# BENNETT WEATHERS FIRST DIVISION ONTARIO PROVINCIAL CABINET NOW BEING REORGANIZED

## Unemployment Fund Is Approved By Commons With Thirty Majority

Amendment By J. S. Woodsworth Calling For Eight-Hour Day and Fair Wage on Relief Work Rejected With Liberals Voting Against Conservatives

OTTAWA, Sept. 16:—The Bennett government emerged successfully yesterday from its first division, carrying by a margin of thirty votes the bill to provide a fund of \$20,000,000 for unemployment relief and, at the same time, rejecting an amendment sponsored by J. S. Woodsworth, Labor member for Winnipeg, the effect of which would have compelled the payment of fair wages and the observance of eight-hour day on construction programs in receipt of federal aid. The vote was: against the amendment, 109; for the amendment, 71. The bill was then given its third reading and passed.

## FUEL SUPPLY WAS DEPLETED

Harold Bromley Believes He Could Have Got as Far as Dutch Harbor

TOKIO, Sept. 16:—Harold Bromley, the aviator, who yesterday returned after an attempt to fly to Tacoma, state that he had sufficient fuel to have carried them to Dutch Harbor in Alaska but the supply, allowing for waste, would not have been sufficient to have taken them all the way.

## Would Offer Free Lots As Inducement For Industries To Come To Prince Rupert

Ald. Pullen, through notice of motion with Ald. Collart as his seconder, introduced a proposal at last night's meeting of the city council whereby the municipality would adopt a policy of granting free sites as long as they lasted to encourage the establishment of industries in Prince Rupert. Ald. Pullen's motion was as follows:

"That in view of the fact that the Northern B. C. Power Company will be in a position to supply an almost unlimited amount of power after the middle of October and, in view of the fact that the city has a number of lots which might be suitable for industrial sites,

"Be it resolved that this council puts itself on record as favoring the granting of free sites for industrial purposes so far as possible for new industries that do not compete with industries already established in the city."

In speaking to the motion, Ald. Pullen stated that he realized there was a good deal of reverted land that was not suitable for industries but he thought some was, including

## Indian Chief Will Try For Flying Record

Living up to his Indian name, Chief Flying Wolf, has announced he will attempt to bring outside loop flying record to his native Cheyenne tribe. Plane, which cost the tribe \$10,000, is capable of flying more than 200 miles an hour.

## STOP SIGNS AT CROSSING

Will Be Installed at Railway Track on Cow Bay Road, City Council Decides

A recommendation from the board of works that the city erect a stop sign on the Cow Bay road on the south side of the railway crossing and that the provincial government be requested to erect one on the north side of the tracks, was adopted by the city council last night.

Ald. Brown explained that it was a very dangerous spot here by reason of passing trains. Mayor Orme stated that it was quite common practice for automobiles to try to beat the yard engine in crossing at this point. In the interests of safety, he thought the stop signs should be placed at either side of the track.

## SCALING AWAY UP

Production of Poles, Piles, Etc. in This District Shows Sharp Decline

Despite depressed condition of the lumber market, log scaling in Prince Rupert forestry district for the month of August this year showed a large increase over last year in the same month. The log scale for this August totalled 27,332,486 board feet as compared with 10,238,394 board feet in August 1929. The scale per varieties this August and last was as follows:

	Aug. 1930	Aug. 1929
Fir	1,454,276	27,423
Red Cedar	4,303,649	983,518
Spruce	14,014,996	6,114,538
Hemlock	5,403,305	1,886,722
Balsam	2,154,148	1,209,061
Jack Pine	2,112	33,738
Birch		119

Totals ..... 27,332,486 10,238,394  
Production of poles, piles, etc. in the interior totalled 442,586 board feet which was far below that in August last year. Cords of shingle bolts and cordwood totalled 367 while hewn ties amounted to 87,628 pieces hardly a fraction of the same month last year.

## COMMITTED FOR TRIAL

On a charge of indecently assaulting an Indian girl, John Fauske was committed for trial by Magistrate McClymont in city police court yesterday afternoon.

## MILTON SILLS DEAD FROM HEART ATTACK

LOS ANGELES, Sept. 15 — Milton Sills, aged 48, famous film actor died from a heart attack while playing tennis with his wife and son last night. Sills was one of the most popular figures on the silver sheet and excelled equally in vigorous outdoor and dramatic roles. He was as successful in talking as in silent pictures.

## FLIGHT IS ABANDONED

Lieut. Bromley Will Make No Further Attempt to Span Pacific This Year

OMINATO, JAPAN, Sept. 16 —Lieut. Harold Bromley tonight announced that he had abandoned the attempt to fly the Pacific Ocean this year but he said that he hoped to obtain backing for a trans-Pacific effort next year.

Replacements to parts of his plane damaged by the landing on the beach near here Sunday night would require a month to make, Lieut. Bromley explained, and it would then be too late to attempt the flight this season. Bromley plans to store the plane in Yokohama during the winter and return to the United States.

## No Developments In Perjury Cases

Arrangements Not as Yet Made For Judge to Hear Cases Arising Out of Election

No further arrangements have been made as yet for the hearing of the four perjury cases arising out of the recent federal election here. With the four men involved committed for trial, they are each out on their own personal recognizance pending the making of arrangements for a judge to take the elections and hearings.

The County Court case of Pacific Salvage Co. vs. John Olsen has been further adjourned from today and may be heard next Monday.

## ON JURY SERVICE

## REVISION OF TARIFF

General Changes to Be Made at Next Session

OTTAWA, Sept. 16:—There will be general revision in the tariff at the next session of Parliament, Premier Bennett declared in the House of Commons this afternoon while moving the House into committee of ways and means for the purpose of considering tariff proposals which he subsequently introduced.

## DUMPING BILL GOES THROUGH

Amendment to Customs Act Approved Last Night By House of Commons

OTTAWA, Sept. 15:—A resolution to bring in a bill amending the Customs Act in respect to dumping of fruit and produce was carried in the House of Commons last night and the bill based upon it was given its first reading.

## STILL HELD BY WEATHER

CHARLOTTETOWN, Sept. 16:—Capt. Errol Boyd and Lieut. Harry Connor were still weatherbound here today in the course of their projected flight from Montreal to England.

## CHANGES IN DUTY

Butter Tariff Changed and Also Rates on Many Other Commodities

OTTAWA, Sept. 16:—Duties on butter under Premier Bennett's new tariff proposals, introduced in the House of Commons this afternoon, are placed at 8c per pound under British preference, 12c intermediate and 14c general.

The tariff changes announced by the Premier numbered about 130, a broad variety of items being covered. Iron and steel schedules, cottons, woollens, etc. are among the commodities affected. Many classes of farm machinery are also included.

The Prime Minister stated that his earlier estimate that 25,000 men and women would be aided in securing employment through the government's proposals he now considered too conservative and prophesied that the new tariff changes would result in increasing that number of jobs.

## BODY FOUND IN FAR NORTH

Tom Kinney, Prospector, Ate Berries and Porcupines Until He Died From Exposure

FAIRBANKS, Alaska, Sept. 16:—The body of Tom Kinney, prospector, who has been missing since July, was found yesterday on the bank of the McKinley River. Evidence indicated that he lived on berries and porcupines until helpless from exposure.

## VANCOUVER WHEAT

VANCOUVER, Sept. 16:—Wheat was quoted on the local Exchange today at 76 7-8c.

## CAPTAIN HAAS IS HIGH SEINER IN SKIDEGATE INLET

SKIDEGATE, Sept. 16:—Among the local seiners, the Beatrice H., Capt. C. B. Haas, is high boat. The members of the crew shared \$1800 each for six weeks' seining. Quite a few local seiners are now out looking for chums but, to date, very few have shown up.

DAILY EDITION Tuesday, Sept. 16, 1930

**LET US REFORM THE WORLD**

Thousands and possibly millions of good people have been seized with the idea that they had a mission to reform the world but only a dozen or so made any permanent mark on it. Most of them never reformed anything except themselves. As they grew older they discovered that the foundations of the customs, habits, religions and thoughts of the world lay deeper and on more solid ground than they had thought. Even Christianity was to some extent grafted on the religions that went before so that today we have "Sunday," the day set apart for the worship of the sun.

This sun worship is again gaining strength. Many people on Sunday leave everything and go out to the open fields, the sea beaches, the parks, the various places where they can enjoy the sun unhampered by the walls of buildings or the machinations of men. The forces of nature triumph over the petty efforts of those who would oppose them. From the sun they get health and strength, are cured from diseases that afflict and are adorned by it with an artistic paint.

The genius is a man who creates new ideas. A practical man is one who evolves the idea that somebody else has created.

**RUPERT'S INFERIORITY COMPLEX**

There is a prevalent idea in some quarters that Prince Rupert cannot compete with other parts of the world; that Prince Rupert people are not as clever as those in other places and that everything foreign is better than that produced right here. This is a totally wrong idea. Prince Rupert can hold her own anywhere in the world. To quote an instance:

Recently the Daily News sent out a circular letter in connection with its business. One of these went to a man in New York who on receiving it wrote at once: "The story which you have presented anent the Daily News and Prince Rupert in text, in typography, press work and the stock upon which it is printed is splendid and tells in a gripping way facts of interest."

The letter was written locally, printed locally and dealt with local affairs, yet it gets the unstinted commendation of a man of affairs who is closely connected with newspapers in New York City. Surely that should be sufficient to indicate that Prince Rupert workmen in Prince Rupert shops can compete in quality and excellence of workmanship with anyone in the world.

Many of our best intentions were written in invisible ink and never developed so that the world never knew that we had them.

Pistol experts of R.C.M.P., who compete in national rifle and pistol matches at Camp Perry, Ohio. Left to right—Foreland, O'Connell, Ford, Mowat and Dolley.

**SIDEWALK HIT SNAG**

Further Delay For Third Avenue Project Obviated as Result of Conference

A petition presented to the city council last night by Arthur Brooksbank seriously threatened to delay the building of a new sidewalk on the south side of Third Avenue to the east of the present sidewalk, but everything was smoothed out at a conference held later in the evening. Since the passage of the local improvement bylaw providing for the construction of an asphaltic sidewalk on the street in question Mr. Brooksbank had decided that, in view of certain use to which he plans putting the space under the sidewalk, a cement sidewalk with retaining wall would suit his purpose better than the asphaltic sidewalk. Accordingly, he applied last night to the council for permission to withdraw his name from the bylaw providing for the asphaltic sidewalk and, instead, build himself a cement sidewalk subject to city requirements. Other property owners concerned consented to the proposal of Mr. Brooksbank.

Mayor Orme pointed out that, to comply with Mr. Brooksbank's wishes, would necessitate the rescinding of the old bylaw and the introduction and passage of a new one all of which would take some six weeks' time. It was very unfortunate, His Worship thought, that the work should be held up. He was inclined to believe, however, that the asphaltic sidewalk would lend itself to Mr. Brooksbank's purpose just as readily as the cement. Further, he pointed out that the petition in support of Mr. Brooksbank's request to withdraw from the asphaltic sidewalk bylaw was not sufficiently signed.

Ald. Rudderham stated that as a general rule he was in favor of giving the people what they wanted in such cases as this but, in the present instance, he was not in favor of granting the request. What guarantee was there, if Mr. Brooksbank's request were met, that the new bylaw providing for the work would go through? He was not in favor of rescinding the asphaltic sidewalk bylaw but, instead, would go right ahead with the work as now provided for. As a matter of fact, Mr. Brooksbank's requirements could be met with the asphaltic sidewalk. Ald. Collart saw no good reason why all the rest of the people concerned should forego their sidewalk for the sake of Mr. Brooksbank.

In answer to a question by Ald. Rudderham, City Engineer F. N. Good expressed the opinion that an asphaltic sidewalk would not interfere with Mr. Brooksbank's plans. It was moved by Ald. Rudderham and Ald. Black that the Brooksbank petition be not entertained. Ald. Linzey and Ald. Brown moved an amendment that the city engineer confer with Mr. Brooksbank with a view to arriving at some arrangement.

Ald. Pullen explained how he had come to sign Mr. Brooksbank's petition. He had done so believing that the rest of the work would not be endangered by meeting with Mr. Brooksbank's wishes. He certainly would hate to see the other work held up.

It was suggested that Mr. Brooksbank be called to the meeting to talk the matter over with the council but it turned out that he was not available.

Ald. Black was in favor of getting the work done and, furthermore, he thought it would be better to have it uniform—not a patch of concrete here and a patch of asphalt there.

On a vote of four to three, the amendment was passed after some further discussion. It is felt that Mr. Brooksbank will fall in line and accept the asphaltic sidewalk since, if he fails to do so, resultant formalities will prevent the work from being proceeded with this year and

**Perfect dyeing so easily done!**

**DIAMOND DYES** contain the highest quality anilines money can buy! That's why they give such true, bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold through wear and washing. Diamond Dyes never give things that re-dyed look. They are just 15¢ at all dealers. When perfect dyeing costs no more—is so easy—why experiment with makeshifts?

**INSPECTION OF BRIGADE**

Prince Rupert Included In C. N. R. For Efficiency Tests

WINNIPEG, Sept. 16.—Final tests of efficiency of fire prevention methods at the Canadian National shops in the Winnipeg district were made yesterday when V. Newman, assistant supervisor of fire prevention inspected the Transcona shops brigade in a speed competition. The Fort Rouge team was inspected a few days ago when a similar competition was arranged.

The time made by the brigades in the test of unreeing and coupling up a line of hose one hundred yards from the fire hydrant and bringing water to play on a given point is reserved until the competition of tests at other points in the region by Mr. Newman. Fire brigades at both Transcona and Fort Rouge are composed of volunteers from all sections of the shops. The Transcona team was organized and trained by W. Tuller, and the Fort Rouge team by A. Campbell.

Other points where inspection will be made by Mr. Newman this month are Edmonton, Dauphin, Kamloops, Neehing, Prince Rupert, Port Mann shops at Vancouver, Sioux Lookout, Port Arthur, Edison and Nutana shops at Saskatoon.

The city council, at its sitting last night, finally reconsidered and adopted local improvement bylaws providing for the construction of a new sewer on the lane between First and Second Avenues from Eighth to Ninth Streets and an asphaltic sidewalk on the north side of Second Avenue from Sixth to Seventh Streets.

**Astonishing Guns Shoot Food to Eat**

**Wheat and rice grains given their most nutritious form**

HERE are wheat and rice grains shot from guns! To give them a new deliciousness... a more perfect digestibility.

First the choice, plump grains are sealed in guns. Then revolved in fiery ovens. Then fired. This causes 125 million explosions in every grain. It blasts open every tiny food cell. Thus every particle of the grain is made as completely digestible as though it had been cooked for hours. And so Puffed Wheat and Puffed Rice attain the virtual nourishment of hot cooked cereals.

And what new flavoriness... what delicious, crisp crunchiness... this wonderful invention brings to wheat and rice. The grains are puffed to 8 times normal size. They taste like sweet new nutmeats. They entice as grain foods never have before.

Serve Puffed Wheat and Puffed Rice every day in every way you can. Your family deserves this finer kind of nourishment. Your grocer has Puffed Wheat and Puffed Rice. The Quaker Oats Company.

## LOOKING FORWARD

Savings in Money and Service Offered Those Who Would Buy Coal Now

Successful men in all spheres of life credit their success to the fact that they looked forward to the future. Astor looked ahead to real estate values in New York; Rockefeller to the great development of oil. The same has applied to all successful men in the world—either in greater or smaller degrees. All have believed in looking ahead and providing for the future in all things.

Housekeepers know the value of looking ahead and securing their grocery supplies at lower prices. It is also well to arrange ahead for the winter's fuel supply. At this time of year, by placing your order with your coal dealer, you can receive from him better service and, in all probability, better fuel than he would be able to give you two months hence when everybody is buying coal and when it is rainy and snowy.

Sixteen years' experience in the coal business has put us in a position to take care of all your fuel wants. We especially recommend Nanaimo-Wellington No. 1 Hard coal of which we have received on our wharf during the past week two thousand tons. Remember that we quote special cash prices for lots of five tons or more.—ALBERT & McCAFFERY, LTD. (Advt. 216)

E. J. Smith returned to the city on the Catala today after making the round trip to Anyox and Stewart on business.

T. J. Shenton, inspector of mines returned to the city on the Catala this afternoon from a brief trip to Stewart on official duties.

Mrs. Mary Hayden, after a brief visit in the city, sailed on the ss. Prince William last night for Selwyn Inlet where her husband, Al Hayden, is engaged in logging.

J. P. Hawkinson, Stewart restaurant and laundry proprietor, arrived in the city on the Catala today, being called here for jury service at the Supreme Court Assizes this week.

Mr. and Mrs. A. J. Collison, who have been spending a 10-day holiday visiting at Kincolth and elsewhere around the mouth of the Naas River, returned to the city from the north on the Catala this afternoon.

# BROOKLYN'S SAFE LEAD

Robins Increase Margin Over St. Louis For National League Lead to Full Game

BROOKLYN, Sept. 12.—Brooklyn Robins widened the gap separating them from St. Louis Cardinals and Chicago Cubs in the hectic National League race by defeating Cincinnati Reds yesterday while the Cubs were breaking even in a double-header with Philadelphia and the Cardinals were idle. The Robins are now a full game ahead of the Cards and lead the Cubs by a game and a half.

In the American League, Washington Senators tightened their hold on second place by winning a heavy hitting battle from the Chicago White Sox.

Yesterday's scores:

National League  
Chicago 11-6, Philadelphia 12-4.  
Cincinnati 5, Brooklyn 13.  
Pittsburg 1, New York 6.

American League  
Washington 14, Chicago 9.  
Boston 1-2, St. Louis 3-1.  
New York 5, Detroit 3.

Snooker golf is name of this latest variation of the miniature golf epidemic which is played with a refreshing golf-pool combination. The balls are vari-colored and count different points.

# FOURTH IN SHOOTING

Fine Showing Made By William Brass of Prince Rupert at Montreal Meet

After an elimination contest which brought to the Lachine Ranges 30 men employed by the Canadian National Railways, 15 who qualified in the indoor series and 15 in the outdoor, and 30 men from the Canadian Pacific Railways, 20 riflemen were chosen to form the Canadian railway team in the recent railway international shoot, conducted under international association rules, scores being telegraphed and targets forwarded for comparison later with scores of British and United States railways.

Shooting was extremely difficult owing to a heavy mirage which affected sighting throughout the contest. However, Canada's railway marksmen made an aggregate score of 7615 points for the 20-man team of which four were Canadian Pacific Railway men and 16 Canadian National, in competition for the trophy emblematic of the international championship.

The highest individual score was that turned in by G. Emslie, of Canadian National Railways, Toronto, crack Bisley marksman, who made 392 out of a possible 400. Second highest was that of E. Leamon also a Bisley man, of Canadian National, K. Gray, Montreal, Canadian Pacific Railway employee, with a score of 383 and fourth, W. Brass, Prince Rupert, Canadian National Railways, 386.

Four Bisley men were members of the international team.

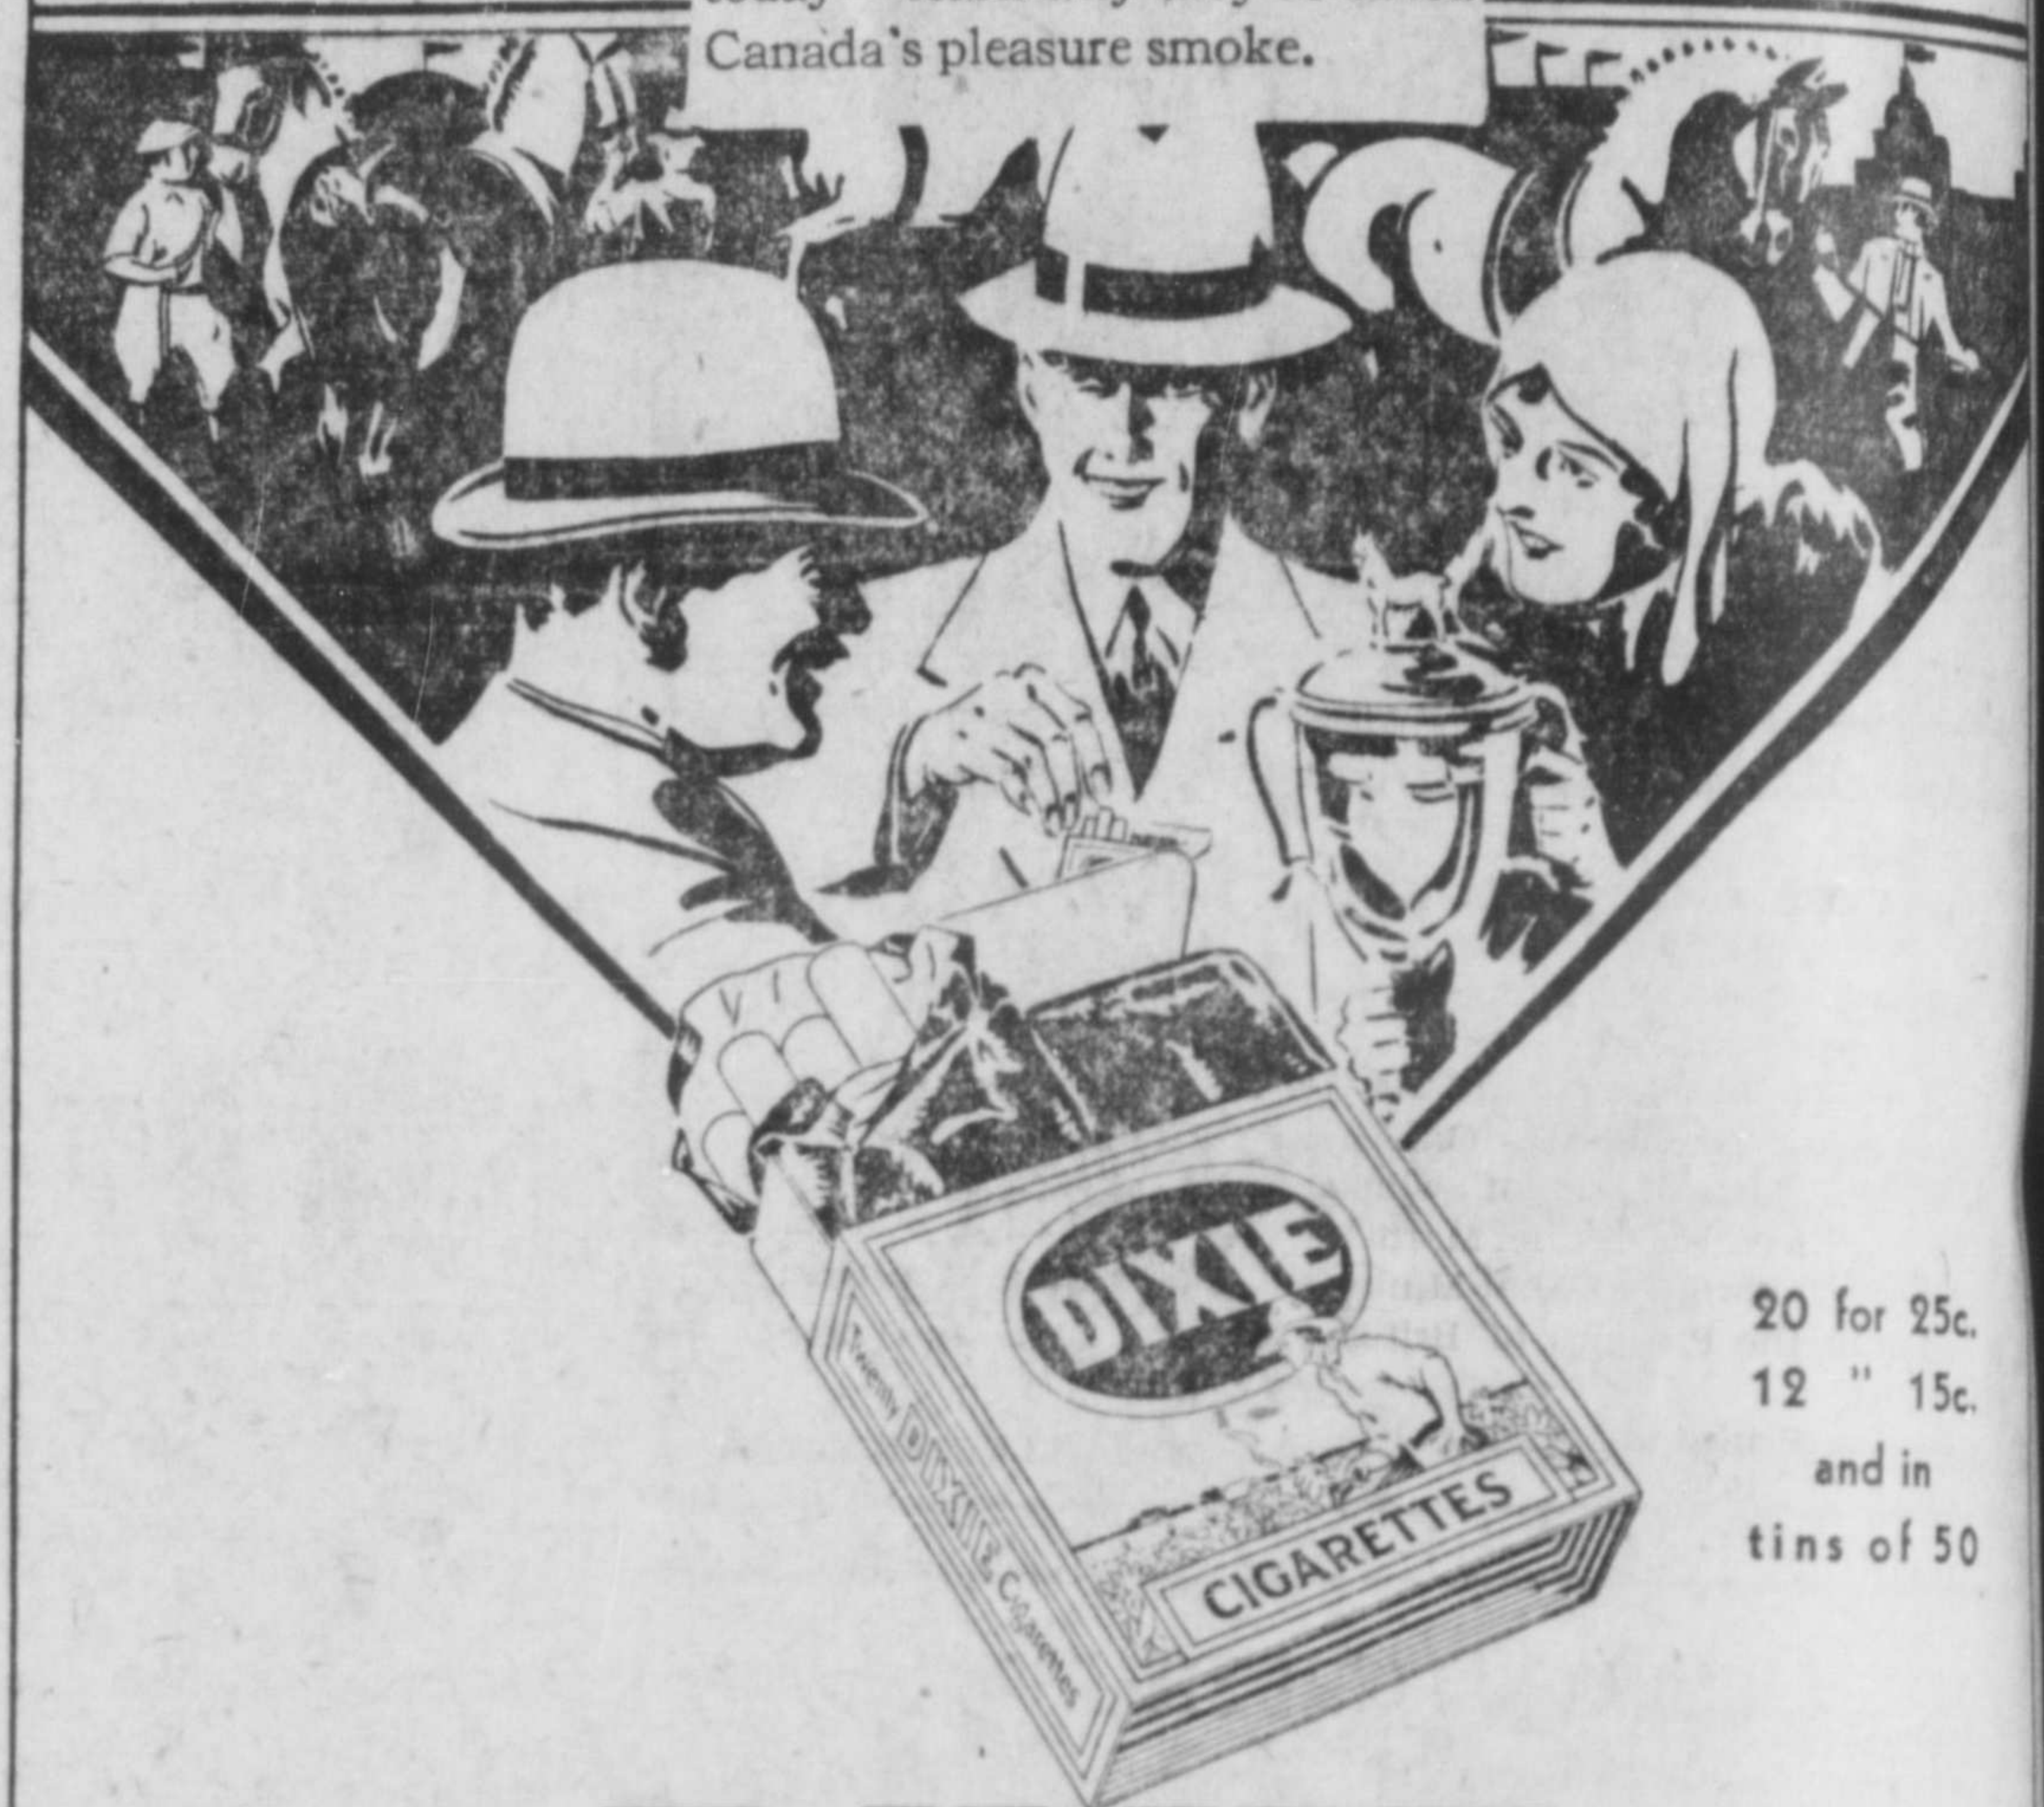

Officers of the shoot were Col. Harrison, range officer; Col. Fellows, referee; Lieut. Boa, judge, and the arrangements were in the hands of Col. F. F. Clarke, chairman of small bore rifle shooting, Canadian National Railways, with T. E. Jackson and T. E. Young. A dinner, which was attended by several officers of both railways, was tendered in the Lachine clubhouse of the C.N.R.A. on Saturday evening.

The rifles used in the competitions were 22 long, not exceeding 30 inches, any make, equipped with metallic peep sights. Telescopic sights were not permitted nor was trigger pull of less than three pounds. Sling straps were permitted. Twenty shots were fired at 50 and 20 at 100 yards.

Each of the four of America's Cup defender candidate yachts, Enterprise, Westamoee, Yankee and the Whirlwind, cost in the neighborhood of \$200,000 to build.

# THIRD AMERICA CUP RACE IS POSTPONED

NEWPORT RHODE ISLAND Sept. 16—The third race in the America Cup series between the American defender Enterprise and the British challenger Shamrock V. was postponed today on account of pea soup fog and lack of wind. Meanwhile preparations are going ahead to improve the Shamrock and it was announced overnight that two thousand pounds of lead ballast removed prior to Monday's race has been restored.

Evidence was heard by Magistrate McClymont in city police court this morning in the case of Carl Wohlin, charged with keeping liquor for sale, and the hearing was adjourned until tomorrow morning.

# BADMINTON ORGANIZED

Club Formed By Moose Lodge and Play to Start at Once

A badminton club was formed last night by members of the Moose Lodge. The membership will be confined to Moose members and their families. The following officers were elected: President, Walter Howarth. Secretary-Treasurer, P. Cameron. Executive Committee—Nellie Lawrence, Thora Peterson and Peter Peterson. A set of bylaws were drawn up and play will be under way immediately.

# SPORT CHAT

The game and fisheries department of the Province of Ontario under Hon. Charles McCrea has plans for raising wild ducks in northern Ontario. Certain areas will be set apart where wild rice, celery and the seed of other aquatic plants will be sown for the benefit of the ducks who like this kind of fare. It is estimated that there are in the north 5,000,000 acres of water capable of sustaining growth of vegetation for duck food and it has been found that an acre with the necessary food will sustain one bird. The department for years has been planting seeds and plants in northern Ontario and wherever this has been done a phenomenal increase in the number of ducks there has occurred. At Sioux Lookout a crop is now about ripe for harvesting.

The Earl of Harewood, husband of Princess Mary, had a few words to offer to motorists concerning the manner in which some of them spoil sport in the hunting field. The Earl of Harewood is Master of the Braham Moor Hunt, Yorkshire. People who followed the hunt in motors sometimes followed them too closely, declared the Earl. They sometimes got in front of the fox, which was perhaps one of the reasons why last season could not be called a good one. The foxes were not given a fair chance of making their point, thereby spoiling the sport of those following the hounds. Cars were often sent out after the hunt on the chance that the owner might wish to return home in the middle of the day. For eight years he had invariably gone home from hunting in a car, and he had never had to ride more than five miles to reach it.

George F. Harris, manager of the B.C. Packers cannery at Mill Bay, is a passenger aboard the Catala this afternoon bound for Vancouver. Mill Bay cannery is now closed for the season.

# BATting AVERAGES

How Prince Rupert Stacked Up Against Vancouver In Recent Series—Cross Leads at Bat

In the recent Vancouver-Prince Rupert baseball series, Vancouver made a team batting average of .262 while Prince Rupert's average was .179. High batters for the series were: Cross, Vancouver, .500; Cole, Vancouver, .412; and Loblick, Prince Rupert, .364.

Following were the averages:

Team Averages

# BADMINTON IS RESUMED

The Badminton Club of Rupert East United Church resumed play for the winter last night and a successful season is looked forward to by this club. Mrs. M. M. Lamb was elected president and Ian Motte, secretary-treasurer.

# Dress Rehearsal 'Queen of Hearts' Set For Tonight

Plenty of Fun in Musical Comedy Under Elks Begins Tomorrow

A dress rehearsal will be held tonight at the Moose Hall for the Elks' show "Queen of Hearts," which will be presented Wednesday, Thursday and Friday. The special scenery was hung this afternoon, costumes have been given out and C. J. McNaughton, professional director, stated today that everything was in readiness for the show.

It is seldom that such a pretentious production as "Queen of Hearts" is staged in Prince Rupert, and it is expected that everyone will take advantage of the opportunity of seeing a legitimate show again. The reserved seat sale is open at the Orme Drug Ltd., and there are plenty of good seats for any night. While all seats in the hall are reserved, there is no extra charge for reservations. The Elks also once again wish to call attention of theatre patrons to the fact that the post has been removed from the centre of the hall, and that lights have been set above fire exits. If you like a good whole-hearted laugh, don't fail to see "Queen of Hearts."

# LOCAL ITEMS

Mrs. H. Nations, who has been visiting for a few days at Alice Straight (V), returned to the city on the Catala this afternoon from the north.

J. O. Bouillianne, superintendent of Power Corporation of Canada's transmission line construction, left on today's train for a brief trip to Falls River.

H. E. DeWolf, local manager for the W. H. Malkin Co., returned to the city on the Catala this afternoon from a brief trip to Anyox and Alice Arm on company business.

It is understood that Mr. Justice D. A. McDonald will be the presiding judge at the fall session of the Supreme Court Assizes opening here tomorrow.

# NORTHERN B. C. NEWS

## STEWART

The new village council here has set a licence of \$100 every six months for transient traders or peddlars doing business in Stewart.

C. H. Sundmacher, who practised as an attorney in Hyder some ten years ago, has returned there and again put out his shingle. Since leaving this district, he travelled extensively through United States and Alaska.

Packing for the Crawford Transfer Co., Sam Kirkpatrick made a new record for the trip into Bowser Lake with a string of horses. The trip one way was made in three days instead of the customary four and the round trip required less than a week including a full day's stop at the lake.

Mrs. William Watson has returned to Stewart after spending the summer in Edmonton and Victoria. Her daughter, Miss Violet Watson, is remaining in Victoria to take up a business course.

H. G. Wilcox left last week for a trip to Prince Rupert.

The local fire chief has a few pupils training under W. Matheson to start and stop the pump engine on Fifth Avenue.

Leonard F. Fisher, son of Mr. and Mrs. F. Fisher, left last week for the south to resume his studies. Mr. Fisher sr. is superintendent of the Premier tram.

Archie Paton, accountant of the local branch of the Northern B. C. Power Co., has been spending a few days in Prince Rupert on company business.

## BURNS LAKE

In order to provide a 24-hour service for electric light users in Burns Lake, A. M. Ruddy has purchased two new diesel engines of the latest make. With the addition of the new engines, it will be possible to give service to all business places and private residences in the town. Power lines will be extended to parts of the village other than those already served.

The Burns Lake and District Board of Trade is urging the Canadian National Railways to let the same quantity of settlers' contracts this winter as previous.

Forest fire, sweeping the vicinity of Savory last Monday, destroyed the home and contents of Mr. and Mrs. Phil McGettigan. Considerable commercial timber also went up in flames.

Maynard Nourse was chosen junior fire warden here in connection with lectures conducted last week by T. G. Martin of the Canadian Forestry Association.

# FRENCH FLYERS GOODWILL TOUR

Coste and Bellonte Given Big Reception at Boston

BOSTON, Sept. 12.—Aviator Dieudonne Coste and Bellonte arrived yesterday in the course of their goodwill tour of the United States and were given a wonderful welcome. They also stopped at Hartford, Conn., and there too, thousands of people turned out to greet the French flyers.

# Do you Look for a "Bite" in Whisky?

Many cheap and inferior whiskies are noted for their "kick" or "bite." A "bite" is the result of adding raw spirit to the blend. Actually a whisky with "bite" is usually much less mature than a whisky with none. One reason for the world reputation of "White Horse" Whisky is its complete lack of "bite." The rich, creamy body is acquired after many years in the wood. When deep in its maturity and properly "married" White Horse is bottled—ready for the world's approval. A more mellow, generous and delightful spirit than White Horse is not obtainable.

## News of the Mines

AROUND PRINCE RUPERT

Woodbine Is Busy Now—Silver Crest Holdings On Portland Canal Attract Capital—Dockrill to Operate Telkwa Coal Mine

Much activity is now in evidence at the Woodbine mine in the Portland Canal district, work having been commenced last week on the winze off the main level to develop the ore body found in the course of diamond drilling operations early this year. This ore body is forty feet vertically below this level and carries good values. The winze is being put down at about a 70 degree angle and should cut the ore body at between forty and fifty feet. Ten men are at present employed and everything has been put in shape for continuous development this winter. According to reports, the Eastern interests who are now behind the Woodbine are sending an engineer to Stewart to take charge of the property and shipments of machinery and supplies from the south are also being made.

A special general meeting of the shareholders of the Silver Crest Mines Ltd. is called for September 16 in Vancouver for the purpose of considering an offer by Tacoma parties to expend the sum of \$100,000 in development work on the company's 13 crown-granted mineral claims situated in the Salmon River section of the Portland Canal district contiguous to the Big Misouri mine. The parties making the offer propose to spend \$100,000 on development and equipment, prior to December 31, 1932, with the privilege of withdrawing at any time. On completion of the work mentioned, Silver Crest Mines Ltd. would receive 47% stock interest in a new parent company to which title to the property would be conveyed, controlling interest going to the people proposing to make the \$100,000 advance. Any further monies to put the property on an earn-

in basis would then be raised by bond issue.

Some very spectacular ore was brought down to Stewart recently from the Kenneth group, the samples being impregnated with native silver and gray copper. One of the specimens had a silver nugget weighing about two ounces.

The plane City of Prince George returned to Prince George at the first of this week to make a trip to Thutade Lake where a Prince George syndicate is conducting development work on a copper property. The plane is also cleaning up such business as accumulated while it was absent recently on a flight to Vancouver and north to Adlin to rescue Capt. E. J. A. Burke.

The first annual general meeting of the American Creek Mining Co. was held in Stewart recently and resulted in the re-election of all members of the old board of directors as follows: president, O. F. Hill; vice-president, P. S. Jack; secretary, R. W. Kennedy; directors, W. C. Arnold and A. Pasco. Extensive surface prospecting is now in progress on the company properties on American Creek with very satisfactory results. Work is under the direction of Joe Morin. D. E. Morkill B.C.L.S. has been engaged recently on additional survey work preparatory to securing crown grants.

George C. Mackenzie, secretary of the Canadian Institute of Mining and Metallurgy, and C. S. Parsons of the division of ore dressing and metallurgy of the Department of Mines at Ottawa, are visiting the Portland Canal district this week in the course of a visit to various western mining areas following the recent convention of the Institute of Mining and Metallurgy in Northern Manitoba. Mr. Mackenzie and Mr. Parsons went north on the steamer Catala on Sunday evening of this week and are expected here again on the steamer Prince George Thursday evening southbound. Last week, L. L. Bolton, assistant deputy minister of mines at Ottawa, was a visitor to Anyox and Stewart, having been accompanied by Dr. Howard T. James of the engineering staff of the Granby Co. at Anyox.

Arrangements have been made by F. M. Dockrill for immediate development and marketing of coal from the Telkwa field following a reported breakdown of negotiations for continued operation of the Telkwa Collieries this winter. Mr. Dockrill a few days ago started eight men to work to get things in readiness at the property. Early work will include some repairs to existing roads and the construction of extensions for hauling. In this enterprise, the new operator will work under an arrangement with the B. C. Land and Coal Co. on their holdings adjoining the property from which coal has been mined during the past few years. The first tunnel will be on a low level on the well known Betty seam from which coal has been mined in the past. The convenience of this showing is such that Mr. Dockrill expects to have the product on the market by the end of the present month.

## THIS MESSAGE IS FOR MILLIONS

ALL-BRAN Is Health News to Them

Millions know that headaches, general depression and other ailments are caused by constipation. They know that cathartics, pills and patent medicines will not effect permanent relief. They will be keenly interested in the natural, effective remedy for constipation that experience has revealed to other millions.

Kellogg's ALL-BRAN is eaten everywhere today for the relief and prevention of constipation. This delicious cereal adds roughage to the diet that is absolute assurance against this dreaded disease. Kellogg's ALL-BRAN is guaranteed to relieve both temporary and recurring constipation.

Kellogg's ALL-BRAN is the original ALL-BRAN. It not only prevents constipation, but contains abundant iron that enriches the blood and brings the radiant glow of health to the complexion. With milk or fruit juices, it also brings important vitamins.

Eating Kellogg's ALL-BRAN daily is one of the most healthful habits in the world. It is especially essential in reducing diets or cases of recurring constipation.

Your grocer has Kellogg's ALL-BRAN in the red-and-green package. Served everywhere. Made by Kellogg in London, Ontario.

## PLANE WAS FORCED IN

Alaska-Washington Machine, With Passengers On Board, Had to Stay Here Last Night

Forced in here on account of the sudden rough weather, Alaska-Washington Airways seaplane Wrangell, flying from Seattle to Juneau with a party of six passengers on board besides the pilot, A. Eckman, alighted shortly after 2 o'clock yesterday afternoon and tied up for the night at the floats of the Prince Rupert Rowing & Yacht Club. After low clouds had lifted, the plane took off this morning in continuation of its flight north. It was the second delay the plane had had on the flight, having had to tie up the night previous about 100 miles south of here because of fog.

The party on board the plane, besides the pilot, consisted of Mr. and Mrs. J. Carlson of Juneau; L. W. Wiley, D. G. Bennett and G. Rieke of Seattle, and A. M. Fraser of Tacoma.

## HINTS FOR GARDENERS

GENERAL WORK

This should be a very busy month in the garden. Early blooming perennials are now starting their new growth, and it is at this time that we introduce new varieties and cut up and re-plant the older ones. Iris and peony roots are bought now. Where one is starting a perennial bed, it is very important to have the soil well prepared and thoroughly enriched before the flowers are put in, as cultivation and fertilizer are always more difficult after the bed gets established. Those flowers such as Chinese Lanterns and Straw Flowers which are used to provide winter bouquets will need attention. Select well-developed buds that are just beginning to open, cue with long stems, and hang upside down in some dark warm place to dry.

Now that the hot weather of summer is about over, it is safe to plant grass seed again. Bare spots in the lawn may be seeded as well as new lawns started. Stir up the soil well—it may be necessary to dig it with a spade—rake level, then press the seed in firmly with a roller or pounder. It is not worth while to sow Dutch clover at this time it might kill out during the winter. Get the other seed in now.

and next spring secure a few pounds of White Dutch and sprinkle over the lawn when the ground is soft in April. One can broadcast the seed over a late snowfall, and as the snow melts the seed will work down into the soil and the new plants will be showing well above the ground in June. Use plenty of seed in sowing, and if the weather turns dry it will pay to water well with a fine nozzle.

## FIRE DEPARTMENT REPORT FOR MONTH OF AUGUST

The report of the chief of the fire department, D. H. McDonald, for the month of August, read at last night's meeting of the city council, showed that there had been six calls during the month with loss of \$25 covered by insurance. The usual inspections had been made of equipment and public building which had been found to be in good order. Expenditure of the department for the month totalled \$1842.90 including \$127 in salaries.

## To Charge Gov't Interest on Old Standing Account

A letter from Hon. N. S. Lougheed, minister of public works, read at last night's meeting of the city council, expressed regret at delay in issuing to the city a check covering the cost of a cement sidewalk which was built around the old Court House block two years ago. The minister explained that, while the account had been certified for payment by the department, issuance of the check had been held up through a technicality. The city might rest assured, however, that the account would not be overlooked.

At the suggestion of Mayor Orme, it was decided, on motion of Ald. Collart, seconded by Ald. Black, to send a new bill to the department including interest on the long standing account. It was felt that this would be but fair as the city had had to pay the interest.

## Known by name

In Grandmother's Day: "A dozen eggs, please, are you sure they're fresh? ... the last weren't so good ... and a half pound of cheese—mild ... let me taste it please ... no, that's too sharp—let me try some of that one ... I guess that will do ... and some bacon ... not that—it's too fat ... have you some leaner? ... well I think I'll try it" ... and so on, ad infinitum.

Today: "One dozen Silver Seal Eggs, please; a half pound of Blank's Mild Cheese; a pound of So-and-so's Boneless Bacon; a package of Gold Medal Seedless Raisins; that will be all, thank you" ... and the shopping is finished!

Have you ever considered what advertised goods mean to you? How many actual shopping hours you save in a year just by knowing what you want before you go to buy?

And more than that—you know just what you're getting. You ask for things by brand name with confidence, for you're sure they'll be the same today as they were yesterday, or last month. Advertisers must maintain standard quality in their products; their advertisements must be your guarantee of reliability. They cannot afford to advertise poor or uneven merchandise.

Read the advertisements regularly. The time you spend in doing so will be regained many times over when it comes to buying. To say nothing of the satisfaction of having perfect confidence in what you purchase.
