DAILY EDITION Friday, Jan. 16, 1931

IS IT AN OMEN

The proposal to amalgamate the C. N. R. and C. P. R. telegraphs in one large company may be the forerunner of a proposal to amalgamate the two big railway systems in Canada.

This is the day of big amalgamations. Only recently the C. P. R. made a change in its share capital to bring it to a place where it might be guaranteed without seeming to be guaranteeing too high a rate of interest.

Some years ago a similar proposal was made in regard to amalgamation of the systems but at that time there was a good deal of opposition. Now the C. P. R. has a falling income and the prospects are that it will be more difficult to pay ten per cent in future than it is today. With this in view it is probable the big company would be willing to agree to amalgamation as long as the interest on their bonds and shares was guaranteed. Whether the people of Canada, who own the C. N. R. would consent to the change is rather uncertain.

DIAMOND JUBILEE

This is the diamond jubilee year of British Columbia and it is announced that there will be some celebration of the event. Doubtless we shall hear a great deal more about it before the year is out. It is fitting that there should be something done to mark the occasion and doubtless Prince Rupert will take her part in the celebration.

BUY OUR OWN SALMON

The B. C. Packers are carrying on an advertising campaign all over the country with the purpose of inducing people to eat more of this kind of food. We draw particular attention to the advertisement published yesterday and in future numbers and would ask the co-operation of the people in this district. If we eat the salmon that the fishermen caught last year there will be a market for the fish they propose to catch this year. By helping them we help ourselves.

IN THE LETTER BOX

THINKS ROAD SLOW
 Editor, Daily News:—
 Re. your issue of the 14th about good progress being made with highway construction, I suppose someone very interested is responsible for this writeup on the front page. One mile of surfaced road and very near one year to build and 80 miles to Remo. That means about 80 years before one can get to the end of the Remo road to Terrace, ten miles this side of that place.
 Now, Mr. Editor, they want to fool the people and so maintain their own jobs. The road foreman at Remo dumped a big cedar from the 66-foot road allowance on to my land where I had underbrushed. I wrote Mr. Gwyer about it and asked for its removal but our engineer did not believe in doing what is right. It's been there nearly two years now.
 How about the road camp at Skeena City? His own boy and Brady's boy and quite a few more were up there all summer having a good time drawing men's pay, and as for the bridge out there, will he be able to place the span? It's a 50-50 chance he can't.
 The gasoline tax is going on all the time so let us make one big howl.
 I thank you Mr. Editor.
 C. F. SWANSON.
 Resident of Prince Rupert since 1907

GAVE SELF TO PUBLIC

Late D. Adam Shortt Was Scholar, Lecturer and Publicist

Had Genius

Liked As Arbitrator in Important Industrial Disputes

Gifted with a genius for public service, a scholar, lecturer, and publicist of note, few men in Canada have given themselves to working for the public welfare so wholeheartedly as did Professor Adam Shortt, C.M.G., LL.D., F.R.C.S., of Ottawa, whose death was reported this week. He was Civil Service Commissioner for the Dominion for a number of years, his appointment being in 1908, and in the latter years of his life he was Chairman of the Board of Historical Publications. He became Chairman of the Board in 1917.

In recognition of his valuable services to his country Professor Shortt was created a Companion of the Order of St. Michael and St. George in 1911, the year of the coronation of King George and Queen Mary.

Professor Shortt was a member of the Ontario Railway Taxation Commission in 1904. He was Chairman of arbitration under the Lemieux Act in connection with disputes between Grand Trunk Railway Engineers and mechanists and the Grand Trunk Company in 1907. In the latter year he was a member of the Canadian Historical Manuscript Commission. In 1909 he was elected a trustee of Queen's University, Kingston, his Alma Mater. Two years later he was appointed by the Canadian Institute a member of the Fleming Electoral Reform Commission. Among his other activities Professor Shortt was for a time Vice-President of the Ottawa Archaeological Society and President of the Ottawa Branch of the Moral and Social Reform Council.

It was perhaps as an arbitrator in large industrial disputes that Professor Shortt came closest in contact with Canada's people. Many wage disputes were effectively settled by boards of conciliation on which he served. In all he was chairman of all such boards, dealing with steam railways, coal mines, shipping and street railways. The report he brought down as a member of the Ontario Railway Tax Commission in 1904 serves as the basis on which other Provinces subsequently acted.

League of Nations

Professor Shortt was appointed by the council of the League of Nations as Canadian member of the preparatory committee for the general economic conference of 1927. He was also named to the economic consultative committee that followed.

A frequent contributor to the periodical press on economic and political problems, Professor Shortt had among his best-known works: "Imperial Preferential Trade from a Canadian Point of View," "Life of Lord Sydenham," and the farved "Makers of Canada" series published in 1908.

Was Scottish

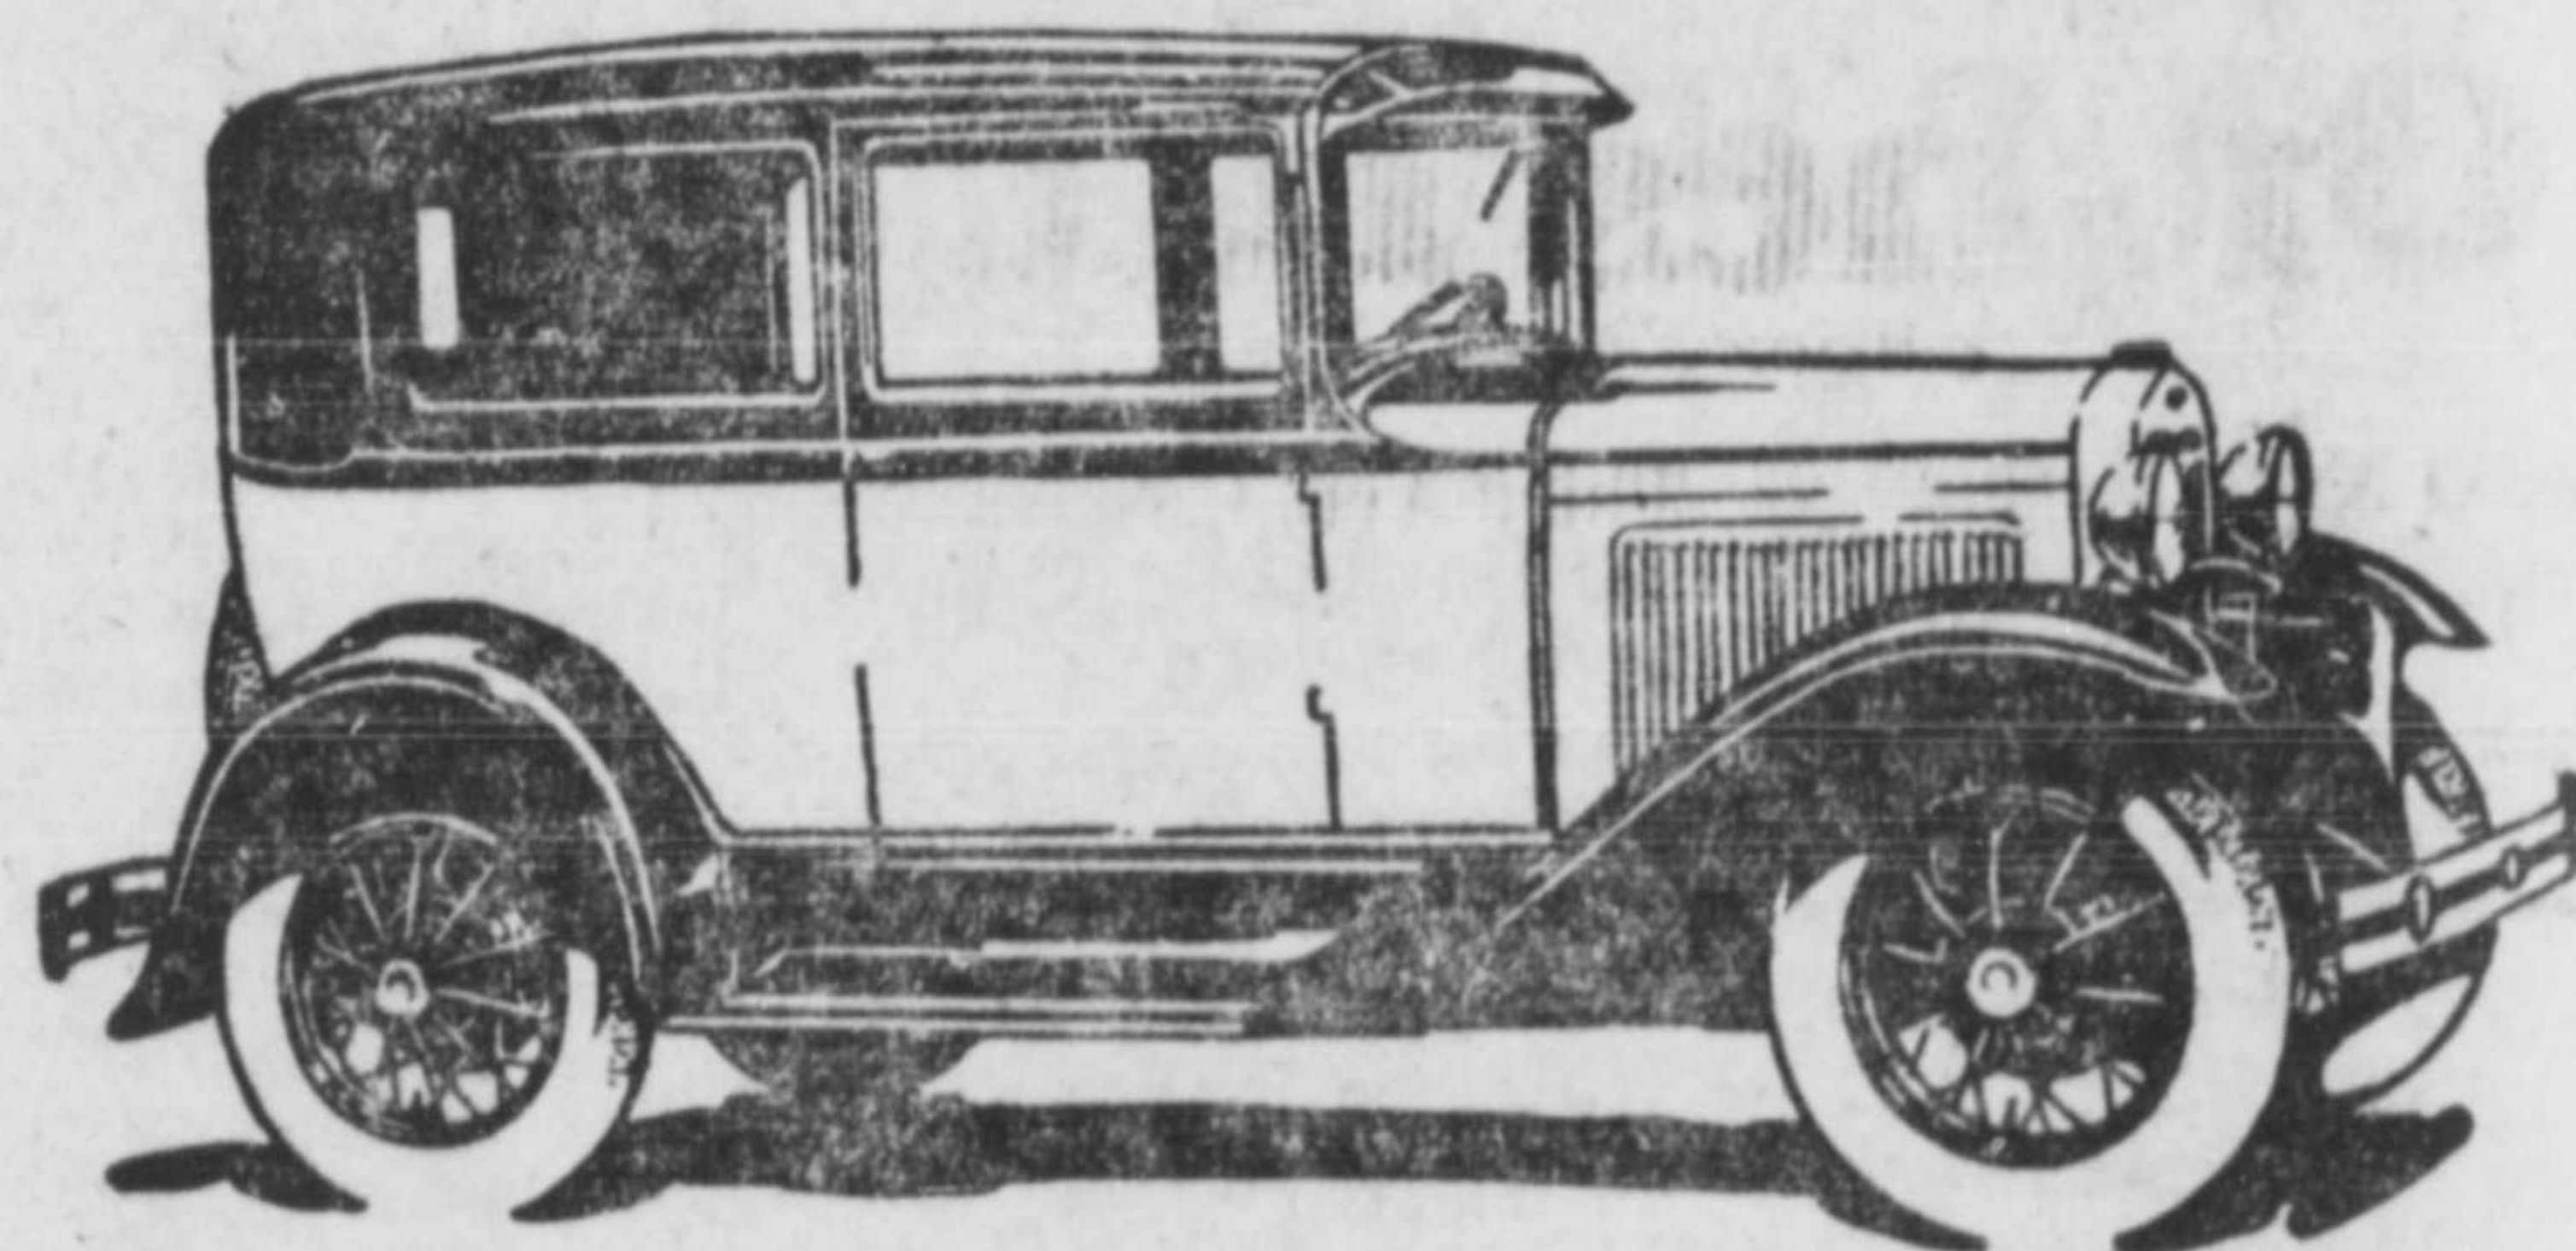

Of Scottish origin, Professor Adam Shortt was born at Kilworth Ontario, on November 24, 1859. He was a son of George and Mary (Shields) Shortt. He was educated at the Walkerton High School and at Queen's University, Kingston, Ont. He graduated from Queen's in 1883, when in addition to obtaining his degree of B.A. he won the Gold Medal in Philosophy and also the Governor-General's Prize. He secured his M.A. in 1884. He was the recipient of the honorary degree of Doctor of Laws from Queen's University, Glasgow University and Edinburgh University.

Professor Shortt was assistant Professor in Philosophy at Queen's University, Toronto, from 1885 to 1889; Lecturer in Political Science at Queen's from 1889 to 1892, and Professor of Political Science at the same University, from 1892 to 1908.

Professor Shortt married Elizabeth Smith, daughter of Sylvester Smith, in 1886. He was an Anglican in religion, and he was a member of the Rivermead Golf Club and the University Club, Ottawa, and the Frontenac Club, Kingston.

Skin Covered With Eczema--
Now Clear and Healthy

Marvellous Healing by Well Known Remedy
 There is nothing so simple in its origin and afterwards so difficult to get rid of as skin disease. On the first sign of irritation, roughness, or eruption, anoint the place with Zam-Buk. This herbal ointment will speedily banish all trouble.
 When the skin is already aflame with eczema, or poisoned or ulcerated, Zam-Buk is the one external application powerful enough to get to the root of the disease. It quickly replaces unhealthy tissue by new clear skin. You will be astounded at the quick soothing and healing of Zam-Buk.
MEDICAL TREATMENT BRINGS NO RELIEF
 "My daughter's face and neck were covered with a mass of sores, which our doctor diagnosed as eczema. He prescribed treatment which we tried for two months without relief. The poor child's face had to be swathed in bandages and she was confined to the house. I was about to call in a skin specialist, when I heard how Zam-Buk had healed many sufferers from this dread disease, so I purchased a box of ointment and tablet of soap. After a few days treatment there was a great improvement; day by day the sores disappeared and within a month my daughter's face was entirely cleared of any sign of the terrible disease, without a single scar. I can't say too much of the wonderful healing power of Zam-Buk."—Mrs. H. A., Toronto, Ont.
 IF YOU have a sore inflamed or blotchy skin, or suffer from salt rheum, scalp troubles, poisoned wounds, or piles, you will find Zam-Buk quickly soothing and healing. It is also a marvellous first-aid for cuts, burns, etc. Zam-Buk Ointment 50c. box, Zam-Buk Medicinal Soap 25c. cake.

VALUABLE PUBLICITY

Prince Rupert Power Development Featured Splendidly in Hydro-Electric Trade Journal
 The feature article in the January number of "Electrical News and Engineering," published in Toronto, describes the new hydro-electric plant that has been installed at Falls River by the Power Corporation of Canada to supply the city of Prince Rupert with energy. The author of the article is A. W. Finlayson of Montreal who was in direct charge of drawings for the development. Besides giving a detailed description of the plant, transmission line, etc., there are a number of interesting pictures including one of the powerhouse, intakes and sluices, another of the power house from upstream and yet another showing the sluice gates under construction. There are also maps and diagrams.

In addition to the article, which in itself is very valuable publicity for Prince Rupert, there is an editorial article stressing the importance of the new plant to the development of the city and also an item under the "Current News" heading briefly announcing the opening of the plant on December 1 last.

CANADIENS WIN MATCH

Defeated Maroons Last Night—Rangers and Toronto Play Top Speed to Draw

OTTAWA, Jan. 16.—New York Americans tossed a systematic attack and close-knit defensive system in the path of Ottawa's striving Senators last night and defeated them two to one in the National League encounter here while, at Montreal, the Canadiens outplayed and outchecked the local Maroons and handed their old rivals a four to one beating.

Seventy minutes of top speed at New York failed to bring a decision either to the Rangers or Toronto and the overtime struggle wound up with a one-all tie.

QUESTION OF READJUSTMENT

A condition of affairs exists throughout Canada and the world which appears difficult to solve. However, there is one thing upon which all people agree, and that is that an adjustment of costs of commodities must be made. As an illustration: with the present price of wheat a readjustment in the price of bread should be considered. The same is true of other necessities of life and materials.

All of which leads up to the fact that ALBERT & McCAFFERY, LIMITED, are prepared to adjust the price of any material they have for sale. If the price of coal is lowered we will also lower our price. The prices of many building materials have been changed, and we are prepared to change our prices.

If interested in the above, call or phone 116 or 117, Albert & McCaffery Ltd. (15)

DO YOU TAKE AN INTEREST IN THE FASHIONS OF 1931?

WITH which we make bold to remind The Men there are fashions in radios, razors, automobiles and fountain pens as well as wearing apparel.

Most women appreciate the authenticity of the fashion news—in regard to silhouettes, coming frills, passing fancies, and the colorful details of the mode—to be found daily in the advertisements. . . . Fashions these days are not confined to clothes. Automobiles, interior decorations, table service, vacations, even breakfasts are more satisfying, if, to use the word of the thirties, they are SMART.

Advertisements are continually chronicling the fashions that are smartest. Advertisements keep you informed of the mode in merchandise of all kinds. Advertisements are full of information about the new ideas that make Canadian life what it is today.

If you are interested in better living, you are bound to find the advertisements worth while!

Twenty Years Ago

In Prince Rupert

January 16 1911

Now that the board of license commissioners has failed to renew his license, the Savoy Hotel, A. J. Prudhomme, the proprietor is wondering how to dispose of a \$1,000 stock of all kinds of liquor which he has on hand. He must get rid of it before next Monday, as he will not be permitted to operate after then.

Mayor-elect William Manson is in the best of spirits over his victory at the polls this week despite the fact that he is suffering from an abscess on his left arm which had to be lanced yesterday.

On account of a storm, the steamer Camosun had to put back to port after she had put out on her schedule north. She anchored in the harbor pending an abatement of the tempest.

Tells About Meat Packing At Luncheon

G. E. Gulick Gives Interesting Address to Members of the Rotary Club

At the regular weekly luncheon of the Prince Rupert Rotary Club yesterday, G. E. Gulick gave a very interesting talk on packing plants. He described in some detail the various stages through which meat passed before it reached the consumer. He said there were 74 packing plants in Canada and six in British Columbia. The packing industry came third in importance in the Dominion. Pulp and paper manufacture led with grist mills coming second.

One interesting sidelight was that only 53 1/2% of the live steer was marketable as meat. In hogs the percentage was larger. Consumption of meat had increased at a rapid rate, indicating that vegetarianism was not popular.

At the conclusion of his address Mr. Gulick was thanked by President S. D. Johnston for his very interesting address.

VESTRY MEETING

St. Peter's Church Had Good Year From All Standpoints in 1930; Officers Are Elected

The annual vestry meeting of St. Peter's (Seal Cove) Anglican Church was held last evening in the church. Warden's reports, both synodic and parochial, showed substantial financial credit balances while reports from the various auxiliary organizations of the church marked enthusiasm and progress during 1930. Especially was this true of the Woman's Auxiliary and the Sunday School.

Election of 1931 officers resulted as follows: Rector's Warden, John E. Boddie. People's Warden and secretary-treasurer, William O. Vigar. Sidesmen, George A. Kelsey and S. Sunbury. Lay Delegate to General Synod, Robert Blance.

The annual social evening of the church will take place on February 12.

Playing Children Set House Afire

Damage Done Yesterday Afternoon to Home of Charles Lord on Thompson Street

Furniture and the interior of the lower floor of the residence of Charles Lord, 733 Thompson Street were damaged by fire which broke out at 3 o'clock yesterday afternoon as a result of children playing with paper and matches in the living room. Mrs. Lord happened to be at the house of a neighbor when she saw her own home in flames. The fire department was called but meantime men with buckets of water had done good work in quelling the flames.

The house was insured but the furniture was not. The loss to Mr. Lord is about \$250.

POLES START TO MOVE NOW

During the month of December the Hanson Timber & Lumber Co. shipped about forty carloads of poles from the central interior and so far this year has been shipping at about the same rate. There are sufficient stocks available now to fill all orders without going into the bush. If the present soft weather changes, camps may be opened in the bush a little later for the cutting of poles. At present they could not be taken out if they were cut.
