## They Pay You

DVERTISEMENTS pay you to read them. They pay you in time. From the advertisements in this newspaper you can learn where to get what you want. instead of searching around. You can know the merits of each article offered for sale.

They pay you in money. Advertisements help you to get full value for your dollars. Goods which are consistently advertised are of consistently high quality for their prices.

They pay you in satisfaction. Manufacturers and merchants will not undertake an advertising campaign until they are sure their product is right. It would be ruinous to advertise an unworthy product, for that would simply call added attention to its deficiencies.

They pay you in information. Advertisements tell of new products, of new designs, new materials, better workmanship. Well-informed people always read the advertisements to keep posted.
