

company was out for business. President Tinker presided and, in addition to members of the executive there were present B. T. Chappell and W. H. Tobey.

# The New Gillette Razor and Blade ... Cleans in a Jiffy without taking apart

THE old Gillette was a good servant. The New Gillette Blade and Razor is a better one very much better.

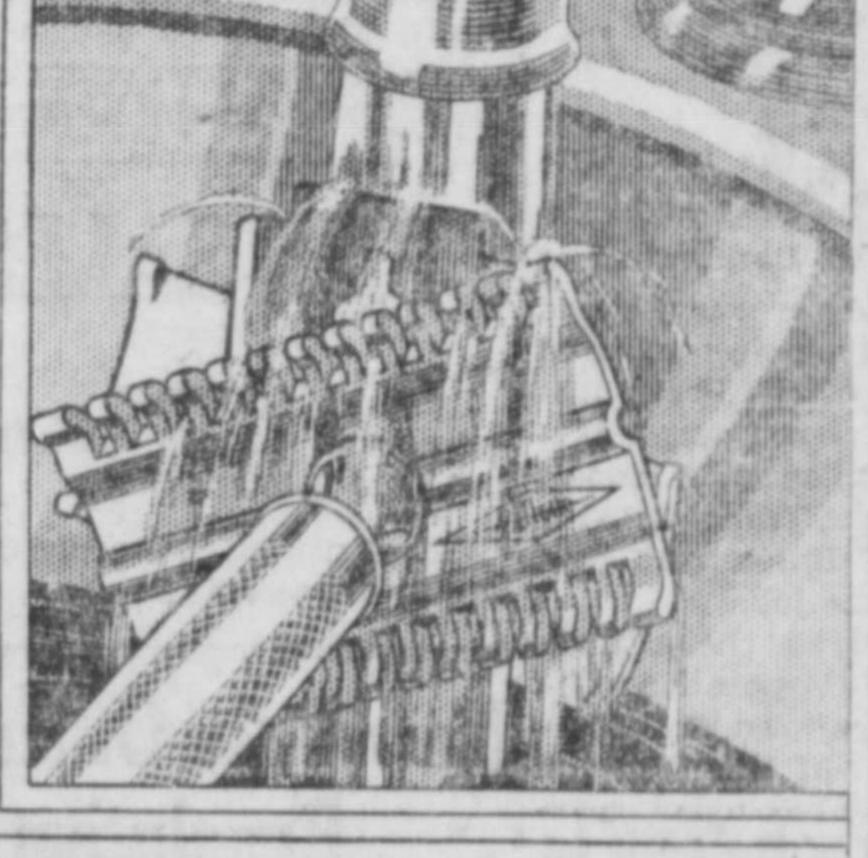

You never need waste your time wiping this razor dry. And there's never any "razor pull" to deprive you of shaving comfort. These are only two of many improvements that have been made.

In tackling the problem of "razor pull," thousands of men were interviewed. Tens of thousands of razors were examined. The evidence all pointed one way. Most razors had been dropped and the corners dented. The dent threw the blade out of alignment. And this caused "razor pull." The smallest dent could do great harm for your Gillette is a finely precisioned instrument.

Now the trouble is solved. In the New Gillette Razor the four corners have been reinforced to withstand the hardest knocks. The four corners of the new blade are cut out. The blade is not held at its corners at all when cap and guard are screwed together. There's no chance of its being thrown out of alignment even if the razor is dropped.

When you're through shaving with this new razor, there's no

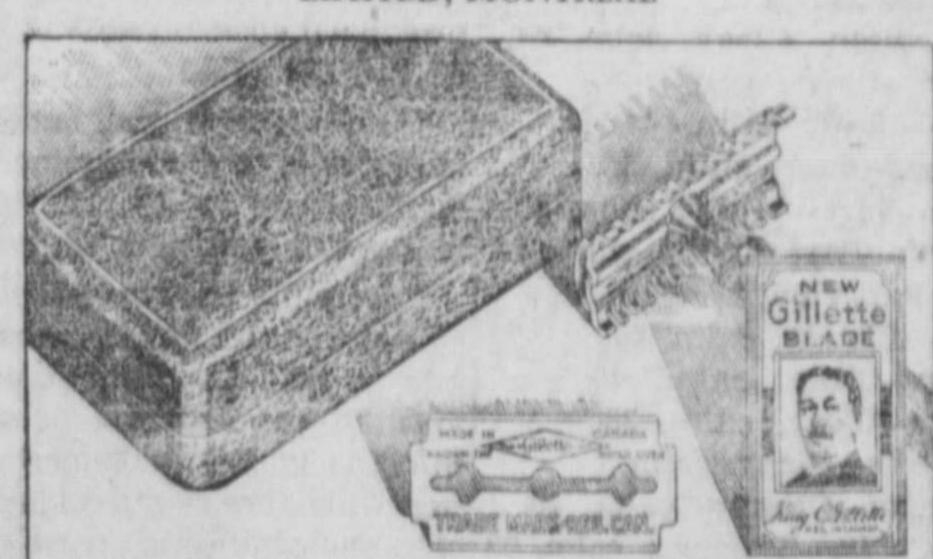

wiping necessary. You don't need to take it apart. Because this new blade is specially processed to resists rust, you merely hold razor under hot running water, shake thoroughly . . . and lay on the shelf.

Gone are the old posts that held the blade and accidentally stubbed so many keen edges. Please note, too, how the guard teeth are rounded back farther, to meet the skin more smoothly, more comfortably.

Another great convenience - the ends of the new blade are square, for safer handling with wet fingers. The square ends fit flush with cap and guard and permit closer shaving around the tight little corners of mouth, nose and ears.

Here's your chance to know how smooth a shave can be. Make it a point to stop at your Gillette dealer's

# Sleepless

WHEN YOU CAN'T SLEEP, ITS THE NERVES

In reviewing many thousands of cases in which Dr. Chase's Nerve Food was used with marked success, most patients mentioned sleeplessness as their greatest trouble.

You may be nervous, excitable, irritable and experience discomfort from indigestion and headaches, but the principal symptom is sleeplessness.

The treatment indicated is Dr. Chase's Nerve Food for by its use you feed the starved nerves back to health and vigor. This method of treatment is restorative and reconstructive and therefore of lasting benefit.

Preparations For Salmon Canning Season-Whaling Operations to Start Soon-Fur Seals Moving North

The middle of April sees preparations under way at practically all canneries in Prince Rupert district for the forthcoming salmon packing season although at the most of plants operations will not be actually under way until about June 20 with the opening of sockeye fishing. Practically all the plants which operated last year will again be run this summer. In many cases, considerable improvements are to be made before packing commences. Many cannery boats, after having wintered at Vancouver and

elsewhere in the south, have been for packing and other cannery on the Pacific Coast, have come

New Building Completed

Construction, of the new annex to the Prince Rupert Fisheries Experimental Station, as far as the present year's building goes, now practically completed. Next funds will be available to complete the interior of the imposing structure. Meantime, the basement floor is now ready to receive the refrigeration machinery for which it was designed. It is understood that tenders for the equipment are now being called and installation will be made just as soon as it arrives.

May Enter Race

It is just possible that Alex Mac-Donald, proprietor of the Summit Apartments, may enter the yacht marathon from Seattle to Prince Rupert next June with his loca Prince Rupert be suitably represented in the race which is . already commencing to attract such widespread attention all along the coast. finally decides to enter the race that he may be accompanied on the trip by Alex McRae, secretary-treasurer of the Prince Rupert Rowing & Yacht Club.

Operations of the Consolidates Whaling Corporation of Victoria at its Queen Charoltte Island station will be started in May and the big season. Various boats of the fleet will have reached Rose Harbor and Naden Harbor stations by May steam whalers will be assigned to the Rose Harbor station and two vessels will be operated out of Naden Harbor.
