Province Gets Lands, Minerals and Forests and Dominion Retains Parks and Indian Reserves

VICTORIA, Feb. 22:- Premier S. F. Tolmie announced in the legislature yesterday that he had signed an agreement with the Dominion Government transferring 12,500,000 acres of land in the Peace River Block and railway belt to provincial administration. The documents have been forwarded to Ottawa for completion and legislation necessary to effect the transfer will be introduced here and at Ottawa shortly.

The Dominion government will turn over all unalienated lands, minerals and forests of the railway belt and the Peace River Block which was given by the province to the Dominion when British Columbia entered confederation. Parks will be retained by the Dominion and also Indian reserves but, when the latter cease to be used for Indian purposes, they will revert to the pro-

Assessment Excluding Railway Property \$3,026,933 as Against Last Year's

The city tax roll, which has now been finally approved by the court of revision, shows another decrease in total assessment this year. The total of taxable property, not including the holdings of the railway company and waterfront land which are valued at \$1,583,266 and which are covered by special agreement whereby a flat \$65,000 is paid annually in lieu of taxes, stands this year at \$3,026,933 as compared with \$3,343,583 last year. Forfeitures of property last year and which reverted property is no longer subject to taxation are responsible for this year's reduction in total assessment.

On the basis of the approved tax roll, the mill rate for the year will shortly be set by the city council.

Superintendent Hattle informed the Interior News that there would still be between forty and fifty men on the company's pay-roll, and that with conditions underground being the most promising for some time the operations at Duthie mine would be going on for many years yet.

Asked if the order had any reflection on conditions at the mine Mr. Hattie stated that the conditions in the tunnels were of a most encouraging nature and that the close-down was purely a question of sound business in view of the low price of silver. While milling and affiliated operations were affected for the time being, the machinery would be kept in shape to immediately resume shipping when the price of silver returned to a profitable figure.

#### DOING ITS PART

The Canadian National Railways, backed by the federal government is doing its part in helping to stem the prevailing tendency toward bad times. A big construction program is to be put in force and it is expected an announcement will be made before long as to the Government's attitude toward the western outlet of the Peace River. While nothing definite in regard to the port to be used is thought possible this year, there will be undoubtedly a general announcement stating that the Government is prepared to go ahead just as soon as all necessary data !is available in regard to routes and costs.

It is the general opinion that the C.P.R. and C.N.R. will collaborate in the work and that the new line will be own- winter with a considerable meased and operated jointly. This will necessitate giving the ure of success, a good deal of in-C.P.R. right of way into Prince Rupert, even if a southern port be chosen as the chief objective of the line.

the play being put on Monday and Tuesday by the Players' Club under direction of L. F. Smith, indicate that this will be one of the best plays staged by the club. As one who has seen it remarked: "It is a great show."

The "Patsy" is a three-act comedy and the players are well known local people though it will be the first time that many of them have appeared on the local stage. They include Wilfrid Jackson, Tom Tasker, Louis F. Smith, James Farquhar and Misses Tracy Curry, Jean Robertson, and Willa Dyer. Music is to be provided by Balagno's orchestra while Wm. C.

Mitchell is business manager. The members of the caste have been working on this for the past six weeks and under the expert direction of Louis Smith have attained a degree of proficiency no often reached by Prince Rupert players. The play is full of humorous situations and will act as a wonderful tonic.

No Other Man

"There wasn't any other man. Listen, and I'll show you how in the end I reconstructed the whole story. To begin with, Mr. Thesiger and Miss Wade are in this together. And they have a rendezvous for an exact time. Miss Wade comes over in her car, climbs through the fence and comes up to the house. She's got a perfectly good story if any one stops her-the one she told eventually.

"But she arrived unmolested on the terrace just after the clock had struck two.

# Stop us if you've heard this one..

Y DEAR, I simply dread this daily shop-ping" How many times have you heard that story? More than once, we'll bet a hat. And if you ask the woman who "dreads shopping" just why she does so, you'll usually hear something like this:

"I takes so much time! I start out and look and look and look . . . and by the time I've found what I want I'm dead on my feet. All in, my dear. I mean I actually am!"

You can do a friend like that a real service. Ask her if she reads The Daily News grocery advertisements. Usually she'll look surprised and say, "Not very often. What has that to do with it?"

Tell her how you have your mind all made up before you hang the market basket over your arm ... how you're able to save steps, budget your expenditures neatly, get what you want-and all with a minimum of time and effort. Simply because you have the news of the shopping world at your finger-tips all the time, by reading the advertisements every day.

Extensive additions and improvements to the ship chandlery store of F. E. Hunt Ltd. are now complete and a great change for the better has been wrought as a result and little wonder it is that our friend, Mil Nickerson, surveys the scene with a justifiable degree of pride. In addition to providing much greater store space, the work has resulted in a spacious office quarters with lots of light for the aid of Herman Capstick in his quill pushing duties. Upstairs commodious Fish Exchange quarters have been provided and, in the comfort that is to be offered there, we have no doubt that the local buyers will be much more kindly disposed in the matter of bidding high, wide and handsome. Extensive storeroom quarters are also provided upstairs.
