Federal Government is to Make Formal Inquiry Into Grain Situation

Royal Commission to Look Into Grain Marketing in Canada—Value of Exchange to be Probed

WINNIPEG, March 4:—The Winnipeg Free Press yesterday said: "The appointment of a Royal Commission to inquire into grain marketing by the federal government, it is learned on excellent authority, has been decided upon." The newspaper says that three paramount problems will be investigated, namely, should the Grain Exchange be retained or abolished, if retained, should trading in futures be continued, would the establishment of a 100% grain pool be conducive to more orderly marketing and be more satisfactory than the Grain Exchange and pool method?

OTTAWA, March 4:—The Dominion government, it is learned, has made no final decision on the suggestion for a Royal Commission to investigate wheat marketing.

Man Says That Flying Machine Went By Nine Mile Mount Saturday

Van Der Byl, Joerss and Kading Have Been Missing Four Days on Hop South From Telegraph Creek—May Search Soon

That the plane of the late Capt. E. J. A. Burke, being flown from Atlin to Vancouver, may have come down close to Hazelton in its Telegraph Creek-Atlin hop last Saturday, seems possible in view of a report which has been received today by the Government Telegraphs to the effect that a man named Paul Penn saw a plane flying over Nine Mile Mountain, nine miles north of Hazelton, on Saturday evening. It is believed that it was the Burke plane in view of the fact that there would be no other flying machines around the country at that time. It is very likely that, if the plane does not show up within the next few days, a search will be instituted. On board the plane were Pilots R. Van Der Byl and W. A. Joerss and Air Engineer Emil Kading.

SHORT DAY WORKS OUT

New Policy Meeting With Success in Ford Plants at Detroit

MIAMI, Fla., March 4:—Edso Ford, son of Henry Ford of Detroit, stated here yesterday that the short week plan was working out well in his father's automobile factories at Detroit and that other manufacturers were adopting the idea. The younger Ford said that 80,000 men were now being employed five days a week in the Ford plant at Detroit.

H. R. MacMillan, Bank Director, Is Visitor to City

H. R. MacMillan, head of the MacMillan Export Co. of Vancouver and part owner of the Big Bay Lumber Co. here, arrived in the city on the Prince George this morning from Vancouver, being here on business in connection with his local interests. It is Mr. MacMillan's first visit here since he was appointed a few months ago to the board of directors of the Canadian Bank of Commerce and he is receiving congratulations of many local friends on being so appointed.

ACTION IS DEFERRED

Public Opinion Proves Too Strong For City Council of Victoria

VICTORIA, March 4:—Because of apparent pressure of public opinion against what was termed a drastic advance in the tax rate, the decision of the city council a week ago to set the year's tax rate at 48 mills on the dollar, an increase of seven and a half mills over last year, has been rescinded. The council has now voted in favor of postponing action for at least two weeks.

PRINCE IS INVITED

Wales to Be Asked to Open Big Wheat Show Next Year in Regina

OTTAWA, March 4:—The possibility of the Prince of Wales visiting Canada next year is seen in an invitation which Sir George Perley will extend to His Royal Highness at Buenos Aires within the next few days. He will ask the Prince to open the International Wheat Exhibition and World Conference at Regina in 1932.

ORDERED TO JAIL

Sensational Order Issued Laid Against Wilfrid Hanbury, M.P. For Burrard

VANCOUVER, March 4:—An order committing Wilfrid Hanbury, M.P. for Burrard, to jail for ten days was made in County Court yesterday when he failed to appear in answer to a summons. Hanbury is believed to be en route to Ottawa to attend the session of Parliament.

It is stated that some time ago John Greed obtained a judgment against Hanbury for \$217 in connection with a promissory note. A summons was issued requiring Hanbury to appear in court for examination when the judgment was not paid.

Hanbury, however, failed to heed the summons, it is alleged.

VANCOUVER, March 4:—With parliamentary immunity extending some time before and after the session of the House of Commons, the 10-day committal order made yesterday by Judge Ruggles, can not be executed against Wilfrid Hanbury, M. P. for Burrard. It was announced that the committal order will be placed in the hands of the sheriff for the apprehension of Mr. Hanbury when he is no longer protected by Parliamentary immunity.

LABOR'S GOOD WORK

There is a good deal of dissatisfaction in Britain over the increase of unemployment and the huge cost of the dole system, but to offset against this is the immense value, not only to Britain but to the Empire and to the whole world of the foreign policy of Ramsay MacDonald. It was his initiative that settled the differences between Italy and France, it was he that arranged the conference which led up to the treaty with United States and Japan and now it seems probable that the India troubles may be settled by the same government. It will also be remembered that Phillip Snowden, outstanding in the present administration, won the gratitude of the whole country just after assuming office by settling the reparations controversy very advantageously to Britain.

At a time when one hears the Labor Government of Great Britain denounced a great deal and when the political situation seems to be framed against them with a likelihood of their going out of office after the next election, it is well for the people of Canada to remember this splendid work that they have done in international affairs.

WHY BE FEARFUL

At one time people were fearful that if Ireland were given equal standing with Britain politically, that country would be a constant source of danger. Their fears have been shown to have been groundless. So it may be with India. Many people think a policy of repression is the only one for that country. But India is changing rapidly and it may be that the fears in regard to India may be just as groundless as were those for Ireland.

While the Irish people cannot well be compared with the illiterate masses of India, there are indications which point to changes taking place in India which will make them capable of self-government.

The Anglo-Saxon people find it difficult to understand the mind of India. They are fundamentally different. The Anglo-Saxon is practical; the native of India more spiritual. We are apt to look down on the people of that country when it is possible our eyes may have the wrong slant and if we turned them upward we should discern more clearly.

WHO'S WHO

Hon. W. R. Motherwell

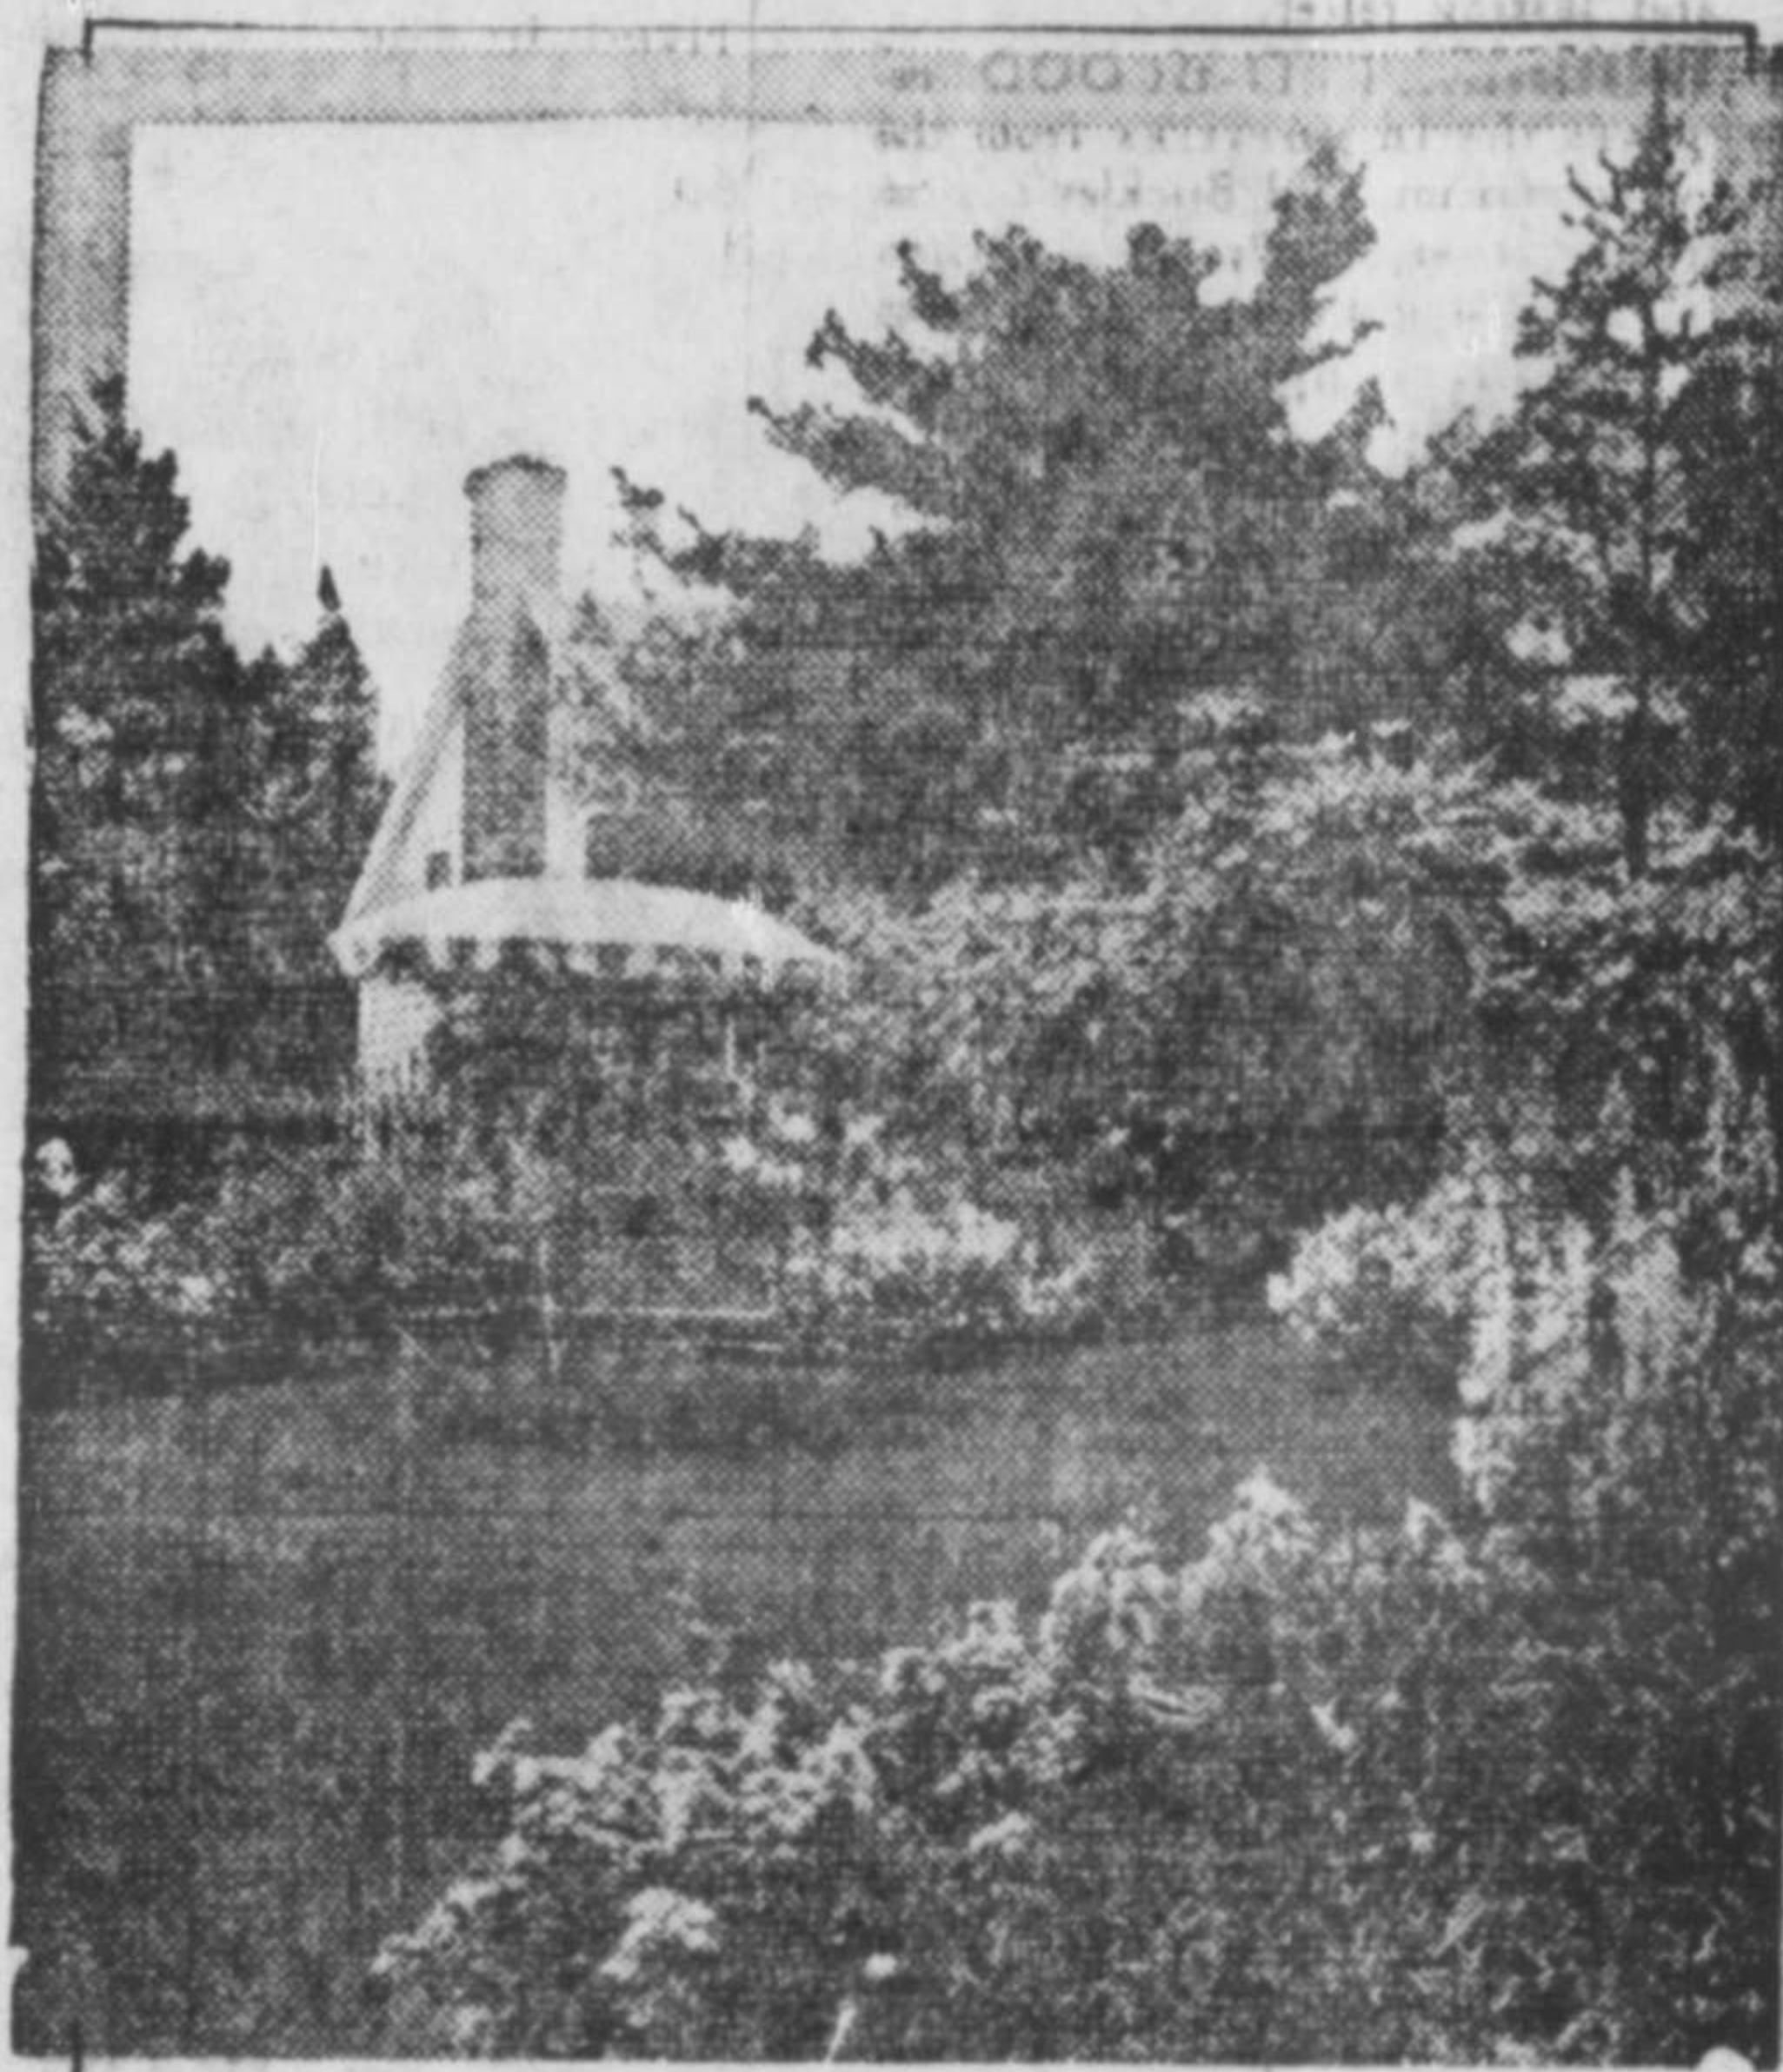

WITH a record of nearly half a century of labor in the interest of farmers and farming industry, Hon. W. R. Motherwell, former Minister of Agriculture for Canada, is a member of the Executive of the World's Grain Exhibition and Conference. When the Exhibition and Conference was organized three years ago Dr. Motherwell, by virtue of his position as head of Canada's Agriculture Department, became the chairman of the National Committee. Recently, upon his retirement from the Dominion Government, he was appointed to the Executive Committee of the World's Grain Show in order that he might continue to give to the forthcoming world-wide event the benefit of his long agricultural experience.

Hon. Mr. Motherwell was born in Lanark County, Ontario, in 1860, and after attending public and collegiate schools in that district took a two years' course at the Ontario Agricultural College. In 1882 he migrated to the West, locating on a homestead in the Abernethy, Saskatchewan, district, where at the present time he owns and operates one of the most attractive farms in the West. Untiring in his efforts on behalf of the farmers of the West in the early days he soon found a place in the public life of Saskatchewan and was elected to the Saskatchewan Legislature for the Province for 13 years. In 1921 he was elected to the House of Commons and entered the government of that day in charge of the agricultural department. Dr. Motherwell is an honorary member of the British Society of Agriculture. In 1923 he was given the degree of LL.D., from the University of Saskatchewan, and also holds the order of Commander of Agriculture Merit.

This Is Time To Plan The Garden For Season

Living in the Garden

Many mothers like to sit and read or work in a sheltered corner of the garden which some people, even in these northern climes, designate "an outdoor living room." Sometimes the noonday meal may take the form of a picnic taken only a few feet from the door. It must be a sunny corner and well sheltered from the wind. The children take great enjoyment from this type of garden. Plans should be laid now for such an outdoor corner. It must be dry under foot and the grass should be kept well mown and the edges trimmed.

Color in the Garden; When and Where You Want it

It's really very simple to arrange your garden for a sequence of bloom if you consider the blooming season of each group of plants as being a separate Act in the Great Garden Show, and your outdoor living room as the setting for this colorful exhibit. Of course, you need no printed program to tell you that the bulbs will be the opening number. Mother Nature is most lavish with gay colored costumes and this first Act gives ample promise of the splendor that is to follow. The vivacious little Crocuses and Snowdrops make the first brave start even while the last wintry traces of snow remain. The other bulbs then take courage and soon there are dazzling Jonquils and Daffodils, charming Narcissus and delightfully fragrant Hyacinths, as well as Scyllas, Chionodoxas, Muscari and Fritillarias.

The second Act is devoted to the richly colored Tulips, for they will hold the stage for over a month. Assisting the Tulips are some of the earlier hardy flowers—Bleeding Heart, Geum, Wallflower, Primula and Forget-Me-Not. Outstanding in the third Act are the ever lovely Irises. Of course, the early bloomers of this family have already been seen in April when the Dwarf Pumila Irises have made their appearance in the rocky and in border edgings at the feet of the taller Germanica class. It is to the lovely "Fleur de Lis" of France (Iris Germanica) that this flower family owes its popularity. So fragile its beauty, so remarkable its wide range of color, and so generous its array of bloom, that it is often called the "Poor Man's Orchid." Although this group is content to grow in most any location, it dies its best in a sunny, well drained location, as its multitude of blossoms will testify!

Several other garden favorites occupy the stage with the Irises, namely, the Columbines, Oriental and Iceland Poppies, Anchusa, Pain-

ted Daisies and Blue Flax. Peonies closely rival the Rose. They make more pretentious show of bloom, are harder and more easily cultivated. Act five has the Delphinium as its leading lady, with a chorus made up of Sweet Williams, Pinks, Valeriana, and Lupines. The superb shafts of Delphinium bloom in every imaginable tint and shade of blue, lavender and purple are the gardener's joy for the first three weeks of June. After the first breathless interest in these extraordinary flowers has been somewhat lessened other favorites are noticed in this scene—Foxgloves, Callardias, Coreopsis, Canterbury Bells, Scabiosa—and of course, the charming Roses.

Hollyhocks bloom in early July, and with the Shasta Daisies, Stokesia, Platycodon, Physostegia and Achillea the Pearl make up the next Act. The finest of midsummer flowers the Phlox, also comes into bloom about this time, and if they are judiciously pinched back and faded flowers removed, a constant succession of bloom may be had until frost. Hardy Sweet Peas, Baby's-breath, Tiger Lillies and Golden Glow contribute their share to color to this Act. As the closing feature of this garden show there are the Asters with their myriads of sparkling blooms, and the sturdy Chrysanthemums in the single, double and pompon types. Jack Frost rings down the curtain amid the rainbow colors of the 'Mums, and another Garden Show is over. Such a display of bloom does not result from an indifferent selection and grouping of the plants. The stage must be carefully set before any of the Acts are to appear, or there will be only spasmodic flares of bloom during the season. Make your plans now to enjoy your outdoor living room this summer brightened with the radiant loveliness of colorful flowers—not just now and then, but throughout the entire season.

GROWING FLOWERS IN PRINCE RUPERT

Flowers come to a high state of perfection in Prince Rupert if suitable varieties are chosen and a reasonable amount of care taken in growing them. The display put on at the fair last year by local growers indicates that at few places on the continent can better dahlias, asters, pansies, gladiolas and many other flowers be grown than right in this city.

Already much interest has been aroused here in gardening and the interest is spreading. The home without a garden is not a real home but simply a house. It is more or less of a blot on the city. No matter how rich the furnishings within it can never make up for an untidy and weed-stocked front yard.

The Daily News will from time to time be publishing articles on the growing of flowers. They will be written by experts who have themselves made a success and should prove helpful to flower growers.

Any local people who would like to write of their experiences or who might prefer to drop into the office and tell about them would also be helping on the cause.

Garden Talk

When you begin to garden have a definite object in view. Make a comprehensive plan of development.

Ground Covers For Steep Banks

There are various types of plants suitable for growing on steep banks where grass often fails to grow, many of which bear attractive flowers. Japanese Spurge forms a fine evergreen ground cover in shady locations. Once it becomes established it makes a perfect mat, and in April greenish yellow flowers appear. Another excellent evergreen plant which may be used where it is too shady for grass or other plants is the old-fashioned trailing Periwinkle which has little blue flowers in May. An attractive vine that is much used as a ground cover in partially shaded locations is Hall's Japanese Honeysuckle. Its abundant flowers are a colorful intermingling of white and yellow and they are extremely fragrant. All these plants spread quickly if their stems are held in place with pebbles, clods or wire hairpins.

We throw out the cut flowers when they wither and fade. Why not replace some of the growing plants which had not done so well outside.

Late flowering trees and shrubs may be pruned but leave early blooming varieties until their flowering season is past. Early blooming kinds produce their flowers from buds that developed last year, and if pruned before they have bloomed the flower crop will be reduced. On the other hand, late bloomers develop their buds this year and do not suffer when pruned in spring.

There are just three easy-to-remember principles of correct planting—(1) Plant in masses; (2) avoid straight lines; (3) leave centres open.

Don't let so-called "bargains" in grass seed tempt you. Good seed is never obtainable at a bargain for it doesn't have to go begging. Good seed is the basis of a good lawn and you can't expect a neat velvety lawn to result from seed obtained at a "bargain."

HAVE YOU TRIED A CLASSIFIED?

More and more people are turning to the classified columns of the Daily News to find what they want. Used cars, furniture for sale, lost and found, houses to rent or for sale, positions wanted. Spring Planting is Best; Plan For it Now

Practically everything in the way of herbaceous perennials, trees, shrubs and evergreens can be planted in the spring. In fact, early spring planting, is considered the best all-around season for planting. At that time the soil is warm, it can be easily worked, and if the plants are set out early they will receive the benefits of all the spring rains and become quite well established before the hot days of summer.

There are only certain hardy herbaceous perennials which are considered to do best if planted in the fall, and most of these can be planted early in spring if they are handled carefully. Those few which are said to take more kindly to fall planting are the early spring flowering varieties such as Bleeding Heart, Columbine, Hepatica, Iris and Peonies. Practically all the hardy lilies with the exception of the Madonna Lily can best be planted in the early spring.

The important thing to remember in the spring planting of hardy herbaceous perennials is to select varieties suited to the soil and conditions under which they are to grow, and then prepare the soil to a depth of 18 inches if possible. All hardy flowers respond beautifully to good soil where they can send their roots down to a considerable depth without interference.

Trees and shrubs are planted more often in the spring than at any other season. In fact, a few shrubs such as Butterfly Bush, Sweet Shrub, Sumac, Stephanandra,

When a recipe calls for MILK... Use ST. CHARLES!

LIKE thousands of other Canadian housewives, you will soon discover that St. Charles Evaporated Milk is your best cooking friend.

St. Charles is sterilized, pure country milk, produced from fine, selected Canadian cows—nothing but 60% of the moisture is removed. This process of evaporation leaves all the cream, all the nourishing healthful contents in concentrated form, thus improving the flavor of your cooking and giving a richness that both you and your family will enjoy.

Send us your name and address and we shall be glad to mail you a copy of the new authoritative Cook Book we have just compiled.

Halibut Price of New Concern May Not Be So Good

The local branch of the Deep Sea Fishermen's Union has been advised that F. J. Kwapi, manager, and possibly other officials of the United Pacific Fisheries, which is endeavoring to make an agreement for purchase of local as well as other Pacific Coast halibut arrivals, will be here on Friday instead of on Wednesday, as was at first expected. It is understood that the prices may not be so favorable to Canadian fish as was at first thought and there will be discussion with company officials on this point.

New Quarters For Scouts at Terrace Opened

TERRACE, March 4.—The Terrace Boy Scouts went into their new quarters in the commodious cabin at the rear of the Sparkes residence on Friday night, there being 15 boys present and all intent on putting up a real celebration of the birthday of Gen. Baden Powell, chief scout.

The evening's doings began with a banquet to which full justice was done. Scoutmaster S. Kirkaldy gave the toast to the King and Assistant Scoutmaster J. Sparkes submitted that to the honor of Baden Powell, while Freddie Nash proposed, Canada.

Assistant Scoutmaster Sparkes then gave a lantern lecture illustrating events at the commencement of the Boy Scout movement and the great part played in it by Baden Powell. A number of boys who had passed their tests were presented with badges, these being: Safety test, Bruce Smith, Harry Attree, L. Llewellyn and W. McLeod; medical, Smith, Attree and Llewellyn. At the conclusion of the proceedings games were resorted to and the whole concluded with the singing of the national anthem.

IF BABY HAS COLIC

COLIC comes suddenly. Your first intimation that something is wrong may be a warning cry in the night. If you have a bottle of Castoria handy you needn't worry, for a little of this pure vegetable remedy will soon have baby his happy self again; let him go back to sleep.

Castoria is always the sensible thing to give an ailing child. When a child is restless, fretful, with coated tongue, bad breath and lack of appetite, it is a mother's standby. Most mothers give Castoria an important place in their homes. Ready for sour stomach, constipation, or upset. When buying Fletcher's Castoria always look for Chas. H. Fletcher's signature on the wrapper. This identifies the genuine product.

CANADIENS WIN AGAIN

Ottawa Senators Their Victims in Tight Game Last Night—Toronto and Boston Victorious

OTTAWA, March 4.—Montreal Canadiens continued their winning ways at the expense of the Senators here last night but were held to a one to nothing count by the lowly locals. Leduc scored the only goal of the game in the second period.

In the other games, Toronto Maple Leafs came up from behind to defeat the lowly Philadelphia Quakers 5 to 1 while Boston's jinx held good over the New York Rangers as the Bruins handed the New Yorkers a 4 to 1 defeat.

GATE WILL BE SMALL

Only \$75,000 is Expected For Primo Carnera-Jim Maloney Mix in Miami

MIAMI, Fla., March 4.—The Primo Carnera-Jim Maloney bout here on Friday is not expected to attract any more than a \$75,000 gate which is not so large as heavyweight receipts go in this day and age.

Heavy rains during the past few days have tended to dampen the enthusiasm considerably.

BOX BILL IS VETOED

Governor Hartley Returns Measure to Washington State Senate

OLYMPIA, March 4.—Governor Roland H. Hartley yesterday returned the American Legion boxing bill, authorizing six round bouts in this state and providing for the setting up of a state commission to govern boxing and wrestling in Washington, to the Senate. The governor based his veto on the belief that the measure would give a pugilistic promoting monopoly in the state and, at the same time, would benefit the American Legion little if any.

It is not expected that the governor's veto can be overridden. With the Senate having approved the measure 24 to 17 on the original vote and the House passing it by 52 to 46, it is hardly considered possible that the necessary two-thirds can be mustered up in its favor now.

PROBE MADE INTO FIGHT

New York Boxing Commission Reviews Its Decision in Petrolle-King Tut Investigation

NEW YORK, March 4.—After hearing what the principals and officials of last Friday night's bout in Madison Square Garden between Billy Petrolle and King Tut had to say about it, the New York Boxing Commission yesterday reserved its decision in regard to "peculiar circumstances" of the affair. Meantime, the purses of both Petrolle and King Tut are being withheld.

While the commission had no announcement to make other than the bare fact that decision had been reserved, Petrolle and Tut told newspapermen that only one question had been asked them and that was as to how the first knockdown of the bout had occurred.

U. B. C. to Play Washington in Hockey Series

SEATTLE, March 4.—University of British Columbia will meet University of Washington in the Ice Arena here tonight in the first of a home and home hockey series, the second game to be played in Vancouver. Between the periods, there will be racing and barrel jumping events.

British Columbia swamped Washington in last year's series and are considered likely to win again on this occasion.

Jackie Fields Withdraws From Madison Square Garden Bout On Account of Broken Hand

NEW YORK, March 4.—Young Corbett, California welterweight, has been signed up to meet Len Harvey, the British middleweight champion, in a ten-round bout at Madison Square Garden on March 20. Young Corbett takes the place of Jackie Fields, former welterweight champion, who was forced to withdraw on account of a broken hand.

LOMSKI IS OUTPOINTED

George Manley of Denver Won Hard Battle Last Night in Portland

PORTLAND, Ore., March 4.—George Manley, Denver heavyweight, won a 10-round decision from Leo Lomski, the big Aberdeen lumberjack, last night. It was a vicious slugging match and the two men put everything they had into it. Manley closed up one of Lomski's eyes in the third and it never opened again. Both boys were very gory at the end.

CLOSE PLAY LAST NIGHT

Narrow Margins in Billiard League Matches

With four of the five games of last night's Billiard League fixture between Grotto and Elks played, the tobaccoists have an aggregate lead of 980 to 922. Two extremely close games featured last night's play. In one game, William Mitchell, Elks, beat George Howe, Grotto, 250 to 249 while, in another, M. M. McLachlan, Grotto, defeated M. E. Young, Elks, 250 to 248. Individual scores were as follows:

- C. P. Balagno (Elks) 250, George Waugh (Grotto) 231.
- W. E. Willscroft 175, Don Brown 250.
- William Mitchell 250, George Howe 249.
- M. E. Young 248, M. M. McLachlan 250.
- Don Brown made a high break of 46.
- Johnson Smith and James Andrews will play the fifth game tonight.

Old Country Soccer

Ban Johnson Grows Worse

Death of Former American Baseball League President is Expected Soon

ST. LOUIS, March 4.—Ban Johnson, former president of the American League, was reported last night to be gradually growing weaker and weaker. No hope is held for the recovery of the former baseball magnate who is suffering from diabetes. His physician states that he is now delirious most of the time and the end cannot be far removed.

Newsboy Brown Won California Bantam Title Last Evening

LOS ANGELES, March 4.—"Newsboy" Brown knocked out "Speed" Dado in a 10-round bout here last night to win the bantam-weight championship of California. A clout to the solar plexus in the third round proved Dado's undoing.

His claim of a foul was overruled and Brown declared the winner. The verdict last night was the result of a recent election contest for the title in which Brown won over Brown.

They Tell the Tales of Crime

In a room at Ottawa, the Canadian Government has on file the finger prints of all known Canadian criminals. Also of many international characters. Filed with them are the records of the criminals.

When a crime occurs anywhere in Canada, and the criminal leaves a finger print, it goes to Ottawa for identification. Here are records which never tell a lie, ready to identify the man

if he has ever before been involved.

So with newly arrested criminals. Their finger prints are taken and sent to Ottawa. There, if they have criminal records, they are immediately produced. Sometimes crimes committed a thousand miles away are in this manner traced to the man in custody.

Thus finger prints, the marks we leave on everything we touch, are used to protect society.

Your Dangerous Prints

This is told to remind you of the dangerous prints you leave on whatever you touch. Not criminal prints, but prints laden with germs. You may pick up these germs from things others have touched with contaminated hands.

Your finger prints on food may be the means of carrying germs to your mouth. There they breed and multiply. Life Extension Institute lists 27 diseases which may be conveyed in this way. Colds are among them.

A hand becomes infected if it stops a sneeze. Then whatever that hand touches may convey those germs to others. The shaking of hands spreads countless colds.

Remember to wash your hands often with a germicidal soap. Do this always before touching food.

The Pleasant Way

Lifebuoy Soap forms the pleasant way to do this. It is used by

millions in every country in the world, for this purpose.

Here is an exquisite toilet soap, based on two palm oils—a creamy soap. No better soap was ever created for the skin and the complexion. But it contains, in addition, a germicide. Its application, as proved by tests, either kills germs or makes them inactive.

A bath with Lifebuoy, in a like way, stops body odour for many hours.

No perfume, but a refreshing scent of safety that disappears in a few minutes. It certifies protection to you. No fear of hand germs or of body odour. That fact will multiply your joy in a protective soap like this.

History and Mathematics Books Under Fire of Teachers Here

The regular monthly meeting of the Prince Rupert Teachers' Association was held last evening in Booth Memorial School when appointment of delegates and the consideration of resolutions for the annual teachers' convention were the chief items of business.

In addition to Miss Mercer, who is the geographical representative for Northern British Columbia, delegates appointed by the meeting were Miss O. A. McArthur, Miss K. McKay and J. S. Wilson. A representative from King Edward High School will be appointed later.

In the discussion regarding resolutions for the annual convention, the matter of separate readers for grades five and six was brought up. Several changes have been made in the contents of these books recently so that already in the same class pupils have not the same reading material. The pupils, by the time they reach grade six, have already read most of the subject matter and the book lacks that appeal of novelty that should be one of the attractions when put in a pupil's hands for the first time. The matter of reading content is also a matter that might be advantageously reconsidered. The resolution will recommend that separate readers be published for grades five and six.

The new history 'textbook' also came under fire. While the arrangement of the material in topical rather than chronological order is to be commended it was felt that the arrangement, the language and the very broad outline of treatment made it very difficult for the pupil to adequately comprehend the subject matter. Touching chiefly the outstanding events in the development of modern civilization is like travelling through British Columbia landing only on the mountain peaks. But the life of the people lies mainly in the valleys. In the hands of a pupil with a background of history the book is admirable but for the pupil attempting the study of history for the first time its value was not so evident.

The mathematics textbook was also the subject for adverse comment. Its many good points were recognized. It attempts to make arithmetic more of an every day application of the fundamental rules but it takes up such a multiplicity of details that clarity of aim is lost. It was felt that with a closer realization of its imperfections a better book would be forthcoming in a few years.

The annual convention will be held in Victoria this year during Easter week. The convention will open with a public meeting on Monday, April 6. It is expected that the Provincial Government and the Education Department will hold a special reception at the Parliament Buildings as was done when the convention last visited Victoria.

In the course of the meeting correspondence from the general secretary of the B. C. Teachers' Federation indicated that he hoped to visit Prince Rupert shortly after Easter. It is hoped that the minister of education may also visit Prince Rupert at the same time. In this connection a public meeting will doubtless be arranged and those who were able to hear Mr. Charlesworth speak on his last visit will be glad to have an opportunity to hear him again.

PRESBYTERY OPENS HERE

Annual Sessions of United Church Are Being Held in This City With Many Delegates in Attendance

Prince Rupert Presbytery of the First United Church, of which Rev. William Deans of Ocean Falls is the chairman, opened its annual meeting in First United Church here this afternoon. Clergy of the district and a few lay delegates are in attendance at the session.

There will be a public meeting tonight which will be addressed by Rev. Dr. G. A. Wilson of Vancouver, superintendent of missions for Canada; Rev. J. Kobayama, Japanese missionary at Ocean Falls and Rev. W. H. Gibson of Bella Coola.

The sessions of the Presbytery will continue to tomorrow.

Those present in the city for the meeting of Presbytery are: Rev. Dr. G. A. Wilson of Vancouver, superintendent of missions for British Columbia; Rev. T. H. Wright of Hazelton, secretary of the Presbytery; Mrs. C. H. Sawle of New Hazelton, lay delegate; Rev. H. T. Allen and O. T. Sundal, Terrace; Rev. Frank Bushfield of Anyox; Rev. Evan Baker, Stewart; Rev. V. H. Sansum, Port Simpson; Rev. W. H. Pierce, Port Simpson; Rev. (Capt.) R. C. Scott, Ocean Falls; Rev. W. H. Gibson, Bella Coola; Rev. Arthur Barber, superintendent of Indian Missions, Toronto; Rev. William Deans, Ocean Falls; Rev. J. Kobayama, Ocean Falls; Rev. and Mrs. S. V. H. Redman of Queen Charlotte City; Rev. Alfred Wilson, pastor of First United here and Rev. Charles E. Motte, pastor of Rupert East Church. Dr. R. G. Large of Simpson is expected in the city tomorrow to attend the sessions.

USK MINER VISITS CITY

Milton Allison Sees Prospects of Renewed Activity at Mining Centre

Milton Allison, well known Usk miner, arrived in the city yesterday in connection with his interests at the interior centre and was busy this morning making business calls.

Mr. Allison says he thinks there will be considerable work at Usk this season. Mr. Dolan, who owns the Shannon property across the river, is expected within a few days and other concerns besides the Columar are likely to be active.

That Usk would be too busy a place for the suggestion in regard to closing down the station to be carried out was the intimation of the visitor. Mr. Allison said he did not think it had been seriously proposed.

"Melvina's Courtship" Repeated Last Night At Rupert E. Church

The play "Melvina's Courtship," which was staged last week in First United Church, was repeated last night before a full house in Rupert East United Church. The audience was fully appreciative of the fine effort. Mrs. Robert McKay played piano selections during the intermissions.

At the close of the play, Mrs. John Manson, director of the play, was presented with a bouquet and Rev. C. E. Motte, pastor of Rupert East Church, voiced appreciation to members of the cast. Refreshments were served by the Ladies' Aid.

TERRACE BANQUET

Father and Son Gatherings With Local Persons Participating

TERRACE, March 4 — Fathers and sons were much in evidence on Saturday night at the United Church here, when an excellent banquet was spread to a good company. During the proceedings Ernie Weymouth submitted the toast to "The King"; Harry Weymouth, "The Fathers," and Hugh McCulloch, "Our Guests."

Speeches appreciative of the work of the boys' movement were given by most of the fathers and much interest was evidenced in the addresses of the visitors.

Will Tobey, Prince Rupert, member of the Hazelton district of Skeena on the Boys' Parliament, spoke on the work done at the last session of the Boys' Parliament, told of its methods and indicated its plans for the promotion of the Trail Rangers and the Totus Boys' program among around 3,000 boys associated with the churches in B. C.

Singing of songs and the devotion to promote a "father and son 'clean up day'" in Terrace ended a most successful gathering.

A Father and Son service was held in the United Church on Sunday morning. Archie Flinter, chief ranger being the leader. The offering was taken by Harry Weymouth. There was a duet by A. Winter and Lloyd Jones and readings by Gilbert McCulloch and John Tobey.

W. J. Earl Barrie of Prince Rupert delivered a telling address based on the words, "What shall it profit a man if he gain the whole world and lose his own soul?"

His Mother Is Dead in Norway

I. Fenness, President of Lief Erikson Society, Received Sad News Last Night

I. Fenness, president of the Lief Erikson Society here and well known member of the Imperial Oil Co. staff has just received the sad news of the death at her home in Bjarkoy, Norway, on February 5 of his mother, Mrs. Johanna Hansen Fenness, who was about eighty years of age. His mother's death occurred three weeks after Mr. Fenness had left on his return to Canada after paying a visit with her in the Old Country. She appeared to be enjoying good health when he left home and her demise came quite suddenly.

Mr. Fenness's father died fourteen years of age. Peculiarly enough, he passed away just six weeks after he had arrived for a visit to Norway just as his mother did.

The Varden Singers gave a recital at the Prince Rupert General Hospital last Sunday afternoon. The singing was much enjoyed by the patients.
