Another function of a bureau would be to keep local brokers in touch with the farmers of the interior, chiefly skidegate, B.C. through their institutes. By letting the interior people know the requirements of the city and encouraging them to fulfil those requirements, trade would be increased to Presentation the benefit of Prince Rupert and the farmers. He was strongly of opinion that more active steps should be taken to bring about closer business associations between the Bulkley people and the people of Prince Rupert.

It will be remembered that the Daily News proposed some such movement prior to the meeting of the associated Mrs. boards of trade of central British Columbia and the editor. who attended that convention, urged personally on the floor of the conventiin that closer business relations between Prince Rupert and interior points should be encouraged. All seemed agreed as to the benefits to accrue from such co-operation but nobody seemed to know what action should be taken to bring it about.

## New Carrier Collection System

In view of the depression and to make it as easy as possible for people to pay, the Daily News is to be sold on a weekly basis, payable in advance.

Starting Monday next, several of the routes in the west end of the city will be turned over to the carrier boys as independent merchants. The boy will collect each Friday evening for the week following. He buys the papers and sells them to the customers, so there will be no credit given. The boy cannot afford it. Please do not ask him to return for the weekly payment. Have it neady for him.

Customers now in arrears will pay the amount owing at the office, but this will have nothing to do with the regular collections made by the boy. He will be doing business on his own, and if he

does not make his own collections will not deliver the paper. Those paid in advance will continue to receive the paper until the subscription expires. Any wishing to continue the yearly pay-

ments may do so, and we pay the boy. The price of the paper will be 10c a week, payable strictly in

advance. That means six papers for ten cents. It will take a few weeks to get the new system running smoothly, and in the meantime we ask for the co-operation of the readers of the paper. The routes not going on the new system this week will do so just as soon as the lists are made up and the boys properly instructed. Help the boys to set up in business for themselves!

"I give him Shredded Wheat and it's so crisp he has to chew it—the more he chews it the better he likes it and the more nutriment he gets out of it. Many children bolt down their food without chewing -that means imperfect digestion, poor teeth and unhealthy gums. Shredded Wheat with milk makes a perfect food for growing children, and it's perfectly delicious with bananas or stewed fruit."
