A Curious Invention for Recovery of Treasure

Using a curious steel diving stairway invented by Simon Lake, the submarine builder and inventor, a group of men headed by Capt. H. H. Ralley, representative of Admiral Byrd on antarctic expedition, will make a daring effort to recover some of the treasures lost to the world when the steamship Lusitania went to the bottom of the Atlantic ocean on May 7, 1915. At the lower end of the five-foot steel tube or "stairway," is an observation chamber from which a diver could descend on to the wreck and conduct his investigations with aid of powerful lighting rig.

Official of Prince Rupert Minis-

The matter of services in unemployment camps was discussed but

Affiliation of Halibut Men Chief Subject of Discussion At Meeting on Saturday Night

Halibut fishermen present at a meeting in the Moose Hall, Prince Rupert, last night by an approximate two-thirds majority vote decided in favor of joining up with the Northern British Columbia Fishermen's Association which was formerly known as the Northern British Columbia Salmon Fishermen's Association. It was called as

a mass meeting of all classes of fishermen, only halibut men voting, on the question of affiliating with the Northern British Columbia Fishermen's Association. The advisability of such an affiliation by the fishermen of the halibut fleet en bloc was the principal topic of discussion at the meeting which was presided over by Gustave Norman, president of the Northern B. C. Fishermen's Association, with Charles Lord acting as secretary.

The proposal is that a halibut branch of the Northern B. C. Fishermen's Association be formed, this branch to have its own autonomy and the power to dictate its own affairs. In the event of the salmon fishermen's branch having trouble of any kind, the halibut branch would not necessarily be involved. By uniting, however, it was felt that there would be mutual benefits in many directions.

It was also decided to ascertain the views of the Canadian Halibut Vessel Owners' Association in regard to such an affiliation. At present, the official organization of the halibut fishermen is the Deep Sea Fishermen's Union. The next meeting of the Canadian Halibut Vessel Owners' Association will take place on December 13. Individual boat owners who were present at the fishermen's meeting are reported by officers of the meeting to have expressed themselves as being in favor of the halibut fishermen joining up with the Northern B. C. Fishermen's Association.

The fishermen's meeting also passed three resolutions which were, in substance, as follows:

First, demanding that the Minister of Fisheries take action following his statement on the floor of the House of Commons last summer that a round table conference would be held with a view to having the two-cent duty on Canadian fish entering the United States removed.

Second, endorsing representations which have been made requesting the removal of the policy of attachment of Japanese fishing licences to certain canneries.

Third, denouncing the attitude of the provincial government that, in arbitration of disputes between fishermen and operators, associations will not be permitted to represent the fishermen on such boards of arbitration but insisting that individual fishermen must request such a board, citing an individual canner, and censuring Hon. S. L. Howe, provincial commissioner of fisheries, for having shelved until near the end of the season his decision on the matter of an arbitration board on sockeye prices which had been requested of him by the gill-netters branch of the Fishermen's Association at the opening of last season.

nothing definite was decided upon. These services were formerly being carried out by Rev. C. E. Motte.

Christmas Cheer work was also discussed. Members of the association were assigned to conduct services in the Prince Rupert General Hospital.

STATEMENT GIVEN OUT

D. S. F. U. Makes Explanation
Regarding Fishermen's
Meeting

In an official statement following the fishermen's meeting in the Moose Hall Saturday night, J. M. Morrison, Prince Rupert agent of the Deep Sea Fishermen's Union, declared that of some 320 halibut fishermen in Prince Rupert less than fifty were present at the meeting. Of twenty-eight halibut fishermen who had voted in favor of affiliation with the Northern B. C. Fishermen's Association Mr. Morrison declared that two had not been members of the Deep Sea Fishermen's Union for ten years or more and none whatever who voted in favor of the affiliation were at present members of the Deep Sea Fishermen's Union.

Mr. Morrison further stated that the boat owners present had declined to commit themselves upon the matter until after the meeting of the Canadian Halibut Vessel Owners' Association on December 13.

Codville, the present lightkeeper. Pointers Island is situated near Bella Bella and the light there is one of the best known aids to navigation on the entire coast.

Mrs. Codville was well known on the coast and, for length of residence continuously at the one light station, is believed to have held a record. She had been blind and alling for the past two years.

Answering Appeal For Xmas Dinners and Hampers Made By Salvation Army Slow; Great Need

The answers to the appeal sent out by the Salvation Army have been slow in coming this year and yet the need is worse than ever before in the history of the city.

The Army is absolutely without funds and can do nothing without the co-operation of the people of the city. It offers to undertake the duty on behalf of the people of Prince Rupert.

While the city is looking after the married men in the city, there are several hundred men today registered who have not yet been able to secure relief employment. They have no funds and will have a dull Christmas unless something is done.

The cause is a worthy one. We can brighten the lives of those around. Every dollar helps.

The following is acknowledged: Mrs. R. L. McIntosh, \$5.00.

DEPRESSION AND RECOVERY

The law which governs periodical depressions and recoveries is a peculiar one but it is as relentless as death. So far there has been found no way of escape from it.

Illustrate it this way. Everything is going well. Everybody is employed. Hammers and saws are heard as the new buildings go up. There is universal optimism. Then a point is reached where no more buildings are needed and those already erected are not used to capacity. Carpenters are idle. Immediately this reflects itself on the rest of the community. Other tradesmen are idle, hardware stores and builders' supplies do less business; real estate offices close and thus more buildings are empty and the slump is accentuated. Gradually this condition spreads until workmen of all classes are included and there is an unemployment problem; merchants are suffering, business is slack all round and times are said to be bad.

Then there is a brighter side. When a point is reached where production has dropped off and scarcity of a number of articles causes a brisk demand, prices improve, factories become busy, gradually more men are employed, offices and buildings are in demand, motor cars are purchased, people are demanding more of the luxuries of life and the revival is carried along by its own impetus until it once more reaches the peak.

History repeats itself but with changing conditions there are changing effects from similar causes. Sometimes a slump is more severe than the preceding one and lasts longer. Sometimes good times are better than they were at the previous peak period.

CAN WE STABILIZE?

The Socialists tell us that the only method of stabilizing production and consumption is to produce for use and not for profit, but Russia is making an artificial effort to produce more than she consumes by means of her Five Year Plan and we have no experience to show what the result will be. Will it be followed by a slump as in capitalistic countries or will it bring about an even worse condition? Every effort to control the law of supply and demand is an experiment, and some such experiments have been going on since the beginning of history.

Now, with all the mechanical appliances at the service of man and with all the developed ingenuity, it does not speak well for the race if some means cannot be devised for so stabilizing industry that the periods of deep slump and peak production may be avoided.

A meeting was held Thursday in the New Hazelton town hall to discuss plans for the annual Christmas tree entertainment for local school children.

Quite a number of people from Hazelton went up to Kispiox to attend a dance last Saturday night.

Owing to the financial condition, the board of directors of the Hazelton Hospital, at a meeting last Tuesday evening, decided to cut the wages of all employees receiving over \$70 a month by 10%. This was decided upon as alternative to reducing the nursing staff by two which the board did not wish to do.

Citizens of Hazelton, at a meeting, discussed ways and means of providing Christmas hampers for the needy of the district. Two committees were appointed as follows: collecting, B. Lloyd and A. S. Irvine; buying, Mrs. W. W. Anderson and Mrs. John Newick. A packing committee will be named later.

CRITICISM RESENTED

Sports Editor:—
 I wish to lodge a complaint against the writeup which was given Saturday to E. Ratchford, a fast playing forward on the 32 Taxi basketball team.

The reporter for the senior game was certainly unfair in stating that E. Ratchford was very unpopular with the fans owing to him having given out "dirt" to the opposing players.

In looking over the score board I noticed that Ratchford had but two personal fouls called on him by the two referees, who handled the game in a most efficient manner. Give credit where credit is due.
 ONE INTERESTED.

WITHOUT LICENSE

Editor, Daily News:—
 Last week one of our pioneer settlers and his young son, were summarized by the Game Department to appear in court at Q. C. City.

The charges were shooting pheasants and carrying firearms without a licence.

The pioneer mentioned has lived on the Queen Charlotte Islands for twenty-five years, is doing his best to raise a family of six children, is a veteran of the South African war, and it was he who first planted pheasants on the Queen Charlotte Islands, all at his own expense. Even if his small boy had shot a pheasant which are very destructive to the small farm, on his own homestead or even carry firearms without first getting a licence, it strikes us as a very contemptible act of the Game Department to take this matter up when there are so many other important things they could take up that would be a profit to our almost bankrupt province.

If our Government would appoint Native Sons of B. C. as provincial constables, men of the frontiers, natural born hunters who know all local conditions, there would be no need whatever of putting the Province to the extra heavy expense of maintaining a Game Department as the provincial constables could easily look after our game if men appointed knew their business. There are thousands of such men in British Columbia. There is no need to import them from the outside.

It is needless to mention that this very small act of the Game Department has caused a feeling of bitter resentment against them and the government. Surely in times like these it would be cheaper for the government to allow these settlers, who are already living a from hand to mouth existence, to shoot game for their own use for their food than for the government to have to keep them at more extra cost to the province.

The writer like thousands of others in British Columbia, believe that our province is over officialized. It is getting so that now it ceases to be the land of the free.

This case was tried before Judge S. Mallory of Port Clements and it must be said that it is to the very great credit of Judge Mallory and his good judgment that this case was thrown out of court.

South California Beats Washington

Score of Football Game in Seattle on Saturday Was 44 to 7

KING IS FAVORED

SKIDEGATE, Dec. 7.—The report which has been circulated that the Liberal party of Canada may choose a new leader in place of Rt. Hon. William Lyon Mackenzie King does not appeal to the people of the Queen Charlotte Islands. The local opinion is that Mr. Mackenzie King who has successfully piloted his party through many stormy sessions, is the most popular leader the Liberals could have and this is doubly important in view of the hard times through which the country is now passing.

It is believed by Liberals of the Islands that Mr. King is "just taking a short vacation" and that it will be only a very short time before he is again Premier of Canada.

2238 Consecutive Performances

This record for theatrical performances is held by the marvellous Oriental extravaganza, Chu Chin Chow, 2238 consecutive performances having been played at His Majesty's Theatre in London. It will live long in the memories of Canadian soldiers and officers who were in London during the War.

The RECORD SPEAKS for ITSELF

This outstanding record for popularity in the theatrical world, held by Chu Chin Chow, is a tribute to its satisfying beauty of costume, lighting effect and music, while Turret's record for public favour is the result of quality, mildness and fragrance constantly maintained.

After all, nothing can replace good honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred".

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.
Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.
Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

WEDDED IN SKIDEGATE

Nuptials of Miss Rosalind Waston and F. G. Russ Very Pretty

SKIDEGATE, Dec. 7.—One of the prettiest weddings in the history of the Islands was solemnized on November 25 at Spencer United Church, Skidegate, Rev. W. McKenzie officiating, when Miss Rosalind Waston, daughter of L. Watson, became the bride of F. G. Russ. The bride, who was given in marriage by her father, chose for her wedding gown long crepe back white satin with silk embroidered veil held in place with a coronet of pearls and orange blossoms. Her bouquet was of pale pink and white carnations and maiden hair fern. The bridesmaids, Miss M. Stevens, Miss M. Russ and Miss C. McIntyre, wore beautiful powder blue and silver shot taffeta dresses in Victorian style and Eugenie hats to match. The bridesmaids' bouquets were of iris and maiden hair fern. Flower girls were little Misses Parline Jones and Jean McIntyre. E. C. Stevens was groomsmen and

E. C. Wiggins and Peter Kelley Jr. acted as ushers.

During the signing of the register an orchestra played "The Sunshine of Your Smile." Miss Jean Wark presided at the piano. The bridal party, which had entered the church to the strains of the Wedding March from Lohengrin played by the orchestra, left as Mendelssohn's Wedding March was played.

Following the ceremony a reception was held at the home of the groom's sister, Mrs. A. Jones. Mr. and Mrs. W. H. Russ assisted the happy couple in receiving the many guests.

Later in the evening a dance was held in the Town Hall, a general invitation being accorded all to be present.

Among the guests at the nuptials and attendant functions were Rev. and Mrs. W. McKenzie, Mr. and Mrs. Roy McKenzie, Dr. and Mrs. Charters, Mr. and Mrs. F. L. Atkins, Mrs. A. Christiansen, Mrs. E. A. Moore and Mrs. G. D. Turner, Mr. and Mrs. E. C. Stevens, D. McRae, P. McMillan, C. Monicker, C. Miller, H. Beaven, Miss Edna Beaven, M. Newman, Capt. P. Haan, Capt. C. Vallay, A. C. Pallant and Miss N. Pallant.

'God, Cause and Creator' Was Discussion

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "God the Only Cause and Creator."

Among the Bible texts included in the lesson-sermon was the following from Isaiah 45:22: "Look unto me, and be ye saved, all the ends of the earth: for I am God and there is none else."

The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, one passage being as follows: "Man governed by his Maker, having no other mind,—planted on the Evangelist's statement that 'all things were made by Him (the Word of God); and without Him was not anything made that was made,—can triumph over sin, sickness, and death."

MATINEE TO HELP NEEDY

Colonel McMordie Announces Unique Plans For Securing Supplies

As one means of helping the needy this Christmas Colonel S. P. McMordie, D.S.O., Manager of the Capitol Theatre, offers to give the proceeds of a matinee, the terms being set out in the following letter to this paper:

"In order to assist in supplying food for those in the city who find their source of revenue cut off by the present unemployment, the Capitol Theatre will give a Benefit Matinee on Tuesday, December 22 at which the regular entertainment will be given.

"Instead of the usual money charge for admission to this matinee, every one attending is expected to bring food and the Salvation Army have been good enough to agree to receive and distribute the food received.

"It is hoped that the merchants will advertise bargains for this benefit matinee, offering lists of food which they can sell at about the admission price of matinees, 15c. and 40c. Should any one prefer giving money, instead of food, the Salvation Army will gladly receive it at the theatre.

"We have an excellent program for this date and I am in hopes of filling the theatre on this occasion for which the staff have volunteered their services free.

"As the schools will be closed, I am appealing particularly to the children to come to this show and bring anything from a large potato up to a sack of flour.

"As your paper has always assisted in anything for the good of the city, may I impose on your good nature and ask for such assistance as you can offer in giving publicity to this movement."

FIRE IN COTTAGE

Interior of Home of J. McCrimmon Guttled by Blaze on Saturday Evening

The interior of the home of J. McCrimmon, 112 Eighth Avenue East, was gutted by fire Saturday evening. The blaze originated presumably from an over-heating stove and broke out during the absence of Mr. and Mrs. McCrimmon. The fire department was called at 9 p.m. and soon had the blaze under control. Contents of the house suffered from the effects of smoke and water.

The loss is at least partially covered by insurance.

Union steamer Catala, Capt. A. E. Dickson, arrived in port at 7 o'clock last evening from the south and sailed at 9 p.m. for Anox, Stewart and other northern points, whence she will return here tomorrow morning southbound. The vessel bought north a fair-sized list of passengers.

Monday and Tuesday TWO SHOWS — 7 and 9 p.m. Feature Starts at 7:30 & 9:30 Admission — 20c & 45c
