Captian Turner of Lusitania Disobeyed Admiralty Orders

Told to Drive at Full Speed on Zigzag Course and to Avoid Headlands; Reasons for not Carrying out Instructions.

(Special to The News via G. T. P. Telegraphs.)

LONDON, November 5.—A parliamentary paper containing the secret evidence in an inquiry into the sinking of the Lusitania, shows that Captain W. T. Turner of the Lusitania admitted that he disobeyed the instructions of the Admiralty in steaming only 18 knots an hour. The captain testified, however, that had he gone faster the Lusitania would have reached the bar at Liverpool before the vessel could cross it, owing to the condition of the tide.

Captain Turner also testified that he had not steered a zigzag course at full speed as the Admiralty had ordered because "he thought this order applied only when a submarine had been sighted." It was further contended by Capt. Turner that, although he had been warned by the Admiralty to avoid headlands, he was justified in coming within ten miles of the Old Head of Kinsale, where the Lusitania was torpedoed, in order to fix his position. If he had remained longer out of sight of land the weather might become foggy and he would have been worse off.

A despatch from London, July, 1915, said the Court of Inquiry into the sinking of the Lusitania found that the liner was lost as a result of the act of a German submarine. The decision exonerated Capt. Turner and the Cunard Line from all blame.

The only secret evidence known to have been taken by the Court of Inquiry was when proceedings were interrupted in order to permit the court of inquiry regarding certain instructions sent wirelessly from the Admiralty to Capt. Turner. The Parliamentary paper made public in London today probably has reference to this secret evidence.

AERIAL LEAGUE WANT TO FLY TO THIS CITY

Write to Board of Trade in Regard to Support from Local People.

The Aerial League of Canada is anxious to put on an air service between Prince Rupert and Vancouver. They suggest the use of hydroplanes and want to know what support they would be likely to receive from this city. The matter will be taken up by the Board of Trade at their regular monthly meeting on Friday evening.

Another matter that will be discussed at that meeting is the condition of the streets of the city. It is understood that a resolution has been prepared and that there will be a general discussion with a view to securing an improvement.

NELSON EJECTS P. R. PRINCIPLE

Resolution Adopted by City Council Last Night Reinstating Old Majority System.

NEW VOTING SYSTEM
TRIED FOR THREE YEARS

(Special via G. T. P. Telegraphs.)
NELSON, B. C., Nov. 4.—After having elected its city council on the scheme of proportional representation for three years, the old system will be again adopted here. At the meeting of the City Council last night the majority of the aldermen voted for the motion reinstating the old majority plan so the next election will be conducted in that manner. There has always been a lot of dissatisfaction here ever since the principle of proportional representation was adopted and various times have attempts been made to throw it out. The system has proven itself inconvenient and no more fair than the old plan.

CHURCH BAZAAR GREAT SUCCESS

Formal Opening Last Night and Will be Continued Today; Dance at 9:30.

The Catholic Church bazaar opened last night formally when Bishop Bunoz gave the opening address. He was followed by Father McGrath, who thanked all those who had assisted in any way in making the affair; the success that it promised to be. The ladies had worked generously and wholeheartedly in the good cause and their efforts were being rewarded with auspicious success. For months the affair had been planned and arrangements had been well formulated. The abundance of articles for sale and the beautiful appearance of the St. Andrew's hall, where the bazaar is being held, were the two outstanding features and concrete evidence of unselfish work on the part of the ladies. There was a big crowd present and there was lots of amusement and fun to keep the patrons in good spirits.

Although the formal opening took place last night at 8 o'clock, the hall was open yesterday afternoon and there was a large attendance of ladies and children. The pupils of the Catholic School marched down en masse after school yesterday afternoon to assist in the opening exercises. The function will be continued this afternoon and tonight the tables will be cleared away and at 9:30 dancing will begin. Another feature of tonight's program will be the announcement of the winners in connection with the guessing contest which has been going on for some weeks. Besides the prize for the winner who guesses the correct time that the 24-hour clock runs, a prize will also be awarded to the girl who sold the largest number of tickets in this contest. The young ladies who are competing for the prize are Margaret Allen, Norah Kenney, Inez Ross and Patricia Meagher.

Mrs. D. W. Morrissey is in charge of the fancy work booth, Mrs. McNulty the country store, and Mrs. M. H. Large is superintending the sale of candy. Mrs. Kwapi is in charge of the tea room, while the many other ladies of the congregation are lending their assistance in various ways towards the success of the function.

Don't forget the dance at the Catholic Bazaar Wednesday evening at half past nine.

LAW AND ORDER WAS ISSUE IN MASSACHUSETTS ELECTION YESTERDAY

(Special via G. T. P. Telegraphs.)
BOSTON, Nov. 4.—The voters of the state of Massachusetts in today's election are registering their verdict on the course of Governor Coolidge in the recent police strike in this city. An executive stand for law and order was made an issue of the campaign.

Thought Exchange is Very Real and Necessary

Without it there can be no Revelation; Dis-harmony causes barrier between Soul and Soul; Interesting Article on Timely Subject by

F. H. DU VERNET
Archbishop of Caledonia

During the last fifty years through the scientific study of mental experiences there has been established beyond doubt the possibility of thought exchange between mind and mind without the intervention of any audible word or visible sign.

Provided the proper conditions are fulfilled it seems to make little difference whether the two minds are in the same place or thousands of miles apart. Consciously or unconsciously thoughts

are being incessantly exchanged between minds. Without confusing the material and the spiritual there is a border line where one seems to shade off into the other, and it is in the region where material things are least ponderous and most ethereal that we can find helpful suggestions as to mental and spiritual operations.

Properly Attuned
In wireless telegraphy the transmitter and the receiver may be thousands of miles apart and yet if the two are properly attuned one to the other the electric waves given forth by the one, after passing through the invisible ether, are received by the other and so the message is conveyed. Without pressing the analogy too far thought passes from one mind to another mind apparently through rhythmic

LOCAL MEMBER HERE TODAY

Passed Through City on His Way to Ottawa—Will Press for Fish Wharf.

Hon. T. D. Pattullo arrived this morning on the Prince George and proceeded up the line en route to Ottawa where he will take up with the Dominion Government the question of Indian lands. This matter has remained unsettled for a long time and the Provincial Government is anxious to have something done in connection therewith.

Mr. Pattullo, when seen, said he intended also to take up with the Minister of Railways the matter of building a spur line to tap the Groundhog coal fields and he will press on the Minister of Marine the desirability of completing a fish wharf at this port immediately. The sum asked for is \$150,000 and this much money will be necessary to do the work right.

EIGHT-HOUR FIGHT AT CONFERENCE

WASHINGTON, Nov. 5.—The fight on the eight-hour day has begun. The first rounds indicate that there will be a long discussion and that some time will probably elapse before the International Labor Conference announces its opinion.

Grand Trunk Bill Passes the Commons

Amendments of the Opposition are all Voted down and Measure now goes to Senate for Ratification.

(Special to The News via G. T. P. Telegraphs.)

OTTAWA, November 5.—The Grand Trunk Purchase Bill passed its third reading late at last night's sitting of the House of Commons by a majority of 31, reversing the six months' hoist amendment vote of 84 to 53.

Fielding's amendment to the bill which would have deferred the third reading and referred the whole matter to a commission, was defeated in the afternoon by a vote of 81 to 50.

Hon. Mackenzie King, Liberal leader, whose second amendment was defeated early in the evening, said that instead of being given a third reading the bill should be submitted again to a committee of the whole House with instructions to so amend clause 2 as to provide that the agreement between the Government and the company should be submitted to Parliament for ratification. A division on this amendment was negative on a vote of 90 to 55, the majority for the Government being 35.

The Bill has been sent to the Senate.

**BOLSHEVIKI SAY

COAL STRIKE MAY LAST LONG

Spokesmen for Miners Say Protracted Industrial Struggle; at Least a Month.

WASHINGTON, Nov. 5.—Despite a spirit of hopefulness that is prevailing in official quarters that the present coal strike will soon be at an end, the spokesmen for the miners and operators declare that the country is in for a protracted industrial struggle. In estimating the probable duration of the strike, the labor leaders predict that all union mines which are affected by the strike order will be closed for at least a month. Other estimates say that the strike will not last two weeks. However, the officials who understand the situation pretty clearly maintain that the strike will hardly run so long although there has been no definite word as yet of any direct effort to bring the two contending sides together. Both sides seem very determined but it is the general feeling that some compromise will be effected before the situation becomes too critical.

DONATIONS FOR ATHLETIC FUND

Good Progress is Being Made and Estimated Sum of \$2,000 is in Sight.

Judging from the way in which collections have been made there should be no difficulty in securing \$2,000 for the Athletic Association funds. Yesterday canvassers were out on Third Ave. and while the work is not finished the results indicate that something like \$1,000 should be secured from that district. In addition to this there have been collections partly completed in other sections. The mill expects to get \$100, the drydock \$200, the G. T. P. \$200, 2nd Ave. nearly \$300, the wholesalers have already subscribed close to \$100, and there are other small groups to hear from. While some of these estimates may not quite be realized, the full sum asked should easily be forthcoming.

LOCAL CANVASS FOR THE LOAN IS SUCCESSFUL

Canadian Fish & Cold Storage Co. Purchase \$20,000 Worth of Bonds.

Douglas Sutherland, secretary of the Victory Loan campaign in this city, announced this morning that actual entries in their books up to that time amounted to \$42,150, but a number of canvassers had not yet turned in their results and it would be a great deal larger than that when all were in. There was also a \$5,000 purchase that had not yet been entered.

The Canadian Fish & Cold Storage Co. this morning received word that President Perry of Montreal had authorized the investment of \$20,000 of their capital stock in the loan and that sum will swell the local total. With this amount the local total should reach at least \$75,000.

While the amounts generally are smaller than last year, the canvassers are being well received and the quota should easily be reached.

LONDON TIMES ON ONTARIO ELECTIONS

Hamilton Clergyman Tries to Explain Landslide as Due to Women's Vote.

LONDON, Nov. 5.—In giving reasons for the sudden turnover in Ontario at the recent provincial elections, the Times says that the result suggests doubt as to the strength of the Unionist Party in Canada. The same paper also says that present elections in the Dominion are hard to understand but it is evident that Canada, like Australia, is having a marked reaction from war conditions and views.

HAMILTON, Nov. 5.—Before the Hamilton Presbytery Rev. Dickie volunteered the opinion that the Hearst Government was defeated by the women's vote because it did not provide for mothers, wives and widows pensions for soldiers' relations. A memorial was passed to the newly elected government on this matter.

Prince Rupert As Grain Port.

Moreton Frewen says he thinks Prince Rupert should become a grain port. We think so too. As he says, we have the railway grade, and we have the port and all we need are the facilities to handle the output. There is nothing to stop Prince Rupert's development as a port, except the lack of facilities. These are coming gradually and before long we should be fully equipped to handle a big business. One of the first things for the Board of Trade to do, once the railroad mixup is settled, will be to invade Ottawa, to bombard the ministers and bring pressure to bear to give us a fair show in the commercial race.

Importance of Groundhog to Rupert.

A despatch from Victoria yesterday said that the Minister of Lands was now on his way to Ottawa to take up with the Ottawa Government the question of developing the Groundhog coal fields by building a railway into the Naas valley. The importance of this matter is one that has already been officially recognized by the local Board of Trade. We need more than anything else a plentiful supply of coal, not only for domestic use but to bunker ships and supply cargo for those that need it.

Coal is still a necessary article of commerce. We have not yet developed electric power to a point where it will take the place of coal for driving ships and also for heating purposes. Oil is becoming scarcer and the price is going up. Coal is still the staple.

It is difficult to imagine what would be the effect on this port if it became the shipping point for Groundhog mines. We have only to see what coal has done for other places, to picture what it would do for us.

Athletic Association Gets Good Support.

The people of the city are giving good support to the Prince Rupert Amateur Athletic Association. They recognize in it a need and are backing it up. Some of the committees were out collecting yesterday and they were all well received, some of the merchants expressing thanks to them for undertaking the work. With such a spirit, the association should be a success.

Some of the committees have not yet reported and they are asked to get to work at once so that the institution may begin to fulfil its purpose.

Victory Loan is Making Good Progress.

The Victory Loan is being well received throughout the country. It looks now as if the people of Canada are determined to do their own financing. The money is needed and the rent paid for it is a good one.

Hundreds of people have money to hire out. They want to let it out at a profit. At the same time they do not want to take risks. The Dominion wants money and is willing to pay a good price. Five and a half dollars is offered for the use of every hundred and the principal will be returned in the specified time. The banks are offering only three per cent for the same. Their price is much too low for these days of high living costs. The wise person is the one that secures the highest rent for his money consistent with safety. The Victory Loan is the best offer yet.

VANDERHOOF

School Inspector Gordon H. Gower has recently inspected the schools in this district and has nothing but praise in connection with the conduct of the schools and the efficiency of the teachers. He congratulates the school boards on their good fortune in obtaining such a high class of instructors.

Dr. M. Sparrow, government cattle inspector, has been inspecting the cattle in this district and finds them all in good health and there is a very little tuberculosis among them.

Paul E. Russell, well known in construction days here, has returned from overseas accompanied by Mrs. Russell.

Road building is over for this season in the Nechako district and plans are now being discussed for next year's improvements.

Three hundred steers have been distributed among the ranchers of the Ootsa and Francois Lake valleys under the direction of the Land Settlement Board.

HAZELTON

The thermometer reached the zero mark here last Saturday night. There was considerable snowfall during the week.

Harry Miller gave a housewarming in his new house in Hazelton last week.

A new hotel has been opened at New Hazelton. It is called the New Hazelton Hotel and will be under the efficient management of John Sault, whose aim is always comfort and convenience for his guests.

Chris P. Warwick, who was brought from the Terrace sawmill last Saturday presumably with mortal injuries sustained at the mill to his head, is making a remarkable recovery at the local hospital.

W. J. Mackenzie, a local merchant, was fined \$50 and costs for supplying extracts to Indians as a sequel of the recent Indian celebration. The magistrates were Indian Agent R. E. Eoring, Dr. H. C. Wrinch and R. S. Sargent.

A. M. Ruddy, who recently dissolved his partnership with W. McKay in the transfer business here is moving to Burns Lake, where he will conduct a pool room and boarding house as well as a general transfer business.

Fine Diamond Engagement Ring \$100.00

A diamond is the hardest substance in the world. Nothing will scratch it. It is very hard to break even with a hammer. No acid will affect it. It can be made red hot and will come out just as bright as before.

Yet some diamonds are worth more than others. A diamond is valued for whiteness and beauty, also freedom from small imperfections such as spots and flaws.

I have had 20 years experience in the business and will guarantee satisfaction.

Besides the one mentioned above we have rings at \$50, \$75, \$250, up to a very fine large stone at \$1200.

THOUGHT EXCHANGE IS VERY REAL AND NECESSARY

(Continued from Page One.)

household, and when a letter arrived from England some weeks later it conveyed the news that her sister had died at exactly the difference in time, and that she had said aloud the identical words regarding her children. In this case separation in distance was no barrier because there was harmony of soul with rhythmic attention.

Mind of the Community

While this theory of rhythmic mental waves and harmony of soul throws helpful light upon the subject it does not go far enough to explain many mental and spiritual experiences, and so it is becoming more clearly recognized that the mind of the individual does not exist alone as an independent unit, but is virtually related to other minds. We use no figure of speech when we speak of the mind of the community, the mind of the nation, the mind of mankind. The communal mind is a reality. How else can we explain the sympathetic radiation of a feeling through a vast concourse of people? How else can we explain a nation upon some great emergency rising up as one man? How else can we explain what has suddenly become the ruling thought of one people becoming at the same instant the ruling thought of another people thousands of miles away, separated by land and sea? How else can we explain mental epidemics which sweep round the world with marvelous rapidity?

The Universal Mind.

Individual minds have not only a connecting link with other individual minds but all are related to the universal mind. Our minds are fragments of the mind of God, not broken or isolated fragments, but parts in conjunction with the Great Central Mind, and rhythmic mental waves are, as it were, the living nerves of this connection. These nerves may be deadened by the discord of sin. Hence the importance of our minds being brought into harmony with the Mind of God if there is to be efficient thought exchange not only between the Divine Mind and our minds but also between our minds and other human minds. It is this harmony in mutual regard, in moral purpose and in spiritual desire which is the vital bond of all society. The fact that the two women, who have been mentioned as an example, were not only bound together in human love but also in spiritual communion with God goes far to explain the successful thought transference.

The Barrier.

The Kingdom of the Spiritual, as Christ Himself taught us, is not far distant but very near. It is not separation in distance but separation in dis-harmony which creates the barrier between soul and soul. In the case of beloved friends who have laid aside the outer garment of the flesh and have passed within the veil, if both their minds and our minds are in perfect harmony with the Mind of God the possibility of thought exchange between us becomes a most reasonable probability, and with the spiritually susceptible rises to an experienced certainty. The words of the ancient Christian creed are in full accord with modern psychological thought: "I believe in the communion of saints."

Mediaeval Philosophy.

It is to be regretted that some trained only in a mediaeval philosophy, which gave no heed to mental experiences as indisputable facts, at once take alarm when they hear of the results of psychological research, and cry out with hysterical fervor: "This is all the work of the devil." Such fail to see that without the possibility of thought transference there can be no revelation given by God to man, and consequently no Bible. Such fail to discern that without the possibility of thought exchange there can be no efficacy in prayer, for the mere muttering of words of prayer can have no effect upon a thoughtful God, whereas when our mind is brought into sympathetic harmony with the Mind of God our thoughts, expressed in words of prayer, are transferred to Him, and at once are answered by the exchange of His Thoughts, thoughts of wisdom to guide us in our perplexity, thoughts of inspiration to strengthen us in our weakness.

Intense Reality.

Both the possibility of God speaking to us through His Written Word and His Indwelling

We sell Frisbie Engines

Complete and ready to install.

Frisbie Motors give long, uninterrupted service with practically no repairs except occasional grinding of valves. Valves in cages; accessible in a few seconds. An "all muscle" construction throughout, every part designed for hard work. Overhead valves, opening directly into combustion chambers. No pockets or crevices to gather carbon, and waste fuel. This type of construction effects a gain of

15 to 20 per cent. more power

than is possible with L or T-Head designs. Intake and exhaust manifolds are cast integral with the cylinder; miles ahead of the old, leaky, bolted-on manifolds. Large valves insure full charge on the intake and a complete, clean exhaust.

1 to 6 CYLINDERS—5 to 75 HORSEPOWER

Frisbie Motors are made in following sizes: 1-cyl., 5 and 7 H. P.; 2-cyl., 10 and 16 H. P.; 3 cyl., 18 and 25 H. P.; 4-cyl., 30 and 40 H. P.; 6-cyl., 50 and 75 H. P.—Bore and Stroke, 4 1/2" x 5" and 6" x 6". For work or play, the Frisbie will measure up to your hardest tests.

Judge Young returned from Prince George last evening and County Court sittings commenced before him at 2 o'clock this afternoon. There are two criminal cases for election, both for obtaining money under false pretences, and also several civil cases.

Martin Kroeger came in from the east last night. He is engaged on one of the train crews between here and Prince George and came in to say good-bye to his mother and sister who are leaving in a few days to reside in Vancouver. He returned to Salvo on this morning's train.

Chas. Barrett, the well known pioneer ranching man of the Bulkley Valley, is in the city. Mr. Barrett has widespread interests along the line of the G. T. P. Railway. His most extensive holdings are at Barrett Lake, a station named after him, where he has one of the largest and best developed ranches in Northern British Columbia. This ranch is a few miles east of Telkwa.

Passengers arriving from the east on last night's train report the weather all along the line bitterly cold. Water pipes are cracking in Prince George and the Skechako and Fraser rivers have ice sheets over them. The temperature registered 30 below zero at Endako on Monday night. There is six inches of snow at Hazelton, but the fall at Terrace does not amount to much yet.

BIG BANQUET AT ALICE ARM

Commercial Club of Mining Centre
About Sixty in Number en-
joy Festive Repast.

The dining room of the Alice
Arm Hotel was the scene of one
of the most enjoyable social
events in the history of the camp,
when the Alice Arm Commercial
Club gave its second annual ban-
quet and dance last Friday even-
ing. Covers were laid for sixty
persons at tables where the deco-
rative scheme was carried out
with a profusion of beautiful
roses, carnations, chrysanthem-
ums and ferns, a sight to warm
the hearts of men who had just
returned from a season spent in
the hills. The banquet room was
filled and the guests voted the
affair an event worthy of an old-
er and more settled community.

Toastmaster.

Vice-President O. Evindsen, of
the Commercial Club, acted as
toastmaster and with his genial
mannerisms and witty remarks
kept the faces of all wreathed in
smiles as he performed his duties
as Master of Ceremonies. Between
the remarks and speeches of the
others he filled in with the relation
of anecdotes of amusing occur-
rences in the early days of the
camp. Mr. Evindsen was one of
the original owners of the famous
Dolly Varden mine, which has
made the name of Alice Arm
known in mining circles all over
the United States and Canada. He
is, therefore, in a position to talk
instructively and authentically on
the history of the camp as he was
practically the father of it.

Major Davis.

Major A. W. Davis, superin-
tendent of the Taylor Mining Co.
at Alice Arm and who is in charge
of the railroad and mining opera-
tions there, gave a very spirited
address. He expressed himself
as being most optimistic as to the
future of the district. In time the
Alice Arm country will be one of
the world's greatest silver pro-
ducers.

E. E. Campbell, mine superin-
tendent for the Granby Co. at An-
yox, made a special trip to the
Arm for the occasion. He has
followed operations at Alice Arm
carefully ever since the develop-
ment and exploitation of the dis-
trict was commenced and re-
marked that no person could
imagine what wealth would be
taken out of the hills in the dis-
trict. He had untrammelled con-
fidence in its productiveness.

Mr. Peterson, another Granby
official, expressed his confidence
in the camp.

Aggressiveness Needed.

G. A. Young, government road
supervisor for the Atlin district,
spoke at some length and gave
some good advice to the Comm-
ercial Club. He believed in these
organizations for the obtaining of
improvements for a locality and
the advertisement of it. He be-
lieved, however, that the impor-
tance of the district warranted a
lot more aggressiveness on the
part of the members if they de-
sired to make the rapid progress
of development in public improve-
ments and conveniences that the
present indications at the mines
justified.

After the banquet, dancing was
enjoyed until the wee sma' hours
of the morning when the guests
betook themselves homeward with
happy thoughts of a night spent
well in festivities over the past
achievements and future pros-
pects of the camp.

DOG TEAMS FOR DOLLY VARDEN

Canines Being Secured for Winter
Use From Hazelton and
Naas River.

Anticipating the tying up of
the railroad for a few months in
the winter, the Taylor Mining Co.
are making provision for the tak-

Dolly Varden mine during that
time. Thus development work
will be enabled to go on during
the winter months preparatory to
renewed shipping in the spring.
Mail Carrier Langley has been en-
gaged by the company and has
recently been in Hazelton where
he has been getting dogs which
he will use for taking mail and
freight from the beach to the
mine, a distance of 18 miles. A
regular daily service will prob-
ably be established.

CITY ENGINEER TELLS OF WORK

Needs Assistant in Office all the Time to Straighten out Affairs of Department.

At Monday night's council meeting the city engineer was present in order to reply to Ald. Perry's question of the week before in regard to the services of Mr. Black, who was assisting in the city engineer's office. City Engineer Clements said that Mr. Black was the only man obtainable in the city who could be relied on to do the work in connection with the engineer's department and do it right. He had been paid only 85c an hour and Mr. Clements was of the opinion the city would be unable to obtain anybody else to do the work Mr. Black was doing at that figure. There are many problems that the city has to figure on, such as the grading scheme for outlying sections, the macadamizing of Third Avenue from McBride to 24th St. and the taking of street levels and elevation. Mr. Clements said that there was a lot of detailed work in his department which had never since the days of Col. Davis been in shape. He was now getting things straightened out and some vestige of order in the department with the assistance of Mr. Black. He needed Mr. Black in the office and would need him right along, though perhaps not his entire time. He was just the right man for the purpose, being skilled. When Col. Davis was city engineer he had three first class assistants so it could hardly not be said that the office was now overstaffed or extravagant.

On attention being brought to the fact that some of the street grades had not been defined, Ald. Perry, the father of the inquiry, said there was no excuse in his mind that after eight or nine years these levels were not set. He had understood that after the assessment plans had been made Mr. Black's services were to be dispensed with. However, if his services being retained tended to the advantage and efficiency of the city he would be the last one to recommend that they be done away with. His inquiry had been made only in the interests of economy.

Sport Briefs

Earl Craddock, the world's heavyweight wrestler, will appear at Madison Square Garden, November 3, against the winner of the Stranger Lewis—Joe Strecher out to defend his title.

Sir Thomas Lipton is in New York inspecting his yacht, the Shamrock IV., with which he expects to lift the America Cup.

It is reported that Eddie Housch, who contributed so much to making the Cincinnati Reds the world's champions, may make hold-out notions in his head this spring.

Some new rules will be adopted by the National Baseball Commission before the 1920 season, it is predicted. Among these rules will probably be one eliminating or at least regulating pinch-hitters. There has been too much leeway in this point in past years and it has really been at the expense of the game so reforms are advocated along these lines.
