PROVINCIAL GOVERNMENT SUSTAINED

Many Charges Against Administration Made In Mackenzie Motion

Estimate Dubbed Fraudulent—Public Services Curtailed and Municipalities Suffer

VICTORIA, March 12:—Capt. Ian Mackenzie's want of confidence motion in the government, expressing regret at the increased expenditures provided for in the budget and at the alleged breach of faith with the municipalities and the motorists, was defeated on a straight party vote in the legislature Tuesday afternoon. The motion was based on a series of charges contained in Capt. Mackenzie's address:

1. That the estimates are fraudulent in that they conceal at least \$600,000 of expenditures to which the government is committed thereby wiping out the apparent surplus of revenue over expenditures.

2. That, despite the increase of \$3,000,000 in expenditures, the great public services such as the roads, the university and grants to municipalities are curtailed.

3. That the two-cent increase in gasoline tax is an unwarranted imposition on the motorists because the normal revenue from gas tax and motor licence fees for the next year is capable of carrying an additional highway loan of \$20,000,000 instead of the \$8,000,000 provided for.

4. That the deficits of the late Liberal government, variously stated at from \$4,500,000 to \$16,000,000 by cabinet ministers, were a myth and that the loan bill of \$5,140,000 purporting to be for the purpose of retiring these accumulated deficits was in reality to provide money to cover up the extravagances of the present administration.

5. That the 19 largest cities in the province, containing 72% of the population do not share in the government's scheme to take over arterial highways but were the heaviest losers by the curtailment of grants to municipalities.

After the Mackenzie amendment was defeated, the main budget motion carried and the house went into committee of supply.

(Canadian Press)
VICTORIA, March 12:—The Liberal budget want of confidence amendment was defeated in the legislature yesterday by a division of 33 to 12. The budget was then passed without further division.

Mahatma Gandhi Starts Campaign Against British Control in India

ALLAHABAD, India, March 12:—Inaugurating their campaign of civil disobedience with a view to obtaining complete independence for India from Great Britain, Mahatma Gandhi and 79 of his disciples today began a march to Jala-pur where the first of their measures against the British Crown will be enacted.

His First Visit

Commander A. E. M. Nicholls, marine superintendent, Canadian National Steamships, arrived in the city on the Prince George this morning from Vancouver on his first visit here since being appointed to this post in succession to Capt. William Wright, who has been transferred to the Antipodes. Commander Nicholls has business in connection with company ships which are at the local dry dock and will sail tomorrow night by the Prince George on his return to Vancouver.

AUGER IS CONVICTED

Former Member of Parliament Sent to Jail For Two Years on Seduction Charge

OTTAWA, March 12:—Louis M. Auger, ex-member of parliament for the riding of Prescott, was yesterday found guilty by County Court Judge E. J. Daly on a charge of seduction of a young Hawkesbury, Ont. girl and was immediately sentenced to a two-year term in Portsmouth Penitentiary.

Charity Balls Come Under Ban

Give Germ Which Destroys Souls, Venice Cardinal Says

VENICE, March 12:—Charity balls have come under the ban of Cardinal La Fontaine, Patriarch of Venice. In a public letter he wrote: "On such occasions misery becomes an excuse for people to appease their desire to dance by letting fall a little money which will be gathered by the poor. The Redeemer gave his life to save souls. But in the modern dance, one receives a germ which destroys the soul like lightning."

Many Fishing Vessels Forced to Run to Port Before Raging Storms

Liberty Damaged While Fighting Way Through Gale and Snowstorm and is Towed to Kodiak By Resolute

SEWARD, March 12:—Towing the halibut schooner Liberty, the coastguard cutter Chelan arrived at Resurrection Bay last night from Kodiak where the crippled boat had been delivered from the banks by the schooner Resolute. Numerous fishing boats have been forced to run into Seward during the past few days because of heavy seas along the halibut banks. The Liberty was damaged while fighting her way through a gale and snowstorm.

Voice of Byrd Was Heard Here Early Morning

Between four and five o'clock yesterday morning Prince Rupert radio fans who were brave enough to rise at that hour heard Rear Admiral Richard Byrd being welcomed at Dunedin, New Zealand. The famous discoverer's voice could be heard quite distinctly. It was received in the States by short wave from New Zealand and broadcast throughout the continent and was heard over KOMO, Seattle.

Associated Boards of Trade at Terrace Pass Many Resolutions Delegates Banqueted Last Night

TERRACE, March 12:—A large amount of business was transacted by the Associated Boards of Trade at their meeting yesterday afternoon and this morning with Olof Hanson presiding and 42 delegates being present from points throughout the district. Prominent among the resolutions was one asking that the highway from Prince Rupert to Hazelton be constructed under one big contract with power to sub-let to local contractors using local white labor. Another resolution of importance urged the early construction of the Peace River railway to the coast.

At the big banquet last evening to the visiting delegates given by the Terrace people, E. T. Kenney extended a hearty welcome to all.

Olof Hanson thanked the Terrace Board and citizens for the elegant way they had entertained the visitors and also thanked the delegates for the gratifying attendance, stating that he was proud to be at a gathering where the concentration of brains of Central British Columbia was assembled. Such gatherings could not help but eventually bring them to the front.

Sam Cocker congratulated the men responsible for such a wonderful banquet and also the associated boards on the appointment they had made for president. He knew of no man more suitable for the position. Messrs. McInnes, Ruddy, Noel, Carson, S. S. Phillips and others also expressed appreciation.

The Resolutions mentioned in addition to the resolutions mentioned, the convention asked for a bridge across the Nechaco River at Fort Fraser.

Vanderhoof asked that government road builders should not destroy the survey posts and thereby obliterate the survey lines, and that the Land Act be amended so that any re-surveys needed should be made at the expense of the government.

Increase in Mill Rate Without Any Increase in Gross Amount Taxes Seems Likely This Year

Informal Meeting of City Council Wrestles For Three Hours With Financial Problem and Intimates That 49 Mill Rate Expected

For three hours last night the city council in informal session wrestled with the estimates for the year, paring wherever possible in their endeavor to keep the mill rate down. In spite of that it looks as if the rate would be 49 mills on the dollar or pretty close to that. The general lowering of the assessment this year has reduced the income from general taxes while the increase in school expenditure has added about a mill. The proposed laying of a fire protection water main on Second Avenue and another on Bacon Street to serve part of the district in the east-end and to be part of the permanent waterworks scheme of the city, will, if carried out, add two mills to the rate.

BACK FROM CONFERENCE

J. H. McVety, B.C. Employment Superintendent, Back From Ottawa Meeting

James H. McVety, general superintendent for British Columbia of the Employment Service of Canada, arrived in the city on yesterday afternoon's train from Ottawa where he attended a recent conference of officials from the four western provinces with the federal government on the subject of unemployment. Mr. McVety will sail on the Prince George tomorrow night for Vancouver, where he makes his headquarters.

Mr. McVety was not desirous of discussing the outcome of the unemployment conference publicly until he had made a formal report to the minister, Hon. W. A. McKenzie. He did not discount the seriousness of the unemployment situation prevailing this winter in the west, particularly in Vancouver and on the prairies. In anything, he said, the condition was worse on the prairies than in British Columbia.

LONDON, March 12:—The opinion is generally expressed in newspapers today that the probable result of the Ramsay MacDonald government's defeat yesterday in the House of Commons on the Coal Bill will be a general election immediately the budget is disposed of.

Plane Crashed Colonel Killed

OTTAWA, March 12:—Colonel W. G. Barker who brought down 52 enemy airplanes and was Canada's second ranking air ace of the Great War was killed here today when the plane he was putting through a demonstration, crashed.

The tragedy occurred before the horrified eyes of a number of the air officials of the Department of National Defense who were viewing the demonstration of the new two seater Fairchild machine which was being taken aloft for the first time by Colonel Baker, Victoria Cross holder. The machine was flying low when it suddenly stalled and plunged to earth. Baker was thirty-six years old.

BRITISH POLITICAL CRISIS

If the MacDonald Government has not the confidence of Parliament it is difficult to see how it can constitutionally carry on. Possibly Premier MacDonald will resign and hand the government over to some other party or he may possibly advise the King that he should hold another election before resigning, with the hope that the people of the country will back him in his policies.

The position is a most difficult one and the fight between the rival forces will be intense. The whole world will be keenly interested in the result, especially the English speaking world.

DISARMAMENT CONFERENCE

It is to be hoped that any action taken by Premier MacDonald will not affect the disarmament conference now in session in London. British policy is to carry out any arrangement or treaty made with a foreign power, no matter what party makes it. The honor of the nation must be upheld. If the Labor Government makes a pact with the other four great naval powers, it will be faithfully observed, even though the Government that makes it may be tottering to a fall at the time it is made.

RESULT UNCERTAIN

The outcome of an election in Great Britain today would be very uncertain. If MacDonald goes to the country he will get a great deal of support from former Liberals. The chief difficulty is the lack of cohesion of his own party. The extremists are dissatisfied. They expected more radical action from their leader and many of them cannot see how the position of the worker has been improved since the change of government.

The foreign policy of the government has pleased a great many and it by itself would undoubtedly receive the endorsement of the people of Britain. The difficulty is that domestic and petty affairs will be introduced into the fight which may bring about almost any result.

MUCH WORK CHURCHILL

Next Season Will See Great Progress in Railway and Docking Facilities

WINNIPEG, Mch. 12—At the distant end of a railway line zig-zagging 1000 miles north from Winnipeg, lies Canada's most ambitious settlement. Today it is Churchill—a group of buildings all but abandoned to the fury of winter in the barrens. Tomorrow it will be Churchill—new seaport for the eager West.

The frontiersman's toil established modern Churchill just as truly as it builded the old fort at the river mouth two centuries ago and more.

No more sturdy hearts ever beat than those of Michael John O'Shea's extra-gang that laid first steel into Churchill when March gales whistled off the bay. No more adventurous he-men toil than that thousand and one-half who left their homes and families for months to aid in this season's dock construction and terminal work. And no more sturdy folk exist than the 30 members of the keep-over gang living through this winter at the isolated port.

Since spring, Churchill has made mighty strides. But Churchill has work to do and many a problem to face before it will be entitled to take its place as a real harbor on the bay.

Indeed, the past season's work has been extensive. Under the supervision of Major J. G. MacLachlan, at The Pas, engineer, and G. S. C. Johnston, divisional engineer for the Hudson Bay Railway, three miles of terminal steel have been put down in the Churchill yard. A six-stall brick roundhouse—unique in its double-wall construction to resist sudden and extreme thermal changes—has been erected. And several smaller buildings have been added to the modest list of structures at the end of steel, 511 miles northeast of The Pas.

At Churchill, Joe Wright has been resident engineer. George Brown has been general supervisor of construction along the rail line. Pete Campbell has been in charge of the bridge and building gang.

Important work, as well, has been effected in harbor improvement and dock construction by the department of railways and canals staff. A large portion of the necessary dredging has been completed during the summer and the inside or shallow crib for a large dock was sunk and loaded. The work has been handled under the supervision of George Kidd, resident engineer for harbor work.

The coming fall, however, will show even greater development in railway improvement at Churchill and the appearance of the harbor proper will have been altered drastically.

Elevator to Be Built

Eight or nine miles of trackage will be laid next summer, it is planned. A 2,000,000-bushel elevator will be constructed, as a start towards a series of storage bins that may some day be called on to carry a large portion of the west's grain crop. Freight sheds and warehouses will be built. More dock work is to be done. And thousands of yards of gravel will be poured into a shallow portion of the harbor between the dock and the curve of sheltered bay at the river mouth.

Included in next summer's improvement program will be the item of levelling off a large portion of the townsite with gravel fill. Tracks already raised two or three feet at the terminal will be brought still higher. Buildings perched above the land with basements exposed will be brought to normal level by raising the grade with fill to suit the construction of the buildings.

Conveniently, gravel is available along the Hudson Bay line in almost limitless quantities and of high grade. To this advantage must

Deaf Hear Again Through New Aid

Earpiece No Bigger Than Dime Wins Enthusiastic Following Ten-Day Free Trial Offer

After twenty-five years devoted exclusively to the manufacture of scientific hearing-aids, the Canadian Acousticon Ltd., Dept. 222, 45 Richmond St. West, Toronto, Ont., has just perfected a new model Acousticon that represents the greatest advance yet made in the re-creation of hearing for the deaf. Men seldom invited Edna twice... "B.O." is so unpardonable

(Body Odor)

HE had begged so hard for this date. And now . . . !

Harry was still nice to her. But Edna felt the change. Miserably, she wondered why men always lost interest.

Then Edna learned the trouble. Today she's showered with invitations. She found it's easy to end "B. O."—Body Odor. Just keep perspiration odorless.

Unpardonable—yet tricky. Quick to betray—but slow to warn. "B. O." hurts its victims—while they least suspect it.

In any weather "B.O." annoys

Never be caught off guard. We become insensitive to ever-present odors, but we're always perspiring. Pores give off as much as a quart of odor-causing waste daily. And the hotter it is, the more we offend.

For safety's sake, always bathe with Lifebuoy. Favorite of millions. Mild, yet wonderfully invigorating. Lifebuoy's deep-reaching antiseptic lather purifies. Pores breathe again. You feel fresher—cleaner than ever before. No chance for "B. O."

Keeps skins fresh and clear, too. Guards health—by removing germs. Lifebuoy's pleasant, extra-clean scent, which vanishes as you rinse, tells you it purifies. Adopt Lifebuoy today.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect. Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy. A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkgs.

HUSKY DOG SAVED BOY

Grabbed Wolf By Neck When It Pounced on Boy, and Hung Tight

WEMBLEY, March 12.—But for a female husky dog, Reggie Knight, age eight, would have to all probability have been killed by a timber wolf, belonging to Mr. Osborne.

It appears the boy was sitting in a hay loft and teasing the animal when he fell out, landing close to the wolf, which was tied. The wolf immediately pounced upon the boy, biting him several times in the leg. No sooner had the wolf tackled the boy than the husky, which was also tied grabbed the wolf by the neck and hung on. In the meantime Mr. Osborne appeared on the scene and rescued the boy, who was immediately rushed to the Grande Prairie hospital where at the present writing he is making rapid progress towards recovery.

Mr. Osborne shot the wolf shortly after the accident.

The wolf, which was two years old, and which had never before shown any signs of viciousness, had been in captivity since a pup.

Mr. Osborne had a licence from the government to keep the animal for breeding purposes and intended selling it this summer to a man in the United States who offered \$75.

An examination of the wolf after it was shot disclosed the fact that the husky inflicted several deep tears and bites on the wolf's neck. Without a doubt the loyal action of the faithful husky saved the boy's life.

The boys had been previously warned to keep away from the wolf.

DIVIDE BIG ESTATE

Three sisters and a brother of George Smith, of Medford, Mass., formerly of Fredericton, N.B., were notified recently that their brother had left them an estate of \$300,000 to be equally divided among the four. Each received \$75,000. The sisters were Mrs. Murray Long, Mrs. Joseph Sands and Mrs. Annie Long, who in addition to the money was left the Smith residence at Medford.

SEMI-FINAL HOOP GAMES

Three-Two Taxi and High School Are Winners—Finals Thursday and Tuesday

Three Two Taxi defeated the Elks 27-24 last night to win the championship of the second half of the Senior Basketball League. On Thursday night Three Two Taxi will meet the Players' Club in the first game of a two-game series to decide the city championship.

Last evening's game was anybody's win up to the last minute of play. At half time the score was 13-12 for Three Two Taxi. With three minutes to play the Taxi aggregation was leading 18-24. The Elks scored rapidly to make the score 24-25 in favor of the Taxi men. Time out was called with only 20 seconds to play. Ratchford cinched the game with a long shot from past centre.

The individual scores were: Three Two Taxi—E. Ratchford, 2; E. Dingwell, 15; D. Gurvich, 6; B. Wendle, 1; S. Gurvich, 3; total, 27.

Elks—B. Harold, 6; G. Mitchell, 6; W. Mitchell, 13; M. Budinich, 7; Lambie, 5; total, 24.

The High School won from the Bankers 45-22 in the Intermediate League. The High School played a snappy game and was able to hold the lead without difficulty from the start. At half time the score was 21-10 for the school.

The individual scores were: High School—D. Morrison, 2; W. Johnstone, 13; S. Styles, 16; B. Irvine, 6; K. Nakamoto, 7; Smithwaite, 2; total, 45.

Bankers—H. Macdonald, 3; E. Barlowe, 6; J. Scott, 11; C. Donaldson; F. Bradshaw, 2; total, 22.

The first games of the two game series for the city basketball championship will be played on Thursday between the High School and Big Four for the intermediate championship and the Players' Club and Three Two Taxi for the senior. These two teams will meet again on Tuesday night of next week for the final game, the total points to count as the deciding factor for the championship.

To Many Pedestrians

Motoring takes a man's mind off his work completely.—Dundee Courier.

Pulling for dear old Oxford. The new captain Tinne, is seen occupying No. 7 place in Oxford Varsity crew, which has resumed training for the annual race against Cambridge.

Sport Chat

The annual meeting of the Prince Rupert Football Association is to be held within the next week or so. While the outlook may not be so very bright for senior activity, it is being advocated by some of those who have always taken an active part in connection with this sport that the younger element may be particularly concentrated upon. The idea is being gradually appreciated that, to have successful senior activity in future years, it is desirable to foster the sport among the younger boys now. This principle will probably play a prominent part in connection with this year's organization and, if it does, there seems to be no reason why the season should not be equally successful to those of the past.

Now that spring days will soon be here, interest in the baseball game should also awaken. Here is a line of local sport where a good deal of reorganization might not be amiss. During recent years there has been an inclination towards waning on the part of both baseball players and fans. Seasons start off with some enthusiasm which, in the past few years, unfortunately, has flagged rather badly along towards the late summer. Here, too, the advisability of the idea of fostering younger blood in the sport might be well considered. If a league is organized, it is to be hoped it will consist of at least four teams. More of baseball will be heard anon.

The first play-off match between the Grotto, winners of the first half of the season, and Elks, winners of the second half, for the team billiard championship of the city has been set for this Thursday while the second match will be on Tuesday next. Total points on the two meetings will decide the honors for the past winter. With the team competition over, the annual city individual championship contests will start on March 25. The annual banquet of the league on April 2 will bring a billiard season which, on the whole, has been very successful to a fitting close. At the banquet trophies won during the past winter will be presented to their respective holders.

Canadian Legion Has Long Lead In Billiard Fixture

In an outstanding game from last Tuesday's Billiard League fixture between Canadian Legion and Grotto, M. E. Young last night defeated J. Hillman 250 to 195, giving the Legion a lead on the four games so far played of 935 to 814. One game remains to be played—A. Murray, Canadian Legion vs. W. J. Nelson, Grotto.

NEW WINTER WHEAT FOUND

World's Champion Grower Is Originator of Smithsonian Grain

REGINA, March 12.—"Smithsonian," a new hard red winter wheat originated and developed by C. Edison Smith, twice world wheat champion, is expected to create a sensation at the World's Grain Exhibition and Conference at Regina in 1932.

Mr. Smith is a resident of Corvallis, Mont., and samples of his wheat have been thoroughly tested by experts of the milling, baking and chemical laboratory at Washington. The tests showed that the flour yield was almost 75 per cent, that the quality was excellent. It is lighter in color than any other hard red winter wheat tested during the season.

Mr. Smith has been experimenting for over twelve years. He succeeded in originating the first "Smithsonian" wheat about five years ago. Sufficient quantity is now on hand to give it a thorough test in different sections of the northwest country. It has already proven to be winter hardy and an exceedingly heavy header in the Bitter Root Valley and much faith is expressed in its ability to rank among the greatest of hard winter wheats.

will be called to the need of hospital and medical requirements between McBride and Prince Rupert.

The governments will be asked to use local lumber on all contracts in Central British Columbia.

The construction of the roads to Kitimaat and the Naas is asked.

The government is asked to subsidize the transfer of autos between Prince Rupert and Terrace and Hazelton.

The use of stone cairns as legal posts for miners staking was asked.

Completion of the main highway from Prince George to Jasper was urged at the instance of Prince George.

Smithers urged the government to start work on roads as soon as practicable so as to alleviate unemployment.

Establishment of an experimental farm between Prince George and Terrace by the Federal government was urged.

Stewart asked for the resolution urging that in view of the likelihood of big developments in the Taku district egress to which was available only by way of Juneau with consequent loss of trade to Canada the government should make early investigations for a highway to Alaska paralleling the eastern contact belt from Hazelton to the Yukon.

A letter was read from the newly formed Board of Trade of Fort Fraser, which joined the association.

Delegate A. H. Carson from Prince Rupert extended an invitation to the delegates to travel as far as Prince Rupert in order to witness the possibilities of the place. A few accepted and will visit the port.

The resolution committee consisted of E. T. Kenny of Terrace, Noel of Smithers, John McInnes of Prince George, Ruddy of Burns Lake, Cocker of Vanderhoof and Carson of Prince Rupert.

General Seely, Comander of Canadian Cavalry Brigade, Tells Story of War Days

LONDON, March 12.—Major-Gen. the Rt. Hon. J. E. B. Seely, who commanded the Canadian Cavalry Brigade for the greater part of the war, has just written his life story (up to now), and given it the appropriate title of "Adventure." The last portion is entirely devoted to the period when he commanded the Cavalry Brigade. Some account of these pages has been given in a previous dispatch. General Seely has the following story of "Foghorn" Macdonald, whom he puts down as "an eccentric, and genius, too."

"He was a mining expert of distinction in Canada," says General Seely, "and having enlisted at the beginning of the war was appointed to superintend the mining operations on my front. He had a great command of language, which Canon Scott, and no one else—certainly no general—could moderate."

"Sir Arthur Currie will remember a tense interview with him. The meeting took place at the same united farm where John Redmond had found me. Currie was much worried at the weakness of our trenches, and the probability of a German attack from the Messines Ridge, which dominated our position. We discussed the various ways of meeting the difficulty with some asperity, for each man always thinks he knows his own bit of the front best. Forhorn Macdonald sat on a table in the corner of the room, swinging his legs and listening to the conversation."

"Presently Currie said: 'There is another thing, I am not at all satisfied with the place in which you put your mine, Seely. I don't believe it had been started in the right spot, and I am sure you won't get the water out. You will drown your own men without doing any harm to the enemy.'

"At this Corporal Forhorn Macdonald, who had taken no part in the conversation," said "these astonishing words, 'Look here old man Currie, you don't know the first thing about mines. I have forgotten more about them than you will ever know. You may say what you like about the rest, but don't you try telling me about the mine, just because you are the stud duck in this puddle.'

"To Currie's eternal honor," continues General Seely, "instead of placing my eccentric friend under arrest he burst out laughing and said, 'well that has broken the spell, anyway.' Everything was then settled amicably in five minutes. It will be seen that the Canadian Army was very flexible. It found room for everybody, and managed with great success to put people to their own jobs. But let nobody think that those eccentricities relaxed real discipline. I can truly say that during the three and a half years I commanded the Canadians on the Western Front I never had a rebellious word or look, and not once was an order disobeyed."

Organization Is Completed

Baptist Brotherhood Adopts By-Laws and Names Committees For Year's Work

The newly organized Baptist Brotherhood held its first regular meeting last night in the social parlors of First Baptist Church with the president, G. W. Johnstone, in the chair. Following a short prayer by Rev. Dr. F. W. Daffoe, the meeting proceeded with the business of reading and adopting the bylaws which were drafted by a committee which was specially appointed for that purpose. A debate has been arranged for next Tuesday evening on the subject: "Resolved that single men over 21 years of age should pay a bachelor tax."

The following committees have been appointed by the Brotherhood, which is open for membership to men and boys over 12 years of age: Devotional—J. H. Smith and W. W. Wright.

Social—Messrs. Gilker, Peters, Glass and Armstrong.
Junior Sports—Messrs. Gilker, Green, Johnstone and Green.
Membership—Messrs. Wilson, Annesley, Peters and Armstrong.
House—Sid Hamblin, K. Green, T. Johnstone and B. Green.

EFFECT OF TREE PLANTING

The free distribution of forest trees to prairie farmers by the Forest Service, Department of the Interior has had one marked effect in greatly increasing the number of vegetable gardens and orchards in the prairie provinces. Until recent years comparatively few farmers grew their own vegetables or small fruits. Inspections of the last few years have shown that the great majority of owners of shelter-belts now have vegetable gardens, many are growing small fruits, and an appreciable number are planting fruit trees.
