WHAT DOES IT MEAN?

The provincal constituency of South Wellington has turned Liberal after a long period during which it returned nothing but Conservative members. The majority covery. was a small one but the turnover is big.

Liberals will be seeing this a hopeful sign for a change of government there when the next election arrives. Conservatives will likely explain it away.

The tendency in Canada seems to be for the by-elections to go with the government rather than against it. On that account the news which arrived from Guelph yesterday was rather disconcerting to Conservative supporters.

What many local people have been wondering is when the war between China and Japan is likely to start. At present all Japan is doing is occupying the country and killing those who try to dispute her right.

MANCHURIAN OCCUPATION

The chief argument of those who back Japan in her attitude in Manchuria is that Manchuria is not China, although for many years Manchurians ruled China. The war lord of the province has an army which has tried to the time of writing. It has surely R. E. Hopkins of Anyox passed stop the occupation of the country but has failed. He is said to be trying to draw Japan on toward the Soviet erable loss on farms and in gardens couver whence he will proceed to sphere of influence with an idea of bringing Russia into in the destruction of tender Montreal where on Novmber 28 ha the fray but has not so far succeeded.

Undoubtedly Manchuria should be taken in hand by some country but whether Japan is the best to handle her does not seem apparent. At any rate Japn has built the railways for the country and no attempt has been made to pay for them. Now she claims she has a right to protect day evening of Mrs. Gertrude De- ved from there on the Prince John them and her citizens who are living there.

Much attention was drawn to the matter in Britain so through the newspapers with the result that when the the misfortune to contract pneunext order is given the British Columbia timber will be given a trial.

This is only part of the fight for Canadian recognition cided to get behind the Canadian which was carried out by the previous government and is Legion in an effort to raise a \$1000 being continued by this. It shows how difficult it is to Christmas Cheer fund to be dischange the channels of trade whether it is between cities persed between Hazelton and House or countries. With so many opinions about bran, it is well to know the facts. Here are the results of laboratory tests with bran:

Bran is a good source of Vitamin B. This vitamin helps tone up the intestines and keep them regular. Bran also supplies "bulk" which further aids intestinal action. The "bulk" in bran is much like the "bulk" you eat in lettuce or other leafy vegetables.

This "bulk" absorbs moisture-like a soft sponge -and gently cleanses the intestines of wastes. Bran also brings the body needed iron for the blood.

A pleasant, safe bran cereal is Kellogg's ALL-BRAN. Millions of people have used it with satisfactory results over a period of ten years.

Two tablespoonfuls daily of this delicious ready-toeat cereal are usually sufficient to prevent and relieve both temporary and recurring constipation. If you suffer from intestinal trouble not re-

lieved this way, consult your doctor. Kellogg's ALL-BRAN has a wonderful nut-sweet flavor. Enjoy with milk or cream, or use in cooking. Sold by grocers. Made by Kellogg in Lendon, Ontario.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature ap-

pended for publication. Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.
