Terrace Board of Trade, After Long Debate, Endorses Alaska Highway But With Reservations

TERRACE, April 17:—A resolution received from the Burns Lake Board of Trade urging the provincial government to start construction of the B. C.-Alaska highway at once, but not at the expense of any major highway project in the province already undertaken by the public works department, was the centre round which a lengthy discussion took place at the meeting of the Terrace Board of Trade on Tuesday.

In reply to Mr. Hepburn it was pointed out that a private corporation had offered to build the road in return for concessions and that the concessions were chiefly the two cents on gasoline and the right to establish roadhouses along the highway.

Mr. Nash strongly favored supporting the Burns Lake resolution but thought American money was not really needed to build our roads.

Mr. Hepburn thought the door should not be closed against any offer of assistance from America which was going to help in developing B.C.

Mr. Nash: "Well, whatever concessions are made to American interests we must be absolutely certain of the freedom of our Canadian road."

Mr. Burnett: "If we are not in a position to build the road ourselves, we cannot expect America to do it without concessions, and if we refuse them, we will get no road at all."

Mr. Robinson pointed out that after the concessions proposed had paid the cost of the road the whole cost of maintenance would then devolve on Canada.

Mr. McNichol, U.S., roundly condemned the whole scheme. The road would, he said, cost about \$24,000,000 to build and afterwards we would

have to repair it three times a year, and we should never be able to keep it in repair.

A vote was taken on a motion to support the Burns Lake resolution but this was declared lost.

Mr. Nash, however, moved and Mr. Hepburn seconded, a further resolution pledging the board to endorse the resolution so long as Canadian interests were safeguarded. This was agreed to.

Repairs to Queen Charlotte Wharf Are Being Asked

QUEEN CHARLOTTE CITY, April 20:—A meeting of the Queen Charlotte Board of Trade was held last week. After routine business the board took up the damage done to the boat slip mooring by the recent storm. The sum of \$75 was asked by wire from J. P. Forde, district engineer, Victoria to repair damage.

The meeting endorsed the fair wage scale of the wages for work on the wharf lately repaired here, on which trouble arose as no wage scale was posted on the job.

W. A. King of the Canadian National electrical department arrived in the city from the interior on yesterday afternoon's train.

ROWNTREE'S

QUARTERLY MEET HELD

Much Business Transacted by Terrace Body—Secretary Submits Report

TERRACE, April 20—There was a good gathering in the Legion's Hall Terrace on Tuesday night on the occasion of the quarterly meeting of the Board of Trade. Mr. J. K. Gordon presided and in opening the meeting expressed regret at the absence of Henry Halliwell, the secretary, for the first time during the years he had served on the board.

N. Sherwood was elected secretary pro tem and read the minutes of the last quarterly meeting which were adopted on the motion of Fred Nash, seconded by H. M. Willson.

Letters from the secretary to the C.P.R. and to the Hon. R. W. Bruhn were approved.

A motion introduced by F. Nash and seconded by H. M. Willson, called upon the Dominion Government to institute a system of unemployment insurance throughout the Dominion forthwith.

A resolution in favor of the establishment of national health insurance was deferred for consideration at a later meeting.

Discussion took place on public works and Mr. Hepburn said that Mr. Cotton had expressed himself as very sympathetic towards the needs of this district.

On motion of Mr. Burnett it was decided to send a letter of thanks to J. C. Gilbert for his help in drawing attention to the attractions of the district.

F. Nash moved and W. A. Kirkpatrick seconded a resolution asking Dr. Mandy to approve an appropriation for making a trail to the Hunter group of claims near Kalum Lake.

The secretary presented the following quarterly report:

February

The past quarter has been one in which a good deal of work has been undertaken and useful results achieved.

At the annual meeting Mr. Nash raised the question of a "buy-at-home" campaign and the whole question, including a consideration of local prices, was referred to a new committee, the economic committee, set up specially to deal with such questions.

Efforts to secure a reduction in the rate for transportation of automobiles between Prince Rupert and Terrace, although pressed through to Winnipeg, were unavailing.

A petition from Roswood regarding the road on the east side of the lake was supported.

Recommendations from Stewart Board of Trade with reference to proposed alterations in mining laws were referred to the mining committee, which has not yet reported.

A resolution from Burns Lake Board of Trade regarding the B. C. Alaska highway has been considered, but was referred to this meeting.

Burns night was celebrated under the auspices of this board and was a great success, \$52.40 being realized.

Another function was the benefit dance sponsored by the board for the DeKergommeaux family after the fire in which they lost everything, and by this means over \$100 was raised.

Application was made for the allocation of at least \$5,000 for the Skeena riding, and pressure was exerted to get the erection of the Kalum bridge started.

March

A large amount of business was raised at the March meeting.

A notice to farmers regarding the securing of men for employment was referred to the agricultural committee, but so far no report has been received.

A series of lectures was arranged for and held under this board's auspices at which Dr. Mandy lectured and demonstrated to miners and prospectors. These lectures were unexpectedly popular.

An endeavor to acquire the provision of a government bath-house at Lakebe Hot Springs has been unavailing.

Strong efforts have been put forward to prevent the closing of U.S. station agency and it seems as if these efforts have borne fruit.

A meeting of the economic committee was held with the merchants

Tea and Sale at Terrace Success

Affair Held Saturday by Ladies' Guild of United Church

TERRACE, April 20:—A very pleasant and successful function was held in the United Church, Terrace on Saturday afternoon when a fancy work bazaar and home cooking sale was attended by a large number of friends. The church and tables were very prettily decorated in mauve and yellow and presented a very pleasing effect.

Mrs. G. Beveridge, as president of the Ladies' Guild, was in charge and was splendidly supported by the ladies of the various committees.

The fancy work stall was in the capable hands of Mrs. W. A. Kirkpatrick with Mrs. Soucie and Mrs. Finter assisting.

Mrs. W. L. Anderson presided over the home cooking being assisted by Mrs. Moore and Mrs. Thomas, while the tea tables were attended by Mrs. Swann, Mrs. Kenney and Mrs. McKenney. Mrs. T. E. Brooks acted as treasurer and Mrs. T. Brooks and Mrs. McDonald poured.

During the afternoon an acceptable and varied program was rendered. A pretty toy tea party scene was enacted by Dorothy Riley and Sheila McKenney. Rev. H. T. Allen sang a solo and a pretty piece was rendered by Misses Sophia McLaren, Evelyn Thomas and Bertha Moore, while Eileen Beveridge gave an interesting reading.

PRESBYTERIAN YOUNG PEOPLE

Organization Former at Meeting After Church Last Night—E. Smith, President

After evening service last night, a Young People's Society was formed in connection with First Presbyterian Church. Meetings will be held every second Tuesday evening, starting next week. A provisional slate of officers has been elected. These will serve until June, when the organization will suspend activities for the summer, resuming in September.

The officers are as follows: President, E. J. Smith. Vice-president, Miss Maizie Macdonald.

Secretary, Miss Polema Cameron. Treasurer, S. J. Hunter.

Religious Committee—Miss Edith Kergin, Miss Jean Ritchie, Tom Marshall and Garfield McKinley.

Educational—Miss Eileen Osborne, Miss Sheila Stuart, Miss Margaret Williscroft and Jack Redpath. Missionary—Robert Moxley, Jack McRae, William Bremner and Miss Nettie McLeod.

Social—Miss Olive Munro, Miss Margaret Smith, Miss Rose Rice and Dwight Rice.

Is Seeking Speakership

Representative Fred A. Brittain of Illinois Nominates Himself

WASHINGTON, April 20—Representative Fred A. Brittain, Republican from Illinois, announces that he will be a candidate for the Speakership of the House of Representatives in succession to the late Nicholas Longworth.

of the town and a lengthy discussion took place with the object of trying to find some means of promoting more purchasing of goods in Terrace, but nothing resulted.

A number of resolutions were brought forward by the economic committee, these including one asking for the establishment of a market for the sale of farm produce.

The question of unemployment insurance was referred to the quarterly meeting.

A resolution from the civic affairs committee suggesting a community picnic was approved, as was one to promote a father and son clean up day.

A resolution to introduce a park development scheme was referred to the commissioners.

The installation of a fire alarm system and fire fighting equipment was strongly recommended by the board of trade and was put into force by the commissioners.

April

The April meeting was also a busy one. The annual return was ordered to be sent to Ottawa and an application from the Canadian Government Information Bureau at Detroit for information regarding the proposed purchase of land in the Lakelse Valley was referred to Mr. Ken-

ney. A list of members of the board was sent to the Canadian Forestry Association who will probably communicate with each member before long.

Thanks was again received from the American consul in Prince Rupert for services rendered.

An effort to help the Fall Fair Association was approved and is to be reported on tonight.

Various resolutions of the economic committee and the civic affairs committee were referred to this quarterly meeting.

The secretary announced his intention to resign and several members spoke in appreciation of his work. He promised to continue in office during April, but intimated that he would not withdraw his resignation.

It was agreed to give a welcome to the Hon. R. W. Bruhn, on his forthcoming visit to the district.

A suggestion put forward by Mr. Kenney and adopted was one to communicate with the C. P. R. urging that the claims of the railway route from the Peace River district via the headwaters of the Naas and Kalum Valley.

Generally the work of the board has proceeded with smoothness during the quarter.

Thinking Men invest in Life Insurance

IN years gone by, man sought independence for himself and family by diligently saving part of his earnings and gradually accumulating a "nest-egg" to provide for old age, death or other eventuality.

Today, thinking men reverse the procedure. They first create an estate, with the aid of Life Insurance, and then pay for it out of income. These men regard Life Insurance as the most important of all investments—one which immediately guarantees protection for loved ones, education for the children and independence in later years.

What other investment offers so much? By owning Life Insurance you can have the confidence that comes from having certain definite resources behind you—reserve funds that you can depend on for future needs. And Life Insurance encourages systematized saving—the foundation of success.

Think what your financial position will be ten or twenty years from now. Then ask a Life Insurance Representative to assist you in planning independence for yourself and family.

A MILLION FAT FOLKS CAN'T BE WRONG

And that's a low estimate of the number taking Kruschen to keep down superfluous fat.

When you take vitalizing Kruschen Salts for a few days that old indolent arm-chair feeling deserts you—it doesn't matter how fat you are—the urge for activity has got you—and you're stepping lively.

And best of all you like this activity—you walk a couple of miles and enjoy it—you thought you'd never dance again, but you find you're getting as spry as ever—the old tingling, active feeling reaches even your feet.

Kruschen is a combination of the six salts Nature has already put into your body to keep you alive—if it were not for these vital salts you could not live.

One bottle is enough to prove to you that Kruschen will make you feel younger—spryer—more energetic—you'll enjoy life—every minute of it.

A half teaspoonful in a glass of hot water every morning is all you need to keep healthy—keep your stomach, liver, bowels and kidneys in splendid condition—free your system from harmful toxins and acids.

REPORT IN VICTORIA

Olof Hanson M. P. Asks Ottawa About Peace River Outlet

OTTAWA, April 20.—The report of the engineers who carried out a survey of the Peace River route with a view to the possible establishment of a railway line from the Peace River to the Pacific Coast, is at present being studied by the British Columbia government. Hon. R. J. Manion, minister of railways, told the House of Commons. Replying to Olof Hanson (Liberal, Skeena), the minister said the report would be tabled as soon as he was able to do so.

FALL FAIR HAS FIGHT

Efforts Being Made to Keep Terrace Institution From Going Under

TERRACE, April 20 — Terrace Board of Trade made a strong plea for assistance to the local Fall Fair Association at the quarterly meeting held on Tuesday.

An appeal for financial assistance had been referred from the council of the board to the agriculture committee and the chairman, J. K. Gordon, strongly urged that all possible help should be given the Association. In fact all societies in the town should help to keep up the standard, which would require at least \$500.

N. Sherwood, as convener of the agriculture committee stated that the committee had not met to consider the matter, but he urged that as many subscribers as possible to the fair should be secured. W. Robinson pointed out that both in 1929 and 1930 Terrace Fair had ranked first in the whole north country and last year it was fourth in the whole province. He thought between \$602 and \$650 would be required to meet necessary expenses. He felt sure there was some active opposition to the fair in the district but it had been proved over and over again that where a fall fair exhibition was dropped the quality of produce immediately deteriorated.

It was agreed to use the influence of the Board to assist the Fall Fair Board.

Expected Craft Will Soon be Turned Over By Dry Dock to Government

The new snagboat Essington, built at the local dry dock for the Dominion government, is now practically completed and will, it is expected, be turned over within the next few days. The new craft replaces the old Bobolink which for many years has served on the Naas and Skeena Rivers.

Spokane Refuses Traction Gift

SPOKANE, April 20.—In the midst of a dispute over service, the Washington Water Power Co., which has Spokane's street car franchise, offered the system to the city as a gift. The city council turned down the offer when it was found that a \$2,000,000 bonded indebtedness was involved.

In connection with the forthcoming commencement of the tourist trade, the current issue of Canadian National Railways magazine contains a number of items and pictures of local interest. One of the pictures shows a view of the steamer Prince Henry moored at the company's dock here.

BASEBALL OPENING

First Game of Season to Be Played in Seattle Tomorrow

SEATTLE, April 20.—The Pacific Coast Baseball League opens as far as Seattle is concerned tomorrow when the Seattle Indians, back from their first tour south on which they did not fare so well, have their first stand of the year at home with the Missions as their opponents. Governor Roland H. Hartley will throw the opening ball. "Dutch" Reuther will be in the box.

The home town has great hopes that its Indians will make a good showing this year in the league under the leadership of Ernie Johnson, the team's manager and second baseman. The team, which finished in fifth place last year, has been considerably strengthened since 1930 but still consists 80% of players under 25 years old.

Hollywood will play here after the Missions series.

DAMAGE BY BIG STORM

Skidegate Also Suffered in Gale Which Swept Queen Charlotte Islands Recently

SKIDEGATE, April 20.—Skidegate also sustained considerable damage in the big storm which recently swept the Queen Charlotte Islands. The tempest struck hardest at midnight and with it came the highest tide ever known on the islands. The citizens of Queen Charlotte City, who had their year's wood piled up on the shore above the usual high water mark, had it all washed away. J. Munro woke up the next morning to find his place virtually buried in wood that had been washed away from other places.

TUNE IN FRIDAY NIGHT ON "CANADA ON PARADE"

One-Millionth Ford Made in Canada

A NEW era in the progress of Canadian industry was hailed when the one-millionth Ford car to be made in Canada came off the final assembly line at the East Windsor plant of the Ford Motor Company of Canada, Limited.

The occasion was climaxed when Mr. Wallace R. Campbell, president, punched the serial number "CA-1,000,000" into the engine block and then drove the car off the final assembly line. The event was witnessed by officials and veteran employees of the company. The car is now touring the eastern provinces where it is being viewed by thousands.

In a statement following the ceremony, Mr. Campbell emphasized the economic benefits which had accrued to Canada as a result of the growth of the Ford company. He pointed out that the company spent in Canada during the last ten years almost \$30,000,000.

United Pacific Now Established For Distribution

(Continued from Page One)

was loose and imperfect and at many points, 'all up in the air.' Now, that our efforts have resulted in the creation of a perfect machine for the handling of their output, I think there is little chance that they will fail to continue in their co-operation.

Dealers Not Affected

"The dealers now in the field will be in no wise disturbed by our organization," Mr. Berg continued. "The fish taken over by the United Pacific from the fishermen here in Ketchikan or elsewhere will remain in the hands of the United Pacific until it reaches the point of distribution, wherever that may be. There it will be sold to the established dealers in carload lots. We, the United Pacific, are not going into the retail, or even the wholesale fish business, but will simply supply the wholesale fish dealers with whatever fish their market requires. In other words, the New England or the San Juan or whatever companies may be engaged in the business, instead of maintaining a wide-spread buying organization to purchase the fish from the individual fishermen, will simply place their order with us as the representatives of those fishermen. This will, in the end, work to the definite advantage of all concerned. The eastern dealers are already convinced of this and have announced themselves in favor of our organization. On the West Coast the dealers are still a little antagonistic, but I feel sure they will change their attitude after they acquire a little clearer insight into the working of the new system. It is the only means of really stabilizing the market, and a stabilized market cannot fail to work to the advantage of every one concerned in it."

Method of Handling

It is the aim of the United Pacific to keep a steady stream of fresh fish feeding into the market, according to Mr. Berg. A stream sufficient to fully supply the needs of the market, without creating a surplus that would disturb the market condition. The eastern agents of the organization will be able to pretty closely estimate, from week to week, the demands of their markets and will place their shipping orders accordingly. Enough of the fish purchased here will be shipped to nicely fill these orders. Any surplus of fish above the current demand will be frozen and held in cold storage. The company will be the better able to do this through the co-operation of the vessel owners, who have agreed to keep the fleet strung out, as best they can, in a steady procession to and from the banks, instead of "bunching" their trips as has been the custom in the past.

By establishing their own offices for the handling of the fish, Mr. Berg states that the United Pacific will save the fishermen's company more than \$200,000, which would otherwise be paid out in commissions.

"We expect to be shipping from 20 to 30 carloads per week to the eastern markets," Mr. Berg said. "The market there is good only during the early part of the week, and fish should arrive not later than Thursday of any week to find a ready sale. It takes six days by train from Prince Rupert to New York, and four days from Rupert to Chicago. Fish shipped on the regular Monday train from Rupert would arrive in New York or Boston the following Sunday, in good time for the opening market on Monday. Similarly, a shipment from Rupert on Wednesday would reach Chicago on Sunday, but any later shipment is apt to land on a 'dead' market. Consequently, we plan to freeze most of the trips that reach Prince Rupert between any Wednesday and the following Monday. The fish received at Sitka and Juneau will also generally be frozen."

Method of Payment

"The method of payment is very simple," Mr. Berg declared. "Within a day or two we will announce an 'advance' figure which will be the amount which the company will advance to the fishermen on receipt of their fish. This set figure will hold good for the entire season. No matter how the market may go, the fisherman is assured of at least that much for his product. Once each year, after the frozen fish have been sold, the books of the company will be audited, and an average price for the fish sold during the year will be ascertained. The United Pacific will reserve two cents per pound to cover the expense of handling, shipping and distribution; a certain percentage will be set aside as a reserve fund for the organization, and

any balance remaining above the 'advance' figure will be distributed pro rata among the fishermen whose fish have been handled, each of them receiving a dividend in direct proportion to the amount of fish that he has turned in."

Handling Charges

Questioned as to the estimated cost of the handling and distribution of the halibut from this coast, Mr. Berg said that it had been quite definitely ascertained that the two cents per pound which the company is to reserve will be adequate to cover all expenses, including the salaries of managers and agents.

Canadian Owners Favor

G. W. Nickerson, secretary of the Canadian Halibut Vessel Owners' Association, made a trip to Seattle to confer with Mr. Kwapil and Mr. Berg. After coming to a definite understanding of the aims and operations of the company, Mr. Berg states that Mr. Nickerson declared that the Canadian vessel owners are with the United Pacific Fisheries 100 per cent.

John Nagle of Boston, is the Chicago representative of the company. He is a man of sound judgment and long experience in the fish business, and is head of the John Nagle Company, fish distributors of Boston. His connection with the United Pacific will be entirely apart from his connection with this company, however.

J. E. Berg of Ketchikan, will have charge of the Alaska operations of the company; Einar Olsen will be the United Pacific agent in Juneau. No permanent selections have as yet been made for the other agencies.

Frozen Fish Market

Queried regarding the state of the frozen fish market Berg said that he was told last week that the frozen halibut in the eastern market had been pretty well cleaned up; but that he was not in a position to know just what the state of the western market is. It is his opinion, however, that there is not a heavy holdover of frozen halibut anywhere.

President Kwapil, who remained in Seattle to complete a few minor details of the organization, is expected to arrive in Ketchikan the latter part of this week.

Mr. Berg, in his capacity of buyer for the Marlyn Fish Company, will continue to be in the market for mild-cure salmon, as in former years; but his activities in that field will not be merged in any way with his efforts in behalf of the United Pacific.

Mr. Berg states that all fish bought today will be received at the old advance of 10 and 7; but that he expects, after the arrival of Mr. Kwapil, to be able to announce the new advance figure. The newly perfected organization, he states, becomes effective on April 20.

Atonement Subject at Christian Science Church Yesterday

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Doctrine of Atonement."

Among the Bible texts included in the lesson-sermon was the following from Romans 5:11: "And not only so, but we also joy in God through our Lord Jesus Christ, by whom we have now received the atonement."

The lesson-sermon also included the reading of citations from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "If Truth is overcoming error in your daily walk and conversation, you can finally say, 'I have fought a good fight. I have kept the faith,' because you are a better man. This is having our part in the atonement with Truth and Love." (page 21).

An article on highway construction in this district, with particular reference to the Galloway Rapids' bridge, appears in the magazine, section of yesterday's Vancouver Province. There is a picture of the recently installed span of the Galloway Rapids bridge.
