INSPECTOR IS HEARD

T. W. Hall Addresses Prince Rupert Teachers' Association

The regular monthly meeting of the Prince Rupert Teachers' Association was held in Borden Street School on Tuesday evening with the president, J. S. Wilson, in the chair and a full attendance of members. Records show that the association is experiencing a very successful year.

The speaker of the evening was T. W. Hall, recently appointed to this inspectorate, to whom, on behalf of the association, the chairman extended a very sincere greeting.

In an address that was always interesting, sometimes of a reminiscent nature and with a fine inspirational tone, Mr. Hall covered many phases of his experiences as inspector in the Cariboo, Chilcotin and Peace River districts. The old Cariboo Trail, the province's first and vital roadway, was well portrayed, its historic associations and its ever present scenic attraction, the precipices closely skirted by the trail were vividly, if briefly, described. The nearness of the Rocky Mountains with their message of hope and the assurance of their permanence was certain to be of rare spiritual encouragement to those who see them daily and a solace to offset trying discouragements.

The Peace River Block, which had but 23 schools three years ago and now has 70 schools, a population that has increased to 13,000 people and an average yield of 35 bushels of wheat to the acre compared with an all-Canada average of 15, is assuredly one of rare promise. Its newly arrived population consists almost entirely of experienced settlers of the finest type.

The speaker was emphatic that mere size was of little value to a country. Its greatness depended on the spiritual values of its people. The future of Canada depended on the ideals of its inhabitants. That the prestige of Canada stands very high in Europe and particularly in France was effectively illustrated by a reference to a personal experience he had when he visited an estaminet in the war zone where he had been billeted during the war. The sacrifice made by the 55,000 Canadians who fell in the World War demanded the highest standard of living from those who reap the benefits of their unselfishness. We must remind ourselves of this lest through lapse of time we become careless and unworthy of our heritage, declared the speaker.

His experience of the faithful service, the every day practical high levels maintained by the teachers of the province confirmed his faith in the present generation and gave an assurance that Canada was not only a large country but, what was infinitely more vital, a great country.

A very hearty vote of thanks was accorded Mr. Hall for his very human, helpful and inspiring address.

PIONEER OF PR. ALBERT

Late Judge James McKay of Regina Long Prominent in Province of Saskatchewan

Judge James McKay of Regina, whose death in the Toronto General Hospital was reported yesterday, was for many years a prominent citizen of Prince Albert, Sask., where he was senior member of the legal firm of McKay, Adam, Beattie & Fear. During the course of his residence in Prince Albert he was president of the Victoria Hospital there, chancellor of the synod of the Diocese of Saskatchewan, Anglican Church, governor of the University of Saskatchewan, president of the Boy Scouts council for the Prince Albert district and bencher of the Law Society of Saskatchewan.

Born at Fort Ellice, Man., July 12, 1862, he was the son of William McKay, factor of the Hudson Bay Co. there.

The late Judge McKay was educated at St. John's College and Manitoba University and studied law with Bain, Blanchard & Mulock in Winnipeg. He was called to the bar of Manitoba in 1888 and practised in Winnipeg for a short time as a member of the firm of Kennedy, Blanchard & McKay.

In 1887 Judge McKay moved to Prince Albert from Winnipeg and formed the partnership of Brewster & McKay. Subsequently he practised alone for some time and still later formed the firm of McKay, Adam, Beattie & Fear. He was appointed Queen's Counsel in 1894 and was prosecutor for Saskatchewan from 1888 to 1897. He was a member of the Prince Albert city council for several years and was an unsuccessful candidate for the House of Commons in 1896 when he was defeated by Sir Wilfrid Laurier. He was unsuccessful again in 1908 but was elected as member for Prince Albert in the reciprocity election of 1911. A few years ago he received his appointment to the bench.

Christmas Dinners and Hampers Will Be Provided For All Needy By Salvation Army Is Announced

The word Christmas to some brings a thrill of joy and expectancy, but, to others less fortunate it brings a heavy heart, sorrowful countenance and dark days because through unfortunate circumstances they are not able to partake in the festivities of Christmas.

But the Salvation Army is in a position to act on behalf of the Prince Rupert citizens to see that every one enjoys Christmas, that the shadow of depression is chased away and the dark cloud turned inside out.

A Christmas dinner for the unemployed men on December 25 will be provided and hampers will be sent out to the families in need. To give those wishing to do so an opportunity to help in this work a subscription list will be opened on Saturday in the Daily News and the names of donors will be published from time to time. Money or goods may be sent to the Daily News office or the Salvation Army headquarters.

AIR ROUTE FOR NORTH

Canadian Airways Ltd. Establishes Service Between Telegraph Creek and Mayo

Major D. R. MacLaren D. S. O., who has been on a trip north in connection with a new commercial air service which the Canadian Airways Ltd., of which he is western manager, has established in Northern British Columbia and the Yukon, was a passenger aboard the Princess Norah yesterday afternoon on his way back to Vancouver, accompanied by William S. Tall, company air engineer.

Major MacLaren stated that his company planned to conduct a weekly air service throughout the winter between Telegraph Creek, Atlin, Whitehorse, Dawson and Mayo. Whitehorse will be the base for the service which is being carried out by Pilot Stan McMillan, famous northern flyer, with an all-metal Junkers seven-passenger plane. Flights on the plane were recently changed to skis for the winter.

Sontrary to the general opinion that metal planes were not suitable for cold weather flying, Major MacLaren declares that they are "the only thing" for such work.

Discharge Papers of Daniel Campbell Found in Waistcoat Floating in Gulf of Georgia

In the pocket of a waistcoat which was picked up together with other articles of clothing in the Gulf of Georgia near Departure Bay, Vancouver Island, last week were Canadian Expeditionary Force discharge papers giving the name of Daniel Campbell, who enlisted in Prince Rupert with the Western Scottish Sixty-Seventh Battalion on October 29, 1925. In addition to the waistcoat two towels and a table were picked up.

It is feared that a fatality occurred and the police are endeavoring to get in touch with relatives or friends of Campbell.

TOLMIE'S VICTORY

Premier Tolmie seems to have won at least a temporary victory at the annual meeting of the B. C. Conservative Association at Nanaimo. There was no open rebellion at the meeting although there was said to be plenty of rumbling in the corridors of the convention hall.

To his opponents the Premier spoke very plainly. He told how he had been pressed into the service of the party at the Kamloops convention, how he had given up his Ottawa career to come to the rescue of his party in British Columbia and lead them to victory. Then he dared them openly and told them he would carry on until the time arrived for another election when they could choose any other person they wished to lead them.

It seems clear that Dr. Tolmie came out a winner and that his stock has gone up since the time of the convention. While he said this was no time for an election he did not commit himself except to say that the government still had two years during which it might continue to carry on. In spite of this the opinion still prevails that if terms can be arranged for anything like a satisfactory disposal of the P. G. E. in the near future, the government will then ask the people of the province to endorse or reject the scheme. That it would have a strong appeal in the south is expected but whether it could overcome the growing opposition to the government is another matter. Many think it could not. Much will depend upon the happenings of the next few months. The electorate is fickle at all times and no one can forecast with any degree of certainty what people will do.

George Brooke acted as chairman, Douglas Frizzell was referee and Roi Barnes timekeeper for the boxing events.

- Cornet solo, Emil Hudema.

Man in the Moon

It's not only the tires of a car that get punctures. Many a man punctures his chances of success almost as soon as he starts on the journey of life.

It'll be a great thing to have that radio-telephone system working. When somebody in Vancouver says or writes something that annoys us, it won't be necessary to take it out on our neighbors. We can just ring up the offending person in the south and pour out our complaint into his unwilling ear and it will cost one about five dollars to do it. That'll be better than spoiling the day for all our neighbors and friends.

The difficulty with some folk is that they can't go straight. They are always dodging facts.

It's great fun to be in the minority. You can kick all you want and nobody seems to take any notice of you.

TEAM FAILS TO ARRIVE

No Explanation Received From Anxox Badminton Players Following Failure to Arrive

The Anxox Badminton Club players, who had sent word earlier in the day that they would arrive here at 5 o'clock yesterday afternoon to meet local players in a competition, failed to arrive. Neither had any explanation been received from them up to this morning. They were supposed to come down on the Granby Co.'s service boat Granby.

Because of the economic depression in England, almost every week the closing of some big estate is announced, or a famous town house is put on the block.

The RECORD SPEAKS for ITSELF

After twelve years, the Trans-Atlantic record held by Alcock and Brown and their Vickers-Vimy Bi-plane still stands . . . just as the passing years serve but to accentuate the cigarette supremacy which is held by Turret cigarettes.

Quality, mildness and flavour . . . these attributes which are so strikingly evidenced in Turret cigarettes keep them ever at the top in public favour.

After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred".

Manufactured by Imperial Tobacco Company of Canada, Limited

Record Atlantic Crossing stands for 12 years

On June 14, 1919, Sir John Alcock and Sir A. Whitten Brown crossed the Atlantic Ocean from Newfoundland to Ireland in 16 hours and 12 minutes in a Vickers-Vimy Bi-plane powered with two Rolls-Royce engines developing 720 horse-power. The record is all the more remarkable because the Vickers-Vimy Bi-plane in which it was made is now obsolete.

Kaizen Motors Ltd.

Are pleased to announce that they are now in a position to welcome inquiries regarding the new smart 1932 Buick eights, and their great advancement over preceding models, including Wizard control; synchromesh transmission, selective free wheeling and many other improvements holding fast to those sound, fundamental engineering principles which have won world leadership for McLaughlan-Buick year after year.

CHEVROLET

For motorists who want quality, style, performance and durability in a smaller, lower-priced car, watch for the announcement of the new 1932 Chevrolet, which we have reason to believe is the most outstanding value ever offered by General Motors and the Chevrolet Motor Company.

FORT Langley, on the Fraser River—the first post erected under organized direction of affairs by the Hudson's Bay Company—was completed in 1827. It was "forty by forty-five yards and the bastions were twelve feet square, built of eight-inch logs." Subsequently burned, it was re-built as one of the largest of all forts in the North West. Here Sir James Douglas was installed as Governor of British Columbia in 1851.

MORE HEAT for LESS MONEY

"NANAIMO-Wellington", or "Lady-smith", or "Comox" Coals from Vancouver Island cost this year, for No. 1 lump, \$13.50 a ton. Imported lignite costs more.

The product of the Island mines yields, on the average, 13,030 B.T.U.'s * per pound where lignite coal shows only 9,340.

This means, to get the same heat, that you will use 4 shovelful of lignite to every 3 of "Nanaimo"! 4 tons instead of 3 tons!! 4 trips to the basement instead of 3!!!

However you figure it, Island Coal is your best buy because you get more heat and you pay less money.

Ask your dealer today. Order by name. Check your delivery slips.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

ALICE ARM

The annual meeting of the Ladies' Aid of St. Michael's Church was held here on Tuesday afternoon of this week. Principal business was election of officers for the ensuing year.

Dr. Joseph T. Mandy, resident mining engineer, Prince Rupert, spent a few days here the latter part of last week.

The Alice Arm Athletic Association held a successful and enjoyable card party in the club house last Friday evening.

No further advice has been received locally regarding a resumption of work at the local relief camp. Meantime, the men are being fed at the camp.

The Pacific Salvage Co. of Prince Rupert is now engaged in the contract of moving all the logging equipment of the Abbotsford Logging Co. from here to Marpole. Some years ago this company operated here.

Cold and frosty weather has prevailed throughout the district recently. It was one of the longest cold snaps that has been experienced so early in the season.

STEWART

Unemployment relief work is still at a standstill in this district. One of the two camps has been closed and the men requiring shelter have been moved into the other where they are being fed. Men having homes here have come into town and are receiving direct relief.

Rev. Father E. M. Leray O. M. I. returned last week from a visit in Prince Rupert.

A son was born in the Stewart General Hospital last Thursday to Mr. and Mrs. Jack Brooks.

The Stewart Board of Trade held its monthly dinner meeting on Tuesday evening of this week with President George Hills in the chair. A business session followed the dinner.

Word has been received here that Mike Curis, well known Georgia River prospector, has had both hands frozen as a result of having had to stay out all night while goat

hunting. He is being cared for by his partner.

A new boat house has been built for the speedboat Miss Premier, fastest water craft in Portland Canal.

Arthur F. Shepherd, typewriter expert from Victoria, has been spending a few days in town.

With light snowfall and clear, cold weather, automobiles are still able to run through steadily to the Premier mine.
