The attempt which has been made by the halibut fishermen during the past two months to handle their fish co-operatively through the medium of the United Pacific Fisheries was definitely conceded a failure this morning when all fish, both American and Canadian, which had arrived during the past few days went on the board at the local Fish Exchange.

TROUTPOOL DUE HERE TOMORROW

The Ropner Line steamer Troutpool, coming here to load a full cargo of grain from the Alberta Wheat Pool's Prince Rupert elevator for the United Kingdom or Continent, is due to arrive tomorrow. Yesterday at noon the vessel was 327 miles away from here. She is coming from Balboa, Canal Zone.

About forty boats sold catches aggregating 380,000 pounds. The prices ranged from 7c and 4c to 10c and 6c which is considered fairly satisfactory considering the great amount of fish that was in. Some 30,000 and 40,000 pounds arrived too late to go on the board today.

The fish was sold on the grading of 10 to 60 pounds first class fish and balance, second class. The boats selling were:

- American Pacific, 32,000, and Grant, 30,000, Cold Storage, 8c and 5c. Spray, 4,000, Cold Storage, 9c and 5c. Eureka, 11,000, Pacific, 10.3c and 6c. Onah, 15,000, Booth, 10c and 6c. Sum of \$100,000,000 Now On Deposit in New York Will Be Used To Balance 1932 Deficit

Increase on Petrol Tax From Fourpence to Sixpence—Tax of One Penny Per Pound on Land Being Planned by Chancellor of Exchequer

LONDON, April 27.—Temporary expedients, pending an anticipated general recovery of trade, were announced today by Rt. Hon. Philip Snowden, Chancellor of the Exchequer, in his budget speech as means of bridging the gap of \$186,000,000 between estimated expenditure for the 1931-32 fiscal year and revenue on the present basis of taxation.

The tax on petrol is raised from four to six pence, an additional \$37,500,000, and an adjustment of times at which certain brackets in the income tax list may make payment would yield another \$50,000,000.

With these measures the Chancellor of the Exchequer predicted a surplus of \$670,000.

Mr. Snowden said he was firmly opposed to the imposition of a revenue tax and that the standard rate of income tax would not be increased.

The most sensational announcement of the speech had no bearing on this year's financial situation. It was the Chancellor's declaration that he intends to initiate a scheme for the taxation of land values at the rate of one penny to the pound on capitalized value. Preliminary valuation of land to this end is likely to take two years. This scheme is likely to lead to endless political controversy.

LETTER BOX

NOVELS AND PRESS

Editor, Daily News:—
The address given by Rev. D. Grant Hollingworth before the Prince Rupert Rotary Club as reported in the Daily News was very interesting, and I should say, timely.

To my mind he has touched on a vital subject, for as he says, novels and newspapers comprise a large section of popular reading today, and popular reading is an important part of our present-day environment. The quality then should be worthy of some consideration.

It is difficult enough for the average man to understand his part and his place in the scheme of things today; the political and economic complexities of our modern civilization make it increasingly hard to get a right perspective; add to these the low-grade novel and the multitudinous magazines of doubtful character and the problem is a real one.

As you remark in your editorial comment on Mr. Hollingworth's address, the press has a heavy responsibility; the newspaper is ubiquitous and its influence on the public mind is incessant. Editorial functions are usually in the hands of educated people, so that there seems to be no doubt about the duty of the press to keep the educational and moral standard of its reading matter as high as possible.

Considering the influence of local newspapers, I think we are fortunate in having access to a journal like the Vancouver Province. The Province appears to have some conscience and the news it publishes seems to be reasonably reliable, as press despatches go. Personally I enjoy reading the Sunday magazine section for the human interest it contains, and I think its moral and literary tone is acceptable also. I think it maintains a just and progressive attitude towards the churches, as evidenced by the series of articles recently published, entitled, "I was a stranger and ye took me in."

Coming nearer home I consider that the Daily News and the Evening Empire handle the daily news in a reasonable and sane manner. I believe a correspondent in the letter section of a recent Sunday Province spotted one defect which seems to be rather general with modern newspapers. He referred to the practice of the press investing reports of crimes with the wrong atmosphere. The number of synonyms provided by the English language is taken advantage of by many writers and instead of referring to a robber as a common thief they call him a bandit. Undoubtedly this increases reader interest, but although the technical facts may be correct they are distorted and misrepresented by the halo of romance with which they are adorned. The power of suggestion such reports have for adolescent minds is bound to have effects.

BUSH FIRE AT TERRACE

Disaster Seemed Imminent on Friday as Flames Swept Ferry Island

TERRACE, April 27:—A serious looking bush fire started up on Friday morning on Ferry Island, Terrace. The only occupant of the island is E. Hamer and his family. For a time it looked as though they would have a hard time to escape. Mr. Hamer had started to burn some brush in connection with his land clearing, and a brisk wind rising, it got out of control and spread with great rapidity over the whole island which is about three-quarters of a mile in length and a quarter mile wide. Logging operations had been carried out on the island during recent years and piles of slashings were left in every direction. These fed the flames to fury and for a time it seemed as if a real disaster was impending, the wind heading strongly towards Terrace village.

Fortunately a wide slough separates the island from the mainland and this was a material factor in preventing the spread of the flames. In the freshening breeze the fire raged like a veritable inferno and Sid Cooper's staff had quite a busy time in saving the bridge and dealing with small outbursts which had been set up by sparks crossing the slough. For a time the residences of Messrs. Daly, Sherwood, Gregory and Atree were in danger but, as the more readily combustible material got used up, the flames gradually subsided and with the darkness only scattered flickerings were throwing their showers of sparks.

The wind kept in the direction away from the Hamer dwelling and beyond a severe scare the family came through safely.

Saturday saw the fire under control, only the far-stretched ends of the island contributing to the flames.

No damage of any serious kind was done and a considerable area of excellent land was vastly helped in its clearing.

Environment plays a part. Whether it's a mere fly or a home run depends on where the fence is.

HEADACHES

Ended by Kruschen

"I was a martyr to headaches, with frequent attacks of dizziness affecting my vision. My occupation is a very sedentary one—a printer's reader. I gave Kruschen Salts a good trial, and from then onwards I seemed quite another person. The headaches disappeared and the dizziness, and the most wonderful thing to me is that I have gone back to weaker glasses, a lens which I had discarded some years ago as not being strong enough. I also suffered from bad circulation during the early mornings of winter. Now at 58 I can enjoy cold baths all the year round, enjoy and am rager for my food, and am what I consider very fit—the sort of fitness that makes living a joy."—(G. F.)

Headaches can nearly always be traced to a disordered stomach or to partial constipation—a complaint many indoor workers suffer from without ever suspecting it.

Kruschen Salts go right down to the root of the trouble and remove the cause by gently persuading the organs of elimination to function exactly as Nature intended they should.

Probation After Death Science Subject Sunday

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Probation After Death."

Among the Bible texts included in the lesson-sermon was the following from Luke 16:25: "But Abraham said, Son, remember that thou in thy lifetime recevest thy good things, and likewise Lazarus evil things; but now he is comforted, and thou art tormented."

The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "The God-inspired walk calmly on though it be with bleeding footsteps, and in the hereafter they will reap what they now sow. The pampered hypocrite may have a flowery pathway here, but he cannot forever break the Golden Rule and escape the penalty due." (page 41).

Sister of George Beattie of Queen Charlotte Passes

The death occurred in Vancouver on April 18 of Mrs. Laura M. Beattie, daughter of Mr. and Mrs. G. J. Beattie of Portage la Prairie and sister of George D. Beattie, well known Queen Charlotte City merchant. Miss Margaret Beattie of this city is a niece of deceased. Mr. Beattie was in Vancouver at the time of his sister's death.

Capture of Robbers From Harrison Hot Springs Hotel Believed Imminent

AGASSIZ, April 27.—Three bandits, who blew the safe of the Harrison Hot Springs Hotel at Harrison Lake early this morning and escaped after a gun battle with provincial police officers near Mission, are believed to be surrounded in the road east of Deroche.

The safe crackers obtained \$700 from the hotel strong box but failed in their plan to cut off pursuit by dynamiting a bridge between the hotel and Agassiz. The charge exploded but only a portion of the structure was carried away.

Summer Travel on the Great Lakes

The Canadian Pacific Railway announces that the company's three passenger ships, plying the Great Lakes from Port McNicoll to Fort William, will commence their summer sailing schedules on May 4 from Owen Sound and from Port McNicoll and Port William on May 23. Thereafter, there will be three sailings weekly, one from Owen Sound to Fort William on Mondays, returning Thursdays and two each Port McNicoll to Fort William Wednesdays and Saturdays and eastbound Fort William to Port McNicoll same days. The announcement opens an alluring vista of attractive trips for the tourist who wishes to combine beauty of scenery with cool travelling under luxurious conditions in the sweltering summer days that are now approaching. These vessels, S.S. Assinibola, Keewatin and Manitoba, are well appointed boats offering every comfort to travellers and their route is through the Georgian Bay, Lake Huron, the Sault Ste. Marie locks where there is a rise of about 20 feet to Lake Superior which they traverse, and up that vast inland sea to Fort William. The passenger travels about 600 miles, spending 39 hours on the waters of these lakes, often out of sight of land, and getting the beneficial effects of an ocean voyage. Dancing, plenty of space, strolls along promenade decks, cozy cabins, well-appointed dining-saloons, glimpses of ever-changing and beautiful scenes, fit every taste and combine to make up a trip that will linger long in the memory. Travellers who are thinking of a journey across the continent from east to west, or vice-versa will find the trip on the Great Lakes makes a most welcome change in the monotony of rail travel. Lay-out shows Canadian Pacific ship ready to sail from Port McNicoll with passenger train alongside; and passing Thunder Cape, impressive beauty spot on Lake Superior.

NURSING SURVEY

Is About Completed in States—Proceeding in Canada—England Will Be Done Next

MONTREAL, April 22.—The nurses of the United States have completed a five year survey and are now working on grading their schools of nursing as a result. The Canadians have nearly completed their two-year survey, and now the nurses in England have started a similar project.

How to reconcile the two problems? One, that the cost of sickness, which includes the fees of the trained nurse, is prohibitive for the majority; the other, that the nurse at six dollars a day cannot work more than 75% of the time and thus her earnings in the best of years cannot be more than \$1,650. Even if she has the constitution of a horse and the best luck in the world in securing employment, she must expect to have three months in the year, in odd times, when she is not earning anything. What about her when she gets to the age when she can no longer support herself? What of the nurse who, today, is starving—and there are many, it is asserted. What of the nurse who has to support not only herself but some dependent relative as well?

It may be that the Canadian survey will provide the nurses with a solution of the problem—and it can not be solved unless it meets the needs of the public as well—that has not yet been visualized. Some schemes have been thought of. One

TERRACE RHUBARB

Will be on Local Market This Week Greenstuffs High Owing to Duty

Terrace rhubarb is expected on the local market this week. Pending its arrival, other rhubarb stocks from British Columbia are scarce and the price is high.

Bananas are also scarce on account of the revolutionary troubles in South America and the price is stiff.

The new duty put on produce from the United States is already making itself felt. Consumers may look for higher prices on fresh vegetables which at this time of the year come from California and other states. Lettuce has already advanced to two heads for 35c. Bunch carrots are very high, as well, and more will also have to be paid for spinach and asparagus.

Victoria hothouse tomatoes are moving freely. Mexican field tomatoes are now off the market.

Oranges are as cheap today as they have ever been. Grapefruit, however are beginning to climb.

Australian Almira grapes are in and are selling at 40c. a pound.

Following are some of the prices here.

ASKED TO STAMPEDE

Harry Atkins, Formerly of This City, Invites Local People to Stampede

In a letter which has been received at the office of the Daily News, Harry Atkins, former well known local butcher, who now lives at Williams Lake where he is president this year of the Cariboo Stampede to be held at Williams Lake June 19 and 20, invites Prince Rupert people to visit the Cariboo country for that occasion.

Mr. Atkins' letter is as follows: "I was wondering if it is possible to interest the Prince Rupert Board of Trade in making up a party to tour down this part of the country and take in our stampede. At the same time Williams Lake Board of Trade and Stampede Association would be glad to have them here, and I feel sure they would enjoy the trip, and meet the people of this part of our wonderful country, and see some good races. As a matter of fact, we would be glad to have any one come along."
