## Amendment to Present Treaty Being Solught At Geneva by Borden

Would Make Licence For Fishing From Jurisdictory State Compulsory, Granting Right For Country Concerned to Refuse Such Licence

GENEVA, Sept. 9:—Canada is determined to protect her North Pacific whaling industry. Sir Robert Borden in the course of the past two vesterday proposed an amendment to the present whaling months The list for the month is treaty with this end in view. The am ended treaty, which as follows: has been submitted to the various members of the League of Nations, recognizes the right of the states signing the treaty to require fishing in their territorial waters to have to be fixed. licence from the jurisdictory state.

The proposed Canadian amendment goes further by making it clear that the issuance of such a licence may be refused.

It is understood that the amendment is aimed at control of so called floating whale factories

## Hazard This Month As Bad As Any Time During This Season

Weather Is Still Hot and Dry and Many Conflagrations Are Still Raging-Necessity For Continuation of Public Co-operation Emphasized

With weather still hot and dry and large forest fires still raging in various parts of the central interior, the nonth of September, from the fire hazard standpoint, opened up even worse than any other month during the summer, it is stated at the office of the district forester in Prince Rupert. Practically the whole interior is as dry as tinder and ready for the slightest cinder or spark to set it ablaze. A heavy and general rain last Friday relieved the situation somewhat by holding in check fires then in pro-

to be of any material use in putting fires out. The fire situation has been made worse, it is explained, by + WATT CASE OPENING eason of the fact that at night, up 4 to last Friday, there had been no + dew fall. ### RADIOPHONE. EXPERIMENTS

It would be a great thing for Prince Rupert to be con- guest of Mrs. Mckinnon at Vanars nected with Vancouver and other cities by radiophone, as dol last week. planned by the B. C. Telephone Co. Ltd. Yesterday it was Mrs. Simpson and daughter, Hel demonstrated that it is possible to operate from Prince en, and Misses Barbara and Jean Rupert and now it will be for the experts of the company Lee have returned to Anyox after a to bring the instruments into such control that they can summer at Mrs. Lanfear's home or be used continuously as is done at Powell River and other the "Hill Farm." points. With radio the problems of each place have to be worked out separately.

When Prince Rupert people can take down the telephone w. s. Anderson. receiver and call any person in Vancouver or New Westminster or Seattle, talk to them and then hang up, well shall feel that something really worth while has been ac- ton. complished. That is what the experimenters who were here yesterday expect to do. They have also gone to Alaska to town recently much to the delight make tests. If Ketchikan and Juneau are brought into the of the children. A large crowd Orange Valley, Miss Betty Burton magic circle and we can converse with people there, an- gathered in the evening remaining of Enderby; South Fort George, other step forward will have been accomplished.

The B. C. Telephone Company may expect co-operation from the people of Prince Rupert in anything they can do simpson for induction of the new to bring the city into closer communication with the out- paster at that point. During his ab- vesting will be general. side.

### PEACE RIVER PASS

An article published in the Daily News yesterday seems evening. to indicate that the Peace River Pass is the proper route for a highway to take between the Peace River farming country and the west. If that is true, it is quite probable it may be the best railway outlet. It leads to Finlay Forks where it emerges from the mountains.

Once the railway is at Finlay Forks it seems quite prob- lously ill here, is somewhat imable it will continue west and Prince Rupert is the most proved. His mother and sister arlogical point of egress. Possibly it may follow the projected route to Vanderhoof, in which case Prince Rupert still has a very considerable advantage. Be that as it may, we still Mr. Lowes' survey party this sumlook for Prince Rupert to become the outlet for the Peace country and for the huge grain crops from that fertile father, Dr. White, of Penticton. section to be rolling through to the Prince Rupert elevators.

### DEMANDING A MONOPOLY

A majority of the members of the Saskatchewan Wheat Pool voted to take steps to compel every wheat grower in that province to turn over his wheat to the pool, says the Prince Rupert. A number of Ter- and speakers was Rev. Dr. G. A. Edmonton Journal. It does not follow that the compulsory race exhibits were shown. scheme will be "put over," for there are several bridges to cross before that end is attained. But there is no doubt about the significance of the vote.

The Saskatchewan Pool members evidently recognize Prince Rupert on Monday, accom- month, has gone to Vancouver that they are under a handicap in competition with the panied by Mrs. Haddon's brother, G. where she will undergo an operanon-pool farmer, and want to bring the latter under the Anderson, who spent the week-end same handicap, willing or not. The pool member must de- in town. liver his wheat to the pool, and accept a down payment The long dry spell has been hard ter, Lavinia. based on 60 cent wheat at Fort William. The non-pool far- on potatoes and farmers, as well as mer may sell to whom and when he pleases, and receive all people in town would welcome a that his wheat is worth when it is delivered.

The Saskatchewan Pool operates according to the Mr. Homer has a splendid stand theories of Mr. Sapiro, whose cardinal doctrine was that of corn, being about ten or twelve tral interior were here for the the pool could and would raise the price of wheat. That feet high. The ears are well filled Smithers Fall Fair. In addition to hope having failed to materialize, the members propose to and of good length. prevent anyone else getting any more for wheat than they get.

The pools in Alberta and Manitoba have, wisely, kept clear of the compulsory idea. They rely upon the service they render to hold their membership, and match their ef- Mrs. Gillett motored down from drawing for cash prizes. It was one ficiency as selling agencies against that of the private same day, recently. dealer. Hitherto the results have justified the policy; as evidenced by the fact that Saskatchewan is the only province in which it is felt that the pool cannot operate successfully without being given a law-made monopoly of the business of dealing in wheat.

## 125 Million Explosions

## in each grain of wheat

. . . thus making Puffed Wheat and Puffed Rice virtually as nourishing as hot cooked cereals.

LIERE'S an utterly different ready-to-eat o real! Crisper ... crunchier ... more flavory. And with virtually the same nourishment as hot cooked cereals!

That's because Puffed Wheat and Puffed Rice are made in an entirely different way from all other cereals. Plump, choice grains of wheat and rice are sealed in huge bronze guns. The guns are revolved in fiery ovens. The natural moisture in each grain is changed to steam. Then the guns are fired. 125 million explosions occur in every grain. Each tiny food cell is blasted open. Thus every particle of the grain is made as completely digestible as though they had been cooked for hours. And so Puffed Wheat and Puffed Rice attain the virtual nourishment of hot cooked cereals.

This process explains why Puffed Wheat and Puffed Rice have an extra delicious flavor . . . plus a crisp light daintiness that tempts the appetite. Serve these little nuggets of rich grain nourishment for breakfast, luncheon and supper. They digest so easily that they're extra good for children's evening meal. Your grocer has Puffed Wheat and Puffed Rice. Order today. The Quaker Oats Company.

# TELEPHONE

Two Way Radio Conversations Conducted Between Prince Rupert and Vancouver Yesterday

Yesterday afternoon aboard the launch Belmont, owned by the B. C. Telephone Co., tests were made in regard to the practicability of using raido telephones between Prince Ruert and Vancouver. Mayor Orme, G. P. Tinker, president of the Chamber of Commerce; Lieut. Col. J. W. Nicholls of the Cold Storage; Superintendent Massy of the city utilities, and Alderman H. F. Pullen were present and took part in the experiments.

Colonel Nicholls called up G. H. Halse, chairman of the board of directors of the telephone company, at the Vancouver Club and congratulated him on the success so fari attending the work. The conversation was interrupted by local disturbances but later very successful two-way conversations were carried on with the agent of the company on Lulu Island and the visitors were well satisfied that, with such a good beginning, it was only a matter of a short time before the system would be made workable here.

In the course of conversation, C. H. McLean, engineer in charge of the we k, told the Lulu Island man that the Prince Rupert ball team had wiled up the Vancouver Athletics, winning five games straight.

"Were the Vancouver team drunk?" inquired the man at the other end.

Not only were the conversations audible through the earphones but the voice could be plainly heard without the phones and without the aid of a loud speaker.

This morning the boat left for Progress on Hagwilget Bridge is Third New C. N. R. Steamer Coming Ketchikan where it is planned to make further experiments of a similar nature and, on the return of the vessel here, the work will be VANCOUVER, Sept. 9: - Word continued with a view to perfectwas received at the week-end by B. ing the system and enabling the Construction of the new suspen- C. ### FISTICUFFS THREATENED

Liberal Members at Ottawa Unable to Agree as to Seating Arrangements

OTTAWA, Sept. 9:-When members of the House of Commons were returning from the Senate yesterday, General Sir Eugene Fiset, Liberal member for Rimouski, apparently took exception to the seat which had been allocated to him by the chief Liberal whip, Pierre F. Casgrain.

An argument developed considerable heat in which fists were flourished before A. A. Heaps, Labor member for Winnipeg, intervened and the incident closed.

## Known by name

In Grandmother's Day: 'A dozen eggs, please ... are you sure they're fresh? . . Lite last weren't so good . . . and a half pound of cheese-world ... let me taste it please ... no, that's too sharp-let metry some of that one .. I guess that will do ... and some baco h ... not that-it's too fat ... have you some leaner? . . . well I think I'll try it" . . . and so on, ad infinitum.

Today: "One dozen Silver Seal Eggs, please; a half pound of Blank's Mile Cheese; a pound of So-and-so's Boneless Bacon; a package of Gold Medal Seedless Raisins; that will be all, thank you" ... and the shopping is finished!

Have you ever considered what advertised goods mean to you? How many actual shopping hours you save in a year just by knowing what you want before you go to buy?

And more than that-you know just what you're getting. You ask for things by brand name with confidence, for you're sure they'll be the same today as they were yesterday, or last month. Advertisers must maintain standard quality in their products; their advertisements must b your guarantee of reliability. They cannot afford to advertise poor or uneven merchandise.

Read the advertisements regularly. The time you spend in doing so will be regained many times over when it comes to buying. To say nothing of the satisfaction of having perfect confidence in what you purchase.
