CONDEMNS SECOND NARROWS BRIDGE

CANADA IS PLANNING SPEEDY OCEAN AIR MAIL SERVICES

Body Blow Dealt Structure in Vancouver Harbor by Decision Of Privy Council Against It

Is Called Substantial Interference to Navigation and Public Nuisance—Steamer Eurania, Which Hit It Three Years Ago, Wins Important Appeal

LONDON, Jan. 13:—Holding that the Second Narrows bridge in Vancouver causes substantial interference with navigation and amounts to a public nuisance, the Privy Council today handed down a judgment allowing the appeal of the steamship Eurania against decisions of the Exchequer Court of Canada and the Canadian Admiralty Court which dismissed the claims of both the Eurania and the bridge company. The owners of the Eurania were entitled to recover from the Burrard Inlet Tunnel and Bridge Co. damages for loss sustained between the steamer and the bridge three years ago, according to today's decision. The Eurania claimed \$77,000.

PRINCE GEORGE, Jan. 13—That he has perfected a machine that will run without fuel, without oil and without attention is the contention of Nicola Schmidt, one of the owners of the local brick yard. The machine is run on a mixture of air and water and will equal the power of a steam or gasoline engine. It will drive to the right or left with equal facility.

Nicola Schmidt, a German, is a graduate of a well known German technical school. He is a master mechanic by trade and for eight years served as an engineer in the navy and is consequently well informed as to marine machinery. He believes that his invention is especially adapted for use in engines of one thousand horse power. It will weigh not more than ten tons and will require a space of only twelve by fourteen by five feet, thus resulting in a great reduction of ships tonnage beside the saving in the cost of fuel.

Schmidt declares that he discovered the idea of his invention by chance more than twenty years ago and has been working on it ever since although he but recently perfected it. As the engine is not yet patented, he is reluctant to give details as to its working principles at present. He states, however, that it is run on a mixture of air and water. It does not require regular oiling and the power it will develop depends only upon the size of the engine. It will run for years with no decrease in power and once started needs no attention.

CARGO OF FROZEN FISH

Motorship Norco arrived in port at 7 o'clock this morning from Ketchikan and, after discharging four carloads of frozen fish for transshipment East over the Canadian National Railways, sailed for Seattle.

INVENTION IS CLAIMED

VANCOUVER, Jan. 13—Decision of the Privy Council against the Second Narrows bridge opens the possibility that the owners of the bridge may be faced with payment of heavy damages for the series of marine accidents which have occurred at the bridge in the past six years. The bridge has now been out of commission since last September when a 300-foot span was carried away by the log carrier Pacific Gatherer, an old hulk which was swung onto the structure by the tide.

GOOD YEAR FOR FAIR

Revenue Exceeded Expenditure by Over \$500—Many Improvements Made

Election Deferred

After hearing the financial report for the past year which showed a surplus of revenue over expenditure amounting to \$543.42 and the report of the president on 1930 operations, the annual meeting of the Northern British Columbia Agricultural & Industrial Association, called for last night, was adjourned until January 27 when it is expected there will be a larger attendance of members. President W. H. Sherman, jr., was in the chair at last night's gathering and most of the members of (Continued on Page 4.)

More than seventy persons lost their lives in Mexico recently when River Avenida overflowed banks after worst storm for many years. Material damage estimated at more than \$500,000. Soldiers and peasants are here shown cleaning streets and doing rescue work.

Merging of Canadian Wireless and Cable Systems Proposed; Telegraphs Are Also Affected

OTTAWA, Jan. 13:—The merging of Canadian wireless and cable systems into a single company to work in conjunction with the Imperial and International Communications Ltd. of Great Britain was subject to discussion yesterday between Premier R. B. Bennett, his cabinet and Sir Basil Blackett, chairman of the great British merger. Proposals included one that the Canadian Pacific and Canadian National telegraphs should become partners with the Imperial and International Communications Ltd. in the forming of a Canadian overseas communication company which will include the Canadian Marconi system.

Tragic Accident on Victoria Drive Vancouver, Results in Death of Death of D. B. Mills

VANCOUVER, Jan. 13—Charles Mills crashed into a parked car early this morning on Victoria Drive and killed his father, D. B. Mills, according to the police. The younger Mills was driving a truck and his father, who was seated beside him, was thrown to the pavement and the truck rolled on him, inflicting injuries from the effect of which he died a few minutes later.

Hindus and Moslems, Liberals and Conservatives All Oppose First Draft For Constitution

LONDON, Jan. 13:—Hindus and Moslems and British Conservatives and Liberals alike expressed dissatisfaction with the draft report of a new federal constitution for India when it was laid by Lord Sankey before the round table sub-committee today for discussion. The Moslems declared that they could not accept the report until their minority rights had been safeguarded. The Hindus regretted the Moslem attitude but said that the report had too many reservations. Lord Reading, for the Liberals, asserted that his former approval of the essentials of the scheme was based on the assumption that the Hindu-Moslem differences would be settled. Lord Peel, Conservative spokesman, said that Imperial security did not receive sufficient safeguards in the report.

Northern B.C. Likely To Figure in Postal Route Toward Orient

Four Day Transmission Between Britain and This Dominion Forecast—London to Vancouver In Fifty Hours

OTTAWA, Jan. 13:—Four day mail transmission between Britain and Canada is seen by Post Office officials as a reasonable expectation within a year or so while the development of aviation may find a letter from London being delivered in Vancouver within two and a half days. Even with the present cruising range of planes, mails from London could reach Belle Island in twenty hours. This would give a service of thirty hours to Montreal, forty hours to Winnipeg and fifty hours to Vancouver.

Turning towards Asiatic communication, Post Office officials visualize the possibility of flights which will take Canadian airplanes from Northern British Columbia into Japan, touching a United States aviation base in Unalaska, then following the Aleutian chain and the Kurile Islands into Tokio.

Will Take Mrs. Renahan North

Search Pilot Is Expected Here Today and Will Fly Back to Ketchikan With Lost Flyer's Wife

It is expected that Pilot Ansel Eckmann, who has been conducting a search out of Ketchikan during the past few days with a view to picking up further wreckage from the plane of Pilot Robin Renahan who with two companions, is believed to have crashed and plunged into the sea on the night of October 28 last, will be here today to pick up Mrs. Renahan who has expressed a desire to go north and be as near as possible to the search operations for her husband. Word received this morning from Ketchikan by the motorship Norco, which was in port, was to the effect that further wreckage, believed to have been from Renahan's plane, has been picked up. The most important development to date in the search was the finding on Sunday of a piece of broken wood from the fuselage of the ill-fated plane, it was said on the Norco. It was believed this morning that Pilot Eckmann was continuing his search of the islands just south of Ketchikan for further wreckage from the Renahan plane. Eckmann left Ketchikan yesterday morning and did not return there last night nor did he come on here. It is supposed that he came down beside the provincial police boat P. M. L. 8 and spent the night there.

ATHLONES POPULAR

Possible New Governor General of Canada and Lady Greatly Esteemed in South Africa

PRETORIA, South Africa, Jan. 13—General Smuts, in speaking to the toast of the retiring Governor General, the Earl of Athlone, and Princess Alice, said that the record of the latter's public work would make her live in the memory of the people. The Pretoria News says that their Excellencies came to South Africa seven years ago as strangers, but were leaving as friends—"the best-known and best-liked couple in the land, esteemed for the sake of the high office they held and esteemed still more for what they proved themselves—friendly people who never missed an opportunity of saying a good word or doing a good turn on behalf of the country and people they lived to serve."

DEATH OF OFFICIAL

C. N. R. Sleeping Car Superintendent in Vancouver Passes

VANCOUVER, Jan. 13:—Following an illness of a month, Sid Sykes, superintendent of Canadian National sleeping and dining car service at Vancouver and a well known local resident for many years, died this morning. Mr. Sykes was for a long period connected with the Canadian Pacific Railway sleeping and dining car department at both Vancouver and Calgary and was also the proprietor of the Elysium Hotel. He was a prominent member of the Masonic Fraternity, a past master of Zion Lodge and also a member of Gizeh Temple of the Shrine. The funeral arrangements will be under the Masonic Lodge. He is survived by his widow and one son.

Bad Cold On Her Chest Had To Stay In Bed

Mrs. J. C. Winters, Janow, Man., writes: "I have every reason to praise Dr. Wood's Norway Pine Syrup as it has done me a world of good. I had a very bad cold on my chest, and had to stay in bed two weeks, and could hardly speak on account of coughing so much. I tried every medicine and liniment I could think of, but I got no relief. My husband read about Dr. Wood's Norway Pine Syrup so I decided to try it. I took only one bottle and I am ready to recommend it to anyone with a cold." OPTIMISTIC REPORT

Last week the president of the chamber of commerce gave a very interesting and optimistic report at the annual meeting of that organization. He spoke of the importance to the city of the construction of the new power plant; was hopeful for the Peace River outlet being at Prince Rupert; pointed to the value of highway construction and showed hope for the new hotel coming to the city. In closing we cannot do better than repeat his own words: "Although the clouds of depression are at present lowering thickly overhead, I firmly believe that they will soon begin to disperse, and it is my earnest wish that 1931 will see the sun of prosperity burst forth in all its power, and that it will envelop each and everyone of you in its rays of warmth, comfort and well being."

YOUNG THINGS

Every true man or woman is fond of young things. Kittens, babies, chicks are appealing in their innocent enjoyment of life. If they are healthy they are happy and they make others happy.

People who are growing older try to keep their youthfulness with all its charm for youth is attractive.

So with cities. Prince Rupert is a youth among cities. No city of its size in Canada is as young. Let us cling to that youthfulness which is the great attraction. Youth is optimistic. Youth scorns hardship and is alert and keen. We hope that Prince Rupert will hold on to that spirit of youthfulness, cling to her vigor and be always a virile community, continually pushing forward to the better things of life.

CONGRATULATIONS TO MAYOR

We wish to congratulate Mayor Orme on his re-election by acclamation yesterday. It was a compliment to him and endorsement of the work he has done. Undoubtedly he has been zealous in the interests of the city and has shown good judgment. If his second year is as successful as the first, he will have earned the gratitude of the whole community.

CHOOSING A COUNCIL

It would be unwise for the Daily News to express any preferences in connection with the election for aldermen. All are good men. Those seeking re-election undoubtedly did good work last year and the others seeking election might have done as well had they been given the opportunity although we do not see how they could have done better. All we ask is that the electors take an intelligent interest in the election and also express themselves on the question of the proposed two-year term for mayor which is also to be voted on at the same time.

NORTHERN B. C. NEWS

TERRACE

Mr. and Mrs. Carl Pohle have returned from Winnipeg where they spent the winter.

Mrs. Raven returned to her home on Thursday accompanied by her daughter, Mrs. H. Creelman and little son for an extended visit.

The schools have reopened with practically full classrooms.

A small fall of snow delighted the children with the prospects of a snow fight. A little frost for two nights and a little sunshine during the day is welcome. The weather is quite variable.

H. A. Swain is able to be at his work again delivering freight by truck.

Mr. and Mrs. J. K. Gordon left on Sunday's train for a visit in Prince Rupert.

Mrs. E. T. Brooks has been confined to her home with a mild attack of influenza.

Mr. and Mrs. C. R. Gilbert will leave shortly for a trip to France via the Panama Canal.

The Board of Trade is putting on a smoker this evening.

BURNS LAKE

The Burns Lake Rink Association has been organized here to operate the local skating rink. Officers are: president, J. J. McKenna; vice-president, P. V. Tallon; secretary-treasurer, W. Muirhead; executive, A. M. Ruddy, C. R. McLeod, J. Mowat and William McKenna.

Mr. and Mrs. Bennett of Ootsa Lake were hosts to many friends in the Lakes District at a New Year dance on Tuesday evening last. Mr. and Mrs. Bennett are proprietors of the Ootsa Lake Hotel.

District visitors in town during the past week have included R. G. Stearns, Tintagel; M. A. Moore, Tchesinkut Lake; Ben Roberts, Collymount; George Keep, Prince George; W. B. Kerr, Wistaria; R. H. Moore and A. G. Birch, Vanderhoof; C. B. Schreiber, Francois Lake; W. W. Muirhead, Telkwa; C. Botham, Ootsa Lake.

Last week the thermometer dropped to two below zero, it being only the second time that the thermometer has been below the zero mark this winter.

Relief work undertaken by the village of Burns Lake has been suspended owing to all the available funds having been used up.

A number of local people are using green poplar instead of birch or pine in their heating stoves this winter and report it to be a very satisfactory fuel.

STEWART

A fine new bookcase is soon to be put in place in the library of the Canadian Legion here. It will be a splendid addition to the hall furnishings and will fill a long felt want.

Municipal politics in Stewart are beginning to warm up despite the fact that the elections for village commissioners will not take place until January 29. The present commissioners—H. P. Gibson, W. L. Newell and W. R. Tooth—are expected to seek re-election while others mentioned as possible candidates are H. A. Stewart, L. S. Davidson, H. C. Bennett, William Yonkin and Sam Deschamps.

The Hyder Igloo of the Pioneers of Alaska has installed officers for the coming year as follows: president, August Painke; vice-president, C. Duke; second vice-president, George Keroin; secretary, Clyde Hager; treasurer, T. H. Evans; sergeant-at-arms, Louis Watkins; prelate, F. A. Nagle; trustees, Roy McLeod, Louis Watkins and E. M. Reynolds.

Miss Minnie Sparhawk, who moved from Stewart to Ketchikan in 1917, is now moving from Ketchikan to Oakland, Cal., it is learned here.

SKIDEGATE

Large schools of herring are now to be seen in Skidegate Inlet.

So far this winter has been the mildest ever experienced on the islands by the oldest white residents. Rhubarb is up six inches in the garden and salmon berry blossoms are in bud.

Mrs. G. H. Jolliffe, Mrs. H. Beaven and Mrs. A. C. Christiansen of Queen Charlotte City motored to Skidegate one day last week to visit with friends there.

The choice of Lindley Crease of Victoria as provincial president of the Conservative party is interesting on the islands, Mr. Crease being well known here.

ALICE ARM

It is now possible that the new Anglican Church to be situated at the corner of Victoria Street and Second Avenue here will be built during the coming year. All that is needed now is to raise a small amount more of funds.

"If I had only known this would happen! So suddenly! So unexpectedly! And when everything looked so promising!

"And to think that time after time he wanted to increase his life insurance and I talked him out of it. How hard I worked against myself and against my own interests. I wanted a bigger house. I wanted luxuries! I wanted everything except the protection he was urging me to accept.

"I got my own way, of course. The Life Insurance was not taken. I robbed the children of their

education, of my care, perhaps of their future success in life. I robbed myself of the children's companionship. For now I must leave them to earn the money needed to keep our little family together - - the money that Life Insurance would have given me if he had had his way - -

It has been truly said that, "If every wife knew what every widow knows, every man would carry adequate Life Insurance".

And too often it is the children who must pay the penalty of the wife's prejudice.

Seventy Year-Old Woman Had Two Bottles of Moonshine

TORONTO, Jan. 13.—A gray-haired grandmother, nearly 70 years of age, has gone to jail for six months for having two small bottles of moonshine liquor in her Ekfrid Township farm house. She was twice convicted of having illicitly manufactured booze in her home. On two previous occasions the Magistrate had been lenient in allowing her further time in which to raise a \$500 fine that would have kept her without the bars of Mercer reformatory. She had expected some insurance money, but when it did not come the bench found no option but to pass the minimum penalty of six months' imprisonment on the elderly woman.

Only Minor Changes Will be Made Next Summer in Time-Tables of Canadian National Ships

The Alaska schedule of Canadian National Coast Steamships for the summer of 1931 has been announced. It will be just about the same as that which was in effect last year, giving two boats a week through here on the run to Skagway. The schedule becomes effective June 8 and will continue until September 3.

The ss. Prince Rupert or Prince George will arrive here Wednesday mornings at 11.30 from Vancouver via Powell River and Ocean Falls and sail at 3 o'clock instead of 4 o'clock, that afternoon for Skagway and other Alaska ports, returning here at 7 o'clock Monday mornings and sailing south at 4 p.m.

The Prince Henry will arrive here at 11.30 Saturday morning from Vancouver via Powell River and Ocean Falls, Alaska, return here Wednesday mornings at 7 o'clock and sail at 9 a.m. for Vancouver direct.

It is understood that the schedule of the ss. Prince George or Prince Rupert on the run to Anyox and Stewart and of the ss. Prince Charles on the route to Stewart, Anyox and Massett Inlet will be similar to last year.

The train time-table will also be changed here, it is expected, to probably the same hours of arrival and departure as last year.

OUTLOOK IS FINE

The Changing Conditions of Fort Churchill Described by Early Missionary

MONTREAL, Jan. 13.—Churchill, the new terminal port of the Hudson's Bay Railway, is destined to become popular, not only as a grain-shipping port but for the many enterprises connected with a project of its importance, according to Mgr. Turquetil, a member of the congregation of Oblate Fathers, engaged in mission work in the far north for the past 30 years, who was interviewed by The Gazette on a recent visit here. The construction of waterworks was begun last June and carried on until October and the engineers said would be resumed in the spring so that the new town would have a modern aqueduct early next summer.

Adventurers were being kept out of Churchill by the federal and provincial authorities, who were exercising good judgment in refusing admission to such. Mgr. Turquetil said, "No land is leased or sold at the present time," he stated. "Applicants are required to send a request to Winnipeg, and I am informed that more than 10,000 have been received by the provincial government of Manitoba. Applications are considered according to the kind of business the applicants want to open and with regard to their usefulness for public service. Home builders, hotel and restaurant keepers and shopkeepers receive preference, because at the present time there are no houses but those occupied by the officials and workers on the pier or terminal elevator and other undertakings connected with government work at the terminal."

As to the possibilities of navigation Mgr. Turquetil said Churchill had one of the finest natural ports in the world. There were ice-fields but no icebergs, and the port could be open for five or six months in the year.

"Two trains a week run out of Churchill, one carrying mail, so that nowadays we are only a few days from Montreal," the missionary said. He recalled that until a few years ago mail leaving Chesterfield Inlet or Pond Inlet for Montreal took a long time to answer. In fact, mail sent out one summer could not be answered until the following summer with the return boat trip. In the winter the mail service was more precarious, the mails being carried from post to post by Indians on their way to Le Pas and Winnipeg. In connection with the possibilities of the future growth of Churchill and district Mgr. Turquetil referred to the advantages of the railway, aeroplane and radio.

Away North

Churchill is more than 500 miles north of Le Pas, Man., and is now the episcopal seat of Mgr. Turquetil, who settled at the new railway terminus last summer after having lived at Chesterfield Inlet among the Eskimos for a long time. He has a modest house and a small place of worship at Churchill, the church accommodating 100 people. His diocese, or prefecture, as these sparsely populated regions are called, is bounded on the north by the Pole, on the south by Churchill, on the west by the Mackenzie River and on the east by the Atlantic Ocean, according to Mgr. Turquetil, it being known as the Hudson's Bay diocese. His pastoral flock consists of 6,600 Eskimos, who speak various dialects, and 1,500 Indians belonging to various tribes. When he is north of Churchill Mgr. Turquetil speaks neither French or English, but one or the other of the primitive native dialects.

All the mission posts are provided with a radio reception set, equipped with dry batteries, and every Saturday night everybody tunes in to get the latest news from the outside world. This is made possible through the courtesy of a company which manufactures radios.

DO YOU TAKE AN INTEREST IN THE FASHIONS OF 1931?

WITH which we make bold to remind The Men there are fashions in radios, razors, automobiles and fountain pens as well as wearing apparel.

Most women appreciate the authenticity of the fashion news—in regard to silhouettes, coming frills, passing fancies, and the colorful details of the mode — to be found daily in the advertisements. . . . Fashions these days are not confined to clothes. Automobiles, interior decorations, table service, vacations, even breakfasts are more satisfying, if, to use the word of the thirties, they are SMART.

Advertisements are continually chronicling the fashions that are smartest. Advertisements keep you informed of the mode in merchandise of all kinds. Advertisements are full of information about the new ideas that make Canadian life what it is today.

If you are interested in better living, you are bound to find the advertisements worth while!

MENACE OF AIRPLANES

Wild Life Must Be Protected From Air, Government Orders

OTTAWA, Jan. 13.—As a sequel to complaints that airplanes are becoming as much of a menace to Canadian animal life as automobiles to pedestrians, the department of National Defence has issued warning to pilots and aviation interests of the Dominion that special precaution must be taken to protect wild life.

Two warning circulars issued by the department are the outcome of representations made by the Canadian National Silver Fox Breeders' Association and the Association of Provincial and Dominion Game Officials. The former body requested co-operation to prevent loss flying over fox farms, because of loss and damage done during the fox whelping season. The game officials asked that pilots be reminded of "the threat which airplanes make against wild life, including game and water fowl."

To overcome the aero-danger to fox raising, distinguishing marks will likely be provided at fox farms which aviators will be able to see from the air. Yellow and black paint will be striped on watch towers and pylons to warn day flyers. To mark those farms located on night air mail routes, the department suggests that red lights of sufficient power, to be seen three miles away, be set up on the farm site.

Local People to Spend Holiday In Isles of the Pacific

Three local people left today for holiday visits to Honolulu. L. W. Patmore has decided upon a three months' holiday for his health and will loll on the beach at Waikiki and bask in the sunshine or ride the surf of the southern ocean.

Mr. and Mrs. Syd Thomson are taking the same steamer to the Hawaiian Islands but will return earlier although they have not announced just how long the holiday is to take.

All left today on the Catala for Vancouver on the first leg of the journey.

HAZELTON PROGRESS

Dr. C. H. Wrinch Tells of What Was Accomplished in Past Year

The past year has been one of marked progress for Hazelton and the surrounding district, writes C. H. Wrinch in the Omineca Herald. Although the general depression has been felt to a certain extent, the town has shown confidence in the future by considerable building operations.

The provincial government, as part of its highway program, is erecting a large suspension bridge over the Hagwilget Canyon, with a span of 450 feet, 250 feet above the Bulkley River, which, when completed, will be one of the great scenic attractions of the Pacific Highway. Also, the provincial government, in connection with the Indian department and the United Church of Canada, has just completed the new Hazelton Hospital at a cost of \$70,000. This is one of the finest buildings in the north of British Columbia, and fully modern in every detail. The new hospital will be officially opened on December 29, and the citizens of Hazelton are proud, indeed, to have such a fine building to maintain their reputation of providing the best hospital service in the north.

Other improvements in the town include a new store and warehouse, built by the Hudson's Bay Company, who are also improving their grounds and making a park area which will greatly improve the appearance of the town. The travelling public appreciate very much the new hotel (the Hazelton), which was opened early in the summer, and which is fully modern and very comfortable. Also, the Triangle Motor Service provides better facilities for motorists in a new garage and service station, which is conveniently located in the centre of the town. The provincial police have provided a new building giving office accommodation, living quarters for the resident constable and also jail quarters, all of which are thoroughly up to date. Other building activities have been carried on and others are projected for the future, which will make Hazelton one of the most attractive towns in the district.

Awaiting Highway

The citizens of Hazelton are anxiously awaiting further developments in the Alaska Highway project, which will mean a great deal to the district. The town of Hazelton is the natural starting point for the new highway, and immediately north of the town is the fertile Klappan Valley, which only needs better road facilities to make it the best farming and ranching section in the district. The road is already constructed thirty miles north of Hazelton, and is excellent during the summer months and only needs a good surfacing to make it an excellent highway during the whole year. The Alaska highway will mean the opening up of hundreds of square miles of fertile country, the probable discovery and development of large bodies of ore, with the result that Hazelton will become the fastest growing town in British Columbia.

Condition of Roadway Not Bad At All

With reference to an item published last Saturday in the Waterfront Whiffs regarding the condition of the roadway from Cow Bay to the government wharf, W. K. Gwyer, district engineer for the provincial department of public works, stated yesterday afternoon that he had made an inspection of the road and found it to be in better shape than it had ever been.

Mr. Gwyer can only attribute the complaint to some one who had not yet gotten over his New Year celebration and had wandered' either out into the ocean or up on a hillside.

Bridge and Whist Events Resumed By Royal Purple Lodge

Following an interruption for the holiday season, fortnightly bridge and whist tournaments were resumed last night by the Ladies of the Royal Purple. Judging from the size of the crowd in attendance, these events should be as popular after Yuletide as they were before. Mrs. Martin Miller won first prize in bridge last night while M. L. Clark was low. In whist, Peter Wingham was high and Capt. Mulligan, low. After cards, dancing was enjoyed with music by C. P. Balagano's orchestra. Delicious refreshments were served.

Mrs. W. E. Williscroft was convenor of last night's affair with Mrs. G. E. Phillipson and Mrs. G. Clonnie assisting.

Norwegian Tenor In Current Film

Local Friends Interested to See and Hear Erik Bye In Picture

Erik Bye, Norwegian tenor, who visited Prince Rupert two or three years ago and gave solos in connection with the exhibition of a Norwegian scenic display at the old Westholme Theatre, appears in an operatic role in the delightful musical picture "Monte Carlo," starring Jeanette Macdonald and Jack Buchanan, which is the current attraction at the Capitol Theatre. Mr. Bye, who became well acquainted while here, is readily recognizable and it is interesting to see and hear him. It is not the first picture he has been seen in here. He took part in Paul Whiteman's film, "The King of Jazz," which was here last week.

In Prince Rupert

January 13, 1911

Prince Rupert voted yesterday in its second civic election. Both the majority candidates, Ald. F. H. Mobley and William Manson, M. P., expected to win but the latter did. Keen excitement prevailed. Mobley decried the machine methods of the Manson supporters at his final campaign meeting.

Indications are that the present cold snap will continue for a while. In the city the mercury is hovering consistently around zero while in the interior the temperature is thirty below and lower.

At a public meeting on behalf of William Manson, M.P.P., O. H. Nelson, the chairman, refused A. J. Prudhomme, aldermanic candidate a hearing until after all other speakers had been heard.

TIMELY SUGGESTION

Dick: Did Phyllis give you something appropriate for your birthday?
Jerry: A Gruen radium dial wrist watch—so I'd know when to go home!

BURNS NIGHT IN EAST END

Memory of Celebrated Scottish Bard Was Celebrated Last Evening With Pictures, Readings and Songs.

The memory of Robert Burns, Scottish bard, whose birthday will soon be celebrated, was observed last evening at an entertainment in Rupert East United Church. There was an interesting and enjoyable program, one of the features of which was the exhibition by Rev. C. E. Motte, with suitable remarks, of sixty lantern slides appropriate to the life and works of Burns. These slides were obtained from the University of Alberta.

To a program of readings, recitations and songs from Burns' works contributors were: Mrs. J. James Waugh, Miss Betty Eastman, Jes. McGlashan, Alex Clapperton, John Campbell and A. A. Connon. Mrs. James Black was accompanist for the evening. There was a fair attendance.

An interesting article on the future possibilities of the town of Pouce Coupe, in the British Columbia Peace River country, appeared in the Vancouver Province recently from the pen of Ray C. Endicott.
