Canada is in a fortunate position at a time when there is an adverse rate of exchange against her dollar, so far as American appraisement of currency values is concern- we all pull together with one object common ones will suffice. First ed. The large part of her national debt is held in the Dominion.

Of an approximate amount of \$116,000,000 owing in interest on borrowings, upwards of \$8,000,000 is payable in the Dominion. This principle of financial self support will affect the new loan.

CHALLENGE TO PEOPLE

The issue will be in the nature of a challenge to the determination of Canadian people to show their faith in the country. The greater the success that is achieved in the flotation the more will it illustrate self confidence and the security of Canadians' belief in their own resources and will be shipped by next fall. destiny. At the time of its issuance the government will be prepared to show the people for what it is wanted, under the terms of the blank cheque policy secured by R. B. Bennett from Parliament last session. It is an emergency loan for emergent purposes, and because of that the people will be asked to do their own financing and show their ability to meet and conquer the problems that confront them.

RADIO INTERFERENCE

Editor, Daily News:-

The president and officers of the Prince Rupert Radio Association have been inundated with como plaints regarding local interferloc ence and poor reception during the past weeks. A certain amount of .00 this is undoubtedly due to atmospheric conditions, but a great deal 00 is absolutely local. Our radio in-.00 spector has been working steadily and has found several causes for the local, the other interference being out of his jurisdiction. Some of the most consistent interferences are from the power line and the C. N. Telegraphs. This latter interference has been tested a number of times and it has been proved that a great deal of trouble comes from the generator operated there. The powers that be in the east have been notified and have been very polite about the condition, saying that the trouble would be taken care of, but to date no improvement has taken place. On Armistice Day one radio listener heard quite plainly on his machine the telegraph transkind should not exist. There are has been doing all in its power to very small cost, there seems only

Intermediate Game

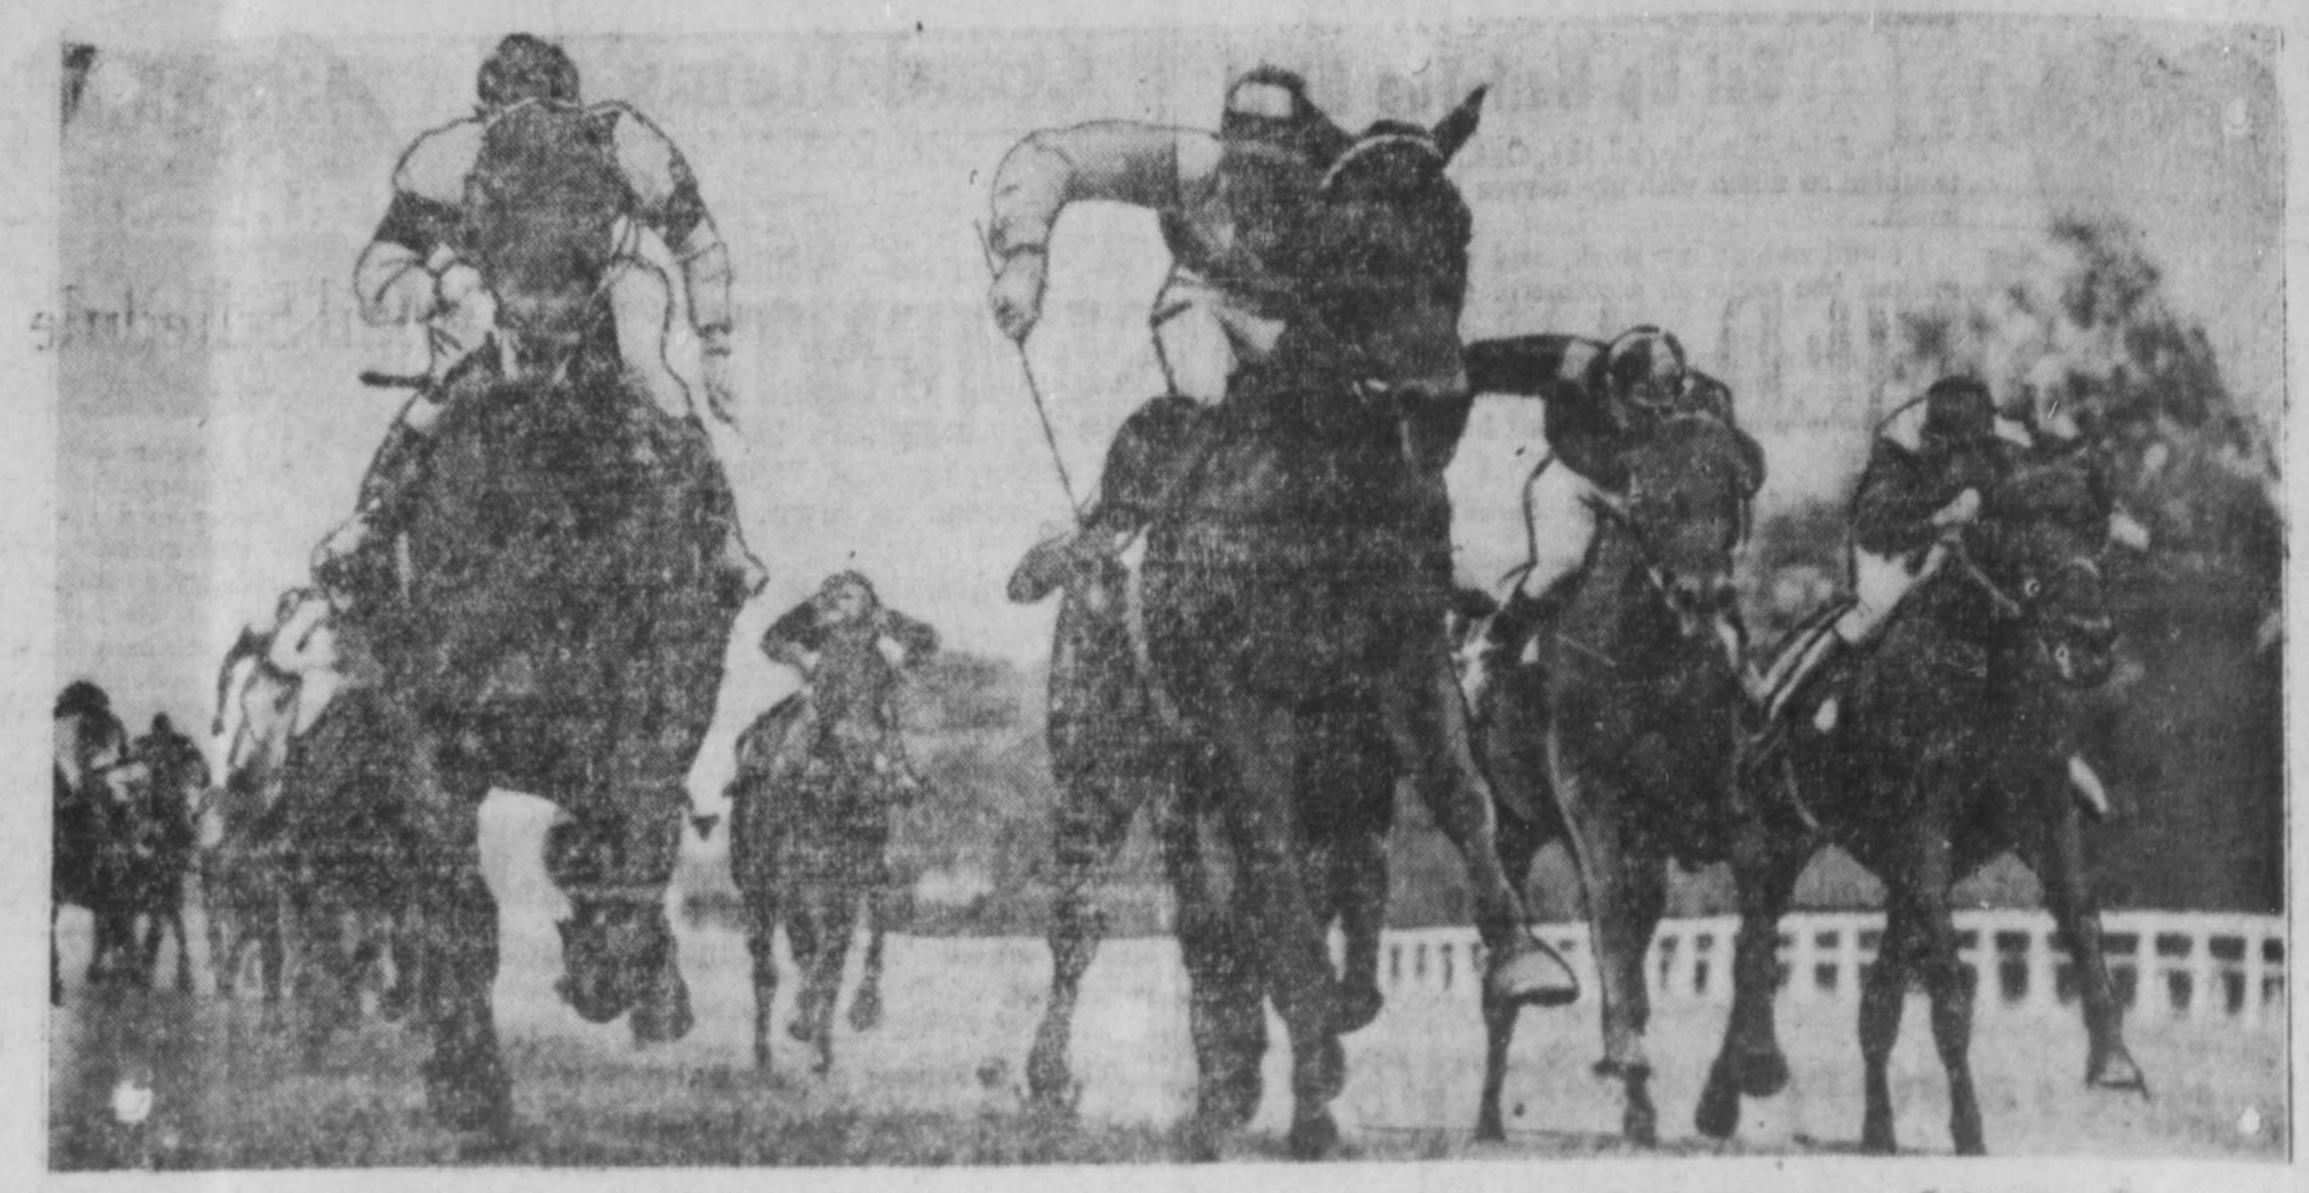

As usual, the intermediate game was a thriller. With the score nearly tied many times, the Students were lucky to knock out a 34-26 vin over the Merchants. This latter team has been considerably strengthened with the addition of Pearce and McNulty. the former player being high scorer for Merchants with six field baskets. As these players round into condition, with their weight and experience, they will be a serious menace in the intermediate division. Eric Dingwell and Currie worked hard and consistently. When Dingwell's shooting eye gets into shape, look out, for he takes more pots at that basket than anybody. The High School team was wild in the first half, playing very indifferent basketball and the half ended 14-10 for High, However, Wingham, who was pretty badly off, had a rest and after thinking it over, went in again with Vance assisting Unger and Walters in piling up a big score Walters worked well at centre and flashed some brilliant shooting; Vance, though not entering into the scoring, was probably the backbone of the Students defence.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subect of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of The Daily News costs only 10c a week to residents of the city, or \$3.00 a year to those who live outside the city but in Northern or Central B. C. Put yourself in line for happiness and good cheer by subscribing today, if you are not already taking the paper.

> Be optimistic. Read the Daily News of Prince Rupert and cheer up. Keep in touch with the district. Read all the advertisements. Then buy at home. Buy the home paper. Have faith in the city. Work hard and smile. That's the way to keep yourself happy. There is nothing like Optimism to cheer yourself up and ban the blues. Make a start at once and give the plan a good trial.

PRINCE RUPERT Likes the Best!

Prince Rupert merchants say that their customers like to buy goods of the best quality. They are a discriminating people.

If there are any Prince Rupert people not taking the Daily News regularly we suggest that they are making a mistake in not taking the best. The price is now so low that it is a mistake to do without the paper that circulates throughout the district.

Call up the Daily News business office and ask that the boy call and collect.
