CHIEF TOPIC ON STREETS

Site of New Hotel Is Subject of Much Conjecture But No One Seems to Know

The one topic of conversation that seems to dominate throughout the city today is whether the hotel site will be on the Provincial Government Block, on the old site where the excavation is already prepared, or on the hill between the Canadian National dock and the Provincial Government dock.

The favorite location seems to be the old site where the hotel was originally intended to go, but each has its votaries. Many of the opinions seem to be influenced by the fact that the person has property which may benefit from the location.

While there is much conjecture, no one seems to know of a certainty.

JASPER PARK FOR TALKIE

Troop of Actors Going There to Make "The Red Sky" Picture

VANCOUVER, June 4.—For the first time the natural sounds to be heard in the mountain valleys of the Canadian Rockies will be permanently recorded on film when a unit of the Fox Film Corporation will proceed to Jasper National Park to make a talkie.

The company, headed by A. F. Erickson, director, Lois Moran, Sharon Lynn, J. M. Jerrigan, Robert Ames and other well known movie stars will arrive in Vancouver on Friday, proceeding by special Canadian National train the same evening to Jasper National Park. The company, numbering in all 75 people, will spend about three weeks in the park, making Jasper Lodge their headquarters.

Following a trip to Jasper Park several weeks ago with camera men and sound engineers, Mr. Erickson decided to use locations he then saw. During this exploration trip the party went into Maligne Lake district as well as essaying the difficult climb up Mount Edith Cavell Glacier, while a short ride into Empress Falls in Mount Robson Park was made.

"The type of scenery required for the next picture I am going to make, 'The Red Sky,'" stated Mr. Erickson, "must be spectacular. We hope to achieve something totally different from anything yet attempted in outdoor talking pictures. We desire to obtain the actual shimmer of glaciers, the realistic roar of waterfalls and all the genuine sounds that go with the outdoor atmosphere. These will be used as a background to the drama which will be a Canadian story. We found exactly that type of background we sought in Jasper Park, and are going to use it."

The making of an outdoor talkie entails a considerably larger staff and more equipment than the old style picture, according to Mr. Erickson. Recording machines, weighing nearly half a ton, are necessary and these have to be transported within a short distance of the actual scene as it is being photographed. The careful handling of these delicate instruments, with amplifiers and tubes similar to radio, necessitates a staff of competent sound engineers and assistants.

Mr. Erickson has directed several outdoor talkies for Fox including one recently shown "The Lone Star Ranger," while another "Rough Romance" is to be released shortly. Mr. Erickson has specialized as a director of outdoor sound pictures, which are much more difficult to produce than studio films.

BOARD HELD MEETING

Work on Building to Proceed and Prize Book Is Now Being Printed Ready For Distribution

Preparations for the annual fall fair are going forward steadily and the present indications are that the big event will be well ahead of past years. The prize book is now being printed and will be ready for distribution very soon. Already there is

a demand for it from those who are looking forward to taking part this year in the exhibition. Last night the Fair Board with W. H. Sherman Jr. in the chair, met in the office of the board and dealt with a number of matters. Steps were taken to secure some attractions from the south; a dancing display is being planned; music there will be in plenty because the board last night decided to engage the famous Greenville Band of 36 pieces to play in the city for four days both downtown and at the fair. The Boys' Band will also take part so there will be plenty of good music.

Authorization was given the committee to go ahead with the work on the building to make it fit for occupation.

Considerable interest is being taken by local people in the special prizes offered for a floral display.

With the steady development of gardening in Prince Rupert more people are able to exhibit than formerly and if the season is at all good a fine exhibit of flowers may be anticipated.

we hear from Mr. GEORGE STOCKWELL, of Toronto

"... and I am writing to tell you she is certainly going to be brought up on Eagle Brand Condensed Milk. Our last baby was operated on five times before he was six months old. He weighed 10 lbs. 6 oz. at one year and was practically given up by the doctors at the hospital. Ocean Falls Would Like to See Play-Off This Fall for Challenge Cup

The following letter has been received by the sporting editor of the Daily News from A. M. Charleson, president of the Ocean Falls Amateur Athletic Association:

"Five years ago our footballers annexed the Northern Challenge Cup in the city of Prince Rupert when we defeated the finalists of your territory. The following year we returned and successfully defended the silverware. The third year a team from the north visited Ocean Falls and left without the cup. For the last two years the Challenge Cup has not seen competition but has been on display in our trophy cabinet.

"We, the present holders of the cup, would very much like to know just what is wrong up there. Have you lost all hope of ever regaining the soccer championship? We would certainly like to see a play-off this fall and would ask the different football clubs to get together and give this message their serious consideration."

WHY BOYS LEAVE HOME

EVERY parent knows what self sacrifice is necessary to raise and educate a son. When boys leave home . . . go to a foreign country to seek opportunity . . . it is a definite loss, not only to the family, but to the Province of British Columbia.

They go to seek opportunity. You can help to increase the opportunities right here at home in British Columbia by insisting on B.C. made goods every time you make a purchase.

Let's stop exporting our payrolls and keep the boys at home.

High School—Stinech, Smith, Katsuyama, Green, Nakamoto, Fisher, Bartlett, Murray, Wingham, Kanaya, and Bacon.

H. L. Johnston Was In Engineering Service of Railway Here in Early Days

It will be with a sense of much regret that old timers of Prince Rupert will learn of the death a few days ago in New Westminster of H. L. Johnston, who will be remembered as civil engineer with the railway here in the Grand Trunk Pacific construction days. He was well over 60 years of age and had been an active official of the railway until a short time before his death.

The late Mr. Johnston, besides his widow, is survived by two sons, Lloyd and Alex, and a daughter, Catherine. The family, which was very well known, left here many years ago.

Deceased was the owner of a house on Fifth Avenue East at present occupied by Mr. and Mrs. E. E. Fregg.

RECITAL IS FINE

Prince Rupert Music Lovers Charmed By Viggo Kihl, Toronto Pianist

To put it simply, yet truthfully, it was a memorable treat which the Ladies' Music Club afforded music lovers of Prince Rupert last night at the United Church in presenting a recital by Viggo Kihl of the Toronto Conservatory of Music, one of Canada's foremost pianists of the day. It is difficult to avoid superlatives in commenting upon the excellent hour and a half program which Mr. Kihl rendered to the keen delectation of an audience which practically filled the auditorium and which was not hesitant in expressing its approval and appreciation of his work.

Mr. Kihl's program was a versatile one which gave him opportunity to display a fine technique and a rare touch of the keyboard. In the crescendos and the prestissimos his execution was vigorous and exact. In the pianissimos and adagios, he exhibited a control that was virtually faultless. Withal, it was a performance that a community so far afield is rarely favored enough to enjoy.

Mr. Kihl took for his opening number that gentle though exacting Prelude and Five Part Fugue in C sharp minor (Well Tempered Clavichord Vol. 1 No. 4) by Bach.

Schubert's Serenade, Liszt arrangement, that great melody, executed with fine eloquence and deep feeling, completely won the audience and proved one of the outstanding numbers of the program.

The demand for an encore which followed prompted Mr. Kihl to give Beethoven's Andante in F Major, with its characteristic melody, vagarious basses and wandering trebles, and a fitting prelude to that old favorite, Beethoven's Sonata in C Major, perhaps better known as the Waldstein Sonata, which was to follow. It was in this impetuous sonata, with its alternate statelyness, rippling melodies and picturesque climaxes, that Mr. Kihl was enabled to demonstrate the great power of his technique and the wonderful effectiveness of his control.

A long and varied number was given over to Chopin music, often difficult to appreciate than which, however, there is none more loved when comprehended. First came the Nocturne in D Flat Major, Op. 27, No. 2, liquid sweet under Mr. Kihl's hand which made every note come clear and every tone come true. Three etudes—Op. 10, No. 12 in C Minor, Op. 10, No. 3 in E Major and Op. 10, No. 7 in C Major—followed. These were invigorating and the last galloping number was particularly impressive owing to the technical skill of the artist. Barcarolle Op. 60, concluding number of this suite, was more virile than its title might imply.

At this point, Mr. Kihl interjected for an encore an easily comprehensible arrangement by Rubenstein of the ever popular "Turkish March."

Daring modern harmony gave novelty to Triana from "Iberia" by Albeniz. Perhaps, it was Mr. Kihl's treatment that made it understandable for, although unfamiliar to most, it was spontaneously appreciated.

Valse de Concert Op. 47, Glazounoff-Clumenfeld, was a happy culminating number. Forcefully working the whole keyboard, Mr. Kihl demonstrated all his talents in an obvious refrain, cleverly punctuated with skilful denouements.

It was a testimonial to Mr. Kihl's fine execution throughout of an entirely memorized program, with no relieving numbers, that his audience was loath to rise even when the program said finish. His hearers could have listened much longer but the fact that they could not possibly made for even greater appreciation.

Good Deal of Float Ice Still in Yukon River and On Atlin and Tagish Lakes

Word reaching the city from the north is to the effect that, while the ice has been loose for some weeks now, navigation on the Yukon River and on Atlin and Tagish Lakes is far from possible. There is so much broken ice in all these waters that it is impossible for boats to get through. At the same time, it is impossible to travel by the winter modes of transportation. People now getting through are doing so by means of airplane.
