DAILY EDITION  Monday, Nov. 16, 1931

REOPENING OF C. P. R. SHOPS

While Prince Rupert is not directly concerned thereby, news that the Canadian Pacific Railway shops throughout Canada, which were closed several weeks ago, are being reopened today is received with much gratification here. Eight thousand men, as a result of the shops being reopened, get their jobs back and that is a very considerable amount of re-employment in a country the size of Canada. It means a livelihood for possibly forty thousand people.

One of the important things about it, however, is the new confidence and hope that the action of the railway company will inspire among the people of Canada who have been very decidedly in the dumps for the last little while. This is an effect that will be perceived throughout the country even in such places as Prince Rupert where the Canadian Pacific has no mechanical activities.

PREMIER BENNETT'S HOLIDAY

People of Canada will join in hoping that the holiday trip to Europe upon which Premier Bennett is embarked will be instrumental in restoring the Prime Minister to his normal health and energy. In office now for nearly a year and a half, Mr. Bennett has already proven himself to be one of the most hard working premiers the country has had. His desire to work, however, appears to exceed his capacity as indicated by his recent near breakdown. Possibly, he has now become convinced that the offices of Prime Minister and Minister of Finance combined are too arduous for one man to handle. Rumors are heard that he intends to appoint a separate Minister of Finance soon.

Meantime, all parties will admit that Mr. Bennett has earned the short rest he plans to take and it is hoped by all that his trip will prove both enjoyable and beneficial.

COLUMBIA BYELECTION

The provincial byelection campaign in Columbia riding is now on. Wrongly or rightly, by many political observers, it is regarded as a test of strength between the Conservative and Liberal parties both of whom have nominated candidates. The prospect is for a straight fight.

The Conservative candidate has the advantage of being the government candidate which in byelections is usually a condition much in his favor. Normally, a riding may consider it advantageous to be on the government side. In any case, many voters have the inclination to get on the band wagon.

It may or may not be an advantage for the Liberal that the last member was of the Liberal party. In answer to that Conservatives will say that it was largely the personal popularity of the late John Buckham that caused him to survive the Conservative landslide in the last general election.

The Liberals may also derive some advantage from the fact that the Conservative candidate is not at this time an actual resident of the riding whereas the Liberal is a popular and prominent merchant in Golden, the constituency's largest community.

Speaking generally, however, ridings, unless they are traditionally of the other party, and Columbia is by no means traditionally Liberal, do not usually turn against the government in byelections unless they feel that the actions of that government warrant such an action of censure. Whether or not the people of Columbia are of the opinion that the Tolmie government is deserving of their censure will be better known after the ballots have been counted on December 19. Meantime the progress of the campaign will be followed with interest here as elsewhere.

LOST ALL HER "PEP"

Customs worker in one of the Border Cities tells of great benefit from Dr. Williams' Pink Pills (tonic). Says they were her "best friend".

"I became quite myself again."
(Sgd.) Beatrice M. Gehan.

"I was employed in a Customs Office in one of our border cities," writes Mrs. Beatrice M. Gehan, now resident at Sterling, Ontario, "and after the first few months' business strain I began to feel as though I were losing all my 'pep' and energy, and my work seemed a drudgery to me. A girl friend advised me to try Dr. Williams' Pink Pills and see if I wouldn't soon feel better.

"Before I finished my first box I was already feeling better, and the color was coming into my cheeks. By the time I had taken my third box I had become quite myself again, but still I always kept

a box on hand. They were my best friend." That is just one letter from hundreds received from all parts of Canada. If you could read all the letters received you would certainly be convinced.

Often it seems that the benefit resulting from Dr. Williams' Pink Pills is almost uncanny. Actually it is all quite natural. The iron and other elements in the Pills increase the amount of haemoglobin (life-giving element) in the blood, enabling the blood to carry more oxygen to the tissues. This, in turn, sharpens the appetite and produces a feeling of well-being.

Take advantage of this safe and proven means to better health. Go to a drug store and get a supply of Dr. Williams' Pink Pills. 50 cents a package. Just see if they don't help you wonderfully.

SPORT CHAT

College youths, recklessly exerting themselves in competitive sports for the glory of their alma mater, may unwittingly cause themselves great bodily harm. Dr. H. Marx White, professor of medicine at the University of Minnesota recently told the international assembly of the Interstate Postgraduate Medical Association at Milwaukee. The five mile events in track and rowing, Dr. White said, are especially damaging to young hearts. "Basketball, baseball, swimming and many of the track events are ideal exercise—when not engaged in too strenuously," he said. "Even football may be beneficial. But when a man is on exhibition for his alma mater and strains himself beyond his natural powers, he is injuring his body."

For the first time this season snow has tipped the mile-high mountains that surround Lake Placid, N.Y. Low temperatures of the past few days have left a covering of white on Marcy, Whiteface, and the other great Adirondack peaks, turning the minds of sports enthusiasts to the third Olympic Winter Games, to be staged there from February 4 to 13, 1932. A new impetus has been given to the Games with receipt of a letter from President Hoover, in which he says that he will recommend to the next session of Congress passage of a resolution exempting visiting contestants and officials coming to the Lake Placid Games from the usual passport and visa requirements upon presentation of the official Olympic identity cards, which will be duly visaed without charge, waiving the tax of eight dollars im-

28 Cash Prizes For Best Letters

\$100.00 Offered by Dr. Williams Medicine Co. for True Stories of Your Experiences

If you have derived benefit from the use of Dr. Williams' Pink Pills, or if some one in your home or in your circle of friends has been helped by them, here is your opportunity to win a cash reward.

Write to the Dr. Williams Medicine Company, Brockville, Ontario, telling about the case helped by Dr. Williams' Pink Pills. The details must be true. Don't make up or invent anything. Give all the interesting facts, telling in your own words "Why I Recommend Dr. Williams' Pink Pills."

Cash rewards will be given as follows: \$25.00 for the best letter, \$15.00 for the second best, \$10.00 for the third best, and 25 rewards of \$2.00 each.

Remember that every statement you make in your letter must be literally and absolutely true. Every letter must be signed with the full name and correct address of the writer.

A letter may describe more than one case, but if it describes the case of some person other than the writer of the letter, it must also be signed by that person as a guarantee of the truth of the statements made.

The writer of the letter must give the name and date of the paper in which he or she saw this announcement.

Literary excellence or fine writing will not win a reward unless you have a good case to describe. The rewards will be given for the strength of the recommendation not for literary style.

The Dr. Williams Medicine Co. shall have the right to publish any letter entered in the Contest whether it wins a prize or not.

The RECORD SPEAKS for ITSELF

In opening the Canadian National Exhibition at Toronto on Friday, August 28, Earl Jellicoe said: "Over a period of 52 years, the population of Canada has increased by 6,000,000; the revenue of the Government from \$22,000,000 to \$460,000,000 and the value of her trade from \$169,000,000 to \$2,400,000,000. In the same time, her manufactures have increased ten-fold and her crop acreage three-fold. This remarkable record encourages a feeling of optimism for the future."

Earl Jellicoe also made the following reference: "Canada's record growth constitutes an achievement of world importance and stands as a challenge to future progress. This phenomenal growth is the direct result of that splendid courage and determination which the people of Canada showed so strikingly from 1914-1918".

The record for public favour which is held by Turret Cigarettes is the natural outcome of quality consistently maintained throughout the years. After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred".

BOARD MEET AT TERRACE

Various Matters of Interest Discussed at Meeting

TERRACE, Nov. 16.—There was a fair sized gathering at the last meeting of the Terrace Board of Trade council, J. K. Gordon presiding.

In reply to a letter from the board urging that during the winter while residents of the Skeena Valley should be permitted to net salmon on the same terms as Indians, James Boyd, supervisor of fisheries, Prince Rupert, wrote that he was in communication with the Department of Fisheries on the matter.

Copy of a letter sent to the Vancouver Province by the Prince Rupert Chamber of Commerce regarding the P. G. E. question was read and the chairman remarked that, as far as the P. G. E. was concerned, he thought that question was shelved indefinitely.

Referring to the question of opening up a lime pit near Ritchie by the local Farmers' Institute and the provision of a road from the depot to the deposit, a letter from the Public Works Department informed the board that a report as to the cost of providing the road was being called for.

On the same matter, the Deputy Minister of Mines intimated that the resident engineer had been asked to provide information on the subject for the department.

The chairman said he did not think they could do anything more until they heard from the Farmers' Institute.

There had been several possible sources of lime in the district investigated but the deposit at Ritchie appeared to be the most feasible.

A letter was received from the Assistant Chief Engineer and Acting Deputy Minister of Public Works stating that arrangements had been made to with the Workmen's Compensation Board to take care of all persons working in relief camps on the usual terms.

P. G. E. Discussed
The secretary stated that a letter had been received from Dr. H. C. Wrinch, M.L.A., in reply to a letter sent by the board opposing the extension of the P. G. A. Railway and the hauling of grain over it on account of the heavy grades.

Dr. Wrinch wrote that he had submitted the question to the Smithers Chamber of Commerce and in reply that body had decided not to go on record against the extension of the P. G. E. In these circumstances, since the two important centres were not in harmony on the question he felt that it would not be proper for him to make any recommendations to the government.

The treasurer, George Beveridge, stated that the balance in hand was only \$5.94 and suggested that arrangement be made to carry on the secretarial work at less expense.

Ultimately, on the motion of Rev. H. T. Allen, seconded by Mr. Beveridge, it was decided that an honorarium of \$25 be paid annually to the secretary.

With a view to augmenting the funds the entertainment committee was empowered to promote a dance.

Capt. Colthurst briefly addressed the meeting and promised to assist the board in any way possible.

A discussion on a proposal to abolish the council was deferred to a later meeting.

A dozen wrenches, but only one pair of glasses

You wouldn't expect a mechanic to do all his work with only a single monkey-wrench. He would have to keep adjusting the wrench to the size of every bolt.

Yet you ask your eyes to do a monkey-wrench job, screwing them up tight for near work, opening them out for distant work.

Golf or tennis in the blinding sun; night driving against the glare of headlights; reading; figuring; needlework; bridge—all put different strains upon your eyes and may possibly call for different glasses.

Let us make an Occupational Analysis of your eyes and adapt your glasses to your daily needs.
