NEW LINK TO 'FALLS'

Paper Town Now Has Long Distance Telephone Communication With Rest of World

The telephone system at Ocean Falls, which has heretofore been operated by the Pacific Mills, was taken over this week by the Northwest Telephone Co., a subsidiary of the B. C. Telephone Co., and, at the same time, Ocean Falls was given its first long distance telephone connection with the outside world. A combination of radio and physical telephone connections now makes a long distance service from Ocean Falls to Vancouver possible. Radio covers the 210 mile gap from Ocean Falls to Campbell River where connection is made to Vancouver with long distance lines of the B. C. Telephone Co.

Conversations have already been held between Ocean Falls and points as far east as Calgary and as far south as San Francisco. The existence of the radio link is said to make no difference to the user. He talks in the ordinary way and transmission is just as good. The Northwest Telephone Co. is to instal new and improved equipment for the local service at Ocean Falls.

Mrs. F. W. Allen was the soloist. There was a choral communion with Mrs. E. J. Smith presiding at the organ.

SPEAKER RESENTED

Pattullo Withdraws Legislation in Legislature Rather Than Have It Vetoes

VICTORIA, April 6:—Members of the Legislature showed their feeling of protest against the recent slaughter of legislation on purely technical grounds.

T. D. Pattullo, opposition leader, went to the length of withdrawing a motion, rather than subject it to a ruling which would commit the House to a still more drastic interpretation of the rules. The amendment in question, as moved by A. M. Manson, K.C., Liberal of Omineca, would have placed the administration of mothers' pensions back in the hands of an independent board, in place of the departmental official proposed by the government.

Mr. Speaker said he thought Mr. Manson's amendment was out of order as it affected the appointment of an official, although crown revenues were not affected.

"Pretty soon we won't be able to do anything," Mr. Pattullo protested. The work of the House, he added, was being seriously circumscribed by such interpretations of the rules. Rather than allow Mr. Speaker to rule out the Manson amendment and commit the House to a similar procedure in future, Mr. Pattullo asked his colleague to withdraw his proposal, which was done.

Oil Development in Central Interior Predicted—Grotto Group Near Usk to Be Inspected—Columario Is Active

That portion of the province of British Columbia tributary to the Pacific Great Eastern Railway is said to be on the eve of a great oil development. For months past there has been considerable activity in the locating of lands in the vicinity of Quesnel, hundreds of locations having been made under the provisions of the Coal and Petroleum Act. In the vicinity of Australian Ranch, 14 miles south of Quesnel, a well has been started which, although down only 900 feet on an estimated depth of 2,000 feet, has already given an oil bearing formation extends all the way from the vicinity of Quesnel in the south to centre of the Peace River section in the north and that, in the opinion of experts, it can be counted upon to bring in real wells and not small flows of the 100 and 200-barrel type. That oil exists in the Peace River section is generally admitted.

As an aftermath of assessment work carried out on the Grandview group of mineral claims on Milk Creek, there was a claim in County Court at Smithers recently of Anthony McDonald of Smithers against R. E. Wolverton of Vancouver. The Grandview claims had been taken under an option by a syndicate represented by Wolverton and, McDonald was engaged to perform necessary assessment work for which he submitted a bill for \$717.50. After hearing the evidence Judge Young awarded McDonald the full amount of his claim plus costs of the action.

The Grotto group at Hardscrabble on the Skeena River, owned by Alger and Bell of Usk, will undergo some development work during the coming summer from all indications at the present time. This group was bonded by an Edmonton syndicate which is looking for an engineer from England to arrive this month to make an examination. The property is well located and the values are around \$9 and \$10 a ton in gold.

Capt. John Willman of Usk, superintendent of the Columario mining property, was a visitor to Smithers recently. He reported a good deal of work being done on the Columario on two veins of ore.

Work on the Lucky Lake group at Usk was resumed this week by Mr. Glover of Seattle who will be foreman. Last year the company did a lot of assessment work and this year will go after development on a somewhat larger scale.

Fortune never smiles on a man because he is a joke.

LETTER BOX

SUGGESTS NEW PROVINCE

Editor, Daily News:—

There has been considerable agitation in your paper and throughout the north generally against the treatment this part of the province is receiving. What is to be done? No one is taking action and delay is costly.

The north and south of B. C. might well be pictured as two trees. The former a young tree—the latter an old and well established tree. These trees are growing side by side. Members of the Legislative Assembly resemble the roots. Both these trees receive their food from the same source—Victoria. Naturally Southern B. C. (having five members to our one) receives most nourishment, and nourishment which by right should go to Northern B. C.

What is the solution? Equal representation in Victoria would even things up, but then every half a dozen men would have an "M.L.A." in the north. That, then is impossible.

The natural course is to form an independent province of our own. It is useless agitating to the south. They are, after all, looking for what benefits themselves and, being more powerful, get it. They are not going to throw off a choice plum like the Peace River Outlet if they can possibly help it. Naturally not! We wouldn't either if we were in their place.

The day that this outlet will be realized is not far off if political promises are kept. Therefore, as I said before, delay is costly.

Also, as this is the census year, it would be the appropriate time for such action so that federal M.P.'s may be allotted.

I would like to see some organized support investigate this most urgent matter which will really "make or break" the north.

Thanking you, I am
 Terrace, B.C. FRED WELLS

BLACK HAWKS EVEN UP PUCK SERIES

Canadiens Suffered 2 to 1 Loss
Last Night at Hands of Chicago;
Scene Shifts For Remaining Games

CHICAGO, April 6:—The Stanley Cup play-offs were evened up here last night when Chicago Black Hawks defeated Montreal Canadiens by a score of two to one. It was a gruelling overtime contest which thrilled an enormous Sunday night crowd. Incidentally, it was the last big hockey game of the season in Chicago, since the remainder of the Stanley Cup finals will be played in Montreal following the first two here. The next game will be tomorrow night on the home ice of the Canadiens.

Despite last night's reverse, the Canadiens still rule strong favorites to retain the Stanley Cup. The best three out of five games decides.

PREMIER'S
LAW CLASS

Dalhousie's Class of 1893 Which
Included Rt. Hon. R. B. Bennett
Has Interesting Record

HALIFAX, N.S., April 6:—Personalities of the Dalhousie University law class of 1893 were reunited in a common expression in the office of the Prime Minister of Canada on January 27. On that day the Right Honourable R. B. Bennett was presented with a leather-bound script, conveying the recognition and regard of 19 classmates who donned the law hood on the day the present premier was graduated. The presentation was made privately by a member of the class now living in Ottawa.

The idea originated with Halifax members of the class, who in the course of investigation preliminary to the sending out of a draft letter to their classmates, discovered that of the original 21 members of that class, 20 were living, in various parts of Canada and United States. The whereabouts of the twenty-first '93 man could not be obtained, nor was it known whether he is still living.

Members of the class in Halifax constituted a committee and recommended to fellow members that some sort of recognition be accorded the class's most distinguished graduate, with the result that a draft of the simple letter which later found its way to the prime minister between gold-embossed leather covers with signatures appended, was sent to each member of the class for approval. The copy journeyed as far afield as Vancouver and Hollywood and returned bearing the felicitations represented in their signatures, of those who studied law with Mr. Bennett.

Reduced photostat copies of the letter have been sent to members of the class, and to the Dalhousie law lecturers of that day: Hon. Mr. Justice Russell, late of the Supreme Court of Nova Scotia; Hon. Mr. Justice E. L. Newcombe, of the Supreme Court of Canada, and Alfred E. Sullivan, K.C., of Halifax. Copies have also been presented to the University, the Archives and the Law School.

Members of the class in law of 1893 were: The Rt. Hon. Richard B. Bennett, J. B. Kenney K.C., Halifax; Major H. B. Stairs, D.S.O., Halifax; Colonel W. E. Thompson, V.D., Halifax; J. A. Fulton K.C., Guysboro, N.S.; G. A. R. Rowlings, K.C., Sydney; S. E. March, C.E., Bridgewater, N.S.; His Honor Judge J. A. Grierson, Weymouth, N.S.; Hon. L. P. D. Tilley, K.C., Saint John; H. F. Puddington, Saint John; W. B. McCoy, Montreal; Col. A. H. Anderson, Ottawa; C. B. Burns, Ottawa; H. W. Brown, Ottawa; R. Blackwood Graham, K.C., Winnipeg; H. H. Munro, Stettler, Alta.; His Honor Judge F. M. Woodworth, Vancouver; J. A. Payzant, Hollywood, Cal.; John Montgomery, residence unknown.

SPORT CHAT

With the team championship now decided, the senior individual billiard championship matches are now commencing. There are eight entrants and play will start tonight. The preliminary games will be to 500 points and the final to 1000 points in a two 500-point blocks. The draw is as follows, the first mentioned to play tonight: William Mitchell vs. Frank Ziemann.
 G. P. Tinker vs. C. P. Balagno.
 Don Brown vs. Alex Murray.
 James Andrews vs. A. A. Easson.

Prince Rupert sport fans are gratified that the Terrace High School basketball teams—girls and boys—have come here for a two-night series with local High School teams tonight and Tuesday. Terrace High School has been putting up a fine brand of hoop game in its home town this past winter and is apparently a speedy aggregation. Not much has been seen of the local basketballers this winter and the opportunity to see them in action will be appreciated. The series should be well patronized.

The three-club Pacific Coast Hockey League is going to send at last a full team to the major National League before next winter. It is stated. Of course, the whole draft will not go in its entirety to one National League club although it might do worse. So far as can be learned, Vancouver Lions, Seattle Eskimos and Portland Buckaroos will each send two men east—Percy Jackson and Frank Jerwa, from the Lions; Gordon Savage and Johnny Boubregs, from the Eskimos, and Red Conn and Joe McGoldrick, from the Bucks. A right smart sextet all by themselves!

"More Important . . .
are the Family Councils"

"More important than all the deliberations of the industry are the family councils on the performance of cars, the atmosphere of service stations and the courtesy of salesmen. Millions of daughters, mothers, sons and fathers are writing the future of the automotive business around the fireside—with no one there to plead the case of the manufacturer, car or dealer. And the verdicts are final." Motor Magazine.

The verdict, with relation to cars priced between \$1290 and \$2900, is clear-cut and conclusive: . . . More than fifty out of every one hundred buyers of eights in this field choose the Straight Eight by McLaughlin-Buick, while the remainder divide their purchases among 14 other makes. And eighty-eight per cent. of McLaughlin-Buick owners—almost nine out of ten—return to buy McLaughlin-Buicks again and again.

Owing to their popularity the present models of 1931 McLaughlin-Buick Straight Eights will be continued throughout the coming summer and fall.

The Salvation Army has an appeal for clothing from out of town—particularly for shoes and enough clothes to carry on until ties are sold. A mother writes to ask for shoes for a four-year old boy and a three-year old girl, sizes 8 and 8; for herself, number 6, and for her husband, number 11. She says she can make over clothes very well. She would not have asked if there had been any other way of getting them. The Army has numerous demands for clothing but this is the most outstanding just now.

Pacific Milk Attracts Notice

A mother writes that Pacific Milk came strikingly to the attention of herself and family when it was first given to the baby. She slept, without waking, throughout the night, a thing unusual for her, and this so caught the fancy of the family that Pacific Milk supplanted the milk then used in cooking and at the table.

WHY FAT MEN STAY FAT

"The trouble with me, and I guess this applies to 99 out of every 100 men who are putting on weight, I didn't have the energy or 'pep' to keep it off. Lost all interest in any healthy activity and just lazed around accumulating the old pounds, until I got that Kruschen feeling."

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves. This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fill you with vigor and tireless energy.

As a result, instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

IMMEDIATE SALES IMPRESSIONS ARE CREATED BY DAILY NEWSPAPERS

Buying Follows Close Upon Reading

Present day business conditions demand keen discrimination in the selection of advertising media. All other considerations are subordinated to that of---RESULTS.

Immediate sales are the goal. Every dollar must do a real selling job.

To-day, more than ever, manufacturers and retailers insist on direct cash returns from their advertising investment.

The daily newspaper stands out as the medium which best meets cash-register requirements.

Daily newspaper advertising spurs to immediate action.

It influences men and women to buy *now* the products advertised.

Response from daily newspaper advertising is assured. Business executives know that daily newspaper advertising moves to action vast groups of people quickly.

Manufacturers and retailers are analyzing their advertising investment more thoroughly to-day than ever before. They are insistent that their advertising must *sell*—and they know that the daily newspaper is the one sure medium for that purpose.

Could You fill Your Husband's Shoes?

TOMORROW — could you "carry on" in your husband's shoes? Could you earn his income, in addition to caring for your home and children?

Probably not—and it is just for contingencies like this that Life Insurance was created. No one can accurately foretell the future, but everyone can provide for it. The earnings of the breadwinner need not suddenly stop—they can be continued with the aid of Life Insurance.

Perhaps you have discouraged your husband from providing the protection necessary for you and your children. If so, you would be wise to reflect on this fact:

"If every wife knew what every widow knows, every man would have adequate Life Insurance."

In literally millions of cases, Life Insurance has proved "The Love That Never Dies". It is the means by which every man can make certain that his family will be cared for—always.

Today is not a day too soon to talk over the future with your husband—or, better still, call in a Life Insurance Representative to discuss your mutual problem.

Prince Charles Is Improved As Result of Work

Most important of a number of improvements made on the Canadian National steamer Prince Charles during its stay at the local dry dock during the past winter was the filling in of a formerly open deck on both sides of the main deck amidships. This is a distinct improvement both in the way of comfort for passengers and general appearance of the ship.

The Prince Charles sailed last night for Vancouver, inaugurating the company's twice-a-week service between here and Vancouver for the spring.

Twenty Years Ago In Prince Rupert

April 6, 1911
Premier Walter Scott of Saskatchewan and J. M. Young, vice-president of the Regina Board of Trade, were visitors in Prince Rupert yesterday. They were shown around the city by Fred Dawson, Fred Stork, A. J. Morris, G. R. Naden, A. M. Manson and Dr. H. E. Tremayne before sailing last night on the Prince Rupert for Vancouver.

The strike of grading laborers seems to be about over although there are still murmurings. All men necessary are now available at \$3 per day. A. O. Morse, secretary of the Prince Rupert Industrial Association, has been warned that the police will not allow interference with any work that is going on.

Prince Rupert Club beat Wanderers Club 750 to 573 in billiards last night. For the Wanderers' Club A. E. Oakley, S. P. McMordie and Joseph Howe were the players and for the Prince Rupert Club Magistrate Alfred Caras, J. H. McMullin and Frank Mobley.
