PRICE FIVE CENTS

COMPLETION OF P. G. E. IS APPROVED

NOVA SCOTIA LIEUT. GOVERNOR IS FOUND DEAD IN BED

Ottawa Said to Favor Building Quesnel to Prince George Line; Considering Peace Extension

Committee Reports Favorably to Victoria—If B. C. Line Would Form Part of Outlet, Dominion Would Be Favorable

VICTORIA, Sept. 25.—Virtual approval of British Columbia's plans to complete the Pacific Great Eastern Railway from Quesnel to Prince George as an unemployment relief undertaking was reported to the provincial government yesterday by the P.G.E. committee, headed by General J. W. Stewart, which is now in Ottawa.

Hon. F. Stanfield

Lieutenant Governor of Nova Scotia found dead in bed this morning.

GOVERNOR HAS DIED

Hon. Frank Stanfield Passes Away at Halifax During His Sleep

Was Manufacturer

Named Lieutenant Governor of Nova Scotia Only Last Year

HALIFAX, N. S., Sept. 25.—Hon. Frank Stanfield, Lieutenant Governor of Nova Scotia since last year and head of the well known underwear manufacturing company bearing his name, was found dead in his bed this morning at the age of fifty-nine.

Frank Stanfield, a former M.P.P., was born in Truro, N. S., April 24, 1872, the son of Charles Edward and Lydia (Dawson) Stanfield, and educated in the public schools of Truro.

Mr. Stanfield in the past served his province and the Dominion as member of the Nova Scotia Legislature for Colchester county, member of the Truro Town Council. He was married, lived in Truro, and his immediate family comprises Mrs. Stanfield (formerly Sarah E. Thomas), four sons and a daughter.

Mr. Stanfield had for many years been a leading commercial and political figure throughout the Dominion.

C.P.R. steamer Princess Mary, Capt. Flood, is due in port at 3:45 this afternoon from the south and will sail at 10 p.m. on her return to Vancouver and waypoints.

HOME FROM GREAT TRIP

Miss Annie Boddie Had Delightful and Thrilling Visit to International Beautique

Glad to Be Home

Was Only Canadian Girl Who Participated in Los Angeles Contest—Was Much Lionized

Reporting a delightful trip which was replete with many thrilling experiences and many memorable incidents, Miss Annie Boddie, who went to the International Beautique contest at Ocean Park, Los Angeles, as Miss Prince Rupert, Miss Annie Boddie, popular local Prince Rupert-born girl, returned home on the steamer Princess Mary this afternoon, accompanied by her mother, who made the trip with her.

From the time she left Prince Rupert until she reached Los Angeles, nothing was neglected by railway and Rotary officials, as well as others to make her trip a delightful one. She travelled from here to Vancouver by boat, from Vancouver to Seattle by flying boat and from Seattle to Los Angeles by fast express train.

Miss Prince Rupert and her mother took a more leisurely trip home, stopping off for several days at Vancouver en route.

Miss Boddie, who was the nominee of the Prince Rupert Rotary Club in the local elimination contest for the Beautique, was the only girl from Canada who took part in the main event at Los Angeles. As such she was considerably lionized.

Despite the many new and novel experiences she had on the trip, Miss Boddie seems glad to be home again. It was the first time she had been so far away from home. She will resume her duties as stenographer at the Pioneer Laundry.

Gasboat Fire Last Evening

A small gasboat belonging to the son of Mr. and Mrs. L. C. Eby, Fourth Avenue East, sustained considerable damage to house and upperworks by fire last evening. The lad was working with the engine when the craft took fire. The fire department was called and, by the time it arrived, there was quite a blaze under the Cow Bay bridge where the boat had been beached. The fire was extinguished by use of chemicals.

Motorcycle Jumps Track

Motorcycle with side car, in recent championship race, turns over on a dangerous curve near Stockholm, Sweden, throwing out driver and his mechanic

MORE FISH IN FRASER

Famous Salmon Run May Regain Its Greatness

VANCOUVER, Sept. 25.—The Fraser River, once regarded as one of the world's most important sources of food fish and latterly believed doomed because of the ever-declining runs of sockeye salmon, may once again regain its former greatness, according to British Columbia fish experts who have made a thorough study of the river's possibilities.

"The catches of sockeye in the Fraser River system in 1930 afford an impressive object lesson to all concerned in the industry and to the consuming public at large," says J. P. Babcock, deputy commissioner of fisheries, in a recent report. "The catches of sockeye made in that system during that year demonstrate forcefully that the former great runs of sockeye to that system can be restored; that all that is required to restore the great runs of the past is to insure an adequate seeding of all the spawning beds of the Fraser basin. The runs cannot be restored in any other way."

"The sockeye catches made in 1930 consisted of fish from the spawning of 1926, for the salmon move in cycles. The catches of 1926 produced a pack of 130,000 cases. The catches in 1930 produced a pack of 455,000 cases, an increase of 250 per cent."

Incidentally, the salmon pack in all British Columbia waters was greater last year than ever before.

Today's Wheat

VANCOUVER, Sept. 25.—Wheat was quoted on the local Exchange today at 53 7/8c.

BIRTH

A son was born yesterday, September 24, at the General Hospital to Mr. and Mrs. Alex. Murray, Hays Cove Avenue.

LOG CAMP IS MOVED

John R. Morgan Finds New Site for Extensive Operations at Crescent Bay

Arriving last evening on the Prince John from the Islands for a brief business visit to town, John R. Morgan, well known district logging operator, reported that he has just completed the removal of his camp from Cumshewa Inlet, where it had been located for the past few years, to a new site on Crescent Inlet near Lockeport. The tug St. Faith was used in moving the outfit. The full crew of about 70 men is still in employment at the new site.

Mr. Morgan expects to return to the Islands on the Prince John tomorrow night.

SURVEYING ON ISLANDS

Route Laid Out for Logging Railway Which Powell River Co. May Eventually Put In

Col. J. M. Roston, who has been at the head of a survey party which has been engaged during the past summer laying out a route for a logging railway near the Yakoun River on Graham Island for the Powell River Co., arrived in the city last evening on the Prince John from the Islands with his party. From here the party proceeded on the steamer Prince Rupert to Vancouver.

There is no immediate intention of building such a railway, it is understood, but the Powell River Co. desires to be prepared for a start at short notice should future developments warrant inauguration of logging operations on a large scale in the company's timber holdings there.

Argentina is estimated to have 336,000 motor vehicles, more than all the rest of South America combined.

CHARGES POLITICS

Government Partizan With Unemployment Relief, Pattullo Urges Peace Outlet

VANCOUVER, Sept. 25.—Addressing a public meeting in the Vancouver Hotel here last night, T. D. Ptaaulo, provincial Liberal leader, charged that the provincial government was playing partizan politics with the unemployment situation.

Mr. Pattullo made a strong plea for immediate action on the building of a rail connection with the Peace River country.

B. C. CATTLE DOING WELL

Large Orders Are Received From Oriental Countries

VANCOUVER, Sept. 25.—British Columbia breeders of high-grade cattle are beginning to reap a rich reward in the markets of the Far East.

Within the past month one order for fifty head of registered Ayrshire cows was received by the British Columbia Ayrshire Breeders' Association for shipment to Hongkong, while a standing order was placed some months ago with the Holstein Association for ten cows per month to China.

Pedigrees and milk records accompanied the shipment of Ayrshires made up of cows from two and a half years to six years at time of freshening.

British Columbia breeders point out that this province is fast securing a footing in a market formerly supplied by Great Britain or Holland.

The comparatively short ocean voyage across the Pacific, compared with the long, hazardous journey via the Suez Canal and Red Sea works to the advantage of British Columbia.

Many Claimants For Enormous French Fortune

JOHANNESBURG, S. A., Sept. 24. There are many claimants to a supposed fortune of \$85,000,000 rumored to be held in trust by the French government for the descendants of a Gugenot named Louis Fourie, and they are now writing to the British Consul in Paris for information which might help them to establish their "rights." Hon. A. P. J. Fourie, minister of mines and industries, however, does not take the matter seriously, and at a recent banquet at the French Club here he made a joocular reference to it. Many other South African Fouries, though, do take it seriously, and A. J. Fourie of Heilbron believes that in the old family Bible he has the complete chain of evidence.

REACH NO DECISION

MONTREAL, Sept. 25.—Representatives of the running trades of the Canadian National and Canadian Pacific Railways in conference here have reached no agreement as to their course of action in regard to a proposed ten per cent wage cut which they have been asked by the railways to consider.

PASSING OF MRS. M'RAE

Death Removes Another Pioneer Woman of Prince Rupert at Age of Seventy-Four

Death removed another pioneer woman of Prince Rupert at 8 o'clock last evening in the Prince Rupert General Hospital when Mrs. Catherine McRae, aged 74, passed away after a brief illness. She had been in the hospital for only two days.

A native of Sutherlandshire, Scotland, the late Mrs. McRae had resided in Prince Rupert for twenty-two years. She was well known here and was greatly esteemed by all her friends.

Predeceased by her husband, William McRae, who died three years ago, Mrs. McRae leaves to mourn her loss five sons—Jack, Allister, Alexander, Donald and Roderick—all resident in Prince Rupert.

Deceased was a member of the Ladies' Orange Benevolent Association. She was a member of the Presbyterian Church.

Burial arrangements are in the hands of the B. C. Undertakers and the funeral will take place Sunday afternoon.

ROUSING BANQUET

Bandmaster Thomas Wilson Farewelled Last Night

In honor of Band Master Thomas Wilson and Mrs. Wilson, some two hundred citizens met at the Boston Hall last night, to show their appreciation of his endeavors on behalf of the boys of Prince Rupert and the city of Prince Rupert.

Ald. Collart, member of the Boys' Band executive, was chairman. The principal speaker, Mayor Orme, in his remarks spoke of what a valued citizen Mr. Wilson had been, especially in the task he had taken to form a Prince Rupert boys' band.

Col. Nichols, a member of the executive told of how the band was first financed and of the first subscription of \$10 donated to the Boys' Band Association.

N. Mussallem, president of the Boys' Band Parents' Association, made a few remarks as to how his executives had got along with Mr. Wilson. They had met weekly and discussed ways and means as to keeping the Boys' Band to the front. Should the opening arise Prince Rupert would have a band second to none.

The next speaker was one of the band boys, Kenneth Green, who spoke on behalf of boys of the Boys' Band. Mr. Wilson's departure was greatly regretted. He had

Continued on Page 4.

FREDERICKS' FATE IN JURY'S HANDS

PRINCE GEORGE, Sept. 25. The case of Carl Fredericks, young German, who is charged with having murdered his two companions, Max Peters and Herman Westphal, while on a prospecting expedition to the Trembleur Lake country last summer, went to the jury at the Supreme Court Assizes here this morning. It is Fredericks' second trial, the jury having disagreed in the first.

Was Killed in a Mine Accident; Well Known Here

Word has been received in the city that Alex Middleton, formerly of Prince Rupert, was killed at Timmins, Ontario, as the result of a mine accident on September 12.

Mr. Middleton, who is about thirty years of age, left Prince Rupert about the middle of February. He resided for some years at Topley and also worked at the mines at Banshire, Scotland and two brothers live at the same place.

While Mr. Middleton did not live for many months at a time in Prince Rupert, he was here often and was well and favorably known in the city.

TOM MOORE RE-ELECTED

President of Trades Congress Again—S. D. Macdonald on Provincial Executive

VANCOUVER, Sept. 25.—Tom Moore was unanimously re-elected yesterday for his fourteenth successive term as president of the Trades & Labor Congress of Canada.

P. M. Draper was honored by reelection for a thirty-second successive term as secretary-treasurer. Ald. S. D. Macdonald, president of the Prince Rupert Trades & Labor Council, was elected to the provincial executive.

Hamilton was chosen as next year's convention city.

DAILY EDITION Friday, Sept. 25, 1931

**RAILWAY SITUATION.**

Judging by the discussions that are going on in Eastern Canada, it seems that the two railway heads, Sir Henry Thornton and Mr. Beatty, have been conferring in regard to what action may be taken to reduce operating expenses on the roads and increase income. While it does not seem likely that the two systems will be amalgamated, although that has been discussed, it is likely there will be much closer co-operation than in the past. Where services duplicate each other the duplication will be abolished and efforts will be made to reduce and regulate truck competition. The aid of Parliament will be asked to try to eliminate what is considered unjust competition from motor traffic.

Hopping for business beats hoping for it by about a million miles.

**LOOKING TO THE TAKU ONCE MORE**

The attention of the mining world is being directed once more to the Taku country by the action of Noah Timmins, the well known Ontario mining man, who has taken an option on properties there and where he states he expects to conduct major mining operations in the near future. Already a number of men have been put to work there and as the properties are developed more will be employed.

The Taku is near the Alaskan boundary and is accessible only by passing through a narrow strip of that territory. It is not very far from Juneau.

**LIKES CANADIAN MONEY**

Ketchikan people like Canadian money if they can only get enough of it. So Canadians like American money at any time if they can get it. American money passes at its face value in Prince Rupert always and Canadian money also passes in Ketchikan most of the time. In spite of the slight fluctuations both monies are international, so far as general trading is concerned.

Just now fishermen are urged to bank their money here rather than pay the exchange demanded within the past few days. Just as soon as the present flurry is over, the rate of exchange is likely to be very small.

**HAD RACE IN AUTOS**

**Edmonton Has Excitement When Policemen Chase Bandits**

EDMONTON, Sept. 25.—Firing four shots while their machine raced north on 95 st at a speed of 55 miles an hour, city police at 4:05 a. m. chased two alleged auto thieves in a stolen car from 101 st. and Jasper to 93 st. and 105 ave. where they caught them.

The accused are Jack Rennie and Jack Dryden, both 19.

They were convicted when they appeared before Magistrate George B. McLeod in city police court Saturday morning and were remanded to Tuesday for sentence.

The accused declared that they had been with a party of young people before the offence, that they had been drinking and that they did not remember the occurrence. They added that they believed they were in their own car.

Leaving out of the window of the police car as it roared over the pavement in pursuit, Constable C. Jarvis fired four of the shots, and despite the high speed two of the slugs took effect in the machine ahead, one just over the gas tank at the rear and at the left hand side, the other in the side over the right hand fender.

Constable Walter Crawford, police chauffeur, was driving the police auto.

The stolen auto was owned by J. M. Verge, 10004 142 st., and was taken from in front of the residence at 3:55 a. m., allegedly by the accused, after their own machine had broken down at 96 ave and 142 st.

Mr. Verge called the police station when the auto was driven away, and Constables Crawford and Jarvis drove west in an effort to intercept the thieves.

At 101 st. and Jasper they noticed the stolen car being driven east at a high rate of speed, and turned around at that corner to give chase.

Nearing 95 st. and Jasper both cars were travelling at 55 miles an hour and rounded the corner at a high rate of speed. On 95 st. the police car gained and when within shooting distance Constable Jarvis opened fire.

Jarvis is one of the three best shots on the police force.

(Halted at 93 St.)  
 The stolen car was turned at 105 ave. and 95 st. and brought to a halt at 93 st. There was no trouble in making the arrests.

Police later went to 96 ave. and 146 st. and located the car which the youths had been driving and which is owned by Dryden.

**ARE GOOD ANY TIME**

Oysters as Delicious and Healthful in July and August as in Winter Months

PROVIDENCE, R.I. Sept. 25.—Strictly speaking, there is no oyster season, according to Dr. Thomas H. Connolly, chairman of the state board of purification of waters. Dr. Connolly, a prominent dealer, declared that oysters were as delicious and healthful in July and August as they were in fall and winter months.

To explode the hardy myth that oysters are good only in the "R" months, the so-called oyster season got the jump in September this year by opening August 31 in Rhode Island. Several factors, such as recent favorable spawning, the absence of pollution in oyster bearing areas, the growing practice of certifying shipments and the largest number of "set" oysters in recent years, assure an unusually successful season this year for island oystermen.

Whether the scallop season, which begins officially September 12, will be marked by a larger crop than the relatively small one last year at this time, cannot be determined until the season starts.

Unlike the scallop season, which is defined by providing a jail sentence for fishermen who go out before the opening date, there is no law against gathering oysters at any time, Dr. Connolly explained. They are not gathered in large quantities in summer he said, because that is the oyster spawning season and because "people prefer ice cream to oysters in summer."

Although the opening of the oyster season at the start of September every year results more from a "gentlemen's agreement" than from a strict law of nature or the legislature, it was not altogether unheralded. For the last 1500 years the Lord Mayor of Colchester, England, has marked the opening by toasting the king with gin, gingerbread and an oyster. On August 31 the mayors of three American cities opened the season by sampling the blueprints on the halfshell. The gin and gingerbread were omitted.

**GOAT NEAR TERRACE**

Editor, Daily News:  
 Referring to your paper of the 22nd, in which under Terrace News an item states that most of the goat hunters have returned from the hills empty handed. This would give an outside reader the impression that game in our vicinity is very scarce or that there was practically none at all, while, on the contrary, game is very plentiful and we know of no hunters going out for goat who failed. In fact last week three different parties of hunters went out and brought in a goat to each hunter and passed the meat around to their friends so every person hereby enjoyed goat meat. Both large and small game is very plentiful this fall and seems to be easy to get.

Arnold Evans, who has been pursuing the past summer of the steamer Prince Robert on the tri-city run, is now on the steamer Prince John in similar capacity.

A. M. Manson, K.C., M.L.A., having spent a couple of days here following a tour of Omineca riding, which he represents in the provincial legislature, sailed by the Prince Rupert last night on his return to Vancouver.

E. E. Orchard, who has been spending a few days in the city following a business visit to Smithers, where he formerly resided, sailed last night by the Prince Rupert on his return to Bremerton, Washington, where he now makes his home.

"Many Happy Returns of the Day," was a number played last night by radio station KJR of Seattle for Louis Moore of Prince Rupert at request of Marie Miller of Fairbanks. "Eddie" of Prince Rupert and "Rose" of Seattle also exchanged numbers.

**TO TAXPAYERS**

**UNIFORMS FOR GIRLS**

Pupils of Kitsilano High School in Vancouver Set Precedent

VANCOUVER, Sept. 25.—Beach pyjamas may be all right for young ladies during the holiday season, but students at Kitsilano high school here have very different ideas about work-day costumes. Voluntarily they have adopted uniforms, and it is believed that in this action they have set a precedent for public schools in Canada.

When the Kitsilano girls returned to school September 1—there are several hundreds of them—they were attired in neat blue uniforms of distinctive yet practical design. Navy blue serge, tailored into jumper dress with low cut front over white blouse, or smart skirt, worn with white blouse, is the chosen fashion. With both these costumes, ties in school colors will be worn, as will blue blazers with school crest. Low-heeled shoes and dark blue hats, with possibly blue reefer coats for winter, will be the only necessary wardrobe for these girls. No jewelry or ornaments of any kind will be worn.

No frills or foibles, these young girls decided, and parents agreed with them by an overwhelming majority. The matter, properly presented to parents, was put to vote and wholeheartedly endorsed. Miss Jessie Casselman, vocational guidance teacher, states that the uniform is not compulsory but has been chosen by the students themselves as a means of creating a greater spirit of harmony among pupils. No more vying with one another in matter of new dresses, new foibles that may come up, or height of heels or amount of jewelry. All this is dispensed with under the new plan and the girl whose parents are stretching every penny to keep her at school cannot be distinguished from the girl whose father has unlimited income.

The uniform is not necessarily purchased ready-made. The Home Economics department has aided several students in blocking out their own patterns, and mothers have been sewing on these during the summer. Our Japanese girl has tailored her own costume, and it is stated her uniform compares favorably with those purchased. About 140 girls obtained their uniforms before the end of last term.

School authorities look with favor on the new plan for dress.

**Gathering Last Night at Army Citadel Here**

There was a goodly gathering at the Salvation Army Citadel last night when Staff Captain Joseph Acton, divisional commander for Northern British Columbia and Alaska, spoke on the subject of "An Old Love Story." A bright and profitable time was spent by all in attendance.

Community singing was much enjoyed, the hymns being selected by the congregation.

At the close appreciation was expressed to Staff Captain Acton. Prospects are bright for the success of the remainder of the campaign.

# SHORTAGE OF NURSES

LONDON, Sept. 25.—One-fifth of all the hospitals fail to secure suitable candidates as sisters and one-half fail to secure staff nurses and probationers of the standard required.

This is one of the facts revealed by the "Lancet" commission which has been sitting since December under the chairmanship of the Earl of Crawford to consider the shortage of nurses. In the interim report just issued, A. Bradford Hill, the statistician, summarizes the views of nearly 700 hospitals.

The wider sphere of women's work today is the most general reason put forward for the shortage of nurses. Many other occupations, it is said, offer better salaries, prospects, more freedom and social amenities, without the restrictions and long hours of institutional life. Solutions of the problem offered include: Living out, superannuation schemes, less menial work, fixed off-duty hours, facilities for additional qualifications, more co-operation between educational authorities and hospitals, bigger salaries for trained staff.

Finally, an appreciable number of hospital authorities believe the shortage of candidates to be due to "an erroneous idea of overwork, under-feeding and underpay."

## ROUSING BANQUET

(continued from page 1)

been bandmaster for the past five years and had worked hard to make the band a success. Many of the boys were indebted to Mr. Wilson for their musical knowledge. Had it not have been for him the opportunity of learning the various instruments would have not been so great. He was a conductor and companion. In this way he had endeared himself.

Kenneth Green also expressed the sentiment of the Boys' Band to Mr. Wilson. He had always taken a deep interest in the Boys' Band. On behalf of the boys he presented a token of appreciation.

W. H. Tobey, secretary-treasurer of the Band, outlined how the band first came about and gave all due credit to all its supporters and members, in the progress the Band had made.

Band Master Wilson in replying to the presentation and esteem, shown to both him and Mrs. Wilson, mentioned how attached he had become to the boys and trusted that they would still continue to make the band a success. He would always have their welfare at heart.

In conclusion \$5.00 was presented to Allen Hale for best attendance at practices. Geo. Carlyle and Jack Campbell, second and third received \$2.50 each.

# ATHLETICS WIN AGAIN

Detroit Tigers Fall Into Seventh Place Behind St. Louis Browns

PHILADELPHIA, Sept. 25.—Philadelphia Athletics added another to their long string of victories for the season yesterday by scoring an easy victory over the Boston Red Sox.

Detroit Tigers dropped into seventh place behind the St. Louis Browns by dropping a decision to the Cleveland Indians.

The only game in the National League made no change in the situation there.

Yesterday's scores:

National League			
Team	Won	Lost	Pct.
Philadelphia	5	1	
American League			
Team	Won	Lost	Pct.
Philadelphia	106	44	.707
Washington	92	58	.613
New York	90	59	.604
Cleveland	75	76	.497
Boston	61	89	.407
Detroit	61	91	.401
St. Louis	60	89	.403
Chicago	55	94	.369

# ARABELLA CIGARS

5¢ each  
by far the greatest value

A LOT of cigars must improve their quality if they are to compete for smokers' favour with Arabela... buy one to try, you'll buy the pocket pack of five next time... the aroma and freshness are sealed in.

## SPORT CHAT

Replies to a circular letter addressed to hospitals in Greater London by the Secretary of the London Free Church Federation, show that of 51 hospitals 17 are opposed to the raising of funds by means of lotteries and sweepstakes. Thirteen replies stated the matter had not been considered by the hospital committees, seven that sweepstakes were illegal and therefore not to be entertained, seven stated indefinite replies, two stated they were self-supporting, and four that they were under the control of the London County Council. Only one was in favor of raising money by sweepstakes.

At a monster picnic at Cloverbar in celebration of Alberta's pioneers the various contests and barbecue attracted 3,000 people. Women in the rolling-pin-throwing contest, from a distance of 50 feet, showed startling accuracy. Many old timers were noticed on the grounds. It was nothing to be able to claim only 35 or 40 years residence. Mrs. Annie Long claimed 50 years resident in Edmonton district. The distinction of being the oldest man on the grounds belonged to William Colwell, aged 89.

## SCHOONER'S NEW RIVAL

Ancient Sealing Craft Now Has to Meet Competition of Fast Steamers

PROVIDENCE, R.I., Sept. 25.—"That isn't whaling, that's murder," the New Bedford whaling men said repeatedly a few decades ago as the last of the old sailing ships gave way to modern steamships, equipped to kill, swallow, and rend whales by machinery.

As a result of these newly constructed floating whale factories, the schooner John E. Manta, built in 1904, and one of the last of the whalers to leave New Bedford, finally was run into drydock in 1927, and after a few months of reconditioning went down the ways as a packet schooner.

The day was over when the lookout would sing hoarsely, "Tha-a-r she blows!" No more would the deck demand, "Where away?" And no more would New Bedford sailormen grow old waiting for the ship to return from the perilous journey.

The glamour and romance of past days have disappeared from the gallant ship, and now, as a converted whaler, she slowly ploughs her way across the Atlantic as a commercial freight schooner carrying cargo and passengers to the Cape de Verde Island on a yearly schedule.

But a series of misadventures has followed the Manta in her routine business between the mid-oceanic islands and this seaport.

After her second crossing which was made in the record time of 49 days, the old whaler found herself again in trouble. Customs men boarded the boat and found that not only had her storage space for oil casks been ripped out and remade into sleeping quarters, but that there were quarters for eleven passengers in the hold which no one had said anything about. In a word it was found that the schooner had been used to smuggle natives into this country.

Sent to Prison  
As a result of these conditions the mate was sent to prison for two years, while the stowaways and some of the members of the crew were deported.

The whaler was sold at an auction to two sea captain brothers from New Bedford who still own her and are now having her rigging repaired and a general reconditioning undertaken to place her once again in the Island trade.

Fast steamers are now entering this route, and again the old sailing craft is feeling the effect of steamship competition. But her owners are confident that enough passengers will be signed up at \$60 to \$80, and that sufficient freight will be stowed below, so that the 45-day voyage will be profitable.

And, strangely, the trips on the old whaler usually have been profitable enough so that she stays in the trade, leaving port once a year to take natives of the Islands living in this city back home for a visit, and to bring to the Cape de Verde Islands a cargo of precious kerosene, lumber, furniture, and general merchandise.

A delivery automobile for the use of men who make frequent stops has been designed that can be operated by a man walking beside it.

## Children Hear Miss Mann Tell of India Work

Miss Edith G. Mann, B.A., visiting Baptist Church missionary to India, gave an interesting talk before the children of the Mission Band of First Baptist Church here yesterday afternoon.

children of the Mission Band of First Baptist Church here yesterday afternoon. Miss Mann told in a very acceptable manner of life, customs and teaching among the Telugu tribes. Mrs. J. D. Thurber presided over the gathering.

Tonight Miss Mann will meet the ladies of the Mission Circle of the local church and will leave by train tomorrow morning for Halifax, where she will embark for India.

## WAS KNOWN IN RUPERT

J. D. Sweeney, Pioneer Logger of District, Killed in Accident Near Lockport

SKIDEGATE, Sept. 25.—J. D. Sweeney, well known pioneer hand logger of the district, was killed last week while engaged in logging six miles below Lockport.

Jack Sweeney and his partners, Oscar Pearson and Blackie Robinson, were putting in a big stick which suddenly swung around, jamming Sweeney between it and a stump. Death was instantaneous.

The late Mr. Sweeney, who was 74 years of age and a native of Kingston, Prince Edward Island, was well known in Prince Rupert and elsewhere on the mainland. He had been engaged in logging on the Queen Charlotte Islands for fifteen years and made several large stakes.

The funeral took place at Queen Charlotte City with interment in the cemetery there, the remains having been brought up from Lockport by Capt. C. B. Haan on his seneboat Beatrice H. Rev. Mr. McKenzie conducted the funeral service.

## Regret Expressed at Transfer of Mr. Mellish to South

At the Rotary Club luncheon yesterday President George Munro spoke of the regret the members of the club all felt at the fact that B. J. Mellish, manager of the Canadian Bank of Commerce, was leaving the city. He had been transferred to Vancouver and would be going away in about two weeks. In the meantime, it would be the duty of the club to choose a new treasurer.

## SKIDEGATE

William Streesman, well known Island logger, is operating a camp on the south side of Skidegate Inlet.

Reports have been received here of killing of deer on Queen Charlotte Islands illegally. The police authorities are being notified.

The reduction by the provincial government of the saltery licence fee came too late to be of any benefit on the Queen Charlotte Islands. The season was half over when the announcement was made and it was impossible then for the plants to get ready for operation. Consequently, quite a lot of employment was lost to Island people.

### Two or Three Years Yet Before Dome Is Fully Restored

ROME, Sept. 25.—Restoration of the buttresses of the drum supporting the dome of St. Peter's is showing appreciable progress since the work was begun about three years ago, but it is probable it will be two or three years yet before the restoration will be completed.

Several of the massive party walls of travertine constructed between the buttress and pillars of the drum were found to be cracked and have now been repaired with new blocks of travertine. Similarly, new blocks of travertine have been fitted into the core of the drum itself, and in some sections of it where the old blocks have been left a special cement has been forced into the cracks.

When the work was being begun the Pope insisted on accompanying the responsible architect, Senator Beltrami, on the scaffolding in order to see for himself the need of the undertaking, and he has continued to follow the operations with the closest attention.

### ED. LIPSETT TELLS ABOUT HIS JOURNEY

Impressed With Prince Rupert After Having Visited Most Big Cities of Europe

After travelling through most of the large cities of Europe with Mrs. Lipsett, and attending the Rotary International convention in Vienna, Ed. Lipsett of Vancouver, proprietor of the business which bears his name here, told the local Rotary Club yesterday that he never had seen Prince Rupert looking as well as it did today. Only when

he looked at his books did he realize that there was anything wrong. He said he felt there was a community spirit creeping up in the city. He had once told the merchants here that the city would go ahead in spite of the people and he still thought it was going to be a good place. There were more signs of prosperity here today than in most places in Canada and the city would come out all right.

Mr. Lipsett told very humorously of incidents in his trip. He mentioned the courtesy of railway officials and said he found that they were coming to realize that passengers were really a factor in their business. He travelled through Germany, Austria, Czechoslovakia and a number of other countries and he found the countries looking prosperous, the people well dressed and showing none of the signs of distress which one would gather from newspaper reports that they were suffering.

The traveller visited Cherbourg, Antwerp, Brussels, Budapest, Prague, Dresden, Berlin, Copenhagen, Stockholm, Bergen, Glasgow, Dublin, Belfast, London, and many other places. He sailed down the Danube and found it anything but blue. It was muddier than either the Fraser or the Skeena. He had sailed on the Clyde and it was distressing to see the deserted shipyards. Only two vessels were noticed there where once the sound of the rivetter's hammer was heard day and night.

Mr. Lipsett gave a racy sketch of the work of the big world convention at Vienna where he represented and voted for six clubs, five in Canada, including Prince Rupert, and one in the States. He described the huge concert house, the House of Friendship, the receptions and garden parties and told something of the speakers. It was a wonderful event.

### TO KEEP THE Children Healthy

When they're "off colour" give them Dr. Carter's all vegetable Little Liver Pills. Safe, acting gently on the bowels and liver, they soon bring back smiles and high spirits that healthy youngsters should show.

### Good Season at Summer Resort

Visitor From Tiell Says Members Expected There For The Hunting This Fall

Mrs. James Denholme of the famous summer resort at Tiell arrived in the city last evening and is a guest of Mr. and Mrs. H. F. Pullen, Westview, until tomorrow night, when she plans to return on the Prince John.

Mrs. Denholme says that they have had a very successful season at the Home Farm, many of their guests this year coming from Anxox. Just now is the off season but they expect a number of people in for the goose hunting a few weeks later. Deer on the island are very numerous. They are very tame. This is the first season they have been open for hunters. Black bear also are numerous on the creeks where the salmon run.

Dick Watson, L. Sleeton and C. Boyd, Vancouver men, are appearing before Magistrate McClymont this afternoon in city police court on charges of peddling hosiery without having obtained the necessary licence.

### PUBLIC AWAITS NEW ATWATER KENT RADIOS

1932 Models Represent Greatest Value in History

Dealers are being deluged with inquiries regarding the new 1932 Atwater Kent radios. It is expected that the new models will be placed on display in prominent music stores within a few days.

The new Atwater Kent golden value models are considered to be the finest radio, from the standpoint of value, quality and performance that have ever been produced.

The world trusts Atwater Kent radio and exhaustive experiments and tests were conducted before the new sets were permitted to be released to the public.

The new season's offerings of the famous Atwater Kent laboratories bring with them the greatest values in the firm's history. There are nine models in the new range which will give a wide selection to satisfy every purse and preference. Every one is a magnificent super-heterodyne, with all the most advanced refinements and improvements. New cabinet designs of arresting beauty and grace are finished in genuine No-Mar. A touch of the finger will bring up the glorious golden tone from deep to brilliant, without distortion. This is made possible by the automatic volume control, which is an important feature of the new sets.

It will be necessary to see and hear these marvelous new radios to fully appreciate them. Taken in all, it is small wonder that the Atwater Kent golden value range of radios are being eagerly awaited.

Approximately 77 per cent of the world's camphor trees are in Taiwan, 15 per cent in Japan and eight per cent in southern China.
