# PRAIRIE PROVINCES LOSE THEIR FIGHT GOLD EXPORT FROM CANADA BANNED BY GOVERNMENT

## Privy Council Decides Against Saskatchewan and Alberta in Action

Long Drawn Out Litigation Over Lands Alienated by  
Dominion Ended With Judgment Handed  
Down Today in London

LONDON, Oct. 20.—The provinces of Saskatchewan and Alberta lose their fight to have the Dominion government account to them for lands alienated by the Dominion before the provinces were created in 1905, according to a decision handed down today by the judicial committee of the Privy Council. The case between the two prairie provinces and the Dominion was carried to the Privy Council, highest tribunal of the Empire, after one or other of the contending sides had refused to accept judgments in the lesser courts.

Victoria Asks Ottawa for Ratification  
of P.G.E. Completion—  
Cariboo Farmers Happy

VICTORIA, Oct. 19.—Proposed extension of the Pacific Great Eastern Railway to Prince George is believed to be contained in the final draft of the provincial government's relief program which was recently forwarded to Ottawa for ratification.

Some weeks ago Premier Tolmie announced the proposal to extend the P.G.E. from Quesnel to Prince George.

A slight reduction in the highway program is said to have been made to compensate for the railway project.

QUESNEL, Oct. 19.—Nothing in the past twelve years has been received with so much jubilation by the Cariboo farming community and others as announcement of Premier Tolmie's plans to extend the Pacific Great Eastern Railway from here to Prince George. Above all, it will mean a local market for the produce of the farmers.

## Gabby Street Given Honor

Long Island Town Names Street  
After Manager of St. Louis Cards

NEW YORK, Oct. 20.—One of the Long Island towns, by decision of its council, is renaming a street "Gabby Street" in honor of the manager of the St. Louis Cardinals, world's baseball champions.

An Emergent Communication of Timpsean Lodge No. 58, A. F. and A. M., will be held in the Masonic Hall, corner of Third Ave. and Fifth Street, on Friday, October 23rd, 1931, at 2:30 o'clock p.m. for the purpose of holding a Masonic Funeral Service for our late Brother Alex N. Davie. All members and sojourning Brethren are requested to attend.

Japan Welcomes United States as  
Mediator

GENEVA, Oct. 20.—Japan suddenly withdrew her objection yesterday at the United States participating in overtures of the League of Nations with a view to bringing about a settlement in the present Oriental crisis.

Indeed, League efforts were at a standstill as Japan went so far as to declare that it would now look toward Washington to mediate in the dispute with China.

## STEPS ARE UNDECIDED

League of Nations Council Not Yet  
Sure of Grounds in China-  
Japanese Intervention

GENEVA, Oct. 20.—The council of the League of Nations has not yet decided the nature of the steps it will take to bring about a settlement of the China-Japanese crisis. After spending days in interpreting of League statutes, the council is now engaged in dissecting the Kellogg-Briand pact to make certain of its duties and rights in connection with intervention.

## DR. KERGIN IS SPEAKER

Told Shrine Club at Dinner Last  
Night of Journey Into Peace  
River District

Dr. W. T. Kergin gave an interesting talk before the Prince Rupert Shrine Club, at its monthly dinner meeting last evening in the Commodore Cafe, on his recent trip to the Peace River district. He described the journey in detail, particularly that part of the trip north from Prince George via the waterways route. The doctor also told of fishing and hunting possibilities of the country.  
The dinner was presided over by G. H. Munro, president of the Shrine Club, and there was a fair attendance of nobles.

## RESPECTS ARE PAID

Ten Thousand Persons File Past  
Edison Bier—Old Face Was  
Tranquil and Calm

WEST ORANGE, N.J., Oct. 20.—Ten thousand persons passed sorrowfully yesterday past the bier of Thomas Alva Edison, great American inventor, as the body lay in state in the old laboratory here where he had labored for 40 years. The old face was neither worn nor thinned, but appeared at complete calm. He appeared to be merely asleep and it seemed to some as though he was smiling slightly at some secret joke.

HALIFAX, October 20.—The Lunenburg schooner Bluenose, commanded by Capt. Angus Walters, for ten years speed queen of the North Atlantic fishing fleets, today maintained her supremacy by defeating for the second and final defeat over the Gloucester schooner Gertrude L. Thebaud, the United States challenger.

The Bluenose finished today in five hours and six minutes with the Thebaud a mile astern.

## Precious Metal Can Only Be Sent Out By Special Permit Now

New Regulation Is Already Effective and Will Continue  
Until Spring—Dominion Can Now Pay Debts

OTTAWA, Oct. 20.—Canada has taken official steps to prohibit the export of gold except under license effective Monday and continuing until March next year unless sooner amended or rescinded, Premier R. B. Bennett announced yesterday. The action will enable Canada to discharge all its obligations which are payable in gold outside Canada, particularly in the United States. At the same time Canada will maintain its statutory gold reserve in security for Dominion notes issued.

The local customs office received advice yesterday from Ottawa that gold export from Canada would not be permitted except by special permit. The order applies to gold bars, bullion, fine gold, etc.

## PARIS IS PLEASED

Vote of Confidence in Bruening May  
Help Stabilize European Affairs

PARIS, Oct. 20.—Chancellor Heinrich Brüning's decisive victory in the German Reichstag has proven gratifying in government circles here. It will, it is expected, considerably expedite the forthcoming conversations in Washington between Premier Pierre Laval of France and President Herbert Hoover of the United States on European problems particularly war debts and reparation payments.

## MOUNTAINS HAVE SNOW

First Fall This Morning on Mount  
Oldfield—Half-way Down Slope  
of Mount Morse

The first mantle of snow of the season was to be observed this morning on Mount Oldfield back of the city. During the night a heavy coat fell on Mount Morse, across the harbor, and was half way down the slope this morning. First snow of the season was seen on Mount Morse yesterday.

In spite of the snow on all surrounding mountains, very few city gardens have yet been touched by frost, although it may be expected that flowers and plants will soon be laid low.

## EDISON MOVES ON.

Thomas Alva Edison has gone but his work and influence will never pass. He wrestled with the forces of nature, subdued them and harnessed them for the use of man. Probably part of the present depression is due to the work of Edison, but that cannot be helped. That is simply an incident, although to many of us just now it seems very real. Take it by and large Edison was the greatest philanthropist the world ever knew. His work was tremendous.

And yet Edison often failed, but his failures differed from those of most men in that they were simply stepping stones to success.

During the war Edison's services were requisitioned by the government of the United States, but it is interesting and greatly to note that his work was devoted mostly to saving life rather than destroying it. He invented a system whereby heavily loaded ships going at full speed could turn almost at right angles and thus avoid oncoming torpedoes. He also invented an obstruction device for torpedoes, submarine searchlights, airplane detectors, submarine buoys for coast patrol, a cartridge for taking soundings, sailing lights for convoys, collision mats, ship camouflaging, safety device for bringing merchant ships out of mined harbors, destruction of periscopes with machine guns, sound range for locating the position of a gun, detection of submarines by sound from moving ships, detection on a moving vessel of the discharge of torpedoes by submarines, and a dozen other schemes and devices used during the war, nearly all for the purpose of saving life rather than destroying it.

A world without Edison would be a world of the nineteenth century, not of the twentieth. Possibly his work is the greatest of all scientists of all ages, for he was the first great inventor to make huge sums from the result of his labors and to spend practically the whole of it in continuing his work.

## SPREAD THE BUSINESS OVER.

Hon. R. W. Bruhn's announcement that it was the intention of his government to spread the relief expenditures among the various merchants of the city irrespective of politics, was one of the most interesting of recent years. It indicated a move toward abolishing patronage by political parties, and is directly opposed to the general policy of the government since its election.

What is noticeable in connection with the announcement is that it is impossible to get the average person to believe that the minister meant what he said or that in Prince Rupert the policy will be carried out. It will be interesting to note the result of the conflict between ministerial declaration and party administration.

## CALF CLUB IS FORMED

Young Stock Distributed Among Vanderhoof District Boys and Girls

VANDERHOOF, Oct. 20.—F. E. Durrant, manager of the Canadian Bank of Commerce at Vanderhoof, co-operating with the department of agriculture and the Farmers' Institute of Vanderhoof, has succeeded in establishing what promises to be one of the most successful calf clubs in British Columbia. Twenty-six Shorthorn heifer calves ranging in age from three to six months, of excellent type and quality were secured at Edmonton, brought in under the Dominion government free freight policy and placed in the hands of youthful owners in the Vanderhoof district. These calves will be fed and cared for by the boys and girls under the supervision of the district agriculturist and will be exhibited at a local fair held at a convenient date. The children are required to keep account of the amount of feed used and time spent in caring for the animal. Liberal prizes are being contributed by the provincial government to encourage the boys and girls in this work, the government paying two-thirds of the prize money offered at the exhibitions, while the district provides the additional third.

The Vanderhoof people are to be congratulated in taking this progressive step in furthering the livestock industry. There is probably no other means whereby a boy or girl can become so quickly interested in farming as by having a calf of his own for which he is entirely responsible for the feeding, care and attention. Through this means the youth of our country are taught proper feeding methods, the use of proper rations and learn how to judge animals for type and quality.

### Stock Improved

In older districts where club work has been carried on for a number of years, the quality of stock has shown a decided improvement—in other words, club work has been of inestimable benefit to the farming community.

The boys and girls who have received stock in the Vanderhoof club are as follows: Ralph and Jack Andros, Evelyn Brain, Noella Cameron, Howard Clark, Edith Evans, Mary Gaen, Joan Goodland, Walter and Jean Irving, Ruby Jones, Robert Maigret, Beverley and Billy Mitchell, Jack Omeara, Jean and San Rae, Harvey Reeves, Bert Snell, Kathleen Steele, all of Vanderhoof; Billy McKeown of Chilco; Pebernat and Harry Schultz of Mapes; Doris and Hazel Wren of Hulatt.

### Livestock-Minded

That farmers throughout the central interior are becoming livestock-minded is amply demonstrated in the interest shown in securing breeding stock under the Dominion government free freight policy. In addition to the calves supplied to the Vanderhoof Club, the farmers in the Prince George district purchased 14 excellent Shorthorn heifer calves with which to enlarge their livestock holdings.

J. S. Johnson at Salmon Valley shipped in 21 yearling Shorthorn females of excellent type and quality and Samuel Brothers at Vanderhoof, two yearling Hereford heifers. Several carloads of breeding stock have been ordered and are being selected for farmers located in the Prince George and Topley districts.

The abundant supply of feed on hand at the present time has turned the attention of the farmer to the feeding of livestock and shipping his feed in a readily marketable form as beef, pork, mutton or dairy products.

The central interior of British Columbia offers unexcelled opportunities for the raising and finishing of top quality market stock. Shipments of good breeding heifers, such as outlined above, together with proper feeding and management, should place this district in a good position to compete advantageously on the market with stock from any district of Western Canada.

Union steamer Catala, Capt. A. E. Dickson, returned to port at 10 o'clock this morning from Anyox. Stewart and other northern points and sailed at 1:30 this afternoon for Vancouver and waypoints.

## HOCKEY IS IN DISPUTE

Uncertain Whether Pacific Coast League Will Play in Seattle This Winter

SEATTLE, Oct. 20.—While there is some uncertainty as to just what form the organization will take, it is at least assured that professional hockey will be played in Seattle this winter. Owing to the continued feud between Frank Patrick, president of the Pacific Coast Hockey League and H. Caldwell, president of the Seattle Eskimos, it is possible Seattle may not be in the same circuit as last winter.

Caldwell is demanding the retirement of Patrick as president of the circuit and Patrick is just as insistent that he will not step down until whom he considers a competent man has been named to succeed him in the presidency.

## CRIBBAGE IS PLAYED

## WHALER RACE VERY CLOSE

H.M.C.S. Vancouver Defeats R.C. N.V.R. by Narrow Margin of Half a Boat's Length

The whaler race between H.M.C.S. Vancouver and the local unit of the Royal Canadian Naval Volunteer Reserve yesterday afternoon turned out to be a very close and tightly contested affair, the visiting destroyer crew finally winning by the scant margin of half a boat's length. This was very close considering the fact that the distance was one mile. The H.M.C.S. Vancouver crew has cleaned up everything offering this year, including H.M.C.S. Skeena and the R.C.N.V.R. crew is to be congratulated on having made such an excellent showing.

## Prince George Won Canadian Rugby Match

PRINCE GEORGE, Oct. 19.—The first of a series of Canadian rugby games played recently at Quesnel between Quesnel and Prince George High School teams resulted in a victory for Prince George by a score of 17 to 0.

Superiority of the Prince George line over Quesnel gave protection to the Prince George players. Blair Dixon, former Varsity half, coached the Prince George team.

## SPORT NOTES

Athletes of Great Britain, Canada, most European countries, Syria, Egypt, Australia, South Africa and the United States will take part in the Jewish Olympiad at Tel-Aviv, Palestine, from March 23 to 31. Headquarters of the World Maccabee Association, sponsoring the Olympiad, announce that in addition to numerous track and field athletes military and police teams of Great Britain will compete. To date more than 2,000 Jewish entries have been received. The British government is keenly interested in the program and has donated ground for the erection of a mammoth stadium. Dr. S. Rosenfeld, vice-president of the association, will arrive in New York soon to stimulate interest in the games in Canada and United States. Among the sports on the program are field hockey, swimming, tennis, boxing and wrestling, fencing, horseback riding and soccer.

The kings and queens of the realm of grand slams are working

to knock the props from under that old reliable alibi of bridge: "Sorry, partner, I didn't recognize your system." For contract bridge is being standardized. Chas. True Adams of Chicago made this clear at a three-day session of bridge teachers who went to Chicago recently from various cities within a radius of 150 miles of Chicago, to talk things over. Bridge experts are expounding their common rules and regulations to the teachers who, in turn, will communicate their knowledge to their home communities. So before long, if you go down three doubled instead of making a little slam, you won't be able to blame it on the system. The experts brought with them a text book known as "the official system of contract bridge" which says among other things says that a deck of cards "can be distributed into 53, 644, 737, 792, 339, 237, 440,000 combinations." Even the experts, it adds, "have been unable to cover perfectly every situation that arises."

**Skin Covered With Eczema-- Now Clear and Healthy**

Marvellous Healing by Well Known Remedy

There is nothing so simple in its origin and afterwards so difficult to get rid of as skin disease. On the first sign of irritation, roughness, or eruption, anoint the place with Zam-Buk. This herbal ointment will speedily banish all trouble.

When the skin is already aflame with eczema, or poisoned or ulcerated, Zam-Buk is the one external application powerful enough to get to the root of the disease. It quickly replaces unhealthy tissue by new clear skin. You will be astounded at the quick soothing and healing of Zam-Buk.

**MEDICAL TREATMENT BRINGS NO RELIEF**

"My daughter's face and neck were covered with a mass of sores, which our doctor diagnosed as eczema. He prescribed treatment which we tried for two months without relief. The poor child's face had to be swathed in bandages and she was confined to the house. I was about to call in a skin specialist, when I heard how Zam-Buk had healed many sufferers from this dread disease, so I purchased a box of ointment and tablet of soap. After a few days treatment there was a great improvement; day by day the sores disappeared and within a month my daughter's face was entirely cleared of any sign of the terrible disease, without a single scar. I can't say too much of the wonderful healing power of Zam-Buk."—Mrs. H. A., Toronto, Ont.

IF YOU have a sore inflamed or blotchy skin, or suffer from salt rheum, scalp troubles, poisoned wounds, or piles, you will find Zam-Buk quickly soothing and healing. It is also a marvellous first-aid for cuts, burns, etc. Zam-Buk Ointment 50c, box, Zam-Buk Medicinal Soap 25c, each.

**GIRLS' CLUB HOLDS MEET**

Big Affair in I.O.D.E. Hall on Saturday—Active Year Anticipated

The annual opening of the Girls' Club was held in the I.O.D.E. Hall on Saturday in the form of a luncheon. There were 105 girls and ten guests present. The hall was appropriately decorated for the occasion in Hallowe'en colors, bright marigolds adding much to the effect.

Miss Helen McCaffery, president of the Girls' Club, spoke a few fitting words of welcome to the girls of Grade IX.

After the luncheon a short program was rendered as follows:

Violin duet by Misses Audrey Parkin and Elsie Franks, accompanied by Mrs. J. Black.

Vocal solo by Miss Cathie Eastman, accompanied by Miss Katherine Watson.

Recitation by Miss Adelia Thurber.

The closing of the program was a skit put on by the Grade IX girls under the supervision of Miss Dimock, honorary president of the club. Those taking part in this skit, "The Bachelor Chooses a Housekeeper," were: Misses Betty Cameron, Grace Watkinson, Mae Murray, Beatrice Berner, Betty Inglis, Elizabeth Sturgeon, Margaret McLeod, Betty Parlow and Peggy Steen. Miss Betty Cameron was leading man and Miss Peggy Steen was leading lady.

The executive of the club includes:

President, Miss Helen McCaffery.  
Vice-president, Miss Connie Morgan.  
Secretary-treasurer, Miss Catherine MacMillan.  
Literary representative, Miss Joyce Collison.  
Sports, Miss Enyd Morris.  
Social, Miss Marie Mussallem.  
Reporter, Miss Rose Rice.

The girls are looking forward to a profitable and happy year in their club and hope to undertake many beneficial enterprises.

There are few foods you can buy that give you as much satisfaction for your money as Kellogg's Corn Flakes.

Out of a single package you get many delicious servings—at a cost of only a few cents.

Kellogg's are delightful for breakfast or lunch, with milk or cream, fruits or honey added.

Great for the children's evening meal—or for a tasty snack before going to bed. So healthful and easy to digest.

No other ready-to-eat cereal in the world is so popular. No other corn flakes have ever been able to duplicate Kellogg's own matchless crispness and flavor.

That is why wise buyers will accept no substitute for genuine Kellogg's. They know that imitations are never "just like" the original of all corn flakes. Look for the red-and-green package at your grocer's. With the exclusive inner-seal waxtite wrapper that keeps the flakes oven-fresh even after opening. Made by Kellogg in London, Ontario.

You'll enjoy Kellogg's Slumber Music, broadcast over WIZ and associated stations of the N. B. C. every Sunday evening at 10:30 E. D. S. T. Also KFI Los Angeles, KOMO Seattle at 10:00, and KOA Denver at 10:30.

# PICTORIAL REVIEW OF SPORT WORLD

LEFT—These gridiron gladiators are certainly worrying what looks a lot like the old yule log. They're Washington University players and their coach thinks this is just ideal for the boys. CENTRE—Dick Corbett lands a left to Teddy Baldock's chest during recent scrap at Clapton Stadium, England, when Corbett won on points. RIGHT—Highlight of charity baseball carnival staged by New York Yankees, Giants and Brooklyn Dodgers at New York was contests held by diamond stars. Babe Ruth establishes a new world's mark for fungo batting.

LEFT—Rodney Pantages (Foreground) in Little Shot, leading Don Stean's Alibi, during Southern California Outboard Association's championship regatta on Lake Elsinore, Southern Calif. CENTRE—Moving another step to a heavyweight championship bout, Ernie Schaaf, of Boston won 10-round decision over Tuffy Griffiths, Chicago, in Chicago Stadium. Schaaf is seen sending a stiff left into Griffiths' face during fifth round. RIGHT—G. O'Brien, movie strong man, says he's going to land Johnny Weismuller, the human fish, with his tuna tackle if it takes all day. And what a time they had!

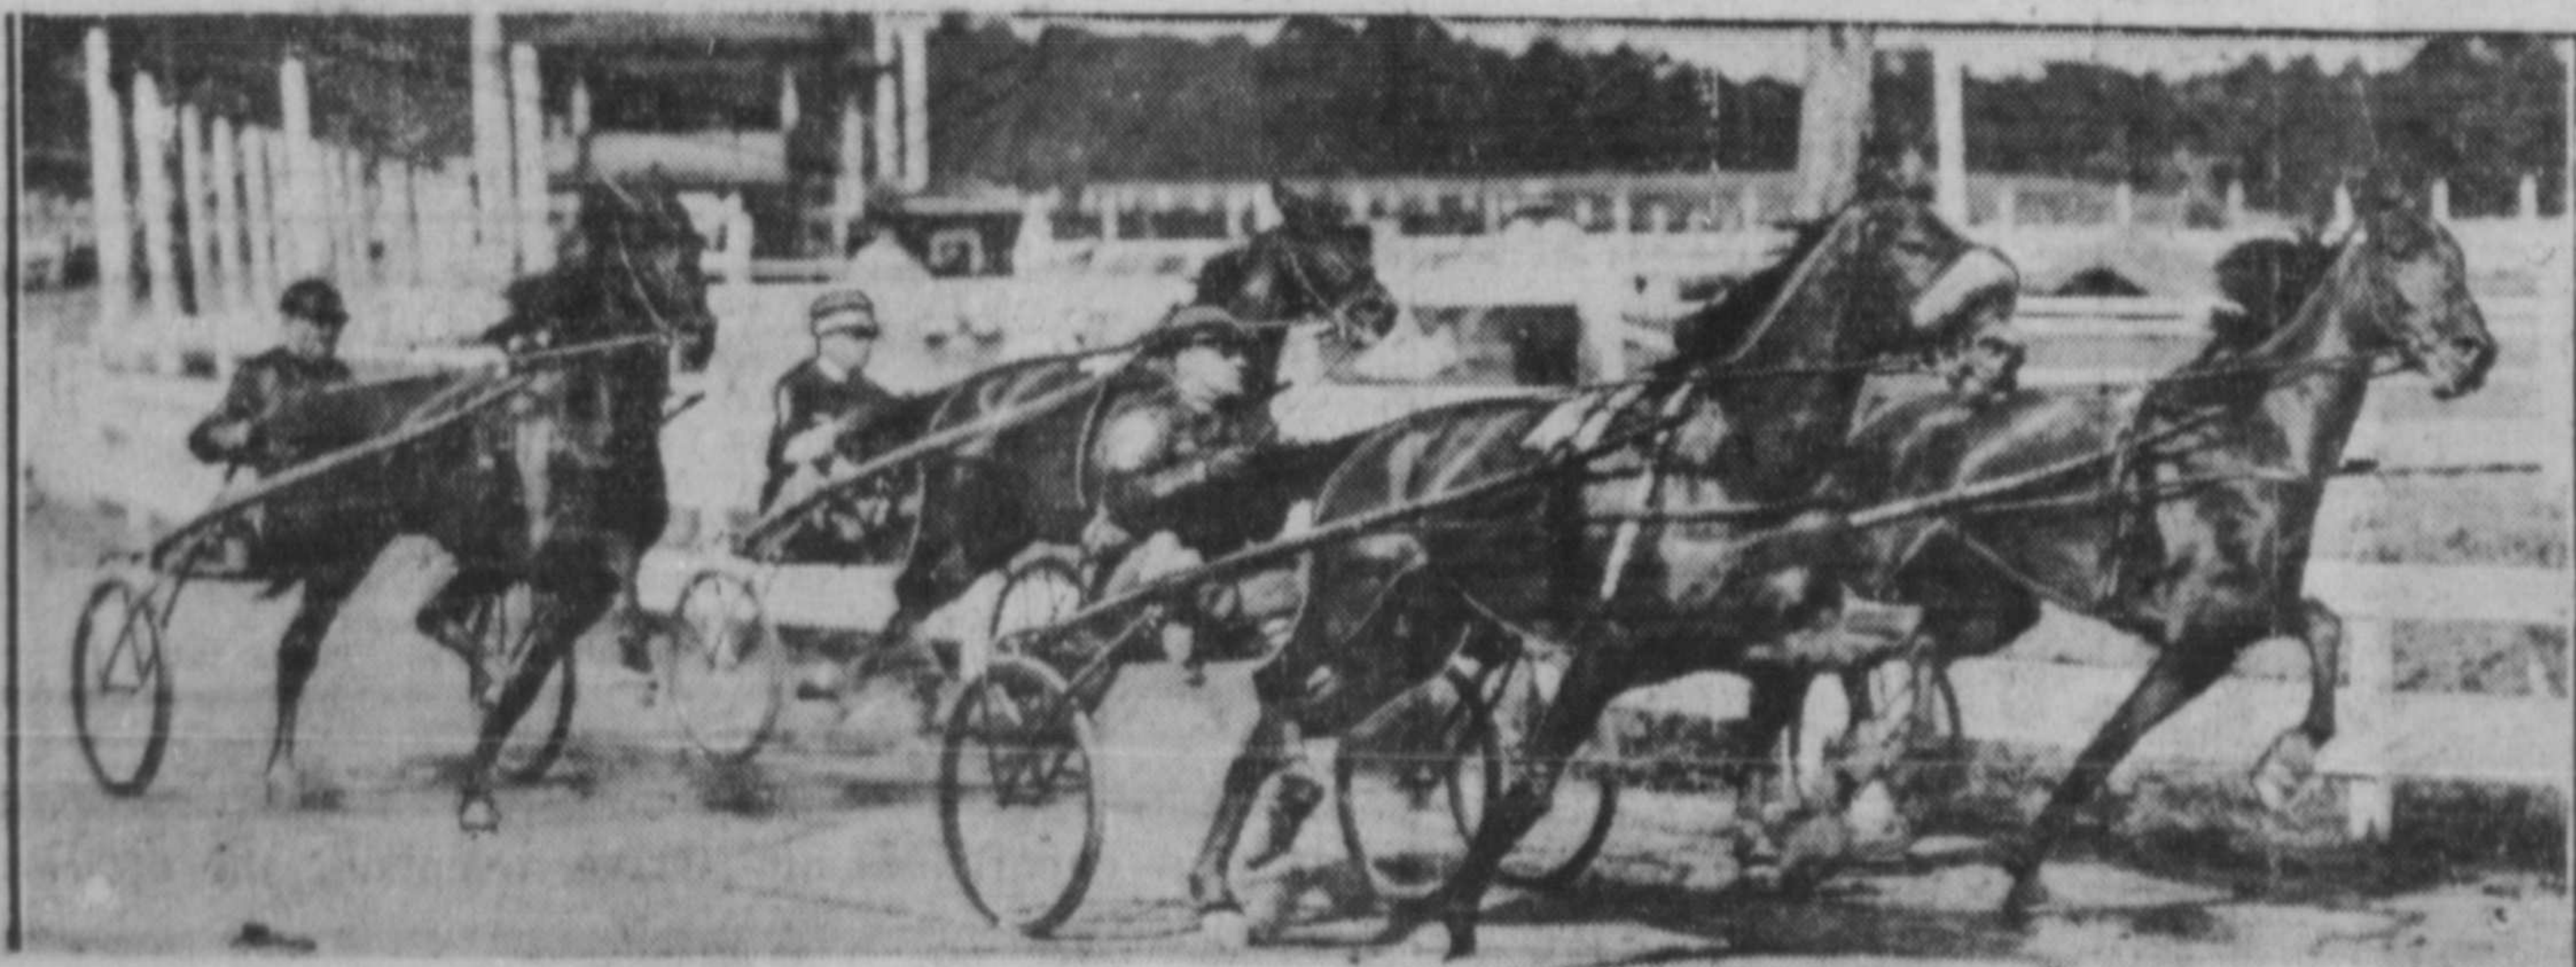

Mayor of Tokyo officiates at baseball game at the Meiji Shrine grounds.

Gridiron warriors continue to practice even after two weeks of play ing, showing a little of the desired action.

G. H. Anderson ends a mighty heave in shot-put event at Lochaber Highland games, Scotland.

Left: Here are the gee-gees still pounding the turf and making a fine show of it, too. Field rounding turn during the running of the first heat of the Orange County stakes at Middletown, N.Y., recently. In this light harness get-together, "Cold Cash," owned by Fred C. Niles of Kansas City, won the 2.07 pace, feature of the final day.

Right: Firemen of Aberdeen, Wash., have a day off so they spend it in quite an unusual manner by climbing on logs and turning hoses on each other in the middle of the lake. The streams are ninety pounds pressure.

## Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letters should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

The Daily News costs only 10c a week to residents of the city, or \$3.00 a year to those who live outside the city, but in Northern or Central B.C. Put yourself in line for happiness and good cheer by subscribing today, if you are not already taking the paper.

Be optimistic. Read the Daily News of Prince Rupert and cheer up. Keep in touch with the district. Read all the advertisements. Then buy at home. Buy the home paper. Have faith in the city. Work hard and smile. That's the way to keep yourself happy. There is nothing like Optimism to cheer yourself up and ban the blues. Make a start at once and give the plan a good trial.

The Daily News costs only 10c a week to residents of Prince Rupert or \$3.00 a year to residents of the district outside the city. Keep yourself in good standing and on the road to happiness by subscribing to the Daily News today.

## ARLISS IS VERY FINE

"Alexander Hamilton" Is Great Achievement—Classic of American History

While "Disraeli," "The Green Goddess," "Old English" and "The Millionaire" were all great achievements, George Arliss, famous English character actor, was never better than in "Alexander Hamilton," current offering at the Capitol Theatre. Large audiences last night were highly pleased with this dramatic screen classic, based on the very early history of the United States, which will be shown again tonight.

"Alexander Hamilton," the picture, deals not so much with the character of the great financial genius who was President George Washington's Secretary of the Treasury and principal creator of the constitution of the United States as with the man Hamilton who, when just past the thirties, became involved in an affair with a notorious woman. From the first moment to the last, the fortunes of the hero hold the audience spell-bound and there are many dramatic scenes with a stirring anti-climax. Needless to say, the interpretation of Mr. Arliss is flawless throughout.

While Mr. Arliss dominates the picture, excellent support is given by Alan Mowbray, another English actor, as George Washington; Doris Kenyon, as Betty Hamilton; Montagu Love, as General Thomas Jefferson; June Collyer, as the alluring Mary Reynolds, and many others.

A New Westminster correspondent to the letter page of the last Vancouver Sunday Province, magazine section, urges that the Vancouver radio broadcasting stations should be made powerful enough to compare with such American stations as Seattle, Spokane and Portland as far as reception in Northern British Columbia is concerned.

## NEWS OF THE MINES AROUND PRINCE RUPERT

Fine Gold Is Discovered on Hixon Creek—Asselstine Speaker at Stewart—Official Report on 'Big Missouri'

Eric Haan, who, in company with Joe Strbac has been working a placer claim on Hixon Creek in the Prince George district for the past eleven years, this week brought into Prince George the best samples of gold ever seen in that city. There were approximately seventy-five ounces of the precious yellow metal which Haan said was recovered by the washing of 363 yards of gravel. The labor was performed by Haan and his partner in 316 hours. Joe Strbac has been working on Hixon Creek since 1914, and Haan since 1920. Their ground is located about five miles up the creek from the main road and the gravel came from an old channel some 250 feet from their former workings. The ground and gold were examined some time ago by Douglas Lay, resident mining engineer, who pronounced it residuary gold from an adjacent ledge. Haan and Strbac are convinced that they are now close upon discovery of the main ledge. If this is discovered a great deal of activity in the district may ensue.

Corp. C. G. Barber of the provincial police has been successful in locating a good deal of equipment and supplies which were stolen recently from the camp of the Consolidated Mining & Smelting Co. at the Emerald mine in the Ootsa Lake country. One arrest has been made. During recent months there has been a wave of thieving in that district.

"Gold Mines and Their Communities" will be the title of an address to be given on Tuesday night of this week at a Board of Trade dinner at Stewart by William Asselstine, mill superintendent of the Premier Gold Mining Co. Ltd.

The Big Missouri property, being operated by the Consolidated Mining & Smelting Co., has had extensive diamond drilling of the silicified area continued according to the report on the property by Dr. Joseph T. Mandy, resident mining engineer, in the annual report of the minister of mines. The primary purpose of the mill established on the property was to ascertain by careful run of mine sampling through the mill whether the erratic distribution of values indicated in the silicified zone by diamond drilling might constitute a large-tonnage, low-grade commercial ore body. Should the Big Missouri operation materialize into a profitable undertaking, it will reflect great credit on the efficiency and persistence of the Consolidated Mining & Smelting Company's engineering staff and will be of utmost importance to the progress of the mining industry in the Portland Canal area. The Consolidated Co. is to be commended for rectifying through the medium of the public press misleading statements that have been published regarding this property. The general rock formation of the Big Missouri ridge consists of hornblende andesite, andesite and hornblende andesite porphyry. Generally low grade gold and silver values occur in the silicified porphyry zones in apparently small, scattered and detached areas in association with pyrite galena and zinc-blende. The main silicified zone which is being explored strikes generally north and south with an indicated length of about 900 feet, an indicated width of over 175 feet at the southerly end, about 300 feet in the central section and about 300 feet at the northerly end. The zones have been extensively explored by drifting, cross-cutting and diamond-drilling. From the results obtained through test-work the policy of future operation will be decided.
