# CUT DOWN

Zealand Seriously Curtailed By New Tariff

ST. JOHN, N.B., June 26:-The failure to date of the Canadian and New Zcaland governments to reach a satisfactory reciprocal trade agreement has brought conditions of distress to a number of the leading industrial concerns of this province. The action of the New Zealand government on June 1 in transferring Canadian goods from the British preferential tariff to the general list has resulted in many good business connections being jeopardized, while the actual figures for exports of New Brunswick products to the sister Dominion have shown a big decline. Executives of such nationally known representative New Brunswick firms as Connors Brothers, fish canners, Ganongs Brothers, confectionery manufacturers, and T. S. Simms Co., Ltd., brush manufacturers, have united in giving publicity to the facts connected with this serious decline in export trade through statements to the daily press.

"Our company has built up a large export business with New Zealand. We received a cable from our representatives there advising us that the sale of our products have slowed up considerably since the cancellation of the preference," said A. N. McLean, president of Connors Brothers.

### Stronger Competition

Ganong Brothers, one of the largest manufacturers of confectionery and allied products in Canada, have already shipped one consignment since the cancellation of the preference and they are confident that further shipments will not be prohibited by the recent tariff changes, but at the same time they fully realize that they will have to meet stronger competition in this distant | early this morning.

# LETTER OF MINISTER

Hon. Edgar N. Rhodes Replies to Request That Clearance Be Withheld

## Would Not Help

Problem of Low Prices is Facing All Branches of Industry at This Time

The following letter, which has been received by the Prince Rupert Chamber of Commerce from Hon. E. N. Rhodes, minister of fisheries,

is self-explanatory: "I wish to revert to your telegram of the 11th instant, endorsing a resolution sent by His Worship, Mayor Orme, requesting the tying up of halibut vessels for ten days following each trip during a 40-day period and that an arrangement for similar action be at the same time made with the United States Government.

"Being very anxious to be helpful in this matter if at all possible, I have gone into it carefully from the different standpoints, but as was explained in a letter of the 13th instant from my department to the Canadian Halibut Fishing Vessel Owners' Association, the proposed action could not be taken so far as Canada is concerned as there is no legal authority for withholding a clearance to a vessel that complies with the law. Apart from this, even if there were any likelihood that the United States authorities would favorably consider such a proposal, it will be realized that in the nature of things it could not be speedily handled and any action of this kind to be useful would need to be im-

"The problem of unprofitable prices for their catches is unfortunately not peculiar to the halibut fishermen. It is one that faces all branches of the industry. It was in the hope of finding some method of substantially increasing the demand for fish that an investigation into the whole situation by a company of experts was authorized several months ago. The report of that firm should be available in August. Meantime, I anticipate having an opportunity of personally going into the conditions in the halibut and other fisheries on the Pacific Coast."

### NATIONAL WORK

The Edmonton Journal, in discussing the measures pro- 633,085 pairs in 1928-29, and they posed to be taken for dealing with the unemployment situ- were valued at \$1,041,500. Today the ation says in part:

"It comes as a surprise to learn from Senator Robertson that there was a clause in the agreement entered into by local article. the Dominion and the provinces last September, by which the former was to pay fifty per cent of the expenditure concluded a trade agreement with undertaken by the latter in building the links required for Japan that will enable the Japanthe completion of the national highway. The deduction to ese still further to exploit this be made from his statement is that the federal authorities The Union is also striving to build have been waiting for the provinces to take the initiative up an export trade with canada and have been prepared to meet the share of the cost to while depriving that Dominion of a which they agreed.

"The provinces will have to do their part and the British Columbia premier last week told of the construction that his government would undertake, provided that the Dominion would help. If the rest of them show a similar willingness and if they all get together with the Dominion in framing the necessary plan, a beginning can soon be made on the enterprise. It will serve a most valuable national purpose and at the same time relieve the present acute unemployment situation much more effectively than is

possible by any other means."

### POOLING INTERESTS

The scheme of the Canadian National Railways to make a working arrangement with the Canadian Pacific in connection with the operations of its coast steamships seems a reasonable one. While we like to have the big steamers coming to this port, we do not like to see them operating at a loss and it seems foolish for them to operate on the triangle run between Vancouver, Victoria and Seattle with the excellent service already given there by the C. P. R.

To strike out on a new route with the boats seems the reasonable plan and one such new route offering is that between Vancouver and San Francisco. Another might be to Honolulu.

The further statement of Sir Henry Thornton that there would be other joint arrangements made between the two companies seems to indicate that the plan for joint rights to Prince Rupert from the Peace River is definitely plan- Clark, Vancouver; W. Brown, city ned. While we do not want to see an amalgamation of the two big railways there is no sense in their cutting each others throats. The day is past when the people of the country will stand for the construction of unnecessary parallel railway lines and the company heads should have sufficient sense not to operate competing steamship lines on which both are bound to lose money.

Women's singles tennis of France disputed between German and English girl-Germany winner. Miss Betty Nuthall of England left, congratulating Fraulein Cillie Aussem of Cologne, after their recent match in Garros Stadium, France. The German miss defeated Miss Nuthall, 8-6, 6-1.

# SELL SHOES IN AFRICA

Canada Loses as Japan Gains Market For Footwear

JOHANNESBURG, S.A., June 25: -Under the heading "Japan comes to the Platteland," the Rand Daily Mail recently published the following editorial:

"Japanese rubber shoes, it is stated, can be sold at such a price in South Africa that no other country can compete. Incidentally, the veldschoen industry has received a severe blow. The reason lies in the fact that working costs in Japan are extremely low, wages amountng to something like \$1.50 a week.

"Canada in particular, has been hit. In 1929 she sent cheap footwear to this country worth \$420,000. This trade is now doomed; shipments have already been stopped. Canada, of course, maintains a white stanlard of living, to which South Africa pays a great deal of lip-service while taking the fullest possible adantage of the sweated wages paid elsewhere.

"Then there is the veldschoen industry. South Africa manufactured business is in a perilous state. Japanese shoes have already reached the backveld and are replacing the

"But the Union Government has country and damage its industries. market which it already possesses. It is a curious kind of fiscal policy to take to Ottawa."

## Man in the Moon

Jake says that no matter how hot than other birds," states a writer, the day if he drops into his bank Hence its liquid notes. and hints at a loan he immediately finds the atmosphere becoming cooler.

This is the season when many local people are contemplating sea voyages for the holidays. We wish them joy and a calm sea.

It's an old story about the man who went away for a change and rest. On returning he said the hotels got the change and the sea got the rest.

The reason many people enjoy the last few days of an ocean voyage is because the first few days are so uncomfortable.

On clearing the harbor the ship ran into a nasty, half-pitching, choppy sea, which was especially noticeable as the 25 passengers at the captain's table sat down to dinner. "I hope that all 25 of you will have a pleasant trip." said the captain, as the soup appeared, "and that this little assembly of 24 will be much benefitted by the voyage. I look upon these 22 smiling faces as a father upon his family, for I am responsible for the safety of this group of 17. I hope that all 14 of you will join me in drinking to a merry trip. I believe that we eight are most congenial, and I applaud the judgment which chose these

### SPORT CHAT

Herman Loblick, Prince Rupert mound star for the past few years, is now in Edmonton and has been signed up by the Stockyard Bulls in the Senior Amateur Baseball League of that city. That Herman is going strong is indicated by the fact that opposing clubs in the league have had no success against him for he has won every game he has pitched. In a recent game, Loblick pitched his team to a five to two win over the Young Liberals.

# FIRST GAME THIS YEAR

Elks Make It Two Games in Two Days By Virtue of 8-2 Victory

### Lodgemen Have Hit Stride Now

With Old Empress Left in Cellar Position

Sons of Canada tasted the bitterseason when Elks took them into camp with an 8-2 score in last night's Senior League baseball fixture on Acropolis Hill. Chenoski, who had pitched against Old Empress the night before, went in again last night and held the Sons to be easy outs.

At base running the Sons pulled Brookes and Laporte. several boners, allowing openings for the double-plays which Elks Vancouver Stocks were all offenders leaving their bases with one out on fly balls and each going out...

The snappiest play of the night was made by the Sons infield with a double play from Johnson to Morrison to Styles. The younger boys on the Sons lineup are playing fine ball and all are dangerous at bat. Sons of Canada got their first run in the opening inning. Bury

struck out. Stalker and Moran both singled and then Stalker scored when Lambie drove a sizzler between George Mitchell's legs. Styles flied out to Harold and Moran was doubled at third.

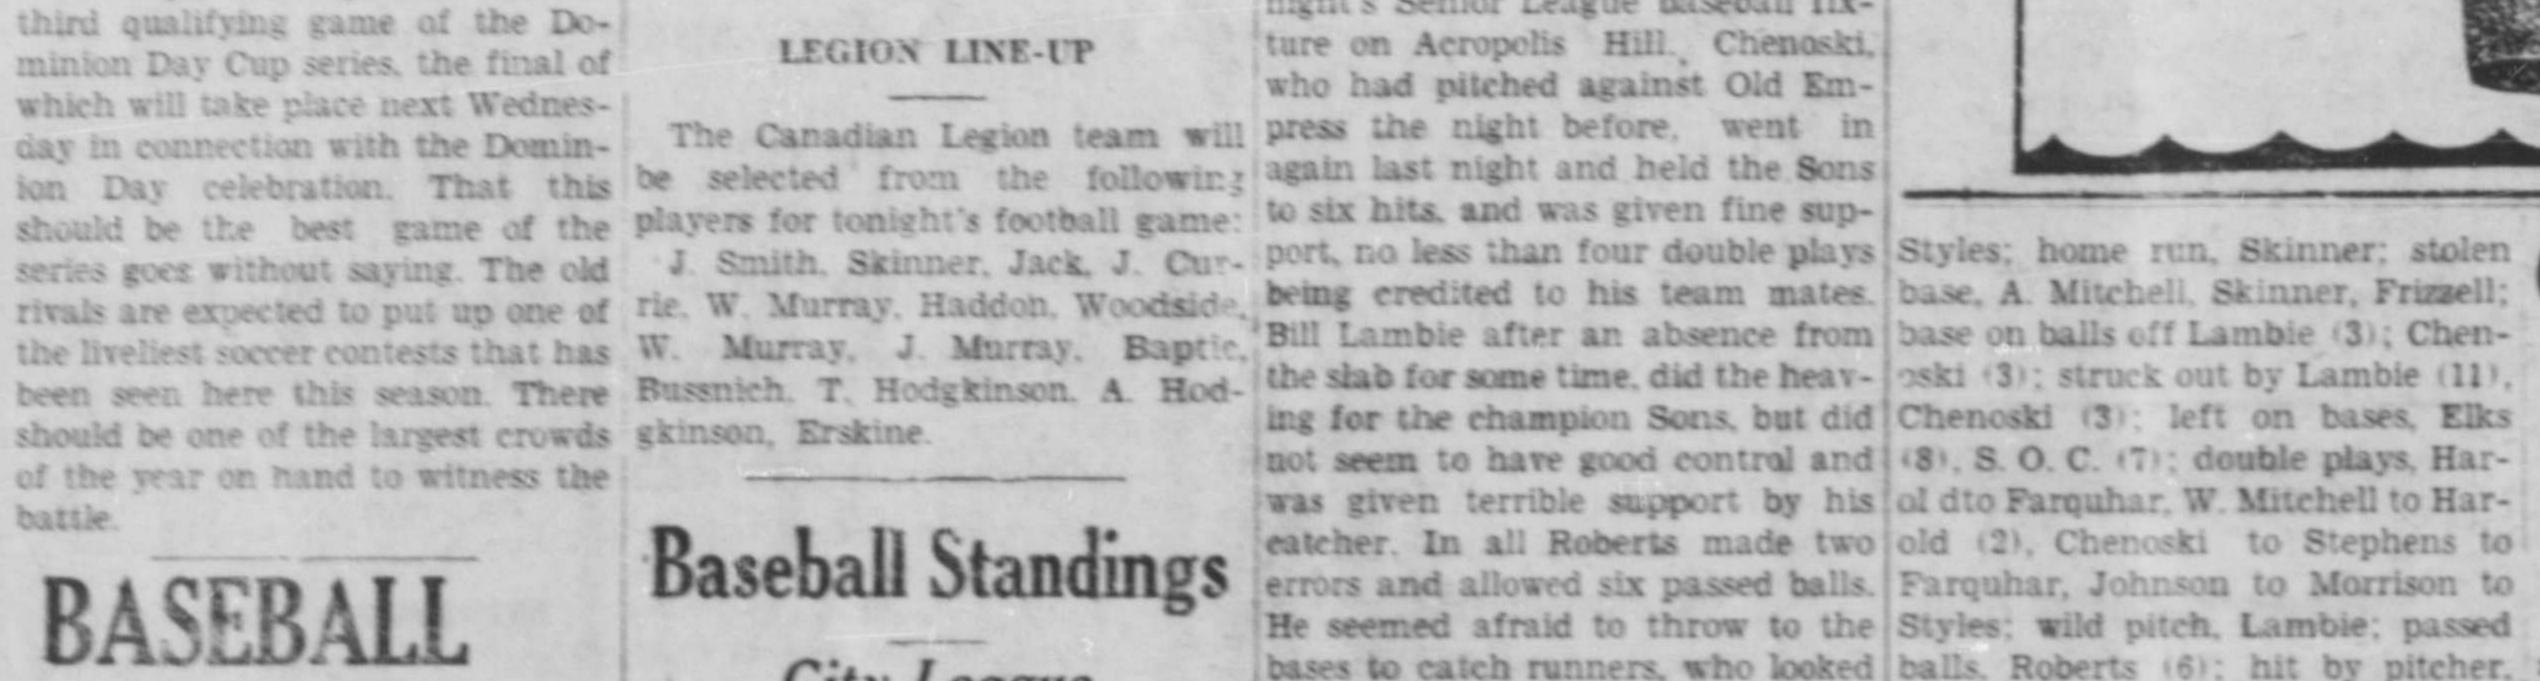

Elks secred three times in the sec- change today. ond stanza. W. Mitchell was safe on Johnson's fumble. Chenoski struck out and Mitchell went to second on a passed ball and third on a wild pitch. He scored when Lambie threw crooked when G. Mitchell hit one to him. G. Mitchell went to second on a passed ball and third when Morrison tossed out Stephens who bounced one aff Lambie's gloved hand. Skirmer hit a lucky home run that bounced away from Frizzel in centre. Harold struck out but was safe on Roberts' error. Farquhar

struck out. They added two more in the third. A. Mitchell and W. Mitchell singled the former scoring when Chenoski grounded out to first and the latter on a passed ball. The next two bat-

ters went out. Styles scored the final run for the Sons in the fourth. He doubled to right and scored when Stone's throw went between Farquhar's legs

The last scoring was done by Elks in the fifth. W. Mitchell walked and Chenoski was safe on Moran's error. G. Mitchell struck out. Stephens doubled to centre Chenoski stopping at third. They both secred when Moran missed Skinner's drive down the third base line. The next

two men were pu	t out

Take The DAILY NEWS with you When Going on Summer Holidays

Nearly everybody likes to keep in touch with Prince Rupert when away for their holidays. The best way to do this is to order the paper sent during that time. If it is only for two weeks, the News is a welcome visitor and the mails during the summer months are carried almost daily to most

Recently a number of Scandinavians have given up the local fishing for the summer and gone on an extended visit to their former homes. In almost every case they order the Daily News sent them while they are away. Several subscribed for a year, others for shorter periods.

No time is too short for us to look after our patrons.

# VALLEY TO

Party of Wealthy Philadelphians Seeking Tropical Belt in Northern B. C.

EDMONTON, June 25:-Luted by stories of the "tropical valley" in the far north section of British Columbia, a party of wealthy Philadelphians will arrive here June 29 en route to that region.

Sixty pack horses will be outfitted at Fort St. John to take the party from that point north some 300 miles, to the vicinity of the head waters of the Liard River.

Secrecy has been cast over the advance plans for the party, though it is known that S. H. Clark, well known outfitter of Entrance, Alta., has arrived here to make preliminary arrangements. Dr. A. Henry, prominent consulting physician of Philadelphia, will be in charge of the party, whose plans will likely be revealed in detail on his arrival here next week.

The trip will be made largely for scientific purposes, it is understood. while a study will also be made of the general geology of the country. It is expected that reports of this party will indicate whether the much talked of "tropical valley described by aviators and others, is a myth, or whether there is such a fertile and highly productive region

Pilot D. Murphy Tells Rotarians About Spitzbergen

Spitzbergen, the island that is much in the public eye today, was described by Pilot D. Murphy of the Northern British Columbia Airways in an interesting address to the Rotary Club at its luncheon yesterday. He spent some time there several years ago. The island, which is a no-man's

land, is administered by Norway under the Versailles Treaty. It is 500 miles north of Norway and about 600 miles from the North Pole. Like Greenland, it is covered with a perpetual ice cap, thousands of feet ago manager of the local branch of neer for the Consolidated Mining thick with a glacier in each valley. the Bank of Montreal and now an & Smelting Co., is a passenger of The ice thaws along the west coast and the soil to a depth of about six inches is freed from ice in the summer time. The east coast is seldom free from ice and can be approached lotte this morning bound for Daw- erations on the Big Morning bound only at intervals of several years.

Telling of the resources of the island, Pilot Murphy said the blace was for many years visited by whalers and others in search of polar bear and fox pelts. There are still polar bear, blue and black foxes and reindeer on the island but coal minng is the industry of the place. The seams can be seen on the sides of the mountains.

Coal By Gravity

The operators drive into the mountain side and bring the coal by gravity to the water's edge. The difficulty is that the water is open C. H. Parmetier, For Years Resident for only three or four months in the year. There are three months of darkness and three months of day-

A number of other countries be-The death occurred on Saturday sides Norway are operating on the

Mr. Murphy told of several men There were some seventy or age of 37. The late Mr. Parmetier in a whale boat having been lost eighty tourists aboard the steamer was for years in the service of the from a ship on the east coast. They Il State of California which was in Granby Co. at Anyox and was well built themselves a stone but and for even years lived on the island, soyage to Alaska. Weather was fine smelter town. He was a member of trapping animals for food, killing and the visitors had a delightful Enoch Lodge, A.F. & A.M. at Anyox. seals with clubs and conserving Deceased was given a Masonic their powder for bears. Eventually vessel from which they were lost.

At the conclusion of the address dent S. D. Johnston for his inter-
