TAKES RIDE IN AIRPLANE

Editor Views Country From Above and is Enthused Over Mode of Travel

It's wonderful how much a person can see from a few minutes ride in an airplane. Saturday afternoon the managing-editor of this paper took a ride in the little Moth plane operated by the local company, and he is enthusiastic over it. He said it was wonderful to sit there in the open air ahead of the pilot and take in all the sights. The higher he went the more he could see.

Cruising along over Metlakatla Passage the various familiar inlets took on a new aspect and the sandy bottoms of some creeks that had hitherto been unexplored looked very inviting. The Indian village was very picturesque and the return over Digby Island brought to view several small lakes and gave a good idea of the topography of that island.

Possibly the greatest interest was in the Prince Rupert townsite. The green lawns and brightly colored flowers showed very clearly and it is surprising to see how many lawns there are in front of Prince Rupert homes.

The editor says he learned more about Prince Rupert and the surrounding country in fifteen minutes than he would in years under ordinary conditions.

ECKMANN IS HERE

On the second stage of a flight from Vancouver to Juneau, Ansel Eckmann, chief pilot of Alaska-Washington Airways, arrived here during the noon hour today with the big Lockheed-Vega monoplane Sitka and, after an hour's pause, continued his flight to the Alaskan capital.

It was Pilot Eckmann, it will be remembered, who led the aerial search out of here last winter for Pilot Robin Renahan and his companions who perished in the monoplane Skagway, a sister ship of the Sitka.

Pilot Eckmann brought north as a passenger Richard Gosse, president of the newly formed British Columbia associate company of the Alaska-Washington Airways. Mr. Gosse will return to Vancouver on the plane. The flight from Vancouver was made in five hours, with a stop at Alert Bay.

WORK FOR THE WORKLESS

If the government of a country during bad times curtails all expenditures to the very limit, discharges thousands of employees, raises the taxes so as to take more than ever from the very decreased incomes of the people who are earning, then bad times will become worse. Nothing else can happen. Business people suffer, wages are beaten down and many people are idle and almost starving.

The duty of any administration is to meet a bad times situation with remedies rather than to join the hue and cry to make things worse.

Just now the Bennett government is in that situation. It has done its worst in the way of making bad worse, at any rate, in the west. It has taken no step to alleviate the difficulty except to vote a paltry twenty million dollars, part of which it held back when it was needed.

However, there is still time to repair some of the harm that has been done. Premier Tolmie has made some suggestions which are in the right direction. He has made proposals, some at least of which would be beneficial. The next move must come from the federal government. If Mr. Bennett has courage and vision he may make a name for himself as an able administrator who was not afraid to move when the need called. It is not enough to sit back and build the trade fence higher against the outside world, meanwhile filching from the taxpayers to pay his deficits.

The need today is for a constructive policy to take care of the unemployed. We suggest the building of the western outlet to the Peace River as one such national undertaking for the benefit of the west. The east is being cared for by the protection granted their factories for which the west pays.

Liberal co-operation with the provincial government on trunk highways would help a lot. Money is cheap today and millions are crying for investment. Let the men who are crying for work use the money that is crying for investment, doing work that is a crying need in the west and the whole problem is solved.

A SIGN OF THE TIMES

A Cleveland man says he will know in future how to predict hard times. He writes:

"Hereafter, I shall pay no attention to car loadings, bank clearings, crops or commodity prices. I shall concentrate on just one indicator—the rise and fall of fools. When I look about me and see young men half my age, driving high-priced cars, leaving their offices at three o'clock in the afternoon, boasting that they made \$25,000 last year, and exchanging tips good for a thousand dollars over the week-end; when I see boys rolling in money, boys whom I wouldn't hire to wash the rollers in my printing plant—when that day comes around again, I shall rush to my bank and sell every share of stock I own. God never intended that fools should make a better living than honest workers. Whenever a situation arises in which they do, I know that it is contrary to the fundamental laws of the universe and cannot last."

Twenty Years Ago

In Prince Rupert

June 22, 1911

Hon. William Templeman, federal minister of mines, left on the Camosun for Stewart in the course of his tour of the coast. Yesterday a visit was paid to the marine station and quarantine hospital on Digby Island.

LETTER BOX

FISHERMAN IS CRITICAL

Editor, Daily News:

I read in your paper, statements from Mr. Lord resenting the printing of salmon arrivals in Prince Rupert. This is news of interest to us all and I believe should be printed. Perhaps Mr. Lord may resent this letter from a non-union man.

In the first place, what kind of a union is the N.B.C.S.F.A.? A few men meet on little or no notice and declare a strike, thus putting hundreds of men out of work. What are the heads of a union for if a dozen members can call a strike any time?

I, myself, laid off for 12 days until I heard a few facts from North Island. We were told that North Island men were all out on strike which we found untrue. A man arrived here from that camp and told us of them all being out for three days. The first men to start fishing were union boats and when they arrived in harbor there was a little noise and those fishing were made to take down their flags and then most of the fleet went out including a large number of union members, which accounts for the Cold Storage and Edenshaw bringing in such good trips.

No doubt Mr. Lord does not like these facts printed but in fairness to all I think news of interest should always be printed. If there had been a good run of salmon at Squadree there would have been no strike as the man who seems to be responsible for this strike could not afford to lay off last July when a meeting was called when the cohort were 25 cents. He had quite a few dollars in his pocket and didn't see fit to lose ten to twenty dollars a day.

Mr. Lord congratulated Ketchikan on their going out on strike a bit previous. Their meeting only took place at 7:30 on the thirteenth and his wire was prior to that. What he means by the figures of eight and four seems a mystery as we have never this year received less than eight and six.

If the union took a leaf out of the Alaska trollers book and handled their men right, things would be different. Give the men a chance to vote by ballot and common sense could have reigned.

Taking into consideration the whole world's slump, the fishermen should be able to take a lean year as well as a good one.

Yours truly,
W. PUR.

JABOUR BROS. CLOSING-OUT Bankrupt Stock Sale

Scores a Crowning Success on Saturday --- all selling records beaten, for a stock of equal size

Knowing the deluge of sales in Prince Rupert recently, we adopted no sensational methods—

We gave the public the facts and cut prices of the goods!

A steady stream of satisfied customers thronged the store all day Saturday.

And the slaughter still continues

As fast as one bargain goes another takes its place.

My instructions are to close out this fine big Bankrupt Stock in the shortest possible time—in other words, turn it into money—cash.

We apologize to those whom we were unable to serve on Saturday and ask you to come again. We promise not to disappoint you. If it's bargains you want we are handing them out.

It's the day of days for thrifty shoppers. We are setting a new record in bargain giving. Hurry! Hurry! Don't miss this golden opportunity folks, for it's a sale that tears all merchandising values wide open!

SPORT CHAT

With the Gilhuly Cup football competition finished for the year and the Merchants the holders of the trophy, a review of the competition should be interesting. A study of the goal scoring suggests that all teams are stronger in defence than in attack. The Merchants lead with nine goals in their four games. Of these Albert Dickens scored four, one in each game. S. Dickens, H. Dickens, Amor, Douglas and McKay had one each. The Regiment, although foot of the league, comes next with four goals, Fong, Bond and Wingham scoring one each while the fourth was scored by W. Murray against his own team. The Legion had three goals to their credit with Bussanich, Howe and S. Smith the scorers.

In the competition, the Merchants called on only 13 players, the ability to play practically the same team in all games being of great value towards developing teamwork and understanding. The Regiment called on 18 players while the Legion required the services of 20 players.

So far the Merchants seem to have the strongest team and their defeat by the Regiment was a surprise though well deserved on the evening's play. The Legion have been handicapped by the inability of Baptie, J. Murray and Howe to turn out regularly. With a full team this club will be hard to beat. The Regiment have a fine defence. Their forwards, while clever, lack experience but these youngsters will develop and they certainly show promise.

Final standing in the Gilhuly Cup.

Spartan Athletic Club Holds Its First Track Meet; Fine Performance By Contestants

The first track meet under the colors of the Spartan Athletic Club was held on Saturday at the Exhibition grounds. Conditions were ideal for good performances and an interested, enthusiastic group of spectators gave zest to the proceedings. The meet proved to be a revelation of what fine track material is lying undeveloped among the younger generation of athletes in the city.

The performances of Alex Walters, Hedy Suehiro and Carl Smith were outstanding. With continued training and competition, these boys will develop into fine runners. Walters placed in six events, winning the senior 100 yards, the high jump, the pole vault, and broad jump; placing second in the shot put; and running on the winning relay team. Carl Smith won the junior 220 yards in 25 seconds, a second faster than the time for the senior event. Suehiro and Ronnie Allen ran a dead heat in the half mile, the time being 2 minutes, 12 and three-fifths seconds. Later Suehiro ran a fine half mile in the relay, clinching the race for his team of which Williscroft and Moxley were the other members. This relay was somewhat of a novelty being run in four divisions of unequal length: 100 yards, 220 yards, 440 yards and 880 yards. It brought a thrilling evening of track work to an exciting conclusion.

Plommer, D. H. Hartness and G. Anderson acted as judges.

This meet is the first of a series of four which the club will stage about every three weeks during the summer. In this way it is hoped that the contestants will be in good condition to turn in some brilliant performances on Labor Day which is the climax of track work for the summer.

100 Yards, junior—C. Smith, 11 1-5 seconds.

100 Yards, senior—A. Walters (10 4-5 seconds), P. Edgecumbe.

220 Yards, junior—C. Smith (25 seconds), W. Williscroft.

220 Yards, senior—P. Edgecumbe (26 seconds), A. Bartlett.

High jump—A. Walters (5 feet), Friedham.

880 Yards—H. Suehiro and R. Allen (dead heat, 2 minutes 12 3-5 seconds).

Pole vault—A. Walters (9 feet).

440 Yards—P. Edgecumbe (57 seconds), W. Vance.

Broad jump—A. Walters (17 feet, 1 1/2 inches), R. Irvine.

Medley relay—Walters, Williscroft, Moxley, Suehiro (4 minutes, 13 seconds).

VANDERHOOF BUSH FIRES

Whole Nechako Valley is Swept by
Flames

VANDERHOOF, June 17.—During the past week or ten days this whole valley has been clouded with smoke from forest fires; in fact, they are worse than any year during the corresponding period that even the old-timers have known. Several settlers have lost buildings, ties and other property and the fires are still raging in this area. Rumors were common and current that the Meadowdale Public School had been destroyed. This school still stands unharmed and the educational work is being carried on as usual. During the fire a cow moose fled and left her offspring behind to take its chance. The teacher, Miss Grace McIntosh, is now taking care of the baby moose feeding the young animal with milk.

Mr. and Mrs. Roy Lancaster arrived in the city on this afternoon's train from McBride. Mrs. Lancaster is ill and was met by a doctor on her arrival.

Atomic Theory Is Discussed By Scientists

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Is the Universe, Including Man, Evolved By Atomic Force?"

Among the Bible texts included in the lesson-sermon was the following from Romans 13:1: "Let every soul be subject unto the higher powers. For there is no power but of God; the powers that be are ordained of God."

The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "Spiritual evolution alone is worthy of the exercise of divine power."

LOSE YOUR FAT This sensible way

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd almost forgotten had existed—you get the needed exercise.

As a result instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

PICNIC ON SATURDAY

Annual Outing of Rupert East Sunday School Proved Very Enjoyable to All

The annual picnic of the Sunday School of Rupert East United Church took place Saturday afternoon at Digby Island. Weather was ideal and a very happy day was spent by all who made the trip, parents and children alike. There was a long program of sports and races, and delicious refreshments were provided in abundance.

Capt. Sam Hougan took the children over in his halibut boat Tramp, leaving at 10:30 in the morning and returning at 7 p.m.

TERRACE

The hot spell has caused a lot of water to flow under the bridges this week, in some cases a little too much. The bridge leading to Braun's Island, always a jinxed affair, went out on Wednesday and the public works department had to send a boat for the relief of the marooned residents on the island.

Visitors to Lakelse Lake can look forward to finding better arrangements in the way of the provision of refreshments from now on. Mrs. E. M. Smith has established a little cafeteria where all kinds of supplies for the inner man—liquid and solid, may now be had.

The public works department has been putting the recreation ground into shape for the summer games. The road grader has made a great change in the erstwhile uneven contour of the play field which promises soon to become a very pleasant rendezvous for the athletic minded.

Mrs. Butt left this week for a visit to her sister in Spokane accompanied by her husband. While there Mrs. Butt expects to undergo an operation.

After a couple of years in Terrace, Pat McPhee has gone back to Smithers, taking his family along with him.

Miss Fanny McLaren, of Prince Rupert General Hospital arrived on Saturday on a visit to her parents here.
