COASTGUARD KILLS LIQUOR SKIPPER

LOCAL ROAD TO BE BUILT AS RAPIDLY AS FUNDS PERMIT

Pilot House of Canadian Ship, Laden With Rum, Shattered By One Pound Shell Saturday Eve

United States Coast Patrollers State Schooner Was Inside Limit and Failed to Heed Several Warning Shots to Stop

NEW YORK, Jan. 26.—A one-pound shell from a coastguard cutter's gun shattered the pilot house of the liquor-laden Canadian schooner Josephine Saturday night, killing her captain, William P. Cluett, of Lunenburg, Nova Scotia. The schooner, her \$300,000 liquor cargo and crew of fifteen men were seized. The coastguard also took charge of a garbage scow and a tug which were alongside the Canadian vessel.

The firing and subsequent seizures took place within the 12-mile limit, the coastguard reported—10 miles off the beach at Sandy Hook. The Josephine, it is stated, failed to heed several warning shots to stop. WASHINGTON, Jan. 26.—Hume Wrong, Canadian charge d'affaires here, today made a request to the United States government for further information on the coastguard's action in firing on the Josephine K. on Saturday. OTTAWA, Jan. 26.—Following a report which will be made by the Canadian legation at Washington, on the sinking of the Josephine K., action to be taken by the Canadian government will, no doubt, depend very much upon clarification of how far the vessel was from the shore when challenged and fired upon.

Minister Public Works Pledges Himself to Aid Rupert Road Project

Will Be Built From Here East and From Terrace West—Tells of Unemployment and Other Problems

Hon. R. W. Bruhn, minister of public works, gave a happy address Saturday at an informal dinner tendered him by the Council of the Chamber of Commerce. President B. J. Mellish was in the chair and with him at the head of the table were Mayor Orme, who introduced the visitors, Olof Hanson M.P., Jas. Thompson and P. Philip, deputy minister of public works, who also spoke.

The mayor briefly introduced the speakers and said they would be here several days.

Mr. Bruhn expressed pleasure at being present, the first visit since being appointed to his present position. He also brought the good wishes of Premier Tolmie. He said he was here to get first hand information in regard to public works. He would be staying several days. It was his intention to get around the province as much as possible and secure first hand information.

The minister said he had not sought the position which he occupied. He had had a wide experience as a logger, section hand, contractor and in other work and he was willing to give his services. As a foreign born citizen he wished to repay to the country some of the tremendous debt he owed. He felt it should be the objective of every man to serve his province.

Mr. Bruhn said he realized that Prince Rupert was different from any other part of the province. It had great prospects as the closest port to the Orient and a splendid climate. When the railway was built there was little thought of a highway. As a matter of fact it was only a few years ago that the advent of the motor car made highways a necessity. The people here knew better than he how work had progressed on the bridge across Galloway Rapids and also on the road beyond that. It was the intention to push the work to the Skeena as rapidly as possible and from Terrace this way. The government realized the situation and the work would be carried out as fast as financial conditions would permit. Important work was being asked in other parts of the province and much was being done. Their wish was to carry out all of these works as fast as finances would allow. However they could not place too heavy a mortgage on the future.

The visitor said this was only his second visit to Prince Rupert and before he left he would be in a bet—(Continued on page two.)

Extremely bad weather over the week-end prevented Pilot Ansel Eckman from getting back to Ketchikan to resume the search for wreckage from the plane of Pilot Robin Renahan. With conditions improving, Pilot Eckman got away at 12:30 noon today for the north.

Meantime, Clara Bow sent a letter to District Attorney Buron Fitts for presentation to Judge Doran expressing the hope that, if the district attorney thinks it proper, mercy be shown Miss Devoe. She adds: "The fact is I never would have called this matter to your attention in the first place if Daisy Devoe had not threatened to blackmail me. I had no other way to protect myself except to come to your office and follow your advice."

The reference to the alleged blackmail attempt referred to Miss Bow's charge that Miss Devoe had attempted to collect \$125,000 from her for the return of love letters.

ENCOURAGING ADDRESS

The address of the minister of public works on Saturday in which he stated that the work on the highway would be pushed forward rapidly is an encouraging one. It is the one work above all others that Prince Rupert people would like to see pushed ahead. It means a great deal to the people of the city and especially to those with cars. We take great pleasure in complimenting the minister on his address and on the clear statement he made in regard to the road. He stated that the government was full seized of the importance of the work, which is the most important thing of all. If the government feels it as important as do the people of Prince Rupert, the work will be finished next year.

Possibly we might mention to Mr. Bruhn what we have stated before. Prince Rupert was here for nearly twenty years and during that time hardly any money was spent here by the provincial governments that were in office. The money paid by the people for town lots was mostly spent elsewhere when it should have been spent in improving a most difficult townsite. The citizens have had to do this work and in addition have been robbed of a portion of the taxes by the governments holding out of use a large block of property in the centre of the city. For years it was considered that the sea was our highway and only after the citizens and representatives fought hard for it was it possible to get the road work started. Now it has become a vital question and we are glad to know the minister of public works recognizes it as such.

GIVING MEAL TICKETS

Might we also draw the attention of the minister of public works to the fact that a great many people in this city object to donating meal tickets to men without requiring services in return. It is done now because it is only in that way they can get the co-operation of the provincial and federal governments. Many people think there should be men with sufficient brains in the provincial and federal governments to evolve a system by which the civic and other governments might require a certain amount of labor from men who are at present receiving doles.

CURING LOCAL HERRING

For a number of years local firms have been curing local herring with excellent results. Prince Rupert kippers are of excellent flavor and are in great demand.

If it is possible to secure a supply of herring by gill netting them in the open water the herring business should receive a considerable impetus. There should be a market for large quantities of these fish, not only in the Orient but in Canada. They may be canned, kippered or filleted.

It seems a pity that under present conditions when halibut is not much in demand and the supply is beginning to fall off, that the herring industry cannot be developed. The fish are said to be excellent but the supply is small because nobody fishes for them.

We are glad to know that at least two local firms are curing herring. It is to be hoped that the industry will be extended until it becomes a very important part of the fishing business at Prince Rupert, something more than providing a supply of bait.

Man in the Moon

The other day we heard of a man who was born in Vancouver. He first saw daylight when he came to Prince Rupert.

We all would like to see the finance minister balance the budget but not at our expense.

Jake says he wants to balance his budget but his wife wants a new dinner wagon. Imagine buying a dinner wagon at a time when most people are wondering if they can buy dinner.

This year a lot of people are wondering whether to buy a boat or a car. If they ask for expert advice I should say, buy both. Things can't be any worse no matter how many of those things you get.

VOICES PROTEST

Editor, Daily News:
Dear Sir:—I wish to take this opportunity of protesting against the foreign invasion of goods not made in Canada.

What is the cause of this? Is it because the Canadians like to see their less fortunate brothers starve? Thousands would be employed if Canadians would have the back-bone to refuse foreign goods.

Thanking you, I am,

Would Have Public Finance Completion of P. G. E. Into Peace

To finance the \$15,000,000 which it is estimated would be needed to complete the Pacific Great Eastern Railway from Quesnel through Prince George into the Peace River country, J. S. Pirie, who was a candidate for mayor of New Westminster recently, suggests that the provincial government issue shares of preferred stock to be sold to the public at \$10 per share.

ter position to understand conditions than he was today.

One of the important tasks they had had lately was that of dealing with unemployment. He, with the provincial secretary and minister of mines, constituted the relief committee. While they were criticized for being careful in the matter of expenditures, they had done their best and believed they had been right.

Referring to the depression that had overtaken the country, the minister said he had every faith in British Columbia. He would be untrue to himself if he did not look with cheerfulness to the future. He urged all to help bring about a change for the better and not to reach blue ruin.

Skéna's Member

Olof Hanson spoke of the fact that he, as well as the minister, was foreign born. Both had come from the same country. They were glad to have the minister with them and were doing their best in the positions to which they had been elected. He urged that local matters be taken up with the minister while he was here. All must be reasonable in their requests. The people here did not mind as long as they got their share. The first year the government was in they felt they did not get their share but this year they were being better treated and he hoped this condition would continue. He suggested that outlying districts might get even better treatment than the older settled part of the province.

Patrick Philip said it felt like coming home to be in Prince Rupert. He had come here in the early days, walked through mud in his gum boots and had then met Mr. Hanson just as smiling and happy as he was today. He spoke of the great problem of transportation and said it was a real pleasure to be connected with the work that was going on. He said that he too came as a stranger to the country. He came direct from Ireland without a cent in his pocket and had roughed it in a rough country. Since then he had come to realize that it was God's country.

Mr. Mellish, in thanking the speakers, said their visit was appreciated. Prince Rupert people were not unmindful of the great problems, especially the financial problems, in connection with the work. He took issue with the idea that we should get only our share of appropriation. He thought the government would be justified in spending one or two million dollars in the north. It must be developed. The highway out of Prince Rupert would well repay the investment, indirectly if not directly. He was glad to have the minister here and hoped he would come more often.

Truth Christian Science Church Subject Sunday

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Truth."

Among the Bible texts included in the lesson-sermon was the following from II Timothy 3:16: "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness."

The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "As adherents of truth, we take the inspired word of the Bible as our sufficient guide to eternal life." (page 497).

DEPARTMENT OF TRADE AND COMMERCE
OTTAWA, CANADA

To Canadian Citizens,
Everywhere in Canada.

Suppose Everybody Rocked the Boat!

One of my friends, who has what he considers a refined taste in cheese and is particularly partial to imported brands, tells me that he thinks I am overstepping the bounds of good taste in keeping this "Produced in Canada" agitation up so long, and elaborating it from so many angles. In effect he says to me: "So long as the importation of cheese is lawful, whose business but my own is it if I gratify my liking for imported cheese? I pay what the law demands in the way of customs duties. Then why lecture me for doing what I have a perfect right to do?"

Whose business but his own? I am going to try to show him, in this my public answer to him, that it's everybody's business!

As an easy and effective way of doing so, an old lesson from school days comes aptly to mind. In proving his theorems, you all remember how often Euclid used to employ the "reductio ad absurdum" method—assuming the opposite of what he wanted to prove, and then showing how absurd were the deductions it involved. So let us try the same thing on this business of importing cheese, remembering always, of course, that any one of a hundred other products would serve equally well as an illustration.

First we must admit that if it's all right for some Canadians to restrict their purchases of cheese, to imported cheese, it's all right for every Canadian to do the same thing. Now if not one single Canadian were to purchase Canadian-made cheese, most of the Canadian cheese factories would have no alternative but to close up, for there isn't nearly enough export trade in cheese to keep them all going.

Next, we must concede that if there is no question about the propriety of those people, who prefer imported cheese, buying imported cheese, we must likewise concede that there can be no question about the propriety of those people who prefer imported biscuits, jams, hats, shoes, motor cars or what not, buying such articles. And as before, if there can be no objection to some Canadians buying such articles, there can be no objection if every Canadian should decide to pass up every Canadian manufacturer, and buy only articles that had been made by some foreign manufacturer, employing foreign labour and using foreign materials. Result—Every Canadian factory of every kind whatsoever (excepting only those manufacturing wholly or mainly for export) closed up, hundreds of thousands of wage-earners left stranded, tradesmen deprived of the great majority of their cash customers, landlords clamouring for rents and professional men clamouring for fees that could not be collected, empty houses, empty stores, tax sales, people moving away—all for the simple reason that nobody had any income because nobody was producing anything.

Nobody, that is to say, except the Canadian farmer. But why should we assume that he would still be producing? If Canadians unanimously chose to buy imported manufactured articles in preference to domestic manufactured articles, why should they not also choose with equal propriety to buy imported farm products in preference to domestic farm products? Many Canadians already do it regularly in the case of early fruits and vegetables. So if it's all right for some of them to do it part of the time, why isn't it all right for all of them to do it all of the time?

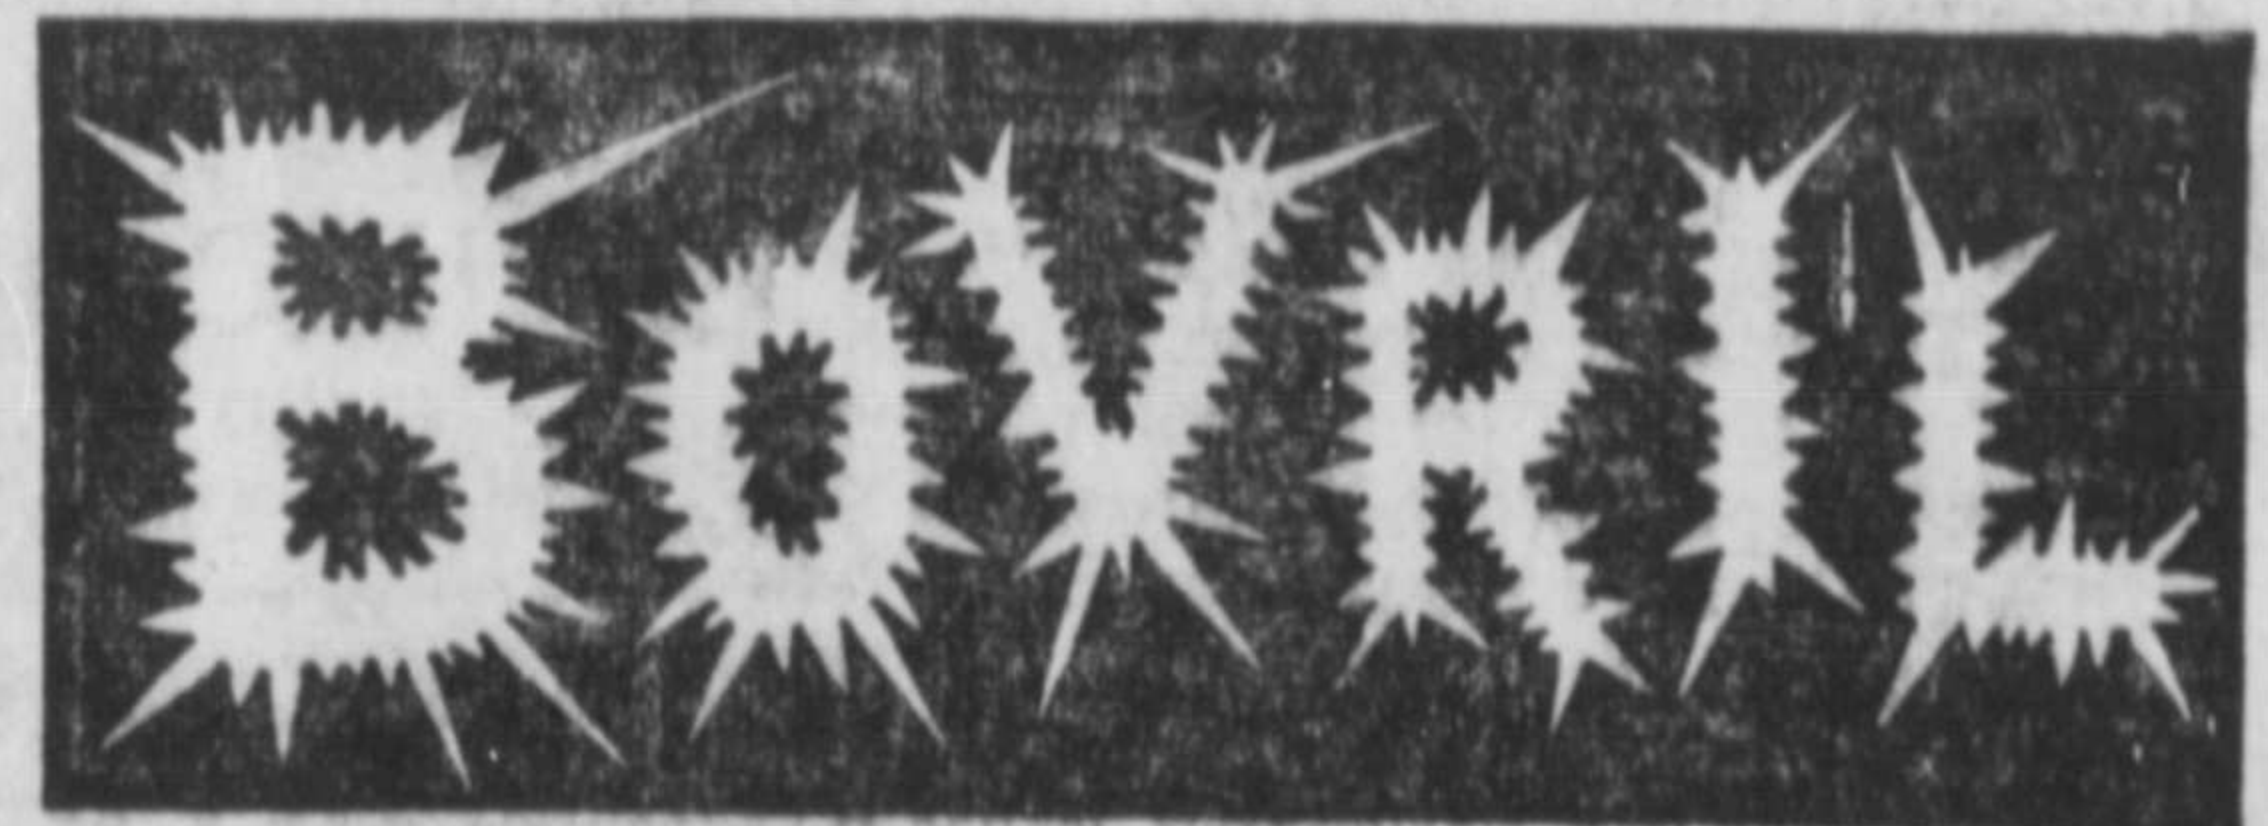

Of course by the time we got round to the point where nobody in Canada was producing anything, due to the fact that no Canadian was willing to buy a made-in-Canada product, none of us would have the wherewithal to buy the next meal. "Which is absurd," as our friend Euclid would say. Hence we are forced to the conclusion that our original assumption was incorrect. That being so, my friend should seriously consider trying to curb his appetite for imported cheese, and endeavour to satisfy it with Canadian cheese.

So to those who think that perhaps I am going a bit too far with this agitation, all I feel called upon to say is that I would rather be held guilty of overstepping the bounds of good taste in order to help my country keep within the bounds of common sense, than be given credit for keeping within the bounds of good taste when it meant letting the common sense side of the question go hang!

Very sincerely yours,

A. H. Stevens

How To Lose Fat and Get That Youthful Feeling

Over in Great Britain when a man is feeling "as fit as a fiddle" and looking the "picture of health" they say: "HE'S GOT THAT KRUSCHEN FEELING."

That means he takes his little dose of Kruschen Salts every morning. It's the same in the U.S.A.—in Germany—in Holland—in Australia—in South Africa, for Kruschen Salts are now sold the world over.

Kruschen Salts is not one salt only—it is the combination of six salts necessary to healthy life.

Take half a teaspoon in a glass of hot water before breakfast every morning, modify your diet and exercise regularly. But don't miss a morning, for Kruschen not only puts and keeps the stomach, liver, kidneys and bowels in a splendid healthy condition, but purifies your blood-stream, and sends new life and activity to every part of your body.

Materials Purchased in Town Aid Local Enterprise

When you spend dollars in your own town the dollars remain for the prosperity of the town, and the materials so purchased aid home enterprise. When you buy out of town, your dollars remain outside.

Prince Rupert, situated as it is five hundred miles from any centre has, as its hope to attain to anything more than a fishing village, the prospect of the Peace River outlet. Our fight for that outlet is with the thriving city to the south of us and yet many prominent men, owing all their success to Prince Rupert, prefer to buy in the south.

These are times when we should get together. Every dollar spent should be in the interests of Prince Rupert.

Hon. R. W. Bruhn, provincial minister of public works, and Patrick Phillip, deputy minister, after a three-days visit to the city will sail by the Camosun tomorrow afternoon on their return to Victoria.

H. A. DeWolf, local manager of W. H. Malkin Co. Ltd., and Mrs. DeWolf and daughter, who have been on a holiday visit to Vancouver, returned to the city from the south on the Camosun last evening.

Surprise Party For Anniversary

Mr. and Mrs. Vic Houston Honored By Group of Their Younger Friends Saturday

Twenty or so of the younger friends of Mr. and Mrs. Vic Houston, Sixth Avenue West, took possession of their home on Saturday evening to stage a surprise party in honor of the eleventh anniversary of their marriage. The evening was greatly enjoyed, there being music, games and old time dances. Among the musical numbers were violin solos and duets by Basil Robson and Melvin Dafoe, accompanied by Mrs. Clifford Gilker, and piano selections by Miss Cleo Mussallem and Norman Ireland.

In the course of the evening, Basil Robson, with appropriate remarks, presented Mr. and Mrs. Houston with a beautiful hand painted picture of a sailing vessel. Mr. Houston responded suitably.

Delicious refreshments were served and the singing of "Auld Lang Syne" brought a very happy evening to a close.

CHURCHMAN SUCCUMBS

Archbishop Edward J. McCarthy of Halifax Passes Away at Age of Eighty-Two

Was Born There

HALIFAX, Jan. 26.—His Grace, Edward J. McCarthy, Archbishop of Halifax since 1906, died today at the age of 82.

The Archbishop was born in Halifax in 1849 and received his preliminary education in this city in Belle Air and St. Mary's Colleges. When he reached the decision to devote his life to the priesthood he went to the Grand Seminary of Montreal to pursue studies in philosophy and theology. On completion of his studies there he was ordained to the priesthood by Archbishop Connolly of Halifax and appointed assistant at St. Mary's Cathedral.

After only a short time at St. Mary's, Father McCarthy was sent to Kentville, N.S., as curate to Rev. Father Phillip Holden, then pastor of St. Joseph's Church there with a widely scattered mission field contained within a radius of some twenty-five or thirty miles in the counties of Kings and Lunenburg.

It was in this field that the young priest gained his deep knowledge of the people of Nova Scotia and the conditions under which they lived in the isolated settlements of the inland, an intimacy that well fitted him for his first charge, which was the parish of Chester, with its missions at Dalhousie, New Ross, Bridgewater, Lunenburg and Mahone.

Soon Promoted

In 1884, just 10 years after his ordination, Father McCarthy was promoted to the important parish of Yarmouth where he remained 12 years. During his pastorate there the present beautiful church and residence were founded and improved, and it was at Yarmouth that Father McCarthy formed many of the friendships that followed him throughout his life and marked him as one of the most

prominent clergymen of the province.

On the death in 1898 of the Most Rev. Cornelius O'Rourke, rector of St. Paul's Church in Halifax, Father McCarthy was recalled to his parish to take charge of that parish, remaining there until the death of Monsignor Edward J. McCarthy in 1901, whom Father McCarthy succeeded as rector of St. Mary's Cathedral.

In 1906 Father McCarthy was elected by the Holy See to the Most Rev. Cornelius O'Rourke, Archbishop of Halifax, and consecrated to this high dignity as Apostolic Delegate to the Archbishop (now Cardinal) O'Rourke, on September 9, 1906.
