CONSERVATIVE TO BE GRANTED SEAT JAPAN WILL BE LARGER MARKET FOR CANADIAN GOODS

Delegation of Chamber of Commerce Back in Vancouver After Tour

More Wheat and Foodstuffs, Lumber and Minerals and Processed Commodities Can Be Sold In Orient, Statement Declares

VANCOUVER, Dec. 13.—"Japan is already Canada's third largest customer and is almost certain to prove an expanding market for the three main groups of our primary or semi-manufactured products," the delegation of the Canadian Chamber of Commerce reported in a statement reviewing their recent tour of the Orient. The delegation arrived home last night. The statement issued by John Imrie of Edmonton, chairman of the delegation, listed the three groups of products as wheat and other foodstuffs, lumber and minerals and a limited range of fully processed commodities.

Many Hampers Badly Needed For Christmas

Many hampers will be needed this Christmas to provide for those who have not the money to properly enjoy the festive occasion this year. People who live in affluence find it difficult to realize that there is not for the aid extended through such agencies as the Salvation Army there would be little enjoyment for many young and old who find themselves in difficult circumstances. Contributions sent to the Daily News or to the officers of the Salvation Army are used for Christmas hampers or to provide for the big Christmas dinner it is expected to give this year at the Citadel. Following are recent contributors:

ROCHESTER NOT TO RUN

Ex-Mayor Puts Quietus to Reports That He Is to Be Mayoralty Candidate

Another possibility as a mayoralty candidate whose name has been heard mentioned a good deal during the past few weeks was eliminated from the field when Ex-Mayor H. B. Rochester, on inquiry being made of him this afternoon, stated that he had not even thought of the matter and had no intention whatever of entering the contest. Unless some dark horse should enter the field, it would appear as though Mayor C. H. Orme is due to be re-elected by acclamation.

KETCHIKAN REVENGE

One Man Gets Even With Other For Turning State Evidence; Double Killing

KETCHIKAN, Dec. 13.—"Black Matt" Berkovich, convicted of conspiracy to violate the dry laws, and Phil Dohm, former Seattle man, are dead here, victims of murder and suicide.

Berkovich shot Dohm from behind as he left a pool hall and then turned the gun on himself.

Dohm was indicted with Berkovich on a conspiracy charge. He turned State Evidence and was not prosecuted.

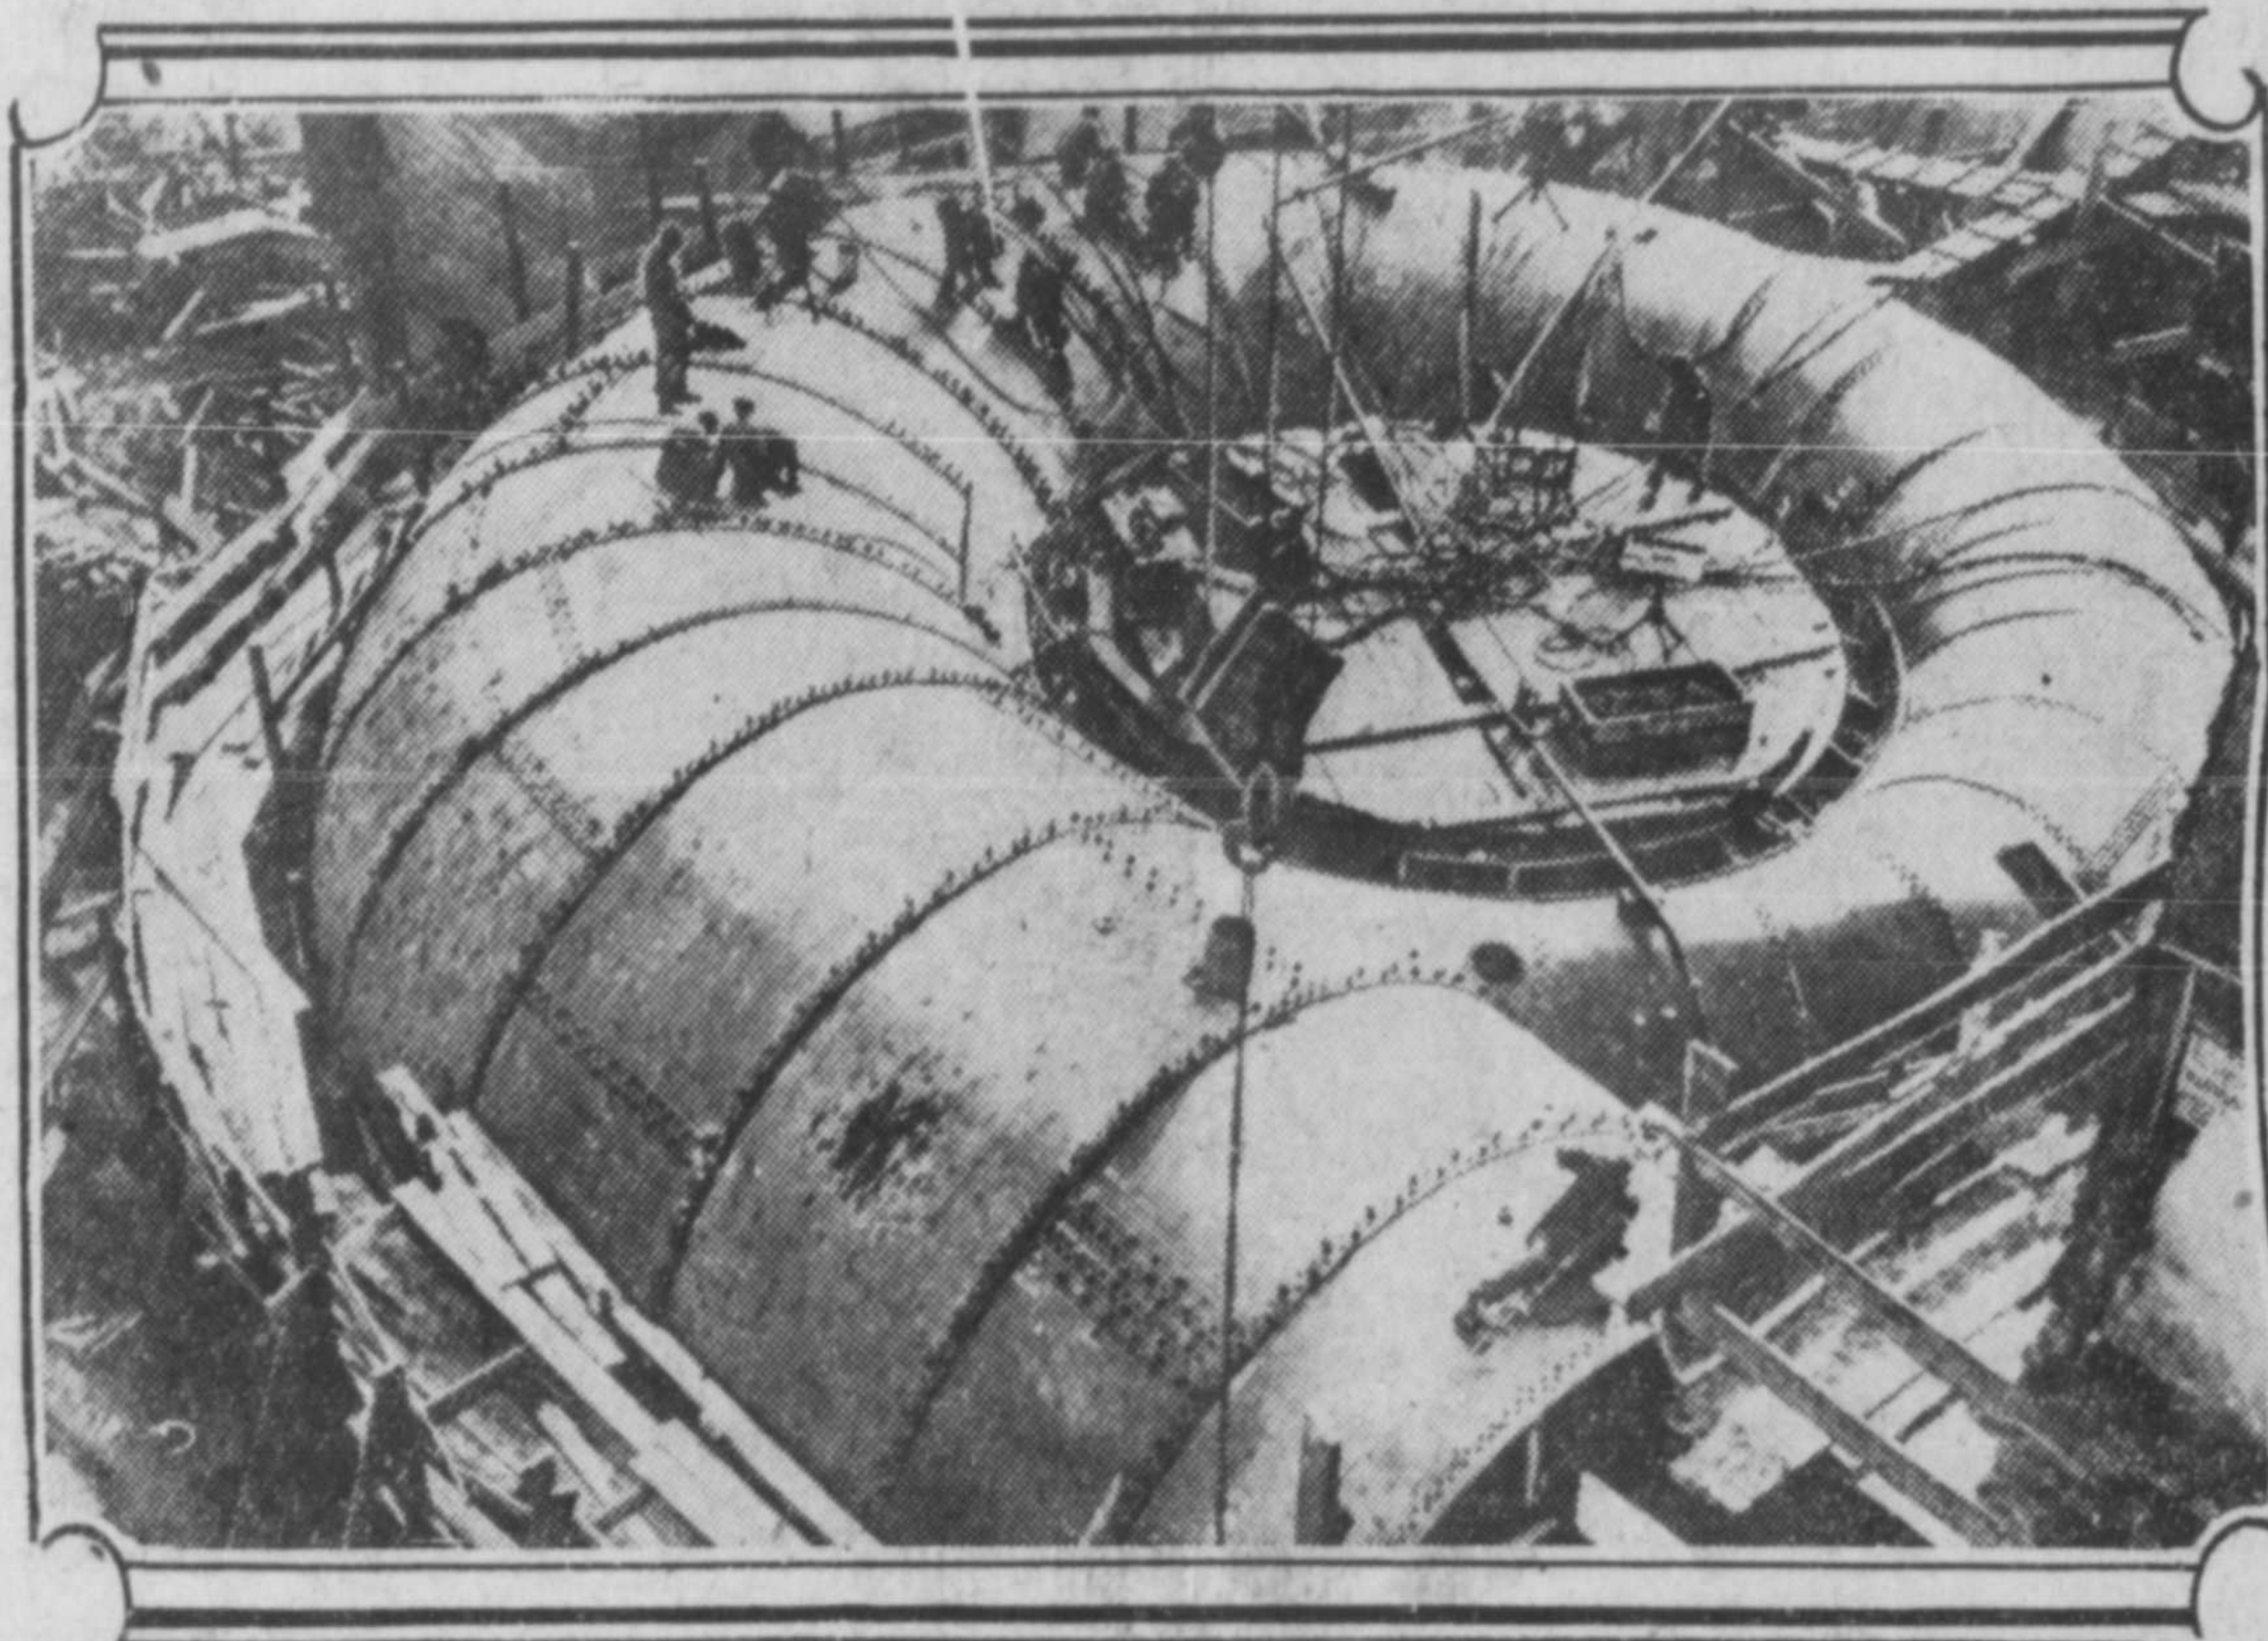

Rupert East Young People Have Social

The Young People's Society of Rupert East United Church enjoyed a social evening last night. Games were played and delicious refreshments were served.

The Weather

Triple Island—Fresh westerly wind, moderate sea, clear, with light clouds.
Langara—Clear, light south easterly wind, calm sea.
Dead Tree Point—Part cloudy, south east, 4 miles, barometer 30.02, temperature 35, light swell.
Prince Rupert—Barometer 30.11, temperature 40, wind, south east 6 miles, cloudy, calm sea.

Installing Turbine in Largest Power Station

View of installation of huge turbine which will be part of greatest electrical power station in the world. It is situated on Dneiper River.

WILL SELL MUCH LAND NEAR HERE

Government Decides to Dispose of Property Near Vanderhoof and Prince George

VICTORIA, Dec. 13.—Fifteen thousand acres of reverted lands in the Vanderhoof district and twenty-two thousand acres south of Prince George served by existing highways and transportation facilities will shortly be put on the market by the provincial government it was announced yesterday.

The decision followed a meeting of a special committee which was struck earlier in the year to grapple with the problem of reverted lands. Hon. N. S. Loughheed, minister of lands, presided.

Fierce Hockey Battle Staged

Seattle Eskimos Tied With Vancouver and Portland For Leadership of Coast League

SEATTLE, Dec. 13.—In one of the most fiercely fought hockey battles ever seen here, Seattle Eskimos defeated Portland Buckaroos three to one last night to forge into a tie with Vancouver Lions and Portland for first place in the Pacific Coast League. All goals were scored in the final period.

STRIBLING IS WINNER

Was Given Unanimous Call Over Tuffy Griffiths at Chicago Last Night

CHICAGO, Dec. 13.—Young Stribling defeated Tuffy Griffiths, Sioux City heavyweight, last night by winning the 10-round decision of both referee and judges.

Fort George Liberals Decide Not to Nominate Candidate to Contest Forthcoming Election

PRINCE GEORGE, Dec. 13.—Liberals of Fort George riding, in convention here last night, decided not to nominate a candidate for the forthcoming provincial by-election to choose a successor to Hon. F. P. Burden, who was recently appointed Agent-General in London. The Conservative nominee, who is expected to be Dr. R. W. Alward, dentist of this city, will therefore, be the new member unless an Independent should enter the field. It is expected, however, that Dr. Alward will receive an acclamation.

The Liberals, in deciding not to place a candidate in the field, accepted a recommendation from a special committee to that effect. This committee recommended against a Liberal nomination on the grounds, first, that the voters' list for the riding was far from complete, and would not represent a true expression of public opinion; second, that nomination day coming just before the holiday season and election day immediately after made it difficult to conduct a campaign; third, that efforts should be devoted to relieving unemployment rather than conducting election campaigns, and fourth, that a general election would be held shortly in any case.

The following was the exact wording of the reasons upon which the inadvisability of a Liberal nomination were based:

1.—The government should have held a court of revision of the voters' list, as provided for in Section 15, sub-section 3, of the Provincial Elections Act, before calling this by-election. There are not only two hundred fewer names on the list than in 1928, but 1700 fewer than on the list used in the recent Dominion Election. In the Peace River area of this riding there are only 1223 names on the present list, as compared with some 2500 on the Federal list. Thus a large portion of the electorate is disfranchised.

2.—The holding of an election covering the holiday season in a district so far flung as Fort George, with its difficulties of transport, precludes the possibility of even reasonably covering the district, and in our opinion the election was

Premier Bennett Is Back In Canada; Will Make Statement Later Regarding Empire Meet

ST. JOHN, N.B., Dec. 13.—Returning to Canada late yesterday afternoon from the Imperial Conference in London, Premier R. B. Bennett expressed pleasure at being home again. He was greeted at the pier by many Maritime political followers. Mr. Bennett was reluctant to make any statement at the present time regarding the conference but said that, at an early date, he would make a statement regarding the general situation in Canada and further plans of the government "to ensure its betterment!" He said that the work of the Imperial Conference would be included in such a statement.

FEE CUT WANTED

Lower Royalty and Stumpage Asked By Sawmill Men of Prince George District

The lumbermen of Prince George district are preparing a memorial for submission to the provincial government asking for a substantial cut in the government royalty and stumpage. When the memorial has been drafted, it will be submitted to the Prince George Board of Trade and Conservative Association for endorsement.

In the course of discussion at a recent conference of lumbermen in Prince George, it was pointed out that a marked change has taken place since the sawmilling industry was instituted in the district in 1917. Stumpage and royalty was less in those days when logs were available close to the mills than today when the operators have to go far afield for their logs. On top of this, there has been a drop in lumber prices since 1917 of 25% and a very slight reduction in operating costs.

Under present conditions, millmen of the district claim that they cannot manufacture lumber at a profit.

PLANE IS SALVAGED

Fleetster Machine of Pacific International Airways Ready For Air Again

TELEGRAPH CREEK, Dec. 13.—E. T. Lowe jr., president of the Pacific International Airways, and members of his party have succeeded in moving their submerged plane to safe ice. The plane has been fitted with skis and is now entirely dried out.

The plane, a Fleetster, crashed through the ice of Sawmill Lake during an attempted landing while Lowe was enroute to Atlin to join the search for Capt. E. J. A. Burke.

The same day, a second plane, a Fairchild, was wrecked when it crashed into a tree. This plane was wrecked beyond possibility of salvage.

BATTALINO GETS CALL

Defended Featherweight Crown Successfully With Unsatisfactory Decision

NEW YORK, Dec. 13.—Bat Battalino, featherweight champion, successfully defended his title here last night by winning the decision in a 15-round engagement with Kid Chocolate, the dusky Cuban.

The crowd booed the decision justly. Battalino was floored for the count of nine in the first round.

"We all bring back with us the warmest feelings of gratitude for the generous welcome and unflinching kindness and hospitality of the people of the British Isles," said Premier Bennett.

ON ROCKS IN BUTZE

Three Men Had Thrilling Experience Yesterday—Trolling Boat Dundas Undamaged

Miraculously enough, the trolling boat Dundas, belonging to D. Lund of Beach Place, sustained little if any damage as a result of being stranded on the rocks in Butze Rapids where she was swept ashore by the tide while coming in from the government road camp yesterday morning.

Capt. Lund and two road workers were on the Dundas when the stranding occurred. The three men were soon picked up by the halibut boat Kaiken which was on a hunting trip.

This morning the Dundas was successfully salvaged and it was found that she suffered little if any damage.

MANY MEN GET WORK

Scheme of Federal, Provincial and Municipal Governments Has Had Good Results

OTTAWA, Dec. 13.—With three provinces not yet reported, the joint unemployment relief scheme of the federal, provincial and municipal governments has provided work for 84,712 individuals, Senator Gideon Robertson, minister of labor, announced today.

The total does not take into account, Quebec, Saskatchewan and Alberta.

DECISION RESERVED IN INTERDICT CASE

Evidence was heard this morning by Magistrate McClymont in the cases of John McCaskill, charged with being intoxicated while under interdiction, and Charles Anderson, charged with supplying an interdict with liquor. The magistrate reserved his decision in each case until this afternoon.

Winnipeg Bank Robbed Today

WINNIPEG, Dec. 12.—Three armed bandits held up a Bank of Montreal branch here today and escaped with \$8,700.

VANCOUVER WHEAT

VANCOUVER, Dec. 13.—Wheat was quoted on the local exchange today at 56 1/2c.

TITULAR DECORATIONS

Referring once more to the question of titles, the position of the Daily News has been criticized and the antiquated cause championed, the following remark being made: "A knighthood is a mark of esteem bestowed by the Sovereign as a reward of merit." That is the chief difficulty. As a matter of fact titles are given out very often as a reward for contributing to party campaign funds. The sovereign has nothing to do with it except to be the puppet in the hands of the politicians.

It is true that occasionally some work of merit is rewarded in accordance with a popular demand but seldom does an act, no matter how meritorious, receive any greater reward than the lowest title. The higher titles such as that of duke and marquis are seldom allowed to go to the common people and even the rank of baron or earl or even baronet, is seldom bestowed outside the charmed circle.

We prophesy that it will be only a few years before titles of the kind designated will become obsolete in all civilized

countries. They are an interesting relic of the past and many will regret to see them disappear. Possibly some will linger and be regarded much as are the relics in the British museum and the Tower of London, but in an enlightened age with an enlightened, educated and cultured people, titles as they are known today, must go, and Canada, having taken the forward step in refusing them should hold firmly to her position.

MRS. STANLEY BALDWIN

Mrs. Asquith, wife of a former premier of England, was known as the woman with "a serpent's tongue." Now Mrs. Stanley Baldwin seems in a fair way to earning a somewhat similar soubriquet.

It is difficult for a person living in Canada to understand how any lady could be so lacking in good taste as to make a political speech at the opening of a fair, and especially to use language such as was ascribed to her yesterday when she spoke of a former premier and leader of a once great party as being comparable with the German Emperor for villainy.

Lloyd George is used to being a villain. When he attacked some of the privileges of the landed and monied few in Britain years ago he was cursed from one end of the country to another. When he opposed the Boer war he was vilified but they all ran to him for succor when the country was in the pangs of a war that threatened to annihilate her. Now again they don't like him because he presumes to keep the labor group in power and keep the lawful rulers of the land from their just and holy privileges.

Possibly Mrs. Baldwin is understood in her own country but in Canada her speech of yesterday would be frowned upon by people of all parties.

EXHIBITS OF PEACE RIVER

British Columbia District Well Represented at Vancouver Winter Fair

For the first time in the history of British Columbia, grains from the Peace River were on exhibit at the Vancouver Winter Fair this week. Peace River exhibitors sent specimens of spring wheat, oats,

barley, alfalfa, clover and timothy seeds. Among those exhibiting were G. H. Hefferman and Miller & Son of Rolfs; E. Barrett and J. Paul & Son of Dawson Creek; Norman Dow, E. W. Allen and Thomas Jamieson of Pouce Coupe, and Watson Bros. of Kilkerran.

James Travis, assistant district agriculturalist at Pouce Coupe, was in charge of the exhibits.

In a list of new officers submitted for publication yesterday, the L.O.B.A. omitted the name of W. E. Denning their pianist.

Smithers Says Special Number Was Very Good

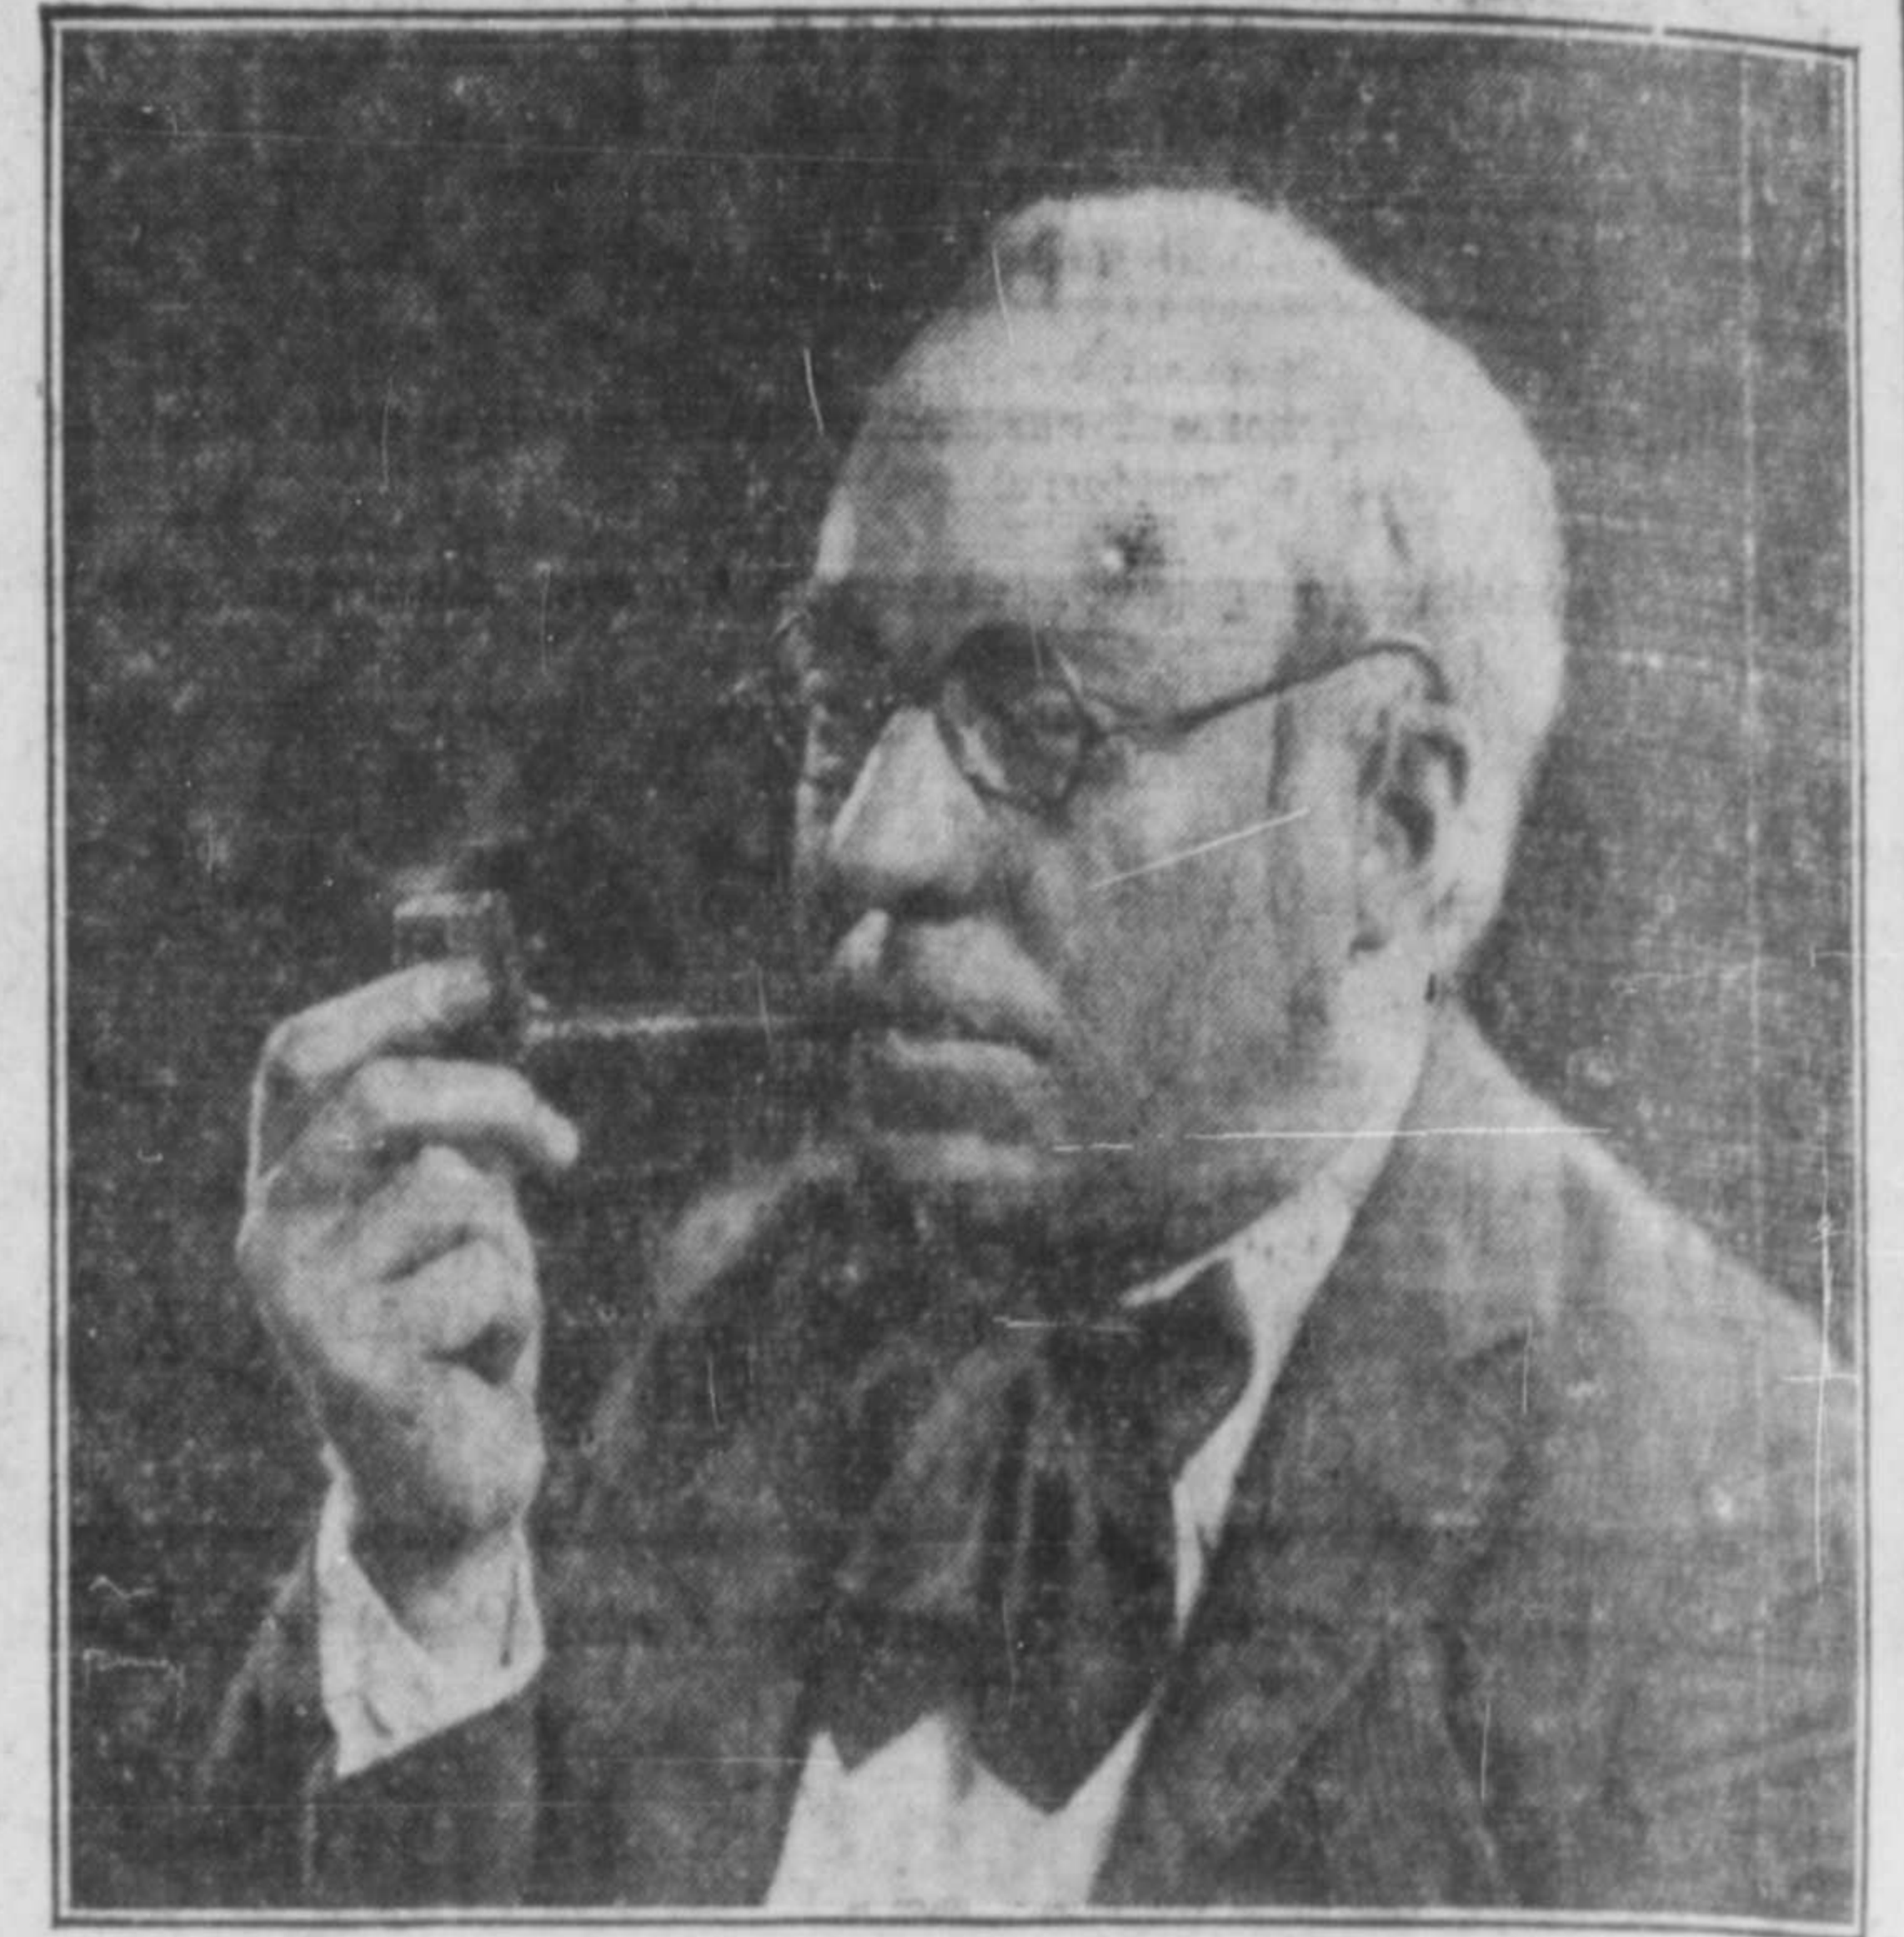

Interior News Editor Compliments Daily News For Its Power Opening Issue.

(Interior News)

The publishers of the Prince Rupert Daily News must feel secret, if not open elation over the publication of their special issue on the opening of the Falls River power plant. There is a comfortable feeling about doing anything well. The Daily News people have done a fine thing in the 18-page special produced on Tuesday of last week. It was an effort that is worth while from the standpoint of the publishers and of great value to every citizen of Prince Rupert. Profusely illustrated and excellently printed, that issue will go out as a strong trade ambassador for the coast city, and those merchants who contributed to the success of the work by their generous patronage may well feel satisfied with having played a worthy part in an undertaking from which they can expect returns of a substantial nature in the new interest and attention focused on their city.

Prince Rupert can claim no monopoly on the significance and benefits that must accrue with the advent of the Power Corporation of Canada and the opening of the new power plant at Falls River. The greatest financiers of Canada control the destinies of Power Corporation of Canada. By casting in their lot with the coast city it was not for the privilege of lighting up Prince Rupert and supplying the comparatively small horsepower at present required. It takes no brilliancy of thought to decide that the big company has further and greater plans

Melody Mike Greet You

Canada is sold on "Melody Mike." Every Monday night when you tune in on your radio this is the genial old soul who delights you and whose popularity across the Dominion is attested by the fact that more than 15,000 fan letters of praise and congratulation have been received in a month by the Canadian Pacific Radio department under whose auspices "Melody Mike's Music Shop" feature has been sent out over an all-

Canadian C. P. R. network. This huge fan mail is doubling and at the end of November 370 letters came in on one day. The opinion of radio fans is borne out by the views of radio station authorities—most difficult of men to convince—who state that in their considered opinion, this feature is with one exception the most popular radio offering on the air today. Remember too that artists, presentation, and radio outfit are all-Canadian.

from which they hope to recompense themselves for the great outlay of money. From these plans Prince Rupert must benefit immensely and in the very near future. But those benefits will spread far beyond Prince Rupert; they will extend to every community along the railway, and while we congratulate the coast city on its attainments, we are looking also to the time when the whole district will feel the benefits of the enterprise of Power Corporation so fully de-

called in the special issue of the Prince Rupert News.

Mr. and Mrs. E. Etherington will arrive in the city on the Catala tomorrow afternoon from Vancouver to spend Christmas here with Mrs. Etherington's father, J. W. McAuley, Fourth Avenue West. Mrs. Etherington was formerly Miss Muriel McAuley, R.N., a graduate of the Prince Rupert General Hospital.

NEWS OF THE MINES

Woodbine Mine Sends Out Test Shipment—Unicorn Looks Promising—Georgia River Gold Closes For Winter

Five hundred pounds of ore has been shipped from the Woodbine mine at Stewart to Salt Lake City for special analysis regarding treatment. The ore will be assayed and reports given to the company recommending the best method of treatment at the mine. The next step contemplated at the mine is the continuation of the shaft to the 150-foot level where it is expected to intersect the gold ore revealed by diamond drilling early in the year. This course of development is favored by the Eastern interests associated with the development of Woodbine. A heavier pump is to be installed at the property to clear the shaft of water. It is intended to handle the shaft work on a contract basis. The extent of the ore body will govern the decision regarding the building of a pilot mill on the property. About 100 feet of cross-cutting will be carried out in the ore zone and this, it is expected, with drilling, tunnelling and shaft work, should prove the extent of the ore body very fairly. Values, principally in gold, have been found consistently in the Woodbine shaft, assays showing gold from the start and the tendency is to increase in gold content with depth.

Development work on the claims of the Unicorn Mining Co. adjoining the Big Missouri in the Portland Canal district has been going on apace since early in the year and results attained, especially in No. 3 tunnel, have more than gratified the management. John Hovland, manager of the company, is now spending the Christmas vacation in the south but, on his return, the work will be prosecuted with renewed vigor and will be continued throughout the winter. Work to date has been more or less concentrated on No. 3 tunnel. On December 1 this year, this tunnel had been driven a distance of 350 feet. At a point 170 feet from the portal, the Big Missouri porphyry cut the tunnel on the west side, the porphyry striking north and south with a vertical dip. The formation in the tunnel up to this point is tuff. The porphyry for a distance of 25 feet is very silicious and slightly mineralized with pyrite. The tunnel follows the contact from 170 to 260 feet where the porphyry passes to the east of the tunnel. At a point 292 feet from the portal, a well mineralized vein about two feet wide striking north and south cuts the tunnel from the west side. This vein was driven on for a distance of 40 feet when it left the tunnel to the east. At the face of the tunnel about 340 feet from the portal, a cross-cut was driven to the east for

six feet to cut the vein which had been left a few feet back. The vein at this point was found to be six feet wide, well mineralized with iron pyrite with tuff formation on the east side and porphyry on the west side of the vein. Specimens showing free gold were found on the face. Free gold was found in this vein for a distance of 50 feet. The free gold, however, is not confined to the vein only but has been found in the adjoining porphyry on the west side of the vein. In the last 30 feet and at the face of the tunnel, the porphyry is well mineralized and silicious with quartz stringers. Milled samples from this section give encouraging values in gold. Judging from the results of underground work in No. 3 tunnel, it would appear that the contact of the porphyry and tuff is favorable for mineral deposition and encouraging results are expected from this section of the property. Assuming the strike of the porphyry-tuff contact continues in the same general direction, the Unicorn will have over a mile on the strike of the contact.

Owing to the difficulty of maintaining transportation to the property during the winter months over nine miles of trail, Georgia River Gold Mines Ltd. has discontinued operations until next spring. The directors plan to reserve resources for resuming development as early as possible in the spring. Recent development has resulted in the exposure of considerable ore in No. 3 tunnel on the Bullion vein and in the upraise connecting No. 3 level with the Bullion tunnel. Ore has also been opened up in the extension of the Bullion tunnel. Exploration which will determine the size and value of the mine will be the continuation of the Bullion tunnel to a point from which a crosscut to the left or west will prove the downward persistence of the ore shoot opened up in No. 1 tunnel on the southwest vein last year.

The deposit which has a back of from 100 to 150 feet to the surface occurs at the intersection of the main vein with the southeast vein and yields value of \$35.50 in gold per ton. The projected work will prove it at a further depth of 250 feet and will also open up the main vein at the same horizon. If the results are satisfactory, officials of the company are confident that it will be a valuable mine.

QUESTION OF FILMS

"At the present time there seems to be an epidemic of combine investigations as for example the electrical trade in Toronto, the plumbing industry throughout Ontario, the investigation into the control by the Famous Players Canadian Corporation of the film industry in Canada and the proposed enquiries into bread and milk," says the Canadian Labor Press editorially.

"Whilst there is a good deal of justification for some of the investigations, especially in view of the evidence disclosed in the report on the Toronto Electrical trade, yet so far there does not seem to be the same justification in the case of others.

"A great outcry has been made within recent months by certain of the motion picture exhibitors in Canada regarding the alleged control of the film industry by the Famous Players Canadian Corporation, a great deal of which we believe is based on very inaccurate and unsound grounds. Even in the press, the Famous Players Company is being accused of ostracizing and penalizing British plays and British made films. There is no proof to justify such a charge. It is stated that British plays are prohibited from coming to Canada through control by the Famous Players of the theatres necessary for their production, and through Hollywood and Wall Street control of the company, British made films are shut out. Even a Toronto newspaper recently hints that this control in articles by its dramatic and screen critic, yet in the same issue it was pointed out that during the past three years the theatres under Famous Players control have been bringing in a number of good British made films and announcements are made that others are on their way. The truth is that conditions are responsible for British plays not being shown here as largely as they used to be, due to the fact that the public have turned to the talkie and both British and United States actors and vaudeville players have suffered as a consequence.

"Circumstances are also responsible for the small number comparatively of British made films coming to Canada now. Films requiring an outdoor location are made under the very best conditions in the United States, conditions impossible to get in Great Britain and as a consequence due to this natural monopoly, it is altogether probable that Hollywood will always control the production of these films. Films requiring indoor locations made in Great Britain are coming here in increasing numbers and the Famous Players Canadian Corporation have shown no desire to exclude them, but on the contrary, wherever a high quality British made film can be secured they have endeavored to produce them here and thus meet public demand.

"It would be folly for a Canadian company to pursue a policy of exclusion towards everything not produced in the United States."

Shop Today and Shop at Home

Prince Rupert merchants are offering some great values for Christmas this year. Many of them have dropped their prices to keep pace with the reductions made in the great centres of population.

This is a good time to buy. Get the shopping done before Christmas is too near and the stores are crowded with eager men and women anxious to grab for anything.

Most Prince Rupert people are not affected by the hard times. Many are better off today than they were last year because their money goes farther. They can buy more if they wish for their salaries remain the same.

Friends need remembering just the same this year as in the past. Some of them need it more.

Those who are able to do so would do well to shop mornings because at that time the merchants and their assistants have time to attend to your wants.

Read the Daily News advertisements, for they will help you in your selection.

PRINCE RUPERT DAILY NEWS

LOCAL ITEMS

Mrs. F. W. Allen, who has been away on a six-weeks' holiday trip in the course of which she visited in Toronto, Winnipeg, Vancouver and elsewhere, returned to the city on the Princess Mary yesterday afternoon.

Dr. Joseph T. Mandy, resident mining engineer for the provincial government, returned to the city on the Princess Norah this morning after having spent the past few weeks at departmental headquarters in Victoria on official business.

W. A. Peterson, C. M. Taylor, C. L. Dama and F. E. Brem, who have been carrying on evangelical work here for the past few weeks in connection with the Church of the Latter Day Saints, called this morning on the Princess Norah for Ketchikan where they will continue their activities.

In connection with the Christmas sailing next week, C. N. R. steamer Prince George will leave here at the usual time at 4 o'clock Wednesday for Anyox and Stewart and, after making her regular calls at those two points,

will make a special call at Ketchikan for passengers, returning here at 7 o'clock Friday morning and sailing south that day at 6 p.m. On the way south, the vessel will call at Alert Bay in addition to Ocean Falls and Powell River. The vessel is expected to have a capacity southbound passenger list.

Rt. Rev. Joseph R. Crimont, Bishop of Alaska for the Roman Catholic Church, was a passenger aboard the Princess Norah this morning returning after a trip to the United States.

THIRD AVENUE PRINCE RUPERT

Terrace Orange Lodge Names Its 1931 Officers

TERRACE, Dec. 13.—The local Orange Lodge has installed officers for the coming year as follows: Past Worshipful Master, C. Finter. Worshipful Master, S. N. Kirkaldy. Deputy Master, Charles Cauthers. F. S., R. G. Coleman. Treasurer, R. McCullough. Chaplain, F. C. Bishop. Marshal, G. Gansboreau. First Lecturer, P. Ferguson. Dept. P. Nagnuson. Committeemen — C. Haugland, Charles Desford, Pete Magunson, Charles Finter and Robert Corlett.

SCALING IS INCREASED

Log scaling in Prince Rupert forestry district for the month of November this year totalled 14,144,881 board feet as against 11,870,129 board feet in the same month last year. Per varieties the scale for November this year was as follows with figures of November for comparison:

	Nov. 1930	Nov. 1929
Fir	281,851	558,107
Cedar	2,643,349	3,395,301
Spruce	4,893,156	3,711,334
Hemlock	4,010,983	2,893,879
Balsam	2,314,162	1,304,102
Jackpine	1,375	8,000
Cottonwood		89,605
Totals	14,144,881	11,870,129

Of poles and piles, there was a production of 101,486 lineal feet in the district in November this year, this showing a heavy decrease from last year. Cordwood totalled 7,242 cords in November this year while there was a production of but 71,410 railway ties.

Log scaling for 1930 to date in the district totals 136,213,987 board feet as against 102,278,714 board feet in the first eleven months of 1929.

WATERFRONT WHIFFS

Good Scotch Herring In This District — Hunting Season Is About Ended

Investigations made under the auspices of the Dominion Department of Fisheries this summer into the question of bait supply for the halibut fishery in Northern British Columbia waters had the interesting incidental result of establishing the presence off the west coast of the Queen Charlotte Islands of herring of a type apparently well suited for use in Scotch-curing and kippering. In Inskip Channel approximately thirty-two tons of these herring were taken in three days in the latter part of June, without maximum catching effort, and the fish were generally large and of superior quality. Speaking out of knowledge gained in this area on previous occasions, the investigator, Robert Lloyd, states that these herring are also obtainable in July, August and September in Inskip Channel and other bays and inlets in this vicinity on the west coast of the Queen Charlottes.

The investigations were undertaken by the department at the instance of the halibut fishermen of Northern British Columbia for the purpose of determining whether or not a regular supply of bait herring could be obtained during the summer months, since fresh bait is superior to that which has been frozen. In this regard, however, the investigations' results were disappointing. Herring were found, of course, but in most cases they were small and unsuitable for bait, and the schools appeared only irregularly; where suitable bait fish were located it was in areas off the halibut vessels' path or in areas where satisfactory sites for pounds could not be found within reasonable distance of the seining grounds, and when the herring were towed in the seine any long distance for impounding the scales rubbed off and disease ensued.

Mr. Lloyd, an experienced fisherman, carried on the investigations in the period from May until the closing days of August, using a purse seine boat. A representative of the Canadian Halibut Fishing Vessel Owners' Association, Prince Rupert, accompanied Mr. Lloyd until the end of July and then was withdrawn by his organization. The association expressed satisfaction with the manner in which the investigations were conducted but was disappointed at the results.

"Prospecting" carried on in waters fairly close to Prince Rupert—from the southern end of Estevan Island to Portland Inlet—resulted in nothing more than three catches, at Freeman Pass and Butler Cove, totalling about 300 pounds of thin fish each. The fish softened quickly after being taken from the water, unless iced immediately, and soft herring are of no use for halibut bait. Other observations on the eastern side of Hecate Strait in July and August sometimes revealed fairly large quantities of herring, sometimes very few; always, however, the fish were too small for satisfactory bait use. In mid-July a pound was established at Butler Cove but several days of observation disclosed nothing but the smaller variety of fish, save for occasional schools of apparently larger herring which were too far away for impounding.

Both off the west coast of Moresby Island and Langara (North) Island in the Queen Charlottes herring were taken, but Moresby is not on the halibut boats' path and at Langara there was lack of suitable sites for pounds. At Langara, which lies at the northwest end of the Queen Charlotte group, several halibut vessels baited from the seine, and a small quantity of the herring taken by Mr. Lloyd were looted and disposed of at Prince Rupert. To secure a regular bait supply at Langara it would be necessary to operate a seine boat continuously and bait the halibut vessels direct from the seine.

The old coal shed standing along the railway track in front of Stewart & Mobley's warehouse building, which was used by the late Peter Black when he was in the coal business, is in process of being taken down. It is quite a long time since the old shed was used.

John Penny and Matthew Walsh are plaintiffs at trial of action before Mr. Justice Martin in Admiralty Court in Vancouver against the ship West River, claiming 2000 salvage for coming to the aid of the vessel with their motor launch when the West River was in difficulties a mile and a half south of Cape Calvert, Queen Charlotte Sound, on the morning of August 3 last.

The Department of Marine, in a notice to mariners, announces that the Robertson Point day beacon in Venn Passage, Prince Rupert harbor, has been moved to a new position on the northerly extreme of the drying line on the south side of the channel 900 feet from Du Vernet Point. The beacon is a four-pile dolphin surmounted by a white slatwork cone.

This is the final week-end of the season for deer hunting which legally closes on Monday, December 15. Nimrods who fancy tramping the bush for their game will, therefore, take advantage of this final opportunity of the season. Deer may not have been so easy to get this season owing to the fact that it has been such an exceptionally mild winter so far with little snow on the lowlands. It has thus been necessary to do a good deal of climbing for deer. Nevertheless, much venison has been brought in, probably as much as usual. Bird hunters still have half a month to go as the season for that game does not close until December 31.

Large Attendance For Second Night Of Entertainment

There was another large audience last night in the Moose Hall when the pupils of King Edward High School gave their second presentation of the musical comedy "The Gypsy Rover." As on the first night, the entertainment went off without a hitch and proved delightful indeed to the audience.

The complete list of those taking part, in addition to the principals, was as follows: K. Watson, W. Cross, Rose Rice, Maxine Heilbronner, F. Reich, Miss Eby, Lucille Brooksbank, Ronald Wilson, Connie Morgan, Muriel Vance, E. Bridden, K. Kielbarck, C. Mussallem, A. Kergin, Allan Davies, Margaret Fritz, H. Hirano, R. Church, E. Tasker, E. Connery, William Tobey, A. Lips, M. Walker, Pete Fisher, M. Anderson, Valma Walters, Betty Capstick, Dwight Rice, Anna Kach, Phyllis Sloan, M. Geary, Oscar Fulton, Miss HaEberg, D. Derry, Bob Tobey, Gudrun Welle, D. Postulo, W. Murdoch, E. Bury, R. Peachy, Miss Daigarno, Tekla Fulton, Charlie Stuart, E. Green, E. Franks, Paddy Palmer, Adella Thurber, D. O'Neill, R. Obata, R. Pitcher, M. Smith, Jean Ritchie, Bob Parker and Earl Gordon.

WINTER'S COMING!

Special WINTER-TONIC Service for only \$7.00

- Change engine oil
- Oil and grease thoroughly
- Flush transmission and rear with kerosene, and refill with fresh grease
- Remove front wheels and repack with fresh grease
- Spray springs with penetrating oil
- Adjust distributor points
- Clean and adjust spark plugs
- Clean sediment bulb and carburetor
- Adjust carburetor
- Tighten intake and exhaust manifolds
- Check battery

We will furnish all material and make all the above adjustments. Quick service. Car ready when promised. Accessories, tires, batteries, anti-freeze service, etc., at low prices.

Where Deadly Monoxide Gas Has Been Banished by Science

ELECTRICITY PLAYS BIG PART

Electrical ventilation has rendered the air in the new Detroit-Windsor Fleetway Tunnel purer than air in the streets outside. In spite of the quantities of carbon monoxide gas given off from thousands of motor cars passing through the tube each day. The above picture shows the tunnel at the point of the international line and inset is the ventilation building at Windsor where Canadian General Electric generating sets and control boards are used in the tunnel lighting and ventilation systems.
