Heavy Borrowings.

Every Port Except Prince Rupert.

A despatch from Ottawa to Vancouver says that Hon. C. C. Associated Board of

Trade for District.

Prince Rupert has a great deal in common with other parts of northern and central British Columbia. There is a community of interest which is worth cultivating. In the southern interior they found out that they could do more by uniting than by working as little individual communities. The same is true here. Let all the districts of this part of the country form small boards of to the above-mentioned lands, in the name trade and then let all unite and form an associated board that will look after the publicity for the whole district.

A good organizer is what is needed to line up the different points and show the need of concerted action. In unity there is in Queen Charlotte Islands Land District, strength.

City Council Unanimously Favor 102nd Being Started in Home City.

ALD. BARRIE BRINGS IN RESOLUTION TO THIS END

Before the council meeting adjourned last night, Ald. Barrie brought in a motion that the Minister of Militia be communicated th and that it be recommended to him that a unit of the 102nd Battalion be re-established in this city. He pointed out that the battalion had been largely rebeen called the Northern B. C. A CASE WHERE cruited in Prince Rupert and had Battalion. The motion was secended by Ald. McMeekin.

The mayor, gave some particulars regarding the original formation of the gallant battalion and felt that Prince Rupert was entitled more than any other place to hold the flags and colors of the regiment.

consisted of 80 per cent northern used B. C. men but after getting overseas had been reinforced by Ontario men with the result that an Any physician will tell Ontario city was now trying to get the re-established unit. Not Grippe. It is also a combination which only did Prince Rupert want the battalion but the feeling was general all over the province that cold may be thrown off, the reducing this city was entitled to it. Major cold, the alleviation of the clogged Matthews, of the Imperial Oil Co., muscles usually present and the general Vancouver, who had been an of- toning up of the system.

was a good move and Prince Ru- Fix has a record of relieving a cold pert had first claim to a re-established 102nd battalion.

The motion was carried unani. nously and the Minister of Militia will be communicated with.

"SPITE FENCES" EXIST IS SUGGESTION MADE

Discussion on Alderman Perry's Fence Amendment Takes Funny Turn.

On Ald. Perry bringing in an 3 amendment to the fence section in the city bylaws, Ald. McRae informed him that the Board of Works already had some new regulations in view, especially regarding garage construction. They were now obtaining advice from the underwriters and other cities on these questions and he suggested that the regulation of the fence bylaw be left to be dea. with along with these others. Alderman Perry said that he was quite willing to have it dealt with in this way.

There was considerable discussion on the matter, suggesting spite fences and neighborly disputes. Ald. Kirkpatrick asked why a person could build a house over six feet high if they could not build a fence any higher. Mayor McClymont replied that sometimes fences were built for other, reasons than use, but houses cost too much to be built for spite. Fences sufficient to keep people from looking into their neighbor's back yards would have to be perhaps fifteen or twenty feet high and very amusing looking structures.

At the Council Meeting Last Night.

At the council meeting last night a letter was read from Col. C. W. Peck, V. C., M. P., regarding the voting of returned men municipal elections. Col. Peck felt that all men who had served with the expeditionary forces in France, England or Canada should be entitled to vote and that their discharge certificates should be sufficient to get them on the lists.

The mayor said that this was a matter that was regulated by the legislature and the proper way to have it adjusted would be to take it up with the Union of B. Municipalities who could recommend amendment to the Provin. Scial Government.

CITY BONDS ARE NOT POPULAR INVESTMENT

Default of Saskatchewan City Hurt City Bonds Generally.

At last 'night's City Council meeting a letter was read from the Spitzer, Rorick Stock and Bond Co., of Toledo, Ohio, the firm that in the past has floated many of Prince Rupert's bond issues. The American company reported that the bond market was very quiet and that Canadian municipal bonds were selling very slowly at the present time and the default of Prince Albert on its bonds had done a lot to hurt the selling of all Canadian city bonds. lanadian federal bonds were offering at 6 per cent interest and provincial bonds 6 1/2 per cent se it could be seen that there would be difficulty handling city bonds at the same rate or less. Prince Rupert's new bonds will offer per cent. The company evinced interest in the bylaw elections and wished to know the result.

The mayor said that it was very desigable thing that the people should know through the medium of the press that it was no simple matter to sell municipal bonds just now. At the same time Prince Rupert did not intend to sacrifice its bonds although they were not just the most popular form of investment at the present time.

Gene Byrnes Says:—"Here's the Music-Write Your Own Words."

THE reason that Fire Insurance Companies insure your property so cheaply is because they have a great number of properties insured in a great many localities in many different cities. Thus their risks are subject to the law of averages. The individual who carries his own risk (in other words does not have his property insured) cannot possibly so diversify and scatter his risks as to bring the law of averages to apply to his property. Therefore the insurance companies can carry your risk cheaper than you can. H. G. HELGERSON, LTD., are writing insurance carefully and in thoroughly reputable companies. Phone 96 and we will be glad to quoté you the rate on your risk.

High Cost of Living

Low Cost of Insurance

Midst all the increasing cost of living there's one thing that hasn't advanced-that's the cost of Mutual Life of Canada Policies. In fact, a Mutual policy today requires no greater investment than a similar policy taken at a corresponding age

a dozen years ago.

And the fact that the dividends to policyholders in Canada's only Mutual Life Ins. Co. have shown a pany's inception makes the investment more attractive now than ever

The motion was adopted by the council.

"Happy" Ritchie had a rather exciting experience at the weekend when he was lost near Wolfe point. He lost his bearings and was out in the woods for nearly two days before a search party finally picked him up near Metlakatla last night. The contour of the land about Wolfe Point is very deceiving, so much so that there is a lake on the point called Lost Lake. It takes an excellent woods traveller to keep his sense of direction through that part of the country.
