BRITISH FINANCES

When the chancellor of the exchequer of a country declares that the financial position is critical, it may be taken for granted that what he says is correct. It also may be been given to this and other areas it empties into Athabasca Lake. taken for granted that the people of Britain cannot stand by the gifts of the churches east From Athabaska Lake the route much higher taxation than they have at present. All of which seems to indicate that the present administration i in that country cannot last long and that to inspire public given to the extent of \$450,000 by Two rapids, that must be portagconfidence a change will probably be made before long.

All of which brings us to the point of who won the war. Some pacificists declare that the losers always win in the long run and it would seem almost as if this may be true today. It is said that Germany and Austria and Turkey have made more progress since their defeat than any of the winners with the possible exception of Italy. But this is a huge question and one too large for discussion in a prairies, with the exception of cer- no more rapids are encountered for brief editorial article.

BILLMOR MILL TO OPEN

The announcement that the Billmor Mill is to open about by low prices. March 1 and that the owners think it a good time to cut lumber for their dock and to get it ready for shipping is one of the most encouraging items of news heard here recently. It is industries with a payroll that count in the building up of a district.

SCHOOL NEEDS

At the meeting of the school board last night the opinion was expressed that it would be little use asking for any large sum of money this year for school additions and in this the trustees were undoubtedly right. Prince Rupert people have not been backward in the past in voting money for schools and doubtless they will do so again when the need becomes so great that they are forced to do so. In the meantime it is desirable that as little money as possible be spent for such purposes. The people are not just now in the humor to vote money.

There are many things needed in the city. The school playgrounds need extending, especially at Booth School, districts, where a common suffering but it is doubtful if money can be secured for this purpose has welded the various communiat present. Should there be the necessity another winter to ties together to assist those in need. provide meals for the unemployed, the men might well be asked to do some work on that playground each day, suf- Gordon Bulger Sets ficient to cover the value of the meals. Under those conditions they might be given three meals instead of two and the children of the city would benefit as well as the men receiving the help. However, it is to be hoped such necessity will not arise.

THE AMENDE HONORABLE

The Government of British Columbia has publicly apologized to Norman Watt for having dismissed him from and expects to take his commercial office and has reinstated him. This was the only course open to them and it is satisfactory to know that it has been done.

Doubtless the minister of finance was badly advised locally by some member of his own party in Prince Rupert as well as an engineer-pilot, holdwho was not sufficiently conversant with the facts. He acted hastily and has already suffered part of the penalty for doing so. The only step now open to him, it would seem, ated his own "ham" station, 5CX, at would be for him to withdraw from the administration. If he does not, Premier Tolmie should insist that he do so.

These are days when no party in power can dare to ride roughshod over the people and their rights. The Tolmie Government has found this to be true and to the credit of the party it is noted that a number of leading Conservatives in Prince Rupert were just as keen in condemnation autumn and winter just to hand. of the dismissal of Mr. Watt as were the Liberals. They All finest quality and latest patmade their protests and helped to bring about the rein- terns. come in and see us today.

statement. We congratulate Norman Watt on having been exonerated and reinstated and we congratulate Premier Tolmie on having done the right thing in his case, even though great pressure had to be brought to bear to have the proper investigation made.

FIGHT BILL

Washington Wrestling and Boxing Measure Gets Its Third Reading

OLYMPIA, Feb. 12:-Without a murmur of protest and with but one slight amendment, the bill to govern boxing and wrestling in the state of Washington was given its second reading in the state legislature yesterday and will be given its third reading today, coming up for final passage next week. It is expected the measure will go through without opposition.

The bill authorizes six-round boxing bouts in the State of Washington and will bring both boxing and wrestling under a state commission.

RECORD SET UP

Ross Robinson Establishes New Time For One-Mile Skate

NEW YORK, Feb. 12:-Ross Robinson, veteran Canadian speed skater, set up a new record here yesterday for the one-mile ice sprint. He did the distance in two minutes and 37 seconds. The former record was two minutes, 38 3-5 seconds.

Crucial Hoop Series Starts

SEATTLE, Feb. 12:-University of Washington and Washington State College meet here tonight and tomorrow night in the deciding games of the northwest conference basketball series. Last week-end the Huskies eliminated Oregon State College here. The games will be played in the University of Washington in the University of Washington Athletic Pavilion.

The horses, all trotters, will compete on a prepared track on the ice of the Saskatchewan River. The races will of a school orchestra and a glee be a new feature of Dog Derby Week this year.

Bobsleigh teams representing the United States, Switzerland and Germany competed at Lake Placid this week in the first North American bobsleigh championship races over the Olympic bob run. The Lake Placid Club Sno Birds, in co-operation with the New York State Olympic Winter Games Commission, conducted the competition which was sanctioned by the Amateur Athletic Union and the International Bobsleigh and Tobogganing Federation. The races will serve to prepare the Americans for next year's Olympic tests.

Joseph Greer, who moved from here to Victoria last year, is reported to be doing well in the Capital where he has established a men's furnishings store. He was recently elected a director of the Victoria Gyro Club. He has also taken up golf and is a member of the Oak Bay Golf Club.

URGES NEW TECHNICAL BUILDING

John Kyle Recommends Relieving Present Stress by Providing for Manual Classes

John Kyle, superintendent of technical education under the Provincial department of education, last night in a brief address to the members of the school board suggested that as space was needed for class rooms in the city, a small building should be erected to house the manual training and domestic seience departments and the rooms in the Booth School now used for those purposes could then be used for class rooms. This new building would form the nucleus of a technical school.

Mr. Kyle reported very favorably on the work being done in the manual training and household cience departments in the city but said that, while the household science department for girls had two instructors, the manual department for boys had only one. This meant that the work had to be confined to woodworking. If an would have to be another instructor and another room.

That the federal government would renew the grant for technipected, Mr. Kyle said, and Princa Rupert could take advantage of

Bulkley Valley Coal To Be Included In

The hospital board agreed at its meeting last night to call for tenders for Bulkley Valley coal along with other varieties when coal tenders were next called. F. M. Dockrill, manager of the Bulkley Valley Coal Co., had a letter before the board guaranteeing that his coal was of higher grade than any other on the local market, especially for steaming purposes, and asking that it be included in the next call for tenders.

It was suggested that a trial shipment of this coal might be secured meantime.
