Unemployed Press For Government Action To Relieve The Situation

Five or Six Hundred Attend Mass Meeting and Committee Will Meet City Council This Evening

With an estimated attendance of between 500 and 600 of whom fully one-third could not gain admission, the local unemployed got together in the Longshoremens' Hall last night to discuss the present situation, and to consider ways and means of bringing their plight to the notice of the provincial and federal governments.

Charles Chapman called the meeting to order and, after a few remarks as to the necessity of the meeting and in regard to the considerable feeling about the action of the government in granting a subsistence allowance of 40c a day to transients while local unemployed residents of the city, equally in need, were completely ignored, he asked that a chairman and committee be appointed.

SUBSTITUTIONS TO BE INVESTIGATED

LOS ANGELES, July 16:—Judge Blake ordered a searching investigation by the district attorney yesterday into reports that it has been a common practice for Los Angeles bootleggers to hire substitutes to appear in court when they are prosecuted and serve their jail terms. Youths as young as eighteen years and unemployed have been used, it is stated, and have made good money at it.

EDITORIAL

WORK IS NEEDED

The delay on the part of the Federal Government in announcing its policy for dealing with the unemployment is aggravating what is already a serious situation. The men want work and only the Federal Government can give it to them.

So far, the men have behaved in an exemplary manner and are to be commended for their restraint at a time when they find themselves placed in a difficult position. However, they must be heard and their voice must carry to the authorities at Ottawa.

We are a long way from the seat of government and newspapers have not stressed the unemployment situation hitherto with the possible result that Premier Bennett may not realize how serious it is. Now the time for plain speaking has arrived and there must be action. We hope the federal authorities will realize this and make an immediate announcement of what they intend to do.

OTTAWA, July 16:—The Dominion government is considering whether it will introduce legislation within a few days compelling the attendance of witnesses for examination or whether it will deal by way of a royal commission with a "serious situation" which arose in a committee, Premier Bennett stated in the House yesterday afternoon.

The Premier's reference was apparently to the Beauharnois committee of inquiry before which in the morning Senator W. L. McDougald, through counsel, had declined to testify.

There was considerable discussion in which a number of the members took part. All were agreed that the government should act at once in the present crisis.

HOMES AND GARDENS

At the risk of tiring readers, we must refer once more to the improvement made throughout the city in the matter of homes and gardens. In most unexpected places may be seen excellent attempts at original gardening and especially on the rocky lots that at one time were discarded as useless for building purposes. These lots offer a great opportunity for picturesque effects and are considered by many as far superior in opportunity to the flat lots that many people choose.

In Victoria there are rocks almost everywhere and years ago they were looked upon as something standing in the way of the city's progress. Then came a few people who showed how wonderful gardens could be made among them and how they could be made to add to the beauty of the place. The result was that rock lots were in great demand and would often fetch higher prices than level lots.

Prince Rupert is built on hills and valleys. It is very picturesque and if the residents follow out their present plan of beautifying the gardens, the city will steadily improve in appearance.

While it is a great advantage to have a number of spacious gardens and beautiful homes, it is the pretty little cottages, the tiny ornamental gardens and the small green lawns that make the real beauty of the place. To the workingmen who take a pride in their gardens as well as in their work lies the credit for making the city what it is. In a few years Prince Rupert should earn the title of "Prince Rupert the Beautiful."

GET MEN EMPLOYED

The way to deal with the present situation is to get the men employed. The way to get them employed is for the federal government to take the lead and initiate public works of a suitable nature.

The government is already taking steps to deal with the farming situation on the prairies. As a former resident of Calgary, Premier Bennett is familiar with conditions in the drought area and can sympathize with the people in their need. He is not as familiar with conditions in this province and cannot so easily enter into our problems. We must therefore draw it to his attention the more forcibly and insist that something be done. What is the use of being a part of the confederacy if the federal government does not help in time of need.

UNEMPLOYED PRESS FOR GOVERNMENT ACTION TO RELIEVE THE SITUATION

(Continued from page one)

urged the necessity for the government opening up more construction camps on the new highway. At the present rate of progress each man will have to wait five or six months between shifts for his share of work on the road.

Just as the meeting was adjourned it was noticed that Alderman Macdonald and Alderman Rudderham were outside. They were immediately invited in. Both aldermen addressed the meeting and explained that the mayor and city council were fully in sympathy with the objects of the meeting and the necessities of the situation, and that they were doing everything possible to persuade the governments at Ottawa and Victoria to institute steps to relieve the situation. The city itself had done more than its fair share in the past and in fact was at present in considerable financial difficulties owing to the continued drain on their resources. It was now however, agreed that the matter was of such a national character that it was beyond the power of municipalities to cope with and was for the government to deal with.

Notice to Transient Unemployed
The committee of the unemployed in session after last night's meeting decided that it was in the interests of all concerned to publish a runner to the report of the mass meeting to the effect that there is no use in unemployed men coming to Prince Rupert in the hope of obtaining either employment or relief. The city has gone its full limit and absolutely no relief is being given out to single men.

Slush Fund in Connection With New Mayor Alleged — Works Department Officials Asked To Resign

SEATTLE, July 16.—The City Hall is the centre of seething rumors following the fast-moving events which have just culminated in the election of Robert Harlin to succeed the deposed Mayor Frank Edwards. Even the new mayor is not clear and some of the aldermen are calling for an investigation into an alleged slush fund in connection with Harlin's elevation.

Mayor Harlin called yesterday for the immediate resignation of all officials of the public works department of the city. Dan A. Boyle and William B. Severin, superintendents of streets and water respectively, immediately resigned.

Appointment of Eber W. Babkir, who served in France and who is prominent in America Legion affairs, as private secretary to the new mayor was announced yesterday.

Special Committee to Deal With Australian Lumber Situation Under Chamber

In view of the clause in the new Australian treaty providing for a five dollar rebate in the duty on lumber from Canada going to that country the chamber of commerce executive yesterday afternoon decided to appoint a special committee to look after the interests of Prince Rupert in connection therewith.

The question was introduced by G. W. Nickerson, who spoke of the steamship subsidy which had been granted several years ago for the Australian trade but which had not produced the results expected as it was found unprofitable to operate under it. Possibly this subsidy might be renewed and, if it were, Prince Rupert should try to be included in its scope.

Vice-president Pillsbury will appoint the special committee.

Take The DAILY NEWS with you When Going on Summer Holidays

Nearly everybody likes to keep in touch with Prince Rupert when away for their holidays. The best way to do this is to order the paper sent during that time. If it is only for two weeks, the News is a welcome visitor and the mails during the summer months are carried almost daily to most points.

Recently a number of Scandinavians have given up the local fishing for the summer and gone on an extended visit to their former homes. In almost every case they order the Daily News sent them while they are away. Several subscribed for a year, others for shorter periods.

No time is too short for us to look after our patrons.

BOOSTING HIGHWAY

S. C. Thomson Reminds Vancouver Province of Local Road

The following letter from S. C. Thomson of this city appeared recently in the Vancouver Province: "I note in your editorial of Thursday last your very timely suggestions re the matter of unemployment in which you mentioned certain specific works that the government could undertake and I regret to think that you could have overlooked the matter of the highway from Prince Rupert to the interior of Central British Columbia.

I have always credited The Vancouver Daily Province with being broadminded in its policies, but this to me (and others in the north) looks like another instance of the selfishness of the south and Vancouver in particular, and I sincerely hope you will be good enough to let us have a little publicity when the occasion occurs, as it has done through the Premier having stated that this highway was one of the projects to be included in connection with the government's programme to relieve unemployment.

"I might state for your information that the people of Prince Rupert have been practically marooned on Kaien Island for over twenty years, and surely we are entitled to some roadwork in this section of the province.

"Trusting that you will correct your omission in not mentioning the Prince Rupert Highway.

DRACULA THRILLER

Mysterious Picture Held Audience Spellbound at Capitol Theatre Last Night

"Dracula," as a book, is a well known spine thriller. In the talking picture, it is given life and is, if anything, even more sensational. It opened at the Capitol Theatre last night and, for an hour and a half, held the audience spellbound with its hair-raising episodes. On the whole, it is a picture wholly different than anything that has been seen. It commands keen and rapt interest of all who may see it.

Bela Lugosi, a new face on the screen, plays the extremely difficult role of the human vampire and, in so doing, leaves nothing to be desired. In the important supporting roles are David Manners and Helen Chandler.

Twenty Years Ago

In Prince Rupert

July 16, 1911

Gold was found yesterday afternoon in the blue clay while Thos-Sproatt was engaged in excavating his lots on Ninth Avenue. It is believed to have been merely a freak occurrence although considerable interest was taken in it.

Solomon and Najeeb Mussallem, around their store on Fifth Avenue East, have turned what was a short time ago sour muskeg into a bright, green vegetable and flower garden.

After a three-weeks' visit to Salvation Army posts along the railway line beyond Hazelton, Capt. William Kerr, of the local citadel has returned to the city.

CASEY GETS CONTRACT TO HAUL GRAVEL

Beats Out Four Competitors In Moving Sand and Gravel For Exhibition Board

Last night the fair board let the contract for delivering and spreading approximately 125 yards of sand, gravel and other material for filling and levelling at the exhibition grounds in preparation for the annual fair this year, to the George Casey Company.

The material is being supplied by the city from their gravel pits.

The tenders received from local transfer companies follow:

George Casey Co. Ltd., \$91.
Cameron Transfer Co., \$92.50.
B. and R. Transfer, \$104.75.
C. C. Ketchum, \$110.
Mike Gurvich, \$165.

The work is to be done under the superintendence of W. H. Tobey, railway superintendent.

Evelyn Sheasgreen Married to Arthur Goddard in South

The marriage of Miss Evelyn Teresa Sheasgreen of Vancouver and Ernest Arthur Goddard of New Hazelton took place at St. Paul in Vancouver this morning. The bride formerly taught school at New Hazelton and the groom, whose home is there, is also a well known district teacher.

Prior to her marriage, many social affairs have been held in Vancouver in honor of the bride. She is a sister of Mrs. E. W. Mareau-tette, formerly of Prince Rupert.

Fined For Failing To Extinguish Fire

SMITHERS, July 16:—For failing to do his utmost to extinguish a fire on his property, Kurte Unger of Francois Lake was fined \$25 and costs by Stipendiary Magistrate R. W. McGowan of Burns Lake. He pleaded guilty to the charge.
