Changes in Trade of Iron and Steel With States and Britain Expected

OTTAWA, May 2:-Canada's budget will affect approximately \$300,000,000 in value of United States imports, it is estimated.

The chief import from the United States on which the duty has been altered is iron and steel which will probably affect \$250,000,000 in United States imports.

Changes in the British preference, it is estimated, will affect in the neighborhood of \$200,000,000 in value of imports from Great Britain, the main item being iron and steel.

Many Industries Will Benefit From Changes Announced by Dunning

British Columbia Producers of Fruit, Vegetables and Grain to Be Protected—Reduction in Price of Tea Here

VANCOUVER, May 2:-British Columbia producers of fruit, vegetables, grains, wheat, flour and eggs are protected in the Canadian market from foreign competition by the application of countervailing duties announced by Hon. C. A. Dunning, minister of finance, in presenting his budget at Ottawa yesterday. Exemption of British grown tea from duty will make this commodity available to British Columbia consumers at a retail price reduction of slightly less than seven cents per pound, it is stated here. Mining, lumbering and fishing industries will benefit by the removal or reduction of duty on certain machinery imported into Canada which is not manufactured by the Dominion. The reduced rate on certain tractors will benefit the logging industry.

WINNIPEG, May 2:- Due to the removal in the federal budget of the tariff on British grown tea, prices BIGFREAT city's two largest departmental stores today. Sales departments noted an immediate drop in orders for coffee and a sudden surge upard in the demand for tea.

TO HELP YOU GET THOUSANDS OF MILES OF CARE-FREE, ECONOMICAL MOTORING

THE NEW FORD ROADSTER

THE assurance of good dealer service, at all times, is as much a feature of the Ford car as its beauty of line and color, safety, comfort, reliability, economy and ease of control.

In addition to the main factory at East Windsor, Ontario, assembly branches are located at Montreal, Toronto, Winnipeg and Vancouver, with sales and service branches at London, Saint John, Regina and Calgary. More than 700 Authorized Ford Dealers have been established throughout Canada to serve your needs and to see that genuine Ford parts are quickly available when needed and at a low price.

This is by far the largest automobile dealer organization in Canada and it is of great value to every Ford owner. "What kind of service will I get after I buy a car?" is always an important point to consider in the purchase of an automobile.

When you receive your Ford, the dealer will explain the simple little things that should be attended to periodically to insure the best performance. He will also tell you about the Free Inspection Service to which every purchaser of the Ford is entitled at 500, 1000 and 1500 miles.

This inspection includes a check-up of the battery, generator charging rate, distributor, carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and the chassis lubricated through the high-pressure grease gun system.

No charge whatever is made for labor or materials incidental to this service except where repairs are necessary because of accident, neglect or misuse. The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for new oil. This inspection is free for the first 1500 miles only, and is made thereafter at an equitable charge.

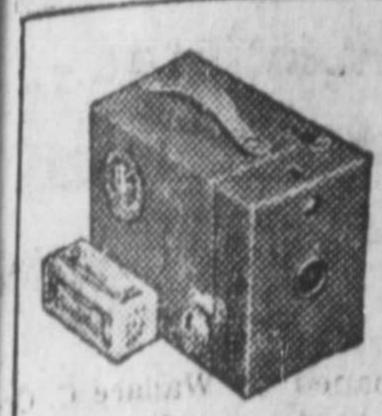

Every time you take your Ford to the dealer for oiling and greasing, it will be a good plan to have him check over important points that have a bearing on continuously good performance and tell you exactly what the car needs. You will find him prompt and business-

like, fair in his established flat rate charges for labor, and sincerely eager to do a good job at all times, so that you will get thousands of miles of enjoyable, economical motoring.

There was an off-season for millmen of Fort George district during SPRING SALE the cut is still in the mill yards. A good deal is commencing to move out now, however, and the situation looks distinctly better. A small cut of logs was made during the Over \$70 Realized at Affair of Capast winter and, if there should be a big market revival this summer, the millmen might be hard put to keep up with the demand.

With the exception of the big mill at Giscome, most of the large! mills in the district east of Prince George are in good shape for logging during the summer as their timber is all well within two miles of their mills or of water transport to them. Within this distance, it is ter logging.

WHAT HAPPENED TO CLASSICAL MUSIC LOVER ON ISLANDS

SKIDEGATE, May 2:-Capt. J. Haan, who is very fond of classical music, remonstrated with his children for always playing jazz and ordered them to shut off the phonograph. Going over to the radio, he told them to listen for he was going to turn on some real music. What should blare out of the loud speaker than "Get Away, Old Man, Get Away!" Cap. says he has given up.

THE BOY BEHIND THE BISCUIT

Ever see a boy behind a Shredded Wheat Biscuit? You will have to look quick before the biscuit disappearsbut wait and you will see him take another biscuit—and more milk. The more he chews the crisp shreds of baked whole wheat, the more he likes it—and that's the reason he is a real boy, full of bounding energy and radiant health. Just as good for grown-ups. Delicious with prunes, baked apples, sliced bananas or any fruit.
