BRITAIN'S GIRL FLYER IS OFF AGAIN

FRANCE BEATS BRITAIN IN DAVIS' CUP TENNIS FINALS

MISS AMY JOHNSON OFF TODAY ON HER WAY TO TOKYO IN MOTH PLANE

Has Companion This Time and Will Travel By Way of Russia and Siberia

HENDON, England, July 27:—Miss Amy Johnson, Great Britain's foremost woman flyer, took off today on a flight to Tokyo by way of Moscow and Siberia in a plane similar to that in which she flew alone to Australia last year. She was accompanied by J. Humphreys.

INSPECTION OF HIGHWAY

Mayor Accompanied By District Engineer Drive Over Newly Constructed Section

Yesterday Mayor Orme, accompanied G. K. Gwyer, the district engineer on a trip of inspection on the newly constructed section of the highway and was much pleased with the work being done there. He says they got about half a mile beyond the rock crusher. There is now about 3,000 feet of grading to be done before the Cloyah section is connected with this end.

The surfacing is proceeding rapidly and excellent work is being done. The mayor says it is wider than the Kaien Island section and will be a splendid highway when completed.

Yesterday there were hundreds of people out at various points beyond the bridge picnicking.

North Vancouver Citizen Passes

NORTH VANCOUVER, July 27:—Donald Cameron, 79 years of age, prominent north shore resident for 24 years and a well known civil engineer, died yesterday.

Buying Pink Salmon Without Any Limit as to Number, Declares Bob Johnson, Manager at Inverness

It will be good news to a great many fishermen that Inverness and Klemtu canneries are to buy pink salmon this season without any limit as to the quantity offered. Bob Johnson, manager of these canneries, who was in the city this morning, said his company was canning all the pinks it could get. The fish began to arrive in numbers this morning and were accepted at the cannery and are already in the cans.

WILL TIE UP AT DRYDOCK

The Canadian Merchant Marine steamer Canadian Spinner arrived in port early this morning and will tie up at the dry dock here until such time as business conditions improve.

The crew will be paid off here.

Grain Commission Members In City

Dr. Givens, Mr. Rayne and other members of the Grain Commission arrived in the city this morning and were met by Mayor Orme and Vice-president Pillsbury of the Chamber of Commerce. They were driven around and shown the city and later took the train east.

Miss Johnson, who is a niece of T. H. Johnson of this city, is making her second attempt to reach the Orient. On the former occasion her plane crashed near Warsaw and she went on to Moscow by train and consulted with Soviet officials and they persuaded her to give up the flight at that time. She was then on her way to Peking.

Teaching Them When They Are Young

Take 'em and treat 'em gently—in about eight inches of water, and you'll have a generation of skilful swimmers. That's the formula being carried on here and it has been found that children can more easily master the necessary swimming strokes in shallow wading pools.

OBJECTION TO RAISE ON APPLES

Proposal to Practically Double Charges For Carrying B.C. Fruit Protested

EDMONTON, July 27:—Proposal of the Canadian Freight Association to practically double the freight rates on apples from British Columbia to the prairie provinces has stirred up a hornet's nest. This was revealed Wednesday by John Blue, secretary of the Edmonton Chamber of Commerce, and A. Chard, provincial government supervisor of freight traffic and secretary of the freight traffic council of Alberta.

Recently the Canadian Freight Association, representing all Canadian railways, applied to the board of railway commissioners to raise bulk apples from the eighth to fifth freight class, which would practically double the freight charges.

The Associated Boards of Trade have taken up the cudgels with a vengeance. Not only do they protest against any increase in the freight rates on bulk apples but they demand an investigation into the entire fruit freight schedule from B.C. to the prairies.

An early meeting of the freight traffic council of Alberta will be called to consider the matter and it is likely it will join the B. C. boards of trade in fighting the proposed increase.

It is claimed that freight rates on fruit from B.C. are already excessive.

A SUPER-MAGNIFYING MICROSCOPE LENS

We understand that there has been perfected a microscope with a lens so very powerful that it makes the brain of one of those auto drivers who always straddle the line in the middle of even the widest highway look almost as large as a soup-bean.—Kamloops Sentinel.

PRICE OF WHEAT

VANCOUVER, July 27 — The price of wheat is quoted today as 52½c.

Peace River Resolution Goes to Ottawa Urging Work on Ry. at Once

PEACE RIVER, July 27:—Launching of large public works such as the coast rail outlet with an announced intention of curtailing capital expenditure when other employment becomes normal, would be the best means of meeting the unemployment situation. This is the suggestion telegraphed to Premier Bennett by the general council of the Peace River Associated Boards of Trade.

REGISTER UNEMPLOYED OF THE CITY

Orders to This Effect Received Today From Victoria Through Government Agent

Instructions have been received by the city treasurer through the government agent to register all men applying for relief and make them take an affidavit as to their need.

The forms have arrived and men will be required to state age, place of birth if naturalized, number of years in Canada, how long in Prince Rupert, when poll tax last paid, whether money in bank or other funds available, occupation, how much relief so far received this year and whether they undertake to go to an unemployment relief camp if established.

The city has nearly completed its construction work and men are already being laid off with more to follow. This will make the highway relief work doubly necessary.

Russians Take Every Fifth Day As Holiday But Have No Sunday; Many Workers Stay in Rest Homes

This is the fourth of a number of stories on present day conditions in the Soviet Union.

(By Stanley P. Richardson. Copyright, 1931, by The Associated Press.)

MOSCOW, July 27:—In Soviet Russia the name of the day of the week is without significance. Instead, the populace figures its dates according to its day off. "The fifth day" is the key to the calendar so far as the present day Russian is concerned. Ask any passerby in the street what day of the week it is and he will shake his head in ignorance. But follow him to his home and you will find there a calendar on which he has placed a red mark on every fifth day. That signifies his day off under the Soviet five-day week.

Starting with the first day of the month, if he happens to be on that particular schedule of days off, the worker will mark circles around the month's numerals 1, 6, 11, 16, 21, 26, or 2, 7, 12, 17, 22, 27 and so on.

Fundamentally, the universal calendar still exists although it is varied somewhat for government and industrial purposes by the adoption of the 30-day month. One day in each of the seven 31-day months is considered an "extra day." From these seven "extra days" are subtracted two to make up the difference of February. The net total of five "extra days" is required of each worker for government service in some form or another.

In turn, the government "pays back" these five days by granting five days of national holiday, two for May Day, two to commemorate the October revolution and one for the anniversary of Lenin's death.

Sundays as days of rest and worship long since have passed. Unlike the postman who went walking on his day off, workmen in Soviet Russia more and more are coming to spend their day of freedom from factory and office in rest homes provided by the government.

All over the Soviet Union numerous health resorts, sanatoria and rest homes are maintained for the treatment and rest of workers and peasants in ailing health, but recently a new type of retreat has appeared, particularly in Moscow, Leningrad and other industrial centres.

Here, workers in good health go to spend their days off and special holidays granted them for outstanding performances in line of duty. They average from 12 to 36 hours each week in these homes and since every day is rest day for

one-fifth of the working population due to the five-day week, these homes never are idle. Like the others, they supply board and recreation for nominal charges—in some cases for no charge at all. On the basis of applications received so far it is estimated that some 800,000 workers will spend their holidays in this way during 1931. The government has assigned 21,000,000 roubles (approximately \$10,500,000) for the construction of additional rest homes and sanatoria this year.

INJURED MAN WAS RESCUED BY AIRPLANE

Miner Fetched From Manson Creek to Fort St. James By Ken Dewar

VANDERHOOF, July 27:—Word received by moccasin telegraph brought the information that Billy Steele, for over thirty years a placer miner of the Manson Creek district, where he operated on Lost, Slate and Germansen Creeks with varying success, had received serious injuries to his spine.

The big Consolidated plane, piloted by Ken Dewar, with Bob Nevins as mechanic left immediately and picked up the injured man at the southeast end of Germansen Lake, landing him at Fort St. James, where he could be taken care of, in less than an hour from the time he was picked up.

Steele, who is well known in mining circles in Vancouver, has been mining recorder in the Manson area for many years. His injuries, although serious, leave hope for speedy recovery.

France Won Davis Cup In Finals Played at Auteuil Yesterday By Taking One of Two Singles Games

France Was One Game In Lead When Play Opened Yesterday and She Kept Her Lead at Close

AUTEUIL, France, July 27:—France yesterday won the Davis Cup by taking the final tennis game of the series from Great Britain when Henri Cochet beat Fred Perry, 6-4, 1-6, 9-7, 6-3.

It will be seen from the score that while the game was won by France it was very closely contested.

The first game of the day was that in which Britain's youthful star, H. W. (Bunny) Austin defeated Jean Borotra in an equally close game the scores being 7-5, 6-3, 3-6, 7-5.

Britain made a splendid showing in these finals and while she lost, it was by so close a margin as to be almost inappreciable. France was one game ahead when play opened yesterday and she kept that lead.

Heredity and Environment Combine to Create Traits In Man, Animals and Plants

(By R. A. Emerson, Professor of Plant Breeding, Cornell University)
(Copyright, 1931, by The Associated Press)

ITHACA, N.Y., July 27:—I have a kind of corn which ordinarily has white ears, but if the husks are removed before the kernels are hardened in ripening the ears become red. If the husks are stripped off from only one side of the ear, the kernels thus exposed to the light become red and those kept in darkness remain white. The heredity of the whole ear is the same; and yet the kernels that ripened in one environment, sunlight, are red while those in another environment, darkness, are white.

I have another kind of corn that always produces red kernels whether exposed to the light or not. I have also a third kind that never has red kernels even when the developing ear is exposed. We cannot say that red kernels as such are inherited. What actually is inherited is the ability to develop red color in the presence of strong light, the ability to react with light to produce red and to react with darkness to produce white kernels.

I suspect that all peculiarities of plants, animals and man are in part a matter of environment and in part a matter of heredity. I do not think of these effects of heredity and of environment as being at all antagonistic.

Effect on Race

Many questions grow out of this conception of the interaction of heredity and environment. What about changing one's heredity or at least the heredity of one's children by changing one's environment? Will training a race-horse properly so that he breaks a world's record make his colts better runners than they would have been had he not been trained at all? Will forcing a dairy cow by the feed and care to give the utmost quantity of milk of which she is capable make her progeny give more milk than they would have given had she been allowed to rustle for her living on a dry western range? Will training our children in music give out grand-children natural musicians?

Some have believed that these questions could be given an affirmative answer, but I know of no crucial evidence to support such answers. Most of the so-called evidence that has been presented is worthless. We cannot conduct controlled experiments with humans and even our domestic animals leave much to be desired in this respect.

Plants afford much better material for such tests. Wheat, for instance, is self-pollinated, and barring rare accidental crossing pollination the seedlings grown from a single wheat plant all have identically the same heredity. Such

CROPS ON PRAIRIES IMPROVED

Southern Saskatchewan Suffers Worst of All Districts—Peace River Fine

WINNIPEG, July 27:—Exceedingly hot weather for the past few days has advanced the ripening of crops so that harvest will not be any later than in previous years. This warm wave following recent rains has also made rapid growth of previously backward grain with the result that the wheat sample in many districts will lack uniformity and will be lower in grade. Pastures have improved remarkably well, and on many fields in Southern Saskatchewan which were blown out this spring, a profuse growth of Russian thistle is now apparent, and the young succulent thistles are being used for pasture, according to the weekly crop report of the department of agriculture of the C. N. R.

In Manitoba, days have been warm with cool nights and a few scattered showers have made ideal conditions for the filling of grain. Straw is short and heads are small, and most wheat fields have passed the blossom stage. Late sown coarse grains promise a fairly good yield but the yields of early sown grains will only average somewhere between 50 and 60% of normal. Grasshoppers are very active along the Carman subdivision and control measures using poisoned bait are being employed. The Swan River Valley has experienced beneficial rains and a normal crop in this area is anticipated.

Very Little Crop

Along all subdivisions in Southern Saskatchewan, weather has been hot, and persistent high winds have caused further damage to crops. Wheat is all headed out. Straw is short and unless more moisture is received, yields will be very light, and in some districts, very little grain will be threshed.

Grasshoppers are active along the Gravelbourg and Central Butte subdivisions. Along the Asquith, Dodsland, Touchwood, Yorkton and Tonkin subdivisions, grain has made rapid progress towards maturity, and cutting will start about August 15. Fields are very uneven and sheaves will have large butts of late growth crop. All subdivisions of Prince Albert division report a big improvement in crops since last week. Weather has been ideal and moisture over the entire division is sufficient to ensure normal and ripening.

Heat in Alberta

Extreme hot weather was general over Alberta last week and crops have advanced rapidly. If heat persists further rain is necessary to ensure complete filling. Harvest will commence in Southern Alberta about August 10, but will be later in central and north central parts.

The Peace River country advises crops are beginning to turn and the prospects are still good and with no setbacks, harvest should commence about the second week of August.

Livestock

Receipts of all classes of livestock on western stockyards were much in line with those of the previous week. The steady values recorded at the beginning of the week were not maintained, and grain fed and grass cattle reacted to lower price levels. The hog and sheep markets have been maintained at steady levels.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letters should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

Women Took Part Orange Celebration

At One Time Event Was Left Wholly to Men But Times Have Changed

TORONTO, July 27:—On the subject of women's part in the Orange parades in Toronto on July 12 The Mail and Empire said: "Times have changed—even for the Glorious Twelfth—changed because women no longer slip out to see the procession, the more ardent wearing an orange lily. They laid wreaths on the cenotaph, they provided part of the life bands. All that could be said on Saturday was that no woman rode a white horse and no woman broke the ranks of the Kilts. They played a part in most every other sphere."

"With the women taking greater part, the whole home seemed to be brought into the celebration with all its aspects of carnival and stern conviction. In one of the trimmest bands, it was hard to distinguish the sailor-clad girls from the sailor-clad boys, except as one caught sight of the curls of long bobs under

blue helmets. In another, girl bandmen wore pleated blue skirts, but white shirts and blue caps like the men. Some lodge women paraded, some rode in cars. Altogether there were 5,000 of them."

Portland Canal men visiting the city over the week end were W. Broad and E. J. O'Brien of Stewart and David Deane of Anyox.

HEADACHE?

Why suffer when relief is prompt and harmless:

Millions of people have learned to depend on Aspirin tablets to relieve a sudden headache. They know it eases the pain so quickly. And that it is so harmless. Genuine Aspirin tablets never harm the heart. Read directions in package for headache, neuralgia, summer colds, pain of all kinds.

"—with all his worldly goods"

HERE, in this old strong-box, so long guarded and locked, is his "estate" . . . the "worldly goods" which he has bequeathed to her.

One by one her adviser takes out the temptingly engraved certificates and examines them. One by one he lays them down with a sorrowful shake of the head—

Slowly the truth dawns upon her. Those wonderful purchases that were to make them rich . . . independent. These speculations that were to lead them

to fortune . . . many of them now are WORTHLESS!

But at the bottom of the box there lies an unpretentious document, which suddenly she recollects. It cannot have depreciated. It must still be safe and sure . . .

She reaches in and draws forth his Life Insurance Policy.

Amid the wreckage of thousands of estates, Life Insurance stands as the final and enduring refuge in time of need.

It is the one investment no man can afford to be without.

Are you buying the Package or the POWER inside?

IN SIZE, other radio batteries may resemble Eveready Layerbilts, but inside there's a tremendous difference. And in operation, there's a still greater distinction, for Eveready Layerbilt employs a new construction that packs far more power into every battery. That spells longer life, greater dependability, far greater economy. Choose a battery for what it will do, and you'll find the most for your money in Eveready Layerbilt. Your dealer has it in three sizes.

Sold at Radio Stores everywhere.

CANADIAN PACIFIC

Navy Man Suffered

Had Terrific Backaches. Says Dr. Williams' Pink Pills (tonic) did the trick.

"Not a Pain or Ache Since."

"During the war," writes Albert E. Fletcher, now of R. R. No. 1, Burford, Ontario, "I was in the navy doing heavy duty and sleeping in a hammock. Sometimes my back troubled me very much. . . . A good friend of mine advised me to try Dr. Williams' Pink Pills which I did. . . . I became completely well, and I have not had a pain or ache since."

Dr. Williams' Pink Pills contain iron and other elements which increase the amount of haemoglobin, or oxygen-carrying agent in the blood. That is the secret of the benefits which result from this famous remedy.

If you suffer from indigestion, anaemia, nervousness, backache or rheumatism, get a supply of Dr. Williams' Pink Pills. 50 cents a package at any drug-gist's. Be sure to say "Dr. Williams'". 133

G. Skinner of Copper River is a visitor in the city.

Dr. R. G. Large of Port Simpson was in the city yesterday.

Glasses fitted by registered optometrist at Heilbroner's store.

Furs remodelled, cleaned and repaired. An experienced cutter Goldbloom's Fur Shop.

Tom Steen, who went to Stewart for the celebration returned home Saturday evening.

T. Kay of the Union Oil Company was on the Catala last evening going as far as Arrandale.

Miss Victoria Krievsky returned Saturday from Stewart where she was visiting during the recent celebration.

Mr. and Mrs. G. A. Hunter and family are making the round trip to Anyox, Alice Arm and Stewart on the steamer Catala.

Princess Charlotte northbound arrived in port at 9 a.m. today. While she was in port the tourists invaded the city for an hour or two.

Miss Betty Edgcombe of Grade II, Matriculation, whose name was not given in the passed list Saturday has received her certificate for passing this morning.

Glen Gulick of the Swift Canadian Company and Eddie Smith of G. W. Nickerson Company are making the round trip on the Catala to Portland Canal points.

J. P. Babcock, chairman of the international halibut commission arrived in the city last evening on the Catala and left this morning on the train for Skeena River points and is expected to arrive back tomorrow.

"BUILD B. C. PAYROLLS"

The Excellence It Adds

Impressed by the excellence of the food when Pacific Milk is used in its preparation many letters have been written telling of the splendid results obtained. Whatever Your Skin Trouble-- Get Well This Magic Way

Many Sufferers Relieved by Famous Herbal Healer

Whether it be a disfiguring rash, or an outbreak of pimples, sore chapped hands, frostbite, or any cut, burn, or scald—dress the place at once with this grand herbal ointment, Zam-Buk. It is beautifully soothing, swiftly healing, and highly antiseptic.

Even in chronic troubles like eczema, salt rheum, ulcers, and poisoned sores, Zam-Buk eradicates disease and grows new skin. You can "rub it in" for cold-on-the-chest, bodily chills, stiffness, sprains, muscular pains, etc. In fact, there are a hundred uses for Zam-Buk. Be sure to keep a box at home.

ALL SPEAK WELL OF ZAM-BUK

"Zam-Buk rid me of my poisoning and completely healed my festering finger."—Mrs. S. Cray, St. Rose Du Lac, Manitoba.
"A bad attack of Barber's Itch yielded to Zam-Buk in two weeks. My skin is now fine and healthy."—Mr. D. H. Box 417, Humboldt, Sask.

"When I suffered from painful mat-tery boils, Zam-Buk was the only effective remedy."—Hazel B. Beck, Newburn, Lunenburg, Nova Scotia.
"Zam-Buk Ointment and Soap soon cleared my skin of a disfiguring rash."—Mr. H. Brown, St. John T. B. Hospital, St. John, N.B.
"I couldn't find anything to relieve a burn on my arm until my Mother applied Zam-Buk."—Mrs. E. B. Croteau, Waterloo, Que.

The unparalleled success of Zam-Buk as a healer of skin troubles lies in its original and valuable formula. Zam-Buk is compounded from certain extracts of herbal origin, so refined that they soak through the tiny pores into underlying tissues. Zam-Buk heals from below as well as on the surface. It kills poisonous germs, stops pain and itching, and grows new skin. Zam-Buk is also a splendid remedy for piles and a fine dressing for injuries. Zam-Buk Ointment 50c. box, Zam-Buk Medicinal Soap 25c. cake.

BALL GAMES THIS WEEK

Softball Players to Meet Baseball Team at Their Own Game and Vice-Versa

It was decided at a meeting Saturday night that the Baseball Association would field a team against the C. N. R. Softball League in a baseball match Wednesday evening at the Acropolis Grounds and that they would meet the softball players at their own game at the C. N. R. grounds next Sunday.

Some time ago a challenge was sent to the baseball players but it was pooh-poohed as a joke. The challenge was pressed and some slighting remarks were made about the courage of the baseball players but with no response. Then the softball men were openly boasting that they knew they could play baseball better than some of the men who had made exhibitions of themselves recently in league games. They said if they couldn't play better than that they wouldn't play at all.

This seems to have got under the skin of the legitimates and at a meeting Saturday night it was decided to put a team in the field, but there is still noticed an air of lofty disdain on the part of the baseball players for their softball opponents. The result of the games will therefore be watched with interest.

"Big Bill" Still Going Strong

Big Bill Tilden has lost none of his dexterity as this photograph shows him in play at Forest Hills, L.I., recently, against James Burns sr., whom he defeated 6-1, 6-0, 6-1 in second round of the American professional tennis championships. Tied almost in a knot, Big Bill gave the grandstand some tense moments.

Miss Vera Smith and Peter Black Are Champion Singles Players at Prince Rupert Tennis Club Tourney

Miss Vera Smith was the winner yesterday of the ladies' singles and Pete Black of the men's singles in the club tournament finals at the Prince Rupert Tennis Club grounds.

The doubles winners were Miss Laura Frizzell and Miss Irene Mitchell for the ladies, Miss Vera Smith and Tommy Brown for the mixed doubles, and Tommy Brown and Col. MacMordie for the men's doubles.

The games were played in almost ideal weather before a large crowd of spectators at the club grounds yesterday afternoon. All games were keenly contested but the outstanding battle was the men's doubles which went five sets before a decision was arrived at. It was a grueling contest.

Taking advantage of the favorable weather the tournament was brought down to the finals on Saturday afternoon and Sunday morning and then all was ready for the big event after lunch.

The result of games played on Saturday afternoon and Sunday morning follow:

Miss L. Frizzell and A. Mitchell beat Miss I. Mitchell and Macdonald, 6-4, 9-7.

Brown beat MacMordie, 6-4, 8-6.

Mitchell Bros. beat Gregg and Nicholls, 6-4, 6-2.

Brown beat Russell, 6-3, 6-0.

Brown and MacMordie beat Macdonald and Farquhar, 6-3, 6-1.

Miss I. Mitchell and Miss L. Frizzell beat Mrs. Gregg and Mrs. MacMordie, 6-2, 6-8, 7-5.

Bartlett and Black beat Joslin and Russell, 7-5, 6-4.

Bartlett and Black beat Mitchell Bros., 3-6, 6-3, 7-5.

Finals
The results of the finals were:
Men's Doubles—Brown and MacMordie beat Bartlett and Black, 6-3, 3-6, 3-6, 6-4, 6-4.

Ladies' Singles—Miss V. Smith beat Mrs. MacMordie, 8-6, 6-2.

Ladies' Doubles—Miss L. Frizzell and Miss I. Mitchell beat Mrs. Currie and Miss B. Edgecumbe, 6-3, 6-3.

Men's Singles—Black beat Brown, 7-5, 6-3, 7-5.

Mixed Doubles—Miss V. Smith and Brown beat Miss L. Frizzell and A. Mitchell, 1-6, 6-4, 6-3.

Weekly shoots are being arranged from now on until fall

SPORT CHAT

Is Sharkey slipping, or is Mickey Walker, who ruled the welterweight and middleweight divisions in his time, just as good as most of the heavyweights in spite of a big poundage handicap. It looks like the Boston gob has reached his peak and is on his way down. Walker threw a decided shock into a lot of the so-called experts when he held Sharkey to a draw in 15 bitterly fought rounds and at the same time proved that he is entitled to no little consideration when heavy-weight title matters are being discussed. His lack of weight, however, always will be a handicap.

An Edmonton sports writer in the Journal of that city says: "Playing against H. C. McDonald Wednesday afternoon, Eddie McFayden, promising young Edmonton golfer, broke the course record at the Prince Rupert club when he turned in a fine 69 for 18 holes. McFayden needed only 36 going in and played out in 33. The previous record for the course of 70 was set by Joe Pryke, club professional, and 72 is par for the 18 holes. McFayden's performance included three birdsies."

ROYALS WIN FIRST GAME

Secured First of a Two-Game Series At Winnipeg on Saturday

PIPE TESTED by a MINER

15c. and 20c. packages
—also in 1/2-pound screw-top tins.

"In the mining camps where the boys congregate, often as not tobacco will be a subject of discussion; just now it's Turret pipe tobacco in the screw top humidor tins.

The pipe smoker is quick to give new pipe tobacco a trial, and not yet has there been an adverse opinion as to Turret pipe tobacco's quality... fresh, satisfying and long burning—with accent on the long burning—which is where the general run of cut tobaccos lose out. Miners do smoke; and how!... and this new product is assured first place everywhere."

Turret pipe tobacco, blended by experts, is rich, sweet, cool and fragrant—just the "pal" for your trusty briar.

Take The DAILY NEWS with you When Going on Summer Holidays

Nearly everybody likes to keep in touch with Prince Rupert when away for their holidays. The best way to do this is to order the paper sent during that time. If it is only for two weeks, the News is a welcome visitor and the mails during the summer months are carried almost daily to most points.

Recently a number of Scandinavians have given up the local fishing for the summer and gone on an extended visit to their former homes. In almost every case they order the Daily News sent them while they are away. Several subscribed for a year, others for shorter periods.

No time is too short for us to look after our patrons.

ROMANCE OF PIONEERING

Dr. Oliver Tells Terrace People of
Wonderful Country and
Opportunities

TERRACE, July 27.—Dr. E. H. Oliver, of Saskatoon, Moderator of the United Church of Canada, paid a visit to Terrace on Thursday and addressed a well attended meeting in the Knox United Church.

Dr. Oliver took for his subject "Adventuring for Christ in Canada." Canada itself, he said, was quite an adventure on the part of the Creator. Here was a great land, containing the oldest rocks in the world together with the youngest water system. Here were most majestic mountains and the deepest valleys, with the intense heat of the southern prairies and the extreme cold of the far north. And here by the agency of man were living the most primitive of peoples and the most advanced of scientists.

He spoke in telling terms of the romance of adventuring for Christ in this wonderful country and instanced many striking characteristics of the brave pioneers. Briefly he recapitulated the story of the coming of the white man and his wonderful achievements in opening up the land. Far more than they could ever tell, Canada owed to the tremendous sacrifices willingly made by the early Christian pioneers. That was the true spirit of conquest, and the lesson was as much needed today as ever.

"Many people," Dr. Oliver added, "think of God as sitting sublimely on His Throne and ordering all earthly matters with a flip of His hand. While people think like that they will sit still themselves and leave the world to God."

The great adventure with and for Christ in Canada was open only to those who were prepared to sacrifice and struggle to attain a worthy achievement.

"Jessie" Steps Gently

But even though a few beads of perspiration may break out on his forehead, the zoo keeper places plenty of confidence in Jessie's ability to step lightly as she performs this little trick at the Taronga Park Zoo, Sydney, Australia.

District News TERRACE

Jimmy Lever had the misfortune to get his hand jammed between a log and a peevie and as a result two fingers were very badly crushed.

Sid Cooper went up to Cedarvale on Wednesday on duties in connection with the Forestry Department.

Mrs. Motte and Miss Rogers came in from Lakelse on Friday for supplies for the Girl Guides camp. They lunched with the Rev. and Mrs. McCarthy.

The government has notified the closing of the old road across Spring Creek on the road to Kalam Road. The new road is now in use and in fine condition.

MEMORIALS AT JASPER

Two Cairns To Be Dedicated This
Week by Lieut. Governor
of Alberta

JASPER, July 27.—The sturdy hearts of the pioneers who first entered Athabasca Pass have ceased to beat, but the memory of the gallant explorers who opened the giant gateway to the Pacific coast will linger by virtue of two monuments, which will be unveiled here Wednesday afternoon. His Honor Lieutenant-Governor W. L. Walsh of Alberta, will unveil the two cairns, which have been erected to commemorate David Thompson and historic Henry House. In addition to the Lieutenant-Governor distinguished speaker of the afternoon, will be Judge F. W. Howay, New Westminster, B.C., who is western representative of the historic sites and monuments board of Canada.

The memorial to David Thompson will also honor the men who accompanied the explorer on his arduous journey over the Athabasca Pass during the winter of 1810-11. This cairn is situated on Old Fort point, the rugged rock which looms above the motor road leading from Jasper Park Lodge to the town of Jasper. Further down the road is the cairn which marks the site of Henry House the trading post built by William Henry in the early days of the nineteenth century.

The average man in America is better off and has wider liberties and broader opportunities than in any previous decade in our national history.—Secretary of Agriculture, Arthur M. Hyde.

Death Claims Were Paid in Various Cities

Anyox Included in Cities Receiving
More Than \$10,000 From Com-
panies in 1930

Toronto led all the Canadian cities in the total amount of death claims paid in 1930 by life insurance companies, according to the life payments localized number published by the National Underwriter, weekly insurance newspaper. Toronto's 1930 total was \$11,128,300, as compared with \$11,250,000 in 1929. Montreal was second with \$7,090,500 compared with \$9,970,000 in 1929. Winnipeg had a total of \$3,121,000 in 1930; Vancouver, \$1,955,000; Ottawa, \$1,180,000; Hamilton, Ont., \$1,140,000; Quebec, \$975,000; Halifax, \$681,000; London, Ont., \$655,000, and Edmonton, \$535,000.

Ottawa Claim Is Largest
The largest individual death claim paid in Canada in 1930 by life insurance companies was on the life of a person whose name was not given, living in Ottawa, for \$650,000. British Columbia's list was:
Vancouver \$1,955,000
Victoria 508,000
Merritt 42,000
Sardis 23,200
Great Central Lake 20,900
Anyox 15,300
New Westminster 15,200
Nelson 11,000

Truth Subject In Science Church

The subject of the Lesson-Sermon in all Christian Science churches and societies on Sunday was "Truth."

Among the Bible texts included in the Lesson-Sermon was the following from I. Kings, 3:9: "Give therefore thy servant an understanding heart to judge thy people, that I may discern between good and bad: for who is able to judge this thy so great a people?"

The Lesson-Sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "Understanding is the line of demarcation between the real and unreal. Spiritual understanding unfolds mind, life, truth, and love, and demonstrates the divine sense giving the spiritual proof of the universe in Christian Science."

Bring your best to Prince Rupert

The Fair Board is anxious to encourage residents in the districts around Prince Rupert to bring their best to the

FALL FAIR

Which will be held the

FIRST WEEK IN SEPTEMBER

Local residents believe that they can grow flowers better than any place within two hundred miles. Can they? The Fair Board would like to have the districts pit their horticultural skill against the Prince Rupert Flower Society and see if they cannot wrest away some of the prizes, especially that for the best floral display.

A cordial invitation is extended to all to compete. Further information can be obtained from

Secretary W. D. Vance
or from

The Daily News, Prince Rupert, B.C.
