Premier MacDonald Enunciates His Government's Stand With Regard to India Federation

Administration's Attitude Is Based on Overwhelming Desire to Let Country Settle Own Affairs-Amnesty For Political Prisoners Rumored

LONDON, Jan. 19:-Premier J. Ramsay MacDonald, in a pronouncement today on British policy in India, told delegates to the Indian round-table conference that he accepted the idea of an all-Indian federation as the desire of the delegates. "It is a great achievement," he said, "both for India and Great Britain. We are grateful to you." The MIndians, the Premier said, must

SPOKANE'S EXAMPLE

As mentioned before, the present plan of handing out meal tickets to men who are out of work is anything but a good system. Only the fact that the city is unable to get any help from doing it any other way compels the city council to do what it does.

From a recent number of a Spokane newspaper it is seen that in that city the men work three and a half hours a day for their meals and a night's lodging. If the provincial and federal regulations were such that the municipalities could do the same as Spokane it would be much better for the men and the city would receive some return for the money expended. The men who receive help would feel better and there would be general satisfaction instead of the general protests that are heard today.

If the two hundred odd men who are today getting city interior. relief were put to work on clearing up the parks, there would by spring be enough clearing done to make the nucleous of a playground which would be very valuable to the vincial police, left on today's train been on a holiday trip to Vancoucity. PECK'S CONSTITUENCY

The Liberals have decided not to contest the constituency vacated by Colonel Peck recently. It is to be hoped that no candidate will take the field, as was done in Prince George. of Biological Board of Canada

Returning last week from Ottawa where he attended the annual meetada, John Dybhavn, Pacific Coast director of the board, states that he proposed experimental vessel for the Prince Rupert Fisheries Experimental Station will not be built at present owing to existing economic conditions.

At the request of the minister of fisheries, Mr. Dybhavn reports, the Biological Board is undertaking an investigation into the nutrition values of canned, frozen and fresh fish in order that the information thus obtained may be available for the Canadian public. The idea is to bring about a greater appreciation of fish as a food.

CANDIDATE

Will No Doubt Receive Republican Nomination Again

WASHINGTON, Jan. 19:- Despite certain defections of late in his party, the renomination of President Herbert Hoover as Republican presidential candidate in 1932 is deemed a certainty. The fact is that the party has no other suitable man available. Moreover, the party could hardly repudiate its own president and his policies.

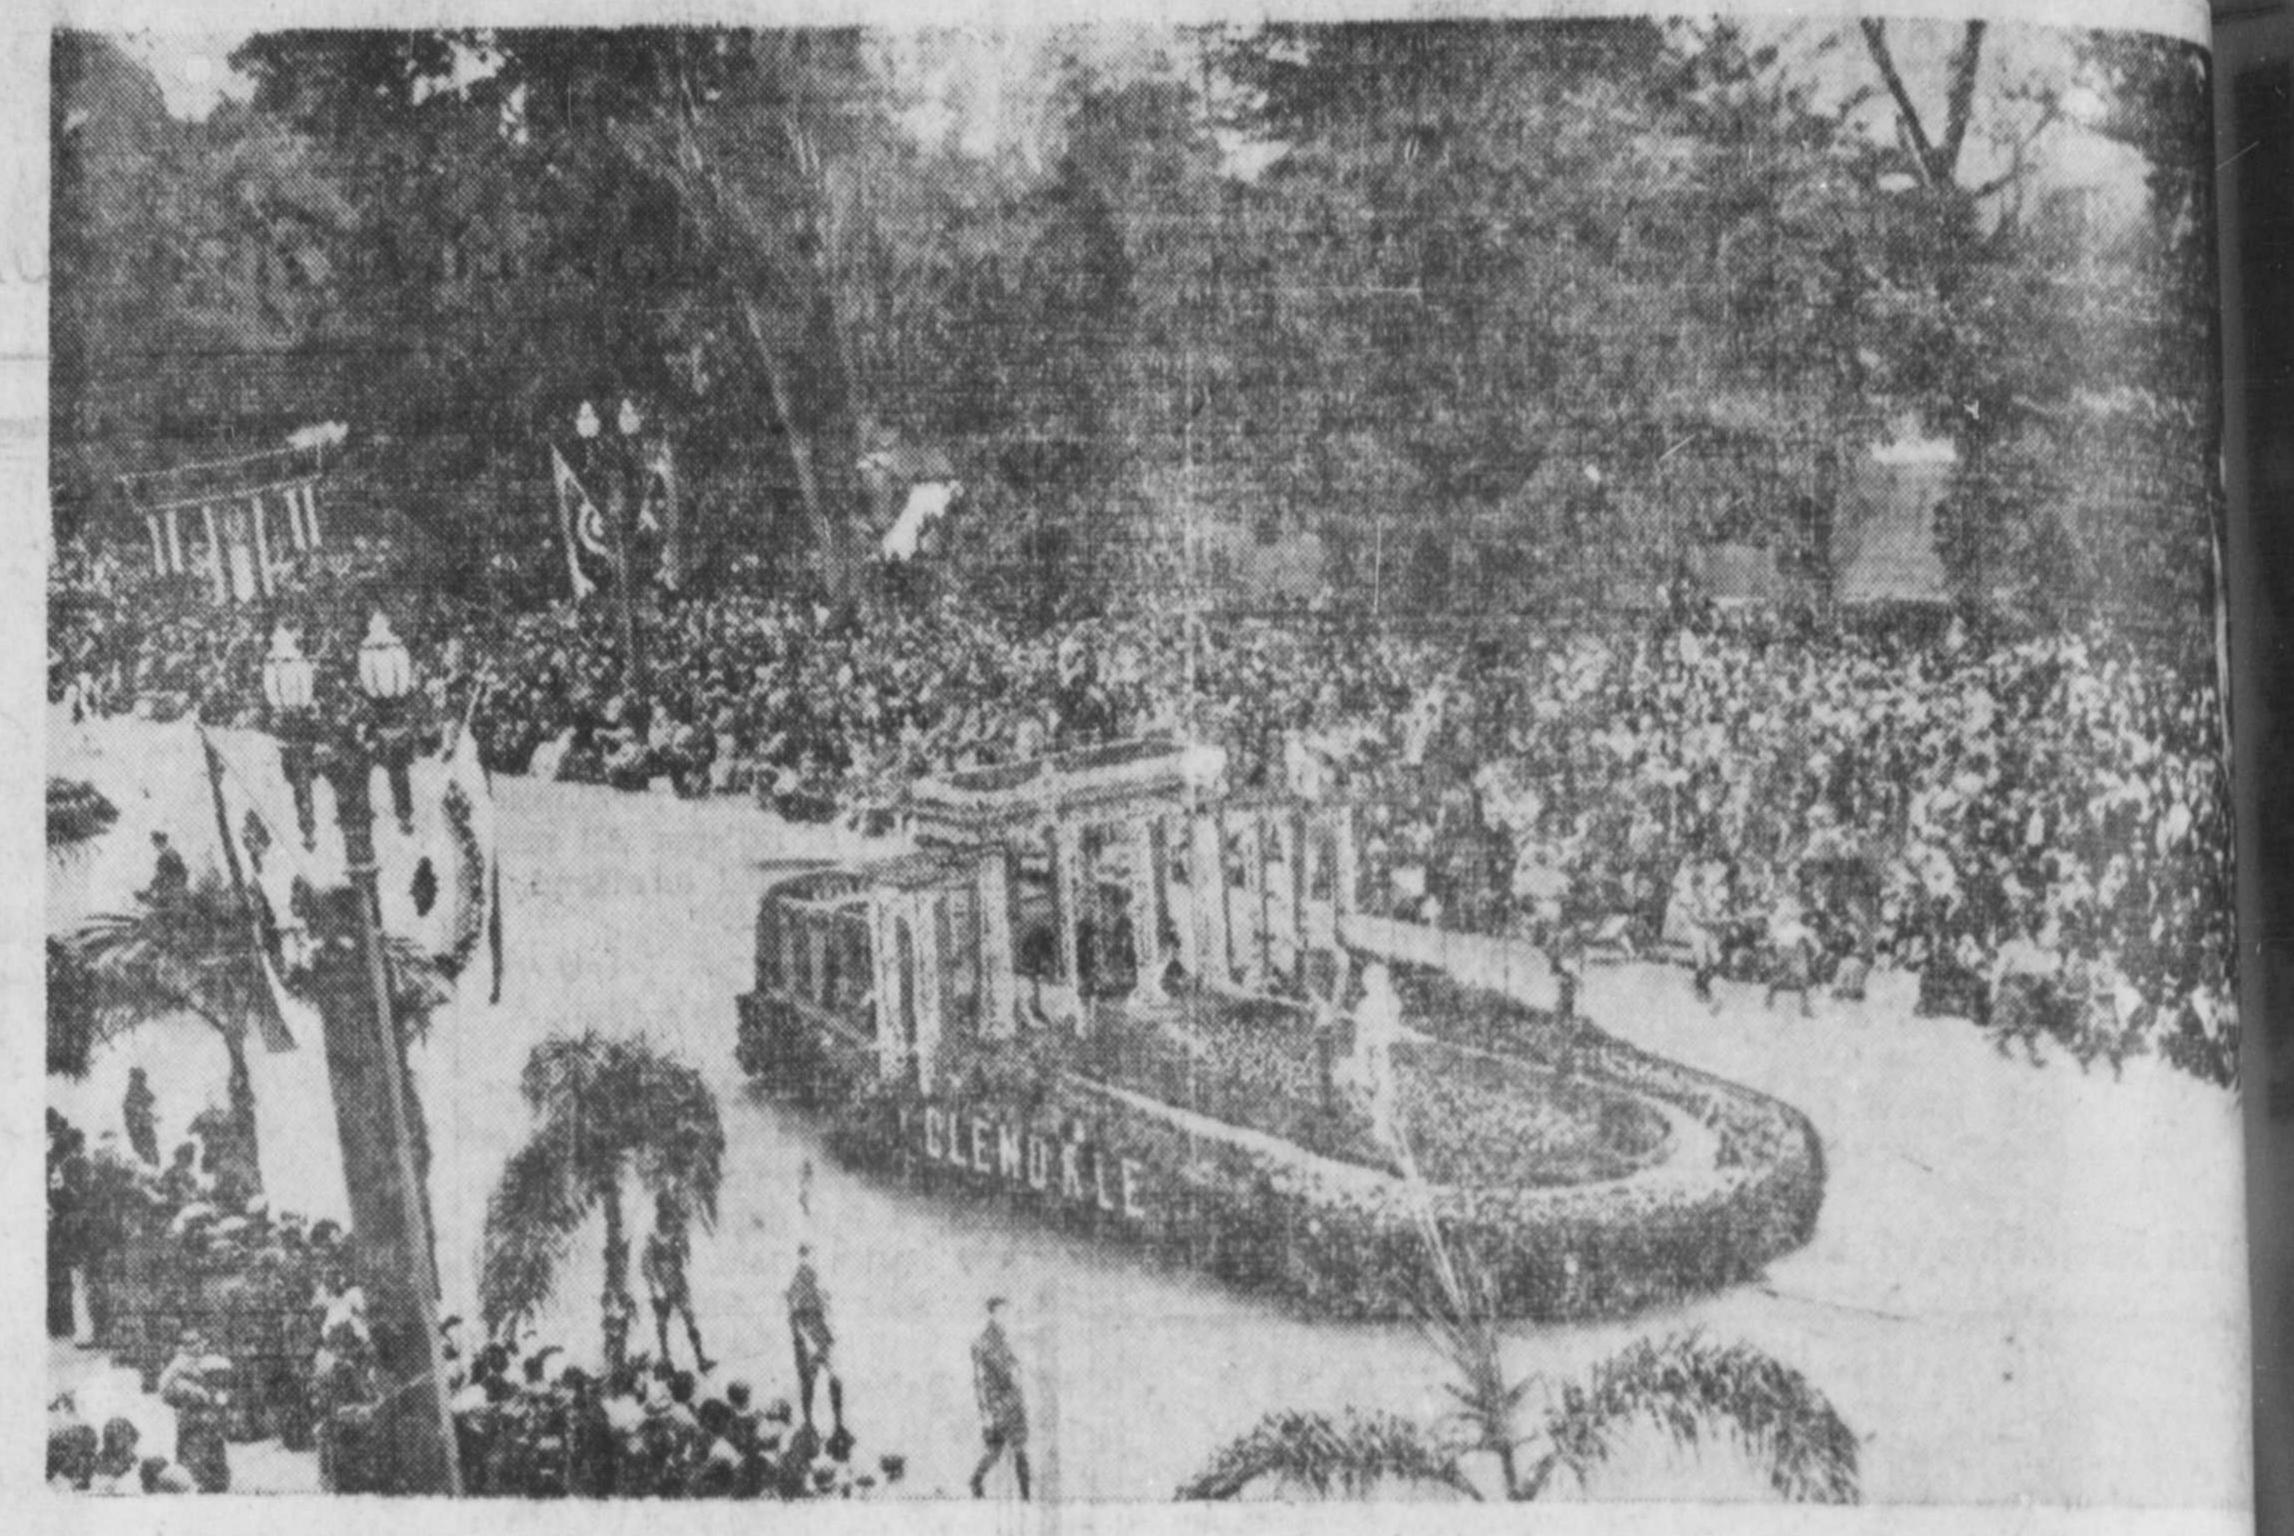

It will be 18 months before the election yet, in all the acts of the administration, can be perceived the move to renominate President Hoover. Whether he is re-elected, may depend to a large extent upon whether or not there is recovery from the present depression.

Conversely to the endeavors of the Republicans, the efforts of the Democrats are to discredit and weaken President Hoover as much as possible. If they can succeed in doing this, they know they can win.

Meantime, there is no effective party control in Congress owing to the narrow and treacherous majorities of the parties. It is government by compromise and the present Congress is proving one of the most futile in the history of the United States.

Life Subject For

Societies Yesterday

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Life." Among the Bible texts included in

the lesson-sermon was the following from I Peter 3:10: "For he that will love life, and see good days, let him refrain his tongue from evil, and his lips that they speak no

The lesson-sermon also included the reading of citations from the Christian Science textbook: "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "We apprehend Life in divine Science only as we live above corporeal sense and correct it. Our proportionate admission of the claims of good or of evil determines the harmony of our existence-our health, our longevity, and our Christianity.' (page 167).

Ski-Equipped Plane

Was Greatly Thrilled With Her Experience in Moscow

MOSCOW, Jan. 19:-Miss Amy Johnson, 23-year-old British aviatrix, who recently wrecked her plane in Poland while attempting a |. flight from England to Peiping, tried out a Soviet two-seater equipped with skis while here and was greatly thrilled.

"Skis are the best in the world," she said. "They are easier than wheels, and when you land it does not seem that you are on earth." When Miss Johnson's plane

racked up in Poland she left it for repairs and came on to Moscow for a visit.

Church Meeting

TERRACE, Jan. 19:-At the annual meeting of the Anglican Church held in the rectory at Terrace there was a full attendance, Rev. E. A. McCarthy presided.

Reports showed the church to be in a flourishing condition, that of the W. A. revealing that the ladies had realized an income of between 3400 and \$500 during the year.

G. Dover was re-elected people's warden and A. Attree vicar's warden. The sidesmen chosen were W. Donald, A. Carr, H. Halliwell, R. Cory, J. Sparkes, C. Little, E. Durant, N. Sherwood, F. Nash and G. Gregory.

It was decided to adopt the duplex envelope system for organizing the income during the coming year.
