DISASTROUS FIRE VISITS HAZELTON

GOVERNMENT PARTIZANSHIP -- EXTRAVAGANCE DECRIED

Omineca Hotel, Two Restaurants and Numerous Other Buildings Burned Down In Interior Town

Damage as Result of Early Morning Conflagration is Estimated at \$50,000, Half Covered by Insurance—Fire Fighters Saved Rest of Town

HAZELTON, April 29:—Causing an estimated loss of \$50,000, fire, breaking out at 4 o'clock this morning, totally destroyed the Omineca Hotel, the B. C. Cafe, Rex Cafe, and adjoining buildings. The rest of the town was saved only by frantic efforts of fire fighters who drew water from the Skeena River with the aid of forestry pumps.

POOL CHIEF IS VISITOR

R. D. Purdy, Manager From Calgary, Making Inspection of Local Situation

Paying a visit of inspection to the local house, which is now engaged in shipping grain, R. D. Purdy, of Calgary, manager of the Alberta Wheat Pool, arrived in the city from Vancouver on the Prince George this morning, accompanied by Mrs. Purdy and Joseph Bennett, Pacific Coast superintendent for the Pool.

The party will return south on the Prince George tomorrow night.

COLD WAVE OVER EAST

Fifty-Mile Gale Whips New York—Deep Snow in Interior of State

NEW YORK, April 29:—Unusual weather conditions again prevailed in the east yesterday.

A fifty-mile gale swept this metropolis, hampering movements of the port's shipping.

New Jersey farmers, built large fires in their orchards to prevent budding fruit from being frozen.

Snow plows had to be pressed into action in the Saranac Lake district to cut through snow-drifted roads.

Sixteen Rebels Killed in Fight

COLON, April 29:—It was announced last night that, during the preceding forty-eight hours, United States Marines had killed 16 Nicaraguan rebels during skirmishes.

SIXTEEN CARLOADS OF FRESH HALIBUT SHIPPED THIS WEEK

Fresh halibut has been moving freely from here to the eastern markets during the past few days. Since the first of the week, fifteen express refrigerator cars containing fresh fish have been dispatched—six on Monday, nine yesterday and four today. A carload of fresh halibut was also shipped to Vancouver yesterday aboard the steamer Catala.

Several large fires have visited the old town of Hazelton in recent years and this was one of the most disastrous of them all. About half of today's damage is covered by insurance. The fire lasted about one hour.

The fire cleaned out a whole block of the town. The same block had been ravaged by flames ten years ago when all buildings but the Omineca Hotel were burned.

The Omineca Hotel, owned by J. C. K. Sealy and leased by C. W. Dawson, contained also a grocery and fancy goods store and ice cream parlor operated by C. W. Dawson. The Rex Cafe and rooms and B. C. Cafe and rooms were both owned by Chinamen. Adjoining warehouses, barns, garages, ice houses and out-buildings were all consumed by the flames. Seventy-five cords of birch wood and a quantity of coal further helped to feed the flames.

Citizens put up a wonderful fight to save Sargent's warehouse, Benson's oil and gas station, Sealy's new residence and shacks at the rear of the hotel.

No one was injured in today's fire, all the hotel guests getting out of the building in plenty of time.

GRAIN SHIP IS LOADING

Troutpool Expected to Sail With Wheat Cargo Tonight or Tomorrow Morning

The Ropner Line steamer Troutpool, which arrived early yesterday morning from Liverpool, started loading yesterday afternoon a full cargo of grain at Alberta Wheat Pool's local elevator for delivery to the United Kingdom or Continent.

It is expected that the Troutpool will have finished loading and be ready to sail either tonight or tomorrow morning.

The third ship to load grain here this month, the Ropner Line steamer Haxby, is tentatively due here tomorrow although no definite word had been heard from the ship up to early this afternoon.

A fourth boat is also expected soon. This should pretty well clean the elevator out of wheat which has been stored there.

Spurious Doctor of Divinity Degrees Were Issued Near Minneapolis, It Is Claimed

MINNEAPOLIS, April 29:—Authorities are investigating allegations that a "diploma mill," which granted doctor of divinity degrees to clergymen throughout the United States has been in operation near this city.

PATTULLO ARRIVES

Leader of Opposition Paying One of His Periodical Visits to His Constituents Here

To Tour Province

Is Hopeful of Better Conditions in Near Future Despite Present Depression

T. D. Pattullo, M.L.A. for Prince Rupert and leader of the Liberal Opposition for British Columbia, arrived in the city from Victoria on the Prince George this morning to pay one of his periodical visits to his constituents. He expects to spend several days here and may visit other points in the district before returning south.

"I am always glad to be in Prince Rupert," commented Mr. Pattullo as he stepped off the steamer. "Everybody is always so cordial here as I see the Weather Man is too. While

T. D. PATTULLO

is visiting constituents here before embarking upon year's tour of province.

my visit here at this time is the usual post-session visit, it is also the beginning of a province-wide tour which will cover all British Columbia—north, south, east and west, including the Peace River. I expect it will take pretty well this whole year to cover it."

While he felt that he was already familiar with all parts of the province, Mr. Pattullo stated that he desired to keep in close touch with changing conditions, needs and requirements of every district.

"Notwithstanding general untoward conditions," said Mr. Pattullo, one cannot despair of British Columbia. The world, in general, is passing through a new orientation. Everything that is transpiring everywhere has its effect in the sum total both of existing conditions and viewpoints.

"This is essentially a time for evolution."

Alaska Lumber Interests Succeed In Having Excise Placed on Fibre Board Containers For Fish Packing

JUNEAU, April 29:—Designed to protect the Alaska lumber industry, the Ziegler twelve-cent excise measure was approved twelve to four by the territorial House of Representatives yesterday. The bill would tax fibre-board boxes shipped into the territory for use in packing Alaska's fish and food products.

The bill, designed to limit the seasonal fish packing industry to an eight-hour working day was tabled on a vote of ten to six. It is not believed the measure will be revived.

The bill repealing Alaska's Bone Dry Law, subject to approval of the United States Congress, was sent from the House to Governor Parks who is expected to sign the measure.

Pattullo Discusses Recent Session and Latest Tolmie Acts

One Per Cent Universal Tax Not Even Necessary if Common Sense Had Been Used, Says Liberal Leader; Politics in Mothers' Pensions

"Speaking politically, the recent session of the Legislature was, unfortunately, productive of no legislation of a general character beneficial to the people at large," declared T. D. Pattullo, M.L.A. for Prince Rupert and Leader of the Liberal Opposition in British Columbia, in the course of an interview this morning following his arrival from Victoria on a visit to his constituents here. "On the contrary, such measures as were passed were of a most iniquitous character. The universal one per cent tax is monstrous in its application and should have been totally unnecessary if the administration had exercised even a small degree of common sense.

Inebriated with the power of authority, the government row piled expenditure upon expenditure and now every niche and corner of the whole body politic is being searched and made to pay toll.

"Another vicious piece of legislation," was the way in which Mr. Pattullo described the doing away with the former Mothers' Pension Board and the creation of a partizan board to be administered by a new official described as the Superintendent of Welfare. The former board, Mr. Pattullo pointed out, consisted of the Workmen's Compensation Board and a woman member. The board was then free from all partizanship. "The new board," Mr. Pattullo declared, "is entirely partizan in the person of the Superintendent of Welfare under the provincial secretary. It is a pity that a measure such as the Mothers' Pension Act should be thrown into the vortex of partizanship. The administration of the act, moreover, will now cost three times what it did under the old board."

IMPROVEMENT EVERYWHERE

All the information reaching here from outside points indicates that there is a slight improvement in industrial conditions throughout the English speaking world. In Britain the Chancellor of the Exchequer in his budget speech spoke of the "anticipated general recovery of trade." Down the coast there is an improvement and in the east the factories are in many cases increasing their output and some new factories have been opened.

In Prince Rupert the arrival of the grain ships is helping out the employment situation and the arrival of more fish boats is also having a good effect on business generally. From now on there should be steady improvement and there is no great reason to fear for next winter.

ONE ON THE NEWSPAPERS

The Conservative newspapers in Quebec were the victims recently of a forgetful minister of the crown. Hon. Maurice Dupre of Quebec East was to have delivered an important speech and he sent advance copies of it to friendly newspapers in the French province. Unhappily, owing to delays, the solicitor-general was unable to get the floor as anticipated and he was so upset about it that he forgot to notify the newspapers. The result was that his speech was published and in some cases there were eulogistic enomiums as to its reception and it was punctuated by "Applause," and, occasionally "Loud Applause."

OPEN FISHING PORT

"For fifteen years the people of Prince Rupert have tried to encourage the halibut business in Prince Rupert and it was threatened almost with extinction under the arrangement which obtained for nearly two months this year. When that restrictive arrangement ended naturally people here were pleased," declared a local businessman to the Daily News.

The man explained that the merchants here wished to see every fisherman make good money. They had the best of the season to try out their scheme and the prices obtained were not large. Then when the prices broke and the glut of fish came both here and in the eastern market, the new concern was unable to take any of the fish and the fishermen had to turn to the men whose business they had tried to kill. These wholesalers treated them very well under the conditions in which they found themselves. Naturally the people of Prince Rupert were glad to see the fish coming to the port once more and the dealers doing the fair thing after the treatment they had received.

PREVENT GLUT OF HALIBUT

During the time that the United Pacific Fisheries were operating here an effort was made to prevent a glut of halibut at one time by holding back boats and thus co-operating with the buyers in helping to maintain prices. Possibly under the changed conditions this sort of co-operation might be continued. It would mean higher prices for the fishermen and that is what everybody wants to see.

If buyers and fishermen can arrange to be mutually helpful to each other, the same ends may be secured as by the recent co-operative buying plan. We suggest that frequent consultations and a generally helpful attitude would possibly do something to make conditions better at this port.

What a great and glorious feeling it is to have earned a hundred dollars and to be drawing the check and going off down town with it in the hip pocket of your jeans.

WHO'S WHO

Hon. W. M. Lea

HON. WALTER MANFIELD LEA has the distinction of being the first farmer premier of the purely agriculture Province of Prince Edward Island. He was called to this position in 1930 when the premier of that day was elevated to the Supreme Court Bench. He is chairman of the Prince Edward Island Provincial Committee of the World's Grain Exhibition and Conference.

Mr. Lea was born in Victoria, Prince Edward Island, in 1874, receiving his primary education in his own home district. He has represented Prince County in the Prince Edward Island governing body since 1915 and entered the government in 1919 as Minister of Agriculture.

In the general election of 1923, Mr. Lea suffered defeat but four years later was re-elected and again went into the government as Minister of Agriculture. In 1930 he was called upon to assume the premiership.

Mr. Lea is a practical farmer and is also known as a breeder of pure bred Holstein cattle.

LETTER BOX

ENFORCE SCHOOL ACT

Editor, Daily News:
In your issue of the 28th inst. you head an article "To Enforce School Act."—Police to check up on Parents Whose Children Are Not Attending."

I would say that this is not quite correct, as the board of school trustees and the secretary have been doing this work for the past few years, with very little help from the police.

In this particular instance the secretary, who visits the schools practically every morning, was informed by one of the principals of our schools that this boy had been absent for most of the week, and the secretary on making enquiries learned that the boy was hanging around Cow Bay floats. This being shortly after one-thirty p. m., the secretary went to Cow Bay and after considerable searching found the boy and took him to the principal. After appearing before the principal the boy was told to report to his class teacher, which he failed to do, and as he was away again on Monday morning the board of trustees laid the information before the police, who issued summonses for the parents; appearance in court to endeavor to make the boy attend regularly and to save further trouble.

I might say that this is not the first case of this kind by any means as truants have been looked up by the secretary ever since his appointment, and I think that it is hardly fair to the Board of Trustees to head an article in this manner, as careful check has always been kept by the board of truants, and as there is no official truant officer here, the board have been in most cases successful in their endeavors to handle truant pupils competently.

Thanking you for the space,
Yours truly,
BOARD OF SCHOOL TRUSTEES
J. O. Williamson, Secy.

EMPLOYMENT PROBLEM FOR YOUNG PEOPLE

Editor, Daily News:
At various times we see complaints in the papers about so many married women being employed in stores, offices, laundries, etc., whilst so many of the younger folks cannot get employment. It is not fair in these times for employers to encourage this sort of thing and then expect to have the respect of the Public at large when parents who have brought up families in Prince Rupert and have given them the best education possible are obliged to let their children go out of town to get employment because it is too much trouble for the people to give them a start.

I have heard it sated that one cannot trust the younger folks. That, to my mind, is a vain excuse. These people should remember that they were young once, and if someone had not given them an opportunity, where would they be today?

There are cases where the married woman, through no fault of her own, is the bread-winner. They are the exceptions; but, one knows that in some instances people are holding down two or three jobs whilst others are going hungry. I think it is only fair that this should be brought to a halt.

Thanking you for your courtesy in the past.

"JUSTICE."

NOT RESIGNED

Editor, Daily News:
Glancing through the "News" the other evening I was astonished to read that I had resigned my position as Clerk to the Municipality of Terrace. Will you please publish the fact that there is no truth in it but that, on the contrary, I like the work and hope to stay on the job for a long time.

Yours truly
N. SHERWOOD,
Clerk Terrace Municipality.

Travel Movies Interest Gyro Club Luncheon

A series of highly interesting travel pictures, loaned by the Canadian National Railways for the occasion, were exhibited before the Prince Rupert Gyro Club at its regular monthly open luncheon yesterday in the Commodore Cafe. The moving picture machine was operated by William Cruickshank, city passenger agent, and the reels depicted views in the West Indies, Montreal and Stuart Lake, some exceptionally fine trout fishing pictures being shown in the last mentioned.

Another feature of the luncheon was the drawing for a \$50 Victory Bond, the winner of which was W. M. Watts.

President C. C. Mills presided over the luncheon and there were several guests.

VAN DER BYL IS SUING AIRPLANE OPERATING FIRM

As a result of the search last fall for the late Capt. E. J. A. Burke, a case has arisen in County Court in Vancouver in which R. I. Van Der Byl, air pilot, is claiming \$145 from the Air Land Manufacturing Co., owners of Burke's plane.

Van Der Byl claims this amount as compensation at the rate of \$125 per month for ground pay after having been marooned on Thutade Lake after Pilot W. A. Joerss had flown off to prevent a rescue plane from being frozen in. The defendant company disputes his right to ground pay.

Judgment has been reserved by Judge Ruggles.

NEWS OF THE MINES AROUND PRINCE RUPERT

Prospectors Turn to Placer Mining—B. C. Silver Issues Report—R. G. Mellin Dies

Douglas Lay of Hazelton, resident engineer for the northeastern mineral survey district, visited Vanderhoof a few days ago to discuss with owners of mineral properties lying north and south of Vanderhoof the best time for inspection of these properties. Mr. Lay stated at Vanderhoof that a very busy field season was expected this year despite depression in the metal markets. There was widespread evidence of the fact that the prospector generally is not taking the present dull mining situation lying down but is making more efforts than ever to uncover mineral wealth, the resident engineer said. Many prospectors had directed their efforts towards placer mining and, in a praiseworthy manner, were endeavoring to combat the stagnation in base metal mining by earning a living in this way. The Skeena River had witnessed considerable small-scale activity in this direction. Mr. Lay reported that discoveries of George Snell on tributaries of the Nation River appeared to have aroused considerable interest on the outside.

The Stewart Board of Trade has endorsed a resolution passed at the recent session of the legislature in Victoria making for the stabilization of the price of silver and has passed the same on to Olof Hanson, M. P. for Skeena, and the federal minister of mines.

CRASH IS PATHETIC

Little Gift Lamb Caused Airplane Tragedy For Wealthy Seattle Business Man

SPOKANE, April 29.—An official investigation has revealed that Thomas D. Stimson, wealthy Seattle business man, who was killed on Sunday when his plane crashed in the Washington Okanagan district, lost his life by one of the strangest and most pathetic pranks of fate in the history of aviation in the country.

It has been revealed that a little woolly lamb, which Stimson had bought in Spokane as a gift for his children, became jammed in the controls of the plane, the unfortunate man evidently losing control of the machine and crashing to the ground.

RECALL IS PROCEEDING

Petition Against Mayor Frank Edwards is Filed in Seattle

SEATTLE, April 29.—First recall petitions against Mayor Frank Edwards were filed here yesterday by the Citizens' Municipal Protective League, the organization claiming that it had 24,000 signatures appended to the petition.

The Protective League also appointed a committee yesterday to go into the proposal for city management. The idea is to get necessary information with a view to making a civic issue of it.

Another event in municipal affairs yesterday was the nomination by the mayor of Burton B. Pierce to succeed John D. Ross as superintendent of the city light department. It will be the fifth nomination to be presented to the council by Mayor Edwards and the expectation is that the council will file this latest one at its meeting next Monday, without necessarily rejecting it as was done with the mayor's four previous nominations.

PATTULLO ARRIVES

(Continued from Page One) everybody to try and think. There has been too much guessing and too much dependence upon hope rather than reason.

Notwithstanding seeming conditions, I believe that the world is each day becoming better equipped to cope with innumerable complex questions vitally affecting its many peoples. But the evolution of world problems is a long drawn out affair and, meantime, we have to keep the spark of life aflame by putting food into our stomachs. This is a very immediate problem and I am sorry indeed that too many people in British Columbia are having some pretty hard scratching at the present moment.

The opening up of summer activities, even if not on such an extensive scale as usual, will, nevertheless, be helpful.

J. Freeland of Giscome has been appointed a justice of the peace, the B. C. Gazette announces.

FIVE CASES COMING UP

Several Criminal Hearings to Be Held at Session of Assizes Here Next Week

Including two murder charges, there will be five criminal cases coming up for jury trial at the spring session of the Supreme Court Assizes opening here on Monday next. A. M. Johnson K.C. of Victoria will be the crown prosecutor. The cases are as follows:

Rex vs. Samuel Douse, charged with murder of Samuel Brown, at Kitwanooc.

Rex vs. Sigurd Jussila, charged with murder of Charles Yoch at Houston.

Leo Contoli, Prince Rupert, Statutory offence.

Charles Olsen, Prince Rupert, wounding.

Fred Wiggins, Burns Lake, arson.

Inspector John Macdonald and Constable G. A. Wyman arrived from Vancouver this morning, bringing Douse, Jussila and Olsen, who have been at Okalla awaiting trial. Contoli and Wiggins have been out on bail.

BURGLAR IN STORE

Joe Brown Robbed of \$26 in Cash as Well as Cigars and Cigarettes

Some time during last night or early this morning Joe Brown's confectionary store was entered by a thief who got away with about \$26 in cash from two cash registers as well as a quantity of cigars and cigarettes. Entry was made by sliding up a rear window. The police are investigating.

PRINCE GEORGE CASE GOING TO SUPREME COURT

J. W. deB. Farris K.C., J. A. MacInnes and D. N. Hossie, Vancouver lawyers, have left the southern city for Ottawa to appear as counsel before the Supreme Court of Canada in a case in which Mrs. Elizabeth Overn, Vancouver, seeks judgment, in accordance with a jury's verdict, for \$11,000 against P. E. Wilson K.C. and J. O. Wilson, Prince George lawyers, and Hudson Bay Co. and Sheriff E. Peters for alleged illegal seizure of contents of a trading post at Whitewater, north of Prince George. Mrs. Overn's counsel is Mr. MacInnes. Mr. Hossie appears for the Hudson Bay Co. and Mr. Farris for Messrs. Wilson and Wilson.

Andrew Peterson, James Murphy, Magnus Carlson and Knut Jorgensen, charged with creating a disturbance by singing and becoming generally hilarious on vacant lots on First Avenue last night, appeared in city police court this morning on charges of creating a disturbance and were each dismissed with a warning by Magistrate McClymont.

LEAGUE BASEBALL IS AGAIN ASSURED IN CITY THIS YEAR

FOURTEEN INNINGS

But New York Yankees and Washington Senators Fail to Break Tie

CLEVELAND, April 29:—The Cleveland Indians stretched their margin of leadership in the American League yesterday to one and a half games by winning a close victory over St. Louis Browns. The game between New York Yankees and Washington Senators was called in the fourteenth inning on account of darkness with the teams on even terms and unable to break their deadlock for second place.

Chicago Cubs and St. Louis took a technical lead over Boston Braves for first place in the National League. The Cubs with the Cincinnati Reds were idle on account of cold weather. The Cardinals had an easy win over Pittsburgh Pirates while the Braves were dropping a close decision to the Phillies. The demoralized Brooklyn Robins lost again to New York Giants.

Cold weather also prevented the Philadelphia - Boston American League game.

Three Teams Signify Intention At Annual Meeting of Ass'n and Outlook Is Bright For Good Season

Senior league baseball activity, with at least three teams entered, was assured at the annual meeting of the Prince Rupert Baseball Association which was held last night in the City Hall. Considerable enthusiasm for a successful season in 1931 was manifested by all present. There is quite as much good baseball material in the city this year

as there has been in past seasons, it was asserted. The three teams that are already expected to enter are Sons of Canada, Elks and Centrals, the last mentioned team being again sponsored by Andy Donald. Sons of Canada have not actually entered a team although it is expected they will officially sign up next Monday.

Ald. G. W. Rudderham finally yielded to persuasion and agreed to be president of the association for another year. The following slate of officers was elected: Honorary President, Mayor Cyril H. Orme. President, Ald. G. W. Rudderham. First Vice-President, Ald. S. D. Macdonald. Second Vice-President, H. G. Kennedy. Secretary - Treasurer, "Douglas Frizzell.

A meeting of the executive will be held next Monday to consider entries for the league. A delegation consisting of H. G. Kennedy, Douglas Frizzell and William Mitchell was appointed to interview the city council at its next meeting with a view to having necessary repairs made on Acropolis Hill grounds.

SOFTBALL IS PLAYED

Bert Unger's High School Team Beats Billy Vance's 7-4

In the High School softball game played yesterday Bert Unger's team defeated Bill Vance's team by a score of 7 to 4.

In the first inning good fielding on the part of Palmer, Bussanich and Wilson quickly retired Unger's side. At bat these three players showed equal prowess for each hit safely and eventually scored, the last two coming in on Greer's two-base hit.

Vance's team came up with a spurt in the second when Cross, Hanson, Arney and Murdoch scored. In the field this team retired the other side without delay.

The fourth inning honors went to Unger's team when three runs brought their total up to seven. The other team was unable to make any score.

Wilson was the most notable player in the final inning. In the field he caught out two men. At bat he hit safely. He was brought in when Allen drove hard to the left field. This score brought Vance's total up to four against Unger's seven.

BRINGING UP FATHER

6 HOURS LATER

Criminal Robs Church Poor Box

Finger Print Told Who He Was. Arrest Followed

On a winter night a man stood in the doorway of a Church in Toronto. He looked furtively about, then hurried into the shadows where the Poor Box stood. He coveted the few coins the Church had collected for the poor. He broke open the box, took the money and ran away.

The police found him. They took his finger prints. Then they let him go on suspended sentence. Careful police officers took time,

however, to compare his finger prints with those on file of known criminals. They found his were identical with those of a man who had escaped from Westchester Penitentiary, in New York State.

Word came that he was loitering near another church. He was soon re-arrested by detectives and put behind bars. He could not escape his finger prints. They held danger for him.

Your Prints are Dangerous

You say "I am not a criminal—how can my finger prints hurt me?" Of course you are not a criminal but your prints are dangerous in another way. Your fingers touch articles in a store, in an office, in your home. They pick up germs left there by other hands. Hands which may have checked a cough or a sneeze and become infected with "Flu" germs.

27 Germ Diseases

You leave those germs on everything you touch—on food, for instance—on fruit, a chocolate or a cookie. Your hands convey them to your mouth and so they get into your system. If you are in a weakened condition you may fall ill. Life Extension Institute states there are 27 germ diseases which may be conveyed in this way. Children may be the victims.

But we can kill these germs before they reach our food. Lifebuoy Soap is made specially to do that. It contains a germicide.

Keep your hands germ-free with Lifebuoy Soap—before a

meal or when you go out. Scientists have proved that the lather from Lifebuoy either kills all germs or makes them inactive.

Luxury and Safety

Revel in the glorious, creamy lather of Lifebuoy. It is a luxury soap—made from two palm oils. No soap was ever created that will do more for your skin and complexion. Yet it offers real protection against germ infection. No perfume, but a refreshing, extra-clean scent of safety that disappears at once.

Body odours are banished. Before you go out in the evening or before you start the day, bathe with Lifebuoy. It makes you safe from body odours for many hours.

Millions are now enjoying Lifebuoy's protection every day. Keep a cake of Lifebuoy Soap on the wash basin, always. Then it will be easy for the children, the whole family, to benefit by its protection. Your dealer has Lifebuoy ready for you. Order a good supply today.
