AQUARIUM POSSIBLE

A. E. Parlow Makes Suggestion to Chamber of Commerce Which Will Be Followed Up

At the instance of A. E. Parlow, district forester, the Chamber of Commerce last night decided to make a move with the object of securing the establishment of an aquarium in the city.

In introducing the subject Mr. Parlow mentioned that an aquarium would be a great attraction to tourists and also it would have great educational value.

Mr. Dybhavn said the Biological Board had not yet got to a place where it considered it could establish anything of this kind but he thought it would be glad to co-operate with any other organization in the work.

CHAMBER WILL ACT

Local Views Will Be Placed Before Railways Commission Now Sitting in East

The Prince Rupert Chamber of Commerce decided at its meeting last night that it would take an active interest in the railways commission which has just commenced investigations in the east.

The matter was introduced last night by George Nickerson, who mentioned the wide powers the commission had been given. They were prepared to accept representations from all parts of the country.

The resolution was seconded by Alderman Collart who mentioned that this seemed to be the last chance for Prince Rupert to get recognition as a port.

M. P. McCaffery also spoke and the motion was then carried.

Attachment of Japanese Salmon Fishing Licences to Be Taken Up By Local Commerce Chamber

At the annual meeting of the Chamber of Commerce one of the important subjects to be discussed will be that of the attachment of Japanese fishing licences to various canneries.

The letters asked for the support of the chamber in securing the freeing of these licences from the canneries and the placing of Japanese fishermen on the same footing as other fishermen.

The Japanese also asked that in the issuing of licences residents of the district be given first consideration.

One paragraph from one of the letters explains the position of the Japanese fishermen:

"It was and is the custom of the canning companies to give to what is known as a 'contractor' the power to find and deliver to the cannery in time for fishing operations the designated number of Japanese permitted by the Department of Fisheries and the result is that this contractor can procure from the applicant Japanese absolute obedience to any program dictated by the canner he may represent."

"As a sample of the dictation applied I would merely cite the following which appears vicious enough."

### FEDERATION OF INDIA

The British Government has undoubtedly taken the right step in moving toward a federation of states and provinces in India. At present there are a number of almost independent states in that country with practically absolute rulers. The federation would tend to make India more of a unit and accompanied by greater educational facilities and increased voting power would eventually bring it in line as an autonomous British nation.

### TROUBLE IN THE AIR

Canada has been pressing for an increasing number of radio lanes for high powered stations, the majority of which are at present held by United States under authority of a joint radio commission. Now Mexico has entered the picture and established high power station along the border, interfering very seriously with established U. S. stations and practically putting some of them out of business.

What is needed is a radio commission for the continent that will allot stations, eliminating hundreds of small ones and increasing the efficiency of the larger. In that way only can clear reception be secured and good programs be available all the time.

We have before urged that Canada should have a series of powerful stations, one of which might very well be established at Prince Rupert, if not now, at any rate in the near future. Probably it would be better both for Prince Rupert and the district to be content for the time being with a large station at Vancouver with sufficient power to insure good reception in Northern and Central British Columbia.

### SALVATION ARMY APPEAL

An appeal is being made by the Salvation Army for money to be used in entertaining the unemployed on Christmas Day and to provide hampers for those families who are in need.

There never has been a time in Prince Rupert when the assistance of the Salvation Army was needed as it is this year. There will be a great many who will need help and Prince Rupert people will undoubtedly do their part to see that they are properly cared for. We commend this to the people of the city and district and ask that they respond liberally to the appeal being made.

As if riding a gee-gee wasn't difficult enough, this intrepid equestrian tempts Providence and all the guardian angels at Houlow Barracks, Eng., in preparing for the royal tournament. He's a Hussar.

### Better Distribution

Instruction of Paul Concerning Christian Duty of Circulating Good Things of Life Recalled

(By Rev. A. Wilson, Pastor of First United Church)

One of the important instructions given to the new society in the days of the early church by Paul was concerning the Christian duty of freely circulating the good things of life. This occurs in the trenchant phrase, "ready to distribute" in a letter written to the zealous young worker Timothy. Taking this instruction in a comprehensive sense we have a striking definition of Christian character, principle and duty.

One of the important characteristics of a healthy individual is a good circulation. Chilly days make this fact painfully obvious to many. This is true also of human society.

The avalanche of criticism that has been directed against the present state of society is mainly along the line that the abundant provision for human need which has been made by a beneficent creator and shaped by human labor, has been marred by failure in proper distribution. Enormous wealth of all kinds is found concentrated in small areas or in few hands while large portions of the human family have scanty provisions only. Some of the difficulties are mechanical, but the chief failing is in the lack of the right spirit in the heart of man.

In spite of the adjustment that Christian teaching and practice has already effected, the readiness to accumulate has over-balanced the readiness to distribute.

Before the spiritual and bodily needs of mankind can be met, a further change of heart must come in readiness to share the great blessings of life as they appear. We sometimes forget that the favored position religiously and culturally, of the Anglo-Saxon people rests on the fact that in bygone days men were ready to push up into the wilds of Northern Europe with the Christian message of the abundant life. Can we refuse to share with other less privileged peoples of the

world the truth we have received, the liberty from gross superstition and fear afforded us, the power to combat sickness and disease which forms part of the Christian heritage?

Stagnation, depression and misery afflict the world today, in part because God's blessings have not been distributed in the spirit of Him who, when faced with the need of the hungry many centuries since, in Palestine, gave thanks, and brake and called on His followers to distribute.

The words "my" and "mine" are often found on the lips of children and others, but when Jesus taught us to pray, He left these words out and told us to say "Our Father," "Our daily bread," "Our sins," "Our temptations."

The Christmas season especially drives home the lesson that, being a follower of Jesus includes being ready to distribute the light, truth, love and bounty of a gracious and merciful God.

#### MENTIONED IN SERVICE

Among those mentioned in memorial service for seafaring men of the coast who have died during the past year at Christ Church (Anglican) in Vancouver last Sunday evening were Sam Crompton, stoker Princess Mary; Adamson Ramsay, chief Steward, Prince George, and Benjamin Howard, Prince John, all of whom were well known in Prince Rupert to which port their vessels plied.

Constable Steele, R.C.M.P. of Telegraph Creek, who has been on a trip to the interior, arrived in town on this morning's train.

Mrs. M. A. Dupuis of Haysport is paying a brief visit to the city having arrived from the Skeena River on this morning's train.

Rev. Charles E. Motte, until recently pastor of Rupert East United Church here, preached in Refreew United Church, Vancouver, on Sunday morning of this week and in Second Church the same evening.

At the meeting of the Chamber of Commerce last night, the members decided to take no immediate action in regard to the efforts of the Canadian National Railway to reduce operating costs. They accepted a report of a committee recommending against protest at shortening the period for daily trains and no move in regard to mixed trains until after the report of the commission was received.

It must be obvious that a corporation like THE VICTOR CO. is in a better position than other organizations to produce the finest of radios.

**BECAUSE**  
 The exclusive business of Victor is making radios and records—not a side line to refrigerators and washing machines.

**BECAUSE**  
 For forty years Victor has led the world in the reproduction of music.

**BECAUSE**  
 VICTOR is the favorite child—"R. C. A. Victor"—of that huge organization that owns over 90% of the radio patents in existence.

**BECAUSE**  
 When you purchase a Victor you do not purchase an experiment but absolutely the best radio that the ingenuity of man has been able to invent.

**WHY**  
 Is VICTOR prestige supreme throughout the continent? "There's A Reason." Victor has always produced its wares a little better than seems necessary.

## BASKETBALL LAST NIGHT

Intermediate Game Was Feature of Evening, Tuxis Beating High School

### Senior Play Slow

32 Taxi Had Easy Victory Over C. N. R. A.

Senior League—32 Taxi, 33; C. N. R. A., 21.

Intermediate—Tuxis, 21; High School, 20.

Ladies' League—Amazons, 6; Comets, 2.

Junior League—Boy Scouts, 18; Japanese Association, 6.

The largest crowd of the season turned out to watch the league basketball games last night. Evidently the High School supporters, who were very numerous, came out to see their team hand Tuxis a defeat, and so step into the lead in the Intermediate division. But such did not happen. The Tuxis team was in better condition, it played better basketball, and it won. The Intermediate game was by far the best game for the spectators, with the High School toiling hard to justify the faith of its supporters. Bill Vance lost a grand opportunity to make himself a hero when, in the last half minute of play, with no opposition and Unger under the basket, he fumbled, and the festivities ended 21-20 for Tuxis.

From the start Tuxis was the better team. With the exception of Wingham, who is too fast for the rest of the team, the students were in a complete and seemingly permanent daze. Wingham often was spectacular, looping in some thrilling shots. But what can one man do without support? Nakamoto and Wingham were the best on the floor, while John Morrison, Thurber and R. Morrison teamed well by intercepting and forcing the play. For the first time this season Nakamoto was effectively bottled up by Vance. However, Walters left John Morrison wide open to score 10 points. The second half opened fast with the students getting the best of the play but it was too late; and though nearly tying the score, they came out on the short end of the 21-20 score.

Tuxis—Nakamoto (4), Thurber (6), J. Morrison (10), R. Morrison, Hanson, Allan (1), Smith; total, 21. High School—Wingham (8), Unger (5), Forbes (3), Ross, Walters (4), Vance, Tobey, Hickey; total, 20.

### Senior Game

The Senior game was slow all through with none of the dazzling basketball that has been the feature of the last few games. Without Lambie, the Trainmen were not so good and even though they threw nearly everything but the two stoves at the basket, their shooting was, to say the least, pretty defective. Both teams played cautiously. Fouls were dealt out liberally all around and the usual C. N. combination didn't seem to click as well. Gurvich played hard; whereas Ratchford managed to make himself very unpopular with the crowd, and at the same time marred his good play, by too much "dirt." The play was close and the half ended 10-9 for the Taximen.

The second half saw Frizzell on the bench with three personals and Menzies off, to be replaced by Spiro Gurvich and Wrathall. The play was loose, the ball was booted too much, fumbling became very tiring and the long passing made the play slow. Styles, Smith and Johnson were working some beautiful combination plays, but they just couldn't sink them. On the other hand, everything 32 tried went in. Ratchford started to play and, with Wrathall and D. Gurvich, was throwing them in with monotonous regularity and deadly precision. Styles' floor play was a treat to watch, and he was the best C. N. player on the floor. After a long loop shot by Gurvich, Styles converted his penalty shot and the game ended 33-21 for the Taximen. 32 Taxi—Stalker, Menzies, Frizzell (2), D. Gurvich (10), S. Gurvich, Ratchford (13), Wrathall (8); total, 33. C. N. R. A.—Smith (7), Nelson,

## In Training For Football

Well—why not? It's a free country, isn't it? At least that's what Bushman, the gorilla in the Chicago zoo, figures as he opens his season's training.

Styles (9), Morrison, Stalker, Matheson (2), Johnson (3); total, 21.

### Junior Game

The Japanese students and the Scouts gave a good exhibition of a high brand of basketball. The spectators were well pleased with the first half of the game for its was extremely hard fought and the players put all their energy and fighting power into the game. The Japanese had the better control of the ball but they lacked noticeably that final shot at the basket. The Scouts, who were the more accurate shots, were fortunate in maintaining a three-point lead at the end of the first half.

Part of the second half was a continuation of this forceful playing. The Japanese would work the ball up the floor and then be tempted to take too many long shots instead of getting the ball under the basket before shooting. The Scouts were real experts at sinking long shots and they gradually broke down the Japanese defence and strengthened their hold on the game. Calderoni was the mainstay of the Scouts while Kishimoto held the Japanese together.

Scouts—Calderoni (10), Wilson (4), Smith, Miller (2), Lindsay, Naylor, Viereck; total, 18. Japanese—Suehiro, Kanaya (2), Nakamoto, Kanda, Kishimoto (4), Obata; total, 6.

### Ladies' Game

The fans were well pleased with the performance of the girls. Both teams, the Comets and the Amazons, played much better basketball than they have been playing in previous games. They put a lot of fight and pep into the game, they played much faster and they have learned to pass the ball which tended to make the game much cleaner and more interesting to watch for the spectators. The teams had strong guards and, as a result, each team was only able to break through once in the first half which ended in a tie score, 2-2.

The Comets seemed to be an entirely new team for their performance last evening was certainly a tremendous improvement from former games. Throughout the whole game the same style of basketball was played but the Comets weakened towards the end and Dot Pritchard for the Amazons made two baskets. Susie Boddie was the backbone of the Amazons but she is too fond of dribbling the ball and keeping control of it herself instead of passing it. Julia Roberts and Phil Harvey worked hard for the Comets. Dot Pritchard was high scorer. Amazons—Susie Boddie (2), E. Morris, D. Pritchard (4), J. Ritchie, C. Morgan, C. McLeod, A. Kach; total, 6.

Comets—E. Steen, J. Roberts (1), Phil Harvey (1), B. Jack, P. McGuire, E. Connery; total, 2.

## One Billiard Game Played

John May, Cold Storage, Defeated Johnny Saunders, Elks, Last Night

Only one game of last night's scheduled Billiard League fixture was played last night, John May, Cold Storage, winning 250 to 208 over Johnny Saunders, Elks. It is planned to play off the remaining five games tonight and Monday.

The game of Don Brown, Grotto, vs. Alex Murray, Cold Storage, from last Tuesday night's fixture also remains outstanding.

## PIPE TESTED by a SKI-ER

"My idea of recreation is a brisk, bright winter day, a pair of good ash skis on my feet, and a pipe of good tobacco between my teeth. I always stuck to ash skis, but used to vary the tobacco, until a fellow ski-er offered me a pipeful of Turret pipe tobacco. Its mildness and fragrance was a revelation to me, because I thought I knew all there was to know about tobacco. Now I wouldn't be without Turret pipe tobacco—I buy it in the half-pound humidior tin—and carry a full pouch with me wherever I go."

## NEW HEAD OF LADIES' AID

Mrs. James Hampton Elected President of Baptist Church Organization at Meeting Last Night

The Ladies' Aid of First Baptist Church held its regular monthly meeting last night at the home of Mrs. G. Stromdahl, Ninth Avenue East. Mrs. George Hibbard, president, was in the chair. The principal item of business was the election of officers for the ensuing year which resulted as follows: President, Mrs. James Hampton. Vice-President, Mrs. J. Armstrong. Treasurer, Mrs. Frank Morris. Secretary, Mrs. Sidney Hamblin. Press Correspondent, Mrs. George Hibbard. Advertising Secretary, Mrs. Bert Morgan.

Under the leadership of Mrs. George Hibbard, the Aid had a very successful year both financially and socially in 1931. It is looking forward with interest to the activities of the New Year. At the close of the meeting, delicious refreshments were served by the hostess who was assisted by Mrs. A. Ivarson and Mrs. Vic Houston.

## ATTACHMENT OF JAPANESE SALMON FISHING LICENCES TO BE TAKEN UP BY LOCAL COMMERCE CHAMBER.

(Continued from page one)

ough to warrant action to be taken by liberty-loving people. A Japanese must eat where the contractor dictates, he must operate two men per boat when it is decidedly more advantageous to operate one, the fisherman being compelled to hire another Japanese, termed a boat puller, and licenced as such. He is also compelled to purchase or hire a new net each season, an expense not considered necessary by any fisherman. In addition to this, all fish the Japanese fishermen catch must be sold to the cannery; where he is attached and at no other place.

It is pointed out that at present practically 80% of the Japanese employed under the system come from Southern British Columbia and at the close of the season they take their earnings south. The fishermen of this district spend their money here.

## Man in the Moon

The Manchurian question seems about to be settled, not in the interests of Manchuria but to suit the ideas of the big surrounding powers.

Manchuria! Manchuria! The powers all would cure ye. They'd scrap and fight With all their might! But they would not injure ye.

As the old countryman said: "All the world's quare, except me and thee, and I sometimes think there's a little bit quare too."

Some take life as they go Or take it as they come While others take but little else Except a drink of rum.

At a recent wedding there were so many guests, one of them kissed the bride twice without the groom noticing it.

## Eagles' Dance Very Enjoyable

Another of the popular dances staged by the local Eagles' Lodge took place last night in the Aerie Hall. The hall was crowded with a turn-out of some two hundred persons, it being the largest attendance to date at such an affair.

Dancing was in progress from 9 p.m. until 1:30 a.m., splendid music being provided by the Premier Orchestra. George Brooke was master of ceremonies and James Brown presided at the door.

At midnight delicious refreshments were served.

## CHAPLIN IN LAST FILM

"City Lights" Is Week-End Offering at Capitol Theatre

Said to be the last picture the famous comedian will produce, Charlie Chaplin's comedy "City Lights," is the feature of the week-end picture program at the Capitol Theatre. The picture has been shown and a large local audience heartily enjoyed it last night.

Chaplin goes through many pranks of which a burlesque boxing bout is outstanding. The comedian has numerous amusing adventures in his efforts to aid a poor blind girl whom he has encountered. Virginia Cherrill plays the part of the girl.

"City Lights" is a silent picture but it has a splendid synchronizing musical score.

## Hard Times Dance Held Last Night

Queen Mary Chapter Holds Enjoyable Affair in Aid of Christmas Cheer Work

Queen Mary Chapter, Imperial Order, Daughters of the Empire, held an enjoyable hard times dance last night in the I.O.D.E. Hall. The purpose of the affair being to raise funds for Christmas Cheer work. There were some eighty to one hundred persons present and all voted it a very pleasant evening.

There were many costumes appropriate to the occasion, prizes for the best costumes going to Mrs. W. M. Ruelstock and W. C. Aspinall.

Splendid music was furnished by the Blue Bird Orchestra. Dancing which commenced at 9 p.m., concluded at 1 a.m.

At midnight delicious refreshments were served. Mrs. James Simpson, Mrs. Thomas McMeekin and Mrs. J. E. Boddie comprised the committee in charge.

Mrs. C. E. Cullin, regent of Queen Mary Chapter, received the guests. W. C. Aspinall was master of ceremonies and C. E. Cullin presided at the door.

Mr. and Mrs. Herbert Busby, who have been residing in the city for the past year or so, called last night on the Cardena for Vancouver where they plan on locating in future. Mr. Busby for some time was a member of the staff of G. C. Arsencau's men's furnishings store here.

## Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, but necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

Pacific Salvage Co. to Take Alice Arm Logging Outfit South—Coho Run on Islands—New Cannery Project Mooted

The Pacific Salvage Co. of this city has secured the contract for the moving to Marpole on the Fraser River of all the logging equipment of the Abbotsford Logging Co. of Alice Arm including donkey engines, steel rails, etc. Last week two of the company's power tugs, Salvage Princess and Pachena, and two large scows left for Alice Arm to carry out the loading of the outfit. The Pachena is doing the loading, and the Princess, which is now back, will tow the outfit south. The Abbotsford Logging Co., which was controlled by the late J. O. Irethway, operated on the Kitsault Flats at Alice Arm for several years and took out a large quantity of logs which were shipped to the pulp and paper mills down the coast.

Pete Bruno, popularly known as "the Cow Boy Barber," left this week for his native home in Italy where he has been called on account of the serious illness of his

business interests here. Peter was accompanied by his wife and family.

While no information whatever can be gleaned in official quarters in Prince Rupert, the rumor is current here that D. B. Finn, who resigned the position over a year ago to take charge of the scientific research department of the British Columbia Packers Ltd., which has since been eliminated, may return next year as director of the Prince Rupert Fisheries Experimental Station. Local officials of the board and station were entirely silent on the subject when questioned as to its authoritativeness. Mr. Finn, who was recently married, is at present at Cambridge University in England taking up special scientific work. It is understood he will not return to British Columbia until late next spring or early summer.

Being now on a winter vacation from his duties with F. E. Hunt Ltd., local ship chandlery concern, Reg Webber is giving his attention to an investigation of the radio reception difficulties of himself and friends. Various forms of aeriels are coming in for his consideration and, by the time winter is over, we

may firmly anticipate that our friend is going to have a pretty definite idea as to just what is the matter with radio reception in Prince Rupert and how it may be bettered. Meantime, Reg is in agreement with many others who hold the view that the Northern British Columbia Power Co.'s high tension line is the chief offender in this connection.

Frank Davies, popular accountant of the Atlin Fisheries here, is spending his annual vacation with relatives at Victoria. He is at least in no danger of getting run over by the traffic as long as he confines himself to our tranquil Capital City.

Capt. "Winnie" Pierce, owner and skipper of the American hall-boat Tahoma, has taken up residence in Prince Rupert for the winter. With his wife and family, he is living in one of the West houses on Fifth Avenue East.

With funds at a low ebb following the unprofitable 1931 season, some eight or ten of the Prince Rupert halibut boats, in order to cut winter living expenses, are now "camping out" for a few months. That is, the members of the crew are living on the boats which, supplied with the necessary provisions, are anchored at suitable points along the coast. Fresh meat is being obtained by hunting and some of the boats are also engaging in rapping operations. It is being found a good deal more economical than living in town.

A large run of beautiful silver bright coho salmon is reported in Skidegate Inlet, Queen Charlotte Islands. This is something unusual and it is claimed that these particular cohos do not belong to the Queen Charlotte Islands, being much larger than the usual species there. Some boats are reported to have caught over thirty-one fish in one morning for their own use.

**Salvage Princess Hunting**  
The Pacific Salvage Co.'s power tug Salvage Princess, Capt. Frank Tyler, returned to port yesterday after a successful goose and duck hunting trip to Quinemass in the Naas River area. The vessel left for the north Wednesday afternoon, the party on board consisting of Capt. W. P. Armour, Ald. J. H. Pillsbury, Capt. J. R. Elfert, F. A. MacCallum, W. M. Blackstock and Dr. J. H. Carson. At the end of last week the same party made a trip also on the Salvage Princess to Banks Island and took a good bag of deer, geese and ducks there.

The Northwest Telephone Co.'s service boat Belmont, here in connection with the establishment of a commercial radiophone station at Prince Rupert, arrived here on Thursday of last week and is making headquarters at the floats of the Pacific Salvage Co. The Belmont will probably be here for some time while the radiophone installations and tests are being carried out.

The Indian Department's power cruiser Naskeena, skippered by Dominion Constable A. J. Watkinson, returned to port Thursday afternoon following a trip to Kincolith to pick up Indian Agent W. E. Colison, who had been at Kincolith on business in connection with the putting in of a new waterworks system for the Naas River native village. The Naskeena left for the north Wednesday morning.

Jack Cobb, well known and popular old timer of the city, arrived recently from Lowe Inlet, where he has been located for the past year or so as cannery watchman. He will spend the winter in town and expects to return to Lowe Inlet about March 1. He has been given a hearty welcome back to town by many old friends.

**New Cannery Project**  
Names of prominent cannerymen of the north coast of British Columbia are being linked with reports of a projected new salmon cannery project which it is said will be in readiness for operation next season. It is understood that at least one plant will be established in the neighborhood of Prince Rupert.  
Prospects of better canned salmon market conditions in 1932 are inspiring the prediction that next year will see canning operations return to more normal conditions with many of the canneries, which remained closed during the 1931 season, again in production. In-

dentally, next season is a big cycle year for pinks.

Little has been heard lately regarding cannery plans of the fishermen's co-operative organization.

John Dybhavn, member of the Biological Board of Canada, and H. N. Brocklesby, acting director of the Prince Rupert Fisheries Experimental Station, will be leaving Prince Rupert on Christmas Day for Ottawa where they will attend the annual meeting of the Biological Board of Canada.

Prospects are that boatbuilding activities at Prince Rupert this winter will be very quiet. As far as new construction is concerned, little if anything is in sight. Of course, there will be the usual overhaul and repair work which will start soon after the New Year. Some new engine installations are also being planned according to report.

## MUCH FUR EXPECTED

Yield of Pelts in Peace River District Expected to Be Heavier This Winter

FORT ST. JOHN, Dec. 4.—Pioneers of the district predict a much heavier and better quality catch of furs in the Peace River Block this winter. Fur traders are getting their supplies in order for the first shipment north. Loads of provisions in heated sleighs will leave Fort St. John before Christmas on their journey.

Dr. A. L. Pritchard, who arrived in the city Thursday night from Masset Inlet where he has been conducting salmon research work for the Biological Board of Canada left on yesterday afternoon's train for Toronto.
