GANDHI REJECTS MACDONALD'S PLAN

PREPARING TO TIE UP MANY OF SEATTLE HALIBUT BOATS

Premier's Terms Prove Unsatisfactory To All India National Leader

Future Events Alone Will Show Whether Civil Disobedience Campaign Must Be Stiffened Mahatma Declares

ALLAHABAD, Feb. 7.—Prospects for a settlement of the Indian question on the basis of Premier J. Ramsay MacDonald's declarations at the recent round table conference in London are hopeless, Mahatma Gandhi declared today.

\$27 IS TOO HIGH RATE

Provincial Government Asked to Intervene to Get Lower Rate to Terrace on Cars

At the meeting of the Chamber of Commerce last night, B. J. Mellich, presiding, it was decided to ask the provincial government to take up with the railway company the matter of a lower rate on the railway for automobiles from Prince Rupert to Terrace and Hazelton.

EVACUATION RESCINDED

People Are Allowed to Come Back Into Razed New Zealand City, Commissioner is Informed

OTTAWA, Feb. 7.—The evacuation of Napier, one of the cities razed by the New Zealand earthquake disaster on Tuesday, has been countermanded, it was announced last night by J. W. Collins, trade commissioner for that Dominion, who said that supplies of food and essentials were now ample.

LEFT WING WINS VOTE

Labour Section Had Fleeting Victory in British House of Commons Yesterday

LONDON, Feb. 7.—Labor's left wing won a fleeting victory in the House of Commons yesterday by pushing through to a second reading a bill which would establish a minimum living wage for every worker. The vote was 122 to 51.

Prince George Hospital Board For 1931 Named

PRINCE GEORGE, Feb. 7.—F. A. Matheson, the retiring president, and W. L. Hughes were elected for two-year terms at the annual meeting of the Prince George General Hospital Association which was held recently. W. L. Armstrong and C. W. Ferry were elected for one-year terms.

HUGE TOLL ESTIMATED IN 'QUAKE DISASTER'

WELLINGTON, N.Z., Feb. 7.—Latest estimates on last Tuesday's earthquake disaster which razed the cities of Napier and Hastings and adjacent towns and villages place the damage at \$125,000,000 and the loss of life at between 700 and 1000.

VOTE DOWN PAY RAISE

Vancouver Council Has Change of Heart on Question of Aldermanic Indemnities

VANCOUVER, Feb. 7.—By a vote of 11 to 12, city aldermen, meeting in camera, as a civic finance committee, formally rescinded a motion of Ald. E. W. Dean which had been passed at Monday's council meeting to fix the aldermanic salaries at \$2000 per year instead of \$1200.

WOULD CUT SAND BAR

At the meeting of the Chamber of Commerce last night it was decided to adopt a report of the port committee asking the department of public works to dredge a channel through Metlakatla Bay. The report mentioned that this would be a most desirable improvement, not only on account of the saving of time but also because it is at times very rough outside Tugwell Island.

Novel Ice-Sled Goes 75 Miles Per Hour

Shorn of wings, this old fuselage has been converted into a novel ice-sled with speed capacity of 75 miles per hour. Two youths in the cockpit Robert Ellwell and John Caldwell of St. Clair, Michigan, salvaged the machine after it had been in a crash.

INTEREST CONTINUES

Mining Lectures Yesterday Were Again Well Attended

Over twenty were present at Dr. W. V. Smitheringale's mining lecture yesterday afternoon. The subject was gold and silver. The lecturer first referred to gold. This, none too plentiful metal, it was explained, occurs either native, in mechanical mixture with iron pyrite or in combination with tellurium. The telluride calvarite, for instance, is such a compound. The tellurides as well as gold-bearing sulphides occur as primary deposits. Then frequently gold as well as silver is found mixed with the baser metals—lead, zinc, copper and iron.

It was pointed out that few gold ores are absolutely free from silver and few silver ores are absolutely free from gold. Such ores as chalcopyrite, arsenopyrite often carry gold, but the pyrite of iron is the most apt to carry the metal. Gold may occur as primary or secondary enrichments or in oxidized zones. Silver may be found in such ores as galena, sphalerite, pyrite, (continued on page 5)

New Governor

Hon. Frank Stanfield, appointed Lieutenant-Governor of Nova Scotia, succeeding Hon. James C. Tory. He is the head of the well known underwear manufacturing concern which bears his name.

Wheat Climbing Steadily, Now Passes Sixty

VANCOUVER, Feb. 7.—The price of wheat is steadily climbing. Today at the local exchange it shot past the 60-cent rate to reach a high of 61 1/2¢ spot cash.

VISCOUNT WILLINGDON IS GRANTED EARLDOM LONDON, Feb. 7.—His Majesty has approved of the conferring of an earldom upon Viscount Willingdon, retiring Governor-General of Canada, who will shortly take up new duties as viceroy of India.

Ben Agar's Garage Together With Equipment and Two Cars Destroyed in Fire at Terrace

TERRACE, Feb. 7.—Just before three o'clock this morning flames were discovered by William Christie to be bursting from J. B. Agar's garage at Terrace. He immediately raised an alarm but although help was promptly on the scene, the combustible nature of the building and its contents made any attempt at salvage hopeless. In an incredibly short time the whole building was but a flaming mass of debris. In addition to a large quantity of expensive equipment a truck belonging to Mr. Agar and a car owned by Harry Stouth were destroyed. Damage was done to the extent of three thousand dollars, only a small portion of which is covered by insurance.

COMPROMISE IS REACHED

Dispute Between President Hoover and the U. S. Senate Over Relief Measure Believed Ended

WASHINGTON, Feb. 7.—It is believed that a compromise has been reached in the dispute between President Hoover and the Senate over the food loan measure. Leaders stated last night that compromise had been made on a \$20,000,000 loan bill to provide food clothing and medicine in the restoration of the agricultural industry.

SOLDIERS ASK FOR BONUSES

TACOMA, Feb. 7.—"We want it now, not after we're dead," is the motto of one thousand Tacoma war veterans who are demanding their service bonuses from the United States government. They claim that more than enough has been paid to France in war obligations to meet all soldiers' bonuses in the United States.

About Fifty Vessels To Be Taken to Banks By Owners Next Week

Fishing Craft to Be Tied up in Lake Union Pending Settlement of Boat's Share Dispute, Most of Seattle Fleet Will Be Idle

SEATTLE, Feb. 7.—Pending settlement of the disagreement between Union fishermen and boat owners over the question of whether the boat's share under fishing terms shall be raised from 20 to 25 per cent, 150 fishing vessels of the Seattle halibut fishing fleet will be moored on Lake Union, the Fishing Vessel Owners' Association announced yesterday. About fifty vessels, manned by owners, will be taken out to the fishing banks next week if the difficulties are not settled by then.

Capt. Saintey Is Much Opposed to Ripple Rock Pier

Capt. C. C. Saintey, master of the steamer Princess Norah, at the Ripple Rock inquiry in Victoria, told of his experiences in using Seymour Narrows during the last 10 years. He stated he passes through the narrows four times a month during the winter season and six times during the summer, and that it was always a big relief to him and his officers when through the narrows. "I can not understand why even a layman can not see the dangers of navigating through Seymour Narrows," he said. Asked by Commissioner Brydone-Jack if he considered the placing of a pier on the rock would better the conditions, Captain Saintey said: "When they put a pier on Ripple Rock I am not going to use that channel any more, and I consider I have a good job."

ASK LOWER LICENSE FEE

Chamber of Commerce Would Have Reduction in 1500 Annual Payment of Drysalteries

At the meeting of the Chamber of Commerce last night it was decided to ask for a reduction in the license fee of \$1500 on drysalteries and instead to levy a fee on the output. The matter came up as a request from the Salmon Fishermen's Association which was referred to the Fisheries Committee. The committee recommended that the fee on salteries and canneries be reduced but the chamber refused to accept the recommendation and confined its attention to drysalteries.

LIBRARY ESTIMATES

Sum of \$3.75 Will Be Needed For Work This Year

Table showing library estimates for 1931, including Librarian's salary (\$1,500), Assistant (300), Janitor (144), Books (950), Periodicals (55), Rebinding (432), Fuel (75), Utilities (150), Post office box (12), Supplies and furniture (50), Sundries (50), and Repairs (32).

CARD OF THANKS

Mr. and Mrs. H. Hansen wish to thank their many friends for the kind expressions of sympathy and loyal tributes received in their recent bereavement.

NEW TELEPHONE DIRECTORY

A new telephone directory is about to be issued. Applications for moves, changes or new listings for this issue must be made in writing to the Telephone Department, City Hall, not later than February 14. (29, 30, 32)

Palpitation Of The Heart Nerves Were All Gone

Price 50c a box

Miss Rose Griffin, Ashern, Man., writes: "About five years ago I was troubled with palpitation of the heart, caused by a shock, and my nerves were all gone, and I could not sleep. I read about Milburn's Heart and Nerve Pills and decided to try them. After I had taken three boxes I was feeling fine again. I think they are a wonderful remedy, and wish all others who suffered as I did would give them a trial." Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

COMEBACK ALWAYS SLOW

Usually when prices fall and unemployment is rife, the return to normal is slow. There is no such thing as a rapid rise in prices or a rapid return to better times.

For the past year or more there has been a falling off in prices including the spectacular drop in the price of wheat. The probability is that prices will remain low and in some commodities will possibly go lower. It is a period of adjustment following a period of inflation in which all previous values are upset.

But the world is full of gamblers and if they cannot gamble on wheat or on stocks they will turn their attention to something else. Possibly next will come real estate. Values have been very low for a long time, even during the time when other commodities were high.

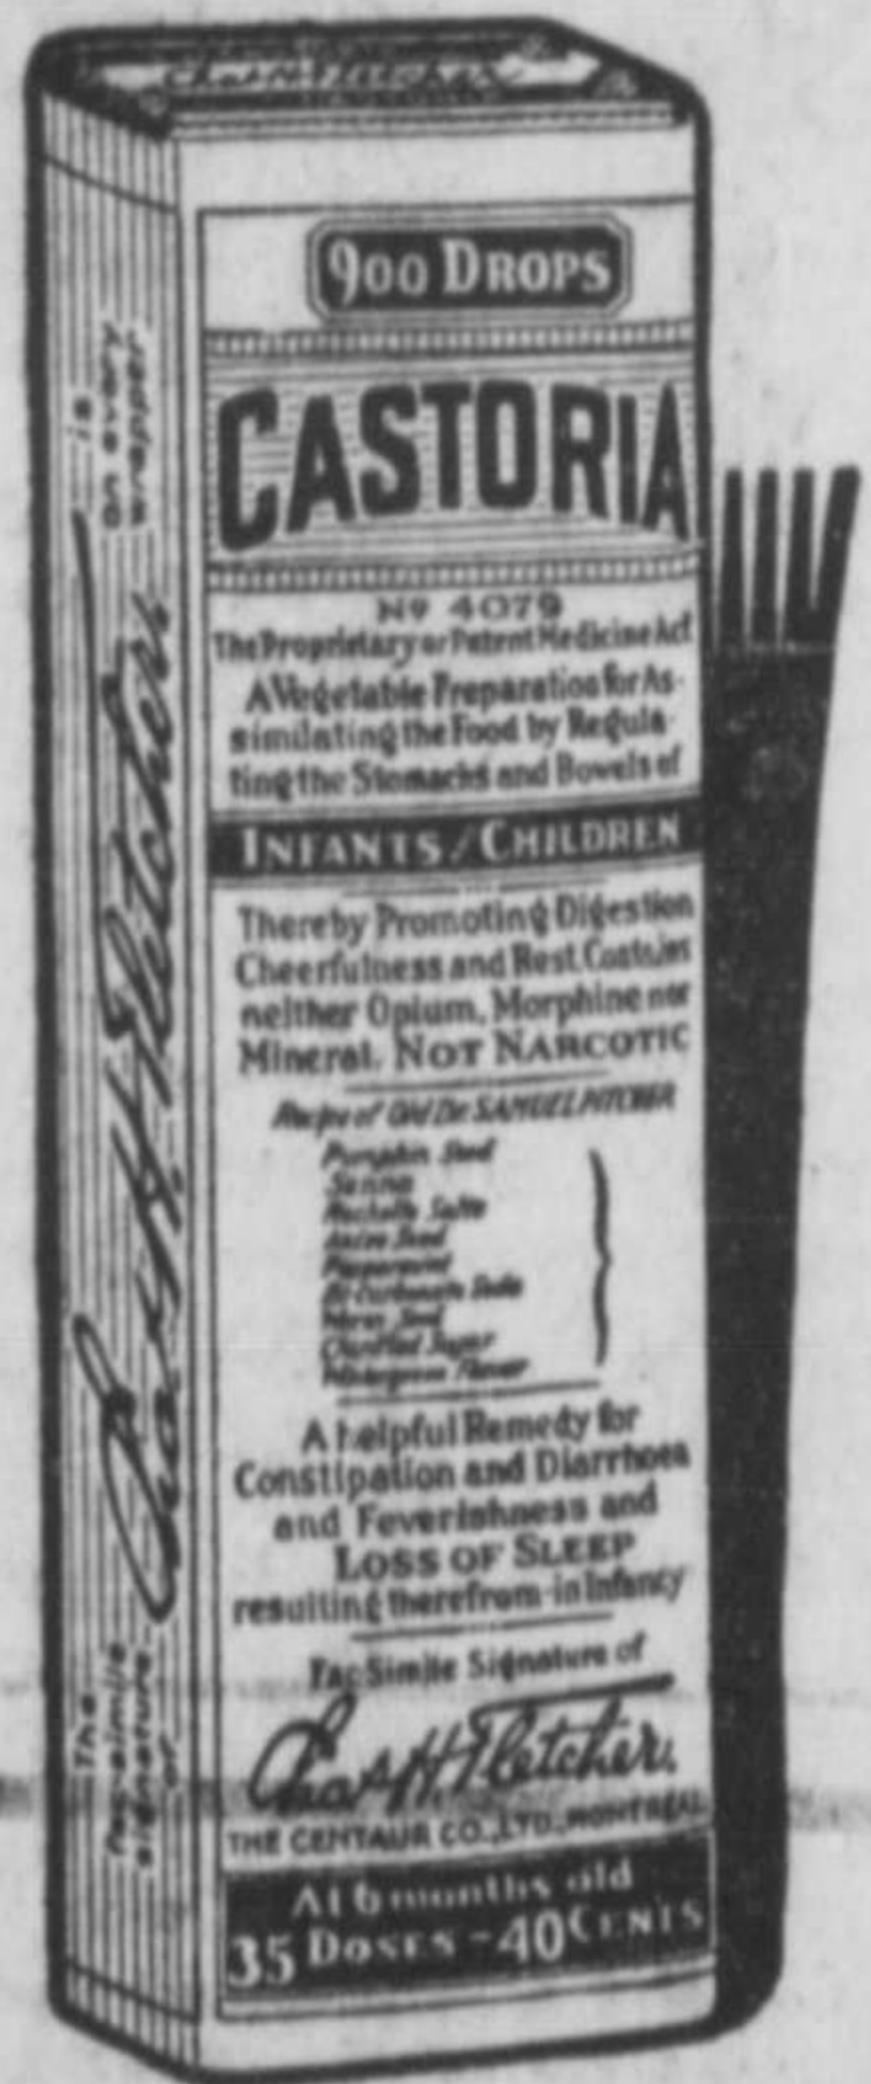

It is about twenty years since the last real estate flurry in the west and it would not be surprising if it was found that people with money turned their attention to buying land. If they do, Prince Rupert will share in the benefits for it will enable some of those who have held property to liquidate and get a little return for the taxes they have paid the city.

It is not expected that prices will soar rapidly but even a slight movement will be welcomed.

AN INDICATION

The election returns received yesterday from Liverpool indicate that the people of Britain are turning toward the industrialist policy of the Conservative party there. It may also indicate that there will be a complete turnover at the next election, although nothing is so uncertain as an election. The indications are that the MacDonald Government has about run its course and that the people of that country are ripe for a change. Many people in Canada will regret a move of that kind but radical changes in a democracy are inevitable. People tire of a good government about as rapidly as they do of a poor one.

For TEETHING troubles

FUSSY, fretful . . . of course babies are uncomfortable at teething time! And mothers are worried because of the little upsets which come so suddenly then. But there's one sure way to comfort a restless, teething child. Castoria—made especially for babies and children! It's perfectly harmless, as the formula on the wrapper tells you. It's mild in taste and action. Yet it rights little upsets with a never-failing effectiveness.

That's the beauty of this special children's remedy! It may be given to tiny infants—as often as there is need. In cases of colic and similar disturbances, it is invaluable. But it has every-day uses all mothers should understand. A coated tongue

calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever older children don't eat well, don't rest well, or have any little upset, a more liberal dose of this pure vegetable preparation is usually all that's needed. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.

Made in Canada

Man in the Moon

Next week the Legislature will be in session and then there'll be Ltopay.

All we want the Toimie Government to do is to lighten our taxes and increase the expenditures in this district. Its perfectly simple this matter of government.

In view of what Alderman McCutcheon said about moving the outside residents closer in, we are wondering what the Mayor of Seal Cove thinks about it?

We also might refer the matter to the various cigar store parliaments for their consideration before action is taken. They usually know what to do and how to do it.

Eggs seem to be coming down pretty fast. I hope they don't break because I hate the smell of that kind.

The member for Skeena travelled all over the constituency just before leaving for Victoria. He found it difficult to winch himself away from his constituents.

All week long
In the office we sit
But the week ends today
And we're sure glad of it—
Tomorrow we loaf
Or to Church we all go
A sad, sad lot
For us mortals below.

I don't mind washing the dishes for you," wailed the hen-pecked husband. "I don't object to sweeping, dusting or mopping the floors, but I ain't gonna run no ribbon through my nightgown just to fool the baby."

The following story about the Prince of Wales comes from Australia. The Prince was riding unattended outside of Melbourne when his saddle-girth broke, and while he was trying to fix it a gentleman rode up and dismounted. Noting the accent of the young rider, the stranger said: "You are from England."

"Yes."
"And may I ask your name?"
"I am the Prince of Wales. May I inquire who I have to thank for this service?"

"Oh, me," came the unhesitating answer, "I'm his dad."
On the following evening there was a fete given in Melbourne. The Prince was there and among the guests he noticed the stranger of the road. Pushing his way through the elite, Eddie advanced with a smile and an outstretched hand. "Hello, dad!" he said.

Mothers Are Entertained By Daughters

The Presbyterian Canadian Girls in Training held a very enjoyable "Mother and Daughter Banquet" last evening when the daughters entertained their mothers.

The program opened with "O Canada," which was followed by a few words of welcome by Mrs. C. G. Ham, the C. G. I. T. leader. Grace was then pronounced by Rev. J. Kennedy.

After the banquet, a toast to the King was proposed by the chairman, Mrs. Ham.

There were vocal solos by Betty Cameron and Dorothy Fraser, accompanied by Miss Cleo Mussall and a piano solo by Miss Elsie Finlay.

There was also a toast to the mothers proposed by the president, Miss Beulah McKinley, which was responded to by Mrs. D. C. Stuart and was followed by a short address on "What Mother and Daughter mean to each other," by Mrs. J. W. McKinley. There were then a few chosen words from the Elder, J. W. McKinley, which were suitably responded to by Miss Margaret Willisroff.

A very hearty vote of thanks was tendered Mrs. J. W. McKinley and Mrs. W. L. Sandison for their very able support on this occasion in assisting the girls.

The happy evening was brought to a close with the singing of "God Save the King."

Miss Winnifred Eby played the piano for opening and closing songs. Serviteurs were Miss Elsie Finlay, Miss Jean Ritchie, Miss R. Wood and Miss Dorothy Fraser.

FAREWELL BANQUET

Fishermen Honored By Sons of Norway Last Night

Good Program

Taking the form of a farewell to the halibut fishermen of the port prior to their departure for the fishing grounds, the first annual banquet last night in the Moose Hall of the Sons of Norway Society was an unqualified success. There were well over 250 persons at the banquet, three long tables being stretched the entire length of the hall in addition to the head table. The supper was followed by a program of speeches and musical selections and the proceedings came to a close with a dance for which many more persons arrived in the hall.

The banquet opened with the singing of "O Canada" after which the gathering proceeded to do full justice to a fine meal which had been spread. Following a few remarks of welcome by Oscar Sather, president of the Sons of Norway, the toast to "The King" was observed in the usual manner.

The first speaker was Mayor C. H. Orme who referred to the value of such societies as the Sons of Norway. One important thing these organizations could do was to play a part in the campaign against war. His Worship felt.

T. H. Johnson, manager of the Canadian Fish & Cold Storage Co. and past president of the Canadian Fisheries Association, was the second speaker. He referred to the association of Norway and England in history. Just as the Norwegians had left their mark on Britain years ago, so were they doing in Canada today but in a more peaceful way. Canada could well benefit if the Norwegians brought here their fine traditions and virtues, their thrift and hospitality. Speaking more particularly to the fishermen, Mr. Johnson referred to the present depressed conditions in the fisheries as well as other businesses. The demand for fishery products, however, would come back, he asserted, and there would be better times for all. He expressed the hope that 1931 would be a prosperous year for the fishermen.

Speaking on behalf of the Sons of Norway, John Dybhavn expressed appreciation for the large audience in attendance. He referred to the important part the Norwegians, trained in the hard school of their coast, played in the fisheries of the British Columbia coast. Conditions might seem hard at the present time but much worse times had been survived. Mr. Dybhavn urged the fishermen to keep their courage up and bespoke for them a successful year.

Olof Hanson M.P., speaking briefly, referred to the large size of the gathering. The Sons of Norway was an organization which was needed here. The Scandinavians made good citizens such as Canada was in need of. He, too, hoped the fishermen would have a successful year.

The program of speeches was interspersed with fine musical numbers, all of which were much appreciated. Miss Linnea Hanson and Walter Howarth sang vocal solos, accompanied by Mrs. James S. Black. Vocal solos by Mrs. F. W. Allen, Mrs. J. H. McLeod and M. H. Blott were accompanied by Mrs. Blott. Peter Sunderland gave a humorous recitation.

Danced Till Morning
Music for the dancing which lasted until the early hours of the morning was provided by the Premier Orchestra. Tom Dybhavn was

master of ceremonies. Refreshments were again served at midnight.

Tom Dybhavn was general chairman for the whole affair. The decoration committee, which did effective work, consisted of Rolf Jensen, Olav Bendicksen, Carl Bendicksen, Toralf Murvold and Hans Underdahl. The refreshments committee was made up of Hans Underdahl, Olav Skog, H. Johansen, T. Murvold, Ole Skog, H. Sorensen, K. Gudmunson and Dan Larsen.

The ladies of the society played an important part in connection with the fine supper spread. Mrs. Hans Underdahl was in charge with others taking part. Mrs. A. Jensen, Mrs. Ole Wick, Mrs. S. Andersen, Mrs. A. Dybhavn, Mrs. E. Skog, Miss T. Petersen, Miss L. Ytreberg and K. Petersen. In charge of the kitchen was Mrs. Charles Edwards with Mrs. T. Dybhavn and Mrs. O. Welle assisting.

DEPARTMENT OF TRADE AND COMMERCE OTTAWA, CANADA

To Canadian Manufacturers, In Every Line of Business.

Remember the Golden Rule!

For some weeks now I have been urging consumers in every part of Canada to buy your products in preference to imported products. I have tried to make it quite clear to them that, in their own interest, it's the common sense thing to do.

Now if it is sound common sense that your fellow Canadians should support you, in your efforts to increase and to improve your production, isn't it also sound common sense that you, in the purchase of your materials, should support other Canadian producers who are trying to increase and to improve their production?

It's a poor rule that won't work both ways! When others wrench themselves out of life-long habits to do something that will help you, don't you agree that it's up to you to reciprocate in whatever way you can?

So let me ask you very frankly—are you co-operating in this campaign as fully as you might co-operate? When you buy materials and supplies, do you always make a conscientious effort to find some Canadian producer who can give you what will fill the bill? Conceding for the sake of argument that there are certain things you must import, because they cannot be produced in Canada, are your reasons for importing other things that do not fall within that category such that you would have no hesitation in making them public?

No fair-minded person is ever going to reproach you for buying imported materials and supplies when you can advance perfectly valid reasons for doing so. For example, if, after making diligent search, you were unable to find a single Canadian producer who could make delivery in the quality, and in the quantity, and within the time necessary to meet your requirements, and at a price you could afford to pay, that would be sufficient reason for your giving your order to a foreign producer.

And yet it hardly seems like playing the game, does it? It's equivalent to saying to the small Canadian producer—"To qualify for my business, you've got to show me that you can meet your big foreign competitor on every point—quality, quantity, time and price—otherwise you don't get it!"

If every Canadian consumer had always taken that stand, and stuck to it, many a man who is a successful Canadian manufacturer to-day would have lost his entire stake without ever having made a sale! But despite the competition he was up against, and the handicaps under which he had to labour, he made sales because there were enough Canadian consumers willing to see to it that he got his start.

So I ask you, aren't there times when you could well afford to show some Canadian producer just that little extra consideration that would be the means of starting him on his way to bigger and better business? If he cannot give you the quantity you want, within the time you want it, the reason probably is that you and other Canadian manufacturers have never given him enough business to warrant him enlarging the modest little plant he began with. If he cannot deliver you out of stock the exact quality you want, might he not soon be able to do so with the patronage that you and others might give him, by enabling him to keep pace with his big foreign competitor in bidding for skilled labour, in trying out new processes, and equipping himself with new devices as they are brought out? And if his price is a little high, just ask yourself if the preservation of your business makes it absolutely necessary for you to buy in the cheapest market!

As I write this I have before me two competitive articles, both produced in Canada. They sell to the same class of people, at the same price, and are apparently on a parity so far as quality is concerned. Both are made from the same kind of material, but whereas the material in one is 100 per cent Canadian, the material in the other is 100 per cent imported. The producer of the article made from Canadian material admits that he could make a little more profit for himself by using imported material, but he won't do it—he says he doesn't need to! The producer of the article made from imported material, while contending that the exigencies of his business make it necessary for him to buy in the cheapest market, only uses that as an excuse to swell his profits!

If you want the "Produced in Canada" movement to be a real success—to bear abundant fruit—remember the Golden Rule, and do unto others as you would have others do unto you! Don't assume that a thing is not now procurable in Canada, just because it wasn't when you first started importing it! Why not take us into your confidence regarding all your importations, and see if we cannot help you to locate suitable Canadian sources of supply?

Very sincerely yours,

H. H. Stevens

Minister of Trade and Commerce.

Is Your Back The Weak Point

Then get your kidneys right by using Dr. Chase's Kidney-Liver Pills

Very few people are in perfect health. There is a weak spot somewhere. When you get tired or your system gets a little run down you feel the effects at your weak spot.

If your weak spot is your back, then you may suspect that your kidneys are not in perfect order. The back aches or is weak and sore; you may have headaches; there will be dryness of the skin, pains in the limbs and disorders of the bladder.

The quickest way to regulate the kidneys is by using Dr. Chase's Kidney-Liver Pills. They are bound to be effective because they arouse the action of the kidneys, liver and bowels and thereby ensure the elimination of poisons from the system.

Baptist Easter Sale, April 2. 32

Dinnerware, china, crockery, glassware, Heilbroner's Store.

There were 50 passengers aboard the steamer Princess Norah which was in port this morning bound from Vancouver to Skagway. Three persons disembarked here from the vessel.

At the meeting of the Chamber of Commerce last night a letter was received from R. F. McNaughton C.N.R. district passenger agent stating that the railway was unable to grant a low week-end rate from Terrace to Prince Rupert and return.

Charles E. Blaney, travelling passenger agent, Canadian Pacific Steamships, arrived in the city on the Princess Mary yesterday afternoon from Vancouver in the course of his annual northern tour. Tomorrow evening he will sail on the Camosun for Anyox and Stewart.

The Chamber of Commerce last night decided not to take any action in regard to the employment of Japanese at the canneries as asked by the Northern B. C. Salmon Fishermen's Association. It was reported to the Board that the Humpback Bay cannery was to have an allotment of Japanese licenses this year. The Chamber did not think it quite fair to take any action without first hearing from the cannerymen.

BUY HERE; HELP CITY

This Is Something Every One Can Do to Boost Prince Rupert

Many things can be done to help make a better situation in the country as a whole and, particularly in the home town. Public spiritedness, community pride and persistence with the authorities are among these things. When one considers all the things that may be done for the betterment of the community, after everything is analyzed, one important thing stands out that every one can do—and that is to buy at home. Situated as Prince Rupert is, it is most important that we should leave our dollars in Prince Rupert instead of sending them out to assist in making even larger the big cities of the east and south. This is something that every public spirited person can do. If all our money were sent out this way, our city would be hopeless.

Albert & McCaffery have a larger stock of building materials right here in town today than they ever have had. They are prepared to supply everything that goes into a house. They are also prepared to supply the best Vancouver Island and Alberta coal in any quantities. Phone 116 or 117 before ordering. (34) ALBERT & McCAFFERY.

The County Court case of Lasalle Extension Co. vs. A. R. Sinclair has been further stood over. It is expected the action will be settled shortly.

The Chamber of Commerce is writing R. D. Purdy, head of the Wheat Pool, in connection with the use of the local elevator in reply to a recent letter received stating the Pool's views.

Mrs. L. Simmons and daughter, Miss G. Simmons, of Carcross, Y.T., were passengers aboard the ss Princess Norah this morning returning north after a trip to Vancouver and elsewhere in the south.

Mrs. R. V. Ellis sailed by the Princess Norah this morning on her return to Ketchikan, having come this far with her husband, Dr. Ellis, who left here this morning by train for a trip to the Eastern States.

Among those sending flowers to the Hanson funeral yesterday were Mr. and Mrs. R. C. Webber, Mr. and Mrs. Ed. Hansen, Ruth Ingvald Nils, Mr. and Mrs. J. Jorgensen, Hygga Ladies' Club, I. Ingebriksten, Mr. and Mrs. L. Sandvar, Miss Joan Eyoifsen, Mr. and Mrs. J. Johnson, Selvig's and Mr. and Mrs. Bindiksin.

John Mathers of Sandspit, who went south last week with the remains of his father, Adam Mathers, who died at Sandspit and who was buried at Victoria, arrived in the city from the south on the Princess Mary yesterday afternoon and will proceed to his home on the Queen Charlotte Islands aboard the Prince John tonight.

The matter of Peace River outlet was mentioned at the Chamber of Commerce meeting last night and it was left for the Council of the Chamber to take any action it thought fit in regard to sending a delegate to Ottawa. M. P. McCaffery suggested that this would be a good opportunity to make the local road pay by turning the Peace River grain outlet into it.

Notice

Mrs. H. Worsfold has bought out H. A. Dodd's interest in the Seal Cove Hotel. All accounts will be paid by her after this date. February 5. H. A. DODD. (33)

HEAD HURT?

WORK won't wait for a headache to wear off. Don't look for sympathy at such times, but get some Aspirin. It never fails.

Don't be a chronic sufferer from headaches, or any other pain. See a doctor and get at the cause. Meantime, don't play martyr. There's always quick comfort in Aspirin. It never does any harm. Isn't it foolish to suffer any needless pain? It may be only a simple headache, or it may be neuralgia or neuritis. Rheumatism. Lumbago. Aspirin is still the sensible thing to take. There is hardly any ache or pain these tablets can't relieve; they are a great comfort to women who suffer periodically; they are

always to be relied on for breaking up colds.

Buy the box that says Aspirin and has Genuine printed in red. Genuine Aspirin tablets do not depress the heart. All druggists.

Church Services

Drydock, No. 2	8 1368 171
Station	6 1148 191 1/2
Machine Shop, II	6 1166 194 1/2
Machine Shop, I	8 1561 195 1/2
Drydock, No. 1	8 1587 198 3/4
Car Shop	8 1594 199 1/2
Gen. Office, II	8 1718 217 1/2

Only Two Games Of Billiards Are Played Last Eve

Only two games were played last night in the Billiard League fixture between the Elks and Canadian Legion. C. P. Balagno won his game for the Elks from Frank Ziemann by a score of 250 to 218 while Marcus Andrews, for the Legion, beat Frank Bray 250 to 136. Games remaining to be played are as follows:

William Mitchell (Elks) vs. A. Murray (Canadian Legion).
W. E. Williscroft vs. G. P. Tinker. M. E. Young vs. Charles Bappte.

These, as well as three postponed games from the Grotto vs. Canadian Legion fixture from last Tuesday will be either played off or defaulted tomorrow.

Provincial Constable Sam Service of Anyox, who has been spending a few days in town, will sail by the Camosun tomorrow evening on his return to the smelter town.

"Jumping" Joe Savoldi, former Notre Dame star full-back, has acquired title of "Jerking" Joe, since landing job in Chicago as soda dispenser

Seattle Eskimos Go to Top of Pacific Coast Hockey League By Beating Vancouver Six-Four

SEATTLE, Feb. 7.—Staging another sensational uphill battle last night, Seattle Eskimos came up from behind and converted a score of four to two against them at the start of the third period to six to four in their favor over Vancouver Lions. The third period opened four to two against Seattle but the Eskimos soon evened it up. Bobby Connors broke the tie and sent the home town crowd into hysterics. Joy reigned supreme for the Seattle fans a minute or so later when Mack Sutherland scored the sixth Seattle goal.

The result of the match puts Seattle and Vancouver on even terms at the top of the Pacific Coast Hockey League, the Portland Buckaroos being two points behind.

Washington Takes First Hoop Game

Defeated Oregon State 39 to 30 in Interstate Match Last Evening

SEATTLE, Feb. 7.—University of Washington defeated Oregon State 39 to 30 here last evening in the first of two deciding conference northwest basketball games. The concluding game will be played here tonight.

Swanson, Carey and West were the stars of the Seattle quintette.

Arthur Somers Roche, famous author, with Miss Louise van Alen, society girl, who is engaged to marry the Prince Alexis Mdivani, as they appeared recently at Palm Beach, Florida, U.S.

CHANGES IN LEGISLATION ARE ASKED

Stewart Board of Trade Sends List of Recommendations to Local Chamber

At the meeting of the Chamber of Commerce last night, B. J. Mellish presiding, a list of proposed changes in mining regulations was received from the Stewart Board of Trade and referred to the mining committee for report. The list of proposals follows:

1. That recording fees be reduced where prospectors record assessment work on more than one claim at one time.

A suggestion was made that the fees be 25c. per claim with a maximum of \$2.50 where more claims are included in the one recording.

2. That companies not owning the properties upon which they are working be made to deposit sufficient cash with the Mining Recorder to cover all operating costs for one month ahead to protect merchants and freighters, as is now being done to protect workmen.

3. That Prospectors be made eligible to take advantage of the Workmen's Compensation Act.

4. That cabins, trails and other work done to improve a claim be allowed to be applied as assessment work.

5. That when a location is recorded a sketch of the ground be filed with the recorder so that composite maps may be made up showing roughly what ground has been staked and what ground is open.

6. That provision be made by Statute to stop the practice of those men (commonly known as "Fraction Hounds") who stake small fractions inside the boundaries of other bona fide stakings—and that such small fractions, when discovered as the result of a survey should become the property of the surrounding claims.

E. F. Woodward, Houston, Texas, ranks high man for 1930 by scoring a general average of 200 on 1,800 targets. He set a record by breaking 606 targets without making a miss shot.

Parent-Teacher Bridge and Whist Enjoyable Affair

A very enjoyable bridge and whist party was held last night in the I. O. D. E. Hall by the Prince Rupert Parent-Teachers' Association. Prize winners in cards were: whist, F. J. Feasby and Mrs. E. W. Tucker; bridge, Miss Patricia Gwyer and D. McCorkindale. After the playing of cards, delicious refreshments were served.

Mrs. Robert Blance, president of the association, took a prominent part in the affair, for which Mrs. S. V. Cox was convener. Others on the committee were Mrs. J. E. Boddie, Mrs. H. B. Eastman, Mrs. F. Dalby and Mrs. E. B. Baker. D. H. Hartness and E. W. Tucker were masters of ceremonies and Mrs. E. Boddie presided at the door.

Smithers Parent Teachers Elect Officers for 1931

SMITHERS, Feb. 7.—The Smithers Parent-Teachers' Association has elected the following officers for the coming year:

Honorary presidents, H. E. Blanchard and Vernon Crockett. President, Mrs. L. S. McGill. Recording secretary, Miss P. Downey. Corresponding secretary, Miss I. G. Ball. Auditor, Mrs. Wilkinson. Convenors for nominating committees—Mrs. L. S. McGill, Mrs. Charles Morris and Mrs. P. Davidson.

PREMIER IN EAST

Important Kirkland Lake Mining Deal Is Reported

According to reliable eastern authorities, Premier Gold has acquired a substantial interest in the Toiburn Gold Mining Company, formed to develop the Tough Oakes-Burnside property, at Kirkland Lake, in Ontario.

Almost unlimited capital is behind the reported new move of Premier, which has behind it the powerful American Smelting & Refining Company of New York.

Tough Oakes was the first property to start operations in the Kirkland Lake camp, following discovery of big vein values in 1912, and continued intermittently until 1928. Some \$2,909,460 in gold was recovered from Tough Oakes.

A great deal of exploration work has been done by Bunker Hill Extension Company during 1930 and, during 1915 and 1916, dividends amounting to \$398,625 were paid by Tough Oakes. This will be Premier's first entry into the eastern mining field.

Baptist Ladies' Aid Has Meeting

Well Attended and Enthusiastic Gathering Last Evening at Home of Pastor's Wife

The Baptist Ladies' Aid had a largely attended and enthusiastic meeting last evening at the home of Mrs. F. W. Dafeo, the pastor's wife, Cotton Street. Two events of last month—the congregational supper and a tea—were reported to have been very successful. Plans were discussed for a Welsh tea to be held at the home of Mrs. Bert Morgan and the Easter sale. Mrs. George Hibbard, the president, was in the chair.

At the conclusion of the meeting, delicious refreshments were served by the hostess who was assisted by Mrs. W. W. Wrathall, Mrs. J. Armstrong and Mrs. Vic Houston.

RECORD IN TINY CAR

Capt. Malcolm Campbell Smashes Still Another Mark With Speed of 94.031 Miles

DAYTONA BEACH, Florida, Feb. 7.—Captain Malcolm Campbell yesterday established a world's speed record of 94.031 miles an hour for tiny automobiles with piston displacement of less than forty-five cubic inches. The previous record was 87.76 miles per hour.

INTEREST CONTINUES

(continued from page 1)

chalcopryite, chalcocite, but the most frequent carrier is the familiar form known as galena. Native silver, sulphides and arsenides are less common. Among silver ores there are argentite or silver glance, pyrargyrite or ruby silver, proustite or light ruby silver, stephanite black or brittle silver polybasite, cerargyrite or horn silver, bromyrite, embolite, iodyrite and tetrahedrite.

The general mode of occurrence is in fissure veins. Gold has been found to occur in rare instances as an original content of igneous rocks. Veins carrying these metals will, as a rule, be of the quartz or altered andesites type.

In closing, Dr. Smitheringale spoke briefly on the condition of silver mining today and referred to the probable causes of great depression in values.

A number of questions were asked in regard to the veins that generally carry the metals. Reference was again made to primary ores and secondary ores recovery of gold from pyrites, the accepted use of the terms agglomeration and conglomeration. Further reference was also made to stocks and chief batholithic eruptions, to flows of altered granite (rhyolite), to contacts, to contact metamorphic zones, to the effect of erosion and surface changes generally. Interesting facts were also given in reference to hydrothermal solutions as affected by the changing temperature of zones or rather strata through which they may pass.

Evening Lecture

In the evening great interest was again shown in the study of ores and rocks. There were about thirty present. The subject had to do with openings in the rocks. The speaker explained that by this is meant the innumerable cracks, crevices, joints and other openings, whether large like caves or microscopically small, and in which hydrothermal or surface solutions, vapors or gases, may be enabled to deposit their contained minerals. Such openings will be found more numerous and perhaps more pronounced in sheared zones. Some of these openings may be primary, that is, they may have existed in the rock at or near the magmatic stage. The reference here is, of course, to igneous rock. Calcite, quartz, and possibly a metal such as copper may find lodgment in such primary openings.

Illustrative reference was made to amygdaloidal lava rock. In passing reference was made to the well known openings or spaces in sand, gravel, etc. and their resulting sandstones and conglomerates. Some openings are made by the solvent action of water or possibly other fluid. Gas veins and other fillings tell a story of such openings. Phosphates are sometimes found in so called sink holes or limestone cavities. Owing to the ever present stresses referred to in other lectures innumerable fractures and joints are caused.

Reference was made to the columnar joints in basic dykes, to joints so frequent in lava flows, to the ladder structure in veins, to joints caused by such changes as that of limestone to dolomite, by the process of expansion as that in the change of peridotite to serpentine, to contorsional (torsional) stress producing the curved or warped cracks and surfaces, to the folding and crumpling of sedimentaries as in the case of synclinal ant-

Continuing, the speaker referred to shearing stress—normal and reverse—to volcanic eruption, to what is called conjugate fracturing, to fracturing even resulting from crystallization.

Among questions asked were some relating to the differences between several varieties of porphyry. The monzonite, granite and quartz varieties were especially mentioned. The speaker showed how these differences are brought about by referring to the manner and time and ratio of content formation. It was also shown how difference of color in monzonite, for instance, was occasioned. Another question brought out a comparison and description of the size, the strike and the consequent comparative value of ore deposits in the zone or vein.

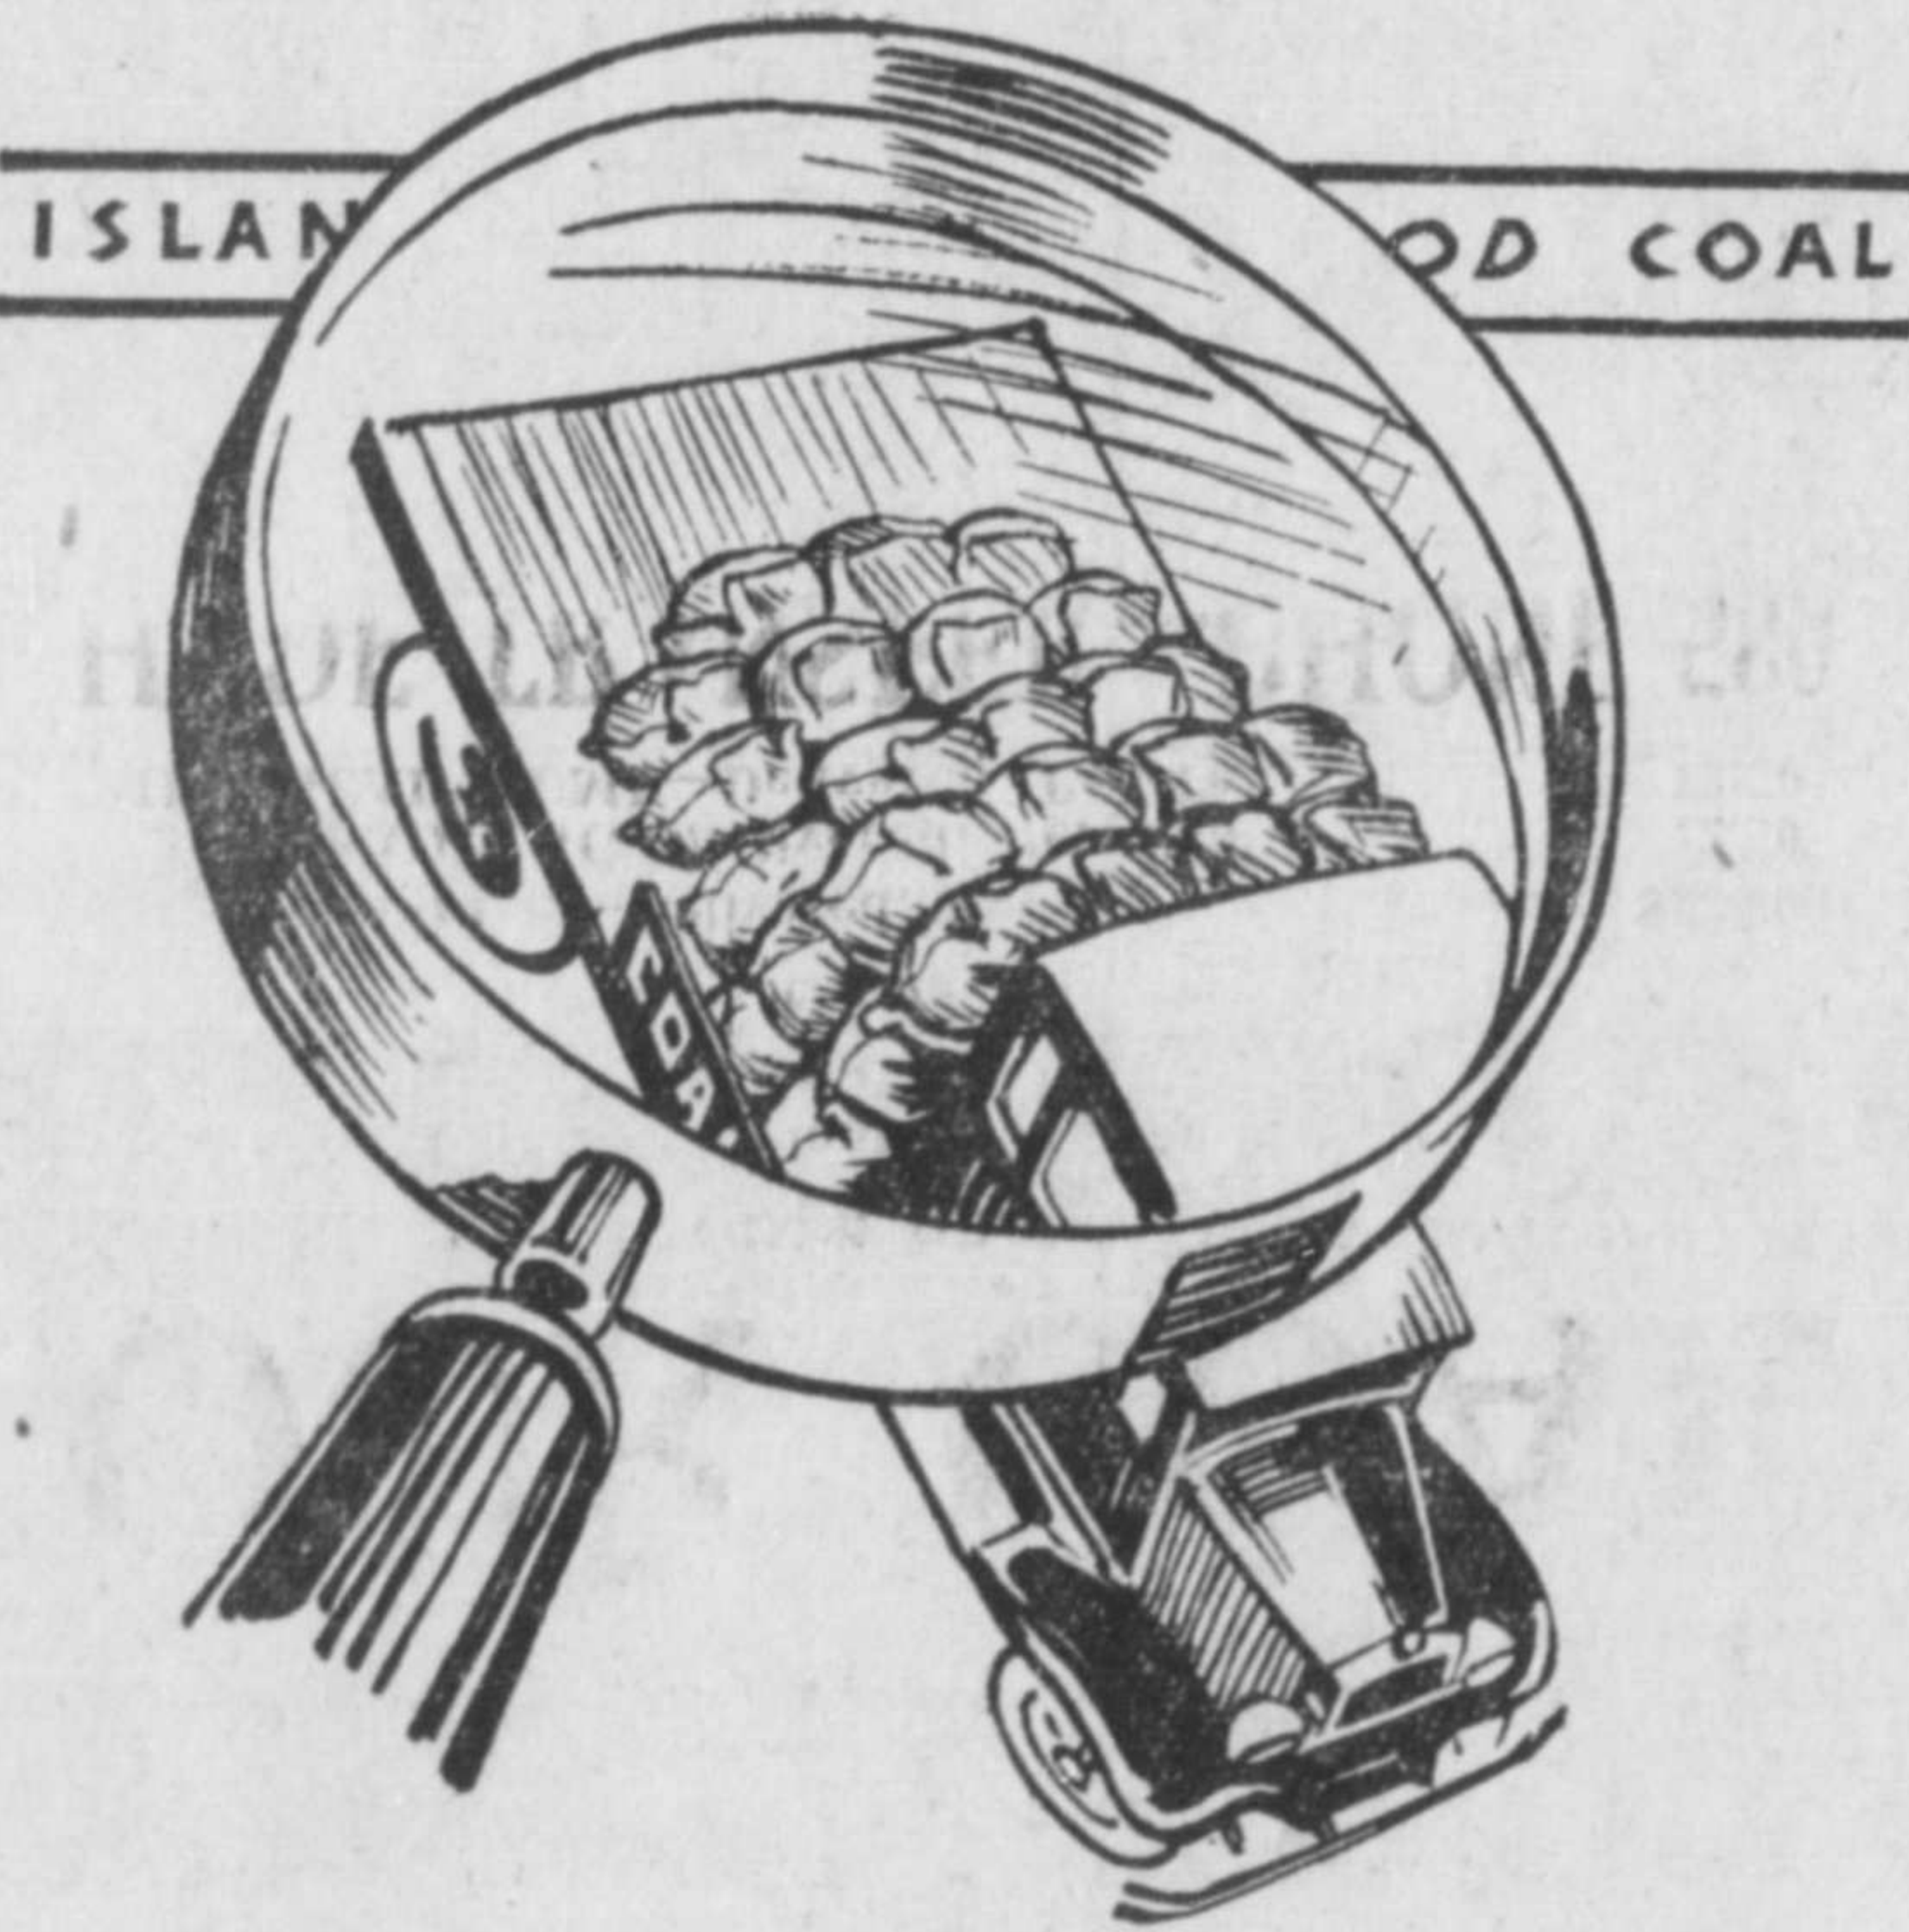

Another question developed a comparison of walls, it being shown that even a comparatively large zone of mineralization may show one or more rather pronounced bounding walls beyond which ore deposition, particularly if fracturing of the country rock took place, might occur.

The lecturer, Dr. Smitheringale, gave a list of references or instructional books and recommended their study to the interested prospector or fieldman.

BRINGING UP FATHER

By George McManus

ARE YOU SURE ABOUT YOUR COAL DEALER?

Do you always feel "safe" when you telephone him your order? When you have ordered "Wellington" does your delivery-slip always show "Wellington"? And do you actually get ALL "Wellington"?

Can you tell one coal from another? Do you know, for instance, the difference between a high-grade bituminous coal from Vancouver Island . . . and the light-weight, moisture-laden lignite, for which you often pay more money and always get less heat?

Yes . . . you can be absolutely sure about all these things if your dealer's name is listed among the "Approved Dealers" below. These men are all reputable merchants. Their code of business ethics permits neither mixing . . . nor substitution . . . nor short weight. They are in a position to give you more heat per dollar . . . 30% more . . . because they all sell Nanaimo-Wellington and Comox Coals.

MANY AIDS NAVIGATION ARE ASKED

More Suitable Ship Asked to Give Proper Attention to Northern Work

At a meeting of the Chamber of Commerce last night recommendations were received from the port committee asking for a number of aids to navigation. The report was adopted and the requests will be forwarded to the Marine Department at Ottawa. It follows:

Representations are so frequently being made by Master Mariners and others re the necessity of further aids to navigation in the vicinity of Prince Rupert that your Port Committee after studying the situation, and hearing evidence, begs to submit the following partial list of such desired improvements for the approval of the Chamber.

1. For the route to the westward, through Brown Passage:

A lighted buoy on Hammer Rocks.

A lighted buoy on Alexandra Bank.

A lighted buoy on Petrel Rocks in place of the present light on Kinahan Island, which does not serve to the best advantage.

2. For vessels plying to and from the North:

A lighthouse and powerful fog signal on Parkin Island, near the entrance to Portland Inlet. It is stated that this installation would be of great value not only to vessels running to Anyox and the Naas, but also to those coming south from Portland Canal and Alaska.

3. To the Southward:

Move the lighted whistling buoy now at Oval Bank to Butterworth Rocks, and install a new light at Seal Rocks.

4. For the needs of Fishing Vessels and other smaller craft:

A day mark on Slippery Rock northeast of Hodgson Reefs.

Three more lights in Metlakatla Passage.

It is not to be understood that the committee is forgetting the light on Bonilla Island, for which we have been pressing so long. We consider that improvement the most necessary of all, but in addition, strongly urge the installation of the above aids.

The Marine Department is handicapped on this coast through lack of a suitable light house tender in this district, for the "Newington," as is well known, is poorly adapted for the work. The "Estevan" is the only Department vessel capable of handling buoys. She is stationed in the south and can be spared only at intervals for work in this vicinity. It follows that there is a limit to the number of lights which can be cared for with the present facilities, and probably a suitable light house tender is one of the things most badly needed before the waters in this district can properly be safeguarded.

WATERFRONT WHIFFS

Herring Run on in Full Swing and Harvest is Being Taken—Co-operative Cannery Planned—Local Planes Coming Next Week

The herring run is now on in full swing at Pearl Harbor near Port Simpson, a few miles north of Prince Rupert, and a large harvest is being taken for the halibut bait store of the Canadian Fish & Cold Storage Co. and for the use of the Rupert Marine Co. in its reduction plant. During the past week, the Rupert Marine Products resumed operations at the reduction plant, which has been closed down since last fall. A crew of about fifty men was taken on and this proved welcome employment which was sought by a good many more men than could be taken care of. The reduction plant should now operate steadily for the rest of the year with halibut offal following the herring run and then salmon offal. The Gammon & Watt seineboat Zenardi is taking the fish at Pearl Harbor for the Rupert Marine Products with boats of the reduction company packing it in to the plant. Three and four scowloads are coming each day.

Capt. Ole Skog is seining the herring at Pearl Harbor with his boat Fredella for the Canadian Fish & Cold Storage Co. whose own boats are bringing the fish in. As usual, several hundred tons of herring will be put up by the company for halibut bait purposes.

Johnny Tait of Port Simpson brought the first fresh spring salmon of the season into Prince Rupert last Saturday and disposed of 100 pounds to the Bacon Fisheries who, in turn, placed in on the local retail market where this delicious variety, always popular, found a ready sale. The salmon were taken in Cunningham Passage near Port Simpson. Springs should from now on be coming in in ever increasing quantities.

R. Spouse, expert kipperer and bloater, has arrived in Prince Rupert from Victoria to join the staff of the Bacon Fisheries whose fish curing business is ever expanding.

With a view to operating a co-operative salmon cannery here, the Northern British Columbia Salmon Fishermen's Association is holding an option on the site and buildings of the old Somerville cannery on the local waterfront just west of the Canadian Fish & Cold Storage Co.'s plant. Whether or not the cannery will be established there depends upon whether a licence is granted by the provincial fisheries department. It is possible that a mild curing plant may be operated anyway. It would be allied with similar co-operative canneries on the southern part of the British Columbia coast. It is understood the association has a three months' option on the property.

Another matter that is expected to be ironed out before the commencement of 1931 halibut fishing operations out of Prince Rupert is that pertaining to the demand of the fish buyers to change the grading of fish, making first class halibut weighing between 10 and 60 pounds instead of from 10 to 80 pounds as it has been. As the second class fish—that under 10 pounds and over 60 or 80 as the case may be—usually brings a considerably lower price than the first class, boat owners believe that the change in grading would mean a considerable financial loss to them and they are loath to accept any such change as that proposed. There are many who sympathize with the fishermen in their claim, remembering that 1930 was not such a good year for them even with the old grading.

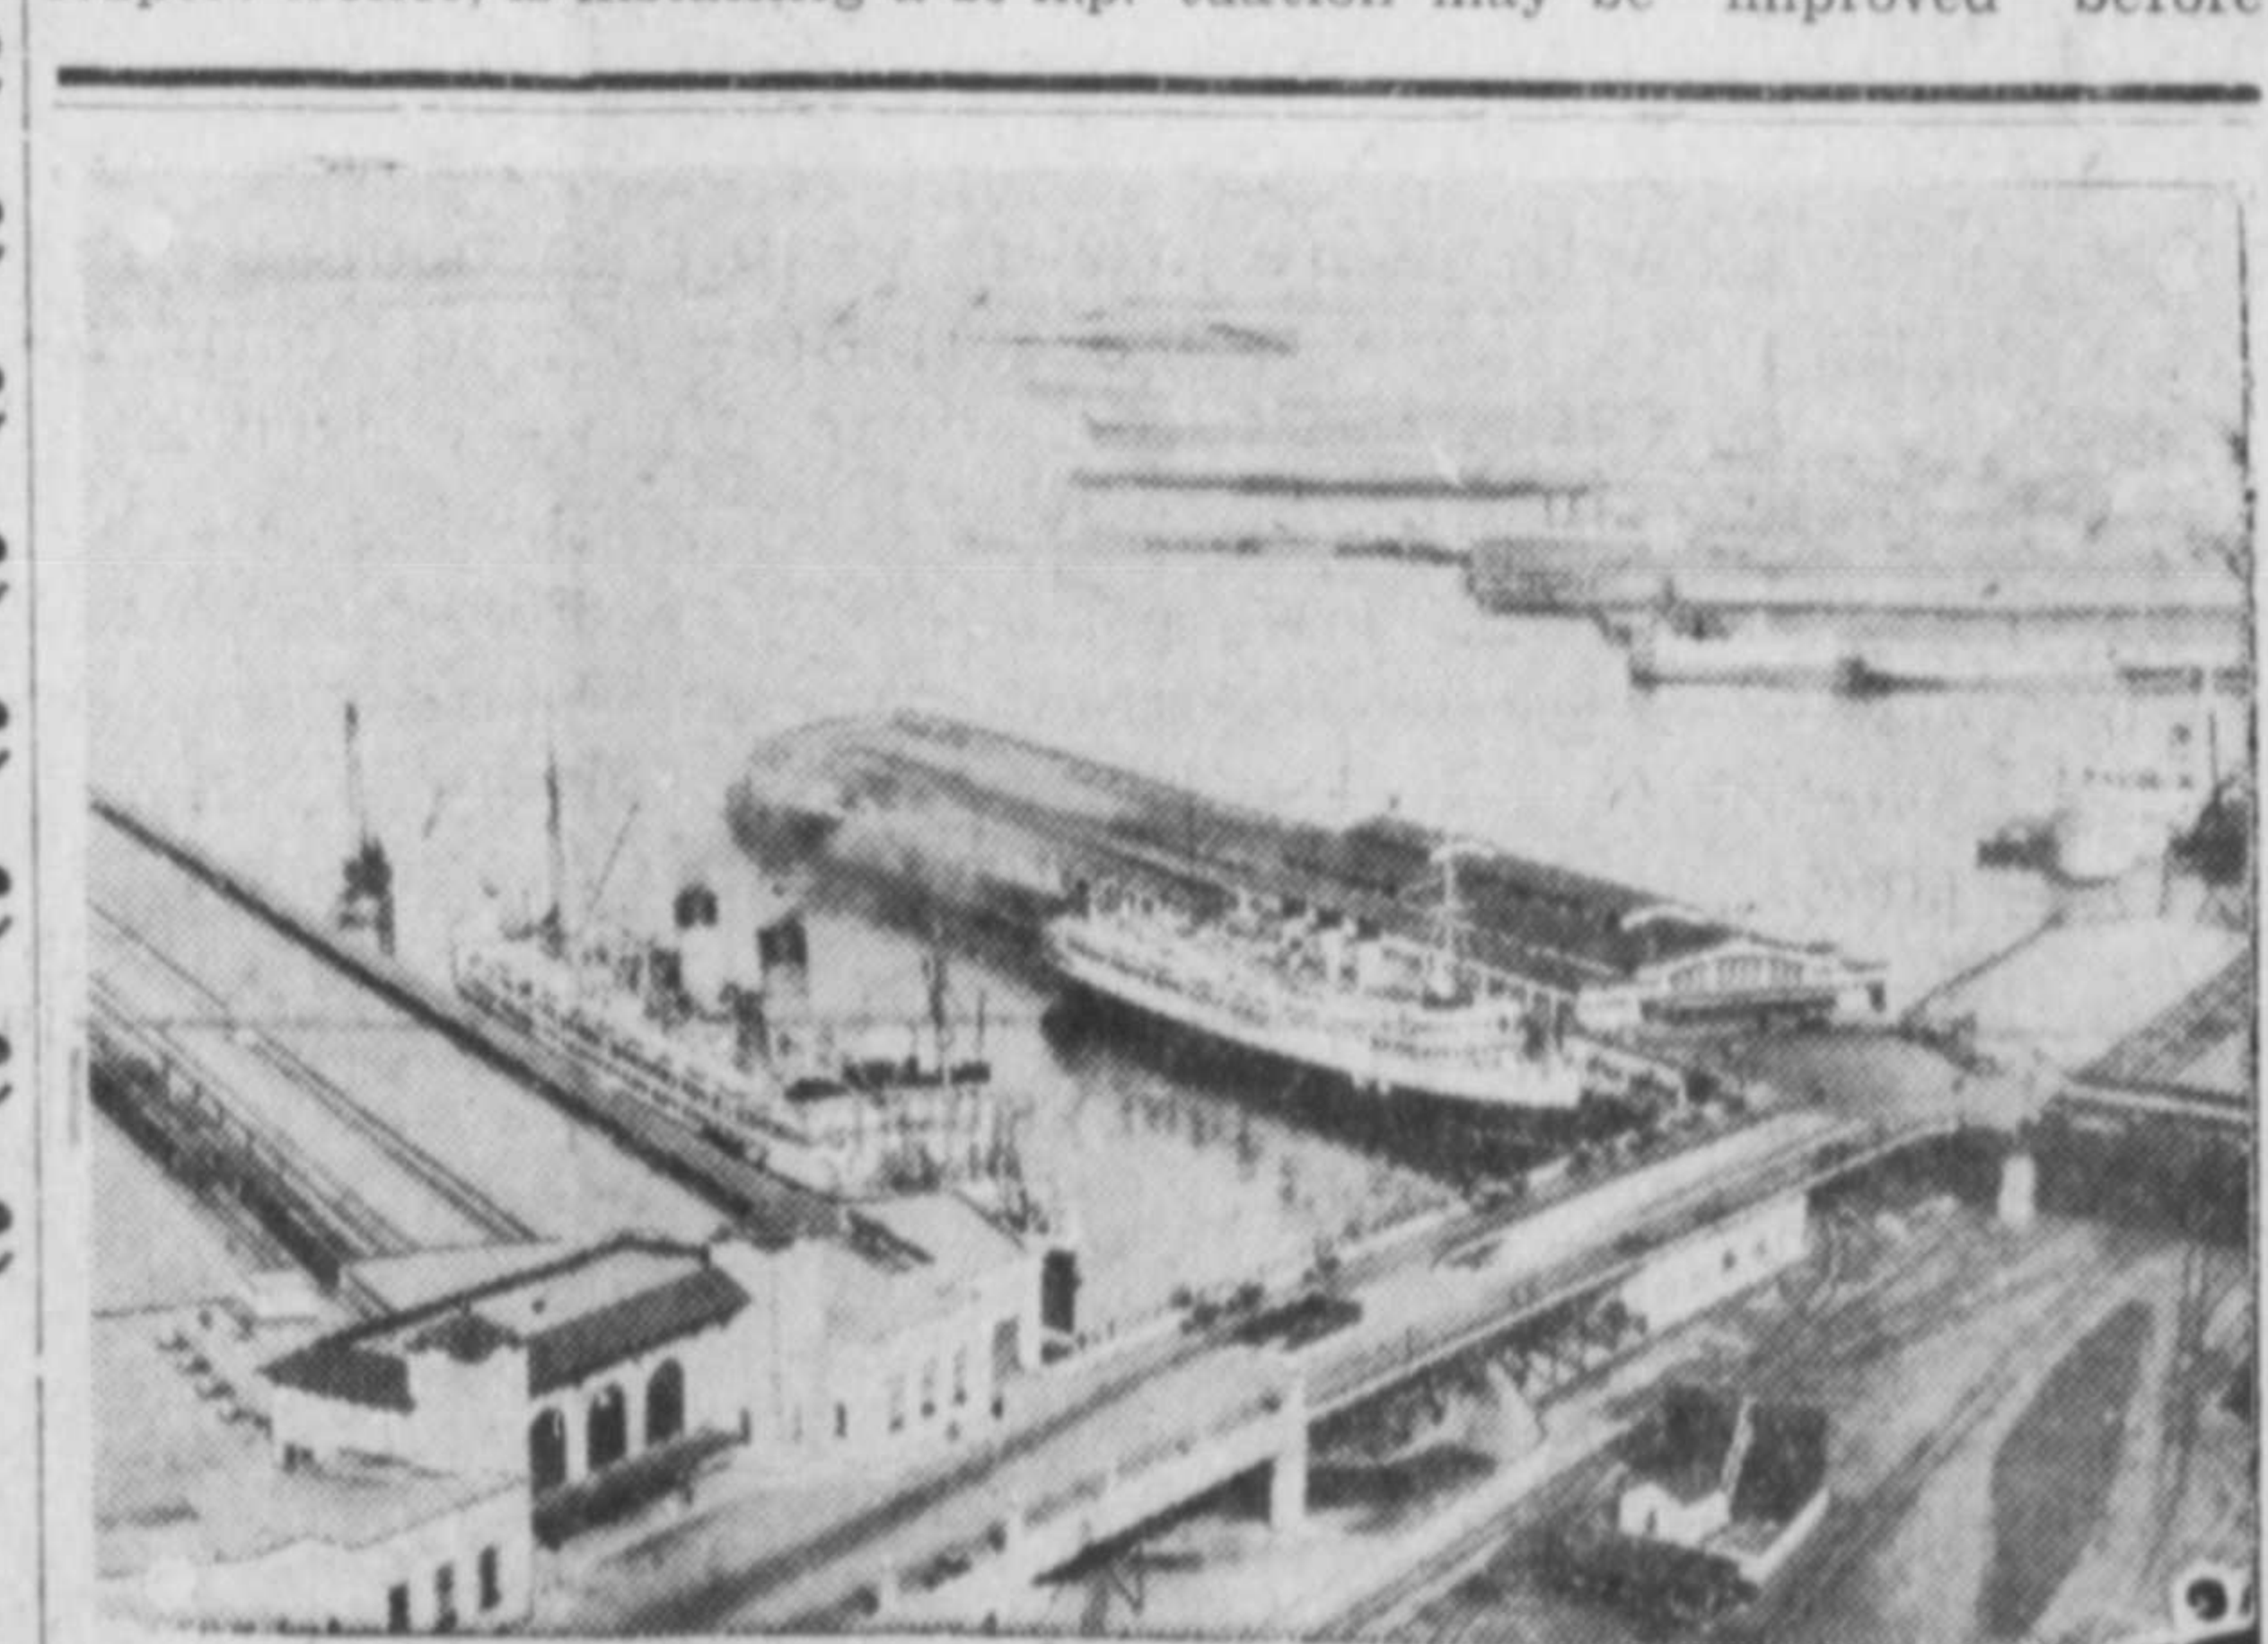

Capt. H. K. Kohrt, pioneer Prince Rupert troller, is installing a 20 h.p.

On Tuesday, the Pacific Salvage Co.'s Pachenia made a trip to Humpback Bay, Porcher Island, to bring up seventy-five cases of salmon from the Chatham Sound Packing Co.'s cannery. The salmon was sent from here by steamer to Vancouver.

So far, prospects are said to be not very bright for the forthcoming salmon season, particularly because last year's pack has been so slow in moving out to the markets and some, at least, of the cannery companies are feeling the financial pinch as a result. However, the situation may be improved before

Harry Scott of Lowe Inlet hand logging fame has been spending a few days in town this week. He came north on Wednesday night in his gasboat Lila and was figuring on leaving this week-end.

On Tuesday, the Pacific Salvage Co.'s Pachenia made a trip to Humpback Bay, Porcher Island, to bring up seventy-five cases of salmon from the Chatham Sound Packing Co.'s cannery. The salmon was sent from here by steamer to Vancouver.

This photograph shows an interesting view of Vancouver harbor, British Columbia, where ships from the seven seas may be seen any day in the week.

June when operations start and it is expected that there will not be a great diminution in operations generally speaking. For the higher grades of salmon, such as sockeyes and cohoes, there will likely be the usual demand and good prices.

The Indian Department power cruiser Naskeena left on Tuesday for Kitkatla and returned Wednesday. Making the trip was Indian Agent W. E. Collison who conducted the annual election of councillors at the native village.

Fisheries of Canada

Complete statistics of the fishing industry of Canada for the year 1929 have just been issued by the Dominion Bureau of Statistics, in co-operation with the Department of Fisheries. The report gives information regarding the landing and marketing of fish in each fishing district in Canada, with totals for counties and provinces. The number and value of boats and gear is also shown by fishing districts, and details regarding fish canning and curing establishments, by counties. The total catch of all kinds of fish in 1929 amounted to 1,063,094,900 pounds, and the marketed value was \$53,518,521. The industry had a capital investment of \$62,579,444 and gave employment to 80,450 persons. Canada exported in 1929 fish and fish products to the value of \$37,546,393, while imports of similar products were valued at \$4,233,906.

SOUR STOMACH

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard anti-acid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes. Don't depend on crude methods.

Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Remember—the genuine is always a liquid. It cannot be made in tablet form. Look for the name Phillips'. It is always on the wrapper for your protection. Druggists everywhere have the 50c bottles.
