Liberal Election Lead May Mount Up to 1000 Party Workers Assert

Canvass of Riding Indicates Gains in Many Polling Divisions—Central Interior, Salmon Canneries and Islands Expected to Help

Liberal federal election campaign workers manifest an enthusiasm and confidence in the present contest that has not been matched for many campaigns past. They are not worrying about their candidate, Olof Hanson, not being elected. Their speculation, indeed, is more on the question as to how large his majority may be. Reports coming into campaign headquarters from points of major as well as minor polling importance in the vast riding are heartening indeed. Some of these reports are so brilliant that they

LIBERAL MEETING

Farris and Pattullo to Be Principal Speakers at Rally Next Monday

J. W. deB. Farris K.C., former attorney-general of British Columbia, and T. D. Pattullo M.L.A., leader of the Liberal opposition in the British Columbia Legislature, will be the principal speakers at a Liberal campaign meeting in support of Olof Hanson, candidate for federal honors, which will be held in Prince Rupert on Monday evening of next week.

A. M. Manson K.C., M.L.A. for Omineca, will be here on July 26, the Saturday before election day, to close the Liberal campaign. It was also expected that Senator J. H. King would have been here but word was received here today that he had been called to Vancouver from the central interior where he has been engaged with Mr. Manson in campaigning.

Premier Criticizes Tactics Of Bennett In Addressing Immense Meetings In Home Constituency

PRINCE ALBERT, July 14:—A rapid swing in his own constituency culminating in a great mass meeting here at night made Saturday one of the busiest days that Premier King has spent thus far in his federal election campaign. At the first meeting of the day at Rasthern, the Premier voiced strong criticism of certain tactics which he said Hon. R. B. Bennett, Conservative leader, had been employing in the campaign. He said that Mr. Bennett had been going around making promises to the electors—a bridge here and some other public works there. A candidate could be disqualified in an election campaign, asserted the Premier, if he gave prizes at picnics or did anything which savored of an effort to influence the electorate.

"I believe that Mr. Bennett's action is of a character to disqualify his whole party," the Premier said. He was confident, however, that when the proper time came, the people of Canada would deal with the Opposition leader.

Mr. King gave an optimistic forecast of election results based on observations he had made thus far on the campaign tour.

In the meeting in this city, Pre-

might almost be called extravagant. A sane canvass of the situation, however, instils great hopes in party hearts. More or less impartial judges of the situation plainly foresee a Hanson victory in the offing in spite of the fact that the Conservatives have by no means, as yet, given up hope. The tendency of prognosticators, there is no doubt about it, today is distinctly Hansonwards. The general feeling of the public has in this regard had a complete revulsion since the earlier days of the campaign. That the Hanson boom will gain even greater strength in the two weeks intervening between today and election date is the confident belief of Liberal workers generally.

The Liberals are able by canvass of the polling divisions to show where they are going to be able to overcome and outstrip the lead of 321 which J. C. Brady, the Conservative candidate for re-election, had in 1926 to squeeze in ahead of Fred Stork, the Liberal candidate in that contest.

Prince Rupert, which gave Mr. Brady a lead of 75 four years ago, is admittedly fair fighting ground this year. Campaign workers know definitely of many votes that are going to move from the Conservative column then to the Liberal side now. They are willing to concede few if any that may be moving in the opposite direction. It is their opinion that Mr. Hanson will re-

Vancouver Youth Steward on Boat, Dies at Wrangell

Harold Keith Dewar Chatwin, steward on the steamer Prince Henry, who was taken seriously ill while engaged in his duties aboard the ship on its last trip north and taken off the steamer at Wrangell to enter hospital where he underwent an operation, died there last week. The body was aboard the steamer Prince George today bound for the home in Vancouver where interment will be made. The dead youth was a son of Mrs. A. G. Chatwin of Vancouver.

JOCK DUNN HAS DIED

Well Known Pioneer Boy of This City Passed Away in San Francisco on Saturday

Pioneers of this city will be shocked to learn of the death which took place on Saturday in San Francisco of Arnold Browning (Jock) Dunn, youngest son of the late Mr. and Mrs. Thomas Dunn, early residents of Prince Rupert. He had been ill only a short time.

The late Arnold Dunn, who was about 34 years of age, attended school in Prince Rupert in the early days, having lived here for several years with his family. The family moved to San Francisco about 16 years ago and three brothers and four sisters all live there with the exception of one brother, Hugh Dunn, who resides in Vancouver.

Rain Would be Welcome Now in Wheat Growing Districts of Prairies

Peace River Has Had, If Anything, Too Much Rain; Situation Is Much Better In Many Places

WINNIPEG, July 14:—Extremely hot weather, with some scattered showers and severe electrical storms, characterized the weather in the crop growing districts of Western Canada last week. Cutworm nuisance has abated but a few points report the presence of rust while other districts have suffered hail damage varying from only slight to as high as 100%. In Manitoba warm weather in the early part of the week was followed by damaging storms and high winds. The wind did more damage than the hail as telephone poles, shelter-

bells and buildings were partially destroyed while the districts centering on Birch River and immediately west of Brandon were severely hit by hail. Wheat is rapidly heading out and some districts report the percentage headed varies from 50 to almost 100%. Practically all points in this province were visited by generous rains and, where the severity of the precipitation in the form of hail did no damage, crop prospects remain excellent and with the exception of reports of rust along the Gladstone-Rosburn subdivisions no damage is recorded. The Swan River Valley has not had such favorable conditions for many years. The straw of wheat, rye, oats and barley is strong and clean although wheat heads are not exceptionally long.

Pastures are excellent and haying has commenced in Saskatchewan along the Weyburn-Avonlea-Central Butte River-Hurst-Gravelbourg subdivisions crops are in need of rain as the recent hot weather has robbed the soil of available moisture and if grain is to head normally rain in the near future is a necessity.

In a few districts adjacent to the aforementioned subdivisions, wheat is turning white at the tip due to drought and heat and straw is short. Along the Que'Appelle subdivision black rust is evident in the rye and quality of berry will be lowered considerably in the districts bound by Canora in the north, Russell in the east, Melville

The Canadian Dollar

Mr. Stevens in his North Vancouver speech last week painted his usual deplorable picture of Canada's ruin and among other false statements he said that Canadian currency—as a result of Liberal rule—was depreciated in the United States.

It is painful and calls for an expression of the most boundless energy to follow in the wake of these Tory politicians and nail down tightly their lies as fast as they are uttered. If it continues the Liberal nail keg will soon be exhausted.

Let the Financial Post of Toronto condemn Mr. Stevens. In a recent issue it said:

"Since June 5 the Canadian dollar, in terms of New York funds, has displayed greater and more continued strength than at any time during the past year and has been quoted at par, or more recently, a premium up to 30 cents per \$100."

Mr. Stevens is the last man who should make a mistake of this description, for when he and his Tory friends left office in 1921 they had dragged Canada's finances into such a mess that the Americans were paying only 82 cents for a Canadian dollar.

Most of us who visited Seattle about that time have bitter recollections of the manner in which our Canadian bills were sneered at and discounted by the hotels and the banks. Today the Canadian dollar is worth more than the dollar of the United States right on Wall Street.

But what is one little lie, more or less to "Our Harry"? He is so smooth; he puts them right over the plate, and such twisters!

Local Fisherman Dies in Portland

Eric Gunderson, well known Prince Rupert fisherman, died on July 5 in Portland, Ore., where he went in January for treatment. His demise followed upon an operation. Burial took place in Vancouver on July 11.

The late Mr. Gunderson, who was 35 years of age and a native of Norway, is survived by his father, one brother and a sister in the Old Country while four brothers live in Alaska.

Britannia Co. Drops Alice Arm Holdings

According to word received in the city, the Britannia Mining Co. has dropped its option on the Dolly Varden and Wolf mineral properties at Alice Arm. The company is still in possession of the Toric mine but, owing to the unfavorable state of the metal market, has closed down on operations on that property after having engaged in extensive development work thereon.

BOTH GOOD MEN

Pretty well everyone will agree that both of the candidates now before the electors of Skeena constituency asking to be elected are good men. Either one would be useful at Ottawa. Either would do his best to serve the people he might represent. All these things may be taken for granted.

Why then should there be a difference of opinion? For very good reasons. In the first place it is generally conceded that the Liberals will be returned to power and it would be a decided advantage to Prince Rupert to have a man there who is in sympathy with the government and who will approach them as a political friend instead of a political enemy. That is one of the outstanding reasons for electing Olof Hanson.

A second reason is because of the inherent differences between the two men. Mr. Brady is somewhat of an orator

and delights to make speeches on every possible occasion. Mr. Hanson does not like public speaking. He is a businessman who has been in the habit of going after things in a businesslike way, using business arguments rather than the reasons of the demagogue and getting what he goes after. In temperament the two men are as far apart as the poles. Mr. Brady is of the distinctly poetic type, given to the study of poetry, literature, language. Mr. Hanson is not particular about language as long as it gets him what he goes after.

There is a third reason why Olof Hanson should be chosen instead of Mr. Brady. He is a supporter of the Liberal party, devoted to Liberal principles, the principles of democracy, the greatest good for the greatest number. He supports the grandson of the great man who smashed the Tory family compact in Ontario. He believes in Mackenzie King as one of the leaders of a great democratic movement which has been gradually enveloping the world and which has for its ultimate aim the making of political conditions such that there shall be no poverty, no men out of work, no group of men lording it over their fellows, no excess of luxury on the one side and poverty on the other. On the other hand Mr. Brady has thrown in his lot with a party that has always held out for the divine right of kings and of the aristocracy to rule the world, ignoring the rights of the individual commoner except insofar as he is a cog in the great wheel that turns for the benefit of the machine above.

There probably are other reasons for the support of Olof Hanson but these are the outstanding ones, and we submit them for consideration.

Man in the Moon

Both sides are looking forward to the 28th because they both expect to win but one will be disappointed.

Politicians are people who see things on the bias.

Tories are said to be minor prophets. They see through a glass darkly. Everything looks blue to them. The only silver lining is the rather forlorn hope that they may again achieve power.

Jake says the end of the world is at hand. It will arrive when Mr. Bennett succeeds in blasting his way to foreign markets.

Now that its definitely settled that both of the local candidates will have a good majority over the other, why go on with the election?

Jack—I ate in the new cafe last night.

Jim—What did you eat?

Jack—Incubator chicken.

Jim—How did you know it was incubator chicken?

Jack—Well, no chicken with a mother could have ever gotten so tough.

"Down With Everything Except Government Pap!"

—Montreal Herald.

Hon. R. B. Bennett has two stories to tell. He denounces the Canadian Government Mercantile Marine; he objects to the development of the nation's ports; he objects to the Australian treaty and yet he expects to get support from a city that has aspirations to become a great seaport. He would erect a ring fence of tariffs that would tend to destroy trade with other countries.

After denouncing most of the work of the wicked Grits he promises government-pap to the provinces in the form of subsidies and highways, and on being asked where he will get the money, replies: "By taxation."

Last Week in The Daily News' Campaign

Final Closing to take place next Saturday, at 10 p.m.

when votes will be counted in Daily News Office

THERE IS ONLY ONE WEEK LEFT FOR CANDIDATES TO MAKE A FINAL ROUND-UP AND TURN IN THEIR BALLOTS

The coming week is the last for the candidates to make their final round-up in the Daily News campaign. The closing takes place sharp at 10 p.m. when the votes will be counted. The names of the judges will be announced before the close and they will check up all votes and make the final award.

Following the counting of the vote the drawing will take place for the gold watch which is being donated to some subscriber who pays his subscription through the candidates during the campaign.

All candidates are asked to check up their standing with the campaign manager on Saturday, after which no information will be given out until the final count.

The standing of the candidates follows:

ORANGEMEN CELEBRATE

"Glorious Twelfth" Observed With Banquet and Dance on Saturday

Loyal Orange Lodge No. 2310 and Ladies' Orange Benevolent Association No. 452 fittingly celebrated the "Grand and Glorious Twelfth" by a banquet in the Commodore Cafe, followed by a dance in the Metropole Hall, on Saturday evening.

Assembling in the Commodore at 6:30 p.m., upwards of a hundred sat down to gaily decorated tables, laden with good things to eat. After the singing of "O Canada," Grace was said by the Rev. Henry Flores and then full justice was done to the splendid repast prepared by the Commodore Cafe.

After the meal had been disposed of, the chairman, Alex McNeill, proposed the toast to "The King" which was heartily drunk. The Misses Molloy and Nellie Lawrence then gave a couple of splendidly rendered musical selections. This was followed by the toast to "The L.O.B.A. by J. A. Teng, and was applied to by Mrs. Murray. Mr. Hill-tout then favored with a solo, which was enthusiastically encored.

The principal speaker of the evening was Rev. Henry Flores who, instantly warming to his subject, kept the rapt attention of the audience as he traced the history of Protestantism from the Reformation down to the present day, and concluded by proposing the toast to the Loyal Orange Association of British America. The reply was made by J. H. Smith, who gave a resume of the activities of the Loyal Orange Association of British America from its inception, setting forth its principles, its aims and objects, seeking to prove that the Loyal Orange Association of British America had given one hundred years of patriotic service to the Dominion of Canada and the British Empire.

A solo capably rendered by Mrs. McPhee and Mrs. Waugh was the next item, and was so received by the gathering that an encore was demanded, and willingly given.

The toast to "Our Visitors" was proposed by G. Boulter, and replied to by S. M. Newton.

Following a solo by J. A. Teng, who responded to an encore, the chairman, in a short, well-chosen speech—in keeping with the occasion, concluded this part of the celebration.

After the singing of "God Save the King" the company went to the Metropole Hall where dancing, and cards were enjoyed until 11 o'clock. The "Twelfth" had been "well and truly" celebrated in Prince Rupert.

Mrs. J. S. Black was piano accompanist at the Commodore, while the Misses Lawrence and D. Eastman played for the dance.

MODERN "BOTTLE BABIES" ARE CERTAINLY LUCKY!

Scientists of every land have been seeking and experimenting to find a milk for "bottle babies" that would give these precious future citizens as good a start in the world as falls to the lot of their cousins who breast-feed on mother's milk.

They have tried every kind of milk in every modification, endeavouring to find the closest possible match for the perfect digestibility of mother's milk. And now, at last, they say they have found a wonderful match—even the frailest premature babies thrive upon it.

Two Secrets of Perfect Digestibility

This remarkable milk is unsweetened evaporated milk, which, as you doubtless know, is simply pure whole milk with part of the natural water removed, and nothing added. It is sealed in airtight cans and sterilized so nothing can affect its purity.

Two things happen to this milk which, scientists say, explain the fact that it is so much easier to digest than cow's milk in any other form. First, there is the heat of sterilization, which alters the casein so that very fine soft curds are formed, almost identical with those formed by mother's milk, while ordinary milk forms tough, solid curds, very indigestible.

The second beneficial change in unsweetened evaporated milk comes from the process called "homogenization". This process breaks up each fat globule into a thousand infinitely tiny ones, as fine as those in mother's milk. This also helps the baby's delicate stomach to

digest its food more perfectly.

Contains Needed Vitamins

Unsweetened evaporated milk is fully equal, from every nutritional standpoint, to the best bottled milk. It contains all the vitamins that any milk is depended on to supply. Even breast-fed babies nowadays are given orange juice and cod-liver oil—the only supplements needed with evaporated milk.

This milk is a splendid source of the minerals necessary to the building of sturdy bones and strong regular teeth. Safety is another advantage. Sterilization destroys all bacteria, and the baby simply can't acquire any of those milk-borne infections that upset so many bottle-fed babies.

Naturally, it is advisable to use the best evaporated milk that can be had. The most widely known brand is Carnation, the milk from "contented cows". The care with which this milk is guarded at every step, from dairy farm to final sealing and sterilizing, is a guaranty to the mother that her baby will have the purest and best of milk.

The Carnation Baby-Feeding Chart contains valuable information on this interesting subject. Please write for it, but remember that only your own physician should prescribe a formula for your baby.

I should also like to send a copy of my cook book, "My Hundred Favorite Recipes". Both publications are free, and you may obtain them by writing to Carnation Co., Limited, 134 Abbott Street, Vancouver, B.C.

ENGINEERS TO GATHER

Professional Body Will Hold Convention Here, Starting on Coming Saturday

Commencing on the coming Saturday and continuing to the following Monday and Tuesday, the Northern British Columbia branch of the Association of Professional Engineers of British Columbia will hold its annual convention in Prince Rupert with engineers from all parts of the district in attendance. An interesting program has been arranged for the occasion and one feature will be a gasboat trip for the visiting engineers to Falls River where the large power development of the Power Corporation of Canada will be inspected. Incidentally, the Power Corporation of Canada will be host at a luncheon for the visiting engineers.

In addition to the district engineers, there will be in attendance at the convention W. R. Bonnycastle and E. A. Wheatley, president and secretary respectively of the Association of Professional Engineers from Vancouver. A committee including W. K. Gwyer, Dr. Joseph T. Mandy and J. J. Little is collaborating with H. A. McLean, local chairman, in connection with the making of arrangements for this important professional meeting.

With a good-sized list of passengers including a number of tourists C.N.R., steamer Prince Charles, Capt. McKay, arrived in port on time at 11.30 this morning from Vancouver and will sail this evening for Stewart, Anxox and Massett Inlet points.

Auto Mechanics Now Organized

Officers Elected at Successful Picnic Saturday Afternoon at Salt Lake

The auto mechanics' picnic held Saturday afternoon at the Salt Lake was a great success, a fine time being enjoyed by all present. Transportation was provided by J. Armstrong and F. Rousell with their power boats. Games were played and refreshments were served.

A business session was held during the picnic and problems of importance to the members were discussed. A committee of three was appointed to meet the garage proprietors and discuss with them matters pertaining to working conditions, etc. The members are fairly conservative in their claims and expect to have the acquiescence of their employers as well as the public generally to assist them in carrying out of the provisions and rules of the new association.

F. Rousell, provincial treasurer of the association, was elected president of the local branch with William Hawes as secretary-treasurer. Meetings will be held on the first Tuesday of every month. The association expressed gratitude for help given in organization by the newspapers of the city.

EVERYBODY SEES

the ravages of the Forest Fire, but not everybody realizes that seventy per cent. of our fires in 1929 were preventable; in other words, they were due simply to carelessness. Pressure of public opinion has gone far to eliminate carelessness in other directions, but carelessness with fire is still amazingly prevalent.

San Diego Yacht In Port Saturday From Trip North

After a two and a half weeks' cruise north of here as far as Skagway, the palatial San Diego power yacht Norab, with Baron Long, millionaire hotel man and summer resort owner, and party of friends on board, arrived in port at 3 o'clock Saturday afternoon and is leaving this afternoon to cruise to Stewart and the Portland Canal before returning south.

Mr. Long stated on Saturday afternoon that this was the first point in the course of the whole cruise that real summery weather had been encountered. The fine weather tempted the party to dally here even longer.
