Pat Renahan, well known coast avjator, after being informed through the Daily News this morning of the finding of part of the wooden fuselage of her aviator husband's plane, at last gave up hope of his being alive. AN INDIAN PROTEST

Skidegate, B.C. Editor, Daily News:-

We are informed by the Fishermen's Association, and also by a number of notices in your paper, that once again canners are attempting to have fish traps placed near the Alaskan boundary. Should this be permitted it is obvious that other canners will make a bid for other traps in other places and in doing so make the plea, that they cannot compete with fish traps, if they are to be in one place they must be in all.

The time will undoubtedly arrive when this city will be compelled to adopt this means as a source of revenue. We are fast approaching the end of our borrowing power, and coupled with this fact we must bear in mind that the assessed value of taxable land has been reduced year by year, for instance the 1931 assessment roll shows a reduction of \$285,000.00 compared with last year. Obviously new means of revenue must ultimately be sought. I am of the op-

#### Bring the Boys and Girls Back Home!

How often have we all deplored the fact that thousands upon thousands of our most promising young men and women find it necessary to leave Canada, in order to seek in some other country opportunities for the employment of their talents that seem to be lacking here?

As individuals we have deplored it, because in these cases the sorrow that is caused us through the breaking of family circles and home ties is accentuated by a sense of irrevocable loss, due to a feeling that the separation is going to be permanent. And from a broad national standpoint we have deplored it, because it has meant a serious drain upon the very kind of population gifted, energetic, ambitious that we most need to help in developing our magnificent natural resources.

Must we continue to rear and educate our children-to equip them as best we can for the successful careers we hope will be theirs—only to lose them to an alien flag because of the dearth of opportunity for them at home?

Opportunity of any kind is a result, of which production of some kind is always the cause. Most people create their opportunity by engaging directly in some form of production, such as farming, fishing, mining, lumbering or manufacturing. These people provide the foundation and, according as they succeed, opportunity is created for others in all the occupations that constitute the super-structure, such as transportation, banking, insurance, trading, the professions and public service.

The more the people of a country favor their own producers, thus giving the latter all the incentive necessary to increase the volume and broaden the scope of their production, the more abundant will be the immediate opportunities they create for themselves, and the future opportunities they create for their children.

If in the past opportunity has not been as abundant in Canada as it has been elsewhere, it is because Canadian producers as a class have not been as successful as producers elsewhere have been. And the chief reason our producers have been less successful is because they have failed to receive from Canadian citizens generally the same loyal support that the producers in certain other countries have received from their citizens.

Some of these countries import practically nothing that they are capable of producing for themselves. But we Canadians are so careless about our daily buying, so thoughtless of the welfare of our producers, so shortsighted about keeping the door of opportunity open for our sons and daughters, that every working day we allow ourselves to be sold about \$2,500,000 worth of imported merchandise that our own producers would have been glad to make for us, if we had only given them the chance!

Why not let us all resolve that from now on we'll try to bring our boys and girls back home by remembering, in our buying, that it must always be "Canada First"!

Very sincerely yours,

Minister of Trade and Commerce.

### by rubbing on IS NOT MERE MINING MAN

An interesting article by Reece C. Hague, in the magazine section of this week's Vancouver Sunday Province from the pen of Reece Hague, describes the life of William Bunting, who was the original staker of the famous Premier mine

in the Portland Canal district. Most of those who become acquainted with Mr. Bunting today would think he was just a solid mining man and had never been inything more interesting in his whole life. The article, however, tells how, besides being a miner, Mr. Bunting, popularly known as Bill," was earlier in his life a

oxer, soldier and dancing master. The article is accompanied by pictures of Mr. Bunting.

## LOCAL NEWS

A correction in the name of Elmer Ross Oatman of Anyox, who was recently appointed to a number of provincial government posts at the smelter town, appears in the current issue of the B. C. Gazette.

The appointment of Rev. Peter Kelly of Bella Coola to be an issuer of marirage licences is announced in the B. C. Gazette. The appointment of the late Rev. J. E. Rendle, who S. E. Parker Ltd. died recently, is rescinded.

Conservative papers of British Columbia, in their editorials, hailed the result of the Prince George byelection last week as a great triumph for the party. The Liberal press contended it was no test of party strength since the party had no candidate, either official or unofficial. There are the highlights of the two interpretations of the by-Phone 649 election result.

- 6 The Contest closes February 28th, 1931.

[Employees of Imperial Tobacco Company of Canada, Limited. excluded from this contest.]

Our sales department felt that there was a demand for a superior grade pipe tobacco in what might be termed the popular price class. They said pipe smokers wanted a tobacco with more flavour, which would smoke sweet and cool, and last.

> Our blenders prepared this special Turret pipe tobacco, which they claim meets these requirements exactly.

For the convenience of the light, medium and heavy smokers, Turret pipe tobacco is packed in 15c. packages with 2 poker hands; 20c. packages with 3 poker hands and ½ pound screw-top humidor tins with 12 poker hands.

> WE have done all we can do to make Turret a good pipe tobacco-will you please tell us if it suits your taste?

No red tape-no difficult conditions to fulfil-no high-priced article to buy-you simply smoke a package or, perhaps, a few pipefuls of cool, long smoking Turret pipe tobacco and then write a letter telling us how you like it and what you think of it. For this simple, easy act we offer \$250.00 in prizes to the pipe smokers of this Province.

Try it out buy a package smoke it.

Then give us your frank opinion of Turret pipe tobacco-write us a letter as to its coolness, its long burning qualities, its flavour and aroma.

Activity In American Creek Section at Stewart-Prosperity Mine Making Good—Consolidated On Copper Mountain

For some time past there has been considerable interest shown by outside people in the American Creek section of the Portland Canal district, indicating not only confidence in that region but forecasting aggressive development during the coming year. While details of the deals completed and negotiations pending are difficult to secure, it Nelson Active is learned that W. H. Tolin, who is one of the principals in the Mountain Boy property, recently secured options on several groups adjoining that property on the north in-

cluding the Good Luck, Gold Drop, Lucky Jim and Lucky Fifteen groups, aggregating some 33 claims SKIDEGATE made of him recently, Mr. Tolin stated that he had no news for publication. Despite Mr. Tolin's statement, however, it seems that Montreal interests which he represents Development of Southeaster Prohave sufficient confidence in the Mountain Boy to warrant them acquiring the adjoining ground which, in turn, justifies the anticipation of considerable 'development on American Creek next season.

In the profit figures it is shown that the net profit in each ton of Prosperity ore has been between \$11 and \$12. Gross value of the ore has been \$29 and \$30 to the ton, according to an official statement. Mining men consider the Prosperity report exceptionally gratifying under present metal prices and are more convinced than ever that Premier operations have many years of profit ahead.
