GIRLS SHOULD STAY IN SCHOOL

MONTREAL, Sept. 26.—More than ever just now, when unemployment is widespread, is it difficult to persuade the 14-year-old girl that she ought not to leave school and try and find a job. This is a problem which is engaging much effort on the part of the Big Sister Association, Inc., according to a statement by Miss Frances Hains, head worker.

Another problem that the Big Sisters are faced with is that of the girls from the country and small towns who come to the city in the hope of finding work. With no jobs obtainable the result is that they are homeless and destitute. And cases of destitution among city residents are plentiful enough. One woman who came to the Big Sisters the other day had had no food for four days, and was trying to keep alive on water, it was reported.

 Esperanza Mine May Resume—Keystone Property to Be Further Developed—Sibola Property Said to Be Rich

It is possible that the Esperanza Mine at Alice Arm, which has been closed for a short time, may again commence operations this fall, negotiations having almost been completed whereby Seattle capitalists will purchase large blocks of stock. Sufficient money will then be available for development work on a much larger scale than has been the case in the past. Harry Bowyer, representative of the Seattle interests, is at present in Alice Arm and states that everything will shortly be arranged satisfactorily. Mr. Bowyer will be in charge of operations at the Esperanza and he states that it is his intention to install a compressor plant this fall and commence work on the property as soon as possible. The first work to be carried out will be a survey and mapping out of all underground workings and also a survey of all surface showings, indicating the strike of the ore bodies.

The Keystone Mining Co. will undertake further development next year of the Keystone property situated a short distance down the inlet and opposite Alice Arm. It is stated by Harry Bowyer of Seattle who recently made an inspection of the property, accompanied by M. Terry. The work will be started as early as possible in the spring and continued for eight or nine months. The main tunnel will be extended to the ore body and an upraise will then be driven on the ore to the surface. Mr. Terry, who has had considerable experience in mining development, will be in charge of the operations.

The Consolidated Mining & Smelting Co. is installing heavier tractor equipment for use in transportation of material and supplies required in connection with development operations being carried out on the Emerald group of claims on Sweney Mountain in the Sibola district. The Emerald group is located high up in the Coast Range of mountains and the company is forced to bring up fuel as well as other mine supplies over a road six

Rogers Hornsby

New manager of Chicago Cubs, succeeding Joe McCarthy, who piloted his team to victory yesterday in his first appearance in new role.

SPORT CHAT

Alexandrine Gibb in the Toronto Star says: "Of all the Canadian swimmers I have seen, Marjorie Linton, the 13-year old dolphin, appears to have the easiest stroke. Her speed appears to be acquired with the minimum of effort. She is an outstanding example of the superiority of style and rhythm over strength. It was not just a happy chance that made her the youngest competitor at the British Empire games this summer. Already at 13 years of age she has a background of excellent achievement. At 11 she established new Canadian records for backstroke swimming. At 12 she was conceded to be the best in the world for her age, and went to New York to beat her nearest rival.

Joe McCarthy Relinquishes Managership of Chicago Cubs

CHICAGO, Sept. 26.—Joe McCarthy resigned officially as manager of the Chicago Cubs yesterday and the first game under the direction of Rogers Hornsby was played.

wedding cake. Silver sconces held pink candlesticks.

Miss Jean Harrison R.N., lady superintendent, received the guests.

After the reception, Mr. and Mrs. McIntyre embarked aboard the Prince George for Vancouver where they will reside. A large assemblage of friends gathered at the wharf as the steamer pulled out to give the bridal couple an enthusiastic farewell.

The bride's going away costume consisted of a handsome ensemble in a new shade of brown satin with hat, footwear and purse to match.

Both Mr. and Mrs. McIntyre are well known and popular in Prince Rupert. The bride has been a member of the nursing staff of the Prince Rupert General Hospital for three years. The groom is chief officer of the steamer Prince George and has navigated out of this port with the Canadian National Steamships for the past ten years.

Jack Fetherstonehaugh, formerly a resident of Prince Rupert, who has been spending the summer on the Queen Charlotte Islands scaling timber for the forestry department, left last night for his home in Vancouver.

DOUGLAS LODGE

RAINBOW TROUT are plentiful this season in the Stuart Lake district, they take either fly or spoon. In this wide virgin country there are hundreds of miles of waterways in lake and stream with many pleasant bays and wooded isles, unexplored by white men. Now that really good accommodation is provided and modern camping equipment is obtainable, many are taking fishing trips.

Another important attraction there is a ride or hike to the top of Mount Pope, from which a wonderful picture is seen—100 miles of lake and woods in every direction.

CAME FROM OLD BYTOWN

James Buckham Kennedy, Dead in New Westminster, Was 'Real Old Timer of Province'

The late James Buckham Kennedy, pioneer of New Westminster, whose death was reported yesterday, was a lumber merchant. He was born in 1844 in Ottawa when that city was known by its original name of Bytown and was educated in the public schools of the old Ontario town.

When twelve years of age, the late Mr. Kennedy started farming but gave that up in 1867 when he started up in the lumber business in Ottawa. In 1877, Mr. Kennedy moved from Ottawa to New Westminster where he held many public and civic offices and was elected to the provincial legislature in 1894, holding the seat for four years. In 1904, he entered the federal arena and was Member of the House of Commons until 1908.

In 1880 the late Mr. Kennedy married Miss Josephine E. DeBeck who died a few years later. In 1891 he married Mrs. Mary Adelaide Lloyd of Winnipeg. They had one son.

The late Mr. Kennedy, who through his marriage to Miss DeBeck was a distant relation by marriage of Mrs. J. E. Jack of this city, was known to quite a few people in Prince Rupert, particularly those who come from around New Westminster. In politics, Mr. Kennedy was a Liberal and he attended the Presbyterian Church.

C. H. Daniels, manager of the Canadian National Telegraphs in Vancouver, and Mrs. Daniels arrived in the city by train yesterday from Jasper Park and sailed last night on the Prince George for Vancouver.

"Skinny" Mother of 8 Children Gains 10 Lbs. in 4 Weeks

MONT JOLI, P. Q.—"Was skinny, weak, run-down, looking after 8 children," says Mrs. Elot Gagnon, Jr. "Tried Ironized Yeast. Gained 10 lbs. in 4 weeks. New strength."

Don't be "skinny," weak, nervous. New Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ugly hollows fill, bony limbs round out. Bleached skin clears. Constipation, indigestion, "nerves" go overnight. New pep first day. Rich, red blood.

Ironized Yeast is two great tonics in one. Weight-building brewer's Yeast plus strengthening, blood-enriching iron. Many times more effective than unmedicated yeast. Results in half the time.

Start now to gain weight, health. Avoid danger of serious ills. Take these pleasant little tablets. No gas; no yeasty taste. If not delighted with quick gains, manufacturer refunds money. Get Ironized Yeast from druggist today. Feel great tomorrow. New pounds quick.

Twenty Years Ago In Prince Rupert

September 26, 1910
Trouble is brewing on city street contract work, the men insisting on working no more than an eight-hour day while the contractors desire a ten-hour day. For an eight-hour day \$3 is being paid for common labor and, for ten hours, \$3.75. One of the contractors found it necessary today to call in the police when a gang of 30 men who had been discharged threatened trouble.

PRIZES FOR BIG CIRCUS

George Munro Reports to Rotary Club on Success of Efforts to Secure Prizes

At the Rotary Club luncheon yesterday afternoon George Munro reported that he and the other collectors had had a splendid reception by the merchants of the city as far as they had gone. With one exception everyone called upon had given something. He prophesied that the big society circus and dance would be bigger and better than they realized, considering the support they were already getting.

Mr. Munro said he could not commence to enumerate all the articles that had been contributed, practically all of which would be prizes in the big drawing, but he said there were cases of canned salmon, 20 sacks of coal, bacon and ham both canned and smoked, a barrel of gasoline, a ton of coal, a drum of gasoline, a sack of fertilizer, a case of soda biscuits, rolled oats, Christmas cards, an upper set of teeth, a set of plans for anyone building a new house, meal tickets, card tables, gym shoes, a suit case, cocktail shaker, bedspread, several cakes, towels, a Christmas turkey, "lippers" a tea set, musical instruments, umbrellas, boxes of apples, subscriptions to the local papers, hot-air balloons, towel rack, bucksaw, rubber coat, smoking set, pictures, cushions, a badminton racket and numerous other articles, not junk, but new. Also there were several orders on stores for merchandise and still the collection is not finished. It is expected to have over a thousand dollars worth of prizes so that the purchase of tickets became an investment rather than a gamble. Besides, each ticket was good for one person to enter the circus at the exhibition hall and take part in the dancing. No extra charge is to be made for dancing but hot dogs, punch and light suppers will be sold at the usual rates by members of the Rotary Club and their friends.

In addition there will be all kinds of amusements provided for those who do not care to dance.

Managing Director of B. C. Silver Pays Visit to Stewart

STEWART, Sept. 26.—C. A. Banks, managing director of the B. C. Silver Mines Ltd., was in the district this week on a visit to his company's property on the Salmon River, adjoining Premier. Any reports as to extensive developments on the B. C. Silver were exploded by Mr. Banks, who said that the company will carry on the work as at present outlined without any augmentation of the crew. He expressed himself as well satisfied with the development on the property to date.

Mr. Banks has recently been to New Guinea where his company, Placer Developments Ltd., is interested in several placer properties on one of which has been proved up forty million yards of fifty cent gravel. This particular property has recently been formed into an operating company called Bulolo Gold Dredging with an issued capital of three and one-half million dollars.

WHISKY**

"MARRYING" is a term used by experts to describe the blending process through which "White Horse" gains its smoothness and mellowness. Scotch Whiskey is the blending of malts and grain whiskey. For "White Horse" only the choicest makes of Scotch Whisky are selected. These are matured for a long period in sherry wood—expertly blended—or "married"—then aged, reblended and aged again. Every drop of "White Horse" must go through this long, deliberate process—and the result generously repays the effort.

There Are Bigger Stores Than This

Lots of them—but size isn't everything. A nice collection of this, that and the other thing, which a jeweler is supposed to sell. Plenty of articles of household use like silverware, clocks of all kinds. The same in chains, rings, novelty jewelry, etc. Everything to make a complete jewelry store.
