SPIRIT OF THE TIMES

Ramsay MacDonald intimated that it was contrary to the spirit of the times not to grant self-government to India. If the British people tried to use force they would be fighting, not only against the people of that country but against the spirit of the times.

In Prince Rupert there is a group of people that is opposed to feeding the men who are out of work. They are opposed to the spirit of the times. They must adjust their SURPLUSES views or be prepared to fight that mysterious influence which goes with development. They are out of tune with the trend of the day.

The British people have been successful in the past because they have been in accord with the spirit of the times. They have usually been fighting for freedom for the oppressed instead of against freedom. So today they will adjust their views to the growing movement toward selfgovernment in India and we should find that country, like Ireland, settling down to co-operate instead of oppose.

There is a time to fight and a time to give way. Today seems the day to give way to the popular demand which is in line with the spirit of the times.

SPENDING AT HOME

The idea of buying Canadian-made goods instead of foreign is growing throughout the country. So is the idea of buying British Columbia goods in preference to all others. To carry the scheme a little farther, why not buy goods in Prince Rupert and keep the money at home.

DEPARTMENT OF TRADE AND COMMERCE OTTAWA, CANADA

To Canadian Citizens, Everywhere in Canada.

Bring the Boys and Girls Back Home!

How often have we all deplored the fact that thousands upon thousands of our most promising young men and women find it necessary to leave Canada, in order to seek in some other country opportunities for the employment of their talents that seem to be lacking here?

As individuals we have deplored it, because in these cases the sorrow that is caused us through the breaking of family circles and home ties is accentuated by a sense of irrevocable loss, due to a feeling that the separation is going to be permanent. And from a broad national standpoint we have deplored it, because it has meant a serious drain upon the very kind of population-gifted, energetic, ambitious -that we most need to help in developing our magnificent natural resources.

Must we continue to rear and educate our children-to equip them as best we can for the successful careers we hope will be theirs—only to lose them to an alien flag because of the dearth of opportunity for them at home?

Opportunity of any kind is a result, of which production of some kind is always the cause. Most people create their opportunity by engaging directly in some form of production, such as farming, fishing, mining, lumbering or manufacturing. These people provide the foundation and, according as they succeed, opportunity is created for others in all the occupations that constitute the super-structure, such as transportation, banking, insurance, trading, the professions and public service.

The more the people of a country favor their own producers, thus giving the latter all the incentive necessary to increase the volume and broaden the scope of their production, the more abundant will be the immediate opportunities they create for themselves, and the future opportunities they create for their children.

If in the past opportunity has not been as abundant in Canada as it has been elsewhere, it is because Canadian producers as a class have not been as successful as producers elsewhere have been. And the chief reason our producers have been less successful is because they have failed to receive from Canadian citizens generally the same loyal support that the producers in certain other countries have received from their citizens.

Some of these countries import practically nothing that they are capable of producing for themselves. But we Canadians are so careless about our daily buying, so thoughtless of the welfare of our producers, so shortsighted about keeping the door of opportunity open for our sons and daughters, that every working day we allow ourselves to be sold about \$2,500,000 worth of imported merchandise that our own producers would have been glad to make for us, if we had only given them the chance!

Why not let us all resolve that from now on we'll try to bring our boys and girls back home by remembering, in our buying, that it must always be "Canada First"!

Very sincerely yours,

Minister of Trade and Commerce.

Pneumonia Left Her With a Terrible Cough

Mrs. A. W. Power, 581 Jane St., Toronto, Ont., writes:- "Eight years ago I had a very serious ill-I had a bad attack of pleurisy and pneumonia and was six months in bed. This illness left me with a terrible cough. I tried several cough medicines, but they did not seem to have any effect. One day my mother brought me home a bottle of Dr. Wood's Norway Pine Syrup, and after I had taken several more I noticed my cough gradually leaving me. Since that time if ever my husband and children or myself have bad colds I always get 'Dr. Wood's'." ·Price 35c. a bottle; large family size 65c.; at all druggists or dealers.

Frank Russell and Caroline Mitchell Eliminated By C. J. Norrington and Mrs. Parlow

The outstanding game so far in the city open tournament being conducted under the auspices of the I. O. D. E. Badminton Club was that last night in which C. J. Norrington and Mrs. A. E. Parlow defeated Frank Russell and Miss Caroline Mitchell by a score of 15-11, 15-6 in the semi-final of the mixed doubles. It was the first time that Russell and Miss Mitchell had been beaten since they teamed up three or four years ago. Naturally. Norrington and Mrs. Parlow were much elated and now enter the final confident of winning the city title.

Another interesting game last night was that in which Shelford Darton and Mrs. H. L. Shadwell beat Ronald Allen and Miss B. Edgecumbe, also in a mixed doubles semi-final, 15-1, 7-15, 15-10. Complete results last night were

Most women find it difficult to think up new

ideas for attractive menus . . . This one, suggested by Miss Katherine M. Caldwell, cookery authority of Canadian Home Journal, Toronto, is therefore sure to please.

LUNCHEON MENU Cheese and Vegetable Soufflé with Cream Sauce Buttered Whole Wheat Toast Sweet Pickles Hot Raspberry Biscuits* Chase & Sanborn's Tea

For afternoon tea, there is nothing nicer than these same Raspberry Biscuits, shaped daintily with a tiny cutter-split, buttered and served piping hot, with a cup of perfect tea! Miss Caldwell says: "Magic Baking Powder is easy to use because its uniform, high quality never varies. I use and recommend Magic because my experience has proven that it always

Big Missouri Expected to Develop Into Big Gold Producer-Development of Telkwa Coal Mine-About Premier Affairs

It may be reasonably concluded, from the fact that a pilot mill has been erected on the property by the Consolidated Mining & Smelting Co., that there is a good chance of the Big Missouri eventually becoming a producing gold mine. The deposit is a low grade gold ore carrying appreciable but, at present, valueless amounts of zinc. The values are obscurely and irregularly distributed and cannot be satisfactorily outlined by ordinary sampling methods. It was for this reason principally that the sampling

A fashion forecast for 1980!

Soothsaying is not our business, of course. But we can safely make one prediction.

In fifty years from now, diamonds will be just as much "in style" as they are today. And if they were purchased from a reputable jewelry store their value will not have depreciated one bit. Doesn't this suggest the wisdom of professional advice before you purchase dia monds? We'll gladly give it.
