### WELCOME H. M. S. DRAGON

The Daily News wishes to join the citizens of Prince Rupert in extending a hearty welcome to Capt. E. J. Spooner D.S.O., officers and men of H. M. S. Dragon, which is due in Prince Rupert late this afternoon in the course of a coast cruise. The visit each year of some symbol such as this of Great Britain's might and armed strength has come to be an institution greatly looked forward to in Prince Rupert. It is a happy enough condition that the continued peace of the world makes it possible for Britain year after year to send vessels such as these on cruises of peace and goodwill to British as well as foreign waters.

The Daily News hopes that the visit of the jolly British officers and men who will be conspicuous here for the next few days will be as pleasurable to themselves as we anticipate it will be for us.

### THE SESSION AT OTTAWA

The legislative chambers of the big house on the hill at Ottawa have closed up for the summer and the federal parliamentarians, complacently satisfied, no matter who else may or may not be, with their labors of the past few months, are hurrying to their various homes to spend a late vacation. Without fear of being accused of partizanship, the first regular session of Canada's new Conservative government, now that it is a matter of history and retrospect, may fairly be dubbed, despite the problems and the conditions that confronted it, to have been one of the most lacking in constructive legislation that it has been the lot of the country to experience or endure.

When it is remarked that the session just ended chose, rather than endeavor to meet the burning issues of the day, including the grave unemployment problem and other immediate issues, to squander its time in dalliance and haggling for political advantage, it might also be observed that this inclination was not confined to one of the parties or groups exclusively. It might have been expected, however, that the government, so evidently cognizant of the gravity of the situation last year during the election campaign and so ready to propound a cure for all Canada's economic ills at that time, would have brought forth something more in the end of remedying or relieving the unemployment situation than it has done. To the contrary, the fact is that the unemployment situation in Canada today is even more serious than it was twelve months ago and is, as yet, despite the new government, showing no signs of a general improvement.

The only improvement that Canada may expect as a result of legislation of the 1931 Ottawa session may come as a result of the tariff revisions which were made. If these revisions result in the benefits that have been claimed for them, the country and its people will be grateful apart from political views on any of the issues.

It was not happy that the Beauharnois Co. affairs should have been treated as one of the great achievements of the session rather than what they constituted—a regrettable incident of the sitting. The matter was, however, an important one and something that the people were entitled to know about. No matter who may have been hurt politically thereby for the time being at least, it may prove eventually to have been well for Canada's body politic that certain ugly disclosures were brought about.

In spite of the sensation and publicity of the session, however, it sums up to have been a comparatively unimportant one, as has been said before, in the way of constructive legislation for the general benefit of the country. The people have looked on with interest and with patience but they are not to be condemned if they still continue to blindly and uncertainly grope for some better plan of governing and bettering themselves than the present system of conducting the public business and the public welfare permits.

### ALBERTA WHEAT CROP

From all reports, Alberta is at least one of the prairie provinces which will have a large wheat crop this year. Growing conditions have been very favorable in that province this season with rain and warmth coming just at about the proper times.

It is, therefore, not a crop failure, so far as least, that worries the farmers of that province but their big problem is the making of satisfactory marketing arrangements. The Wheat Pool, realizing that a large amount of new grain will be available this fall, possibly to minimize its own already large stocks, is permitting its farmer members to sell their grain on open market or wherever else they may choose, relieving them temporarily of their pool contracts.

It seems absolutely essential for the prosperity of Canada that Canadian wheat be marketed to better advantage this year than it has been during the last year or so. Just how this is going to be brought about, however, seems an uncertain quantity.

## QUOTA FOR JAPANESE

Christian Science Monitor Discusses Immigration into the United States

The extent to which sentiment in the United States has altered upon the question of Japanese immigration is reflected in current discussions of a quota basis for the Orient, says a Christian Science Monitor editorial. Progressively, since 1924, when the objectionable Japanese Exclusion Act was adopted, the United States has been rising above the momentary prejudice which permitted that needless affront to a friendly power. A year ago measures were introduced in Congress to extend the privileges of the quota system to Japan. That they failed of final consideration was perhaps due largely to the fact that many congressmen who favored this step in Pacific rapprochement were unconvinced that public feeling would applaud it.

The movement to put an end to exclusion of the Japanese takes form again in proposed consideration of quota advocacy by the immigration committee of the United States Chamber of Commerce. The question has been broached by interests upon the Pacific coast and there are some who see in this action evidences of a marked alteration in the far-western viewpoint. But even if credence attends such an interpretation, weight also must be given to the widespread friendship for Japan which, unfortunately, did not become articulate when Congress abruptly terminated the "gentlemen's agreement" of 1907.

The wisdom of the Roosevelt Administration's negotiation of that agreement under which Japan undertook to control the migration of her laborers bears but little upon the present situation. The manner of its termination seven years ago was unnecessarily harsh. It was out of consonance with American cooperation in Japan's economic and industrial development. The desired end—demagogically flaunted as the preservation of the integrity of American labor standards—would have been as ably served by a quota restriction as by direct exclusion.

### Quota Exclusion

This still holds true. Extension of the quota system to the Orient would permit entry of about 180 Japanese and 100 Chinese annually. These would almost entirely be restricted to ministers, professional men, students and similar persons who are admitted even under the present restriction. Opponents to the extension of the quota declare that it would open a wide door to Oriental immigration. But in fact there would virtually be no change in the actual situation save in some minor divisions of the Pacific countries.

But the change in the relationship between the United States and Japan would be of vast importance. The effect upon the economic relationship is, indeed, one of the factors back of Pacific coast advocacy of the quota system. But even such gains are secondary to the lasting values of improved international relations. It may be, as one Japanese statesman suggested, that this is entirely a matter of sentiment. But it follows, as he declared, that such sentiment is "one of the great forces in the world with which statesmen must reckon."

## Chinaman of Hazelton Is Dead In City

The death occurred yesterday afternoon in the Prince Rupert General Hospital of Ny Chong, Hazelton Chinaman, who had been a patient in the institution for three weeks. Deceased, who had been in Canada for ten years, is survived by a widow in China. He was 33 years of age and was employed as a laborer.

With Hayner Bros. undertakers, in charge of arrangements, the funeral took place this afternoon.

### Passing of Churchman

(Continued from Page One)

Dr. Bryce was serving with distinction in a wide range of capacities. From time to time he acted as college principal, superintendent of schools, missionary organizer, pastor, scientist and filled numerous executive posts of importance.

Born in Brant County, Ontario, April 22, 1844, of Scottish parentage he received his early education in Mount Pleasant and Brantford, later graduating from the University of Toronto and Knox College. His academic attainments were of the highest order. After leaving the latter institution in 1871 he became assistant minister at Chalmers church, Quebec, but in the same year he was sent west by the Presbyterian General Assembly to establish Manitoba College in Killarney.

During his whole career in the west Dr. Bryce remained a resident of Winnipeg. He saw the community grow from a village of three hundred people to its present size and in this development he took no unimportant part, especially in educational and spiritual realms. Manitoba College was moved to Winnipeg in 1873 and later it became part of the University of Manitoba, of which Dr. Bryce was one of the founders. Dr. Bryce also took a keen interest in the public school work. He was the first inspector of the Winnipeg schools, and for six years also served as a member of the public school board.

### Organized Church

In 1872 Prof. Bryce organized Knox Church, Winnipeg which became the mother Presbyterian church of the Canadian west. In the following year by the authority of the presbytery a session was formed of which he was the first moderator. Dr. Bryce was largely responsible for receiving the Presbyterian programs in the west. He was instrumental in starting missions in all parts of the northwest, and was actually responsible for opening up over 100 churches. His early work in this connection was partially recognized by his appointment as the first moderator of the new synod of Manitoba in 1874.

Dr. Bryce was elected moderator of the Presbyterian general assembly in Toronto in 1902. He was one of the four pastors of Knox church who have received this honor from the Presbyterian church. In this respect the record of Knox church is unique in the Dominion.

Dr. Bryce was always a warm advocate of a United Canada, and a strong supporter of the British connection.

Dr. Bryce was married in 1872 to Marion Samuel, daughter of James Samuel of Kirkliston, Scotland. Mrs. Bryce was always a big factor in the early life of Winnipeg, having been interested in a host of activities. She died in 1920.

## GIRLS WANTED

To enter Contest for America's Most Beautiful Girl

The winner will be chosen during fair week in Prince Rupert and will get a free trip to Los Angeles and back and be entertained lavishly while there.

Entrants must sell 50 tickets to the Big Coronation Ball, the last day of the fair. Nothing else to do but look pretty. It's the chance of a lifetime.

The fair board at its recent meeting decided to enter a candidate in the International Beautequest at Los Angeles in connection with the celebration of the one hundred and fiftieth anniversary of the founding of the city, when the most beautiful girl in America will be chosen.

The local candidate will be chosen at the time of the fall fair and immediately after her selection she will have to leave for the south to get there in time for the big California event. Her expenses going and coming will be paid by the Fair Board but while there she will be the guest of the Ocean Park Businessmen's Association, who are sponsoring the event. The attraction for the candidate is set forth in the following letter from the south.

"Your candidate will be met at the railway station, dock or airport by a committee representing the Ocean Park Businessmen's Association.

"She will be the guest of screen stars at various functions.

"She will be entertained by a reigning star of the screen at her home.

"She will be included in all parties listed as part of the program of the International Beautequest and La Fiesta de Los Angeles.

"She will occupy a position of honor in all gatherings including pageants, parades, spectacles, receptions and, in fact, all events planned for the International Beautequest and Los Angeles' great reception."

Candidates must be between the ages of 16 and 30, unmarried and of good character and the one going from Prince Rupert will be chosen in the following manner:

She or her sponsors must sell 50 tickets at \$1 each for the big coronation ball to be staged on the last day of the fair in the exhibition building. For the one selling the most tickets a prize of \$50 will be awarded.

She may enter without sponsors if she wishes but she must sell the tickets.

The candidates must attend the Exhibition every evening while it is in progress here. On the first night one selection will be made by competent judges. On the second night a second candidate will be chosen by another set of judges and on the third night a third candidate will be chosen by a third set of judges.

These three candidates will attend the coronation ball accompanied by the other candidates and at 9 o'clock, the final selection will be made. Two hours later the coronation will take place here and the following day the winner will be required to leave and travel as rapidly as possible by steamship, airplane and rail to Los Angeles.

Candidates from points around Prince Rupert may enter, such as Anyox, Ocean Falls, Smithers, Terrace, Stewart, Hazelton or other points and they will be required to sell 25 tickets to the coronation ball in order to qualify.

Candidates either in the city or out may be sponsored by organizations who may help them in disposing of tickets or otherwise in connection with the event.

Candidates or their sponsors should notify Secretary Vance of the Fair Association at as early a date as possible and as soon as the tickets are ready may commence disposing of them.

### ZEPPELIN ON RAILS

New German Vehicle Flashes Along at Twice Speed of Fastest Train

BERLIN, Aug. 5.—Flashing along the railroad at a speed often exceeding 130 miles an hour, the new German aluminum "flying saloon" or "Zeppelin on rails" covered the distance between Hamburg and Berlin on its maiden journey at twice the speed of the fastest express train.

Curves were smoothly rounded and stations passed at lower speeds, but still the average speed was 109 miles an hour. The trial was deemed highly successful, and a new form of highspeed travel seems to have appeared on the horizon.

The "flying saloon" has been built by a German engineer, Herr Kruckenberg, formerly associated with the Schutte-Lanz Airship Company.

It is driven by a 500-horsepower engine and propeller. The coach, which is about 85 feet long, has two pairs of wheels, with axles 65 feet apart, and can carry 40 passengers in two compartments. The driver sits in a raised cabin and the whole coach is very carefully streamlined.

The trial was made in the early hours of the morning. The guests took their seats in the graceful, silver, rather fish-like "train." There was a whir of the propeller, the brakes were released and the "flying saloon" sprang forward with tremendous acceleration. In a moment a speed of 65 miles an hour had been reached and 100 miles an hour in two minutes. A secret method of springing makes the compartments practically free from vibration and swaying. Some passengers declared that when they shut their eyes at full speed, they hardly knew they were moving.

Miss Connie Thorne sailed this morning on the Prince Henry for a holiday trip to Vancouver.

## ELKS DEFEAT OLD EMPRESS

Teams All Tied Again in Second Half of Season When Lodge-men Win Eleven to Two

Chenoski Turns In Another Fine Performance as Winners Play Errorless Ball

It looks as though the baseball league will have to continue all fall and maybe into the winter before a winner can be decided for the second half if the teams continue to perform in their present manner. Elks again took the measure of the Old Empress team last night to even the standing up again each team having won two and lost two. The score was 11-2 and is a fair indication of the game. Nick Chenoski was back on the slab for the Elks and hurled a fine game, allowing but six hits and two runs and holding his opponents scoreless after the first frame. The Lodgmer played errorless ball while several miscues were chalked up against the losers. Ray Commons started on the mound for the Hotelmen but was in trouble all the time, being touched for eight hits and ten runs in the three innings he toiled. Jack Nelson finished the game for him and allowed but one hit and one run in the remaining three innings.

Old Empress started right off in the first inning as though they meant business. Kenny walked. He stole second as Nelson struck out. Arsenau singled and Kenny stopped at third. Arsenau stole second and they both scored on Wendle's single. Eldridge and Menzie both struck out. They threatened again in the second. Hibbard singled. Redman singled and Hibbard took third. Redman going on second on the play. Commons whiffed. Kenny walked, filling the paths. Nelson hit into a double play to Chenoski, who threw home to force Hibbard and Nelson was caught at first. After that they might just as well have left their bats in the sack for all the good they did with them.

Elks big inning came in the second. D. Stalker was safe when Arsenau dropped his fly to left. G. Mitchell singled. Chenoski singled and Stalker scored. Harold walked. Farquhar hit a "screaming" double to left Mitchell and Chenoski both scoring. Harold scored as Stephens was thrown out at first. Eldridge missed Howe's grounder and Farquhar scored. Skinner flied out to Arsenau. A. Mitchell was safe on Menzie's error, when he dropped Kenny's throw and then Stalker hit to centre, Howe and Mitchell scoring when he was trapped between first and second.

They added three more in the third. G. Mitchell singled. Chenoski struck out, Mitchell going to second on a passed ball and third on a wild pitch. Harold singled to short Wendle failing to make a play for him. Farquhar tried to get out of the way of a ball that hit his bat and rolled down the first base line. He beat the ball out and Mitchell scored from third on it. Harold scored as Stephens grounded out to first base, and Farquhar scored on Howe's single. Skinner flied out to Hibbard.

Their last tally came in the sixth. Howe fanned. Skinner went to second when Wendle threw wild to first on his grounder. He stole third and A. Mitchell struck out. Skinner scored as Menzie dropped Wendle's

### DEMPSEY RETURNING TO RING AUGUST 20

RENO, Nev., Aug. 5.—Jack Dempsey, the former world's heavyweight champion, announced yesterday that around August 20 he will return to the ring on a barnstorming tour of the country, meeting all comers at four rounds. It is believed by persons close to the champion that he is undertaking this barnstorming tour for the purpose of trying out his ability to come back and make a new bid for the world's heavyweight title.

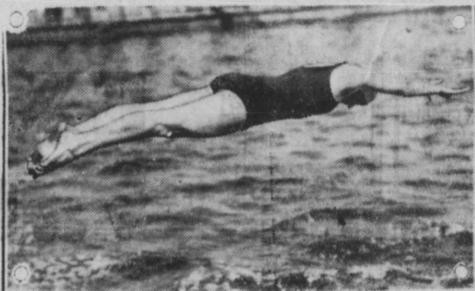

## SPORT NOTES

Twenty nations in addition to the United States and Canada have signified their intention of sending teams and individual competitors to the Third Olympic Winter Games at Lake Placid, N.Y., from February 4 to 13 next year. Bjorn Blix, international secretary of the local committee, has sent word to this effect from Europe, where he is completing a nine-month tour of the leading winter sports centres. This list of nations entered is expected to be increased materially as the time of the Games approaches. All of Lake Placid's Olympic sports facilities will be in use with the first snowfall. Many competitors are expected to arrive in this Adirondack resort well in advance of the Games in order to try out the Mt. Van Hoevenberg bob-run, the Intervale ski jump, the 250 miles of cross-country ski trails, and the skating track and hockey boxes at the Olympic Stadium.

Austria, according to reports of Mr. Blix, will send two speed skaters, four figure skaters, three skijumpers, a hockey team and a four-man bobsled team to the Lake Placid Games. Belgium will enter the figure skating and four-man bobsled races. Czechoslovakia will be represented by figure skaters, skijumpers and a hockey team. England will send two ski-jumpers, a hockey team and two bobsled teams. Estonia will enter the speed skating events. Finland will send a

team of 14, including two speed skaters, eight cross-country skiers, two jumpers and two in the combined event. From France will come one speed skater, figure skaters, ski-jumper, 50-kilometer ski-runners, a hockey team and two bobsled teams. Germany's Olympic skiers 30 in number, will compete in the combined jumping and cross-country event, while it is expected that later entries from this country will include a bobsled team and possibly figure skaters. Holland will take part in speed skating and bobsledding. Hungary will compete in figure skating and the combined ski-running and jumping. Italy will send a winter sports team that will enter the following events: figure skating, ski-jumping, hockey, and four-man and two-man bobsled races. Japan is sending a hockey team and 10 skiers. Latvia will be represented in figure-skating as will Lithuania. Norway will send speed skaters, figure skaters and a ski team of 15. Poland will send a hockey team and 10 ski-jumpers. Roumania will be represented by teams in both the two-man and the four-man bobsled races. Sweden will enter an Olympic team of 41, taking part in speed skating, figure skating, cross-country ski-running and jumping, and hockey. Two teams of bobsledders, ski-runners and jumpers and at least one speed-skater will come from Switzerland. Jugoslavia will enter four men in the ski-jumps.

## TO CLIMB MOUNTAIN

Adventurous Party About to Start Out in Jasper Park

JASPER PARK, Aug. 5.—The famous ramparts of Tonquin Valley will be stormed during the next 10 days and the attacking party will comprise more than a dozen highly experienced mountaineers under the leadership of Cyril G. Wates, Edmonton, who is a member of the English and Canadian Alpine clubs. A preliminary ascent was made yesterday by two of the party, Capt. E. R. Gibson and C. L. Anderson, both of Edmonton, who climbed the tricky east ridge of Mount Edith Cavell in the excellent time of eight hours. The party is now encamped at the Memorial Hut on Penstock Creek, at the base of the Fraser Glacier. The climbers plan to make the ascent of Outpost Peak today and later will attempt the more difficult ascents of such mighty mountains as Dungeon, Parapet, Geikie, Erebus, Bennington and Turret some of which have never been climbed.

Included in the party are several Albertans with Walter Streg of Cincinnati and E. L. Wolf, Ardsley, N.Y., among the outstanding climbers from the east. Miss Edith Hoyt, artist from Washington, D.C., is also with the party.

## SOME RULES FOR BATHERS

The following are some very good rules for those holidaying at the seashore:

When you enter a rowboat, keep your seat do not change it to stand up. Only the fool rocks the boat and that, of course, is not you. Canoes take the heaviest toll of human life or we should say, cause the heaviest loss. They are easily upset. Only an expert canoeist and expert swimmer should ever go in a canoe. Remember, however, that an oar or paddle will prevent you from sinking should you upset if you hold on to it. Also a canoe will support more than one person even if filled with water.

"Now, about bathing. Let us say that non-swimmers should avoid auto tubes in the water. They cause a number of deaths every year, particularly with children. The kiddies put their trust in them and go out of their depths. They lose their grasp because they become slippery or deflate and the child gets excited and sinks. Teach your children to swim and avoid tires in the water like a plague.

"Whether you are a swimmer or not, do not enter the water after a meal for two hours. Remember your food has to be digested and if you exert yourself by bathing or swimming, you will throw too much work upon the heart and it is liable to stop work, and another death is recorded.

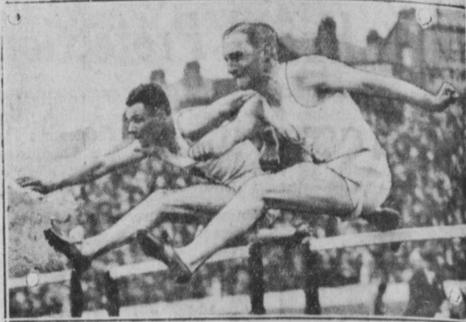

"Do not enter the water if your body is overheated. Cool off first. Also do not drink cold water when you are overheated. Wash out your mouth will relieve you.

"Cold water in the stomach may give you severe cramps and chill the system. It is very dangerous.

"If you are a non-swimmer and are bathing in a strange place, look for danger signs, and if none are around inquire as to the safety of the place as there may be holes that would immerse you.

"If the water is rough, take extra precautions there may be a strong undertow. This is the action of the bottom water which

## Bill Harold Now Leading Big Six

Stephens Dropped to Fourth Place Last Night After Leading For Most of Season

Fred Stephens, who had led the Big Six standing for the most of the season, dropped into fourth place as a result of last night's encounter between Elks and Old Empress, when he went hitless in three times at bat. He was replaced by Bill Harold who, with one hit in three attempts, dropped to 371 from 375. Hibbard, who collected two safeties in three attempts, moved into second place, one point behind the leader, J. Comadina, of the Sons of Canada, stays in third place. G. Mitchell went into fifth place with three hits in three times up, his first time up there this season. S. Moran, of the Sons of Canada, slid into sixth place, as Skinner and Nelson both dropped out, by going hitless. Following is the standing:

	G.	A.	B.	R.	H.	P.
Harold E.	9	35	14	13	371	
Hibbard O.E.	9	27	6	10	378

## STATION WINNER

Defeated Navy By Score of 13 to 2 Last Evening

In last night's league softball game, the Station defeated the R. C. N. V. R. by a score of 13-2.

The Navy boys made their only count in the first inning after which the Station held them out entirely. Both teams played airtight ball from the second to the fifth innings but, in the sixth, the Station started to add up their score and piled up 12 runs in three innings.

Batteries were, Styles and Geddes for the Station; Pitcher and Peterson for the R. C. N. V. R.

### Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letters should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

Take The DAILY NEWS with you When Going on Summer Holidays

Nearly everybody likes to keep in touch with Prince Rupert when away for their holidays. The best way to do this is to order the paper sent during that time. If it is only for two weeks, the News is a welcome visitor and the mails during the summer months are carried almost daily to most points.

Recently a number of Scandinavians have given up the local fishing for the summer and gone on an extended visit to their former homes. In almost every case they order the Daily News sent them while they are away. Several subscribed for a year, others for shorter periods.

No time is too short for us to look after our patrons.

SHOW PARTY ON DRAGON

Excellent Entertainers Aboard Visiting Warship

GGOD SHOW PROMISED BL TALENTED CONCERT PARTY

The Victoria Colonist of July 18 refers to the excellence of the H. M.S. Dragon's concert party, in the following words:

Greeted by a capacity audience, the concert party of H.M.S. Dragon was accorded a great reception at the Royal Victoria Theatre last night. The splendid program of entertainment provided was greatly enjoyed and the various numbers of the twenty artists were received with sustained applause.

One of the feature turns of the entertainment was given by Able Seaman Cooper, in the role of a female impersonator. Possessing a good soprano voice, he was heard to advantage in his offerings. Messrs Osborne, Cooper, Farr and Taylor rendered an Italian operatic number which proved very popular. The presentation of the sailor's horn-pipe drew the plaudits of the patrons and the entertainers were called back to the stage for an encore.

A novelty presentation, and one that caused some of the "fair sex" in the audience slight alarm was the swinging of illuminated clubs by a member of the concert party portraying the role of a skeleton. The stage was in utter darkness for this number and the varied colored lights made the offering quite spectacular.

Musical and vocal selections, quartettes, duets, and the company choruses rounded out a program of excellent entertainment that was highly appreciated. A well-acted comedy sketch entitled "Motoring" produced roars of laughter, while Taka, an Indian Club swinger, was an added attraction. The ship's band, composed of fourteen pieces, and under the direction of Corporal Blackham, (Royal Marines), was heard in an excellent musical score.

Captain H. M. Slater, (Royal party, was in charge of the concert party, president of the concert party.

Provincial Constable P. B. Smith of Fort St. John, who was formerly stationed in Prince Rupert, has been appointed a marriage commissioner for the Fort St. John electoral district in place of Jas. A. Recent outbreaks of fire in the heart of the congested section of the city have set people asking anxiously regarding the city fire protection system and more particularly about the water supply and pressure. Fortunately, so far, all fires have been promptly extinguished by the fire department.

Arthur Brown has returned to the city from the west coast of Graham Island where, with three companions, he recently had the harrowing experience of struggling for several hours in the rough seas with a capsized rowboat. Other men sharing in the experience were Harry Edenshaw and son and Matthew Youmans of Massett.

The Grand Trunk Pacific Railway announces that steel on the coast section is expected to reach Hazelton by the end of this year. The company is considering putting in a coal branch to run from Edson, Alta.

LIBRARY MEETING

Institution is Filling Need During Unemployment Situation—Fair Exhibit Suggested

It was mentioned at last night's regular meeting of the Prince Rupert Public Library board what a valuable part the library was playing in connection with the present unemployed situation by keeping unemployed men and their families supplied with good and abundant literature free of charge. That the unemployed are taking full advantage of the local library facilities was indicated by the fact that 645 more books were loaned during July this year than in the same month last year.

The librarian reported that a total of 5,295 books had been loaned during July, these being classified as follows: fiction, 3,509; juvenile, 1,163; non-fiction, 479; duplicate pay, 144. There were 3,346 borrowers listed during the month, twenty-six of these being new borrowers. The library was open 22 days during the month and the daily average borrowing was 240.6 volumes. Seven new books were received by gift and 51 by purchase while 22 books were discarded during the month, leaving a total of 7,996 books on hand.

The library will be closed from the evening of August 6 to the afternoon of August the 28th. Miss A. D. Cruickshank, the librarian will be leaving on the coming Friday to spend her vacation visiting in Ottawa.

The suggestion was made to the board by one of the members, J. J. Gillis that the library have a booth or some sort of exhibit at the forthcoming Prince Rupert Exhibition. The suggestion was left to the chairman and secretary to deal with.

Present at the meeting were: G. V. Wilkinson, chairman, T. B. Black, secretary, Victor Basso-Ber, J. J. Gillis and Miss A. D. Cruickshank librarian.

C.N.R. steamer Prince Henry, Capt. Harry Nedden, returned to port at 7 o'clock this morning from Skagway and other Alaskan points and sailed at 9:30 a.m. for Vancouver.

HARDSHIP IN SOUTH

Prince Rupert Does Not Realize What Unemployment Really Means, Says Motorist

One of the reasons actuating Harry Scott of this city, who set out on a motor trip to Mexico but got only as far as Vancouver, in turning back was that he was so constantly accosted by tramps and unemployed men, hiking along the highways, that it made travelling actually a nuisance. Some of the men that Mr. Scott encountered were really needy cases. Some had their feet blistered and shoes worn to the ground while others were badly in need of food. Under such conditions as these, it can be readily seen that there was little, if any, pleasure in travelling along the highways.

"Prince Rupert does not realize what unemployment and hardship really means," observed Mr. Scott this morning.

Parents who once yearned to seem "refined" now have children who are content to seem "sophisticated."
