PREMIER KING IS SPEAKER IN CALGARY Former Commissioner of Railways Attacks Canadian Grain Body

Tells Empire Club in Winnipeg That It Has Shaken Dominion's Econome Structure Through Its Disregard of Business Principles

WINNIPEG, July 4:—Addressing the Empire Club here last night, Hon. Frank Oliver, former member of the Board of Railway Commissioners, declared that Canada's entire economic structure had been shaken to its foundations through disregard of well established business principles due to the Wheat Pool's method of handling crops. His remarks were a scathing denunciation of the Canadian Wheat Pool's marketing activities. He declared that the principles of the Pool's marketing, expounded in Western Canada by Aaron Sapiro, had failed in their purpose.

Prime Minister Today In British Columbia; At Revelstoke Tonight

Reiterated His Stand on Unemployment at Gathering Last Night in Alberta City--Hecklers Removed By Police From Hall

CALGARY, July 4:-After one of the most strenuous meetings that he has addressed thus far in the campaign, Premier King left for British Columbia early this morning. Tonight he will speak at Revelstoke and Saturday night in Chilliwack. Then he will go on for meetings in Victoria and Vancouver. On his return trip, the Prime Minister will again speak in the province of Alberta when he will address a meeting in the north at Edmonton.

A discussion of the unemployment situation by the Premier last night evoked a series of interruptions which finally resulted

in one of the hecklers being escor-ted from the crowded hall by a LEWILUX policeman.

With respect to unemployment, the Premier once more announced the readiness of the government to assist any province in which emergency conditions prevailed. He outlined what had been done by the federal government in the way of giving money grants for various purposes to the province of Alberta and declared once again that the Dominion government had received no formal appeal for assistance from any province which found itself unable to meet unemployment conditions. If such an appeal were monia made, the federal government was ready to sit down with that province and try to solve the problem.

The Tories and the Fishermen

For years the fish canning interests of British Columbia knocked loudly at the door of the Liberal Government at Ottawa demanding fish traps and other concessions by which they might better "regulate" the fishermen and the fishing. In spite of these importunings, bowever, Mackenzie King, supported by Neill of Alberni and Fred Stork of Rupert, remained adamant in refusal.

But what a difference when the canning branch of the fisheries was transferred to Victoria. Scarcely had the transfer been made before the canning interests had their lobby working overtime knowing that their Tory friends, the Hon. M. Howe and associates could not say them nay.

And such a set of regulations they did frame. The fishermen were to be sewed up into a pocket wherein competition would be stifled and fish prices properly "regulated" to suit the cannerymen. Mr. Howe capitulated in toto and had it not been for the hue and cry raised by the fishermen, by the Liberals-both on the Fisheries Committee of the House and off-and by some of the fairer minded cannerymen themsives. Mr. Howe and the "interests" would have succeeded in their designs. As it was, the outcry was so great they were compelled to drop

Because some of the Howe regulations were ultra vires of the local House, representations were made for the support of the Liberal Government at Ottawa so that they might be made effective. This the Liberal Government declined to give on the ground that the Liberals stood for the "open door" policy in regard to fishing, aiming as much ceeding to the rescue of another + most immediately, the govern- as possible to allow free and open competition instear of monopoly

> The fishermen have seen the attitude of the Liberal Government on the one hand and that of the Conservative Government on the other, and all of Mr. Brady's protests to the contrary notwithstanding, they do not wish to put themselves in the power of a political party which could father the Howe regulations.

FISHERMEN MAY VOTE

Weekly Close Season Altered at Federal Election

OTTAWA, July 4:-To enable fishermen on the British Columbia coast to vote in the federal election without having to sacrifice a day's fishing, the fisheries regulations have been so amended that the weekly close season in that period will end at 6 p.m. on Monday, July 28, instead of at 6 p.m. on Sunday, July 27.

More Power and Pick-up

Of course it is an "age of machinery" -but man-power is still the most important factor in human achievement. Shredded Wheat is a power food. It is rich in the elements that build muscular and mental energy—making it an ideal food for children. Shredded Wheat is nothing but whole wheat, supplying every element that growing bodies need.
