STEP TOWARD NEW FISCAL POLICY

INDIAN BORDER RAIDERS ARE DISPERSING BEFORE BRITISH

Manufacturer's Association Plans To Collaborate With Bennett In Conservative Protection Policy

Meeting to Be Held Next Week to Consider Tariff and Other Questions With View to Two Possible Courses of Action

MONTREAL, Aug. 9.—The Montreal Gazette this morning says: "Industrialists from all parts of the Dominion will meet next week in Toronto under the auspices of the Canadian Manufacturers' Association to consider tariff questions and collaborate with Hon. R. B. Bennett, the new premier, in regard to fiscal matters. This information reached the street yesterday.

"From what can be ascertained the Canadian manufacturers see before them two aspects of the tariff question. These are:

"Temporary action that may be taken at the forthcoming extraordinary session of Parliament in September, and—

"General revision of the entire Canadian tariff, which is expected at the next regular session of Parliament in the winter to enable the Conservative Government to put into effect its policy of true protection, which was one of the planks which elevated it to power."

M'RAE FOR LONDON IS EXPECTED

Premier Bennett Has No Announcement to Make Following His Cabinet Meeting

OTTAWA, Aug. 9.—Premier Bennett had no announcement to make when he emerged from the Privy Council chamber last evening at the conclusion of the second meeting of the cabinet. Departmental matters, it was intimated, engaged considerable attention. The cabinet will meet again early next week.

The cabinet meeting was unusually large. Minister of Agriculture Weir was absent in two hours before the cabinet convened.

Shipment of Cans On Prince Henry

Steamer Prince Henry which arrived early today has been discharging empty cans all day, these having been rushed north to supply the demand on the Skeena River and at other points where the abnormal run of salmon is keeping the canneries working overtime.

The vessel is leaving just as soon as the cans are all landed.

BOYS' BAND LOOKED LIKE SNAPPY LOT IN VANCOUVER

Robert Gordon received a letter from Cochrane, Stephenson Co. of Vancouver, which says: "Just as your letter arrived this morning the Prince Rupert Boys' Band passed in front of our office. They looked like a snappy outfit and should do a lot towards advertising your city."

BIG SWIMS AT TORONTO

Women's Marathon August 22 and 15-Mile Open Event on August 27

TORONTO, Aug. 9.—Added to Canada's native swimming stars, the Dominion, for this year's world championship marathon, has acquired half a dozen additional strong threats for the title by naturalization and immigration.

As usual, the 10-mile and 15-mile classics for professional long distance laurels are to be fought out under the sponsorship of the Canadian National Exhibition. This is All-Canada year at the exhibition and the men's and women's marathons, in keeping with the general atmosphere, are entirely under C. N. E. control. The exhibition is also contributing \$25,000 in cash which will go to the winners.

On Aug. 22, the mermaids will do a 10-mile dash for the feminine supremacy of the globe in these matters. On August 27, there is the 15-mile open event and the world's title. Entries do not close till August 16.

Log Output Is 13,000,000 Feet For Last Month

The total cut of logs for the Prince Rupert district according to the report of the scalers during July was slightly over thirteen million board feet in addition to poles, piles and ties. The detail of the cut follows:

| | |
|------------|------------|
| Fir | 995,943 |
| Cedar | 2,151,829 |
| Spruce | 7,122,038 |
| Hemlock | 2,145,576 |
| Balsam | 739,634 |
| Jack Pine | 7,985 |
| Cottonwood | 17,073 |
| Total | 13,180,078 |
| Hewn ties | 49,130. |

Union ss. Cardena, Capt. Johnstone, arrived last night at 11.15 and sailed again at 1.30 a.m.

HEAVY PACK OF SOCKEYE

Chief Supervisor of Fisheries Makes Public Statement Regarding Runs

Yielding the largest pack for a good many years, the run of salmon in British Columbian waters has more than held its own for the current season to date, according to Major J. A. Motherwell, chief supervisor of fisheries.

The pack of the sockeye, which is the most valuable variety, amounts to 308,000 cases, the largest since the brood year, 1925; which is, Major Motherwell states, the proper comparison. The total average catch of sockeye for the complete season during the past 10 years is 304,000 cases. This total has already been exceeded by 4,000 cases and fishing will continue for a considerable period. Sockeye are still running heavily in the northern areas, although the Fraser River has not yet come into the picture. Four years ago, which is the brood year of Fraser River sockeye, the total pack in that district was 83,000 cases, but these arrived quite late in the season.

The run of pink salmon is at the present time unusually heavy in practically all the areas frequented by this variety. The run to Massett Inlet has not yet arrived, but is daily expected. This area contributes every second year a very considerable portion of the highest quality pack of pinks.

The pack of salmon to date is particularly gratifying, says Major Motherwell, owing to the fact that there has been enforced an unusual length of closed seasons for the purpose of conservation. The closed time this year is much greater in aggregate than in the brood year of 1925. This season's splendid supplies of salmon would appear to demonstrate the efficacy of conservation measures employed by the Dominion Department of Fisheries in recent years, and should go a long way towards offsetting the unjustifiable cry of depletion, Major Motherwell declares.

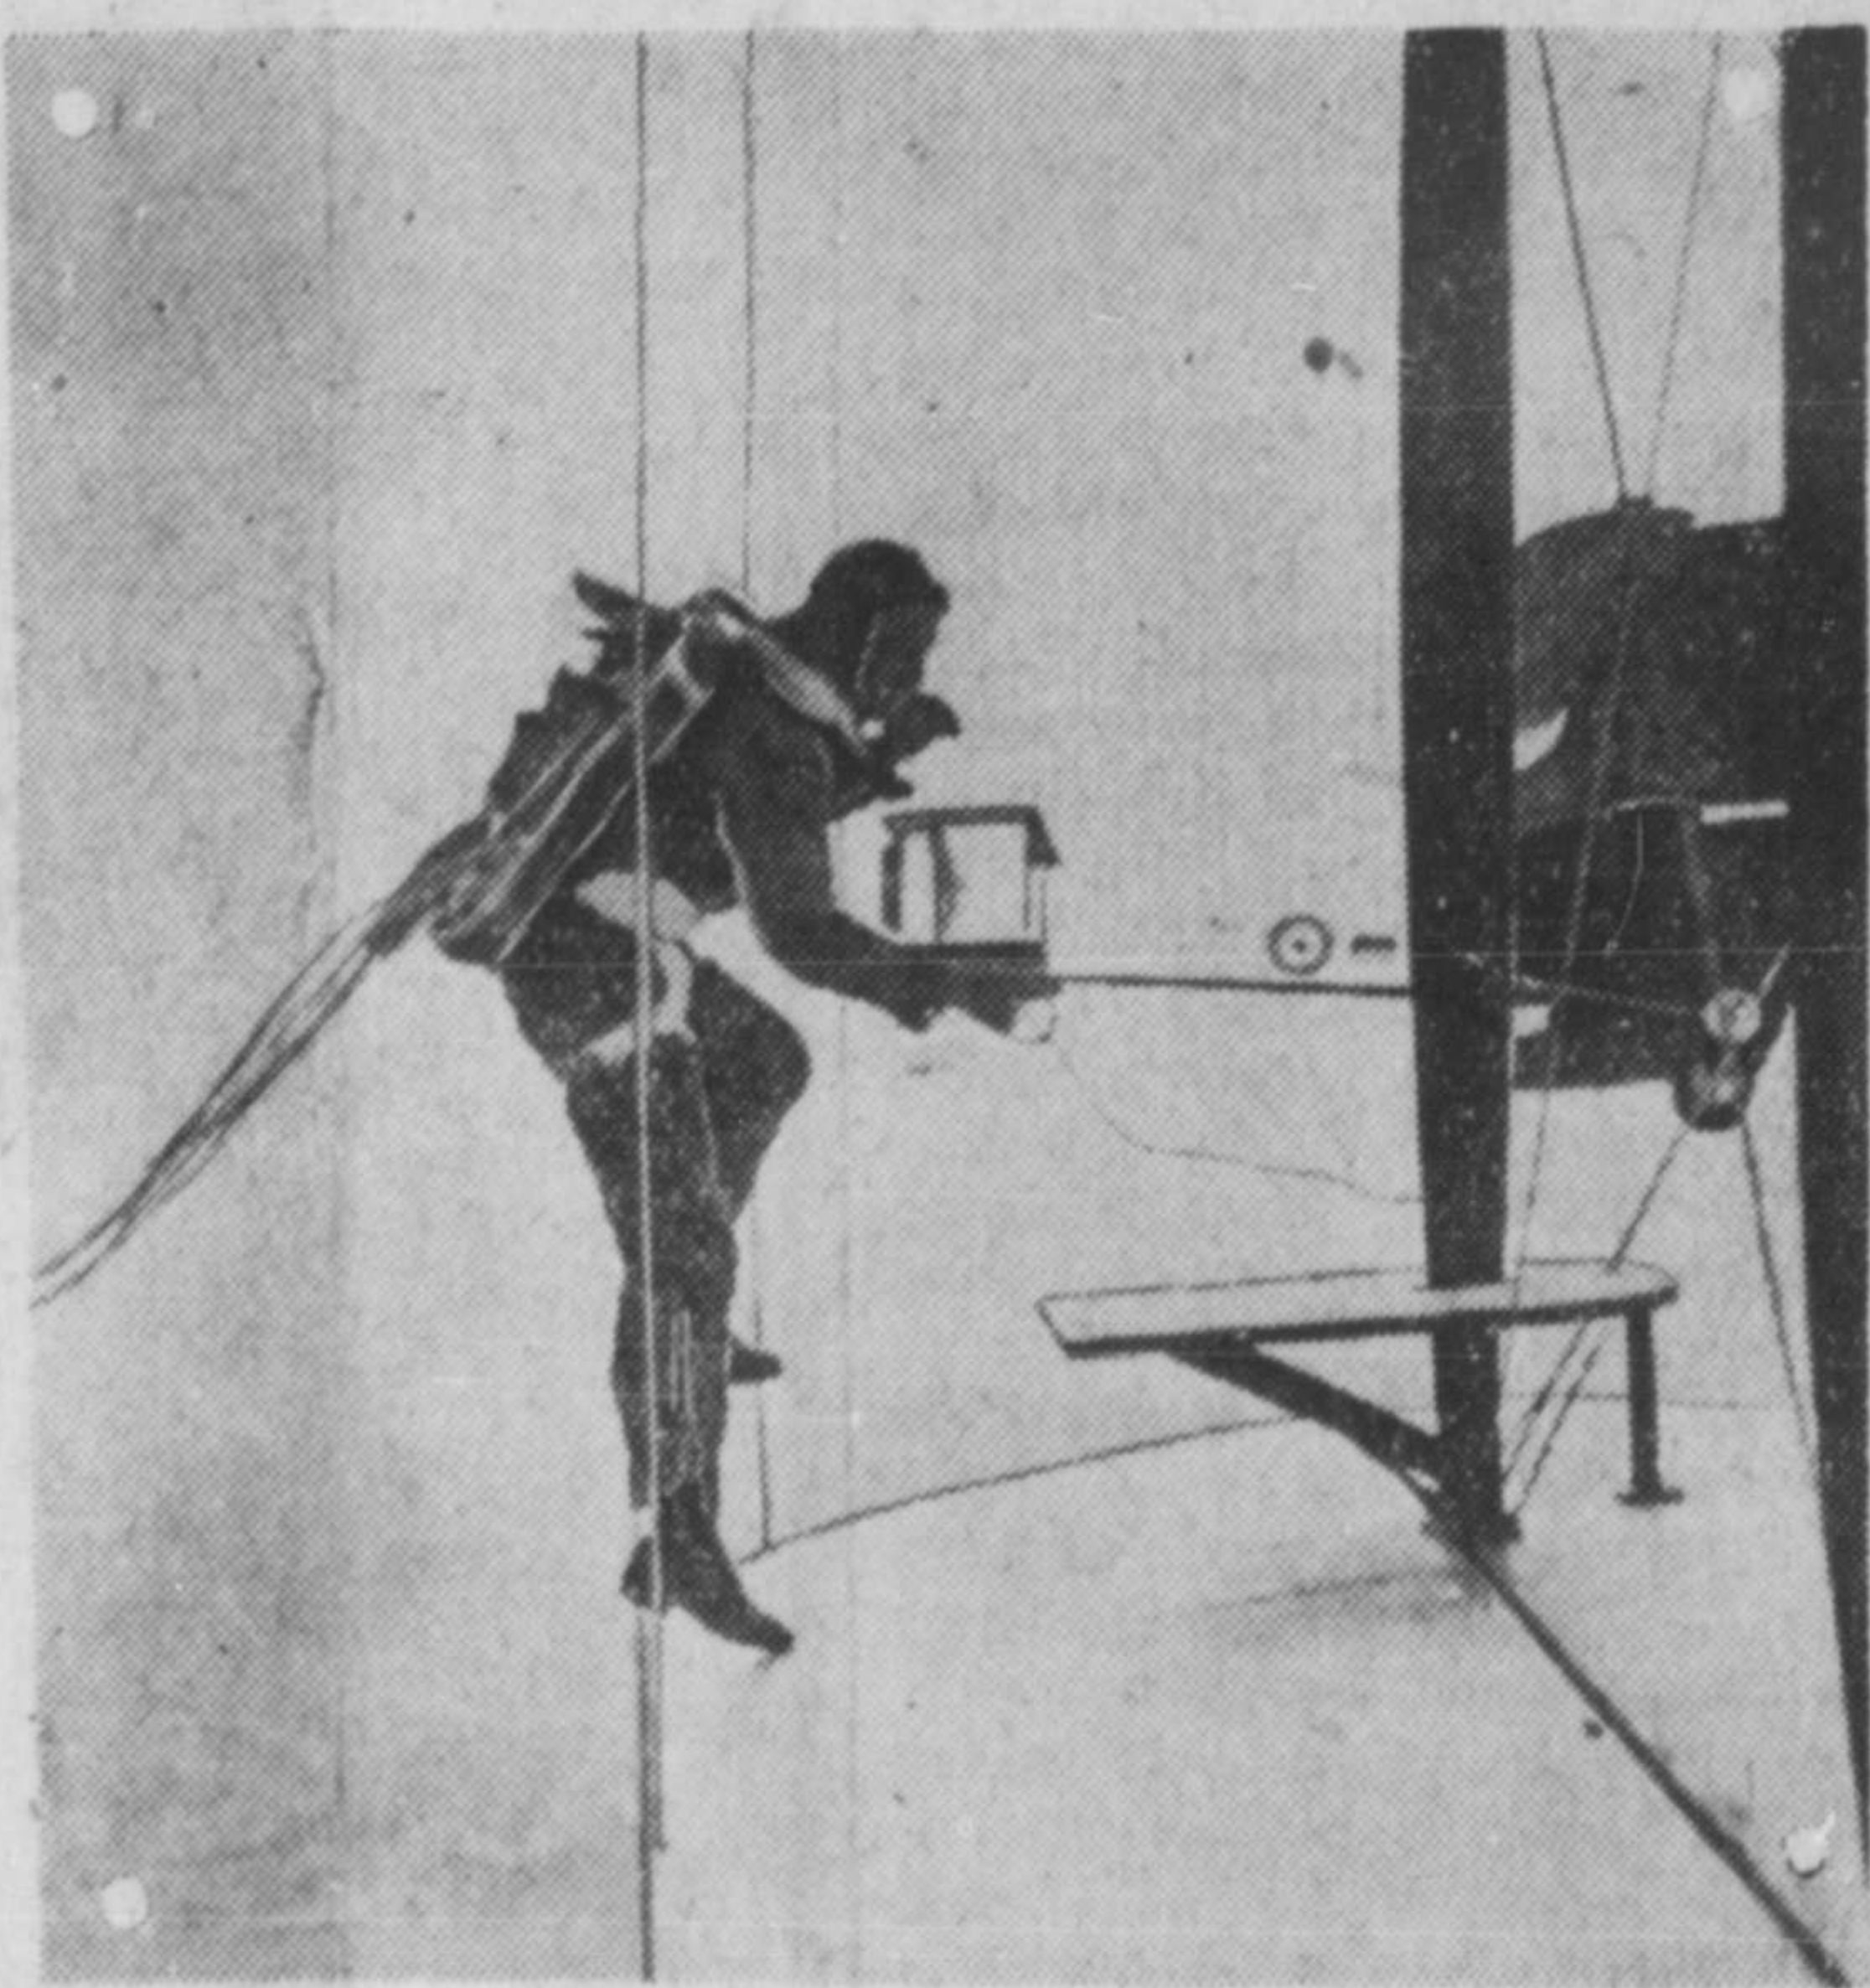

Pilchard Fishing
 Tardy appearance of the schools of pilchards which annually visit grounds off the west coast of Vancouver Island has resulted in a late start for the pilchard fishing. During the past few days, however, catches have been excellent, although fishermen have been obliged to fish from 20 to 40 miles off shore, according to the Dominion Department of Fisheries.

The condition of the fish is becoming better as the season goes on, and although the catch to date is considerably behind that of recent years there is still time for a satisfactory pack, the department states.

WEATHER REPORT

Parachute Jumper on Wing Tip

Parachute jumper on tip of wing just prior to chute opening one of thrillers at recent Royal Air Force pageant at Hendon, England. Note jumper is perched on one toe at moment of departure.

Tribesmen Who Threatened to Raid Peshawar, British India Are Being Dispersed By British

SIMLA, India, Aug. 9.—Latest reports from Peshawar on the northwest frontier, the city around which a horde of savage Afridi tribesmen are encamped, indicate that the city is now out of danger and that the tribal army is dispersing.

The raiders number about a thousand and they advanced to within a mile of Peshawar Thursday, encountered the British defending troops and a heavy fire from the air. They have now returned to Shaauri Plain.

The bombing resulted in seven Afridis being killed. Another raiding party which penetrated into the villages south of Peshawar were shelled and suffered casualties.

BALL TEAM INVITED TO COME HERE

Vancouver League Leaders Invited to Play Here During Fair Week

Vancouver Firemen's baseball team, the league leaders of Vancouver, have been invited by the Prince Rupert Baseball Association to come to Prince Rupert and play a series of games during fair week. At a meeting last evening it was decided that the association should take over the task of providing baseball attractions for the fair and a telegram was sent to Vancouver after the meeting. If this team cannot come, it is understood that some other will be approached.

Visiting In City

Frank Kermode, curator of the Provincial Museum at Victoria is in the city accompanied by Mrs. Kermode, making the round trip to Skagway. On return to Prince Rupert Mr. Kermode will stop off in connection with the work of the museum, will inspect the local museum collection and also look over the Hyde collection which is in the hands of the official administrator here.

LITTLE DONE COAL CONFAB

Both Neill and Pearson Disappointed in Outcome: C.P.R. To Increase Use of Coal

VICTORIA, Aug. 9.—The coal conference was concluded yesterday after the passing of a resolution calling upon the Government to appoint a special commission to study the problems involved in the recovery of markets and development of new methods of using coal.

A. W. Neill, M.P. unsuccessfully sought to pledge the conference to support a petition to the federal government asking for a duty of two cents a gallon on fuel oil. C. A. Cottrell for the Canadian Pacific Railway announced the conversion of oil burning switching locomotives used by the C.P.R. at Vancouver. The work will be done at once insuring the consumption of an additional 20,000 tons annually of Vancouver Island coal.

George Pearson, M.P.P., said: "To say I am disappointed in the result of the conference is not expressing my feelings strongly enough."

PRICE OF WHEAT

VANCOUVER, Aug. 9.—The price of wheat today has fallen off a little the quotations here this morning being 99 7/8c.

Percy Williams Beats Own Canadian Record Toronto Race Today

TORONTO, Aug. 9.—Flashing his best form against five of the best ranking Canadian sprinters, Percy Williams covered the 100 metres here this afternoon in ten and three tenths seconds, three tenths of a second better than his previous Canadian record and one tenth of a second better than the recognized world record of ten and two fifths by Eddie Tolan.

Officials here believe Williams has set a new world's record for outdoor competition.

NEW WORK S. JOHNSTON OIL DOCK NONE WORSE FOR WRECK

Substantial Improvements Being Made By the Imperial Company

In consequence of their increased business and to cope with the recent development of airplane and hydroplane activities the Imperial Oil Company are making extensive alterations and additions to their accommodation on the waterfront.

The building of a shed 20 feet by 120 feet will augment their space considerably. This will also provide a certain amount of accommodation for fishermen's gear during the winter months, a feature that will appeal very much to the fishing fleet. Another addition is a 30 feet by 50 feet loading platform for barrel filling and tank wagon filling. On the wharf a supply shed is being erected 20 feet by 30 feet. This will facilitate the quick loading of boats as supplies can be readily transferred from the steamer to the shed and thence to the boats.

A new office outside the present building is a further extension. The piling is being renewed, and new decking and silling put in.

A special and very modern touch will be added by the erection of a large windcock on the front. This will be a guide to hydroplanes and flying boats, showing the direction of the wind and so enabling the planes to make the most satisfactory landing. The necessary parts for this have already been ordered. With the addition of floats at which a fully equipped hydroplane base here.

The plant will then be listed in the Air and Aviation magazines as the North Pacific Station for Hydroplanes.

Alaskan Fish Now Run Well

KETCHIKAN, Aug. 9.—With the canneries all working practically full capacity in Ketchikan and reports that the run of fish are increasing on all sides, there is considerable optimism among the cannerymen today.

Salmon are showing up in large numbers in Clarence Straits, which so far has been nearly blank, and the fish are said to be larger. Fish also are showing up much better in every trap lift made on the eastern shores of Prince of Wales Island.

The run continues to hold up on the southern district.

Mr. and Mrs. A. Finnie with their guests the Misses McCubbin of Pacific were passengers on the ss. Prince William this morning on the trip up the Skeena.

Report Telegraphed Out Was Exaggeration Declares Local Man Now at Victoria

Word received in the city from Syd Johnston indicates that his recent flying experiences did not interfere much with his plans, while the story of his rescue from drowning is not so much an exaggeration.

Having damaged his leg on the pontoon of the plane Sydney Johnston, who is well known here as a capable swimmer, delayed his departure till the arrival of the government planes. He continued his trip to Seattle in the relieving plane and then flew back to Vancouver in a land plane.

He had had a shaking up, was wet and had lost all his baggage, but after a rest returned to Vancouver Island where he is spending the remaining days of his vacation. He expects to return to the city on Wednesday.

Young Couple Entertained

Mr. and Mrs. J. Armstrong entertained last night in honor of their daughter and son-in-law, Mr. and Mrs. H. J. Busby, who were recently married in Nanaimo. There were about 50 friends present and a very happy evening was spent in games and music. Towards midnight a delicious buffet supper was served.

Mr. and Mrs. Busby received many useful and beautiful gifts. Mr. Busby is at present employed in George Arsenault's store and plans making his home in Prince Rupert.

On the charge of intoxication Charles Patsey, Indian, was fined \$15 and costs in the local police court this morning.

 * CROP PROSPECTS *
 * ON PRAIRIES ARE *
 * LESS FAVORABLE *
 * WINNIPEG, Aug. 9.—Prairie crop prospects have been considerably lowered during the past three weeks, according to the fifth crop report of the Manitoba Free Press today.

The intense heat, lack of moisture and serious development of stem rust in Manitoba and Eastern Saskatchewan are to blame for the altered condition.

POSSIBLE ELECTION PROTEST

The Omineca Herald, Conservative, under the heading "Will Election Be Protested?" has the following editorial article:

"There has been considerable talk of violations of the Elections Act, especially in Prince Rupert. The Conservatives have undertaken to look into some of the reports and one man was even placed under arrest. There no doubt were infractions and it is very hard to take defeat if there is a feeling that the game had not been played fairly. We are convinced that this riding did make a great mistake in not re-electing Mr. Brady but the voice of the people was very decisive and it is doubtful if there was enough crooked work (intentional or unintentional) to account for the immense turnover in the vote. If there was crooked work to any extent it should be thoroughly investigated and the offenders brought to account. But to undertake a protest of the election is a very serious thing and should not be undertaken lightly. There is nothing that stirs up bitter feelings, breaks friendships, or disorganizes business and the social life like an election protest. Whatever action the Conservatives decide on after they have investigated the various reports we feel sure they will have ample evidence to carry a protest through successfully before it is undertaken.

Curious Power
Forced Plane
To Land at N. Y.

ROOSEVELT FIELD, N.Y., Aug. 9.—The sudden failure of a Stinson monoplane to remain aloft toward the end of the thirteenth day of an endurance flight remained a mystery after experts had given its motors a thorough inspection.

Robert Black and Louis Reichers, the pilots, said upon landing that they were unable to keep altitude and were gradually forced down. Both fliers were in excellent health, and said they were not tired and expressed willingness to go up again at once, in the same or a sister ship.

It was at first reported that Captain John S. Donaldson, one of the promoters of the flight, had complained to police of alleged threats made against the success of the venture. This led to rumors that the fuel might have been tampered with.

Donaldson said, however, that he had no suspicion of any tampering. Nevertheless, he added, he could not account for the forced landing because test showed the motors and controls to be in perfect condition.

Salmon Picture
Alaska Recently

KETCHIKAN, Aug. 9.—What the cameramen declare should turn out to be some very interesting shots for the "Silver Horde" photoplay, were taken at the Nelson cove trap of the New England Fish company this week.

The cameramen of the R.K.O. party who were still here to finish up the work on the filming of Rex Beach's famous story went to the trap Monday morning, and during the bright sunshine took pictures of the tender Grayling brailing the trap and they also took underwater pictures of the salmon swimming in the spillers. The shots will be incorporated in the "talkie."

Eric Olaf Wallstrom, who arrived from Yukon last Monday, left on the eastbound train today for New York where he will embark on the Kungsholm leaving for a visit to Sweden on August 16.

JOIN MARCH
OF PROGRESS

Many New Wrinkles Have Been Added to Lobster Fisherman's Bag of Tricks

BOSTON, Aug. 9.—The days when a lobster fisherman could be identified by his habit of standing in his dory and pushing on the oars, progressing along the sea something like an inchworm, are gone forever. Lobster fishing, like other industries, has felt the pressure of modernism and the putt-putt of the power boat is only one item in the advance.

The modern lobsterman is likely to have a 20-foot power boat, with a specially rigged clutch on the engine that can be thrown out leaving the motor running and the propeller idling. In a boat like this there is a davit set on the starboard rail with a snatch block on it. This is luxury, for, by its aid the lobsterman picks up his buoy, passes the slack of the line over the snatch block and leads it to a drum on the engine. All he has to do then is to take a turn on the drum, tighten it, and the engine will fetch his gear to the surface—if the gear holds.

All Use Power

Practically all the lobstermen today have power, but the majority favor the small dory with engine, a working compartment next and a bait pen next forward to this. They need to be weather boats and they are. It has to be a pretty rough day when a lobsterman pulls his traps. In the opinion of many, the cost of these boats and the cost of upkeep is a good explanation of the present lobster price.

Traps, too, have been modernized. The old semi-cylindrical trap no longer is the fisherman's principal reliance. If one were to look at the traps pile about an old lobsterman's door, he would find they were mostly of the rectangular type and, as a general rule, factory built. That is, the equipment is constructed piecemeal and can be purchased in bundles ready to assemble. There are also three "ends" nowadays instead of the old time two to attract the crustaceans by the more or less delicious bait.

The bait is now strung on a short piece of cod-line, and the end passed out between the slats and mad fast on a cleat outside—thus insuring against a premature opening of the trap and eliminating the hook which invariably struck the lobsterman as he reached in. End and lines are now treated with an anti-fouling compound, which gives them a nice green tint.

Ill Tempered

The lobster in itself is known as one of the most ill tempered brute in the sea, never licked and ever ready for a scrap even when resting on a cake on ice in a store window. This propensity led to the pegging of claws, as restaurant owners wished them for broilers would not accept specimens which had come off second best in some encounter minus a claw or some other vital part. Resorted to at first as merely a method of saving profits, pegging is now a standard manoeuvre with the lobstermen. Today one buys the pegs just as any other gear.

With all this talk of modern improvements it might appear that the present day lobsterman leads a life of comparative ease. A trip to sea with one of them would soon dispel this notion.

Presentation to
Mrs. Fred Wermig

Following the football meeting the executive of the Prince Rupert Football Association last evening were the guests of Mr. and Mrs. Fred Wermig at their residence.

In the course of the evening or behalf of the football association presentation of an inlaid brass tray on a teak stand was made to Mrs. Wermig. Mrs. Wermig has very ably seconded the efforts of her husband in the necessary work of looking after the "gate" at the football matches and the football public were anxious to show their appreciation.

Following the presentation an enjoyable evening was spent in playing cards, games and listening to a radio program.

Two scientists in Austria believe that by feeding electric currents directly into the nervous machinery of the ear without using the ordinary hearing mechanism at all some deaf people can be made to hear. They are now working on an instrument to perform this operation.

Mounties Sail
For Far North

S.S. Beothic Has Detachment On Board for Eastern Arctic Archipelago

NORTH SYDNEY, N.S., Aug. 9.—Sailing recently on the ss. Beothic, was a detachment of Royal Canadian Mounted Police enroute to the eastern Arctic archipelago, where they will spend two years, before again returning to civilization.

Corporal Jacobs and Constables Dersch and Margetts were the first of the detachment to reach North Sydney. They were followed by Constable Foster, of Fredericton, and later by Inspector Joy, with the balance of the party which numbers twelve men.

The Beothic also carried supplies for the various mounted Police posts in the eastern Arctic archipelago and will bring out the members of the force which the present party is going in to relieve.

The life of the mounted policemen in the Arctic is very adven-

turous as described by one of the party. When they reach the main supply post they will be broken up into parties of two which will patrol their respective routes. Each member of the force is supplied with a large snow knife and when on the trail when making camp at night they seek out a spot where there is good pack snow and from this first cut blocks with which to make an igloo.

These snow houses when first made offer no other ventilation than that which comes in through the blocks of snow, the doorway being closed up after the occu-

ants get inside. After a while the moisture, from breathing and also the heat from the fire causes a coating of ice to form on both sides and it is necessary to punch a hole through the top. They are made large enough to accommodate a man comfortably in a sleeping posture.

During 1929 the fisheries of Alaska employed 29,283 persons, of whom 10,921 were fishermen, 16,161 were employed in the wholesale and manufacturing industries, and 1716 in transporting fishery products.

Prince Rupert!

Mecca of all Northern
B.C. during Fair Week
September 2nd to 5th

Now that Prince Rupert is about to have a forward movement, two local institutions are well worthy of consideration and support as being important factors in that movement. They are:

The Annual Fall Fair
The Prince Rupert Daily News

Out of town people are recommended to make their plans now to attend the Fall Fair which promises to be the biggest and best ever held in the city, and to enter their exhibits with Secretary Vance at once.

They are also recommended to see that their subscriptions to the Daily News are paid up so that they may keep in touch with all the forward movements. It is a daily record of the doings of the district and a support of all that is best for Northern and Central B. C.

High Lights in Program

- Greenville Celebrated Native Band.
- Prince Rupert Boys' Band.
- Quby's eight famous fluffy white poodles which give a wonderful vaudeville act with two people.
- A juggling and acrobatic dance act known as Adolphe and Cynthia.
- Ken Ross the acrobat and equilibrist in clever exhibitions of his skill.
- Bill Badely and his shows will be here. They are now touring the fairs in Alberta with Merry-go-round, boxers and wrestlers and eight other side shows and all will be here and the boxers and wrestlers will be willing to take on all comers.

BASEBALL GAMES WITH OUTSIDE TEAM.

Mrs. Charles Larsen and son Frank, are leaving on the Prince Rupert this evening for Vancouver where they will probably locate.

In the local police court before Magistrate McClymont, Camilla Weir, Comox Avenue, was fined \$100 and costs on the charge of supplying liquor to Indians.

Jack Hockin, well known and popular commercial man with Mrs. Hockin and son will be leaving town shortly for Penticton where it is understood he will open a hardware store.

Members of the City Council were looking over the ground at the floats at the new fishermen's dock last evening. A report will be made by the Board of Works department and discussed at their next regular meeting.

Included in the freight for Vancouver this evening on the C.N.S. Prince Rupert is a totem pole about fifteen feet in height. This pole which was made in the neighborhood of Alert Bay is a fine example of the Indian Art.

The instruction car of the Railroad Service Division of the International Correspondence School of Canada under Mr. Craig, who has been here for the past week, left for Edson attached to the east-bound train this afternoon.

Pacific Coyle Navigation Company's tug Pacific Foam left for Arrandale yesterday having in tow the Refined Oil transportation barge Number 3, of the Union Oil Company which was being repaired at the local drydock.

C.P.R. steamer Princess Mary due to arrive yesterday evening is now reported due this afternoon at 2.15. Delayed partly by calls at the various canneries and also by heavy fog in the Skeena she was forced to spend the night in the river and will sail south as soon as possible after arrival.

CONSTRUCTIVE SUGGESTIONS WELCOMED

Open Session of State Health Insurance and Maternity Benefits Commission to Be Held in Prince Rupert

The Provincial Royal Commission on State Health Insurance and Maternity Benefits proposals is to hold an open meeting at the Prince Rupert Court House Saturday evening, August 16, to hear any representations that may be made by residents of the northern areas touching matters within the scope of the Commission's investigation. The Commissioners invite the attendance of all interested in the subjects of the inquiry and will be glad to hear as witnesses individual citizens or representatives of public or semi-public bodies, industrial organizations, fraternal orders, trades unions, social or hospital workers, medical men, etc., who may be able to offer constructive suggestions as to the possible economical operation of public health insurance or maternity benefits in British Columbia, or give any new reasons for or against state health insurance proposals as they now are fairly well understood in this province. Copies of the Commission's Progress Report presented at the last session of the legislature are available upon request from the secretary at Victoria.

There will be no services in this church tomorrow.

FISH SALES

Canadian boats sold 94,500 pounds on the local fish exchange this morning to the 84,500 pounds sold by American boats. The Canadian boat Vera Beatrice got the best price selling at 9.5c and 8c, all other boats getting from 8c and 4c up to 8.8c and 4c.

American

Akutan, 31,000, 8c and 4c to Royal Fish Co. (Ketchikan delivery).

Happy, 8,000, 8.6c and 4c, Cold Storage.

Hi Gill, 8,000, 8.6c and 4c, Cold Storage.

Viola, 6,000, 8.8c and 4c, Royal Fish Co. (Ketchikan delivery).

Oonah, 8,500, 8.8c and 4c, Royal Fish Co. (Ketchikan delivery).

Corra, 3,400, 8.5c and 4c, Cold Storage.

Prisco, 12,000, 8.8c and 4c, Cold Storage.

Charlotte, 7,600, 8.5c and 4c, Booth Fisheries.

Canadian

Capella, 9,000, 8.8c and 4c, Atlin Fisheries.

Minnie V., 5,000, 8.3c and 4c, Cold Storage.

W. T., 11,000, 8c and 4c, Cold Storage.

Dundas, 2,800, 8.1c and 4c, Royal Fish Co.

Cape Spear, 7,500, 8.3c and 4c, Cold Storage.

Livingstone, 12,000, 8.1c and 4c, Atlin Fisheries.

Emblem I., 8,000, 8c and 4c, Cold Storage.

Johanna, 10,000, 8c and 4c, Cold Storage.

Bayview, 6,000, 8c and 4c, Cold Storage.

D. J., 6,000, 8.8c and 4c, Royal Fish Co.

Vera Beatrice, 8,000, 9.5c and 5c, Pacific Fisheries.

Heiga H., 9,000, 8c and 4c, Booth Fisheries.

Alaska Trollers Hold Meeting

Said to Be Dissatisfied With Price Paid For Fish By Buyers

KETCHIKAN, Aug. 9.—Said to be dissatisfied with the price of fish, members of the Alaska Trollers Association held a meeting at Port Alexander this week.

The price of fish at the present time is 17 cents per pound for large king salmon in Ketchikan and 14 cents on the grounds, 10 cents for smalls in Ketchikan and 7 cents on the grounds, and 6 cents for whites in Ketchikan and 5 cents on the grounds, with 40 cents each for troll caught cohoes in Ketchikan and 25 cents on the grounds.

No official word has been received here of the result of the meeting, but boats from Port Alexander declare that there was no strike vote but that it was possible some of the boats might decide not to fish for a time.

"Ice Engineer" Will Try Again

Dr. H. T. Barnes to Experiment With Newly Devised Detector Off Notre Dame Bay

HALIFAX, N.S., Aug. 9.—Icebergs during the fogs and at night time, one of the greatest menaces to ocean travel over the St. Lawrence route to Europe, may be successfully combated this summer if the work of Dr. Howard T. Barnes, ice engineer expert, comes to a successful conclusion.

Dr. Barnes left Montreal on his tenth iceberg expedition on July 15. This expedition is sponsored by the Shipping Federation of Canada and will have its centre of operations Notre Dame Bay on the coast of Newfoundland. The base of operations will be Lewisporte, Nfld.

The main object of the expeditions will be to try out the Barnes-Van Horne Iceberg detector for which the idea was discovered during Dr. Barnes' ninth iceberg expedition last summer, sponsored by R. B. Van Horne.

Icebergs, Dr. Barnes claims, have a voice of their own, and it was accidentally discovered during the experiments last summer, that this voice could be heard through the water.

The discovery was made when some one "listened in" on a crudely made detector of rubber pipe with a funnel on the end, the latter under the water.

The location of the iceberg is determined through using two or more detectors in the hull of the ship. A ship carrying such detectors, determines the location of an iceberg, and travels on in safety from the bergs, even during dense fogs.

MOTHERS now learn value of MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know about Phillips Milk of Magnesia.

This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as sour-bolching, frequent vomiting, feverishness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowels in constipation, colds, children's diseases.

A teaspoonful of Phillips Milk of Magnesia does the work of half a pint of lime water in neutralizing cow's milk for infant feeding, and preventing hard curds. Its many uses for mother and child are fully explained in the interesting book "Useful Information." It will be sent you, FREE. Write The Chas. H. Phillips Chemical Co., Windsor, Ont.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 90 years.

WORLD SPORT WITH PEN AND CAMERA

FOOTBALL MEETING WASHED

Mobley Cup Withdrawn From Competition as Legion and A. C. Unable to Field Teams

The Prince Rupert Football Association met last evening, the following being present, Duncan Kennedy, president; J. McLean, vice-president; J. Kelly, (Legion); S. Currie, (Athletic Club), and J. Norington, (Regiment).

A communication from the Regiment was read, and in the discussion following, the representatives of the Legion and Athletic Clubs, regretted their inability to field teams for the rest of the season. The association decided to withdraw the Mobley Cup from competition.

The receipt of a letter from the Ocean Falls football team relative to the playing off for the championship of Northern B.C., was discussed and the executive is to take the matter up with the Exhibition Board.

Nina Gurvich Ready to Fight But Six Rounds

Nina Gurvich called at the News office this morning to make clear his position in regard to the fight with Billy Bagshaw. He can see no reason for the fight being held privately. He is willing and anxious to meet Bagshaw but at present cannot see his way to agree to a match for more than six rounds.

He is willing to meet Bagshaw, winner take all the purse, and without any stipulations regarding weight.

Nina is of the opinion that under the circumstances Bagshaw through his manager can easily meet his terms. The public want the fight and so does Nina.

BAGSHAW WILL FIGHT WOODS

Fast Vancouver Boy Is Signed Up to Meet Local Boxer

Arrangements have just been completed for the staging of a boxing match in the city on August 22 between Billy Bagshaw, popular local junior welterweight and Gill Woods of Vancouver. The fight will be over the 10-round distance and both boys will start serious training immediately.

Bagshaw has shown a great deal of improvement during the past year and a number of important matches for him will probably be arranged during the next few weeks including Henry Deeth of Anyox and Albie Davies of Victoria.

The dead letter office costs the United States Government approximately \$5,000,000 a year. More than 25,000,000 pieces of mail are handled by this office annually.

These two members of the young idea are putting across a little hurdling competition at Lavenor Hill school sports held recently at Battersea Park, England.

SPORT CHAT

The football game to be played between the Oldtimers and the Present Timers will take place very shortly. A date had been set but it was found to conflict with another important athletic event so the committee will set another date.

Players available for the Oldtimers include Carl Brand, George Kelsey, Dick Lambe, Jimmy Currie, Sam Currie, Bob Arthur, Tom Black, Percy Tinker, Malcolm Lamb, Fred Hardy, Bill Murray, Alan Davis, George Waugh, Jimmie Andrews and W. Barton.

It will be seen that there is a wealth of undoubted talent, the unknown factors being their ability to last out the game and of course lack of understanding of each other's play so as to produce the highest quality in combination.

A team of Indians from Humpback Bay is anxious to arrange a football game with a local team. They were desirous of playing today but owing to short notice it was not found possible to field a team against them. A game may be arranged for the following Saturday.

We thank Percy Williams for his reply to the question put to him at the Toronto Police sports as to why he was beaten by Tolan in the international match at Vancouver on Dominion Day. The reply was worthy of a champion. "There was nothing wrong. Nothing could have beaten Tolan that day. They beat me and I have no excuses or alibis." And the same spirit will carry him through to many a victory in future.

B. C.'s cricket team have been doing well in the Western Canada's Cricket tournament at Calgary. Rhodes with six wickets for 11 runs had a lot to do with their victory by 197 runs over Saskatchewan who were last year's champions.

Great things may be expected from young Dunc McNaughton of Vancouver in the high jump. He cleared 6 feet 2 inches at the Toronto Police Sports and must be at the peak of his form. B.C. looks like having a champion high jumper of Canada and even at the Empire Games next week at Hamilton.

Two Australians lead the cricket batting averages in England. Don Bradman has the spectacular record of an average of 106 runs per innings for 14 innings. Woodful, the Australian captain is second with a fine average of almost 75 runs per innings for 18 innings. Then come Oldroyd Kippax, another Australian, Sutcliffe, Duleepsinhji, Whysall, Ducat, Hendren and Hobs.

In the bowling end Parker, the Gloucester bowler leads with 72 wickets at an average cost of 14 runs and then comes Grimmett the Australian googly bowler with 110 wickets at a cost of 14.66 runs.

Australia owes most of her success to these three players but their fine showing has had an inspiring effect on the other members of the team and their success in the final test is very possible.

Constantine, the noted West Indian cricketer who plays now for

Doretta Turnbull, 17-year-old Los Angeles, Calif. girl, in her Fleety, doing 50-an-hour, training for defence of her National women's outboard motorboat title at Newport Bay.

the Nelson Lancashire cricket team in the summer was in form with the ball recently when he took 11 wickets for 66 runs against East Lancashire. Richardson, an Australian, plays in the same competition and scored 53 runs while helping Midgley to run up a score of 118 for no wickets for Bacup against Ramsbottom.

The win of Percy Williams in the Police Sports in Toronto is very satisfactory and leads British Columbians in particular to hope that he will establish himself at the

t takes little to make the difference between a win and a place. A poor start, a partial stumble, a loss of balance, any of many other of many another apparently incidental makes so much difference in a race that is over by the time a person counts ten leisurely.

No doubt too, lack of competition may have contributed to his defeat but Tolan and Simpson both did super-running to defeat our Percy, and among any other runners in the world Percy would probably still have been first.

Winning Ways of Leading Teams Big League

NEW YORK, Aug. 9.—In the National League, Brooklyn and Chicago continued their winning with victories at the expense of St. Louis and Boston Braves yesterday. The Robins with a hitting barrage won over the Braves while the Cubs defeated the Red Sox at Chicago. The Giants also continued their winning streak by winning two games from the Pirates at Pittsburgh.

In the American League the Athletics increased their lead with wins from Chicago, Washington and New York who are in second and third places respectively. Boston won.

Empire Games at Hamilton next week as the Empire's leading sprinter. His recent defeat by Tolan and Simpson at Vancouver should not have been so unexpected. Followers of sport know that it is rare that runners especially sprinters maintain an undefeated record for years. In the 100 yards

STATION IS THE VICTOR

Beats Round House in Ragged Game By Huge Score of 17 to 4 at Softball

The Station team walked away from the Round House aggregation to the tune of 17 to 4 in last night's softball game. It was a very ragged game from start to finish. The Round House team might have put up a better game had their regular players been on the job who were away on their regular duties. Pitcher Raby for the Round House seemed to be freely hit at all times.

Station: Horton, Styles, Downie, Skinner, Summers, Unger, McIntosh, Skattebol and Morrison.

Round House: Raby, Wick, Tulloch, Cooney, McCuaige, Nelson, Lemieux, Cameron and Peterson.

Batteries—Station, Styles and Skattebol; Round House, Raby and Tulloch.

Umpires—Comadina and Palmer. Next game will be played on Wednesday, August 13, between Station and Dry Dock.

LOCAL MAN GETS FISH

Fred Joudry Had Interesting Experience Near Topley Recently

The Burns Lake Observer tells an interesting fishing story in which a well known Prince Rupert man took part. "Piloted by Mr. Greenwood of Topley, H. D. MacNeil, local telegraph operator and Fred Joudry of Prince Rupert had one of the most exciting fishing trips imaginable. The two latter started from Burns Lake at 7:30 p.m. on Saturday and after their arrival at Topley slept until 2 a.m. immediately thereafter embarking for the 25-mile car ride. After the limit of car transportation had been reached they set out on a four-hour hike for Fulton River where they connected with Indian Chief Daniel Leon, who took them to the trout-favored waters. Mac then prepared his tackle and to give the rainbows a choice he put on two flies, in spite of the protests of the chief. At the first cast two large trout around four pounds each arose for the flies and Mac's fancy tackle disappeared in a tangle of excitement. Chief Leon said, "Mr. MacNeil, I tell you two flies two trout, four flies four trout."

After this Mac cast one fly at a time and hauled them in while the chief used the landing net and gaff. The others also profited by Mac's early experience and were satisfied with one at a time. Fred Joudry said that if he hadn't examined his own eyes before starting he would not have believed that fish of such size and fighting ability were awaiting the angler in such numbers. It was merely a matter of limiting your catch to what could be carried away. The party returned on horseback to where the cars had been left and Messrs. Joudry and MacNeil returned to Burns Lake on Monday morning a little saddle sore and suffering from loss of sleep, albeit very enthusiastic about the scenic and fishing possibilities of the Babine Lake country.

DEPARTMENT OF PUBLIC WORKS

Notice to Contractors Houston School "Tender for Houston School" will be received by the Minister of Public Works up to 12 o'clock noon on Monday the 25th day of August, 1930, for the Erection and completion of a One room School at Houston in the Omineca Electoral District B.C. Plans, Specification, contract, and forms of tender may be seen on and after the 30th day of July 1930 and further information obtained at the Department of Public Works, Parliament Buildings, and at the offices of the Government Agents at Vancouver, Prince Rupert and Smithers, and Builders Exchange, Vancouver, copies of plans specifications, etc., can be obtained from the Department on payment of a deposit of Ten Dollars (\$10.00) which will be refunded on return of the plans, etc., in good condition. Tenders will be opened in public at 3.30 p.m. on Monday the 25th day of August 1930 at the Parliament Buildings, Victoria. The lowest or any tender not necessarily accepted. P. PHILIP, Chief Engineer. Department of Public Works, Parliament Buildings, Victoria, B.C.

By George McManus

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

tion always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

For the protection of your wee one—for your own peace of mind—keep this old, reliable prepara-

Halibut Landings During Week Heavier—Regrets Expressed at Director Finn Leaving—Alaska Salmon Pack

Halibut sales at the local exchange have been well maintained this last week, a total of 805,000 pounds having been disposed of compared with 751,000 pounds the previous week. Canadian boats sold a total of 280,000 pounds with the Kaien getting the highest price of the week for Canadian boats with 11.1c and 5 1-2c.

Total American landings for the week amounted to 524,700 pounds, a decrease from the previous week's total of 543,500 pounds. The top price was 13.3c and 5c which the Sherman received for 13,000 pounds on Tuesday.

The year's total to date is 14,325,400 pounds of which 9,876,900 pounds were from American boats and 4,448,500 were from Canadian boats.

Captain J. L. White of the Pacific Coyle Navigation Company's tug Chieftain which brought two scows of coal for Albert and McCaffery this week was recalling, as he watched the Prince William and the Prince Charles at the wharf on Thursday, how 20 years ago with the same Chieftain as he is now captain on, he was engaged in the daily run between Essington and Prince Rupert.

At that time of course Essington was the big port and Prince Rupert but a beginning. Construction of the Grand Trunk Pacific Railway was in progress and the Inlander was plying on the Skeena. Captain White recalls many of the oldtimers here and a certain celebration on May 24 when people did know how

to celebrate and the pipers made the pipes skirl. Bill Vickers was chief of police and he recalls S. D. Macdonald, F. Stork, C. H. Orme and many others with whom he is renewing acquaintance and comparing notes.

He recalls also taking a scow of lumber from the Georgetown Lumber Mills for Cy Peck to Stewart where there was one shack at that time. And yet some people will complain that Prince Rupert is not going ahead.

By the same token an incident happened the same afternoon that would not have happened 20 years ago. The Prince William was just docking and had not made fast. The Prince Charles was about ready to pull out but was waiting for passengers who were to be transferred from the Prince William. It was just 4 p.m. when a would-be passenger made his way hurriedly along the wharf and with a hardihood that surprised those on the quay jumped aboard the William.

He seemed surprised at the lack of interest in his manoeuvre till he discovered that he was on the Prince William which was just coming in, whereas he wanted to catch the Prince Charles which was lying ahead and not quite ready to pull out. He made his retreat leisurely enough and boarded the right boat comfortably by the ordinary gang-plank which was still in position.

Pacific Salvage and Towing Company's packer Red Boy returned from Lowe Inlet on Thursday evening where she has been packing.

Skookum I., barge with derrick, belonging to the Pacific Salvage & Towing Company, arrived from the Skeena and will leave for Vancouver. She has been engaged on the Skeena where she has been working at the foundations of the piers of the transmission service for the Canada Power Company.

Henry O'Malley, commissioner of fisheries for the United States, has been visiting in Alaska investigating at first hand the condition in the salmon fisheries.

After making the rounds of parts of the district on the fisheries boat Brant, Captain Earl Hunter in command, Mr. O'Malley arrived in Ketchikan from Juneau, to continue his inspection in the South-eastern Alaska district. He expects to remain until the end of the season.

Mr. O'Malley said he will recommend that the Bristol Bay section be closed to commercial fishing during the year of 1935, the cycle year.

He says a poor run began there in 1920 and that it was still worse in 1925. He gave the big cannery companies the option of reducing their gear or closing down last year, and suggested that they adopt the latter plan. They decided to operate with reduced gear. The total failure of reds this season caused the early closing order on the part of the commissioner.

Mr. O'Malley gives the total Bristol Bay pack as follows:
Reds 340,735
Kings 15,102
Chums 21,723
Pinks 13,526
Cohoes 3,221
This was a third of a pack of 1,000,000 cases last year.

The waterfront these days is enjoying to the full the blue skies reflected in placid waters except when its surface is broken by the jumping of salmon—we saw one jump clear of the water three times in rapid succession—the scurrying of motor boats relieved occasionally by a sailing boat leisurely and quietly pursuing its course. But our old friend Doc took himself off to Tugwell Island one day last week where in the quiet solitudes on sandy beaches he might enjoy the sun even mode. And there, "far from the madding crowd," did he absorb the rays of the solar king what time he also snoozed, till he was glad to seek the shelter of a

tree lest his schoolgirl complexion be utterly ruined. Oh; for a sandy beach in Prince Rupert.

Frank Allan has been enjoying these evenings by putting into its proper position an extra tank. Now with an additional 45-gallon capacity the Collier will be able to go even further afield.

Very sincere and general are the regrets at the approaching departure of Don Finn who has so ably conducted experiments at the Biological Station on the front. From a small beginning it has grown in size and even more in importance under his guidance. His waterfront friends are wishing him every success in his new venture.

With everyone very much occupied there seemed little chance to find one to tell what they were so busy about at the Pacific Station of the Biological Board but busy people always find time to do more. The refrigerator plant that has been in process of installation, is now completed and mechanical engineer O. C. Young is busy testing it out.

Messrs. C. Vellum and G. Borden Marshall of the Biological Station who have been investigating the phenomena at the Naas River where the fishermen have been suffering serious losses through their nets being filled up with silt and ruined have now returned and are preparing their report on the results of their investigations.

The annual meeting of the Pacific Coast workers of the Biological Board of Canada will take place at Nanaimo on August 28, 29, and 30. The six permanent members of the Prince Rupert station will be present. In addition there will be the field workers from the Nanaimo staff, scientists from the universities who have been engaged this summer in various lines of research work and also professors from the science faculty of the University of B. C. The discussions that follow the presentations of reports, the comparisons of observations and the exchange of ideas all combine to make these meetings of intense interest to those present and to advance the scientific side of our fisheries without which there can be little real progress.

While Mr. Finn's connection with the B. C. Packers is to date from the first of September at the request of the Biological Board he will attend the meetings of the sub-committee of the Prince Rupert station during September.

Whether the big salmon run has anything to do with the crab situation or not is beside the question but we hear of big catches of big crabs being made near McNicholl Creek. Fred Bradshaw of tennis, football, singing and financial fame has now added crabbing to his long list of accomplishments and had a catch of 20 large crustaceans that helped to provide crab fillings and salad dressings for the Commerce mess during the week.

The big run of salmon has its drawbacks. John Norvig with the Balsac I., who has been on the halibut banks up to recently, fitted out his boat as a seiner and soon had a 12,000 catch. But like some other independent fishers he found difficulty in disposing of his catch and was glad to sell some for bait to the halibut boats while a portion was disposed of to the fertilizer plant.

At North Island we hear of some excitement over the big catches and price vagaries. When the price came down to 13c and 8c some decided that it was time to strike. Others went on fishing and on getting a good catch were able to sell their fish and the strike collapsed. Fishing as one man puts it is a double gamble. You gamble as to whether you get the fish or not and then you gamble as to whether you get the price or not.

The Iceland seems to be the high boat at North Island so far this year a \$40 return being considered a poor day.
