Falls River Energy To Enter City Lines With No Perceptible Signal

Change Will Be Made Without Disturbance or Interruption—New Ornamental Lights Will Shine the Day Following

Power Corporation of Canada's construction staffs are rushing work to completion in order that the new hydro-electric plant at Falls River may be ready for operation by the end of this month and the energy from there turned into the city lines.

Telegram From Acting Premier

Prince Rupert's Request to Be Considered in Appointing New Railway Director

The city council, at its meeting last night, heard a telegram from Acting Premier Sir George Perley in reply to a wire sent by the city asking that the new director of the Canadian National Railways for British Columbia be from the northern part of the province.

Sir George's telegram intimated that Hon. Dr. R. J. Manion, minister of railways, was at present on a trip to Fort Churchill but that a copy of the telegram from Prince Rupert would be placed on his file and, no doubt, considered in connection with the making of the appointment after Dr. Manion's return.

VANCOUVER WHEAT

VANCOUVER, Oct. 14.—Wheat was quoted on the local exchange today at 69 3/4c.

Road Approach to New Floats Being Asked By Council

A letter from J. P. Forde, district engineer for the federal department of public works, Victoria, read at last night's meeting of the city council, stated that the matter of a road approach to the new fishermen's floats east of the dry dock had been referred to Ottawa but, so far, no instructions had been received as to the department's decision.

Ald. Pullen suggested that the matter might be taken up with Hon. E. N. Rhodes, minister of fisheries, who is expected to visit here before long. Acting Mayor Colliart stated that it was the intention to invite Mr. Rhodes here in the course of his forthcoming western tour.

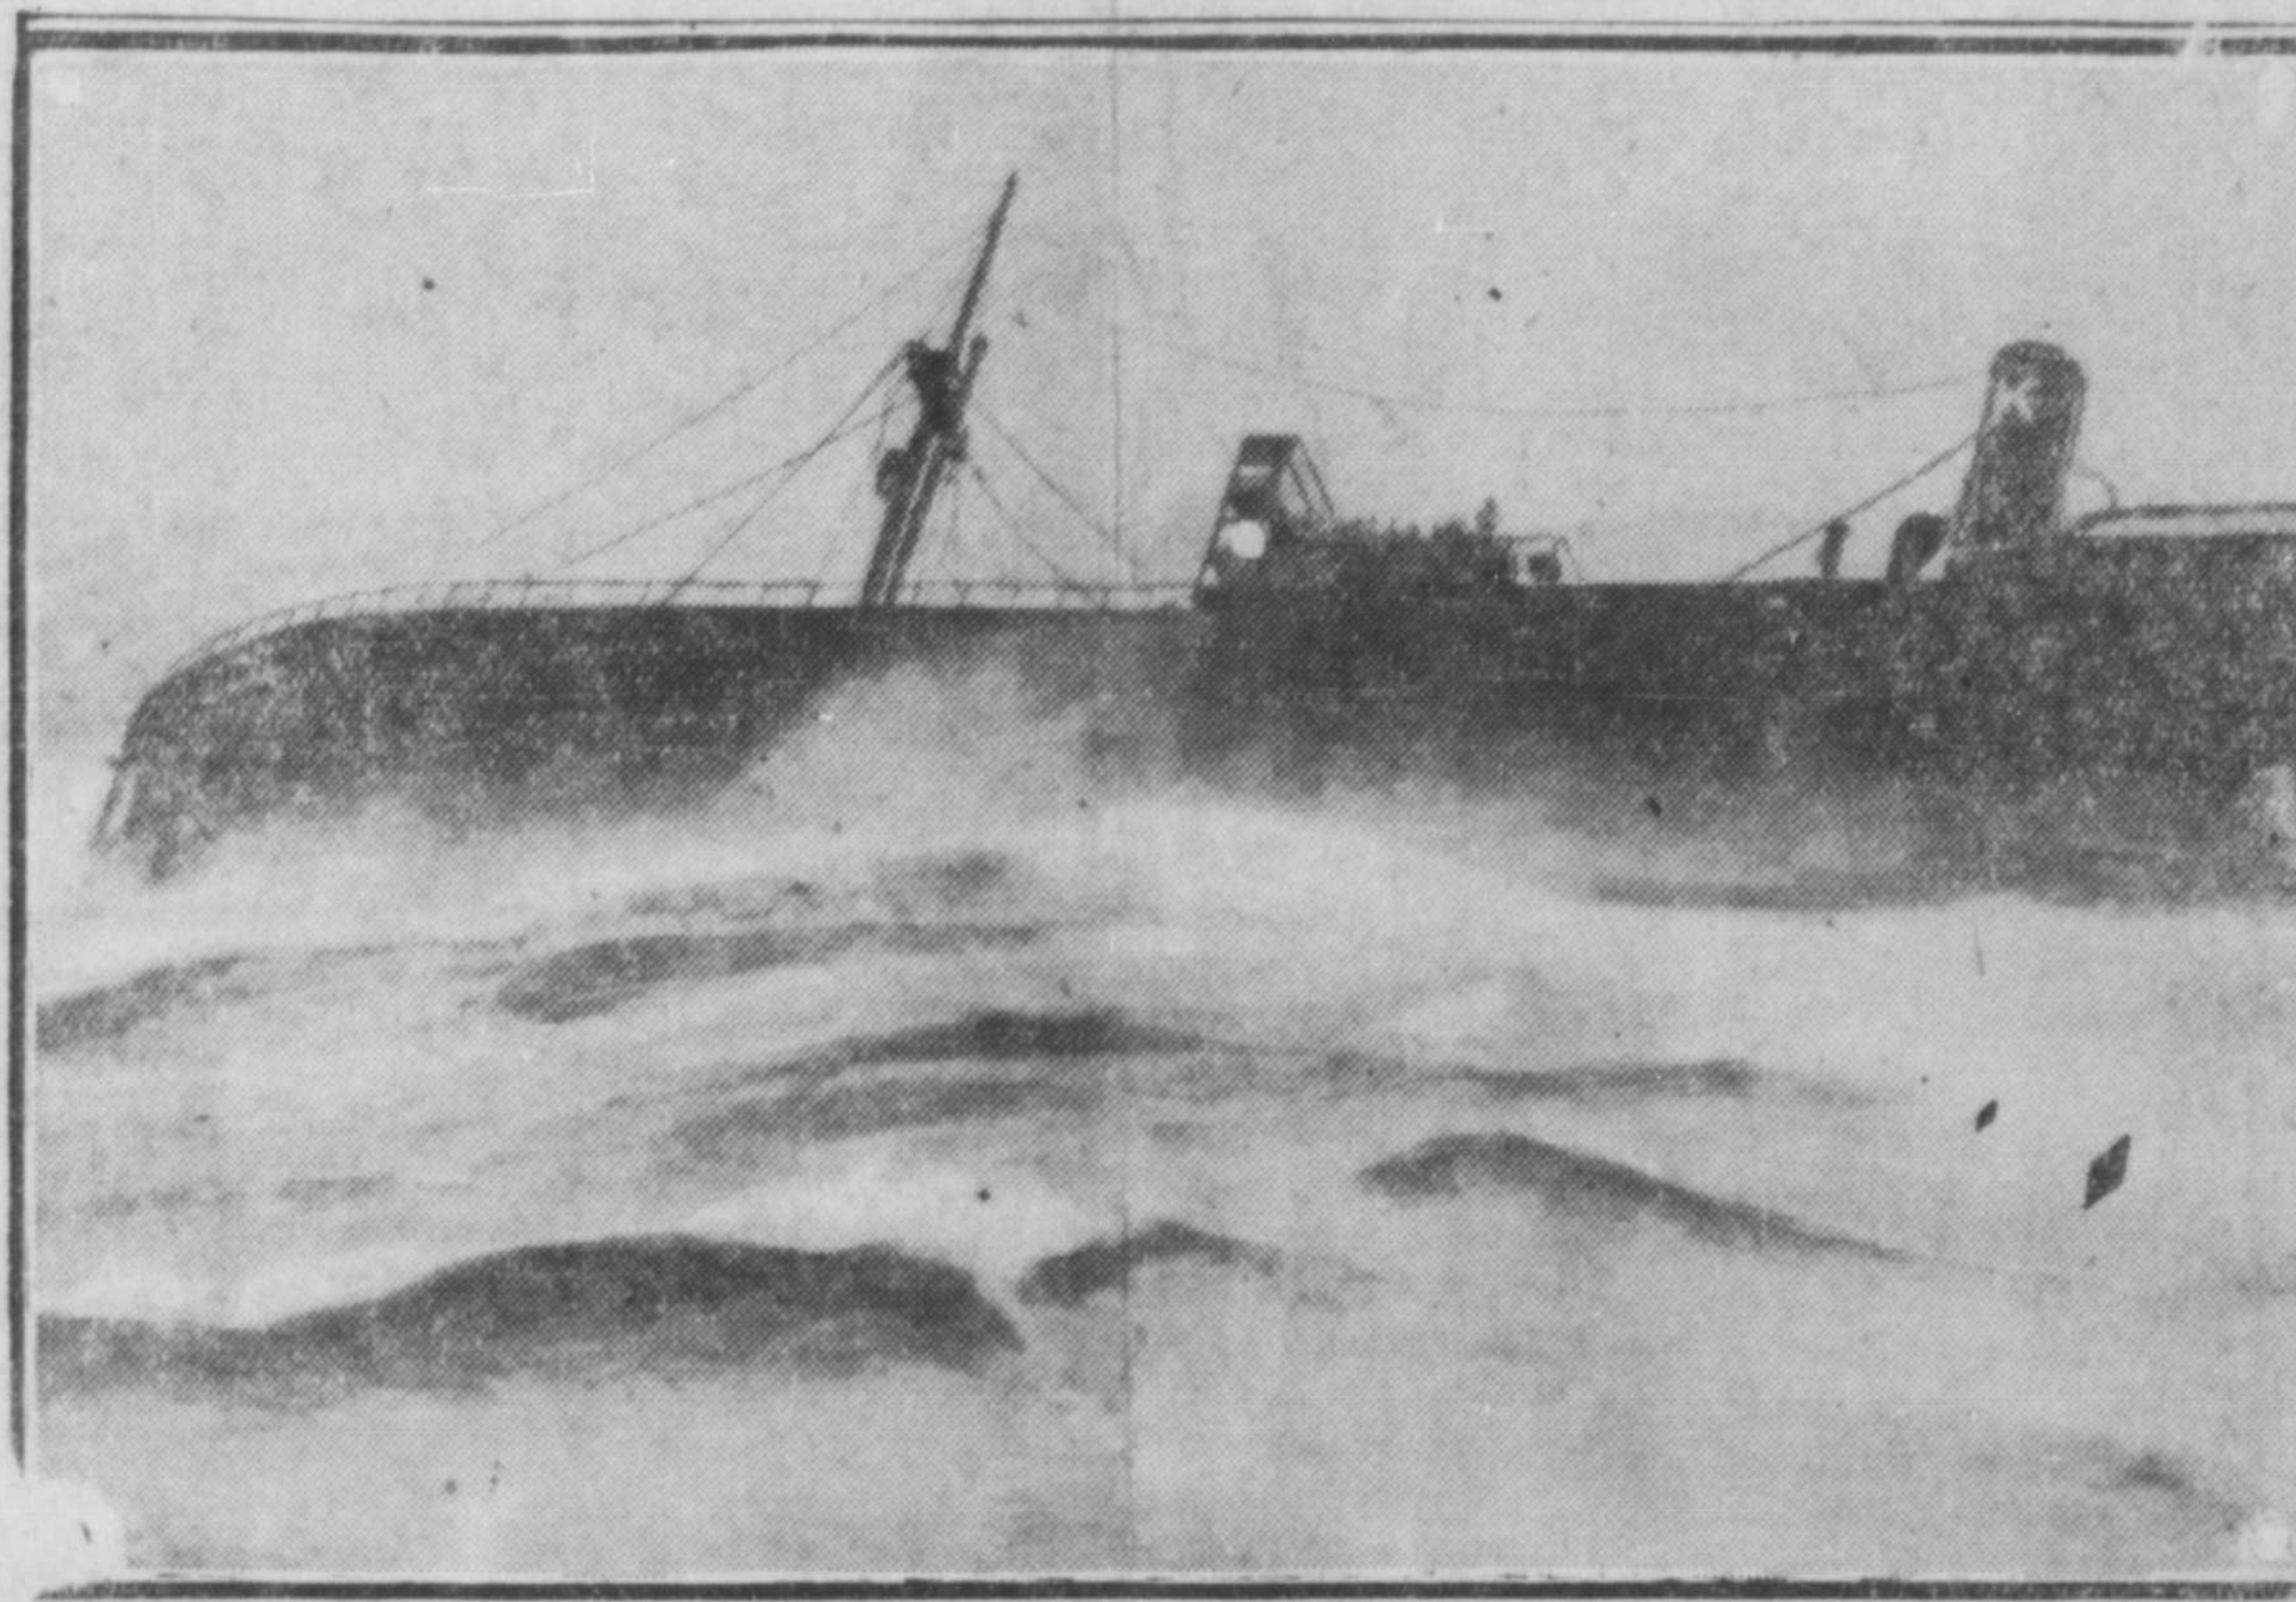

BYLAWS PASSED

Local improvement initiative by-laws covering the following works were finally reconsidered and adopted by the city council last night: Concrete sidewalk, 17 feet wide, Second Avenue, north side, Second Street to Third Street.

CARD OF THANKS

Mr and Mrs. Joseph Howe and family desire to thank their many friends for the kind expressions of sympathy shown them in their recent bereavement.

Japanese Freighter Stranded Off Halifax

Remarkable photograph, taken from ship standing helplessly by showing Japanese freighter, Raifuku Maru, going down off Halifax with her entire crew clinging to the bridge. Heavy seas prevented rescue work.

TWO YEARS FOR MAYOR

Ald. Macdonald Gives Notice of Intention to Introduce Resolution

After being informed by City Solicitor E. F. Jones that, in order to change the period of office for the mayor from one to two years, a plebiscite of the people was required, Ald. Macdonald stated at last night's meeting of the city council that it was his intention to bring in a resolution calling for the holding of such a plebiscite at the next municipal election.

BELLA COOLA WANTS ROAD

Only Fifty Miles Needs to Be Built to Give Communication With Vancouver

The residents of Bella Coola have sent petitions to Hon. Nelson S. Lougheed, provincial minister of public works, asking the completion of the Mackenzie highway and to the postmaster general at Ottawa requesting a new passenger and mail steamer service.

As far as the highway is concerned, it is nearly completed, only one section of about fifty miles around Anahim Lake being required to give Bella Coola road communication with Vancouver. Completion of the highway, it is claimed, would open up wonderful tourist attractions.

Similar petitions are to be sent by the residents of Ocean Falls. Spend your money where you earn it. Buy Curzon's Canadian-made Men's wear.

CITY INCREASES ITS WEEK BORN CHILDREN

Instead of giving one dollar as was at first proposed, the city has decided to open a bank account of five dollars for each child born during Prosperity Week between October 11 and 18, it is announced.

THREE DIE IN CRASH

Pilot and Two Priests Killed When Mission Plane Has Accident in Alaska

KOTZEBUE, Alaska, Oct. 14.—Ralph Wien, noted Alaskan aviator; Father Philip Delov, head of the Jesuit Missions in Alaska, and Father Walsh of Kotzebue Mission were killed on Sunday when the mission plane Marquette crashed. The motor seemed to stall and the ship dived to the ground, burying her nose in the frozen earth. All three occupants of the plane were instantly killed.

Leif Erikson Ladies Meet

Decide To Hold Bazaar on November 21—Whist Game Follows Meeting

The Leif Erikson Ladies' Aid met last evening at the home of Mrs. Thor Strand, Fifth Avenue East. It was decided to hold the annual bazaar on November 21.

After the business session, the ladies engaged in the playing of whist and winners were Mrs. K. Lindseth and Mrs. L. Husoy. Delicious refreshments were served by the hostess before the proceedings came to a close.

MILL FOR WOODBINE

Hugh McGuire, Managing Director of Well Known Stewart Mine, Is In Town

H. B. McGuire, managing director of the Woodbine Gold Mining Co. Ltd., arrived in the city on the Catala this morning from Stewart. Following a brief shut-down, work has been resumed now at the Woodbine mine with a crew of 12 men employed in developing gold ore disclosed by diamond drilling. A shaft, four feet by eight, is being sunk to cut this ore body at a depth of 50 feet below the main level. Samples taken from drill holes, ran as high as \$20 in gold in some instances.

When development has proceeded a little farther, the company will take up the matter of installing on the property a small test mill of 25 to 50 tons capacity or, as an alternative, sending a large sample of ore to be run by a mineralogical firm in Denver.

In the meantime, development work is being speeded up in an effort to cut the new ore body as soon as possible.

Recently, C. D. Chisholm, engineer representing the eastern interests which are backing Woodbine development, made a thorough examination of the property.

PIONEER OF NORTH DIES

Alex Chisholm, Who Was In Yukon Gold Rush, Passes Away in Smithers

SMITHERS, Oct. 14.—Alex Chisholm, well known veteran of the Trail of '98, who went overland from the Stikine River to Teslin Lake just 32 years ago, died in the local hospital from diabetes. He was born in Pictou, N.S., 70 years ago and was actively engaged in prospecting until within a few days before his death.

PACK IS GROWING

Nearly Two Million Cases of Salmon So Far Put Up on Coast

Up to October 4, the canned salmon pack on the British Columbia coast totalled 1,911,748 cases. Following were the totals for the various districts to that date:

Central area, 497,274; Skeena River, 427,143; Queen Charlotte Islands, 260,339; district three, 227,296; Fraser River, 216,070; Rivers Inlet, 119,229; Naas River, 108,847; and Smiths Inlet, 55,550.

MAY CUT DIVIDEND

Premier Co. Warns Shareholders of Decrease—Is Developing New Ground

STEWART, Oct. 14.—Accompanying the recent dividend checks sent out to shareholders of the Premier Gold Mining Company Limited was a small slip intimating that the next dividend may be somewhat reduced. The slip says:

"Due largely to the continued low price of silver which for the past three months has averaged about 35c per ounce as compared with about 53c in the year 1929 and 58c in 1928, the earnings of your company so far this year have been at the rate of slightly under \$1,000,000 per annum whereas the quarterly dividend of six cents per share is equivalent to \$1,200,000 U. S. currency per annum.

Furthermore it is important that your company conserve sufficient cash to be enabled to acquire other mining property of merit should an opportunity upon an attractive basis occur.

"Therefore it is probable that the dividend at the next quarter will be somewhat reduced."

While local shareholders have been expecting such an announcement, they find much encouragement in the fact that the company does not state outright that the dividend will be reduced and Premier's still looked upon, locally at any rate, as an attractive buy.

Unofficial reports from the mine indicate that the company plans extensive development in a section of the Premier group some distance south of the main workings and in which considerable diamond drilling is said to have been done during the past season. The area indicated includes the Cascade Falls No. 8, form a portion of the southern border of the group. The projected development is said to include the driving of a 700-foot raise, presumably from the long southerly drift known as 407 drift, which extends into the Pictou and Cascade 8 claims.

IS TYING UP HERE

To tie up here for the winter, C. N. s.s. freighter Canadian Winner, Capt. McLeod, of the Montreal-Vancouver intercoastal service arrived in port at 3 o'clock yesterday afternoon from Victoria and immediately berthed at the dry dock pier. The crew of the Canadian Winner will go south on the Prince George Thursday night.

The Canadian Winner was tied up here last winter, the Canadian Seigneur having also been here with her.

LONG HIKE MADE SAFE

Young California Couple Travelled From Prince George to Liard Post In Nine Weeks

Mr. and Mrs. William Albee, for whose safety in the wilderness of Northern British Columbia anxiety was expressed some time ago, have been successful in tramping from Prince George to Liard Post, according to word received here.

Young Albee, who is 24, and his wife, whose age is 22, left Prince George for the long hike about the middle of June. It was said by guides and other familiar with the northland that they would never be able to make it but would perish in the attempt.

Albee carried an 82-pound pack and his wife, 52 pounds. In addition, a dog was strapped with 30 pounds. The young couple hoped to make Liard Post in four weeks but, instead, it took nine weeks.

Five weeks out of Prince George, their provisions gave out and they lived for the remainder of the journey on moose meat—three times a day.

After a rest at Liard Post, the young couple planned to go across country to Dawson but, on being advised by trappers that they could not make it before the freeze-up, they changed their plans and floated down the Liard River to Dease Lake and thence to Telegraph Creek. They will spend the winter at Telegraph Creek.

Mr. and Mrs. Albee come from Glendale, California.

CALL IS EXTENDED

First Presbyterian Church Desires Rev. A. G. MacPherson For Its Pastor

The congregation of First Presbyterian Church, at a meeting last night decided to extend a call to Rev. A. Gordon MacPherson, pastor of St. Andrew's Presbyterian Church, New Westminster.

Mr. MacPherson preached here for two Sundays a few weeks ago and made such a fine impression that the congregation determined they would like to have him permanently.

Mr. MacPherson is a veteran of the Great War and married. He is at present on a holiday trip to his native home in Nova Scotia.

VISIT OF MINISTERS

On Sunday Prince Rupert had a visit from Hon. D. M. Sutherland, minister of national defence, the first of the members of the Bennett cabinet to come to Prince Rupert. While it was impossible to provide a suitable entertainment owing to the occasion, a quiet dinner was held in recognition of the event and welcomes were extended.

We repeat here what has been said before. The election is over and Premier Bennett is premier of Liberals as well as Conservatives so there should be no difference of opinion about giving the most hearty welcome possible to any members of the Bennett Government. The framers of the constitution never dreamed of the people of the country refusing to support a government once it was elected. If we did this in business when electing a board of directors we should make no headway. So in the government of the country, we must show ourselves big enough to forget the pettiness of political squabbles and back the government that has been elected. Sometimes it may be necessary to criticize their actions but it need not be done in a petty, mean spirit and constant nagging never gets one anywhere.

NEW POST OFFICE

The Daily News has been asked to continue drawing attention to the fact that a new post office is needed in the city. In this case we are not asking for unemployment relief although this will be necessary. What we want is a post office. We do not want the possibility of another delay of five years.

We never agreed with the Liberal Government in leasing a building for a post office. It was not good policy any more than was the policy of their predecessors. This is a day when governments are erecting their own buildings and particularly their post offices. Both in Canada and United States this is being done and Prince Rupert should not be omitted.

News of the Mines

AROUND PRINCE RUPERT

Duthie Mine Manager Ordered East—Babine Bonanza Name and Capitalization Change—Good Country Around Finlay River

Hopes for an early revival of operations at the Duthie mine on Hudson Bay Mountain near Smithers were dampened recently when instructions were received by A. G. Hattie, who has been in charge of the property since the management was changed and operating control passed into the hands of the Atlas Corporation, to be prepared to report for duty in Alberta or Ontario. He expects to be leaving Smithers about the middle of this month. With excellent reports and strong recommendations turned in by officials of the company, it had been considered hopeful that operations at the mine might be resumed soon, work to consist of development of new holdings, but apparently the money market and the low price of silver presented a combined problem that was sufficient to break down the splendid outlook witnessed by those who visited the property in an advisory capacity.

The Babine Bonanza Metals Ltd. has changed its name to Babine Metals Ltd. and the company's stock is also increased from 1,000,000 to 5,000,000 no par value shares. The holdings of Babine Metals consist of 33 claims covering the geological structure of the vein system as correlated by Capt. Silver, the company's field representative, and includes the famous Cronin mine, 60% of the Lewis Gold Mines, who own the Li-Li-Kell mines, a property with showings of silver, and a third holding, the Taylor mine property. Plans have been made for the installation of a 100 to 150-ton flotation mill on the Cronin property.

There is a very promising mineral country around the headwaters of the Finlay River, according to William B. George of Stewart who spent the summer prospecting in that part of the province. Mr. George, well known as the discoverer of the George Copper property on the Portland Canal district, went overland from Telegraph Creek to the north of the Finlay River and then came east about 250 miles. There is comparatively little indication of mineral deposits until close to the headwaters of the Finlay, Mr. George says. The mineralized areas offer good chances for prospectors, he declares. There is much local country rich in grass that should prove good for grazing cattle although it does not appear to be suitable for general farming. The country also abounds in moose and caribou.

Mayor Taking Up Matter of Relief Work For Winter

Ald. Linzey inquired at last night's meeting of the council if any plans were being made locally whereby this city might share in public works grants to municipalities which were being made by the governments for the relief of unemployment. The time would soon be here when such relief work would be needed and he thought it was well to be prepared.

Ald. Collart, acting mayor, stated that the matter was being taken up by the mayor on his present trip south and suggested that the question be allowed to stand until His Worship's return to the city.

PATH TO HEALTH IS OPEN TO ALL

Kellogg's ALL-BRAN Relieves Constipation!

Headaches, general depression and many other ailments are signs of constipation. Kellogg's ALL-BRAN is the natural, healthful way to relieve and to prevent it.

Roughage in the diet is absolutely effective in relieving both temporary and recurring constipation. Kellogg's ALL-BRAN is roughage! Its bulk absorbs water and sweeps the system clean of all constipation and poisons.

Besides, it contains abundant iron. This mineral is a blood builder and the foe of physical depression.

Eat Kellogg's ALL-BRAN regularly and you not only eliminate danger of constipation—you also have a delicious, healthful cereal that millions enjoy. Kellogg's ALL-BRAN is delightful with milk or cream, sprinkled over cereals and soups, in fruit juice and cooked in other foods. Your grocer has ALL-BRAN in the red-and-green package. Served everywhere. Made by Kellogg in London, Ontario.

Improved in Taste and Texture.

The Letter Box

TAKES EXCEPTION TO PROSPERITY WEEK

Daily News:

Without apology, I take absolute issue with the underlying principles of this so-called Prosperity Week which, in fact, to the great masses, is a brutal lie, and an insult to their intelligence. Parliament has just adjourned from an emergency session, called into being due to destitution of the great army of jobless workers in Canada. After appropriating \$20,000,000, to be supplemented by additional millions from provinces and municipalities, not for the purpose of devising ways and means of meeting a depleted supply of commodities, but, instead, to formulate an artificial basis of employment to provide the workers with a minimum of purchasing power, with the aim in view that some of the surplus commodities now in stock might be disposed of. The spending spree we are all invited to is on a par with the Indian potlatch which was wisely outlawed by the government. To those who really have the dough, if you feel like it, go ahead and spend it. If it hurts you, may be it will help some other person. But the commoner with only a few dollars don't let them fill you with imagination—that you are prosperous enough to go on the big spree. Just count the days between now and the avalanche of industries that was to follow the sale of the hydro-electric and the taxes of various kinds that will fall due between now and that remote date. Call up the City Treasurer, see if imagination will pay your taxes. Call up the bank and see if you can arrange a loan on imagination, or if imagination will liquidate the note that is falling due in thirty days. If the treasurer and the banker say "yes," then, by all means, join the gang, and everything you buy pay for it with imagination.

Thanking you for the space Mr. Editor,
G. B. CASEY.

LIGHTING DISCUSSED

Ornamental System at Present Planned Criticized By Ald. G. W. Rudderham

Cost Excessive

Plan Finally Accepted With Request That One Block Be Changed

Complaints made by Ald. Rudderham as to the plan which had been followed in laying out standards for ornamental street lighting on Third Avenue resulted in a protracted discussion of nearly two hours at last night's council meeting. Ald. Rudderham's complaint was that too much illumination was being given, particularly on Third Avenue in the block between Sixth and Seventh Streets, and that, while the city did not at present have to pay for the light, it would eventually have to do so and, on the basis set on Third Avenue in the block referred to, it would be more than the city could afford, particularly if extensions of the same intensity should be asked for. The whole new street lighting system was canvassed and the outcome of the discussion was the passing of a motion of Ald. Macdonald, seconded by Ald. Macdonald, that the 50 light plan as now being laid out by the Northern B. C. Power Co. be accepted with the exception that in the block on Third Avenue between Sixth and Seventh Street there be four and three standards on either side of the street instead of five and four as at present arranged for.

The discussion opened with the reading of a letter from J. J. Little, manager of the Northern B. C. Power Co., who was present at the meeting, in which it was agreed by the power company to install in the business section of the city 50 standards with 500-watt lamps with no obligation to the city, until it was ready to assume it, except on the basis of 29 300-watt lamps as under the original agreement regarding street lighting. The purpose of the increased lighting, the letter stated, was to demonstrate the value of such lighting and to make a better showing of the city.

Speaking further to the matter, Mr. Little stated that the regulation spacing of the standards was roughly 75 feet although in certain points deviations had been found necessary. The system had been devised by company experts with a view to giving adequate and good lighting.

Other Sections

Ald. Pullen stated that he had had requests from people on Third Avenue between Second and First Streets asking that the ornamental lighting system be extended down there. It was a section of the city which was increasing in importance.

After apologizing for having been unavoidably prevented from being present at the last meeting of the city council, Ald. Rudderham stated that he had been surprised to see by the newspaper that the question had been taken up at that time. He could not see how so many extra lights were to be crowded into a few blocks on one side of Second Avenue. It was his belief that the council should have some say in the spacing of these lights. He had taken the trouble to go along Third Avenue and had found that preparations were being made to erect 35 standards there instead of 22 as had been originally agreed upon. It might sound good for the Power Corporation to be giving away all this light but he considered some of the blocks were overlighted. For instance, on Third Avenue between Sixth and Seventh Streets there were to be nine standards, five on one side of the street and four on the other. He did not see why this block was entitled to more light than any other on Third Avenue. Possibly it was because there were so many beer parlors there.

Continuing on the subject of what he declared was excessive lighting, Ald. Rudderham pointed out that some day the city would have to pay for this. Other business sections would want ornamental lighting and they would want the same kind of light as the other parts were getting. The city would not be able to afford it. He thought that a basis should be settled upon now which would be within the city's means. He would like to see these extra lights scattered over a larger area. He was not satisfied with the present plan for he believed it was beyond the city's means.

Ald. Macdonald replied that he had not been asleep on the job. Neither had the plan been rushed

through. It had been under consideration for weeks and the public at all times had been kept fully informed. A better lighting system which would cost no more had seemed desirable to all. Certainly he for one felt that the Power Corporation was in a better position to say how street lights should be installed than was an ordinary layman. He was in sympathy with the idea that the extra lights in the section referred to be done away with and thrown to other quarters.

Better Location

Ald. Pillsbury thought that, if there were to be extra lights at all on Third Avenue, they should be between Fourth and Sixth Streets and not between Sixth and Seventh Streets. He rather thought that the city should have the opportunity of approving of the situation of the standards since it would eventually

have to pay for the light.

Mr. Little recalled that the city itself had put in the conduit space and laid out the cutouts when the concrete sidewalks were being built. If the city desired, the lamps could be changed from 500 to 300 watts. No doubt, the city would some time have to adopt a plan of assessing the property owners concerned for street lighting.

Ald. Black agreed with Ald. Rudderham that the system of ornamental lighting as being installed by the Power Corporation was more costly than the city could afford to maintain. He believed that the system of 29 lights as had been planned by the city engineer was sufficient and that extra lighting was unnecessary in this district.

Mr. Little pointed out that in most cities there were primary, secondary and tertiary stages of lighting. The city could set out the districts and the stage of lighting each was to receive.

Ald. Pullen wished to make it clear that what he had said regarding extension of street lighting to other sections was not in opposition to the plan of the Power Corporation. He was a firm believer in plenty of light.

Ald. Rudderham wished to make it clear that he was not blaming anyone or casting any insinuations. If anyone was to blame, it was himself for not having been present at the meeting two weeks ago. It would cost \$675 a year for the light used in the standards now arranged for between Sixth and Seventh Streets on Third Avenue. He thought this was much more than the city could afford.

Ald. Macdonald agreed that the city could not stand such costs.

After a good deal more discussion along similar lines, the resolution approving of the Power Corporation's system, except the block between Sixth Street and Seventh Street on Third Avenue, was passed.

Tea Biscuits unusually good when made with Magic Baking Powder

3 out of every 4 Canadian housewives* who bake at home, use Magic Baking Powder because they find that Magic gives consistently better baking results.
 Next time you bake biscuits, try Magic and see for yourself how it will help you with your baking.

Try this Recipe for Biscuits
 2 cups flour
 4 teaspoons Magic Baking Powder
 1 teaspoon salt
 Method—sift together flour, magic baking powder and salt, then cut in shortening. Gradually add cold milk sufficient to make a soft dough as can be handled, using a knife to mix with.
 Flour centre of board generously, drop dough on it, pat or roll out very lightly to 1/2" thickness. Cut out, bake 15 to 20 minutes in a hot oven.
 All ingredients should be cold. Handle as little and as lightly as possible and avoid working in more flour after milk has been added.
 *This fact was revealed in a recent Dominion-wide investigation.

MAURICE CHEVALIER
 Was told in the "Big Pond" that he needed \$20,000.00 to be able to get married in America, but it really does not require that much to make you prosperous.
It is within your means to make every week A PROSPERITY WEEK
 You can feel prosperous, look prosperous, act prosperous and be prosperous, but your prosperity and success depends on your ability to save.
The three essential points in successful saving are:
 1.—To save a certain sum.
 2.—To save regularly, at a certain period.
 3.—To save for a definite purpose.
 Our Endowment Assurance and Pension Investment Bonds will induce you to save a certain sum, the notices from my company will remind you at a certain period that the time for saving is here. Finally, is there any nobler purpose than having to save for your future, for your old age and for your dependants?
 While you are saving for your own success and prosperity you will have that happy feeling that comes only to those who make the **UNCERTAIN CERTAIN** by protecting themselves and their loved ones with—

Fireside Club Has Meeting

Address By Vic Houston—Spelling Bee Is Enjoyed

The Baptist Fireside Club held its regular meeting in the Church parlors last night, Miss Jean Smith occupied the chair. The Scriptures were read by Miss C. Watson, and the devotional address was given by V. G. Houston, the subject being "The Temptations of Jesus."

At the close, two teams were picked and a spelling bee indulged in.

A fair attendance was recorded.

MADE PRESENTATION

TERRACE, Oct. 11—Before leaving Terrace recently, Mrs. A. Ross, who had been president of the Women's Institute, was presented with a beautiful hand bag by the organization of which she had been a consistent worker since its organization.

SPORT CHAT

A Badminton Club has been formed in the interior sawmill town of Giscome. It will be the first time that the game has been played on an organized basis there. The officers of the club are: president, Rev. David Donaldson; secretary-treasurer A. E. Brown. Senior members will meet every Monday evening and the juniors in the afternoon.

Semi-averages reveal that Al Simmons of the Philadelphia Athletics won the 1930 American League batting championship from Lou Gehrig of the New York Yankees by two points, the former's average having been 331 and the latter's 379. Car Reynolds of the Chicago White Sox and Babe Ruth tied for third place of 359 and Mickey Cochrane of the Athletics came next one point away.

Twenty Years Ago

In Prince Rupert

October 14, 1930
Ald. A. McIntyre is protesting to the city council at Second Avenue in the outlying sections being graded while the congested part of Third Avenue still remains untouched.

General Superintendent W. C. C. Mehan is well satisfied with progress that is being made on this end of the Grand Trunk Pacific Railway. The steel has now reached Mile 87.

O. M. Helgeson has purchased for \$125,000 a block of 118 acres of land known as Paterson's Ranch adjoining the townsite of Port Mann.

SKIDEGATE

The DuBois brothers, Pennsylvania millionaires, who are looking into the possibilities of establishing a pulp mill in Skidegate Inlet, expect to make a long stay here. They are making their headquarters at the Dena.

W. Rennie and party of friends motored down from Port Clements last Saturday to visit with friends in Skidegate.

J. Service of Queen Charlotte City has started a motor car service between that point and Port Clements.

LOCAL ITEMS

City accounts for the two weeks ending October 10, totalling \$19,138, were passed for payment at last night's council meeting.

Curzon's Prince Rupert Prosperity Week. See our goods made in Canada. 240

Dr. Herbert John Num of Atlin will be married quietly in Vancouver toward the end of this month to Miss Phyllis Marion Lee of Vancouver.

Mrs. W. J. Crawford and daughter, Mrs. Louis Behnen, are passengers aboard the Catala this afternoon bound for Vancouver on a two-weeks' trip.

W. G. Norrie, well known mining engineer, is a passenger aboard the Catala this afternoon returning to Vancouver after a trip to Stewart where he inspected the Mayou group of mining claims owned by William Tomkins and associates.

Northland Navigation Co.'s motorship liner Northland, Capt. Len Williams, arrived in port at 6.30 this morning from Ketchikan and, after discharging one carload of fish for transshipment East over the Canadian National Railway, sailed for Seattle.

Jonas P. Olsson, local fisherman will leave on tomorrow morning's train for New York where on October 23 he will embark upon the Hamburg-American Line steamer New York bound for his home in Gothenberg, Norway, where he will spend the winter.

William McLean, well known Alice Arm prospector, who has been spending the past summer in the Portland Canal district, arrived in the city on the Catala this morning, from Stewart and will proceed tomorrow afternoon on the Prince George to Alice Arm.

THE BOY BEHIND THE BISCUIT

Ever see a boy behind a Shredded Wheat Biscuit? You will have to look quick before the biscuit disappears—but wait and you will see him take another biscuit—and more milk. The more he chews the crisp shreds of baked whole wheat, the more he likes it—and that's the reason he is a real boy, full of bounding energy and radiant health. Just as good for grown-ups. Delicious with prunes, baked apples, sliced bananas or any fruit.

The "MARRIAGE" of THE WHITE HORSE

"WHITE HORSE" is Real Old Scotch. First matured and then blended, it is again matured and reblended, so that the whisky becomes properly married. This marrying of "WHITE HORSE" is a very lengthy process and the result is a right noble spirit of subtle and distinctive aroma and bouquet, soft, smooth and very pleasing to the palate, without a trace of kick or bite.

As a heart tonic and digestive "WHITE HORSE" stands supreme.

WILL BUILD SIDEWALKS

Several Local Improvement Bylaws Put Through First Readings By City Council

Six local improvement initiative bylaws and eight local improvement construction bylaws, having to do with sidewalk building in the downtown section, were put through their initial readings at last night's council meeting and will be further advanced at a special meeting to be held on Wednesday evening of this week, the desire of the council being to have the work instituted as soon as possible. The new sidewalks will largely replace ones which have been condemned and closed to traffic.

The local improvement initiative bylaws were as follows:

Concrete walk, 10 feet wide, north side of Fraser Street, Fifth Street to Sixth Street.

Wooden walk, 8 feet wide, north side of Second Avenue, Second Street to McBride Street.

Wooden walk, 8 feet wide, west side of McBride Street, Third Avenue to First Avenue.

Asphaltic walk 10 feet wide, west side of Fifth Street, Third Avenue to Fraser Street.

Asphaltic walk, 10 feet wide, west side of Sixth Street, Third Avenue to Fraser Street.

Asphaltic walk, 10 feet wide, east side of Sixth Street, Fraser Street to one north of Fraser Street.

Asphaltic walk, 10 feet wide, north side of Fraser Street, Sixth to Seventh Streets.

Construction Bylaws

The local improvement construction bylaws were as follows:

Asphaltic sidewalk, 17 feet wide, north side of Third Avenue, Second Street to McBride Street.

Asphaltic sidewalk, 12 feet wide, south side of Third Avenue, Seventh Street to Eighth Street.

Asphaltic sidewalk, 12 feet wide, north side of Third Avenue, Seventh to Eighth Streets.

Asphaltic sidewalk, 17 feet wide, east side of Second Street, Second Avenue to Third Avenue.

Asphaltic sidewalk, 10 feet wide, east side of First Street, Second Avenue to Third Avenue.

Asphaltic sidewalk, 17 feet wide, south side of Second Avenue, Third Street to McBride Street.

Ald. Pullen thought that it was regrettable that, now provision was being made for the replacement of old walks in most parts of the business section, there was still a gap on the south side of Third Avenue from Brooksbank's building to McBride Street on which, evidently, nothing could be done.

After some discussion as to this gap, it was decided, on motion of Ald. Rudderham, that a new initiative bylaw be prepared providing for a wooden sidewalk on this section. It was felt by the council that the property owners concerned might assume the cost of such a sidewalk.

With reference to the south side of Second Avenue from Third Street to McBride Street, Ald. Rudderham

stated that he had seen Mr. Curtis who had informed him that the property owners there, who had first asked for a plank sidewalk, were now satisfied with the asphaltic plan and were desirous that the work should start as soon as possible.

Acting Mayor Collart reported having seen W. H. Tobey, railway superintendent, on the matter of the sidewalk along the north side of Second Avenue adjoining on railway property. Mr. Tobey had suggested that the city get in communication with the Canadian National in regard to the matter. This was being done and it was believed that a proposition for the replacement of this sidewalk could be agreed upon.

Ald. Rudderham thought that it was advisable that all haste possible be made on the work covered by the bylaws. The weather was getting bad and the old walks were in bad shape, many being closed. He suggested that the special meeting be held to put the construction bylaws through their final stages.

Ald. Rudderham's suggestion was accepted and it was agreed to hold a special meeting tomorrow evening.
