## PRODUCE MARKETING ACT IS UPSET VICTIM OF KITWANCOOL SHOOTING IS DEAD IN HAZELTON

### British Columbia Law Is Defective Supreme Court of Canada Says

A. C. Lawson of Grand Forks Wins His Appeal Against Committee of Direction—Not Liable to Impositions, Judges Rule

OTTAWA, Feb. 16.—Holding that the Produce Marketing Act of British Columbia is defective, the Supreme Court of Canada today allowed the appeal in the case of A. C. Lawson of Grand Forks vs. the interior tree fruit and vegetable committee of direction. The judgment read as follows: "The appeal is allowed with costs throughout. The appellant is entitled to declaration that he is not liable to imposition of any levy by the respondents on or in respect of any produce marketed by him and that respondents have no authority in any manner to regulate or control the marketing (in the sense defined by the Act) of his produce for consumption beyond the boundaries of British Columbia."

### AGREEMENT HOPED FOR

Mahatma Gandhi Asks For Interview With Viceroy of India on Question

LONDON, Feb. 16.—Mahatma Gandhi, leader of the Indian Nationalist party, is still hopeful that an amicable agreement may be reached between India and Britain for the complete independence of the former country. He has asked Lord Irwin, the viceroy, for a frank interview in which to discuss the question.

Gandhi is not satisfied with the understanding reached at the recent round table conference in London, holding that India is far from given independence by that agreement.

NEW DELHI, India, Feb. 16.—The viceroy, Lord Irwin, said today that the government is ready to grant general amnesty to political prisoners in India and to consider the withdrawal of the present laws against All-India Congress party activities if Mahatma Gandhi will call off the civil disobedience campaign and give evidence of a change of heart toward the government.

### Local Boat Owners Decide to Stand By Former Arrangement In Regard to "Hole" Trips

The Canadian Halibut Vessel Owners' Association, at a meeting yesterday, decided to stand by the former agreement that only in case of a boat becoming lost does the owner pay all "hole" bills. They were not willing to comply with a demand of the fishermen that, after a boat becomes disabled or delayed for three weeks, the owner becomes responsible for the "hole" bills. The fishermen, up to this morning, were still standing by their demand to this effect.

### HUNDRED DROWNED

Chinese, Who Had Been Celebrating New Year, Lost Lives at Canton

CANTON, CHINA, Feb. 16.—One hundred persons were drowned in Pearl River, south of here, today when a steamer, with five hundred persons on board, struck a rock and sank. Those on board had been celebrating Chinese New Year.

#### SPRING AND MOTORING

Spring will be here very soon and with it will come the urge to be out of doors. Many Prince Rupert people will be considering the purchase of new cars because the highway will be open as far as Cloyah Bay, the first time there has been an opportunity for a real drive outside the city.

Residents of Prince Rupert who have been without cars because they felt it was not worth while to own one, will have had their objections removed. The new highway will be one of the most picturesque in the country. After it reaches Galloway Rapids it skirts the water most of the way. Beyond the end of the highway, there will be fair walking to Cloyah River Falls and the lake beyond.

This is a time to consider well the make of car to be purchased and also whether it is to be a new auto or one of the various makes of used cars. Possibly there will be difficulty in supplying the immediate demands once the sun begins to shine and when the new bridge is open to traffic.

### LAVERGNE IS DEAD

Hon. Louis Lavergne Passed Away in Quebec—Had Distinguished Political Record

QUEBEC, Feb. 16.—Hon. Louis Lavergne, aged 85, former senator and Liberal member of the House of Commons for Drummond-Arthabaska from 1897 to 1910, died on Sunday. He had resigned the senatorship last year.

The late Mr. Lavergne was born on December 1, 1845, at St. Pierre, Montmagny, the son of the late David Lavergne, whose ancestors came from Limoges, France, in 1650, and Marie Genevieve Delagrave, whose ancestors came from Berri, France, in 1870. Educated at St. Anne's College, Kamouraska, he was married for the first time in 1878. His first wife died in 1887 and he married again, his second wife passing away in 1917.

The late Mr. Lavergne was a notary public and chairman of the Board of Notaries of the Province of Quebec from 1903 to 1906.

Deceased first entered politics in 1897 when he was elected to the House of Commons in a by-election necessitated by the elevation of his brother to the bench. He was re-elected in 1900, 1904 and 1908. He was elected Liberal whip for the Province of Quebec during the 1901 session and in 1905 was summoned to the Senate.

The home of the late Mr. Lavergne was in Arthabaska.

### Through Instrumentality of W. G. McMorris, Island Mine Is Now Under Development

Active operations are being started on the Skidegate-Sunrise group near Skidegate, Queen Charlotte Islands. This is a gold quartz property with attractive possibilities. On February 3, Major A. W. Davis, mining engineer of Vancouver, arrived at Queen Charlotte City with a few men and vigorous development work is now being started.

75% iron concentrates could be delivered at tidewater at trifling cost, it is not too much to expect that, in the not too distant future, some of these properties will be accorded more attention than they have received in the past.

The history of the property is an interesting one. It includes the original discovery, shortly before the war, of high grade gold ore, by the Indians, the staking of adjoining ground by some white men; a campaign of development on the latter ground by an eastern company which was not very successful, owing probably, to the underground work being mainly directed in an area away from the main mineralized zone, and finally, the amalgamation of the two groups by W. G. McMorris and the campaign now under way.

One of the pioneers of the Queen Charlottes, Mr. McMorris has for many years been indefatigable in his efforts to bring these islands, with their tremendous raw undeveloped resources, to the front. In former years the pulpwood possibilities and the coal areas existing there, largely engaged his attention and, in more recent years, the metalliferous mines. Responsible for the expenditure of several hundred thousand dollars on the islands during the past 20 years, it is to be hoped that his more recent activities will give him a substantial reward. Interested not only in this gold property now being worked, but in some large low-grade copper-iron propositions as well, where, besides a copper concentrate, in the same operation, a large tonnage of

### Samuel Douse Charged With Murder of Silas Brown, Another Native

Affair Happened on January 11 and Two Men Were Shot By Same Bullet—Dead Man Had to Have His Arm Amputated

Allegedly as a result of injuries sustained on January 11 when he was shot in the arm at Kitwancool, the member having later to be amputated, Silas Brown died Saturday night in the Hazelton Hospital and Samuel Douse, who is alleged to have done the shooting, having been held on a charge of wounding, has now been formally charged with murder, it was announced today at divisional headquarters of the provincial police here. The inquest and preliminary hearing are both scheduled to be held at Hazelton on Thursday.

According to the police, Douse took out his gun and shot Brown, the bullet going through the latter's arm and passing into the leg of George Sampere. A rifle was used. No motive has, as yet, been ascribed for the desperate act.

### DIRIGIBLE RELEGATED

Akron to be New American Pride of Air While Los Angeles Reverts to Routine Duty

WASHINGTON, D.C., Feb. 16.—On her return from the Panama Canal Zone where she is now engaged in manoeuvres with the Pacific and Atlantic fleets, the United States Navy dirigible Los Angeles will be relegated to routine duties and the new dirigible Akron, now nearing completion at Akron, Ohio, will become nation's pride.

The Akron is 100 feet longer than Los Angeles and is larger and more up-to-date than the other ship in every respect.

NEW GOVERNOR-GENERAL

The Earl of Bessborough is the first Governor-General of Canada to be appointed by the King on the advice of the Canadian government...

Lord Bessborough, who has been chosen to succeed Lord Willington on recommendation of the Canadian government...

There is good ground for the belief that Mr. Bennett has had an unusually difficult task in arranging for a successor to Lord Willington...

The delay in announcing an appointment certainly could not have been due to any negligence on Mr. Bennett's part...

GENERAL IS DEAD

Major General Edwards, Beloved United States Leader in War, Passes

RAISED DIVISION

Was Seventy Years of Age and Descendant of New England Family

BOSTON, Mass., Feb. 16.—Major General Clarence Ransome Edwards, beloved war commander in the United States Army, passed away here on Saturday...

After compiling a notable record as an administrative and line officer in the United States Army for 35 years, Major General Edwards topped it off with brilliant service as a division commander in the World War.

He organized and trained the 26th division, made up of New England National Guard troops, and then proudly went to France at the head of the division...

During that time his outfit, popularly known as the Yankee Division, was cited several times for its gallant work and its commander was honored twice by the French government...

It was with keen disappointment that the doughboys of the Yankee Division learned of the recall of General Edwards, who was one of the best loved division commanders of the American Expeditionary Forces...

Like all young officers after graduation from West Point, General Edwards had a variety of assignments which included three years as professor at military science at Fordham University...

Long Service

Returning to the United States, General Edwards in 1902 was made chief of the bureau of insular affairs to direct administration of the country's new possessions...

It was in the latter capacity that he organized and trained the Yankee division for its service overseas.

General Edwards was born at Cleveland, Ohio, January 1, 1860, a descendant of the Jonathan Edwards family of New England. He was graduated at West Point in 1883...

In 1889 General Edwards married Miss Bessie R. Porter of Niagara Falls, N.Y. They had one daughter who enlisted as an army nurse in the World War. She died in 1918 while engaged in that service.

SIX DECADES ASSETS

Table showing the total assets of the company from 1880 to 1930, showing significant growth over the sixty-year period.

SIXTY YEARS OF PROGRESS

STATEMENT FOR 1930

Financial statement table for 1930 listing items such as New Assurances Paid for (net), Assurances in Force (net), Total Income (net), and Assets at December 31st, 1930.

NOTES FROM DIRECTORS' REPORT

In a year in which all classes of business have encountered many difficulties, the Company has made gratifying progress.

Total assurances in force show an increase of \$462,464,542.58. This gain represents a very high rate of persistency...

The number of policies and group assurance certificates outstanding passed the million mark during the year.

The total net income shows an increase of \$13,804,544.54. The total payments to policyholders and beneficiaries since organization equal the total assurances in force in the Company's fiftieth year (ten years ago).

The mortality among our policyholders has been highly favourable.

The rate of interest earned on the mean invested assets was 6.44 per cent.

Profits paid to policyholders during the year amounted to \$25,641,251.04.

In a year of almost unprecedented business depression the outstanding quality of the investments has been strikingly shown. The actual cash dividends received on the total common stocks held by the Company were \$969,103.84 in excess of the dividends payable on those identical shares in 1929...

Profits to policyholders entitled to participate during the ensuing year will be again allotted on the scale at present in operation.

The special Maturity Dividend is also continued on the basis announced last year.

## SIGNED UP FOR FIGHT

**Nina Gurvich and Benny Wendle Post Forfeits For Ten Round Bout**

Of much interest to local fight fans is the announcement made today that Nina Gurvich and Benny Wendle, a pair that most everyone has craved to see in action, have been signed up, with the posting of necessary forfeits, to meet in a 10-round bout at the Empress Social Club arena within the next four weeks. The date, to be announced later, depends on just how long it will take the boys to get in shape for the grind.

The bout, to be fought at catchweights, will be billed as for the welterweight championship of Northern British Columbia.

## BOUT SITE QUESTION

**Nobody Knows Yet Where Schmeling and Stribling Will Meet Next June**

NEW YORK, Feb. 16.—"Schmeling vs. Stribling: Where is it going to be," is the burthen of fight fans' song these days and the question is one that, as yet, seems to be entirely unsettled.

There are some objections now against Chicago, where it was originally planned to stage the fight in June, although this does not mean that it may not eventually be held there.

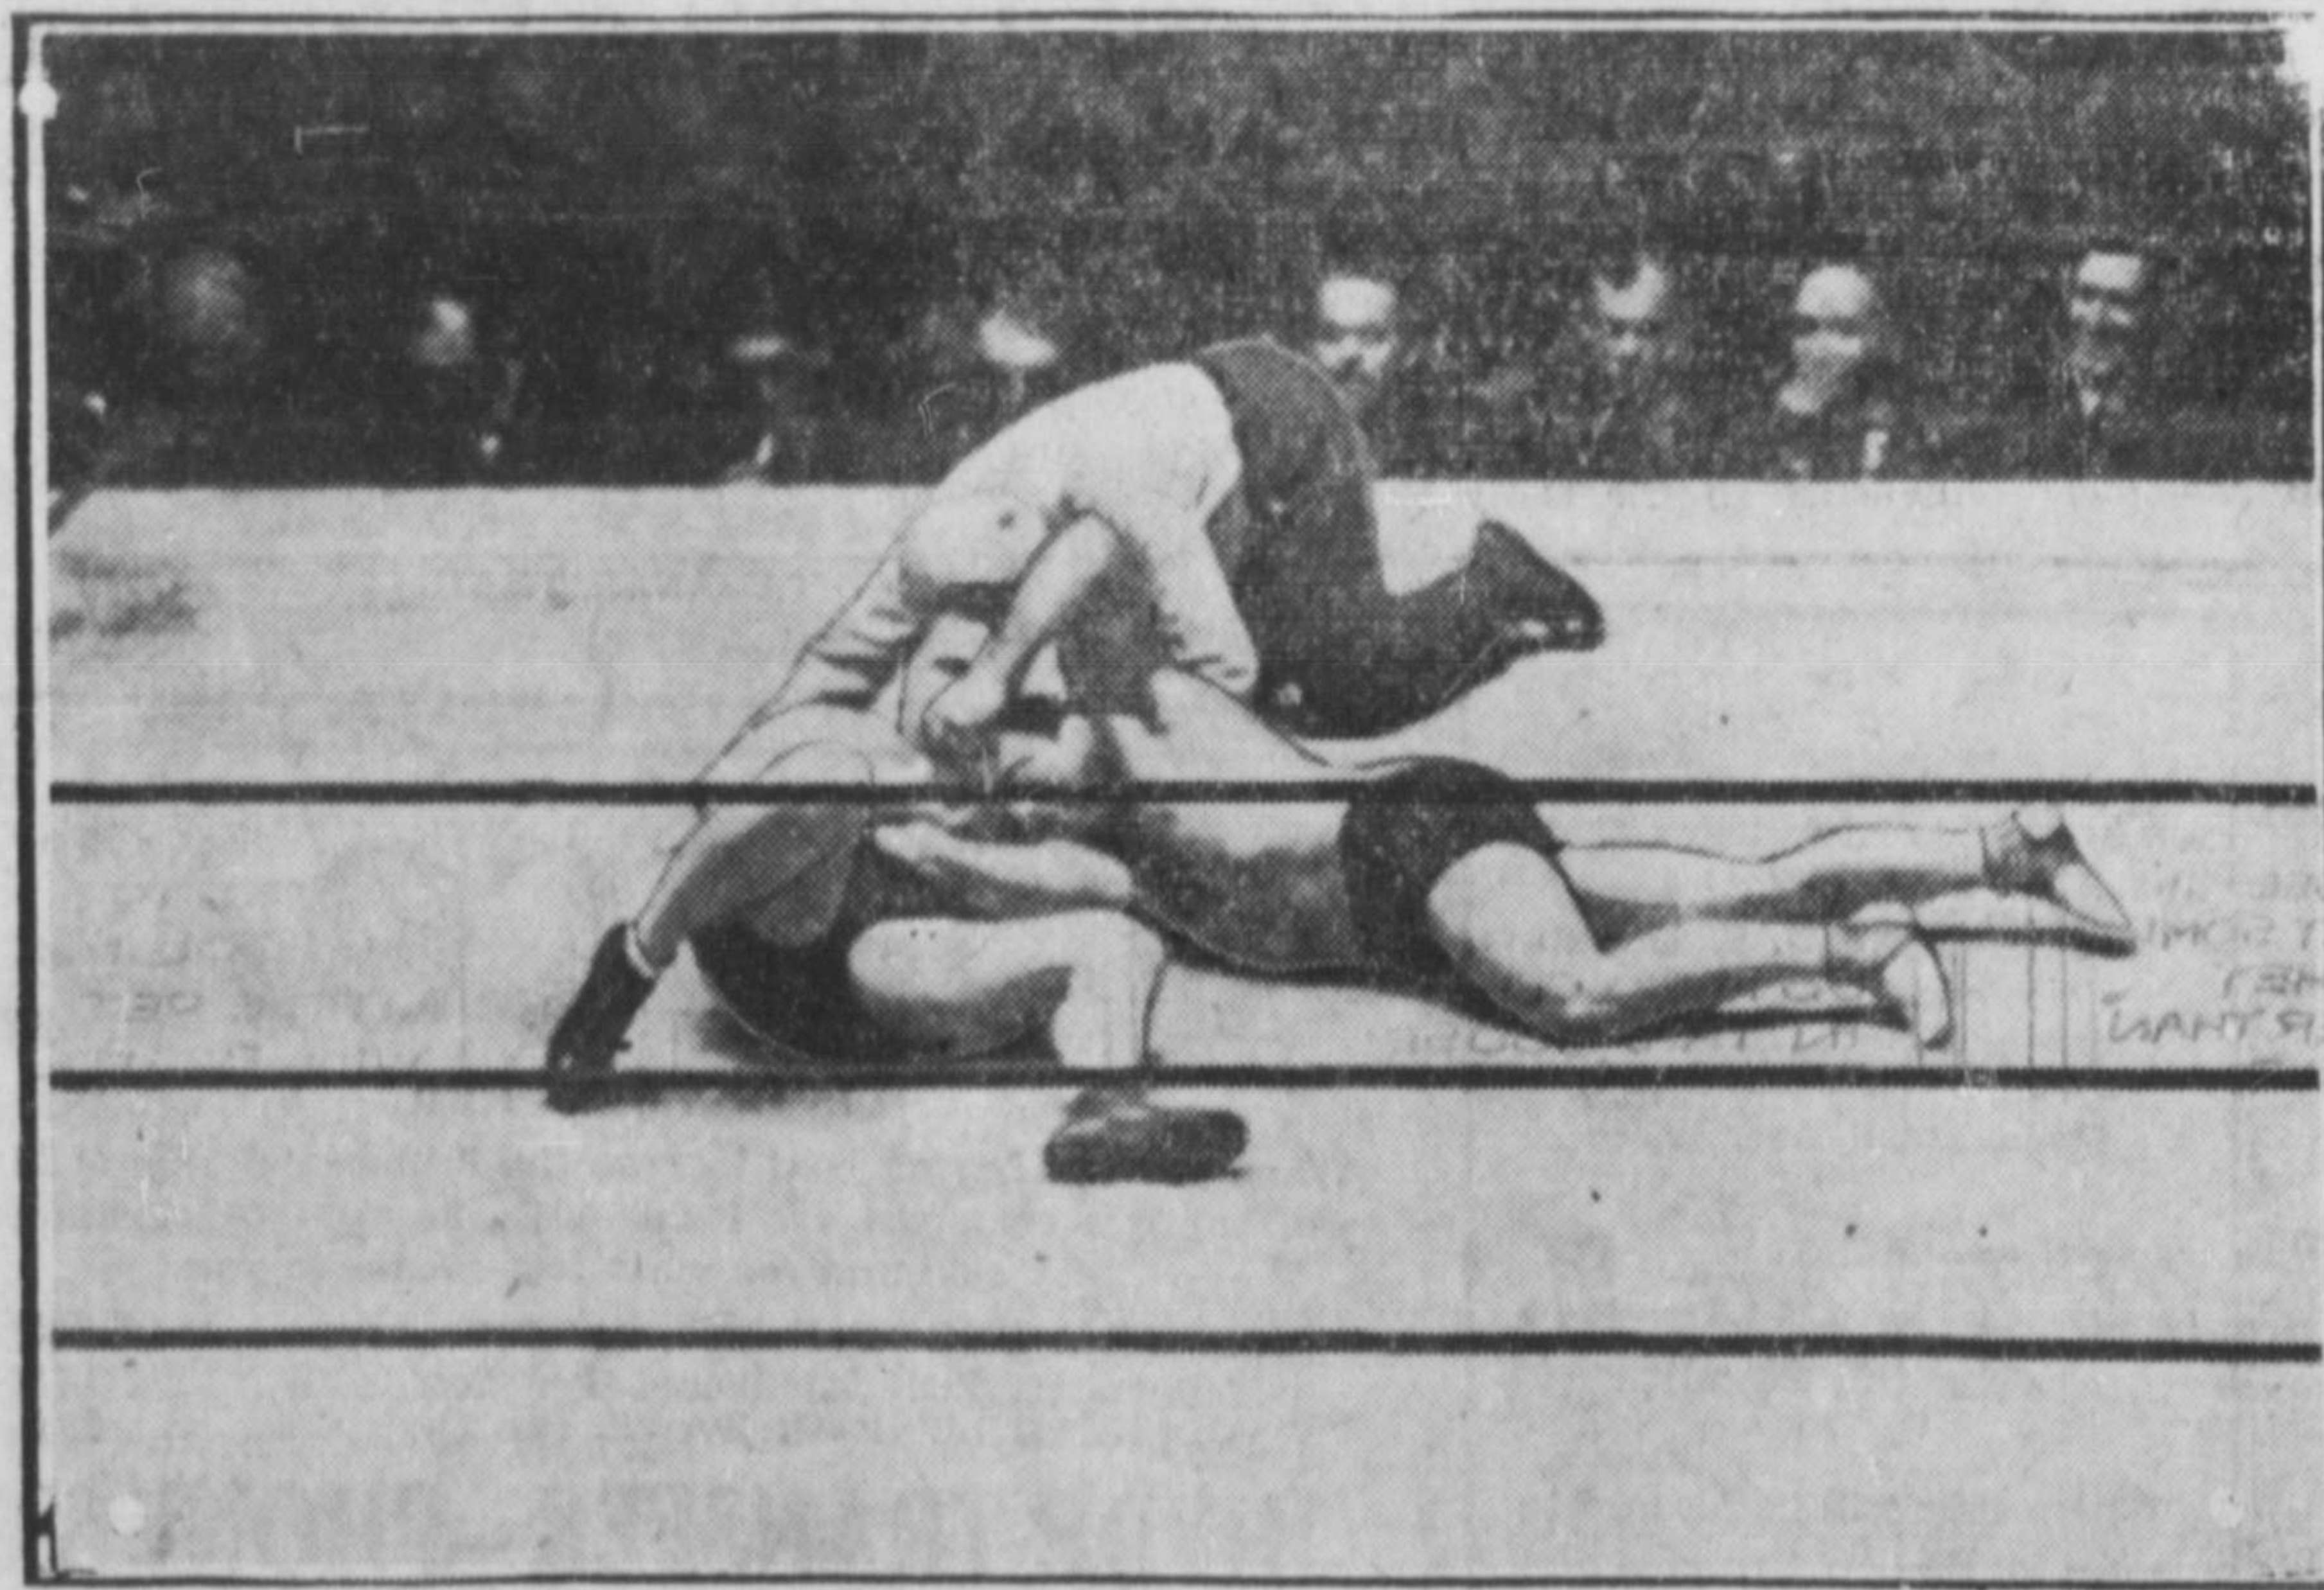

Jersey City, Philadelphia, Detroit and New York are all mentioned as alternate venues for the heavy-weight championship battle.

## Country Readers of "The Daily News"

To the readers of the Daily News who live out of town, we suggest that the classified columns of the paper provide an excellent medium for the disposal of articles they may have for sale or exchange.

Last season a lady at Smithers did a large business in selling fresh eggs direct from the farm by advertising in this paper.

Chickens, implements, household goods, boats, fishing gear, guns, cordwood, furs and dozens of other articles, may be disposed of. The charge is two cents a word but six times goes for the price of four.

Many people get good results. Why not you?

# BURDOCK BLOOD BITTERS

## Covered With Boils on Arms, Back and Neck

Miss Margaret Higgins, Dymont, Ont., writes:—"I was covered with boils on my arms, face and neck. I used plasters and other remedies with no results. My attention was drawn to Burdock Blood Bitters, so I decided to get a bottle. The results were marvellous, as in no time the boils had completely disappeared, and my skin was clearer and fresher than ever."

For sale at all drug and general stores; manufactured, for the past 51 years, only by The T. M. B. Co., Ltd., Toronto, Ont.

## 'Soul' Christian Science Subject Sunday Services

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Soul." Among the Bible texts included in the lesson-sermon was the following from Hebrews 10:39: "But we are not of them who draw back unto perdition; but of them that believe to the saving of the soul." The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, one passage being as follows: "Soul is immortal because it is Spirit, which has no element of self-destruction." (page 311).

## Fire Station at Terrace Under Construction

# A GREAT COMPANY'S DIAMOND JUBILEE

Life insurance has now, apparently, reached such a point in public estimation and confidence that it seems comparatively immune from the ordinary vagaries and fluctuations of other lines of business. The Sun Life Assurance Company of Canada, whose report appears elsewhere in this issue, seems to enjoy this public confidence to an unusual degree, for it reports new policies written during the year to the net amount of over \$700,000,000, the largest in the company's history of sixty years. This year it celebrates its diamond jubilee. A graphic picture of its progress is shown in the report which discloses, decade by decade, its growth from assurances in force in 1830 of less than \$4,000,000 to over \$2,800,000,000 today, and of an accumulation of assets from less than \$500,000 in 1880 to nearly \$590,000,000 at the present time. Even more striking is the fact that the company has paid to policyholders and beneficiaries since its organization over half a billion dollars—more than its entire assurance in force only ten years ago. This is almost magical and helps to explain the widespread faith of ordinary men in life insurance from the standpoint of investment as well as of family protection.

T. B. MACAULEY  
President, Sun Life Assurance Company of Canada.

ARTHUR B. WOOD  
Vice-President and Chief Accountant, Sun Life Assurance Company of Canada.

department of insurance on the basis of their market price on that day. Such a test this year, needless to say, was a most exacting one. Yet even at the abnormally low prices prevailing at the end of the year the company's common stock holdings, taken by themselves, showed a substantial excess over cost. Moreover, the actual cash dividends paid during 1930 on the total common stocks held by the company in the previous year were nearly \$1,000,000 in excess of the dividends paid on these identical shares in 1929. Such a satisfactory issue from the sharpest and severest market "break" in this generation is a wonderful vindication of the investment sagacity of the company. The rate of 6.44% earned on the mean invested assets of the company is a further proof of thrifty administration. The company announced that the profits to policyholders entitled to participate during the ensuing year will be allotted on the same generous scale as has existed for some time, and that the special maturity dividend which has been so popular will also be continued.

## dictator HONORED

Surprise Party for W. B. McCallum Saturday Evening

A very enjoyable party was held on Saturday evening at the home of Mr. and Mrs. B. J. Bacon in honor of W. B. McCallum, recently elected dictator of Prince Rupert Moose Lodge. About thirty-six persons were present; dancing and general jollification, followed by refreshments being the order of the evening.

In outlining the qualities of the guest of honor, Secretary Percy Cameron stressed the business sense, tempered with fraternal regard, possessed by him. In forecasting the advance of the order for the coming year, he emphasized the enthusiastic co-operation the dictator would be sure to enjoy from the officers, committees and members. Guided by these excellent omens he took the liberty of prophesying an outstanding year for 1931.

In replying in a few well chosen

words, Mr. McCallum thanked the hosts, host and guests for this delightful surprise. He felt sure that the Secretary's words were quite true regarding the officers and members, and that 1931 would be a banner year.

A toast was then taken in his honor, the company rising and singing "For He's a Jolly Good Fellow," which was followed by a toast to Steward William Lamb.

The party continued until 3 a.m. when the guests took their leave, all voting the affair a magnificent success.

## FISHERMEN WIN FIGHT

Are Advised by Commissioner of Fisheries That They May Have Cannery Licence Change of Policy

The following letter from Chas. Lord, secretary of the Northern B. C. Salmon Industries Association, has been received:  
"At a recent date, through the medium of your columns, the public was informed that the co-operative organizing committee of the Northern B. C. Salmon Fishermen's Association was forming a Prince Rupert Fishermen's co-operative Association and that, considering it possible that they might be in the position to equip and operate a salmon cannery this coming season, they had, in an official capacity, approached the Provincial Government Commissioner of Fisheries for a definite statement as to whether or not he would grant a salmon cannery license if needed. It was also stated in the same letter that the reply of the government had been in the negative which, naturally, aroused the ire of the initiators of this movement.

"As further information to the public, I may state that our Association has kept right after the powers that be, terminating in a personal interview with Hon. S. L. Howe, Provincial Commissioner of Fisheries, and I take pleasure in offering to the public the content of the final letter received from Victoria, B.C., Feb. 1931:

To Charles Lord, Esq.,  
Secretary Co-operative Organizing Committee,  
Northern B.C. Fishermen's Association.

P.O. Box, Prince Rupert, B.C.

"Dear Sir—Confirming our conversation this afternoon and as stated in my letter of the 3rd inst. so long as the Prince Rupert Fishermen's Co-operative Association processing is confined to mild curing or the fresh fish business no license will be required.

"However, if the Association decides to erect and operate a salmon cannery in the Northern area at or near Prince Rupert, then a license will require to be taken out by your Association. If your Association apply for a license for the 1931 season for such a plant, accompanying the application with the necessary fee, I will give instructions for the issuance of such license.

"Yours faithfully,  
(Signed) S. L. HOWE,  
"Commissioner."

"The receipt of the above letter is construed by the directors of the now incorporated 'Prince Rupert

## Do-You Want More Branch Factories?

What is a factory worth to Canada, that gives steady year-round employment to five thousand hands?

It depends upon where it's located, doesn't it? If it's located in Canada, it's worth a small fortune to us. But if it's located at our very borders, but still outside of Canada, it may be worth nothing at all to us. In any event, it is almost certain to be worth far less than the branch it might be persuaded to establish in Halifax, or Vancouver, or any point in between, even though that branch gave steady employment to only fifty hands!

No matter where they locate in relation to where we reside, we're always delighted to hear of branch factories being established in Canada, because of the employment they create for Canadian labour, the market they provide for Canadian farmers and Canadian merchants, and the business activity they stimulate in countless ways and in countless quarters.

Thus far, in our efforts to promote their establishment within our borders, we have made use of but one lever—our tariff. For a time it proved to be a very effective lever. During the period preceding the war the harvest was considerable. But of recent years the annual crop of branch factories has been lean—quite disappointingly so when we reflect that the justification for their establishment should be greater than ever before, due to the fact that our annual imports of merchandise keep steadily increasing.

Isn't there something that each of us as individuals might do to help get the movement in full swing again? Suppose we steadfastly refused to buy merchandise that we knew to have been imported, wouldn't that cause a lot of these outside manufacturers to reconsider their plans?

Not long since, the manufacturer of an imported product, the annual sale of which in Canada runs into millions of dollars, boasted that no action this country might take would ever force him to establish a branch factory here. When he said that he was, of course, thinking only of one kind of action—tariff action! And feeling secure in the advantage of a low manufacturing cost obtained through mass production, he probably had some justification for believing that his hand could not be forced.

But he overlooked one very important point. And that is that while Canadians have always shown themselves a very tolerant people in their attitude towards imported merchandise, they are quick to resent unfairness of any kind when practised against themselves.

Now that particular manufacturer buys no materials from Canada. The workmen he employs buy nothing that has been produced in Canada. From the operation of his huge industry the people of this country derive no profit whatsoever. Why then should they continue to buy his product when there are available to them at equal prices products of the same kind, and of just as good if not better quality, that have been made in Canada?

Not only that particular manufacturer, but scores of others, could be forced to open up branch factories in this country under pain of losing their entire Canadian business, if each and every one of us, before completing a single purchase, were first to make absolutely sure that the article had been produced in Canada!

Very sincerely yours

*A. A. Stevens*  
Minister of Trade and Commerce.
