## MINISTER OF LANDS IS UNDER FIRE

### OTTAWA SITTING ABOUT TO COMMENCE

#### Spirited Debates Are Expected as Federal Parliament Convenes

Session Opens Tomorrow, Probably Last Before Election Radio and Pensions Bills to Provide Contentment

OTTAWA, Ont., Feb. 19.—(By R. K. Carnegie, Canadian Press Staff Writer)—Members will assemble tomorrow for the fourth session of Canada's Sixteenth Parliament. Will it be the last session before a general election? Back in the minds of most of the Parliamentarians that question is nestling. As far as can be ascertained the rank and file of the Liberal members have no more definite information than have the Conservatives as to whether the government will go to the country this year. It is probable the inner circles of

government, which will make the decision, will await early sessional developments before fixing an approximate date for appealing to the electors.

The session will doubtless be full of fight—more so than last year and much of the material for the hustings will be developed. A great deal of solid and some highly contentious legislation will be brought on. The radio commission's report will be implemented in a bill to be submitted to the house. Another bill will be brought down to provide more generous treatment of returned soldiers in respect to the pensions. The question of refusal of clearances of shipments of liquor destined to the United States in whatever form it comes before parliament is almost certain to

#### Halifax Booklet Very Interesting

Publication of Board of Harbor Commissioners Gives Much Information and is Profusely Illustrated

An interesting booklet published by the Board of Harbor Commissioners of the Port of Halifax and describing and picturing the facilities of that port as well as to some extent explaining present and future plans for the development of the Atlantic Coast always-open port has reached the office of the Daily News. It has been prepared in a neat and effective manner and is featured by profuse illustrations as well as historical, geographical, industrial and statistical information.

#### Solloway, Mills Company Loses Out In Two Rounds of Supreme Court Proceedings in Vancouver

VANCOUVER, Feb. 19.—Holding that the \$44,400 claim of William MacKee against Solloway, Mills & Co. Ltd. was good foundation for attachment proceedings, Mr. Justice Denis Murphy in Supreme Court dismissed with costs the defendant company's application to have set aside a garnishee order summons under which \$38,589 of its funds was paid into court by the Royal Bank of Canada. Solloway, Mills Co. was also unsuccessful in an application heard by Mr. Justice Murphy to compel Mrs. Eulalie Blygh of the Court House reporting staff in Vancouver to give particulars of her claim before officers of the defendant company have been examined for discovery. She issued a writ last year claiming \$7,750 in respect of stock transactions of the defendant company.

#### HOCKEY SCORES

National Hockey League scores last night were:  
 New York Americans, 6; Chicago, 4.  
 Montreal, 2; Boston, 3.  
 Toronto, 5; New York Rangers, 1.  
 Canadiens, 2; Detroit, nil.  
 Pittsburg, 2; Ottawa, 3.

bring on a battle. Both the Radio and the Pensions Bills will be referred to special house committees.

The agreements between the Dominion and Manitoba and Alberta for the return to those provinces of their natural resources will be up for ratification, and the return of the crown lands to British Columbia. The situation with respect to Saskatchewan will also cause considerable debate. The St. Lawrence deep waterways will be brought into the discussion on waterpowers generally.

Should the Canadian National Railways and the department of railways and canals be ready to proceed with the legislation for writing down the capitalization of the railways and consolidating into one financial structure the many companies which now make up the C.N.R., an involved and highly technical discussion will result. Much speculation has been written as to what these proposals will be. One surmise is the capitalization will be fixed to cover all the securities in the hands of the public and all monies advanced by the government of Canada, but not back interest charges on the money. Another suggestion is the capitalization would be made equal to the actual cost of construction of the various lines when they were built and a third, the capitalization should be equal to the replacement value of the system.

#### Dunning's First Budget

Hon. C. A. Dunning will have his first session as minister of finance, succeeding Hon. J. A. Robb who died last fall. The budget he will bring down will be awaited with a (Continued on page two.)

VANCOUVER, Feb. 19.—Hugh Chester Bell, a youthful chemist, mistook a glass of poison for water, drank it, and died immediately.

#### PROTESTS NEW FISH PROPOSALS

Howe Regulations Are Unfair and Will Lead to Monopoly, Todd Company Says

VICTORIA, Feb. 19.—Suggestion for consideration by a committee and criticism of the fishing proposals of Hon. S. L. Howe, provincial commissioner of fisheries, were voiced by C. F. Todd of J. H. Todd & Sons before the fisheries committee of the legislature yesterday. He considered it unfair that idle canneries should be given net ratings. One company on the Skeena River had seven licences and operated but three canneries, he said. The proposed regulations would lead to a monopoly.

Mr. Todd suggested that every encouragement be given to white fishermen by providing them with nets at a cheap price and on easy payments. Heavy catches of herring endangered the salmon run, he said.

Col. F. H. Cunningham told the committee that Mr. Howe's fisheries policy was unworkable and that control of the industry should be left in the hands of the Dominion Government. Col. Cunningham was formerly federal fisheries inspector for British Columbia and is now managing director of Chatham Sound Packing Co. He insisted that his company's investment in the Porcher Island cannery was jeopardized and would probably be lost if the proposed regulations were put into effect.

#### LEGISLATURE TALKS LAND

Spent Yesterday Discussing Amendments to Act; Lawyers' Accounts Changed

VICTORIA, Feb. 19.—The legislature yesterday devoted the session's discussion to proposed amendments to the Land Settlement Act under which the purchase of well boring equipment for lease to the farmers by the government is authorized and the purchase of improved livestock for resale to settlers is also sanctioned.

The advance of \$65,000 to the Lister waterworks system was also approved.

A bill authorizing lawyers to submit blanket accounts instead of itemized statements was approved on second reading.

#### City Council Of Vancouver Gets Boost in Wages

VICTORIA, Feb. 19.—The private bills committee of the legislature, yesterday authorized the Vancouver city council to give the mayor a \$5000 raise in salary if it so chooses. An increase in aldermanic salaries from \$1200 to \$2000 per year was also endorsed.

T. W. Brown of the legal firm of Williams, Manson & Gonzales returned to the city on the Prince Rupert this morning from a brief trip to Vancouver.

#### General Currie Had Great Hatred For Loss of Lives In War, Memoirs Declare

LONDON, Feb. 19.—General Sir Arthur Currie had an almost fanatical hatred for unnecessary casualties, comments Major General J. E. B. Seely, commander of the Canadian cavalry brigade in the Great War, in his life story, written by himself, of the commander-in-chief of the Canadian Corps in France. Seely adds: "Of all the men I knew during four years on the Western Front, I think Currie was the man who took the most care of the lives of his troops. Moreover, again and again, he nearly brought his career to an end by bluntly refusing to do things he was certain would result in great loss of life without sufficient compensating advantages."

#### President Beatty Assures Peace River Publisher That Outlet Is Receiving Serious Attention

In a special despatch to the Peace River papers from Montreal after an interview with President Beatty of the C.P.R., Charles W. Frederick, Peace River publisher, reports Mr. Beatty as having said:

"First and foremost, the provision of a coast outlet when it is built, must be with a view to the greatest possible benefit of the Peace River country itself, and not with regard to the aspirations of any particular ocean port.

"The Pacific ports of Vancouver and Prince Rupert both have aspirations in this regard for which both are to be commended, but it is essentially for the benefit of the Peace River country that the outlet will ultimately be provided. Where the terminus will be it is not possible now to say.

"I am as firmly of belief in the necessity of a coast outlet for the Peace River country as are the people of Peace River, but it will be impossible for any announcement of such an outlet to be made until we have had an opportunity for checking up information on routes available for this purpose. Our best engineers are going into the Peace River country early this summer to determine definitely what is necessary in that regard."

During the interview Mr. Beatty assured Mr. Frederick that a big program is contemplated in rehabilitating the Northern Alberta Railways and the extension of branch lines for the complete desideratum of the country.

"We hope to keep always a little ahead of actual requirements," he said, "but we cannot undertake to rush too far ahead with lines that might not pay more than a small proportion of fixed charges for many years to come."

"Should conditions arise which (Continued on page two.)

\*\*\*\*\*  
 AUSTRALIAN WHEAT POOL IS PLANNED  
 CANBERRA, AUSTRALIA, Feb. 19.—Proposals for an Australian wheat pool were laid by the federal government before representatives of the state governments and wheat growers' organizations at a great conference which convened yesterday to discuss schemes for the stabilization of the Australian wheat growing industry.  
 \*\*\*\*\*

#### PRESIDENT BEATTY

Head of C.P.R. makes statement in regard to Peace River Outlet.

#### LOW LEVEL FOR WHEAT

WINNIPEG, Feb. 19.—Reacting violently to suggestions in special news despatches from London that Canadian Wheat Pool officials are returning from London disappointed men after failure to reach an agreement with British government heads, wheat slumped to bottom levels for the year today. A few minutes before the close of the market was off 6 1/4c a bushel.

#### IS NOTED SCIENTIST

In the course of a tour of the west, Dr. A. G. Huntsman of Toronto, one of Canada's best known scientists and biologists, is a visitor in Prince Rupert. He arrived yesterday afternoon from the east.

#### Hon. Fred Burden Now Storm Centre of Grit Attack in Legislature

Valuable Stewart Waterfront Land Was Sold to Stevens For \$10 an Acre—Creston Waterworks Scandal

(Special to Daily News)

VICTORIA, Feb. 19.—Hon. F. P. Burden, minister of lands, replaced Hon. W. C. Shelly, minister of finance, as the storm centre of the legislature yesterday. To H. F. Kergin, M.L.A. for Atlin, he admitted that 15 acres of the best waterfront land in Stewart had been sold to W. H. Stevens for \$10 an acre. The reserve put on this land at request of the citizens of Stewart in 1910 was lifted on Nov. 8, 1928, he said. This was just a few days before H. H. Stevens M.P. began to advertise his application for the Canadian Northwestern Railway charter. Mr. Burden said he had no information whether W. H. Stevens was related to H. H. Stevens. It is a matter of general knowledge, however, that the Vancouver federal member has a brother of that name. Mr. Burden said the land was sold for industrial purposes.

After two days prodding in the house, T. D. Pattullo, elicited from Mr. Burden that the \$65,000 loaned by the land settlement board to the Lister waterworks district was paid to A. H. Green, Mr. Burden's former partner, on a cost plus contract. Mr. Burden admitted that he was acting minister of agriculture when the transaction went through but said the contract was let by the waterworks district trustee board, not by the government. He said the work cost half what it would have done on the unit price tender system. The admission was made by Mr. Burden in the course of debate on a bill to validate the loan of the \$65,000 which was admittedly made without legal authority. The facts only came out when Mr. Pattullo grilled Hon. W. A. Atkinson, minister of agriculture, for asking the house to validate an illegal loan used on a contract about which Mr. Atkinson said he had no information. Finally, Mr. Burden said he knew and the details were obtained. Mr. Pattullo said the people of Creston regarded the contract as a scandal. Col. Fred Lister, Conservative member for Creston, is chairman of the Lister waterworks trustee board that borrowed the money and let the contract.

#### WOULD BUY MORE GRAIN

Great Britain is Anxious to Increase Its Purchases of Canadian Wheat

LONDON, Feb. 19.—The Association of Millers of Great Britain at a final meeting yesterday between officials of the Canadian Wheat Pool and Rt. Hon. J. H. Thomas, Lord Privy Seal, made it clear that they would be glad to increase their purchases of Canadian wheat. Increased allotments of Canadian wheat made it possible to use a higher made it clear they would be glad to increase their purchases of Canadian wheat. Increased allotments of Canadian wheat made it possible to use a higher made it clear they would be glad to increase their purchases of Canadian wheat. Increased allotments of Canadian wheat made it possible to use a higher made it clear they would be glad to increase their purchases of Canadian wheat.

It was emphasized, however, that the amount of Canadian wheat purchased by the English millers would depend upon its price in relation to the price of wheat from other sources.

#### WHEAT DOWN AGAIN

VANCOUVER, Feb. 19.—Wheat was quoted on the local exchange today at \$1.12 5-8.

#### WARNING OF TARIFF WAR

British Government Feels Pressure For Protection and May Be Forced to Yield

GENEVA, Feb. 19.—Rt. Hon. William Graham, president of the British Board of Trade, warned the League of Nations tariff truce conference yesterday that failure to reach an agreement to halt rising tariff walls might induce free trade countries to enter international competition in protective tariffs.

This pronouncement was interpreted in some quarters as meaning that the British government was feeling strong pressure in Great Britain for the creation of further protective duties and might be forced to yield unless the present conference is able to accomplish a collective agreement to hold customs duties at their present levels.

#### INDIAN WAR AT MERRITT

Bad Blood On Reservation Was Inflamed By Liquor

MERRITT, Feb. 19.—Eight Indians and one white man are in jail here and a quarterbreed is out on \$300 bail following a veritable Indian war at the Quilchena Reserve early yesterday morning which resulted when bad blood between members of the tribe was inflamed by liquor. Two victims had knife wounds in their scalps.

#### Northland Sails For North After Repairing Here

A speedy job was done at the local dry dock in repairing the propeller shaft of the American motorship Northland yesterday and the vessel, which went on the pontoons about 4 o'clock in the afternoon, was off again at 8 p.m. At 10:30 last night she left the Canadian National dock for Ketchikan to resume an interrupted voyage from Seattle to Petersburg and Juneau.

#### Fred Kergin Is Recovering From Serious Illness

Word has been received from Toronto of the serious illness of Fred Kergin, from complications following scarlet fever. He underwent an operation yesterday and his condition is reported to be satisfactory.

DAILY EDITION Wednesday, Feb. 19, 1930

**FEAR IS THE ENEMY**

The only thing to be feared in this world is fear. It clogs the arteries, saps the vitality and causes men and women to live lives of deceit. Fear is the father of lies, the mother of false invention, the sister of base actions and the brother of most criminal offenses.

Fear of what people will think causes over expenditures which lead to future trouble.

And after all, the things we fear are usually bogies that have no real existence in fact.

A dollar a day would be riches if two bits was the average salary.

**WHAT SHALL WE DO?**

There will be practically no city work this year. There is no money with which to do it just now so, whether the city council is willing or not, does not matter. The condition is one that must be faced.

But what will take the place of the city work which has been carried on for years here? Let us look at the situation fairly and squarely, for undoubtedly we shall miss the work which a good many local men have depended on in the past.

In the first place there is road work. The Provincial Government, seeing the possibility of an election in this constituency soon, has decided to push forward work on the highway and many men will be employed. Already a survey party is going out to get the levels and lay out the work.

Then there is the construction work of the Power Corporation hydro-electric plant at the Ecstall River, construction of the power house in the city and the work on the right of way for the high tension lines. This will employ many men.

The drydock has work enough in sight to keep it busy for many months and it will employ more men than have been engaged there steadily for years past.

The Bilmor mill probably will be opening in the spring at Porpoise Harbor. This will employ a pretty good gang in addition to the men in the woods.

The Big Bay Lumber Mill at Seal Cove is in a position to employ more men than ever before.

There is likely to be considerable building in the city and all sorts of things are talked about but these mentioned will make enough employment to keep all local men busy. We do not advise men to come here from outside because local men will generally get the preference.

Then there are the disreputable and the bums. Life would lose much of its picturesqueness if all belonged to the same group.

POSSIBLE BUYER (hazy on mythology): "Well, but DID them ginks wear plus fours?"

The Passing Show, London

**The Letter Box**

**OBJECTION TO SENDING DELEGATE TO OTTAWA**

Editor Daily News:

I see by the press that our City Council have voted five hundred dollars to send a delegate to Ottawa to present Prince Rupert's claims to the Peace River outlet.

In my opinion this five hundred dollars would be far better spent on our roads, some of which are in very poor shape, and would at the same time find a little much needed work for our citizens here.

Our parliamentary representative, Mr. J. C. Brady, is well able to do all that is humanly possible in the interests of Prince Rupert at Ottawa and to send a delegate in addition at the city's expense, is just a waste of time and money.

I suggest that in future, when delegations of this kind are contemplated, that the money be raised by public subscription, and I am confident that if that had been attempted in this case not one-tenth of the money would have been raised.

Thanking you in anticipation of insertion in your popular paper.  
R. F. PERRY,  
1008 2nd Avenue.

Editor Daily News:

It was with much surprise that I read in your paper yesterday of the City Council's rash decision to send a delegation to Ottawa in connection with our Peace Outlet claims, especially in view of the fact that nothing can be gained at the present time in so-doing, and also at a time when the city can ill afford to send even an undersized delegation, which would prove useless at any time, as the Peace Outlet is a big question, and when the time is opportune, it will require at least a decent sized delegation, well prepared and composed of the best material Prince Rupert can muster, to properly present our claims in an absolutely correct, intelligent and precise manner.

In the same issue of your paper I read that the Public Works staff is reduced by some ten men, this action affects us all, as at the present time Prince Rupertites are all more or less living upon each other, and one cannot be affected without others feeling the pinch too. Before any of our funds are ill-advisedly squandered it is most vital that we at least know how our year is going to come along, and just how much our halibut fishermen are going to get for their early catches, and whether they are going behind or have a surplus to spend to make our town have a prosperous air. They have already been put back two weeks longer than usual on account of the Japanese cold storage halibut in the U.S.A.

There needs to be a better excuse to spend this sum of money than that it is necessary to let the Peace District residents know that we are with them. Why that is an affront to their intellect to put that plea, as Prince Rupert has constantly for a very long period manifested itself whole-heartedly in that respect. What about the delegation we sent there last summer? what about the many Peace River-Pacific Outlet publications we have broadcasted, and the articles that have appeared in the press from time to time all over Canada by our city boosters; all these indicate very plainly our attitude.

We have been informed on good authority that the different routes from the Peace River to the coast are being investigated by engineering experts and until the reports covering such investigation are made known, lobbying at Ottawa is both indiscreet and useless.

It is sincerely hoped that our City Fathers will re-consider their decision and hold on to their money until the opportune moment arrives for their sending a delegation and that then they will do it to an extent that will at least enable such a delegation to have a chance of achieving success.

**RATEPAYER.**

C.N.R. steamer Prince Rupert, Capt. D. Donald, arrived in port on time at 10.30 this morning from Vancouver, Powell River and Ocean Falls and will sail at 4 o'clock this afternoon for Anyox and Stewart, whence she will return here tomorrow evening and sail south at 10 p.m. This is the Prince Rupert's last trip north on winter schedule. The ss. Prince George will be coming north on Wednesday of next week.

**SPIRITED DEBATES ARE EXPECTED AS FEDERAL PARLIAMENT CONVENES.**

(Continued from page one)

great deal of interest as he is the first minister of finance from the low tariff prairies. The tariff advisory board has been working during the past 12 months on rewriting the steel and iron schedules. Some of the items in the present tariff have the same wording as in the time of Sir John A. Macdonald. So many changes have come about in the articles made of steel and iron that many of these items are obsolete. Accordingly, assisted by experts from all phases of the industry, the items have been rewritten. There are 189 items in the proposed schedule. The finance minister in consultation with the government, will insert the rates of duties to be applied to the various items. If the new schedule is included in the coming budget it will mean a great many changes to the list even if they do not make important differences in the protection the industry will receive. The tariff changes in the United States will be closely watched in relation to the Canadian budget.

Premier Mackenzie King has stated on several occasions the sales tax will be cut from two per cent to one per cent and has intimated the government might even go farther than that. This will be one feature of the budget.

Hon. T. A. Crear will be back in the house, this time as minister of railways and canals. Most of the branch-line bills went through last year so there will be little railway legislation to crowd the financial reconstruction of the C.N.R. should it be ready. The Canadian Pacific is asking for bills to permit it to build five new branch lines, one in Alberta, three in Saskatchewan and one in the Province of Quebec.

The repercussions from the stock exchange investigations are likely to be heard when the Committee act comes into the commons. The Senate spent much time with the bill, which is a long and very intricate one, during last session and it will come into the chamber in the form it left the Senate. It will give an opportunity to the members of discussing ways and means of greater co-operation between the Dominion and the provinces in regulating stock trading.

**Salmon Treaty**

The Sockeye Salmon Treaty which threatened a battle last year but was not pressed by the government, is likely to be less contentious this year. It is understood both Liberals and Conservatives will be favorable to its provisions introduced in the house this session.

The Conservatives will likely launch a debate on unemployment either by resolution or on some government measure. This will be almost certain to bring in review the government's immigration policy. Those who take the view the dominion treasury should contribute to unemployment relief, seek to fix dominion responsibility for an otherwise provincial problem by pointing to immigrants now out of jobs. Hon. Chas. Stewart, minister of interior and acting minister of immigration, is likely to suggest to the provinces that they decide on the number of immigrants they wish each year and let the dominion and provinces cooperate in securing them. If a settlement is reached with the province of Saskatchewan so that the crown lands of all the provinces will then be under provincial control, it is suggested they also should have the say as to how many immigrants should come in each year to occupy these lands. The general feeling is now the western provinces have their natural resources back, their responsibilities as to immigration have correspondingly increased.

A board of audit is at work studying the claims of the maritimes for subsidies having in view the fact the western provinces will continue to receive their subsidies given originally in lieu of their natural resources, after they get these resources back. Maritime rights and the implementing of the recommendations of the Duncan report formed an important part of the debate last session and are expected to be returned to this year, particularly if the board submits any report.

Last session a great deal of time was taken up with the divorce bills. A protest against the procedure by which divorces are obtained by act of parliament was led by J. S. Woodsworth, Labor, Winnipeg, north-centre. It is not impossible that the leaders of the various groups will consult early this session in order to reach some clear understanding as to future developments.

ments. There will be a considerable list of private bills. One is expected asking for legislation permitting betting on dog races.

**Eight New Members**

Since last session, Premier Mackenzie King and Hon. R. B. Bennett, Conservative leader, have made extensive tours. Mr. King spoke through the prairie provinces, British Columbia and Western Ontario. Mr. Bennett covered British Columbia thoroughly, spoke on the prairies and in Ontario. Eight new members will be introduced to Mr. Speaker when parliament opens. They are: Hon. T. A. Crear, Brandon; Elie Bertrand, Prescott; Dr. W. S. Murphy, Lanark; Vincent Dupuis, Joliette; Dr. William Spankie, Frontenac; George Dumaine, Bagot; D. J. A. O'Connor, Chateauquay-Huntingdon; L. A. Wilson, Vaudreuil. Including Speaker Lemieux, the standing of the parties as last session will be: Liberals 119, Conservatives 89, United Farmers of Alberta 11, Progressives 12, Lib. Prog. 9, Labor 3 and Independents 2.

**PRESIDENT BEATTY ASSURES PEACE RIVER PUBLISHER THAT OUTLET IS RECEIVING SERIOUS ATTENTION**

(continued from page 1)

demanding it we hope to be in a position one year from now, with the knowledge we will then have gained from the engineers, to be able to make a definite announcement regarding your outlet to the coast." To this he added that he expected to again visit the Peace River country in the early summer to personally look into the matters pertaining to the railway situation.

During the course of his remarks Mr. Beatty stated that so many engineers' reports have been made which appear to be at variance with regard to the possibility of a rail crossing of the Peace at or near Hudson's Hope, that the best engineers were being sent out this summer to determine definitely the actual conditions and also to check up on the desirability of the differ-

**Needless Pain!**

People are often too patient with pain. Suffering when there is no need to suffer. Shopping with a head that throbs. Working though they ache all over. And Aspirin would bring them immediate relief! The best time to take Aspirin is the very moment you first feel the pain. Why postpone relief until the pain has reached its height? Why hesitate to take anything so harmless? Read the proven directions for checking colds, easing a sore throat; relieving headaches and the pains of neuritis, neuritis, rheumatism, etc. You can always count on its quick comfort. But if pain is of frequent recurrence see a doctor as to its cause.

ent passes. Would it not be possible to give encouragement to the people of the north country by stating that the construction of a coast outlet will be undertaken within a definite stated time, he was asked. To this the president replied that this reason that if such a promise were to be given now the information to be gathered by the work of the engineers during the coming summer might set aside all presently received opinions as to both route and destination of such an outlet.

**Stop us if you've heard this one . . .**

"MY DEAR, I simply dread this daily shopping" How many times have you heard that story? More than once, we'll bet a hat. And if you ask the woman who "dreads shopping" just why she does so, you'll usually hear something like this:

"I takes so much time! I start out and look and look and look . . . and by the time I've found what I want I'm dead on my feet. All in, my dear. I mean I actually am!"

You can do a friend like that a real service. Ask her if she reads The Daily News grocery advertisements. Usually she'll look surprised and say, "Not very often. What has that to do with it?"

Tell her how you have your mind all made up before you hang the market basket over your arm . . . how you're able to save steps, budget your expenditures neatly, get what you want—and all with a minimum of time and effort. Simply because you have the news of the shopping world at your finger-tips all the time, by reading the advertisements every day.

## BUNDLE DUMFOUNDED

"That's right," said Battle, as Mosgorovsky leaped up and came round to Bundle. "Get a chair for her. It's been a bit of a shock. I can see."

Bundle sank down on a chair. She felt limp and faint with surprise. Battle went on talking in a quiet, comfortable way wholly characteristic of him.

"You didn't expect to see me, Lady Eileen. No, and no more did some of the others sitting round this table. Mr. Mosgorovsky's been my lieutenant in a manner of speaking. He's been in the know all along. But most of the others have taken their orders blindly from him."

Still Bundle said no word. She was—a most unusual state of affairs for her—simply incapable of speech.

Battle nodded at her comprehendingly, seeming to understand the state of her feelings.

"You'll have to get rid of one or two preconceived ideas of yours, I am afraid, Lady Eileen. About this society, for instance—I know it's common enough in books—a secret organization of criminals with a mysterious supercriminal at the head of it whom no one ever sees. That sort of thing may exist in real life, but I can only say that I've never come across anything of the sort, and I've had a good deal of experience one way or another."

"But there's a lot of romance in the world, Lady Eileen. People, especially young people, like reading about such things, and they like still better really doing them. I'm going to introduce you now to a very creditable band of amateurs that has done remarkably fine work for my department, work that nobody else could have done. If they have chosen rather melodramatic trappings, well, why shouldn't they? They've been willing to face real danger—danger of the very worst kind—and they've done it for these reasons: love of danger for its own sake—which to my mind is a very healthy sign in these Safety First days—and an honest wish to serve their country."

### Introductions

"And now, Lady Eileen, I'm going to introduce you. First of all, there's Mr. Mosgorovsky, whom you already know in a manner of speaking. As you're aware, he runs the club and he runs a host of other things too. He's our most valuable secret anti-bolshevist agent in England. No. 5 is Count Andras, very near and dear friend of the late Mr. Gerald Wade. No. 4 is Mr. Hayward Phelps, an American journalist whose British sympathies are very keen, and whose aptitude for scenting news is remarkable. No. 3—"

He stopped, smiling, and Bundle stared dumfounded into the grinning face of Bill Eversleigh.

"No. 2," went on Battle in a graver voice, "can only show an empty place. It is the place belonging to Mr. Ronald Devereux, a very gallant young gentleman who died for his country if any man ever did. No. 1—well, No. 1 was Mr. Gerald Wade, another very gallant gentleman who died in the same way. His place was taken—not without some grave misgivings on my part—by a lady—a lady who has proved her fitness to have it, and who has been a great help to us."

The last to do so, No. 1, removed her mask and Bundle looked without surprise in to the beautiful dark face of Countess Radzky.

"I might have known," said Bundle resentfully, "that you were too completely the beautiful foreign

adventress to be anything of the kind really."

"But you don't know the real joke," said Bill. "Bundle, this is Babe St. Maur—you remember my telling you about her and what a ripping actress she was—and she's about proved it."

"That's so," said Miss St. Maur in pure trans-Atlantic nasal. "But it's not a terrible lot of credit to come from that part of Yurrup—so I got the patter fairly easy. Gee, but I nearly gave myself away once at the Abbey, talking about gardens."

She paused and then said abruptly:

"It's—it's not been just fun. You see, I was kinder engaged to Ronny, and when he handed in his checks—well, I had to do something to track down the skunk who murdered him. That's all."

"I'm completely bewildered," said Bundle. "Nothing is what it seems."

"It's very simple, Lady Eileen," said Superintendent Battle. "It began with some of the young people wanting excitement. It was Mr. Wade who first got on to me. He suggested the formation of a band of what you might call amateur workers to do a bit of secret service work. I warned him that it might be dangerous—but he wasn't the kind to weigh that in the balance. I made it plain to him that any one who came in must do so on that understanding. But, bless you, that wasn't going to stop any of Mr. Wade's friends. And so the thing began."

"But what was the object of it all?" asked Bundle.

"We wanted a certain man and wanted him badly. He wasn't an ordinary crook. He worked in Mr. Wade's world, a kind of Raffles, but much more dangerous than any Raffles ever was or could be. He was out for big stuff, international stuff. Twice already valuable secret inventions had been stolen, and clearly stolen by someone who had inside knowledge. The professionals had had a try—and failed. Then the amateurs took on—and succeeded."

"Succeeded?"

"Yes—but they didn't come out of it unscathed. The man was dangerous. Two lives fell victim to him and he got away with it. But the Seven Dials stuck to it. And as I say, they succeeded. Thanks to Mr. Eversleigh, the man was caught at last red-handed."

"Who was he?" asked Bundle.

"Do I know him?"

"You know him very well, Lady Eileen. His name is Mr. Jimmy Thesiger, and he was arrested this afternoon."

(To Be Continued Tomorrow)

## STATION WINNER

Will Play Off in C.N. Crib League With Freight Shed for Holtby Cup

Canadian National Recreation Association Cribbage League results last night were as follows: Station 14; Drydock 13; Locomotive Shops 17; Freight Sheds, 10; General Offices 18; Car Department 9.

Final Table—Second Half			
	W.	L.	Pts.
Station	76	59	76
Car Dept.	71	64	71
Gen. Office	69	66	69
Freight Sheds	67	68	67
Low Shops	65	70	65
Drydock	57	78	57

Station are of the second half and will play off with the Freight Sheds team, winners of the first half, for the Holtby Cup.

Play-off will take place on Tuesday, February 25.

## Berg Wins Over Mushy Callahan

Sensational British Lightweight Scored Technical Knockout On Chicago Boy

LONDON, Feb. 19.—Jack "Kid" Berg, Great Britain's sensational lightweight, scored a technical knockout last night over Mushy Callahan of Chicago in the tenth round of a fifteen round engagement billed as a junior welterweight title contest.

Albert Souier was charged in city police court this morning with obtaining lodgings by fraud at the Pacific Rooms. His case was adjourned for eight days.

## RUPERT WON HOOP GAME

Defeated Port Simpson Athletic Club 39 to 37 Last Night

Prince Rupert All-Stars defeated the Port Simpson Athletic Club 39-37 in last evening's basketball game before a large number of ardent fans. The game started rather slowly, with each team taking numerous long shots at the basket. The first half ended with Rupert on the long end of a 27-15 score.

With the beginning of the second half Rupert kept up its scoring to take a longer lead of 32-15. With only 15 minutes to play, Simpson staged a wonderful rally to score 14 points to Rupert's three. The play became furious at this point and both teams were striving hard to obtain possession of the ball. The fans became frantic and urged their favorite team to score. Rupert scored twice in succession, but Simpson retaliated to score twice also.

Will Lambie, playing guard for Rupert, turned in a stellar game. W. Mitchell was the pick of Rupert's forwards. Ross and Henry were the best on the Simpson team. Ross was high scorer of the evening with 19 points to his credit.

### Intermediate League

There were two intermediate games. In the first game the Bankers defeated the High School 26-24. This was the fastest game on the floor during the evening. Snappy combination plays resulted in the majority of the points scored. Both teams were travelling at a fast pace. With three minutes to play the score was 20-22 in favor of the High School. Scott scored twice and Macdonald once to put the Bankers in the lead 26-22. Irvine scored on a long shot from past centre.

The second intermediate game was very one-sided with Big Four on the long end of a 46-17 score. The C.N.R. was not playing as good a game as they have shown in previous matches. Their greatest fault was too much individuality in their plays. They seemed to forget that there was such a thing as teamwork. Jack McNulty was high scorer for Big Four with 20 points.

### Team Standings

	W.	L.	P.
Senior—			
Elks	2	0	4
Players' Club	0	1	0

## Theodore Johnson Of Terrace Dead

Was 45 Years Old and a Fisherman Succumbed in Hospital at Midnight

The death occurred about midnight last night in the Prince Rupert General Hospital of Theodore Johnson, who was 45 years of age and gave his calling as a fisherman. Coming here from Terrace, he had been about two months in this city. He was a Catholic and was born in Halifax. As far as is known, there are no relatives in this district.

Funeral arrangements are in the hands of the B. C. Undertakers and the funeral will take place Friday morning.

Daily News "Want Ads" bring quick results.

Mr. and Mrs. Gordon Hill of Huntsville pay a flying visit to Moose Lake, in the Algonquin Lake district.

## BANQUET TO BOYS' BAND

Bandmaster Thomas Wilson Host Annual Affair Last Night

The annual banquet given by Bandmaster Wilson to the boys of the band took place last night at the Boston Cafe and proved a most successful and enjoyable event.

Nearly thirty of the lads were present and all took full advantage of the splendid dinner served by the management. Alderman Collart, chairman of the Boys' Band committee, presided and others present in addition to the boys and the bandmaster, were Mayor Orme, W. H. Tobey, Colonel Nicholls, John Dore, Frank Derry, George W. Johnstone, A. O. Franks and Alderman Pullen.

Music was provided by the Boys' Band Orchestra which was much

appreciated. They played several selections before the dinner commenced and several afterwards.

A number of brief addresses were given including a financial statement by Secretary W. H. Tobey, songs by Bandmaster Wilson and a story by Percy Mcintosh.

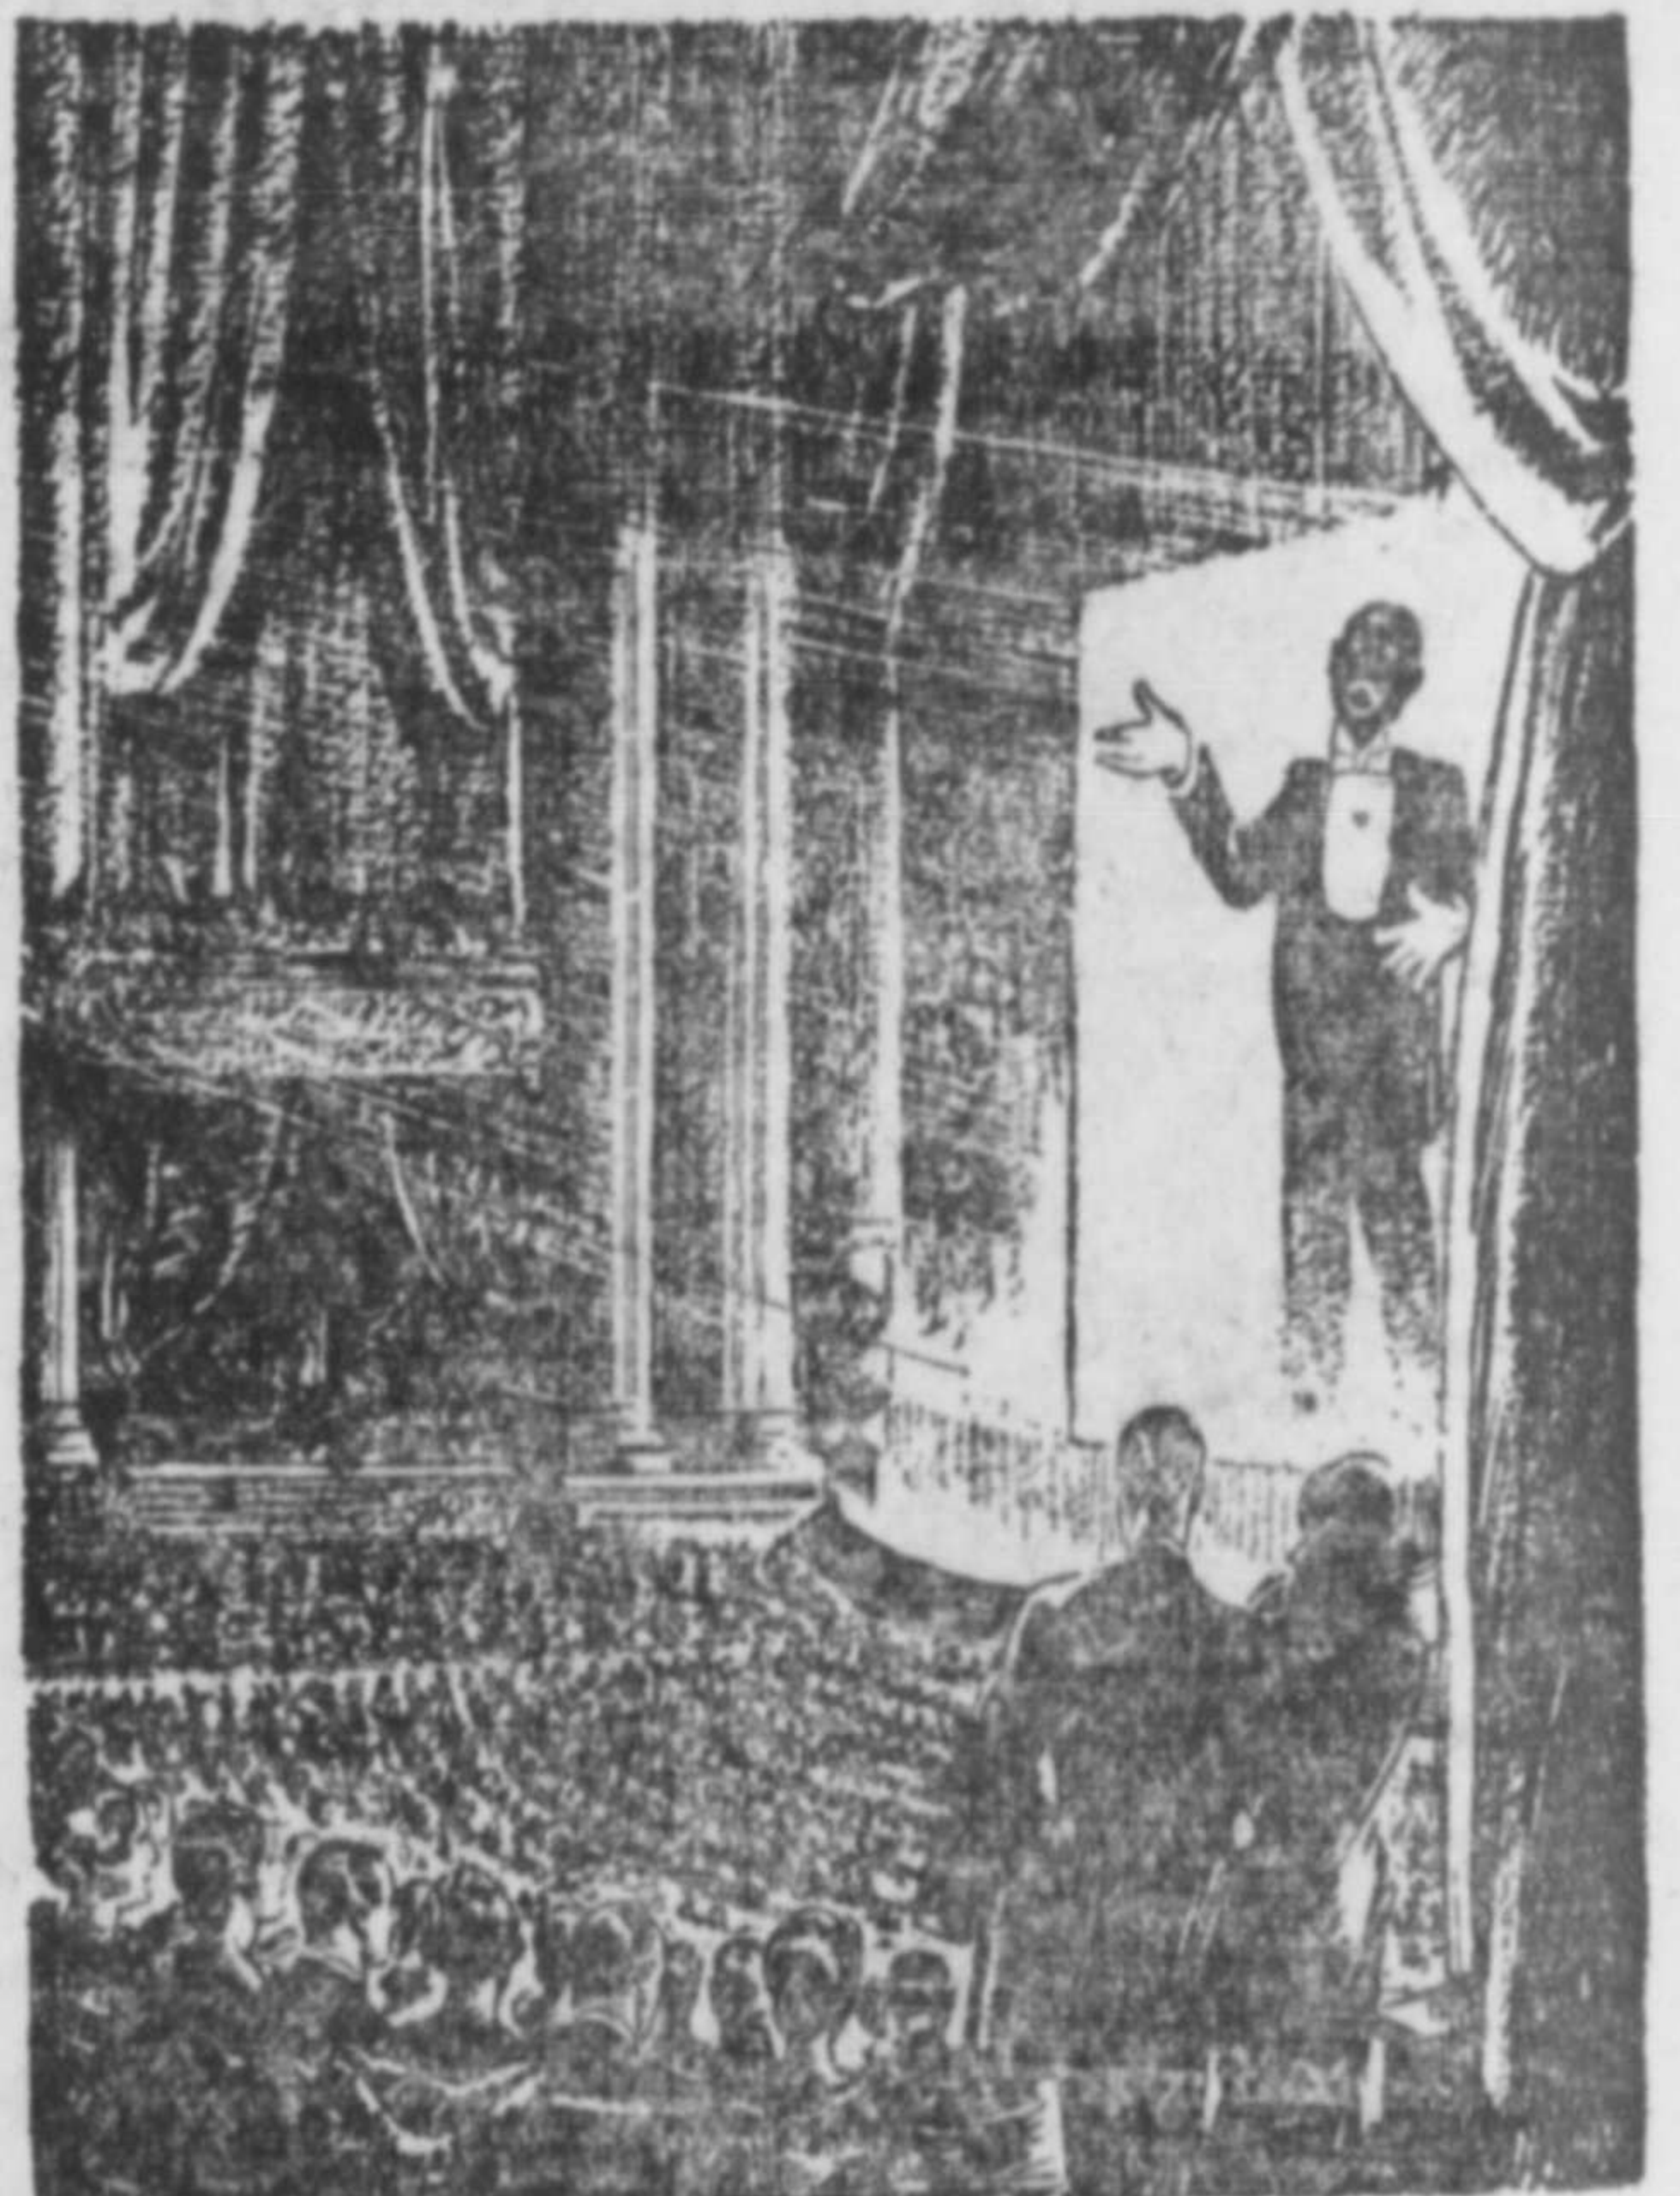

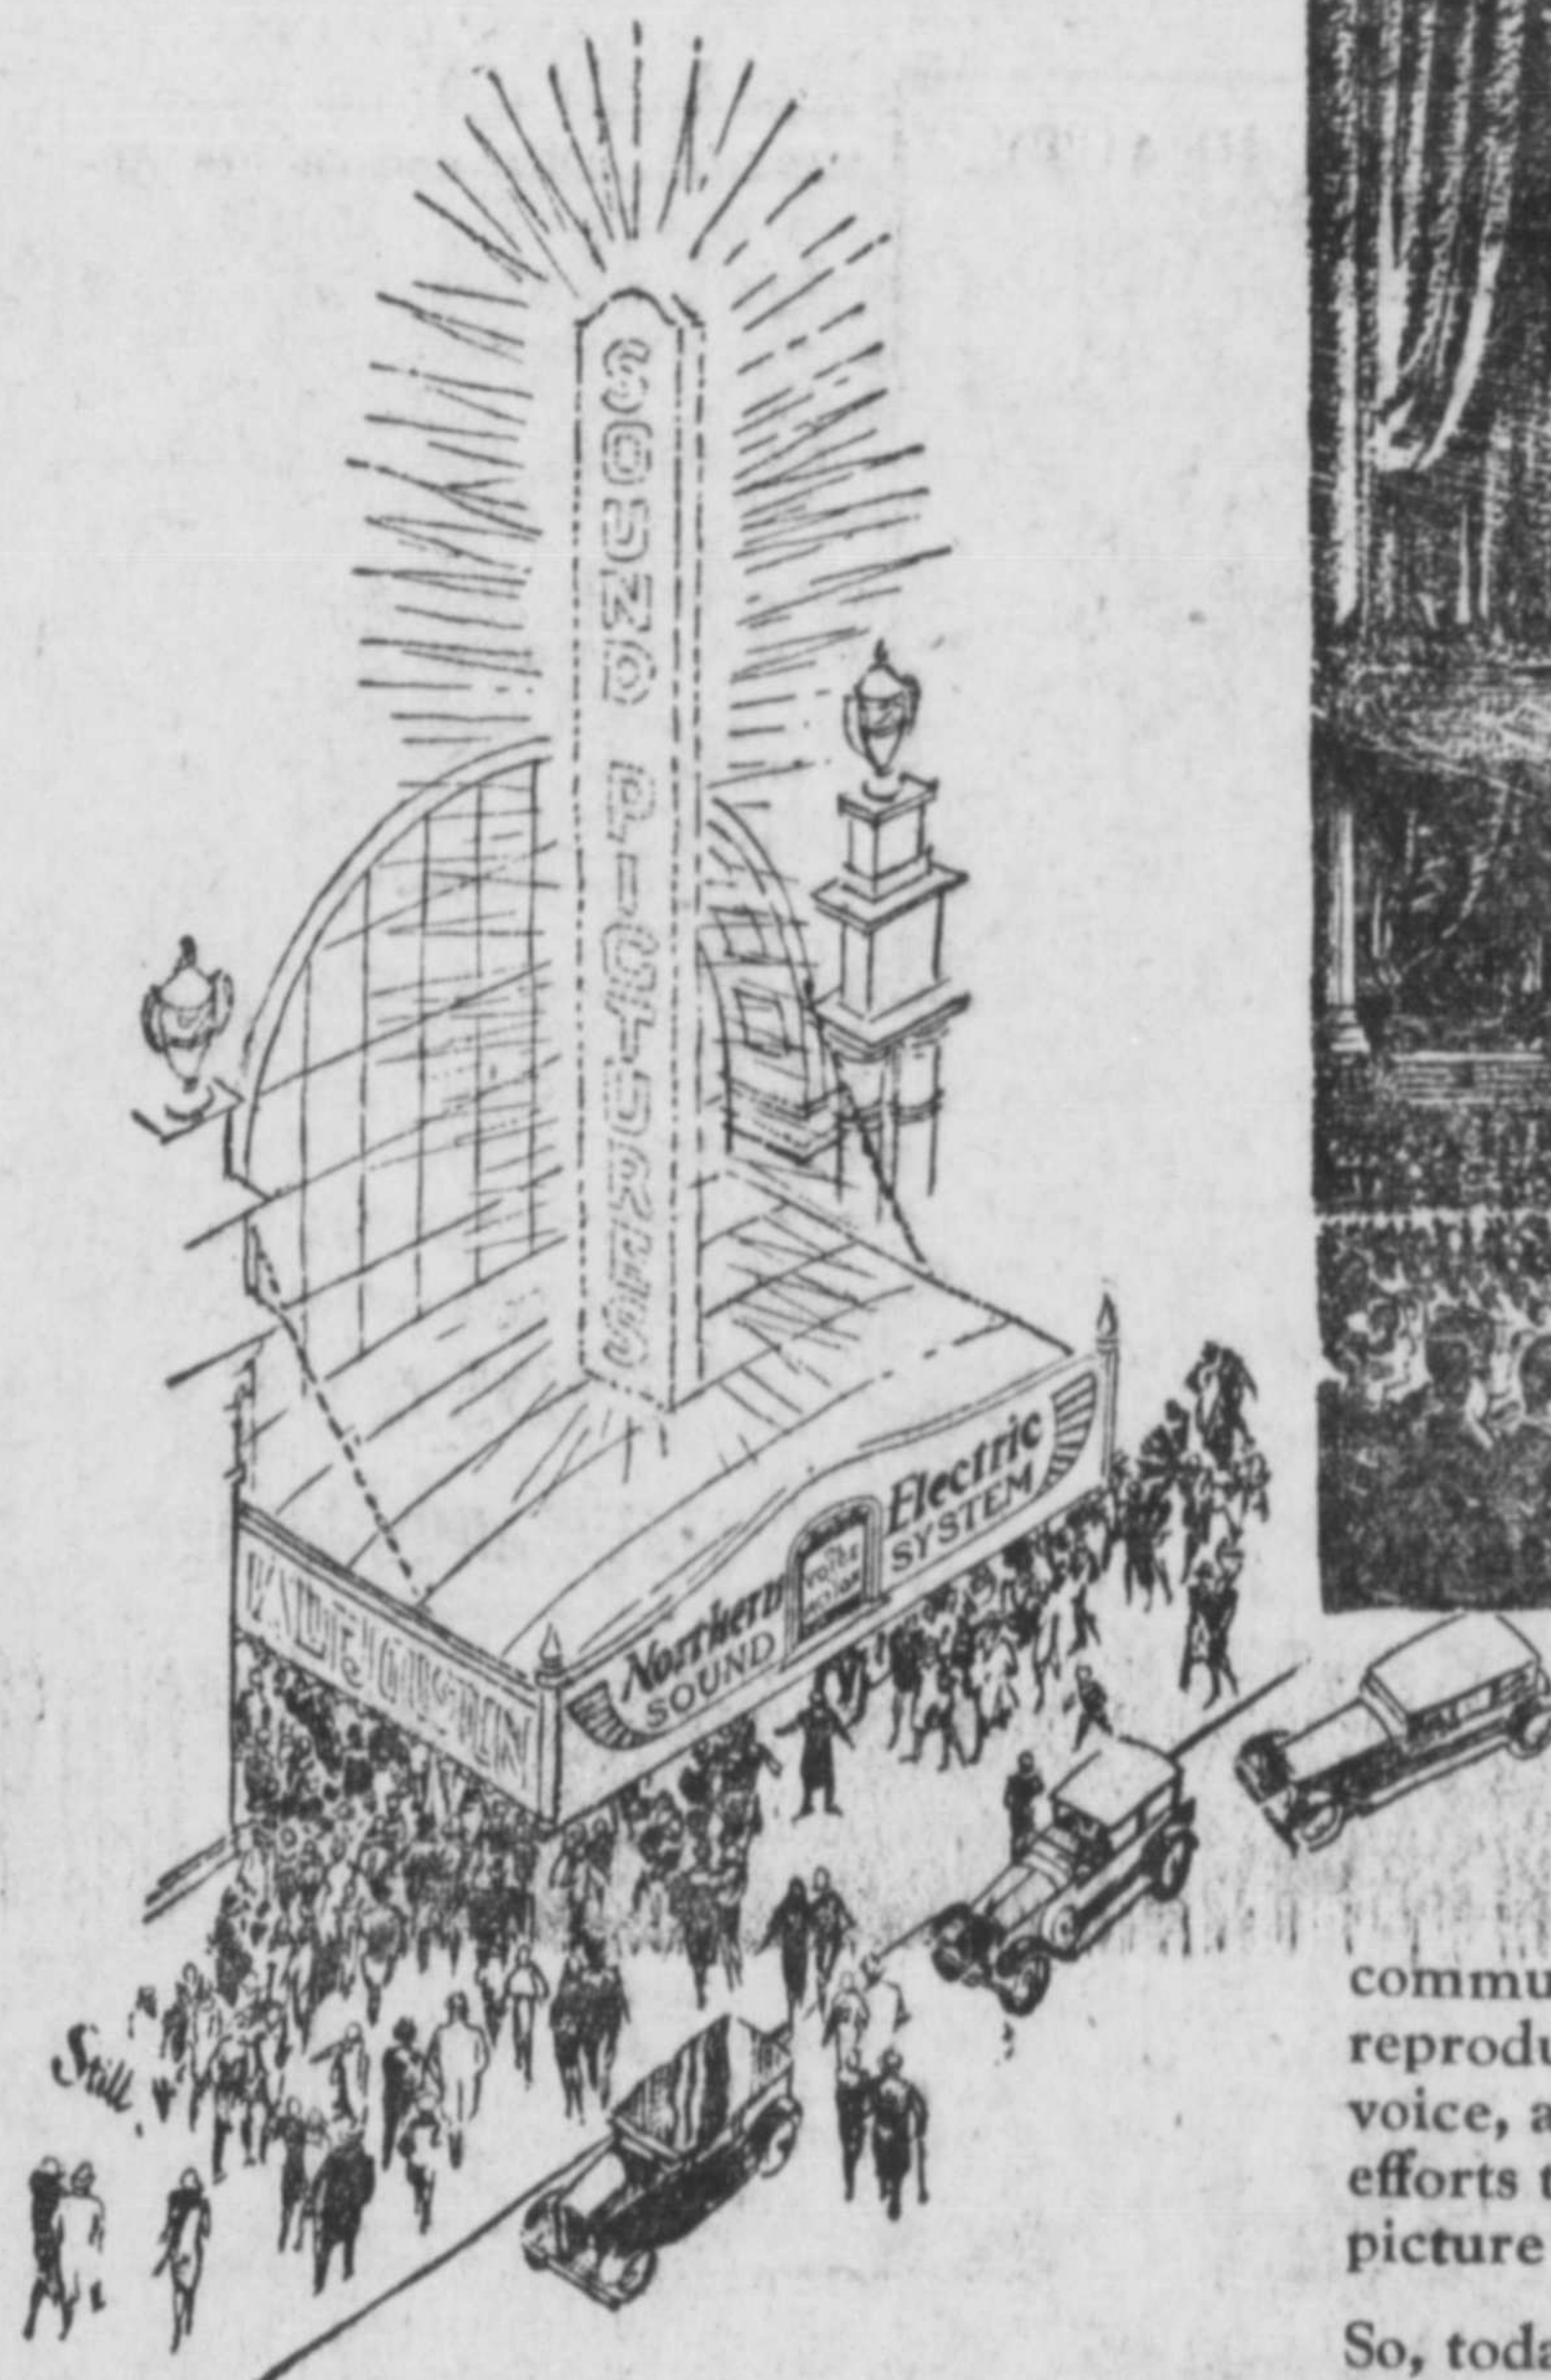

Among those who spoke, all appreciatively of the band's work and that of its leader and committee, were Mayor Orme, Col. Nicholls, W. H. Tobey, Aid. Pullen, A. O. Franks and Bandmaster Wilson.

## WHIST

February 27—Moose vs. Canadian Legion; Grotto vs. St. Andrew; Erikson vs. Six Musketeers; Seal Cove vs. Elevator; I.O.O.F. vs. dock.

# RECREATION

THE talking motion picture is really the child of the telephone! The efforts to perfect telephone communication naturally led to the study of reproduction and amplification of the human voice, and it is a result of the success of these efforts that the synchronization of sound and picture has become a reality.

So, today, in addition to its activities in connection with radio broadcasting and public address systems, the Northern Electric Company is enabled to contribute still further to the recreation and enjoyment of the Canadian public. This Company manufactures, installs and services the talking picture apparatus, known as the Northern Electric Sound System (Western Electric in U.S.A.), which so rapidly is being adopted by theatres across Canada; nearly 200 already having been installed in theatres from Halifax to Vancouver.

### INFORMATION

The Northern Electric Company manufactures the telephone and its accessories, wires and cables for the transmission of power, and electrical equipment for industrial purposes; and also distributes many electrical appliances indispensable to modern housekeeping.

## FISHERMEN OFF MONDAY

Will Leave Then so as to be on Banks by March 1

Ketchikan halibut fishermen are leaving for the banks Monday next to enable them to be on the fishing grounds in time for the voluntary opening of the season March 1st.

A number of the Prince Rupert fishermen will also be away the beginning of next week and those who are planning to fish in near-by waters will leave a little later.

While there is no law against fishing at an earlier date than March 1, most of the boats will keep the gentlemen's agreement faithfully.

## Port Essington Church Lecture

Illustrated Discourse of Rev. W. H. Pierce on Sunday Very Interesting

PORT ESSINGTON, Feb. 19—Last Sunday evening, in the United Church here, a very appreciative audience listened with great interest and delight to a fine lecture which was delivered by the Rev. W. H. Pierce, pastor in charge, and which was beautifully illustrated with several colored magic lantern views depicting some of the old ancient scenes and biblical characters pertaining to the scriptures.

Before the lecture commenced the hymn "Rock of Ages Cleft for Me" was shown on the screen, and everyone joined in and sang most heartily. A silver collection was then taken up, to which everyone responded in a most generous manner. The minister made it known that this collection would be used towards the expenses of the church, such as lights, fuel, etc. There was then a solo by Mrs. W. Spaulding, who sang to the delight of all present. The organist, Willie Spaulding, was able to be present, having just recovered from a severe illness.

The attendance was unusually large on this occasion, there being some white and Japanese friends in the audience, as well as native people.

## WRIGLEYS

WRIGLEY'S is good company on any trip.

It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

In short it's good and good for you.

## MUSKRAT HARVEST

A. D. Hallett Arrives at Massett From Vancouver With 450 Steel Traps

Arthur D. Hallett arrived at Massett from Vancouver on the Prince John today with 450 steel traps which will be used in the harvesting of muskrats which Mr. Hallett placed on his land there four years ago and which, since that time, have flourished and increased many thousandfold. It has been a long wait but Mr. Hallett expects to realize annually in future from the muskrat farming venture.

So successful has Mr. Hallett been that it is reported that the possibilities of the muskrat farming industry have attracted monied interests to Graham Island.

## THE WEATHER

Inspector William Spiller, provincial police, returned to the city on the Prince Rupert this morning after a week's trip to Victoria on official duties.

## District News

### STEWART

Capt. A. E. Dickson, Chief Stewart Bert Edden and officers of the Union steamer Catala were hosts to the people of Stewart at a dance aboard the popular coastal liner while it was in port here on Monday night. Many people took advantage of the invitation and a very enjoyable time was spent by all.

Walter E. Gilbert, pilot of the Western Canada Airways Ltd., who did considerable flying in this district last summer, is now stationed at Fort McMurray on the Athabasca River where he is flying mail to points north. Mrs. Gilbert, also a licensed aviator, is with him.

Joseph Allan, manager of the Northern Drug Store here, has left for a ten-day trip to Vancouver. The death occurred at Port Alberni, Vancouver Island, recently of James Mowat, one of Stewart's oldest old timers. He dropped dead and the body was found outside his shack. He had been engaged in building work there.

Slight damage was done to the home of A. B. Armstrong by a fire last Wednesday. Fortunately, it was discovered and extinguished before any serious damage was done.
