FAIL IN FLIGHT

Robbins and Jones Forced to Land in Fairbanks Instead of Tokyo

FAIRBANKS, Alaska, Aug. 3:—Reginald Robbins and H. S. Jones, who took off from Seattle yesterday morning with the intention of making a non-stop refuelling flight to Tokyo, were forced to land here at 7:30 this morning when they became separated from their refuelling plane in the lower Yukon River valley. They had refuelled here last evening.

No word of the refuelling plane has been received.

PRAISES BULKLEY

C.N.R. Director Pleased With Appearance of Central Interior Valley

VANCOUVER, August 3—"I know of no part of British Columbia which offers more favorable inducements for settlers than the Bulkley Valley," said J. Fyfe Smith, Vancouver, Canadian National Railways director, who has returned from a trip to Jasper, thence to Prince Rupert.

Mr. Smith stopped at various points between Prince George and Prince Rupert and is enthusiastic over the opportunities for settlement along this section. The soil is fertile, the climate favorable to growth, and there are great areas of arable land that will some day support many thousands, he declares.

Mr. Smith thinks the territory is ideal for mixed farming, including bee-raising, dairying and berry-growing. Quite a number of settlers are going in there under C.N.R. auspices, he states. Recently seventeen families settled near Vanderhoof. They are all experienced agriculturalists and have the necessary capital to establish themselves.

Paul Leighton and Charles Barton, Indians, were each fined \$15, with option of 14 days' imprisonment, by Magistrate McClymont in city police court this morning for drunkenness.

MACHINERY FOR ESPERANZA MINE

Harry Bowyer of Seattle, who has become heavily interested in the well known Esperanza mine at Alice Arm, and Mrs. Bowyer were passengers going north aboard the steamer Catalina last evening. Mr. Bowyer was taking north with him a good deal of heavy machinery and equipment which will be used in the development of the mine.

USK HOTEL HAD BLAZE

Outbuildings Destroyed but Hostel Is Saved as Result of Work of Bucket Brigade

Fire of origin which has not been ascertained on Saturday destroyed the power plant, woodshed and tool house of the hotel at Usk, which is owned by T. W. Shackleton. Due to the fine work of a bucket brigade, which included many women, the hotel itself was saved from destruction.

Mr. Shackleton, the owner of the hotel, arrived in the city from the interior on yesterday afternoon's train.

ROBBINS-JONES AIRPLANE PASSED QUESNEL SUNDAY

At 9:55 yesterday morning an airplane, believed to have been that of Reginald Robbins and Harold Jones, who are making another attempt at a non-stop refuelling flight from Seattle to Tokyo, passed over Quesnel, the Government Telegraphs reported. After passing Quesnel, the plane headed off to the northwest. Radio advices last night announced that the Robbins-Jones plane had hopped off in the morning from Seattle.

PLANE IS TOWED IN

Pilot Murphy Had Wrong Kind of Gas So Asked For Assistance Yesterday Afternoon

Having had trouble with a wrong mixture of gas, the Gypsy Moth seaplane of the Northern B. C. Airways was brought down by her pilot, D. Murphy, alongside the steamer Catalina near Watson Rock yesterday afternoon and the steamer was asked to wireless in for a tow for the plane. There was no breakdown or disablement but the pilot merely felt that it was better to obtain help.

Accordingly, the Pacific Salvage Co.'s power boat "23" was sent out and met the plane about ten miles from here and towed it the rest of the way in.

TAXES WELL PAID

The city is to be congratulated on the fact that the taxes have been paid this year practically as well as for previous years. In view of the fact that business is quiet and that the most dire prophecies had been made in regard to the prospective payments, it is very satisfactory to know that the ratepayers still have faith in the city and are holding on to their property with a view to increases in value at no great distance in the future.

Most Prince Rupert people are quits as well satisfied as ever that before long there will be a decided revival of business here. It may not come in 1931 but there should be a slight improvement very soon.

Owing to the low price of fish, to the condition of the lumber market and to the slump in silver and other metals, the district has been very hard hit. No one industry has suffered alone. It has been a general condition throughout the country.

SUMMER TIME—FLY TIME!

No one is physically afraid of a fly because it can do no actual hurt of itself. It has, however, many bad habits which make it a dangerous insect to the human race.

When a fly eats, it steps into the food and not only eats all it wishes but covers legs, body and wings. In this way it may collect a few typhoid germs from a yard-toilet, or tubercle bacilli from an open cuspidor.

It then next alights on some article of food such as the milk pitcher, fruit or vegetables, bread or cake, or the baby's bottle. After that it is only a short time till some individual, old or young, is infected.

Once the fly enters the home, it is impossible to provide protection from the germs which may enter with the insect. It is necessary, therefore, to take such measures as will not only keep the flies outside but reduce their number in the neighborhood to a minimum.

The prevention of fly breeding may be assured by the elimination of its breeding places. This requires the proper care of stable manure and the removal or disinfection of other decomposing refuse such as garbage, wet papers and rubbish of all sorts. The treatment of manure and other refuse with chemical disinfectants for the prevention of fly breeding is a development of recent years and progress has been rapid. Flies love the garbage pail, so this receptacle should always be kept tightly covered.

Flies breed in almost any rotting or fermenting matter. They breed in any kind of dung. Decaying grains, rotting fruit or vegetables, waste cotton or woolen garments, sack- ing and paper—all furnish admirable breeding places when the materials are moist and warm and especially when mixed with ashes or earth.

Good Showings on New Stewart Property—to Investigate Nation River—Granby Profits Down

W. R. Tooth arrived in Stewart last week with several splendid samples of ore from new work on the Palmy group, situated on Bear River ridge opposite the mouth of Bitter Creek. While no assays have, as yet, been made of the ore exposed by this summer's work, the samples brought in carry nicely disseminated galena in a quartz gangue mixed with pyrites that gives the general appearance of characteristic high grade ore that should carry good values in silver, lead and zinc with the possibility of some gold. The particular vein on which work is at present being carried out is exposed for approximately 150 feet on the surface and the first open cut shows about 12 feet of good ore. It is planned to put in four more cuts across the zone in accordance with recommendations of Dr. Joseph T. Mandy, resident mining engineer. About 500 feet northwest this vein or zone appears to outcrop again showing the same characteristics as those already opened up.

K. E. McMillan of Dease Lake has reported to the British Columbia Chamber of Mines that he has discovered gold, silver, lead and zinc at Hyland River in Yukon Territory. He states that there is a large mineralized, unprospected area in this district and he is confident that more valuable discoveries will be made.

To ascertain as definitely as possible the extent and value of the newly discovered placer gold area in the Nation River country, Hon. W.

A. McKenzie, minister of mines, has arranged to send Douglas Lay, resident mining engineer, Hazelton, into the district immediately.

The Granby Consolidated Mining, Smelting & Power Co. for the quarter ended June 30, 1931, reports profit of \$7,405 after expenses and inventory write-down but before depreciation and depletion, this comparing with a profit of \$170,078 in the preceding quarter and of \$412,099 in the June quarter of last year. Profits for the six months ending June 30 this year have amounted to \$177,483 as against \$1,106,485 in the first half of 1930. In the second quarter of 1931, Granby produced 8,395,107 pounds of copper, monthly average 2,798,369 pounds, compared with 8,709,283 pounds in the first quarter, monthly average of 2,900,094 pounds. The net cost per pound of copper produced in the second quarter was 8.078 cents as compared with 7.065 for the first quarter of 1931, according to Charles Bocking, president of the company.

GIRLS WANTED

To enter Contest for America's Most Beautiful Girl

The winner will be chosen during fair week in Prince Rupert and will get a free trip to Los Angeles and back and be entertained lavishly while there.

Entrants must sell 50 tickets to the Big Coronation Ball, the last day of the fair. Nothing else to do but look pretty. It's the chance of a lifetime.

The fair board at its recent meeting decided to enter a candidate in the International Beautequest at Los Angeles in connection with the celebration of the one hundred and fiftieth anniversary of the founding of the city, when the most beautiful girl in America will be chosen.

The local candidate will be chosen at the time of the fall fair and immediately after her selection she will have to leave for the south to get there in time for the big California event. Her expenses going and coming will be paid by the Fair Board but while there she will be the guest of the Ocean Park Businessmen's Association, who are sponsoring the event. The attraction for the candidate is set forth in the following letter from the south.

"Your candidate will be met at the railway station, dock or airport by a committee representing the Ocean Park Businessmen's Association.

"She will be the guest of screen stars at various functions.

"She will be entertained by a reigning star of the screen at her home.

"She will be included in all parties listed as part of the program of the International Beautequest and La Fiesta de Los Angeles.

"She will occupy a position of honor in all gatherings including pageants, parades, spectacles, receptions and, in fact, all events planned for the International Beautequest and Los Angeles' great reception."

Candidates must be between the ages of 16 and 30, unmarried and of good character and the one going from Prince Rupert will be chosen in the following manner:

She or her sponsors must sell 50 tickets at \$1 each for the big coronation ball to be staged on the last day of the fair in the exhibition building. For the one selling the most tickets a prize of \$50 will be awarded.

She may enter without sponsors if she wishes but she must sell the tickets.

The candidates must attend the Exhibition every evening while it is in progress here. On the first night one selection will be made by competent judges. On the second night a second candidate will be chosen by another set of judges and on the third night a third candidate will be chosen by a third set of judges.

These three candidates will attend the coronation ball accompanied by the other candidates and at 9 o'clock, the final selection will be made. Two hours later the coronation will take place here and the following day the winner will be required to leave and travel as rapidly as possible by steamship, airplane and rail to Los Angeles.

Candidates from points around Prince Rupert may enter, such as Anyox, Ocean Falls, Smithers, Terrace, Stewart, Hazelton or other points and they will be required to sell 25 tickets to the coronation ball in order to qualify.

Candidates either in the city or out may be sponsored by organizations who may help them in disposing of tickets or otherwise in connection with the event.

Candidates or their sponsors should notify Secretary Vance of the Fair Association at as early a date as possible and as soon as the tickets are ready may commence disposing of them.

H. M. Butler, Government Telegraph operator at Alyansh, and Mrs. Butler, who have been on a vacation trip to Vancouver, were passengers aboard the Catala last evening bound for Mill Bay where they will disembark from the steamer to proceed up the Naas River by gasboat.

The following is from the Twenty Years Ago column of the Vancouver Province: "Lord Lascelles aide to Earl Grey, Governor-General, and W. W. Ward of London England, arrive in Vancouver from Ottawa today enroute to Cassiar and other Northern British Columbia districts where they hope to bag mountain goats and grizzlies."

Miss Winnie Dibb, R.N., who is to be married shortly in Philadelphia to William W. Wood, representative there of the Canadian Fish & Cold Storage Co., will sail Wednesday morning on the Princess Henry for Vancouver enroute east. She will be accompanied to Philadelphia by her mother, Mrs. Frank Dibb, and Miss Bertha Eford of Vancouver, who has been visiting here for the past few weeks. Mrs. Dibb expects to be away from the city about five or six weeks.

Mrs. A. J. Galland and son sailed Saturday afternoon on the Princess Charlotte for a holiday trip to Vancouver.

H. E. DeWolf, local manager of W. H. Malkin Co. Ltd., sailed last evening on the Catala to make the round trip to Anyox and Stewart on company business.

A fine of \$300 was imposed by Magistrate McClymont in city police court Saturday afternoon upon Hans Bergquist on a charge of supplying liquor to a minor.

Miss Helen Starr of Seattle, who has been paying a visit here with her cousin, Charles E. Starr, and Mrs. Starr, sails by the ss. Prince George this afternoon on her return south.

Mrs. Jeanette Albery and small son, James, of Wrangell arrived in the city from the north on the Prince George this morning and proceeded by train to Vanderhoof where Mrs. Albery has been called owing to the serious illness of her father.

Mr. and Mrs. J. E. Frasher of Wetaskawin, Alberta, arrived in the city at the end of the week to pay a two weeks' visit here with their son and daughter-in-law, Mr. and Mrs. Ian Fraser, Atlin Avenue, Westview. Mr. Fraser is city treasurer of Wetaskawin.

There were 183 passengers arriving here from the north on the Prince George this morning. More than half of these disembarked here including a party of 91 Main people, who have been on a tour to Northern British Columbia and the Yukon. Three local passengers left the vessel here.

Sergeant W. J. Service, chief of the city detachment of the provincial police, left on this afternoon's train for a brief trip to Smithers on official duties.

Mrs. H. T. Cross and daughter, Miss Lillian Cross, sailed Saturday afternoon on the Princess Charlotte for Vancouver. Mrs. Cross will visit in the southern interior.

J. B. Harty, retired millionaire of New York City, and Mrs. Harty were among the round trip passengers to Skagway going north on the Princess Alice this morning.

Somewhat late this trip, the Admiral Line steamer Dorothy Alexander, Capt. A. W. Nickerson, arrived in port at 11 o'clock this morning from Ketchikan and other Alaska points and sailed a couple of hours later for Seattle.

Despite the bar which has been put across, a number of impatient car drivers did cross the Galloway Rapids bridge yesterday to get across to the highway on the other side. Motorists are looking forward to the time when they will be permitted to cross the bridge and drive on the other side.

DO YOU KNOW

- • • that Kellogg's Corn Flakes have a special package that is different from all others?
- • • a WAXTITE, inside bag perfected and patented by Kellogg?
- • • a WAXTITE bag that is actually SEALED against odors, moisture and contamination?
- • • that brings Kellogg's Corn Flakes OVEN-FRESH and FLAVOR-PERFECT to your table?

Just another reason why it pays to specify the name Kellogg's when buying corn flakes. One of the most economical and convenient of foods.

Delicious with milk or cream for breakfast; extra welcome for lunch with fruits or honey; fine for children's suppers or a late snack.

Easy to digest. Always ready to serve. No trouble. No work. With a "wonder" flavor that can't be equaled.

Look for the red-and-green package at your grocer's. It means genuine Kellogg's—the original Corn Flakes—the world's most popular ready-to-eat cereal!

CITY WON SOFTBALL

Largest Crowd on Record Watched Encounter Last Evening

Last night, before the largest crowd of softball fans who ever witnessed a game in the city, the City defeated the C. N. R. A. by a score of 10-6.

The City went to bat first, and in the first inning no runs were scored but, in the second inning, the Railroaders got away to a good start by scoring twice. There was no score in the fourth or fifth innings, and in the sixth, the C. N. R. A. blew up, and the Uptowners circled the bases for nine runs. In the last half of the sixth the C. N. R. A. managed to get two more which made the score 9-4. Neither team scored in the seventh and in the eighth the C. N. R. A. got two and the City one, making the final score 10-6.

SPORT CHAT

It is understood that a request has been received from Anyox asking if a football game could be arranged this month at the smelter town and possibly a return game here. A meeting with a team from the outside would be very attractive but, of course, the chief item is the matter of expense. The matter is being taken up by the football association which is in touch with the Anyox authorities.

With the visit of the Dragon, due this week, footballers and, indeed, all sports enthusiasts are looking forward to a couple of really fine football games. The Dragon is the

flagship of the West Indies Squadron and is reported to have a more than usually good team. The Navy boys always put up a good display of football and, with football flourishing as it is this year, two good games should result.

The publication of the names of the selected team against the navy has met with general approval. Naturally, it is not possible to pick a team that is beyond criticism but, undoubtedly, the selection committee were helped by the various teams suggested in these columns by various correspondents from time to time. And of course, some good players had to be left off, as after all, only 11 can take the field.

The baseball authorities have sportingly agreed to play their game on Tuesday of this week and

let the footballers have this evening for the regular Mobley Cup fixture between the Legion and the Merchants. This will give the players selected against the Navy a chance to rest up before the big game.

The Legion club has signed on Webster, according to the "man in the street." Webster has played for senior football clubs in Vancouver and the prairies and should strengthen his new club. He will play at centre-half.

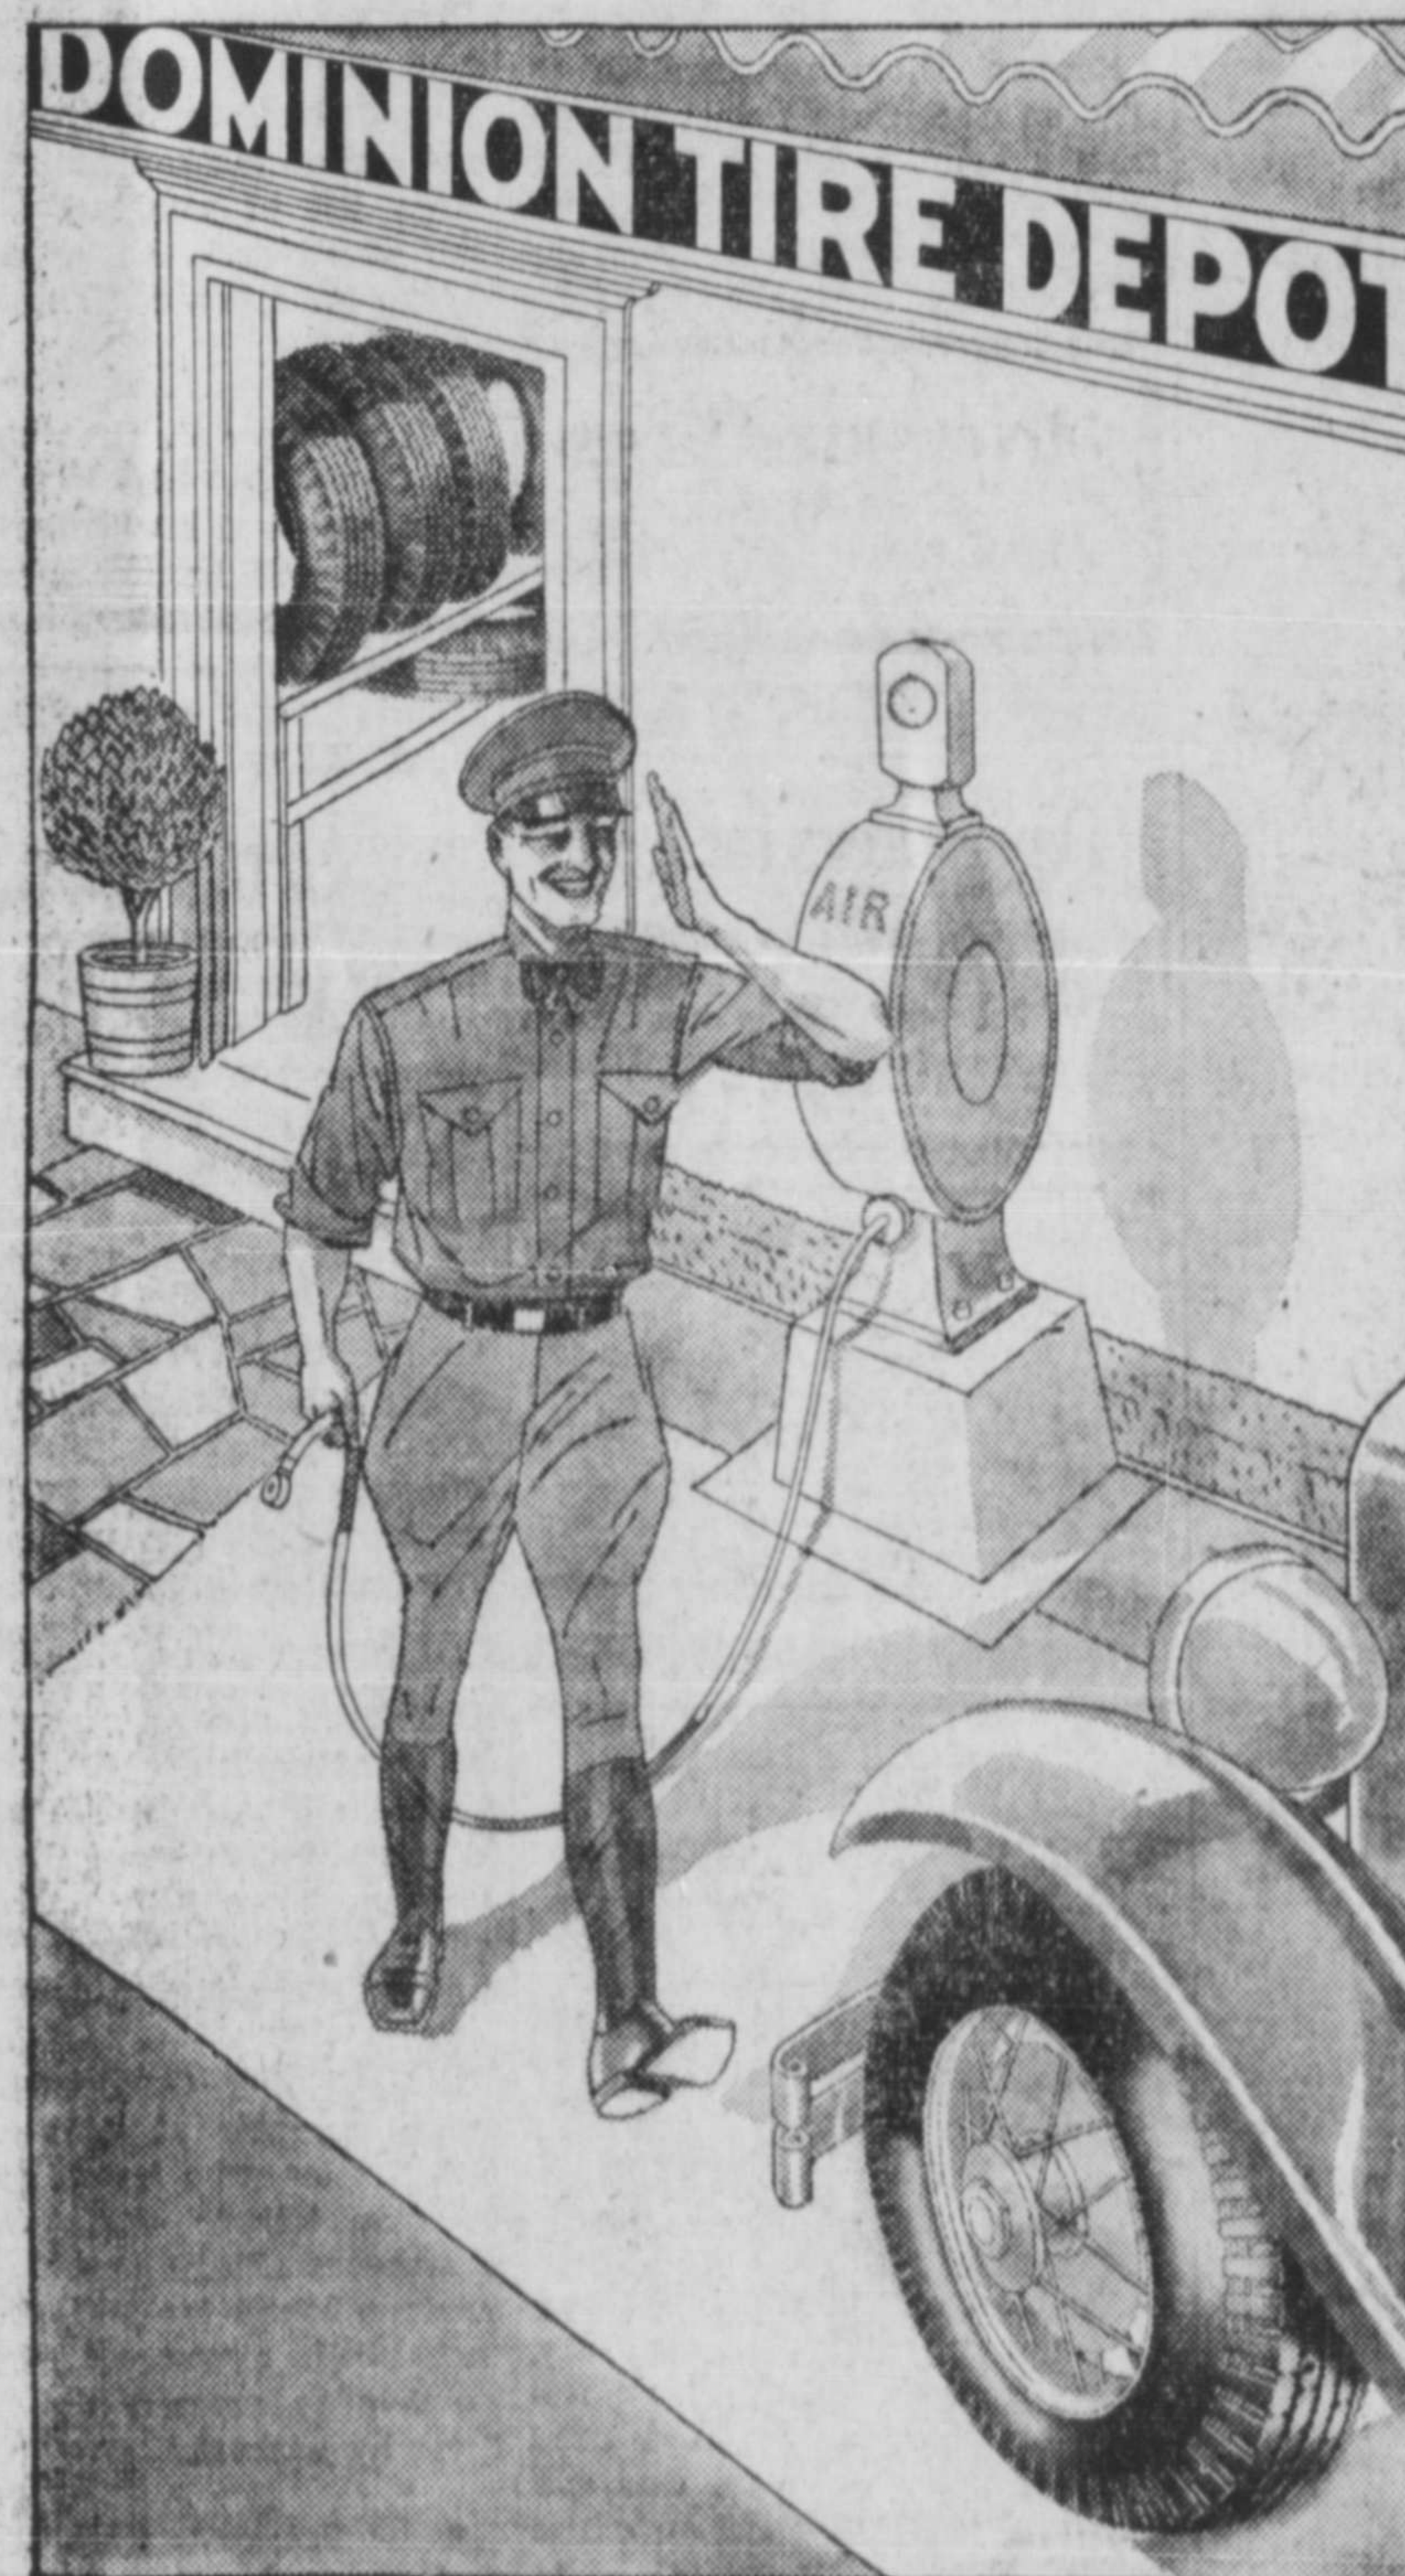

Ex-footballers will have seen the advertisement asking that those who would referee football games should report to the president, Bert Morgan. With Webster becoming a player, his services will not be available as an official and it is hoped that there will be some applicants to be added to the list. At that, Jim

Mitchell, well known as an old footballer himself, and a keen and successful coach of the West Vancouver High School soccer and basketball teams, made a very satisfactory referee in the Regiment-Merchants game on Friday.

Aiyansh Soccer Team Too Rough Week-End Game

The Aiyansh football team was at Caspaco on Saturday for a game with the Git-an-gow team but the former were disqualified because of unruly play on the field.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.
