JUST ORDINARY ECONOMICS

In Toronto Saturday Night last week under the initials P. M. R. is a brief well-reasoned article on the present economic conditions indicating that there will be an immediate improvement in conditions and telling how it is to come about. The article says:

"Business is certainly pretty flat right now, but it's going to get better. And it's going to get better before you and I are much older. True, you've heard this said a hundred times in the last two years, but it's truer today than it ever was. Business is going to improve and the disbelief of a million pessimists will not alter the fact. Improvement must come if for no other reason than that the great majority of people the world over are today in increasingly urgent need of new commodities of all kinds to replace those worn out, together with the fact that industrial production will have to be speeded up to meet this demand.

"Every business recovery on record has begun in just this manner, and there is no reason why the one just ahead should be any exception to the rule. People can do without new clothes, shoes, automobile tires and rugs for only so long; when the need is sufficiently acute those who have the price go out and buy them. And when they buy they will find that their money goes further than it has for many years; that goods of high quality can today be acquired for the price of an inferior article a couple of years ago; that, in fact, it's thoroughly good business to buy now. And when their friends see their bargains they will be stimulated to buy too.

MOVE AT NORMAL SPEED

"So the wheels of industry will be set turning at a normal speed once again. It sounds simple; much too simple for those whose attention is fixed on international credits, European finances, currency problems and the like, but the fact is that it is simple, at least as regards the immediate problem, which is merely the working out of our old acquaintance the law of supply and demand. Over a considerable period we and the rest of the world produced more of everything than could be consumed under our existing economic and social scheme of things, and so surplus goods accumulated, production had to slow down and workers were thrown out of employment.

"While the course of events has made us all familiar with this process, many of us have not stopped to consider its obvious limitations and that not only does the number of unemployed, distressingly large as it is, represent but a very minor proportion of the total workers, but that the great increase in the purchasing power of money more than offsets, on the average, the loss of income caused by wage and dividend cuts. Actually the great majority of workers today have a substantially greater individual purchasing power than they had in 1928 or 1929, and sooner or later they will use it.

"Judging by the larger retail sales now being reported for commodities such as clothing and shoes, it is likely to be sooner. And when that time comes, we shall probably be astonished to discover how rapidly all these profound problems of world credit and business relationships roll away. In every previous depression the world has chafed under difficulties that seemed at the time to be no less serious than do ours today, and in every case has forgotten them with surprising ease as soon as the upturn in trade got well under way."

USE THE Safeguarded MILK

PRODUCED IN CANADA

No wonder Carnation-made dishes are so delicious. The best of milk from selected herds, safeguarded at the source by clean housing of the cows and clean handling of the milk, is evaporated to double richness for Carnation Milk and hermetically sealed in its containers to protect it until it reaches you. You'll find it absolutely dependable, extremely convenient and surprisingly economical.

READY FOR BALL TEAM

Advance Agent Arrived Yesterday and Players Today
M. J. K. Adams, advance agent, arrived from Hazelton Sunday to arrange necessary quarters for the Cubs baseball team and, if possible, to look over the bright spots in the home towners. The Cubs arrived in their usual cloud of dust on the noon train. The following names comprise the team, Art Ingram, Bob Teoparten, Al Benson, Jack Sargent, Bruce McIntyre, Ward Marshall, W. Sargent, Jimmie Cox, Bert Spooner and last but not least the mascot, little Bobbie Allan.

The residents of Hazelton accompanying the team are Mr. and Mrs. R. S. Sargent and two daughters, Mr. and Mrs. C. H. Winch. Misses Thelma and Mabel Cox, who will be guests of Mrs. Wyman, formerly of Hazelton, Mr. and Mrs. Mat Myers, Bud Dawson and others.
There will be no doubt of the arrival of the team in the minds of the residents of Prince Rupert, as they will certainly make themselves known, having been subject to the bright lights on many previous occasions. Needless to say, some of the popular music as rendered by them will be heard for the first time in their original manner.

SWIM GALA ON SUNDAY

Was Successful Outing Despite Some Adverse Circumstances
WEATHER FINE

Fine Hundred Persons Crossed to Salt Lake to Attend Event
Although cool, weather was sufficiently clear and fine yesterday to prove quite auspicious for the postponed swimming gala of the Prince Rupert Swimming Club. About five hundred persons crossed to the popular Salt Lake resort to witness the various events in which keen competition was evinced. Taken on the whole, the day's proceedings were quite as successful as could be expected under circumstances of postponement, short notice, etc.

Baseball Game Won By Married Elks Yesterday

Largest Crowd of Season Witnesses Benedicts Romp Home With Decisive Victory

Fred Stephens and his supposedly broken down old married mates, went out yesterday afternoon in the annual Elks married versus single baseball game, and showed their poor, misguided lonely brothers just exactly how the game should be played. The final score was 9-4 in favor of the Benedicts, and after the dust of battle had cleared away, there was absolutely no doubt in the minds of the fans as to which was the better team!

Miss Vivian Hickey, Elks candidate for Beatequest honors, tossed the first ball. It didn't go very close to the plate, but then Stephens, who went in to pitch for the married men, didn't come much better, for he walked nine men in four innings. Benny Wendle then went in and his outshoots and inshoots had the single players dizzy trying to see them.

Rol Barnes was an efficient announcer, only making one error during the entire afternoon. Brick Skinner pitched the first four innings for the Single boys but was hit hard and plenty, while his team lacked the pep of their opponents and contributed many miscues to puzzle those ambitious patrons who were endeavoring to keep a score of the game. Bill Lambie finally went in as relief hurler and displayed his ability in no uncertain manner.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism. Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication. Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

SCHOOLS RE-OPEN

Educational Work Resumes After Summer Vacation—Few New Teachers

Opening a week earlier than heretofore owing to new governmental regulations, city schools will resume their sessions tomorrow morning after the two months' summer vacation. It is expected there will be a total of about 1000 pupils enrolled at public and high schools, this figure being about 100 less than at the re-opening of school a year ago.

There will be very few changes in the teachers' personnel at the re-opening of school. Miss Edith Lucas, from Victoria, joins the high school staff as teacher of French, succeeding Charles Fordyce-Clark. Miss Dimock also comes to the high school staff as Latin and English teacher in place of Miss Grace Lawrence. At Seal Cove School, Miss Margaret Palmer, formerly assistant in succession to Miss Olive McArthur. Miss H. O. Wright, who was in charge of the Fulton Street overflow room last year, will be Miss Palmer's assistant at Seal Cove. There will actually be one teacher less than last year with a vacancy at Borden Street School not being filled.

Three of the teachers will not be here on time for the re-opening of school—Harry Gilliland of the high school staff, who will be a week late on account of having recently undergone an operation at St. Joseph's Hospital in Victoria, and Misses Jessie Rothwell and Caroline Mitchell of Booth Memorial School staff who are delayed in returning for about two weeks on account of having made a trip to China.

Thin and White— Couldn't Do Work

Mrs. Smart's Faith in Dr. Williams' Pink Pills (tonic) Was What Saved Her.

Feels Young
As 20
Years Ago.

"I became thin and white," writes Mrs. Jessie Smart, Newmarket, Ontario, "and could not do my work."
"Then I remembered what my mother used to give me, and I sent my husband out for a box of Dr. Williams' Pink Pills. He laughed at me, but he would not laugh now! . . . I kept right on with Dr. Williams' Pink Pills, and now I work hard and feel as young as I did 20 years ago."
The iron and other elements in Dr. Williams' Pink Pills increase the amount of haemoglobin or oxygen-carrying agent in the blood—enabling the blood to carry more oxygen to the tissues. The increased oxygen re-vitalizes your body just as a draft of air kindles a fire.
The old standby, Dr. Williams' Pink Pills is in every drugstore, ready to help you. 50 cents a package. 136

'Christ Jesus' Science Subject Sunday Service

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was 'Christ Jesus.'

Among the Bible texts included in the lesson-sermon was the following from Matthew 5:44: "But I say unto you, Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you."

The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "The spiritual idea of God, as presented by Jesus, was scoured in person, and its principle was rejected. That man was accounted a criminal who could prove God's divine power by healing the sick, casting out evils, spiritualizing materialistic beliefs, and raising the dead—those dead in trespasses and sins, satisfied with the flesh, resting on the basis of matter, blind to the possibilities of spirit and its correlative truth."

Miss Edythe Crompt returned at the end of the week after spending a fortnight holidaying at Ocean Falls.

Man in the Moon

Jake says he thinks we should send all the beauty candidates to Los Angeles so as to take all the prizes there. He says if they made him judge, he'd decide they were all equal and make the Exhibition Board put up the dough for the lot.

Miss Ima Dodo, who it seems was carefully considered as a candidate and rejected, says if she were judge he'd ditch the whole bunch and go herself.

A bank is defined as a great institution that lends umbrellas when the weather is fine but wants them all back the moment the clouds appear on the horizon.
