MAY WRECK LABOR PARTY

It looks as if Premier Bennett of Canada may wreck the Labor party of Great Britain by pressing his policy of higher duties all round against the world and a preference to the Empire. This it is announced is being opposed by the MacDonald Government.

The Empire movement is said to be gaining impetus in Britain and this pressing of the Canadian viewpoint by Mr. Bennett will very greatly strengthen the hands of the Conservative party in that country with what results no one can forecast. Possibly Labor will go down to defeat before an avalanche of protectionist sentiment, fostered before an avalanche of protectionist sentiment, fostered by the failure of the present government to prevent the increase of unemployment in that country. In any event the government usually loses a hard-times election.

I'M five feet eight inches and weigh 210 pounds. So when I talk about underwear comfort, believe me I know! In the first place being stout I perspire more than most men-and to my mind there's only one kind of underwear that will stand that continued excess perspiration—and come out of the laundry tub soft as down-that's Stanfield's.

Another thing, Stanfield's can't be made to shrink. If you're carrying a little extra poundage think that over! There isn't one of us who hasn't had a suit of underwear that fit like a glove when we first wore it-but which looked and felt like little brother's when it came back from the wash.

But why go on telling you about my experience with Stanfield's-about buttons that don't pull off-cuffs that fit snug forever-shoulder seams that stay where they belong. All you have to do is climb into one suit of it-then you'll know what real underwear comfort is.

So go to your dealer today—and ask him to show you this comfortable underwear. One glance and you'll see it's the best underwear value ever offered -but you'll never know bow comfortable underwear can be, until you put it on.

With sweetbreads or a tiny chop you may prefer the daintiness of creamed or parsley potatoes; with thick and juicy steaks, the heartiness of Ivonnaise or toes in various ways-potatoes au gratin, Chantilly and Delmonico all being favourites of mine.

It all depends upon the milk the quality of the milk is most important. If you use the best of creamy except part of the water.

Being evaporated to double richness, Carnation Milk makes the creamiest of sauces, without the extravagant use of butter. Being "homogenized" cream content is broken up into the minutest particles—it gives a To make up for past neglect, I sug- | wonderfully fine, smooth texture. Gyro Club Makes Plans For Dance

Hoedown on November 14 to Be Novel Affair-Prosperity Week Is Endorsed

Discussing plans for the hoedown dance to be held on November 14 in support of the public gymnasium movement, the Gyro Club, at luncheon yesterday in the Commodore Cafe, decided to introduce many new features at that affair with a view to making it the largest and most successful hoedown that has yet been staged by the club. Committees, under the general convenorship of William Cruikshank, have preparatory work well under way.

The club, after some discussion, endorsed the project of Canadian Prosperity Week from October 11 to October 18.

Certain items of club business were also taken up at the luncheon. President C. A. Kirkendall was in the chair and there was a large attendance of members.

School Board Discusses Whether Experience In American Schools Should Be Given Credit

There was a rather protracted debate at last night's meeting of the school board on the matter of whether a teacher who had had some of her experience in schools of the United States should be credited with those years in fixing her position in the salary schedule. The Just one of thousands who say case of one of the teachers who had had eight years experience, two in California and the rest in British Columbia, but had been credited by the department with only six years,

Mrs. Spencer, the chairman, was strongly in favor of the teacher in question being given credit for the whole eight years in fixing her salary. Experience was experience no natter where a teacher obtained it, Mrs. Spencer felt.

L. W. Waugh was in favor of enquiring from the department why the teacher had been credited with only six instead of eight years' ex perience. He suggested that the matter be taken up with the education department.

Mrs. Spencer thought that it was up to the board and not to the department to set the salaries of eachers and decide what increent they were entitled to. No matter what the department might tate, she would insist that the cacher in question was entitled to
